**Item 5.02      Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.**

(c)      On June 6, 2007, Triumph Group, Inc. s (the Company ) Board of Directors appointed Richard C. Ill, the Company s President and Chief Executive Officer, to also serve as the Company s principal financial officer on an interim basis, without additional compensation. Mr. Ill, age 64, has been the Company s President and Chief Executive Officer and a director since 1993. Mr. Ill is a director of P.H. Glatfelter Company, Airgas Inc. and Baker Industries and a member of the advisory board of Outward Bound, USA.

(e)      On June 6, 2007, the compensation and management development committee of the Company s Board of Directors awarded the Company s executive officers and other senior management employees a combination of grants of performance-based restricted stock under the 2004 Stock Incentive Plan and deferred cash payments. Under the terms of the grants, if the Company achieves a target level of earnings per share for the 2008 fiscal year, then the grant recipients will receive a combination of restricted stock and deferred cash of a total value equal to 50% of their respective base salaries as adjusted at the beginning of that fiscal year. The portion of the grant represented by restricted stock grant will be a number of shares having a value equal to 70% of the total value of the combined grant (using the stock value as of the date the compensation and management development committee determines that the performance objective has been achieved). The remaining portion of the grant will be paid in cash at the same time that the restrictions on the stock grant lapse. If the Company fails to achieve the target performance objective for the fiscal year, the grant would be eliminated altogether. If the Company achieves the target performance objective for the fiscal year and the grant recipient remains with the company for an additional three years following such achievement, the recipient will receive the shares of stock free of restrictions as well as the cash payment.

This approach was designed to provide incentive for the creation of stockholder value over the long term because the achievement of the award depends upon the extent of management s achievement of the performance target set for the given fiscal year. Moreover, the Company believes the desire to increase the value of the stock to be received upon expiration of the restrictions will induce management both to remain with the company to avoid forfeiture of the grant and to achieve superior performance to increase the value of the stock ultimately received.
