PROXY STATEMENT

This proxy statement and the enclosed proxy card are being mailed to stockholders on or about April 23, 2007 and are furnished in connection with the solicitation of proxies by the Board of Directors of NeuroMetrix, Inc. for use at our 2007 annual meeting of stockholders to be held on Wednesday, May 23, 2007 at 8:30 a.m., local time, at the offices of Goodwin Procter LLP, Exchange Place, 53 State Street, Boston, Massachusetts 02109, and at any adjournments or postponements thereof.

Only stockholders of record as of the close of business on April 2, 2007 will be entitled to vote at the meeting and any adjournments or postponements thereof. As of that date, 12,607,446 shares of our common stock, \$0.0001 par value per share, were issued and outstanding. Each share outstanding as of the record date will be entitled to one vote, and stockholders may vote in person or by proxy. Execution of a proxy will not in any way affect a stockholder's right to attend the meeting and vote in person, although the presence (without further action) of a stockholder at the annual meeting will not constitute revocation of a previously given proxy. Any stockholder delivering a proxy has the right to revoke it by either: (1) filing a written revocation with our Secretary at NeuroMetrix, Inc., 62 Fourth Avenue, Waltham, Massachusetts 02451; (2) submitting a new proxy by telephone, internet or proxy card after the date of the previously submitted proxy; or (3) appearing in person at the meeting and voting by ballot at the annual meeting.

An Annual Report to Stockholders, containing financial statements for the year ended December 31, 2006, is being mailed together with this proxy statement to all stockholders entitled to vote. It is anticipated that this proxy statement and the accompanying proxy will be first mailed to stockholders on or about April 23, 2007.

The representation in person or by proxy of at least a majority of all shares of common stock issued, outstanding and entitled to vote at the meeting is necessary to constitute a quorum for the transaction of business. Votes withheld from any nominee for election as director, abstentions and broker non-votes are counted as present or represented for purposes of determining the presence or absence of a quorum for the meeting. A non-vote occurs when a nominee holding shares for a beneficial owner votes on one proposal, but does not vote on another proposal because, in respect of such other proposal, the nominee does not have discretionary voting power and has not received instructions from the beneficial owner. An automated system administered by our transfer agent tabulates the votes. The vote on each matter submitted to stockholders is tabulated separately.

Each of the persons named as proxies in the proxy is one of our officers. All properly executed proxies returned in time to be cast at the meeting will be voted. With respect to the election of a Class III director, any stockholder submitting a proxy has a right to withhold authority to vote for the nominees to the Board of Directors in the manner provided on the proxy. The stockholders also will act upon a proposal to ratify the selection of the Company's independent auditors.

The Board of Directors knows of no other matter to be presented at the meeting. If any other matter should be presented at the meeting upon which a vote may be properly taken, shares represented by all proxies received by the Board of Directors will be voted with respect thereto in accordance with the judgment of the persons named as proxies in the proxy.

BOARD MATTERS AND CORPORATE GOVERNANCE

Board of Directors

Our amended and restated certificate of incorporation provides for a classified board of directors consisting of three staggered classes of directors (Class I, Class II and Class III). The members of each class of our Board of Directors serve for staggered three-year terms, with the terms of our Class I, Class II and Class III directors expiring upon the election and qualification of directors at the annual meetings of stockholders held in 2008, 2009 and 2007, respectively. Currently:

- our Class I directors are Allen J. Hinkle, M.D. and Jonathan T. Lord, M.D.;
- our Class II directors are Shai N. Gozani, M.D., Ph.D. and Charles R. LaMantia; and
- our Class III directors are David E. Goodman, M.D. and W. Mark Lortz.

Our Board of Directors has determined that Dr. Goodman, Dr. Hinkle, Mr. LaMantia, Dr. Lord and Mr. Lortz are independent directors for purposes of the corporate governance rules contained in the Marketplace Rules of the National Association of Securities Dealers, Inc., or the Nasdaq rules. Our Board of Directors held five meetings during 2006. During the fiscal year 2006, all of our Directors, except Dr. Lord, attended more than 75% of the aggregate of (i) the total number of meetings of our Board of Directors (held during the period for which he has been a director) and (ii) the total number of meetings held by any committees of our Board of Directors on which such director served.

Our Board of Directors has an Audit Committee, a Compensation Committee and a Nominating Committee.

Board Committees and Meetings

Audit Committee

Our Board of Directors has an Audit Committee consisting of Dr. Goodman and Messrs. LaMantia and Lortz. The Audit Committee operates pursuant to a charter that was approved by our Board of Directors, a copy of which is available on our website at <http://www.neurometrix.com> under the heading "Investors" and subheading "Corporate Governance". The purposes of the Audit Committee are to, among other functions, (1) oversee our accounting and financial reporting processes and the audits of our financial statements, (2) take, or recommend that our Board of Directors take, appropriate action to oversee the qualifications, independence and performance of our independent auditors, and (3) prepare the audit committee report required to be included in our annual proxy statements. Dr. Goodman and Messrs. LaMantia and Lortz are all independent as that term is defined in the rules of the SEC and the applicable Nasdaq rules relating to audit committee members. Our Board of Directors has determined that Messrs. Lortz and LaMantia both qualify as audit committee financial experts as such term is defined in the rules of the SEC. The Audit Committee held eight meetings during 2006.

Compensation Committee

Our Board of Directors has a Compensation Committee consisting of Dr. Goodman and Mr. Lortz. Dr. Goodman and Mr. Lortz are independent directors as that term is defined in the Nasdaq rules. The Compensation Committee operates pursuant to a charter that was approved by our Board of Directors, a current copy of which is available on our website at <http://www.neurometrix.com> under the heading "Investors" and subheading "Corporate Governance". The purposes of the Compensation Committee are to, among other functions, (1) discharge our Board of Directors' responsibilities relating to compensation of our directors and executives, (2) oversee our overall compensation programs and (3) review and discuss with management the Compensation Discussion and Analysis for inclusion in our annual proxy statement. The Compensation Committee held four meetings in 2006.

Nominating Committee

Our Board of Directors has a Nominating Committee consisting of Dr. Goodman and Mr. LaMantia. Dr. Goodman and Mr. LaMantia are both independent directors as that term is defined in the Nasdaq rules. The Nominating Committee operates pursuant to a charter that was approved by our Board of Directors, a current copy of which is available on our website at <http://www.neurometrix.com> under the heading Investors and subheading Corporate Governance. The purposes of the Nominating Committee are to, among other functions, identify individuals qualified to become board members, consistent with criteria approved by our Board of Directors, and recommend that our Board of Directors select the director nominees for election at each annual meeting of stockholders. The Nominating Committee held one meeting in 2006.

Policy Governing Director Attendance at Annual Meetings

The Board of Directors has adopted a formal policy that all directors are expected to attend our annual meetings of stockholders in person, unless doing so is impracticable due to unavoidable conflicts. All six of our directors attended the 2006 annual meeting.

Policies Governing Director Nominations

Securityholder Recommendations

The Nominating Committee's current policy with regard to the consideration of director candidates recommended by securityholders is that it will review and consider any director candidates who have been recommended by one or more of our stockholders entitled to vote in the election of directors in compliance with the procedures established from time to time by the Nominating Committee. All securityholder recommendations for director candidates must be submitted to our Secretary at 62 Fourth Avenue, Waltham, Massachusetts 02451, who will forward all recommendations to the Nominating Committee. We did not receive any securityholder recommendations for director candidates for election at the 2007 annual meeting. All securityholder recommendations for director candidates for our 2008 annual meeting of stockholders must be submitted to our Secretary on or before December 25, 2007 and must include the following information:

- the name and address of record of the stockholder;
- a representation that the securityholder is a record holder of our stock entitled to vote in the election of directors, or if the securityholder is not a record holder, evidence of ownership in accordance with Rule 14a-8(b)(2) of the Securities Exchange Act of 1934, as amended;
- the name, age, business and residential address, educational background, current principal occupation or employment, and principal occupation or employment for the preceding five (5) full fiscal years of the proposed director candidate;
- a description of the qualifications and background of the proposed director candidate which addresses the minimum qualifications and other criteria for Board membership approved by the Board from time to time;
- a description of all arrangements or understandings between the securityholder and the proposed director candidate;
- the consent of the proposed director candidate (1) to be named in the proxy statement relating to our annual meeting of stockholders and (2) to serve as a director if elected at such annual meeting; and
- any other information regarding the proposed director candidate that is required to be included in a proxy statement filed pursuant to the rules of the Securities and Exchange Commission.

Board Membership Criteria

The Nominating Committee has established criteria for Board membership. These criteria include the following specific, minimum qualifications that the Nominating Committee believes must be met by a Nominating Committee-recommended nominee for a position on the Board:

- The nominee must have high personal and professional integrity, must have demonstrated exceptional ability and judgment, and must be expected, in the judgment of the Nominating Committee, to be highly effective, in conjunction with the other nominees to the Board, in collectively serving the interests of our company and stockholders.

In addition to the minimum qualifications for each nominee set forth above, the Nominating Committee will recommend that the Board select persons for nomination to help ensure that:

- the Board will be comprised of a majority of independent directors in accordance with the Nasdaq rules;
- each of our Audit, Compensation and Nominating Committees shall be comprised entirely of independent directors;
- each member of our Audit Committee is able to read and understand fundamental financial statements, including a company's balance sheet, income statement, and cash flow statement; and
- at least one member of the Audit Committee has past employment experience in finance or accounting, requisite professional certification in accounting, or any other comparable experience or background which results in the individual's financial sophistication, including being or having been a chief executive officer, chief financial officer or other senior officer with financial oversight responsibilities.

Finally, in addition to any other standards the Nominating Committee may deem appropriate from time to time for the overall structure and composition of the Board, the Nominating Committee, when recommending that the Board select persons for nomination, may consider whether the nominee has direct experience in the industry or in the markets in which we operate.

The Nominating Committee will recommend to the Board the nomination of the director candidates who it believes will, together with the existing Board members and other nominees, best serve our interests and the interests of our stockholders.

Identifying and Evaluating Nominees

The Nominating Committee may solicit recommendations for director nominees from any or all of the following sources: non-management directors, the Chief Executive Officer, other executive officers, third-party search firms, or any other source it deems appropriate. The Nominating Committee will review and evaluate the qualifications of any proposed director candidate that it is considering or that has been recommended to it by a securityholder in compliance with the Nominating Committee's procedures for that purpose, and conduct inquiries it deems appropriate into the background of these proposed director candidates. In identifying and evaluating proposed director candidates, the Nominating Committee may consider, in addition to the minimum qualifications and other criteria for Board membership approved by the Nominating Committee from time to time, all facts and circumstances that it deems appropriate or advisable, including, among other things, the skills of each proposed director candidate, his or her depth and breadth of business experience or other background characteristics, his or her independence and the needs of the Board. Based on these considerations, the Nominating Committee will recommend to the Board the nomination of the director candidates who it believes will, together with the existing Board members and other nominees, best serve the interests of our company and stockholders. The Nominating Committee will evaluate proposed director candidates who have been recommended by securityholders in

compliance with the policies and procedures established by the Nominating Committee in the same manner as all other proposed director candidates being considered by the Nominating Committee, with no regard to the source of the initial recommendation of such proposed director candidate.

A current copy of the Code of Business Conduct and Ethics is available on our website at <http://www.neurometrix.com> under the heading Investors and subheading Corporate Governance, and we intend to disclose on this website any amendment to, or waiver of, any provision of the Code of Business Conduct and Ethics applicable to our directors or executive officers that would otherwise be required to be disclosed under the SEC rules or, to the extent permitted, the Nasdaq rules. A current copy of the Code of Business Conduct and Ethics may also be obtained, without charge, upon written request directed to us at: NeuroMetrix, Inc., 62 Fourth Avenue, Waltham, Massachusetts 02451, Attention: Compliance Officer.

Votes may be cast for or withheld from the nominee. Abstentions, broker non-votes and votes that are withheld are not included in the number of votes cast and will have no effect on the outcome of the election of the nominees.

Directors Compensation

The non-employee members of our Board of Directors receive annual cash compensation in the amount of \$10,000 for service as a member of our Board of Directors, which is paid following each annual meeting of our stockholders. In addition, these non-employee directors receive the sum of \$1,500 for each board or committee meeting that they attend, provided that they are not entitled to additional compensation for attending committee meetings that occur on the same day as a board meeting at which they attend. This cash compensation will be in addition to any stock options or other equity compensation that we determine to grant to our directors on a case by case basis. Dr. Gozani, the only employee member of our Board of Directors, is not separately compensated for his service on our Board of Directors.

In June 2004, we granted each of Mr. Lortz and Dr. Goodman an option to purchase 36,000 shares of our common stock at an exercise price of \$8.00 per share, equal to the price per share at our initial public offering. In November 2004, we granted Mr. LaMantia an option to purchase 36,000 shares of our common stock at an exercise price of \$9.40, equal to the closing price of our common stock on the grant date. Each of these options vests 25% one year after the grant date with the remainder vesting ratably over the following three years on a quarterly basis.

In addition to the compensation described above, we also reimburse all non-employee directors for their reasonable out-of-pocket expenses incurred in attending meetings of our board of directors or any committees thereof.

COMPENSATION DISCUSSION AND ANALYSIS

Compensation Discussion and Analysis

We provide what we believe is a competitive total compensation package to our executive management team through a combination of base salary, annual cash incentive compensation, long-term equity incentive compensation and benefits programs.

We place significant emphasis on pay for performance-based incentive compensation, which is designed to reward our executives based on the achievement of predetermined company and individual goals. This Compensation Discussion and Analysis explains our compensation objectives, policies and practices with respect to our named executive officers.

Objectives of Our Executive Compensation Programs

Our compensation programs for our named executive officers are designed to achieve the following objectives:

- Attract and retain talented and experienced executives in the highly competitive and dynamic medical device industry;
- Motivate and reward executives whose knowledge, skills and performance are critical to our success;
- Provide a competitive compensation package which is weighted heavily towards pay for performance, and in which a significant portion of total compensation is determined by company and individual results;
- Ensure fairness among the executive management team by recognizing the contributions each executive makes to our success; and

- Motivate our executives to manage our business to meet our short- and long-term objectives, and reward them for meeting these objectives.

Our Compensation Committee

The Compensation Committee oversees the development of our compensation plans and policies for executive officers. The Compensation Committee, which is comprised of two non-employee, independent directors, determines the compensation of our executive officers and administers and makes recommendations and awards under our stock option plans. In order to assist us in determining the amount of executive compensation to pay and the programs to consider implementing, we engaged the services of Aon/Radford, a nationally recognized consulting firm. Specifically, Aon/Radford was engaged by the Compensation Committee to provide a comprehensive review of executive compensation and assist us in the consideration of long-term incentive compensation alternatives. As part of Aon/Radford's engagement, the Compensation Committee directed Aon/Radford to, among other things, provide competitive market compensation data and make recommendations for pay levels for each component of our executive compensation.

Aon/Radford provided competitive market compensation data for a peer group comprised of medical device companies with comparable profiles in terms of revenues, growth rate and certain other metrics. The comparable companies included Abaxis, Adeza Biomedical, Angiodynamics, Aspect Medical Systems, Cyberonics, Foxhollow Technologies, Immucor, Intuitive Surgical, Natus Medical, NMT Medical, Nuvasive, Othovita, Sonosite, Vascular Solutions, Ventana Medical Systems, and VNUS Medical Technologies. This peer group data was supplemented by survey data on compensation in similarly-size medical device companies.

Each executive officer position was reviewed based on data from this peer group or a subset of this peer group. The Compensation Committee considered this data as well as each executive officer's responsibilities, prior experience, performance in meeting objectives, ability to provide leadership and guidance to our employees and the anticipated value of their impact on our success. Historically, the base salary and annual cash incentive compensation for a given executive officer has been between the 25th and 50th percentile for that position within the peer group, while the long-term incentives have been at approximately the 75th percentile for each executive officer position.

Our Executive Compensation Programs

Base Salary

We pay our executive officers a base salary, which we review and adjust annually. We believe that a competitive base salary is a necessary element of any compensation program that is designed to attract and retain talented and experienced executives. We also believe that attractive base salaries can motivate and reward executives for their overall performance. Although base salaries are established in part based on the individual experience, skills and expected contributions during the coming year of our executive officers and our executive officers performance during the prior year, we do not view base salaries as primarily serving our objective of paying for performance.

Base salary compensation levels for each of our executive officers, including the Chief Executive Officer, are generally determined by evaluating: (1) the experience of and the responsibilities held (or to be held) by the individual; (2) our past financial performance and future expectations; (3) individual performance; and (4) benchmark data of peer companies. The Compensation Committee does not assign relative weights or rankings to these factors, but instead makes a determination based upon consideration of all of these factors, as well as the progress made with respect to our long-term goals and strategies. Base salary levels for each of our executive officers, other than the Chief Executive Officer, are also based upon evaluations and recommendations made by the Chief Executive Officer. With respect to executive officers

who first join us during a year, special consideration is given to each officer's compensation package at his or her prior place of employment.

In 2006, we increased the base salaries of our named executive officers as follows: Dr. Gozani's base salary increased from \$250,000 to \$262,500 per year, Mr. Gregory's base salary increased from \$235,000 to \$246,800 per year, Dr. Williams' base salary increased from \$176,400 to \$198,500 per year, Mr. Daniello's base salary increased from \$165,375 to \$190,200 per year and Mr. Smith's base salary increased from \$220,000 to \$231,000 per year. The base salaries of our named executive officers, including Dr. Gozani's, reflect 5% increases, with the exception of the base salary for Dr. Williams, which was increased 12.5% and the base salary for Mr. Daniello, which was increased 15%. The increases in base salaries for Dr. Williams and Mr. Daniello were based on an analysis of benchmark data from the group of peer companies described previously to effectively move these executive officers closer to the 50th percentile for their respective positions. Our executive officers' base salaries reflect the initial base salaries that we negotiated with each of our executive officers at the time of his initial employment or promotion and our subsequent adjustments to these amounts to reflect market increases, the growth and stage of development of our company, our executive officers' performance and increased experience, any changes in our executives' roles and responsibilities and other factors. The initial base salaries that we negotiated with our executive officers were based on our understanding of the market at the time, the individual experience and skills of, and expected contribution from, each executive officer, the roles and responsibilities of the executive officer, the base salaries of our existing executive officers and other factors.

Annual Cash Incentive Compensation

Consistent with our emphasis on pay for performance incentive compensation programs, our executives are eligible to receive annual cash incentive compensation primarily based upon their performance as measured against predetermined performance goals established by us, including financial measures, product development objectives, the achievement of strategic objectives and individualized objectives for each executive officer. The primary objective of our annual cash incentive compensation is to motivate and reward our named executive officers for meeting our short-term objectives using a pay for performance-based program with objectively determinable performance goals. In addition, we may reserve a portion of each executive's annual cash incentive compensation to be paid at our discretion based on the executive's overall performance. We maintain this discretionary portion of the annual cash incentive compensation in order to motivate our executive officers overall performance and their performance relating to matters that are not that specifically addressed in the predetermined performance goals that we set. We do not believe that every important aspect of executive performance is capable of being specifically quantified in a predetermined objective performance goal. For example, events outside of our control may occur after we have established the executive officers' performance goals for the year that require our executives to focus their attention on different or other strategic objectives.

We establish the target amount of our annual cash incentive compensation at a level that represents a meaningful portion of our executive officer's currently paid out cash compensation. In establishing these levels, in addition to considering the incentives that we want to provide to our executives, we also consider the compensation levels for comparable positions at similarly situated companies, our historical practices and any contractual commitments that we have relating to executive officer compensation. Cash incentive compensation is intended to constitute a significant portion of an executive officer's incentive and total compensation package.

In 2006, we established a target for annual cash incentive compensation for each of our executive officers of between 25% and 50% of his base salary, depending on the executive officer's role. The annual cash incentive compensation for our Chief Executive Officer was based on the achievement of a number of predetermined performance goals evaluated at year-end. The goals for 2006 for our Chief Executive Officer related to attaining a specified revenue target, managing operating expenses at specified levels,

achieving compliance with Sarbanes Oxley 404, implementing strategies, advancing the organizational structure and certain additional individualized objectives. The cash incentive compensation for our Chief Operating Officer was based on the achievement of a number of predetermined performance goals on a quarterly and year-end basis. The goals for 2006 for our Chief Operating Officer related to attaining a specified revenue target, managing sales and marketing expenses at specified levels, managing organizational structure and staffing, implementing strategic initiatives pertaining to distribution and product launches and certain additional individualized objectives. The cash incentive compensation for our Senior Vice President of Engineering was based on the achievement of a number of predetermined performance goals evaluated on a quarterly and year-end basis. The goals for 2006 for our Senior Vice President of Engineering related to specific product development objectives for improvements to our existing products, including the NC-stat System, and the development of new products, including our third generation diagnostic devices and a drug delivery system. The cash incentive compensation for our Senior Vice President of Information Technology was based on the achievement of a number of predetermined performance goals evaluated on a quarterly and year-end basis. The goals for 2006 for our Senior Vice President of Information Technology related to specific objectives for the onCall Information System, applications and support for the sales, customer service, quality assurance and finance organizations and network and system administration. The annual cash incentive bonus for our Chief Financial Officer was based on the achievement of a number of predetermined performance goals evaluated at year-end. The goals for 2006 for our Chief Financial Officer related to the issuance of timely and accurate financial statements, implementing a plan for achieving compliance with Sarbanes Oxley 404 and certain additional individualized objectives.

In March 2007, our Compensation Committee approved the following cash incentive compensation and bonuses to our executive officers. Our Chief Executive Officer was awarded 50% of his target cash incentive compensation based on an assessment of the achievement of the goals described above. Our Chief Operating Officer was awarded 100% of his target cash incentive compensation for the first three quarters of 2006 and 75% of his target cash incentive compensation for the fourth quarter of 2006 based on an assessment of the achievement of the goals described above. Our Senior Vice President of Information Technology was awarded 99% of his target cash incentive compensation for the first and second quarters of 2006 and 100% of his target cash incentive compensation for the third and fourth quarters of 2006 based on an assessment of the achievement of the goals described above. Our Senior Vice President of Engineering was granted a discretionary bonus for 2006 of \$34,734. The Compensation Committee awarded this discretionary bonus to our Senior Vice President of Engineering in light of his overall performance and in light of circumstances which developed in 2006 and impacted the ability to meet the predetermined objectives. Our Chief Financial Officer was awarded 50% of his target cash incentive compensation based on an assessment of the achievement of the goals described above.

Long-Term Incentive Compensation

We grant long-term equity incentive awards in the form of stock options to executives as part of our total compensation package. Consistent with our emphasis on pay for performance-based incentive compensation, these awards represent a significant portion of total executive compensation. We use long-term equity incentive awards in order to align the interests of our executives and our stockholders by providing our executives with strong incentives to increase stockholder value and a significant reward for doing so. Based on the stage of our development and the incentives we are trying to provide to our executives, we have chosen to use stock options, which derive value exclusively from increases in stockholder value, as opposed to restricted stock or other forms of equity awards. Our decisions regarding the amount and type of long-term equity incentive compensation and relative weighting of these awards among total executive compensation have also been based on our understanding of market practices of similarly situated companies and our negotiations with our executives in connection with their initial employment or promotion by us.

Stock option awards provide our executive officers with the right to purchase shares of our common stock at a fixed exercise price typically for a period of up to ten years, subject to continued employment with us. Stock options are earned on the basis of continued service to us and generally vest over four years, beginning with one-fourth vesting one year after the date of grant, then pro-rata vesting quarterly thereafter. Currently, stock option awards are made pursuant to our 2004 Stock Option and Incentive Plan. See also Employment Agreements and Potential Payments Upon Termination or Change-in-Control for a discussion of the change-in-control provisions related to stock options.

The exercise price of each stock option granted under our 2004 Stock Option and Incentive Plan must be equal to or above the fair market value of our common stock on the grant date.

We have granted all of our stock options to executives as incentive stock options under Section 422 of the Internal Revenue Code of 1986 (the Code), subject to the volume limitations contained in the Code. Generally, for stock options that do not qualify as incentive stock options, we are entitled to a tax deduction in the year in which the stock options are exercised equal to the spread between the exercise price and the fair market value of the stock for which the stock option was exercised. The holders of the stock options are generally taxed on this same amount in the year of exercise. For stock options that qualify as incentive stock options, we do not receive a tax deduction, unless there is a disqualifying disposition at the time of sale by the officer, and the holder of the stock option may receive more favorable tax treatment than he or she would for a non-qualified stock option. In 2006, we granted primarily nonqualified stock options, as a result of the Code limitations described above.

We have made grants to each of our executive officers on a periodic, but not necessarily annual, basis. In 2006, we considered a number of factors in determining what, if any, stock options to grant to our executives, including:

- the number of shares subject to, and exercise price of, outstanding options, both vested and unvested, held by our executives;
- the vesting schedule of the unvested stock options held by our executives; and
- the amount and percentage of our total equity on a diluted basis held by our executives.

We made new stock option grants to each of our executive officers other than Dr. Gozani in 2006. Dr. Gozani did not receive a stock option grant in 2006, based on an assessment of the factors described above, especially taking into consideration Dr. Gozani's existing ownership of our stock and the significant grant made to Dr. Gozani in 2004 prior to our initial public offering. We made the following stock option grants in 2006: 30,000 shares to Mr. Gregory, 30,000 shares to Mr. Smith, 25,000 shares to Dr. Williams and 25,000 shares to Mr. Daniello. The size of these grants were determined by evaluating the factors listed above.

In 2007, we adopted an equity award grant policy in order to formalize our approach regarding the timing and pricing of equity awards made to the named executive officers and all other employees. Under this policy, equity awards will only be made to existing employees on an annual basis or in connection with a promotion or other extraordinary event. The amount of annual awards will be determined at a pre-scheduled meeting of our compensation committee that is expected to be held within 45 days after the third trading day following our release our financial results for the prior year. Stock options granted as part of annual awards will either be denominated in shares or dollars, will have an exercise price per share equal to the closing price of our common stock on the date of the meeting at which they were approved and, if denominated in dollars, will be for the number of shares determined using the formula approved by our Compensation Committee at the time of the grants.

Post-Employment Benefits. Three of our named executive officers, Dr. Gozani, Mr. Gregory and Mr. Smith have employment agreements that provide them with severance payments and benefits in the

event we terminate their employment without cause or the executive officer terminates their employment for good reason. We believe that because the severance level is negotiated up front, it makes it easier for us to terminate executives without the need for protracted negotiations over severance.

See Executive Compensation Employment Agreements and Potential Payments upon Termination or Change-in-Control for the definition of cause and good reason under the employment agreements..

In the event of a change in control, under the terms of the Company's 2004 Stock Option and Equity Incentive Plan and the 1998 Stock Option Plan, all stock options held by the named executive officers become fully vested unless the stock options are replaced by like options by the acquiring company.

Other Benefits Programs.

We believe in creating a cooperative environment in which all employees are committed to us and motivated to meet our business objectives. To that end, there are no additional significant benefits or perquisites that are available to the named executive officers that are not also available to all of our employees. Our employee benefits include a 401(k) profit sharing plan, disability insurance and optional health and dental. The optional health benefit requires cost sharing for all employees, including executive officers, and the dental is fully paid by any employee that elects the coverage.

Deductibility of Executive Compensation Expenses

In general, under Section 162(m) of the Code, we cannot deduct, for federal income tax purposes, compensation in excess of \$1,000,000 paid to certain executive officers. This deduction limitation does not apply, however, to compensation that constitutes qualified performance-based compensation within the meaning of Section 162(m) of the Code and the regulations promulgated thereunder. The Compensation Committee has considered the limitations on deductions imposed by Section 162(m) of the Code, and it is the Compensation Committee's present intention that, for so long as it is consistent with its overall compensation objective, substantially all executive compensation will not be subject to the deduction limitations of Section 162(m) of the Code.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

Respectfully submitted by the Compensation
Committee:

Discussion of Summary Compensation and Grants of Plan-Based Awards Tables

Our executive compensation policies and practices, pursuant to which the compensation set forth in the Summary Compensation Table and the Grants of Plan Based Awards Table was paid or awarded, are described above under Compensation Discussion and Analysis. A summary of certain material terms of our compensation plans and arrangements is set forth below. The terms of employment agreements that we have entered into with our executives are described below under Employment Agreements and Potential Payments Upon Termination or Change-in-Control.

Annual Cash Incentive Compensation

In 2006, we established target annual cash incentive compensation for each of our named executive officers as a percentage of that executive's base salary, as follows: Dr. Gozani 50%; Mr. Gregory 50%; Mr. Smith 30%; Dr. Williams 25%; and Mr. Daniello 25%. The cash incentive compensation paid upon the achievement of these predetermined performance goals are reported as Non-Equity Incentive Plan Compensation in the Summary Compensation Table. Additionally, in the 2006 Grants of Plan-Based Awards table, the Estimated Possible Payouts under Non-Equity Incentive Plan Awards column for each of the executives relates to the portion of our annual cash incentive compensation that was payable upon the achievement of these predetermined performance goals. The target represents the payout that would have been received if each performance goal was met. We did not establish separate threshold and maximum payouts above or below the target level for each performance goal, although the amount of the actual payout was dependent on the number of performance goals met.

2006 Stock Option Grants

In 2006, we granted stock options to our named executive officers under our 2004 Stock Option and Incentive Plan, as described above. Each stock option granted has a term of ten years and may be exercised at any time and from time to time prior to its expiration for all or a portion of such option shares that have vested. Each stock options vest over four years with 25% of the total award vesting after one year and the remainder vesting in equal quarterly installments thereafter. Generally, to the extent vested, each stock option is exercisable during the term of the option while the grantee is employed by us and for a period of three months thereafter, unless such termination is upon death or disability, in which the grantee may continue to exercise the option for a period of 12 months, or for cause, in which case the option terminates immediately. Vesting of this stock option is also subject to acceleration in some certain circumstances in connection with a change-in-control as described below in Employment Agreements and Potential Payments Upon Termination or Change-in-Control.

The table below sets forth information with respect to our named executive officers concerning the exercise of options during the year ended December 31, 2006.

Employment Agreements and Potential Payments upon Termination or Change-in-Control

Shai N. Gozani, M.D., Ph.D.

Edgar Filing: NeuroMetrix, Inc. - Form DEF 14A

We entered into an employment agreement with Dr. Gozani, effective as of June 21, 2004. Under the terms of the employment agreement, Dr. Gozani is to be paid an annual base salary determined by our Compensation Committee but not less than \$250,000. Dr. Gozani's salary for 2006 was \$262,500. Dr. Gozani is also eligible to receive an annual cash performance bonus of up to 50% of his annual salary if certain performance objectives, determined by Dr. Gozani and our Compensation Committee, are met. In addition, pursuant to this employment agreement, we granted Dr. Gozani stock options to purchase 375,000 shares of common stock at an exercise price of \$8.00 per share, equal to the price per share at the initial public offering. This stock option has a term of ten years and vests over four years with 25% of the total award vesting after one year and the remainder vesting ratably over the following three years on a quarterly basis.

20

The employment agreement may be terminated by us with or without cause or by Dr. Gozani. Under the terms of the employment agreement, if (1) we terminate Dr. Gozani for any reason other than willful non-performance of his duties under the employment agreement, intentional fraud or dishonesty with respect to our business or conviction of a felony, which we refer to as a termination without cause, or (2) Dr. Gozani resigns as a result of a reduction in his responsibilities with us, reduction in his status with us, reduction of his salary, relocation of our corporate offices more than 35 miles from their current location or breach by us of the employment agreement, which we refer to as a termination for good reason, Dr. Gozani will be entitled to his full base salary at his then-current annual rate of pay, plus benefits and applicable bonus payments, through the date of his termination. In addition, in the event of such a termination, we will continue to pay Dr. Gozani his then-current annual base salary for one year following the termination and Dr. Gozani will be entitled to acceleration of one year of vesting under the option granted pursuant to his employment agreement. Additionally, Dr. Gozani will be entitled to his full annual cash performance bonus in the year that any of the following sale transactions occurs:

- a sale of substantially all of our assets;
- a merger or combination with another entity, unless the merger or combination does not result in a change in ownership of our voting securities of more than 50%; or
- the sale or transfer of more than 50% of our voting securities.

Additionally, upon the occurrence of a sale transaction, Dr. Gozani will be entitled to acceleration of vesting for 25% of the option granted pursuant to his employment agreement. If a sale transaction occurs within nine months after a termination without cause or for good reason or the termination of Dr. Gozani's employment as a result of his death or disability, this stock option will become fully vested as to the total award.

The following table quantifies the estimated payments that would be made to Dr. Gozani in the event of any termination or change-in-control of the Company. This table assumes that the applicable event occurred as of December 31, 2006.

Payments and Benefits	Termination Without Cause or for Good Reason			Change-in-Control following Termination(1)			Change-in-Control(2)		
Cash Severance		\$	262,500						
Bonus(3)								\$	131,250

Total		\$	910,313		\$	971,719		\$	779,063

(1) Assumes that a sale transaction under Dr. Gozani's employment agreement as such term is described above occurred on December 31, 2006 and within nine months after the effective date of a termination due to death or disability, termination without cause or termination for good reason. Also assumes that the vesting of Dr. Gozani's options did not accelerate upon his prior termination.

(2) Change-in-control refers to a sale transaction under Dr. Gozani's employment agreement as such term is described above. Assumes that Dr. Gozani's stock options are continued, assumed or replaced in the sale transaction. Otherwise, full vesting would occur pursuant to the terms of our 1998 Equity Incentive Plan.

(3) As described above, Dr. Gozani's full bonus is payable in any year in which a sale transaction occurs.

(4) Calculated based on the spread between the exercise price of the options accelerated upon the occurrence of the relevant event and the closing stock price of our common stock on the Nasdaq Global Market on December 31, 2006 of \$14.91.

Gary L. Gregory

We entered into a letter agreement with Mr. Gregory effective July 1, 2002, which provides for our employment of Mr. Gregory on an at-will basis. Under the letter agreement, Mr. Gregory's initial annual salary was \$200,000, subject to subsequent increases in the discretion of our Chief Executive Officer or our Board of Directors. Mr. Gregory's salary for 2006 was \$246,750. Under the letter agreement, Mr. Gregory also is eligible to receive annual incentive cash compensation of up to 50% of his annual salary, if certain performance objectives, determined by our Compensation Committee, primarily related to quarterly and annual sales revenue targets, are met. Pursuant to this letter agreement, we granted Mr. Gregory a stock option to purchase 110,000 shares of common stock at a price of \$2.25 per share. This stock option has a term of ten years and vested over three and one-half years following its grant. Under the terms of the letter agreement, if (1) we terminate Mr. Gregory's employment for any reason other than willful misconduct, which we refer to as a termination without cause, or (2) Mr. Gregory resigns as a result of our material breach of the terms of the letter agreement, which we refer to as a termination for good reason, then Mr. Gregory will be entitled to receive his base salary, car allowance and continuation of health benefits for a period of nine months from the date of the termination, subject to Mr. Gregory executing a release agreement with us. Additionally, in the event of a termination without cause or for good reason, Mr. Gregory will be entitled to the acceleration of nine months of vesting under certain stock options granted to Mr. Gregory, subject to Mr. Gregory executing a release agreement with us. Additionally, in the event of a change-in-control which results in a termination of Mr. Gregory without cause or for good reason, which includes Mr. Gregory's resignation as a result of a required relocation to a worksite more than 50 miles from our worksite prior to the change-in-control, Mr. Gregory will be entitled to receive his base salary, car allowance and continuation of health benefits for a period of nine months from the date of the termination of employment and certain stock options granted to Mr. Gregory will vest in full, subject to Mr. Gregory executing a release agreement with us. Under Mr. Gregory's letter agreement, a change-in-control is defined as a consolidation or merger in which we are not the surviving corporation or which results in the acquisition of substantially all of our outstanding shares by a single person or a group of persons or entities acting in concert or the sale or transfer of substantially all of our assets.

The following table quantifies the estimated payments that would be made to Mr. Gregory in the event of any termination or change-in-control of the Company. This table assumes that the applicable event occurred as of December 31, 2006.

W. Bradford Smith

We entered into a letter agreement with Mr. Smith on February 7, 2005, which provides for our employment of Mr. Smith, as our Chief Financial Officer, on an at-will basis beginning on February 14, 2005. Under the letter agreement, Mr. Smith's initial annual salary was \$220,000, subject to periodic review and adjustment at our discretion. Mr. Smith's salary for 2006 was \$231,000. Under the letter agreement, Mr. Smith will be also eligible to receive an annual incentive cash compensation of up to 30% of his annual salary, if certain performance objectives, determined by Mr. Smith and us, are met.

Pursuant to the letter agreement, we also granted Mr. Smith stock options to purchase 142,000 shares of common stock at a price equal to the closing price of our common stock on the date Mr. Smith's employment with us commenced, which was \$9.90 per share. This stock option has a term of ten years and vests over four years with 25% of the total award vesting one year after the commencement of Mr. Smith's employment with us and the remainder vesting ratably over the following three years on a quarterly basis.

Under the terms of the letter agreement, if (1) we terminate Mr. Smith's employment without cause or (2) Mr. Smith resigns as a result of our material breach of the terms of the letter agreement, which we refer to as a termination for good reason, then Mr. Smith will be entitled to receive his base salary and continuation of health benefits for a period of nine months from the date of such termination of Mr. Smith, subject to Mr. Smith executing a release agreement with us. Additionally, in the event of a termination of Mr. Smith without cause or for good reason, Mr. Smith will be entitled to the acceleration of nine months of vesting under the option granted pursuant to his letter agreement.

If a sale transaction occurs, Mr. Smith will be entitled to acceleration of vesting for 25% of the total award granted pursuant to his letter agreement. The following will be considered sale transactions under Mr. Smith's option agreement:

- a sale of substantially all of our assets;
- a merger or combination with another entity, unless the merger or combination does not result in a change in ownership our voting securities of more than 50%; or
- the sale or transfer of more than 50% of our voting securities.

Global Market on December 31, 2006 of \$14.91. Assumes that Mr. Smith's stock options are continued, assumed or replaced in any sale transaction. Otherwise, full vesting would occur pursuant to the terms of the Company's 2004 Stock Option and Incentive Plan.
