PORTFOLIO HOLDINGS, AND PROXY VOTING**

**Privacy.** The Eaton Vance organization is committed to ensuring your financial privacy. Each of the financial institutions identified below has in effect the following policy ("Privacy Policy") with respect to nonpublic personal information about its customers:

Only such information received from you, through application forms or otherwise, and information about your Eaton Vance fund transactions will be collected. This may include information such as name, address, social security number, tax status, account balances and transactions.

None of such information about you (or former customers) will be disclosed to anyone, except as permitted by law (which includes disclosure to employees necessary to service your account). In the normal course of servicing a customer's account, Eaton Vance may share information with unaffiliated third parties that perform various required services such as transfer agents, custodians and broker/dealers.

Policies and procedures (including physical, electronic and procedural safeguards) are in place that are designed to protect the confidentiality of such information.

We reserve the right to change our Privacy Policy at any time upon proper notification to you. Customers may want to review our Policy periodically for changes by accessing the link on our homepage: [www.eatonvance.com](http://www.eatonvance.com).

Our pledge of privacy applies to the following entities within the Eaton Vance organization: the Eaton Vance Family of Funds, Eaton Vance Management, Eaton Vance Investment Counsel, Boston Management and Research, and Eaton Vance Distributors, Inc.

In addition, our Privacy Policy only applies to those Eaton Vance customers who are individuals and who have a direct relationship with us. If a customer's account (i.e., fund shares) is held in the name of a third-party financial adviser/ broker-dealer, it is likely that only such adviser's privacy policies apply to the customer. This notice supersedes all previously issued privacy disclosures.

For more information about Eaton Vance's Privacy Policy, please call 1-800-262-1122.

**Delivery of Shareholder Documents.** The Securities and Exchange Commission (the "SEC") permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called "householding" and it helps eliminate duplicate mailings to shareholders.

**Eaton Vance, or your financial adviser, may household the mailing of your documents indefinitely unless you instruct Eaton Vance, or your financial adviser, otherwise.**

If you would prefer that your Eaton Vance documents not be househanded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

**Portfolio Holdings.** Each Eaton Vance Fund and its underlying Portfolio if applicable will file a schedule of its portfolio holdings on Form N-Q with the SEC for the first and third quarters of each fiscal year. The Form N-Q will be available on the Eaton Vance website [www.eatonvance.com](http://www.eatonvance.com), by calling Eaton Vance at 1-800-262-1122 or in the EDGAR database on the SEC's website at [www.sec.gov](http://www.sec.gov). Form N-Q may also be reviewed and copied at the SEC's public reference room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the public reference room).

**Proxy Voting.** From time to time, funds are required to vote proxies related to the securities held by the funds. The Eaton Vance Funds or their underlying Portfolios (if applicable) vote proxies according to a set of policies and procedures approved by the Funds' and Portfolios' Boards. You may obtain a description of these policies and procedures and information on how the Funds or Portfolios voted proxies relating to Portfolio securities during the most recent 12 month period ended June 30, without charge, upon request, by calling 1-800-262-1122. This description is also available on the SEC's website at [www.sec.gov](http://www.sec.gov).

**MANAGEMENT'S DISCUSSION OF FUND PERFORMANCE**

Eaton Vance Insured Municipal Bond Funds (the Funds) are designed to provide current income exempt from regular federal income tax, federal alternative minimum tax and, in state specific funds, state personal income taxes. The Funds invest primarily in high-grade municipal securities that are insured as to the timely payment of principal and interest.

As discussed in Note 11 to the Funds' financial statements, the Funds' financial statements have been restated. The accompanying management's discussion of fund performance gives effect to that restatement.

**Economic and Market Conditions**

Third quarter economic growth slowed to 1.6%, following the 2.6% growth rate achieved in the second quarter. With higher mortgage rates in the market, led largely by the persistent Federal Reserve (the Fed) tightening, the housing market continued to soften, with building permits and existing home sales leading the way. However, energy prices declined significantly in the quarter, somewhat offsetting the impact of a weakening housing market. The economy continued to create jobs over the period, with the unemployment rate standing at 4.6% as of September 30, 2006.

Inflation expectations moderated with the lower energy prices, although the core Consumer Price Index (measured on a year-over-year basis) has demonstrated a slow but steady rise. The Fed, which raised short-term rates 17 times since June 2004, is currently in a pausing mode, awaiting further economic inputs to determine the future direction of interest rate moves. At September 30, 2006, the Federal Funds rate stood at 5.25%.

Municipal market supply for the first half of the year was lower than that experienced in 2005. As a result, municipals have generally outperformed Treasury bonds for the year ended September 30, 2006, as demand has remained strong. At September 30, 2006, long-term AAA-rated, insured municipal bonds yielded 90% of U.S. Treasury bonds with similar maturities.\*

For the year ended September 30, 2006, the Lehman Brothers Municipal Bond Index (the Index), an unmanaged index of municipal bonds, posted a gain of 4.45%. For more information about each Fund's performance and that of funds in the same Lipper Classification, see the Performance Information and Portfolio Composition pages that follow.

**Management Discussion**

## Edgar Filing: EATON VANCE INSURED FLORIDA MUNICIPAL BOND FUND - Form N-CSR/A

The Funds invest primarily in bonds with stated maturities of 10 years or longer, as longer-maturity bonds historically have provided greater tax-exempt income for investors than shorter-maturity bonds. Given the flattening of the yield curve for other fixed-income securities over the past 18 months with shorter-maturity yields rising more than longer-maturity yields management felt that the long end of the municipal curve was a relatively attractive place to be positioned. However, given the leveraged nature of the Funds, rising short-term rates have increased the borrowing costs associated with the leverage. As borrowing costs have risen, the income generated by the Funds has declined. Please see the Performance Information and Portfolio Composition pages that follow for a description of each Fund's leverage as of September 30, 2006.

Because of the mixed economic backdrop of contained inflation expectations, a weakened housing market and continued growth in the labor market, Fund management continued to maintain a somewhat cautious outlook on interest rates. In this environment, Fund management continued to focus on finding relative value within the marketplace in issuer names, coupons, maturities and sectors. Relative value trading, which seeks to capitalize on undervalued securities, has enhanced the Funds' returns during the period.

**Rating Distribution\*(7),(8)**

By total investments

*\*The rating distribution presented above includes the ratings of securities held by special purpose vehicles in which the Fund holds a residual interest. See Note 1B to the Fund's financial statements. Absent such securities, the Fund's rating distribution at September 30, 2006 is as follows:*

AAA	87.5	%	BBB	2.7	%
AA	3.9	%			
A	5.9	%			

Leverage: 35.2%

*The leverage amount is Auction Preferred Shares at liquidation value as a percentage of the Fund's total assets excluding assets and floating rate notes payable deemed held pursuant to FAS Statement 140. The Fund uses leverage through the issuance of preferred shares. Use of financial leverage creates an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).*

*(1) Returns are historical and are calculated by determining the percentage change in share price or net asset value with all distributions reinvested. The Fund's performance at market share price will differ from its results at NAV. Although share price performance generally reflects investment results over time, during shorter periods, returns at share price can also be affected by factors such as changing perceptions about the Fund, market conditions, fluctuations in supply and demand for the Fund's shares, or changes in Fund distributions. Performance results reflect the effect of leverage resulting from the Fund's issuance of Auction Preferred Shares. (2) The Fund's market yield is calculated by dividing the last dividend per share of the fiscal year by the share price at the end of the fiscal year and annualizing the result. (3) Taxable-equivalent figure assumes a maximum 35.00% federal income tax rate. A lower tax rate would result in a lower tax-equivalent figure. (4) The dividend declared on October 31, 2006 reflects a reduction of the monthly dividend of \$0.001667 per share. (5) It is not possible to invest directly in an Index. The Index's total return does not reflect the expenses that would have been incurred if an investor individually purchased or sold the securities represented in the Index. Index performance is available as of month end only. (6) The Lipper*

*Averages are the average total returns at net asset value of the funds that are in the same Lipper Classification as the Fund. It is not possible to invest in a Lipper Classification. Lipper Classifications may include insured and uninsured funds, as well as leveraged and unleveraged funds. The Lipper Insured Municipal Debt Funds (Leveraged) Classification (closed end) contained 26 funds for the 1-year and Life-of-Fund time periods. Lipper Averages are available as of month end only. Although share price performance generally reflects investment results over time, during shorter periods, returns at share price can also be affected by factors such as changing perceptions about the Fund, market conditions, fluctuations in supply and demand for the Fund's shares, or changes in Fund distributions. Performance results reflect the effect of leverage resulting from the Fund's issuance of Auction Preferred Shares. (2) The Fund's market yield is calculated by dividing the last dividend per share of the fiscal year by the share price at the end of the fiscal year and annualizing the result. (3) Taxable-equivalent figure assumes a maximum 37.54% combined federal and state income tax rate. A lower tax rate would result in a lower tax-equivalent figure. (4) It is not possible to invest*

*directly in an Index. The Index's total return does not reflect the expenses that would have been incurred if an investor individually purchased or sold the securities represented in the Index. Index performance is available as of month end only. (5) The Lipper Averages are the average total returns at net asset value of the funds that are in the same Lipper Classification as the Fund. It is not possible to invest in a Lipper Classification. Lipper Classifications may include insured and uninsured funds, as well as leveraged and unleveraged funds. The Lipper Michigan Municipal Debt Funds Classification (closed end) contained 7 funds for the 1-year and Life-of-Fund time periods. Lipper Averages are available as of month end only. (6) As of 9/30/06. Rating Distribution is determined by dividing the total market value of the issues by the total investments of the Fund. (7) As of 9/30/06. **Rating Distribution\*(7),(8)**

By total investments

\*The rating distribution presented above includes the ratings of securities held by special purpose vehicles in which the Fund holds a residual interest. See Note 1B to the Fund's financial statements. Absent such securities, the Fund's rating distribution at September 30, 2006 is as follows:

AAA	83.2	%	BBB	11.3	%
AA	2.1	%			
A	3.4	%			

Leverage: 35.6%

The leverage amount is Auction Preferred Shares at liquidation value as a percentage of the Fund's total assets excluding assets and floating rate notes payable deemed held pursuant to FAS Statement 140. The Fund uses leverage through the issuance of preferred shares. Use of financial leverage creates an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).

(1) Returns are historical and are calculated by determining the percentage change in share price or net asset value with all distributions reinvested. The Fund's performance at market share price will differ from its results at NAV. Although share price performance generally reflects investment results over time, during shorter periods, returns at share price can also be affected by factors such as changing perceptions about the Fund, market conditions, fluctuations in supply and demand for the Fund's shares, or changes in Fund distributions. Performance results reflect the effect of leverage resulting from the Fund's issuance of Auction Preferred Shares. (2) The Fund's market yield is calculated by dividing the last dividend per share of the fiscal year by the share price at the end of the fiscal year and annualizing the result. (3) Taxable-equivalent figure assumes a maximum 40.83% combined federal and state income tax rate. A lower tax rate would result in a lower tax-equivalent figure. (4) The dividend declared on October 31, 2006 reflects a reduction of the monthly dividend of \$0.0025 per share. (5) It is not possible to invest directly in an Index. MBIA - Municipal Bond Insurance Association

XLCA - XL Capital Assurance, Inc.

The Fund invests primarily in debt securities issued by municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at September 30, 2006, 88.7% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 0.5% to 33.1% of total investments.

(1) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At September 30, 2006, the aggregate value of the securities is \$1,544,012 or 1.0% of the Fund's net assets applicable to common shares.

(2) Security valued at fair value using methods determined in good faith by or at the direction of the Trustees.

- (3) When-issued security.
- (4) Security (or a portion thereof) has been segregated to cover when-issued securities.
- (5) Security (or a portion thereof) has been segregated to cover margin requirements on open financial futures contracts.
- (6) As restated See Note 11.

The Fund invests primarily in debt securities issued by California municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at September 30, 2006, 85.5% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 1.3% to 26.7% of total investments.

(1) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At September 30, 2006, the aggregate value of the securities is \$1,842,060 or 3.1% of the Fund's net assets applicable to common shares.

(2) Security has been issued as an inverse floater bond. The stated interest rate represents the rate in effect at September 30, 2006.

(3) Security valued at fair value using methods determined in good faith by or at the direction of the Trustees.

(4) As restated, See Note 11.

(5) Security (or a portion thereof) has been segregated to cover margin requirements on open financial futures contracts.

The Fund invests primarily in debt securities issued by Florida municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at September 30, 2006, 91.7% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 2.7% to 48.0% of total investments.

(1) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At September 30, 2006, the aggregate value of the securities is \$2,082,044 or 5.3% of the Fund's net assets applicable to common shares.

(2) Security has been issued as an inverse floater bond. The stated interest rate represents the rate in effect at September 30, 2006.

The Fund invests primarily in debt securities issued by New Jersey municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at September 30, 2006, 85.4% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 4.5% to 24.4% of total investments.

(1) Security valued at fair value using methods determined in good faith by or at the direction of the Trustees.

(2) As restated, See Note 11.

(3) Security (or a portion thereof) has been segregated to cover margin requirements on open financial futures contracts.

The Fund invests primarily in debt securities issued by New York municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at September 30, 2006, 83.9% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 4.0% to 26.3% of total investments.

(1) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At September 30, 2006, the aggregate value of the securities is \$2,396,867 or 6.0% of the Fund's net assets applicable to common shares.

(2) Security has been issued as a leveraged inverse floater bond. The stated interest rate represents the rate in effect at September 30, 2006.

(3) Security (or a portion thereof) has been segregated to cover margin requirements on open financial futures contracts.

(4) Security valued at fair value using methods determined in good faith by or at the direction of the Trustees.

(5) As restated, See Note 11.

The Fund invests primarily in debt securities issued by Ohio municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at September 30, 2006, 85.4% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 2.1% to 23.3% of total investments.

- (1) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At September 30, 2006, the aggregate value of the securities is \$2,201,780 or 5.7% of the Fund's net assets applicable to common shares.
- (2) Security has been issued as a leveraged inverse floater bond. The stated interest rate represents the rate in effect at September 30, 2006.
- (3) Security has been issued as an inverse floater bond. The stated interest rate represents the rate in effect at September 30, 2006.
- (4) Security (or a portion thereof) has been segregated to cover margin requirements on open financial futures contracts.
- (5) Security valued at fair value using methods determined in good faith by or at the direction of the Trustees.

(1) Computed using average common shares outstanding.

(2) For the period from the start of business, November 29, 2002, to September 30, 2003.

(3) Net asset value at beginning of period reflects the deduction of the sales load of \$0.675 per share paid by the shareholder from the \$15.000 offering price.

(4) Equal to less than \$0.001 per share.

(5) Returns are historical and are calculated by determining the percentage change in net asset value or market value with all distributions reinvested. Total return is not computed on an annualized basis.

## Edgar Filing: EATON VANCE INSURED FLORIDA MUNICIPAL BOND FUND - Form N-CSR/A

(6) Total investment return on net asset value is calculated assuming a purchase at the offering price of \$15.000 less the sales load of \$0.675 per share paid by the shareholder on the first day and a sale at the net asset value on the last day of the period reported. Total investment return on market value is calculated assuming a purchase at the offering price of \$15.000 less the sales load of \$0.675 per share paid by the shareholder on the first day and a sale at the current market price on the last day of the period reported. Total investment return on net asset value and total investment return on market value are not computed on an annualized basis.

(7) Ratios do not reflect the effect of dividend payments to preferred shareholders.

(8) Annualized.

(9) Calculated by subtracting the Fund's total liabilities (not including the preferred shares) from the Fund's total assets, and dividing this by the number of preferred shares outstanding.

(10) Plus accumulated and unpaid dividends.

(11) Interest and fee expense relates to the liability for floating rate notes issued in conjunction with inverse floater securities transactions (see Note 1B).

## NOTES TO FINANCIAL STATEMENTS

## I Significant Accounting Policies

Eaton Vance Insured Municipal Bond Fund II (Insured Municipal Fund II), Eaton Vance Insured California Municipal Bond Fund II (Insured California Fund II), Eaton Vance Insured Florida Municipal Bond Fund (Insured Florida Fund), Eaton Vance Insured Massachusetts Municipal Bond Fund (Insured Massachusetts Fund), Eaton Vance Insured Michigan Municipal Bond Fund (Insured Michigan Fund), Eaton Vance Insured New Jersey Municipal Bond Fund (Insured New Jersey Fund), Eaton Vance Insured New York Municipal Bond Fund II (Insured New York Fund II), Eaton Vance Insured Ohio Municipal Bond Fund (Insured Ohio Fund), and Eaton Vance Insured Pennsylvania Municipal Bond Fund (Insured Pennsylvania Fund) (individually referred to as the Fund or collectively the Funds) are registered under the Investment Company Act of 1940, as amended, as non-diversified, closed-end management investment companies. Each of the Funds was organized under the laws of the Commonwealth of Massachusetts by an Agreement and Declaration of Trust dated October 3, 2002. Each Fund's investment objective is to achieve current income exempt from regular federal income tax, including alternative minimum tax, and, in state specific funds, taxes in its specified state. Each Fund seeks to achieve its objective by investing primarily in high grade municipal obligations that are insured as to the timely payment of principal and interest.

The following is a summary of significant accounting policies consistently followed by each Fund in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

**A Investment Valuation** Municipal bonds and taxable obligations, if any, are normally valued on the basis of valuations furnished by a pricing service. Financial futures contracts and options on financial futures contracts listed on commodity exchanges are valued at closing settlement prices. Over-the-counter options on financial futures contracts are normally valued at the mean between the latest bid and asked prices. Interest rate swaps are normally valued on the basis of valuations furnished by a pricing service. Short-term obligations, maturing in sixty days or less, are valued at amortized cost, which approximates value. Investments for which valuations or market quotations are unavailable, and investments for which the price of the security is not believed to represent its fair market value, are valued at fair value using methods determined in good faith by or at the direction of the Trustees.

**B Floating Rate Notes Issues in Conjunction with Securities Held** The Funds sell a fixed-rate bond to a broker for cash. At the same time the Funds buy

a residual interest for cash in a Special Purpose Vehicle (which is generally organized as a trust) ("SPV") assets and cash flows set up by the broker, often referred to as an inverse floating rate obligation ("Inverse Floater"). The broker deposits a fixed-rate bond into the trust with the same CUSIP number as the fixed-rate bond sold to the broker by the Fund, and which may have been, but is not required to be, the fixed-rate bond purchased from the Fund, (the "Fixed-Rate Bond"). The SPV also issues floating-rate notes ("Floating-Rate Notes") which are sold to third-parties. The Funds may enter into shortfall and forbearance agreements with the broker by which a Fund agrees to reimburse the broker, in certain circumstances, for the difference between the liquidation value of the Fixed-Rate Bond held by the SPV and the liquidation value of the Floating-Rate Notes, as well as any shortfalls in interest cash flows. The Inverse Floater held by a Fund gives the Fund the right (1) to cause the holders of the Floating-Rate Notes to tender their notes at par, and (2) to have the broker transfer the Fixed-Rate Bond held by the SPV to the Fund, thereby collapsing the SPV. Pursuant to Financial Accounting Standards Board ("FASB") Statement No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities" ("FAS 140"), the Funds account for the transaction described above as a secured borrowing by including the Fixed-Rate Bond in their Portfolio of Investments, and account for the Floating-Rate Notes as a liability under the caption "payable for floating rate notes issued" in the Funds' "Statement of Assets and Liabilities". The Floating Rate Notes have interest rates that generally reset weekly and their holders have the option to tender their notes to the broker for redemption at par at each reset date. At September 30, 2006, the Funds' investments were as follows:

Fund	Floating Rate Notes Outstanding	Interest Rate or Range of Interest Rates	Collateral for Floating Rate Notes Outstanding
Insured Municipal II	\$ 39,570,000	3.74% 3.78%	\$ 63,214,399
Insured California II	7,550,000	3.74% 3.78%	12,037,571
Insured Florida	5,055,000	3.74% 3.78%	7,939,040
Insured Massachusetts	8,765,000	3.74% 3.77%	14,510,986
Insured Michigan	5,780,000	3.74% 3.78%	9,257,860
Insured New Jersey	9,580,000	3.74% 3.76%	15,302,880
Insured New York II	4,665,000	3.74% 3.76%	7,488,070
Insured Ohio	4,770,000	3.73% 3.78%	8,077,364
Insured Pennsylvania	10,395,000	3.73% 3.78%	17,106,586

The Funds' investment policies and restrictions expressly permit investments in inverse floating rate securities. Inverse floating rate securities typically offer the potential for yields exceeding the yields available on fixed rate bonds with comparable credit quality and maturity. The Funds' investment policies do not allow the Funds to

## Eaton Vance Insured Municipal Bond Funds as of September 30, 2006

## NOTES TO FINANCIAL STATEMENTS CONT'D

borrow money for purposes of making investments. Management believes that the Funds' restrictions on borrowings do not apply to the secured borrowings deemed to have occurred for accounting purposes pursuant to FAS 140, which is distinct from legal borrowing of the Funds to which the restrictions apply. Inverse Floaters held by the Funds are Securities exempt from registration under Rules 144A of the Securities Act of 1933.

**C Income** Interest income is determined on the basis of interest accrued, adjusted for amortization of premium or accretion of discount.

**D Interest Expense** Interest expense relates to the Fund's liability with respect to floating rate notes held by third parties in conjunction with inverse floater securities transactions by the Funds. Interest expense is recorded as incurred.

**E Federal Taxes** Each Fund's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute to shareholders each year all of its taxable, if any, and tax-exempt income, including any net realized gain on investments. Therefore, no provision for federal income or excise tax is necessary. At September 30, 2006, the Funds, for federal income tax purposes, had capital loss carryovers which will reduce taxable income arising from future net realized gain on investments, if any, to the extent permitted by the Internal Revenue Code, and thus will reduce the amount of distributions to shareholders which would otherwise be necessary to relieve the Funds of any liability for federal income or excise tax. The amounts and expiration dates of the capital loss carryovers are as follows:

Fund	Amount	Expires
Insured Municipal Fund II	\$ 561,535	September 30, 2013
Insured California Fund II	1,015,681	September 30, 2013
Insured Florida Fund	725,954	September 30, 2013
Insured Massachusetts Fund	551,616	September 30, 2013
Insured Michigan Fund	652,425	September 30, 2013
Insured New Jersey Fund	390,483	September 30, 2013
Insured Ohio Fund	899,539	September 30, 2013
Insured Pennsylvania Fund	53,657	September 30, 2013

Additionally, at September 30, 2006, Insured California II Fund had net capital losses of \$63,387, attributable to security transactions incurred after October 31, 2005. These are treated as arising on the first day of each Fund's taxable year ending September 30, 2007.

In addition, each Fund intends to satisfy conditions which will enable it to designate distributions from the interest income generated by its investments in municipal obligations, which are exempt from regular federal income taxes when received by each Fund, as exempt-interest dividends.

**F Organization and Offering Costs** Costs incurred by each Fund in connection with its organization have been expensed. Costs incurred by each Fund in connection with the offerings of the common shares and preferred shares were recorded as a reduction of capital paid in excess of par applicable to common shares.

**G Financial Futures Contracts** Upon the entering of a financial futures contract, a Fund is required to deposit (initial margin) either in cash or securities an amount equal to a certain percentage of the purchase price indicated in the financial futures contract. Subsequent payments are made or received by a Fund (margin maintenance) each day, dependent on the daily fluctuations in the value of the underlying security, and are recorded for book purposes as unrealized gains or losses by a Fund. A Fund's investment in financial futures contracts is designed for both hedging against anticipated future changes in interest rates and investment purposes. Should interest rates move unexpectedly, a Fund may not achieve the anticipated benefits of the financial futures contracts and may realize a loss.

**H Options on Financial Futures Contracts** Upon the purchase of a put option on a financial futures contract by a Fund, the premium paid is recorded as an investment, the value of which is marked-to-market daily. When a purchased option expires, a Fund will realize a loss in the amount of the cost of the option. When a Fund enters into a closing sale transaction, a Fund will realize a gain or loss depending on whether the sales proceeds from the closing sale transaction are greater or less than the cost of the option. When a Fund exercises a put option, settlement is made in cash. The risk associated with purchasing put options is limited to the premium originally paid.

I When-Issued and Delayed Delivery Transactions The Funds may engage in when-issued and delayed delivery transactions. The Funds record when-issued securities on trade date and maintain security positions such that sufficient liquid assets will be available to make payments for the securities purchased. Securities purchased on a when-issued or delayed delivery basis are marked-to-market daily and begin earning interest on settlement date.

## Eaton Vance Insured Municipal Bond Funds as of September 30, 2006

## NOTES TO FINANCIAL STATEMENTS CONT'D

**J Interest Rate Swaps** A Fund may enter into interest rate swap agreements to enhance return, to hedge against fluctuations in securities prices or interest rates or as substitution for the purchase or sale of securities. Pursuant to these agreements, the Fund makes semi-annual payments at a fixed interest rate. In exchange, a Fund receives payments based on the interest rate of a benchmark industry index. During the term of the outstanding swap agreement, changes in the underlying value of the swap are recorded as unrealized gains and losses. The value of the swap is determined by changes in the relationship between two rates of interest. The Fund is exposed to credit loss in the event of non-performance by the swap counterparty. However, the Fund does not anticipate non-performance by the counterparty. Risk may also arise from the unanticipated movements in value of interest rates.

**K Legal Fees** Legal fees and other related expenses incurred as part of negotiations of the terms and requirements of capital infusions, or that are expected to result in the restructuring of or a plan of reorganization for an investment are recorded as realized losses. Ongoing expenditures to protect or enhance an investment are treated as operating expenses.

**L Use of Estimates** The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the reporting period. Actual results could differ from those estimates.

**M Indemnifications** Under each Fund's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to each Fund and shareholders are indemnified against personal liability for obligations of each Fund. Additionally, in the normal course of business, each Fund enters into agreements with service providers that may contain indemnification clauses. Each Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against each Fund that have not yet occurred.

**N Expense Reduction** Investors Bank & Trust Company (IBT) serves as custodian of the Funds. Pursuant to the respective custodian agreements, IBT receives a fee reduced by credits which are determined based on the average daily cash balance each Fund maintains with IBT. All credit balances used to reduce the Funds' custodian fees are reported as a reduction of total expenses in the Statements of Operations.

**O Other** Investment transactions are accounted for on a trade date basis. Realized gains and losses are computed on the basis of specific identification of the securities sold.

## 2 Auction Preferred Shares (APS)

Each Fund issued Auction Preferred Shares on January 15, 2003 in a public offering. The underwriting discounts and other offering costs were recorded as a reduction of capital of the common shares of each Fund. Dividends on the APS, which accrue daily, are cumulative at a rate which was established at the offering of each Fund's APS and generally have been reset every seven days thereafter by an auction, unless a special dividend period has been set. Initially, the Insured Municipal Fund II elected an Initial Dividend Period for Series B of 360 days. Effective January 6, 2006, the Series B shares of the Insured Municipal Fund II elected a weekly reset dividend period. Series A and Series B are identical in all respects except for the dates of reset for the dividend rates. Auction Preferred Shares issued and outstanding as of September 30, 2006 and dividend rate ranges for the year ended September 30, 2006 are as indicated below:

Board of Trustees. In general, the holders of the APS and the Common Shares have equal voting rights of one vote per share, except that the holders of the APS, as a separate class, have the right to elect at least two members of the Board of Trustees. The APS have a liquidation preference of \$25,000 per share, plus accumulated and unpaid dividends. Each Fund is required to maintain certain asset coverage with respect to the APS as defined in each Trust's By-Laws and the Investment Company Act of 1940. Each Fund pays an annual fee equivalent to 0.25% of the preferred shares liquidation value for the remarketing efforts associated with the preferred auction.

## 3 Distributions to Shareholders

Each Fund intends to make monthly distributions of net investment income, after payments of any dividends on any outstanding APS. Distributions are recorded on the ex-dividend date. Distributions of realized capital gains, if any, are made at least annually. Distributions to preferred shareholders are recorded daily and are payable at the end of each dividend period. Each dividend payment period for the APS is generally seven days. The applicable dividend rates for Auction Preferred Shares on September 30, 2006 are listed below. For the year ended September 30, 2006, the amount of dividends each Fund paid to Auction Preferred shareholders and average APS dividend rates for such period were as follows:

Fund	APS Dividend Rates as of September 30, 2006	Dividends Paid to Preferred Shareholders from net investment income and net realized gain for the year ended September 30, 2006	Average APS Dividend Rates for the year ended September 30, 2006

The Funds distinguish between distributions on a tax basis and a financial reporting basis. Accounting principles generally accepted in the United States of America require that only distributions in excess of tax basis earnings and profits be reported in the financial statements as a return of capital. Permanent differences between book and tax accounting relating to distributions are reclassified to paid in capital.

The tax character of distributions paid for the years ended September 30, 2006 and September 30, 2005 was as follows:

## 4 Investment Adviser Fee and Other Transactions with Affiliates

The investment adviser fee, computed at an annual rate of 0.55% of each Fund's average weekly gross assets, was earned by Eaton Vance Management (EVM) as compensation for investment advisory services rendered to each Fund. Except for Trustees of each Fund who are not members of EVM's organization, officers and Trustees receive remuneration for their services to each Fund out of such investment adviser fee. For the year ended September 30, 2006, the fee was equivalent to 0.55% of each Fund's average weekly gross assets and amounted to \$1,321,358, \$501,015, \$333,311, \$230,928, \$198,787, \$338,123, \$338,359, \$326,163 and \$385,434 for Insured Municipal Fund II, Insured California Fund II, Insured Florida Fund, Insured Massachusetts Fund, Insured Michigan Fund, Insured New Jersey Fund, Insured New York Fund II, Insured Ohio Fund and Insured Pennsylvania Fund, respectively. EVM also serves as the administrator of the Funds, but currently receives no compensation.

In addition, EVM has contractually agreed to reimburse each Fund for fees and other expenses in the amount of 0.15% of average weekly total assets of each Fund during the first five full years of each Fund's operations, 0.10% of average weekly total assets of each Fund in year six, and 0.05% in year seven. For the year ended September 30, 2006, EVM contractually waived \$360,368, \$136,640, \$90,903, \$62,979, \$54,214, \$92,215, \$92,280, \$88,954 and \$105,118 for Insured Municipal Fund II, Insured California Fund II, Insured Florida Fund, Insured Massachusetts Fund, Insured Michigan Fund, Insured New Jersey Fund, Insured New York Fund II, Insured Ohio Fund and Insured Pennsylvania Fund, respectively.

Pursuant to FAS 140, a security sold by the Insured Massachusetts Fund that was later transferred to an SPV that then sold a residual interest to an affiliated fund was deemed to still be held by the Insured Massachusetts Fund. Interest paid by the SPV to the affiliated fund was deemed paid by the Insured Massachusetts Fund to the affiliated fund pursuant to FAS 140.

Certain officers and one Trustee of each Fund are officers of the above organization.

## 8 Financial Instruments

The Funds regularly trade in financial instruments with off-balance sheet risk in the normal course of their investing activities to assist in managing exposure to various market risks. These financial instruments include futures contracts and interest rate swaps and may involve, to a varying degree, elements of risk in excess of the amounts recognized for financial statement purposes. The notional or contractual amounts of these instruments represent the investment a Fund has in particular classes of financial instruments and does not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered.

At, September 30, 2006, the Insured Pennsylvania Fund had entered into an interest rate swap agreement with JP Morgan Chase Bank, N.A. whereby the Fund makes semi-annually payments at a fixed rate equal to 5.77% on the notional amount of \$7,000,000. In exchange, the Fund receives quarterly payments at a rate equal to the three month USD-LIBOR on the same notional amount. The effective date of the interest rate swap is February 26, 2007. The value of the contract, which terminates February 26, 2037, is recorded as a payable for open swap contracts of \$498,658, as of September 30, 2006.

At September 30, 2006, the Funds had sufficient cash and/or securities to cover margin requirements on these contracts.

## 9 Overdraft Advances

Pursuant to the custodian agreement between the Funds and IBT, IBT may in its discretion advance funds to the Funds to make properly authorized payments. When such payments result in an overdraft by the Funds, the Funds are obligated to repay IBT at the current rate of interest charged by IBT for secured loans (currently, a rate above the Federal Funds rate). This obligation is payable on demand to IBT. IBT has a lien on a Fund's assets to the extent of any overdraft. At September 30, 2006, Insured California Fund II, Insured Florida Fund, Insured Massachusetts Fund, Insured Michigan Fund and Insured Ohio Fund had payments due to IBT pursuant to the foregoing arrangement of \$308,647, \$368,473, \$10,993, \$152,944 and \$1,209,049, respectively.

## 10 Recently Issued Accounting Pronouncements

## Edgar Filing: EATON VANCE INSURED FLORIDA MUNICIPAL BOND FUND - Form N-CSR/A

In June 2006, the Financial Accounting Standards Board ("FASB") issued FASB Interpretation No. 48, ("FIN 48") "Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109". FIN 48 clarifies the accounting for uncertainty in income taxes recognized in accordance with FASB Statement No. 109, "Accounting for Income Taxes." This interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. It also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. FIN 48 is effective for the first required financial reporting period for fiscal years beginning after December 15, 2006. Management is currently evaluating the impact of applying the various provisions of FIN 48.

In September 2006, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 157, ("FAS 157") "Fair Value Measurements". FAS 157 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosure about fair value measurements. FAS 157 is effective for fiscal years beginning after November 15, 2007. Management is currently evaluating the impact the adoption of FAS 157 will have on the Funds' financial statement disclosures.

NOTES TO FINANCIAL STATEMENTS CONT'D

11 Restatement Information

Subsequent to the issuance of its September 30, 2006 financial statements, the Funds determined that the criteria for sale accounting in Statement of Financial Accounting Standards No. 140 had not been met for certain transfers of municipal bonds during the fiscal years ended September 30, 2006, 2005, 2004 and for the period November 29, 2002 (commencement of operations) to September 30, 2003 and that the transfers should have been accounted for as secured borrowings rather than as sales. Accordingly, the Funds have restated, where necessary, the statements of assets and liabilities as of September 30, 2006 and the related statements of operations for the year then ended and statements of changes in net assets for the years ended September 30, 2006 and 2005, as required. The financial highlights for each of the three years in the period then ended and the period from the start of business, November 29, 2002 to September 30, 2003 have been restated, as required, to give effect to recording the transfers of the municipal bonds as secured borrowings, including recording interest on the bonds as interest income and interest on the secured borrowings as interest expense in the Statements of Operations.

The summary of effects on the restatement is as follows:
