

ENERGY CO OF MINAS GERAIS
Form 6-K
May 27, 2008

FORM 6-K

SECURITIES AND EXCHANGE COMMISSION WASHINGTON, D.C. 20549

REPORT OF FOREIGN PRIVATE ISSUER PURSUANT TO RULE 13a-16 OR 15d-16 OF THE SECURITIES EXCHANGE ACT OF 1934

For the month of May 2008

Commission File Number 1-15224

Energy Company of Minas Gerais

(Translation of Registrant's Name Into English)

Avenida Barbacena, 1200

30190-131 Belo Horizonte, Minas Gerais, Brazil

(Address of Principal Executive Offices)

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F.

Form 20-F Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

Indicate by check mark whether by furnishing the information contained in this Form, the registrant is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

If is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): N/A

EXPLANATORY NOTES TO THE QUARTERLY INFORMATION

In R\$ 000, except where otherwise stated.

1) OPERATIONAL CONTEXT

Companhia Energética de Minas Gerais, Cemig or the holding company, a listed corporation registered in the Brazilian Registry of Corporate Taxpayers (CPNJ) under number 17.155.730/0001-64, has been operating exclusively as a holding company since January 1, 2005, with stockholdings in companies controlled individually and jointly, the principal objectives of which are the construction and commercial operation of systems for production, transformation, transmission, distribution and sale of electricity, and also activities and commercial operation in the various fields of energy.

On March 31, 2008 Cemig had stockholdings in the following companies in operation (the information on markets served, and installed capacity, has not been reviewed by our external auditors):

- Cemig Geração e Transmissão S.A. (subsidiary, 100% stake): Registered with the CVM (Securities Commission). Generation and transmission of electricity, through 46 power plants, 43 being hydroelectric, one a wind power plant and two thermal plants, and their transmission lines, most of them being part of the Brazilian national generation and transmission grid system. Cemig Geração e Transmissão S.A. has stockholdings in the following subsidiaries that are at development phase:
- Hidrelétrica Cachoeirão S.A. (jointly controlled, 49.00% stake): Production and sale of electricity as an independent power producer, through the Cachoeirão hydroelectric power plant located at Pocrane, in the State of Minas Gerais. The power plant is in the construction phase, with startup expected in September 2008. It has generation capacity of 27 MW.
- Guanhões Energia S.A. (jointly controlled 49.00% stake): Production of sale and sale of electricity through building and commercial operation of the following Small Hydro Plants: Dores de Guanhões, Senhora do Porto and Jacaré, in the municipality of Dores de Guanhões; and Fortuna II, in the municipality of Virginópolis; both in Minas Gerais State. The plants are in construction phase, with start of operation scheduled in 2009, and will have aggregate installed capacity of 44MW.
- Cemig Baguari Energia S.A. (subsidiary 100% stake): Production and sale of electricity as an independent producer. Cemig Geração and Transmissão expects to transfer the assets from the Baguari Consortium to this subsidiary. Operational startup of this plant is scheduled for 2009.

- Madeira Energia S.A. (jointly controlled 10.00% stake): Implementation, construction, operation and commercial operation of the Santo Antônio hydroelectric plant in the Madeira River Basin, in the State of Rondônia, with generation capacity of 3,150 MW (information not revised by the external auditors) and commercial startup scheduled for 2012).
- Cemig Distribuição S.A. (subsidiary 100% stake): Registered with the CVM: Distribution of electricity through distribution networks and lines in approximately 97% of the Brazilian State of Minas Gerais.

- Rio Minas Energia Participações (RME) (jointly-controlled subsidiary 25.00% stake): This company holds 52.25% of the registered capital of Light S.A. (Light), the holding company that has 100% control of the distribution concession holder Light Serviços de Eletricidade S.A, with 3.9 million consumers in 31 municipalities of the state of Rio de Janeiro, and the generating company Light Energia S.A., which has generating capacity of 855 MW.
- Sá Carvalho S.A. (subsidiary 100% stake): Production and sale of electricity, as a holder of a concession for public electricity service, through the Sá Carvalho hydroelectric power plant.
- Usina Térmica Ipatinga S.A. (subsidiary 100% stake): Production and sale, under the independent production regime, of thermally produced electricity, through the Ipatinga thermal plant, located on the premises of Usiminas (Usinas Siderúrgicas de Minas Gerais S.A. Usiminas);
- Companhia de Gás de Minas Gerais Gasmig (Gasmig) (jointly controlled 55.19% stake): Acquisition, transport and distribution of combustible gas or sub-products and derivatives, through concession for distribution of gas in the State of Minas Gerais, granted by the government of the State of Minas Gerais.
- Empresa de Infovias S.A. (Infovias) (subsidiary 100% stake): Specialized service in the area of telecommunications, through an integrated multi-service network consisting of fiber optic cables, coaxial cables, and electronic and associated equipment.
- Efficientia S.A. (subsidiary 100% stake): Provides electricity efficiency and optimization services and energy solutions through studies and execution of projects, as well as providing services of operation and maintenance in energy supply facilities.
- Horizontes Energia S.A. (subsidiary 100% stake): Production and sale of electricity, in the independent product mode, through the Machado Mineiro and Salto do Paraopeba hydroelectric power plants, in the State of Minas Gerais, and the Salto do Voltão and Salto do Passo Velho plants in the State of Santa Catarina;
- Central Termelétrica de Cogeração UTE Barreiro S.A (subsidiary 100% stake): Production and sale of thermally generated electricity, as an independent producer, through the construction and operation of the UTE Barreiro thermal generation plant, located on the premises of V&M do Brasil S.A., in the State of Minas Gerais. The concession was transferred to UTE Barreiro S.A. in the first quarter of 2006.

- Rosal Energia S.A. (subsidiary 100% stake): Production and sale of electricity, as a public electricity service concession holder, through the Rosal hydroelectric power plant located on the border between the states of Rio de Janeiro and Espírito Santo, Brazil.
- Central Hidrelétrica Pai Joaquim Cemig PCH S.A. (subsidiary 100% stake): Production and sale of electricity as an independent power producer, through the Pai Joaquim hydroelectric power plant. The concession was transferred to Cemig PCH S.A. in the first quarter of 2006.
- Cemig PCH S.A. (subsidiary 100% stake): Production and sale of electricity as an independent power producer, through the Pai Joaquim hydroelectric power plant.

- Cemig Capim Branco Energia S.A. (subsidiary 100% stake): Production and sale of electricity as an independent producer, through the Capim Branco I and II hydroelectric power plants, built through a consortium with private-sector partners.
- UTE Barreiro UTE Barreiro S.A (subsidiary 100% stake): Production and sale of thermally generated electricity, as an independent producer, through the construction and operation of the UTE Barreiro thermal generation plant, located on the premises of V&M do Brasil S.A., in the State of Minas Gerais.
- Companhia Transleste de Transmissão (jointly controlled 25.00% stake): Operation of a 345kV transmission line connecting the substation located in Montes Claros to the substation of the Irapé hydroelectric power plant.
- Cemig Trading Cemig Trading S.A. (subsidiary 100% stake): Energy sales and intermediation in energy transactions.
- Companhia Transudeste de Transmissão (jointly controlled 24.00% stake): Construction, implementation, operation and maintenance of electricity transmission facilities of the national grid the 345kV Itutinga-Juiz de Fora transmission line.
- Companhia Transirapé de Transmissão (jointly controlled 24.50% stake): Construction, implementation, operation and maintenance of the 230kV Irapé-Araçuaí transmission line (a component of the national grid).
- Empresa Paraense de Transmissão de Energia S.A. (EPTE) (jointly controlled 18.63% stake): Holder of a public service electricity transmission concession for the 500kV transmission line linking the Tucuruí Substation to the Vila do Conde Substation in the Brazilian state of Pará.
- Empresa Norte de Transmissão de Energia S.A. (ENTE) (jointly controlled 18.35% stake): Holder of a public service electricity transmission concession, for two 500kV transmission lines, the first from the Tucuruí Substation to the Marabá Substation in the Brazilian state of Pará, and the second from the Marabá Station to the Açailândia Substation in the Brazilian state of Maranhão.
- Empresa Regional de Transmissão de Energia S.A. (ERTE) (jointly controlled 18.35% holding): Holder of a public service electricity transmission concession for the 230kV transmission line from the Vila do Conde Substation to the Santa Maria Substation in the State of Pará.

- Empresa Amazonense de Transmissão de Energia S.A. (EATE) (jointly controlled 16.36% stake): Holder of the public service electricity transmission concession for the 500kV transmission lines between the sectionalizing substations of Tucuruí, Marabá, Imperatriz, Presidente Dutra and Açailândia.
- Empresa Catarinense de Transmissão de Energia S.A. (ECTE) (jointly controlled, with 7.50% stake): Holder of the public service electricity transmission service concession for the 525kV transmission line from the Campos Novos Substation to the Blumenau Substation in the state of Santa Catarina.

Cemig also has stockholdings in the companies listed below, which were at pre-operational stage on March 31, 2008:

- Companhia de Transmissão Centroeste de Minas (jointly controlled 51.00% stake): Construction, implementation, operation and maintenance of the 345kV Furnas-Pimenta transmission line, a component of the national grid.
- Transchile Charrúa Transmisión S.A. (Transchile) (jointly controlled 49.00% stake): Implementation, operation and maintenance of the Charrúa-Nueva Temuco 220kV transmission line, and two sections of transmission line at the Charrúa and Nueva Temuco substations, in the central region of Chile. The head office of Transchile is in Santiago, Chile.
- Focus Soluções Tecnológicas S.A. (Axxiom) (jointly controlled 49.00% stake): Formed in August 2007 to provide services of implementation and management of systems for electricity sector companies. Start of operations is scheduled for 2008.

Where Cemig exercises joint control it does so through stockholders agreements with the other stockholders of the investee company.

2) PRESENTATION OF THE QUARTERLY INFORMATION

The quarterly financial statements were prepared according to accounting principles adopted in Brazil, namely: the Brazilian Corporate Law; rules of the Brazilian Securities Commission (CVM Comissão de Valores Mobiliários); and rules of the specific legislation applicable to holders of electricity concessions, issued by the National Electricity Agency, ANEEL.

The quarterly financial statements were prepared according to accounting principles, methods and criteria that are uniform in relation to those adopted in December 31, 2007.

The statements of cash flow were prepared in accordance with the criteria of FAS 95 *Statement of Cash Flows*, with references made to the format of presentation, in the context of registry of the financial statements with the Securities and Exchange Commission (SEC).

Additionally, Cemig is presenting Explanatory Note 33 and 34, on the Income Statements Separated by Company, respectively.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

As a result of inclusion in the Company's Bylaws in 2007 of a provision for payment of profit shares to the employees and managers of the company, this profit share has now begun to be posted as an amount reducing net profit before tax and profit shares, where in 2007 it was posted under Personnel Expenses.

Criteria for consolidation of the Quarterly Information

The financial statements of the subsidiaries and jointly controlled companies mentioned in Explanatory Note 1 were consolidated. The data of the controlled subsidiaries as a whole was consolidated based on the method of proportional consolidation, applicable to each component of the financial statements of the investees. All the subsidiaries, including those that are jointly controlled, follow accounting practices that are consistent with those of the holding company.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

In the consolidation, the holdings of the holding company in the Stockholders' equity of investee companies, and significant balances of assets, liabilities, revenues and expenses arising from transactions effected between the companies, have been eliminated.

The portion relating to the minority holdings in stockholders' equity of the subsidiaries is shown separately in Liabilities.

The financial information of Transchile, for the purpose of consolidation, are converted from Chilean accounting principles to Brazilian accounting principles, with Chilean pesos being converted to Reais at the exchange rate of the last day of the quarter.

The dates of the financial information of the investee companies used for calculation of equity income and consolidation coincide with those of the holding company, except of Companhia de Transmissão Centroeste de Minas, that was used the information of February 29, 2008.

Change in the Brazilian Corporate Law

On December 28, 2007, Law 11638/07 was passed, altering, repealing and creating new provisions in the Brazilian Corporate Law in the chapter relating to disclosure and preparation of financial statements. Among other aspects, this changes the criterion for recognition and valuation of certain assets and liabilities. These changes in accounting practices come into effect as from January 1, 2008.

The aim of these changes is to increase the transparency of financial statements of Brazilian companies and eliminate some regulatory barriers that were an obstacle to the process of convergence of these financial statements with international financial reporting standards (IFRS):

The main changes to the Law, coming into effect as from 2008, with the possibility of impacting the company's financial statements, are as follows:

- Replacement of the Statement of Origins and Uses of Funds by the Cash Flow Statement.
- Inclusion of the Added Value Statement in the group of financial statements prepared, disclosed and which are to be approved by the Ordinary General Meeting of stockholders.
- A new possibility was created, further to that originally specified in the Corporate Law, of separation of trading reporting and tax reporting, by establishing the alternative for the company of adopting in its trading reporting, and not only in auxiliary books, the provisions of the Tax Law, provided that, immediately afterward, after the calculation of the taxable profit base amount, the necessary adjustments are made for the financial statements to be in harmony with the Corporate Law and the fundamental principles of accounting.
- Creation of two new subgroups of accounts: *Intangible*, in permanent assets, and *Adjustments to valuations of assets and liabilities*, in Stockholders' equity. The subgroup of *Adjustments to valuation of assets and liabilities* will essentially have the purpose of containing the counterpart of certain valuations of assets at market price, the valuation of certain financial instruments and, also, conversion adjustments as a result of FX variation on holdings in companies outside Brazil, still pending specific regulation by the CVM (Brazilian Securities Commission).

- New criteria for classification and valuation of investments and financial instruments, including derivatives. These financial instruments will be classified in three categories (held for trading, held until maturity and available for sale) and their valuation at cost plus return or at market value will be made as a function of their classification in one of these categories.
- Introduction of the concept of Adjustment to Present Value for long-term asset and liability transactions and for significant short-term transactions, still awaiting specific regulation by the CVM.
- In absorption, merger or split transactions (combination of companies), when carried out between non-related parties and linked to effective transfer of control, all the assets and liabilities of the absorbed, split or merged company must be identified, valued and accounted at market value.
- Elimination of the possibility of spontaneous revaluations of fixed assets being made.

As communicated to the market, the CVM intends, by the end of 2008, to complete its process of issue of regulations for the provisions of the corporate law that were altered and which need regulation, and will review all its normative acts that deal with accounting matters, so as to verify and eliminate any divergences in relation to the specific alterations produced by the new law.

As the instruction of CVM n° 469 of May 2, 2008, the company's management and its subsidiaries had evaluated the potential impacts of this new law and the mainly changes in the financial statements through the adoption of the Law 11.638 mentioned in the paragraphs above are basically the adjust of the present value of some assets and long term liabilities. Part of the amount estimate of R\$ 112,406, would not affect the shareholders' equity and the net income of the period in balancing it of the fixed assets.

The estimates impacts in the shareholders' equity and in the net income of the period in the consolidated financial statements, in case of the changes as result of the new law, would be in the first quarter of 2008 the amount of R\$ 2,921.

Reclassification of accounting balances

The following changes for the reason of comparability were made in the financial statement in 2007 presented before:

Original line	Consolidated Net amounts	Reclassified to	Consolidated Net amounts
Operational costs		Income statement	
Cost of operation			
Charges for the use of the basic transmission grid	34,360	Revenue for use of the network	(34,360)
Personnel and managers	21,046	Employees' profit shares	(21,046)
	55,406		(55,406)

3) CASH AND CASH EQUIVALENTS

	Consolidated		Holding company	
	03/31/2008	12/31/2007	03/31/2008	12/31/2007
Bank accounts	63,024	443,490	6,132	5,739
Cash investments				
Bank deposit certificates	2,243,861	1,351,880	56,790	16,214
Treasury Financial Notes (LFTs)	44,411	97,101		
National Treasury Notes (LTNs)	76,646	105,869		
Others	30,833	67,879		
	2,395,751	1,622,729	56,790	16,214
	2,458,775	2,066,219	62,922	21,953

Cash investments consist of transactions carried out with Brazilian financial institutions, contracted on normal market conditions and under normal market rates, which are available to be used in the Company's operations.

4) CONSUMERS AND RESELLERS

	Consolidated		Holding company	
	03/31/2008	12/31/2007	03/31/2008	12/31/2007
Current assets				
Retail supply invoiced	1,867,943	2,101,670	63,028	64,326
Retail supply not invoiced	581,720	296,497		
Supply to other concession holders	106,495	90,154		
(-) Provision for doubtful receivables	(493,733)	(463,197)	(63,028)	(64,326)
	2,062,425	2,025,124		

Receivables in the amount of R\$ 40,480 are recorded in non-current assets (long-term receivables) at March 31, 2008 (R\$ 44,469 at December 31, 2007), in relation to the renegotiation of receivables owed by Copasa (Minas Gerais Water Company) and the prefecture of Belo Horizonte, to be paid by September 2012 and March 2010, respectively.

Credits receivable from an industrial consumer in the amount of R\$ 90,834, not paid due to an injunction that allowed this payment not to be made until final judgment of a legal action challenging the tariff increase during the Cruzado Economic Plan, by Ministerial Order 045/86, are recorded in the accounts. The company expects this legal action to be concluded before the end of 2008, and that the amounts referred to will be received in full.

According to rules laid down by Aneel, the criteria for constitution of provisions are as follows: (i) for consumers with significant debts payable, an individual analysis is made of the balance, taking into account the history of default, negotiations in progress and the existence of real guarantees; (ii) for other consumers, the debts receivable and unpaid for more than 90 days from residential consumers, more than 180 days from commercial consumers and more than 360 days for the other consumer categories are provisioned in full.

The provision for doubtful credits made is considered to be sufficient to cover any losses in the realization of these assets.

5 REGULATORY ASSETS AND LIABILITIES

The General Agreement for the Electricity Sector, signed in 2001, and the new regulations governing the electricity sector, result in the constitution of several regulatory assets and liabilities, and also in deferral of federal taxes applicable to these assets and liabilities (which are settled as and when the assets and liabilities are received and/or paid), as shown here:

	Consolidated		Holding company	
	03/31/2008	12/31/2007	03/31/2008	12/31/2007

Total	1,069,085	1,009,798	(86,660)	(85,179)

6 THE EXTRAORDINARY TARIFF RECOMPOSITION, AND PORTION A

In 2001 the Brazilian federal government, through the Electricity Emergency Chamber, signed an accord with the electricity distributors and generators, called "The General Agreement for the Electricity Sector", which set criteria for ensuring the economic and financial equilibrium of the concession contracts and for recomposition of the extraordinary revenues and losses which occurred during the Rationing Program, through an Extraordinary Tariff Recomposition (RTE), given to compensate for the variation in non-manageable costs of Portion A taking place in the period from January 1 to October 25, 2001.

a) The Extraordinary Tariff Recomposition

Resolution 91 of the Emergency Electricity Council (GCE), of December 21, 2001 and Law 10438 of April 26, 2002, established the procedures for implementation of the Extraordinary Tariff Recomposition (RTE), coming into force on December 27, 2001. The tariff adjustments were laid down by Resolution 130 of the GCE, on April 30, 2002, as follows:

- Adjustment of 2.90% for consumers in the residential category (excluding low-income consumers), and the rural, public-illumination and industrial high-voltage consumer categories for whom the cost of electricity represents 18.00% or more of the average cost of production and which meet certain requirements related to load factor and electricity demand, specified in the Resolution.
- Increase of 7.90% for other consumers.

The RTE described above is being used to compensate the following items:

- Losses of invoiced sales revenue in the period from June 1, 2001 to February 28, 2002, corresponding to the difference between estimated revenue if the Rationing Program had not been put in place and the actual revenue while the program was in place, according to a formula published by ANEEL. Calculation of this value did not take into account any losses from default by consumers.
- Passthrough to be made to the generators who bought energy in the MAE which was succeeded in 2004 by the Electricity Sale Chamber (the CCEE/MAE) in the period from June 1, 2001 to February 28, 2002, for a price in excess of R\$ 49.26/MWh (Free Energy).

The period in which the RTE of Cemig Distribuição S.A., of 74 months, expired in February 2008, and the Company accounted losses of R\$ R\$ 459,342 (R\$ 452,633 in December 31, 2007) due to the period not having been sufficient for receipt of the total of the asset representing losses as a result of rationing.

The company also ceased to transfer amounts to the generators, due to the termination of the period.

b) Portion A

The items of Portion A are defined as being the sum of the differences, positive or negative, in the period January 1 to October 25, 2001, between the amounts of the non-manageable costs presented on the basis of the calculation for determination of the last annual tariff adjustment and the disbursements which effectively took place in the period.

The recovery of Portion A was begun in March 2008, immediately after the end of the period of validity of the RTE, using the same mechanisms of recovery, that is to say the adjustment applied to the tariffs to compensate the amounts of the RTE will continue in place for compensation of the items of Portion A.

The Portion A credits are updated by the variation in the Selic rate up to the month in which they are actually offset.

c) Composition of the balances of the RTE and Portion A

The amounts to be received in relation to the RTE and Portion A, recorded in Assets, are:

	Consolidated	
	03/31/2008	12/31/2007
Cemig holding company		
Losses from rationing	254,884	250,527
(-) Provision for losses in realization of the RTE	(254,884)	(250,527)
Cemig Distribuição S.A		
Losses from rationing	93,935	127,806
(-) Provision for losses in realization of the RTE	(93,935)	(92,329)
Passthrough to be made to the generators	323,122	333,866
Portion A	699,097	707,422
	1,022,219	1,076,765
RME Light		
Losses from rationing	72,862	79,876
(-) Provision for losses in realization of the RTE	(110,523)	(109,777)
Passthrough to be made to the generators	37,661	40,640
Portion A	80,676	84,842
	80,676	95,581
Total of RTE and Portion A	1,102,895	1,172,346
Current assets	387,921	450,817
Non-current assets	714,974	721,529

The amount of the RTE that should be passed through to the generators referring to Free Energy and that was not transfer because of the due date of the charge of the RTE is posted in current assets and long-term assets, in the Suppliers account, in the amounts, on December 31, 2207, of R\$ 327,689 (R\$ 27,381 in Current liabilities and R\$ 314,989 in Non-current liabilities, respectively).

7) TRADERS TRANSACTIONS IN FREE ENERGY

The rights of the subsidiary Cemig Geração e Transmissão in relation to the transactions in Free Energy in the Electricity Trading Chamber (CCEE, formerly MAE) during the Rationing Program are as follows:

	Consolidated	
	03/31/2008	12/31/2007
ASSETS		
Amounts to be received from distributors	425,910	436,084
Provision for losses in realization	(401,171)	(391,012)
	24,739	45,072

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

Current	16,002	31,426
Non-current	8,737	13,646

The amounts to be received are the difference between the prices paid by Cemig Geração e Transmissão S.A. in the transactions in energy on the CCEE/MAE during the period when the Rationing Program was in force, and the amount for these volumes if the rate were R\$ 49.26/MWh. This is to be reimbursed through the amounts raised by means of the RTE, as defined in the General Accord for the Electricity Sector.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

In accordance with ANEEL Resolution 36 of January 29, 2003, the electricity distributors raise and pass through the amounts obtained monthly by means of the RTE to the generators and distributors who have amounts to be received, among which Cemig Geração e Transmissão S.A. is included, since March 2003.

The rights of the subsidiary Cemig Geração e Transmissão are updated by the variation in the Selic rate plus 1.00% interest per year.

The conclusion of some court proceedings in progress, brought by market agents, in relation to the interpretation of the rules in force at the time of the realization of the transactions in the ambit of the CCEE/MAE, may result in changes in the amounts recorded.

Provision for losses in realization

The subsidiary Cemig Geração e Transmissão receives the amounts of the RTE from distributors, who have a limit period, stipulated by ANEEL, to raise the RTE from consumers and pass through the amounts owed to the company.

A study was carried out of the amounts of average passthroughs received by the distributors, to verify whether the period stipulated for the distributors to make the passthrough would be enough for recovery of the amounts homologated by ANEEL. Based on this study, the provision for losses on realization of the free energy credits on March 31, 2008 was estimated at R\$ 401,171 (R\$ 391,012 on December 31, 2007), and this was registered as an amount reducing the respective asset.

8) ANTICIPATED EXPENSES AND REGULATORY LIABILITIES - CVA

The balance on the Account to Compensate for Variation of Portion A items (CVA) refers to the positive and negative variations between the estimate of Cemig's non-manageable costs, used for deciding the tariff adjustment, and the payments actually made. The variations ascertained are compensated in the subsequent tariff adjustments.

The balance on the CVA is shown below:

	Consolidated	
	03/31/2008	12/31/2007
Cemig Distribuição	72,409	(35,092)
RME - Light	(1,650)	(12,640)
	70,759	(47,732)
Current assets	147,544	519,699
Non-current assets	658,985	177,842
Current liabilities	(259,396)	(549,133)

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

Non-current liabilities	(476,374)	(196,140)
Net amounts	70,759	(47,732)

9) TAXES SUBJECT TO OFFSETTING

	Consolidated		Holding company	
	03/31/2008	12/31/2007	03/31/2008	12/31/2007
Current				
ICMS recoverable	188,786	193,055	3,561	3,561
Income tax	446,897	314,245		
Social Contribution	153,274	104,564		
PASEP	22,281	35,782	2,597	4,571
COFINS	73,801	135,960	12,090	21,184
Others	12,753	26,687	3,670	3,680
	897,792	810,293	21,918	32,996
Non-current				
ICMS recoverable	93,659	84,774	426	367
Income tax	232,532	233,275	232,532	233,275
Social Contribution	32,143	25,984	32,143	25,984
Pasep and Cofins taxes	21,068	21,068		
	379,402	365,101	265,101	259,626
	1,277,194	1,175,394	287,019	292,622

The amounts of the Pasep and Cofins taxes registered in the holding company refer to the constitution of assets recoverable corresponding to the difference of taxation of these contributions under the non-cumulative regime (9.25%) and the cumulative regime (3.65%) applied to revenues from transmission from the period February-December 2004, arising from contracts signed on dates prior to October 31, 2003 (pre-set price).

The balances of income tax and Social Contribution refer to tax credits in corporate income tax returns of previous years, and payments made in 2008, which will be offset in the income tax and Social Contribution payable in the year, register in initial of Taxes, charges and contributions.

The credits of ICMS recoverable, posted in Non-current assets, arise from acquisitions of fixed assets and are offset in 48 months. The company is in the process of adaptation to the new requirements for electronic information laid down by the government of the state of Minas Gerais, which will allow for the offsetting of the credits in 2008.

10) TAX CREDITS**Deferred income tax and Social Contribution**

Cemig and its subsidiaries have deferred income tax credits posted in Current assets and Non-current assets, constituted at the rate of 25.00% and deferred Social Contribution credits, at the rate of 9.00%, as follows:

	Consolidated		Holding company	
	03/31/2008	12/31/2007	03/31/2008	12/31/2007
Tax credits on temporary differences -				
Tax loss / negative basis	279,862	283,859	82,595	81,712
Contingency provisions	208,829	190,426	90,644	76,326
Provisions for losses on realization of amounts receivable under the Extraordinary Tariff Recomposition and Free Energy	269,854	249,515	86,660	85,179
Post-employment obligations	56,460	54,132	1,290	1,101
Provision for doubtful receivables	194,851	185,015	21,429	21,871
Provision for Pasep/Cofins - Extraordinary Tariff Recomposition	15,102	19,315		
Provision for non-recovery of tax credits - Light	(29,616)	(29,616)		
Financial instruments	96,735	79,625		
FX variation	69,362	66,924		
Others	51,049	85,450	484	1,343
	1,212,488	1,184,645	283,102	267,532
Current assets	513,338	489,757	104,799	92,975
Non-current assets	699,150	694,888	178,303	174,557

At its meeting on March 06, 2008, the Board of Directors approved the technical study prepared by the CFO's department on the forecasts for future profitability adjusted to present value, which show capacity for realization of the deferred tax asset in a maximum period of 10 years, as defined in CVM Instruction 371. This study includes Cemig and its subsidiaries Cemig Geração e Transmissão and Cemig Distribuição and was also submitted to the Audit Board of Cemig on March 6, 2008,

In accordance with the individual estimates of Cemig and its subsidiaries, future taxable profits enable the deferred tax asset existing on March 31, 2008 to be realized according to the following estimate:

	Consolidated	Holding company
2008	473,294	93,861
2009	205,880	43,752
2010	121,235	38,873
2011	127,160	36,377
2012	109,710	35,458
2013 to 2015	121,683	34,523
2016 and 2017	83,142	258

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

(-) Provision for non-recovery of tax credits - Light	(29,616)	
	1,212,488	283,102

As well as the provision for non-recovery of tax credits of Light, on March 31, 2008 the holding company had tax credits not recognized in its quarterly information, in the amount of R\$ 449,057 (R\$ 444,269 on December 31, 2007).

The credits not recognized refer basically to the effective loss arising from the assignment of the credits of accounts receivable from the state government to the Credit Receivables Fund in the first quarter of 2006 (as per Explanatory Note 12). As a result of this assignment, the Provision for losses on recovery of the amounts, constituted in previous years, became deductible for the purposes of the calculation of income tax, and of the Social Contribution tax. The portion not recognized in relation to this issue is R\$ 437,509.

b) Reconciliation of the expense on income tax and Social Contribution:

The reconciliation of the nominal expense on income tax (rate 25%) and Social Contribution (rate 9%) with the actual expense shown in the Income Statement is as follows:

	Consolidated		Holding company	
	03/31/2008	03/31/2007 Reclassified	03/31/2008	03/31/2007
Profit before income tax and Social Contribution	800,855	636,918	485,121	395,694
Income tax and Social Contribution nominal expense	(272,291)	(216,552)	(164,941)	(134,536)
Tax effects applicable to:				
Reversal relating to Social Contribution tax on complementary monetary adjustment	(8,549)	(762)	(8,549)	(762)
Equity income from subsidiaries			183,554	141,941
Employees profit shares	7,500	7,156	262	
Non-deductible contributions and donations	(1,065)	(890)	(51)	(68)
Tax credits not recognized	(3,329)	6,900	(3,329)	6,949
Amortization of goodwill	(1,387)		(1,387)	
Others	3,024	(338)	371	(2,586)
Income tax and Social Contribution effective expense	(276,097)	(204,486)	5,930	10,938

11) DEFERRED TARIFF ADJUSTMENT

ANEEL, through Homologating Resolution 71, which was published with backdated effect on April 4, 2004, defined the results of the periodic tariff revision of Cemig Distribuição.

The periodic tariff revision includes the repositioning of the electricity retail supply tariffs at a level compatible with the preservation of the economic-financial equilibrium of the concession contract, providing sufficient revenue to cover efficient operational costs and adequate remuneration of the investments.

The average adjustment applied to Cemig's tariffs on April 8, 2003, on a provisional basis, was 31.53%. However, as described in the Resolution mentioned, the final tariff repositioning for Cemig should be 44.41%. The percentage difference of 12.88% is being compensated in the tariffs.

The last installment for receipt of the difference between the tariff adjustments was granted on April 8, 2008, and included in the tariff adjustment made on April 8, 2008.

The amounts relating to the deferred tariff adjustment are updated in monetary terms by the IGP-M Index plus interest of 11.26% per year.

	Consolidated	
	03/31/2008	12/31/2007
Deferred tariff adjustment since April 8, 2003	949,612	949,612
Interest (defined by ANEEL 11.26% p.a.)	447,881	434,188
Monetary updating IGP-M Inflation Index	201,967	189,763
(-) Amounts raised	(1,154,643)	(1,028,330)
	444,817	545,233
Current assets	432,616	463,491
Non-current assets	12,201	81,742

Additionally, deferred taxes applicable to actual revenue were recognized, the balance of which on March 31, 2008 was R\$ 192,383

12) ACCOUNTS RECEIVABLE FROM THE GOVERNMENT OF THE STATE OF MINAS GERAIS AND THE RECEIVABLES FUND (FIDC)

The outstanding credit balance receivable on the CRC (Results Compensation) Account was passed to the State of Minas Gerais in 1995, under an agreement to assign that account (the CRC Contract), in accordance with Law 8724/93, for monthly amortization over 17 years starting on June 1, 1998, with annual interest of 6% plus inflation correction by the Ufir index.

On January 24, 2001 the First Amendment was signed, replacing the inflation indexation unit in the contract, the Ufir, with the IGP-DI, backdated to November 2000, due to the abolition of the Ufir in October 2000.

In October 2002 the Second and Third Amendments to the CRC Contract were signed, establishing new conditions for the amortization of the credits by the Minas Gerais state government, the principal clauses being: (i) updating by the IGP-DI Index; (ii) amortization of the two amendments by May 2015; (iii) interest rates of 6.00% for the second amendment, and 12.00% for the third amendment; and (iv) guarantee of 100% retention of the dividends owed by the state government for settlement of the Third Amendment.

a) The Fourth Amendment to the CRC contract

As a result of the default in the receipt of the credits referred to in the Second and Third Amendments, the Fourth Amendment was signed with the aim of making possible the full receipt of the CRC through retention of dividends as and when the government of the state becomes entitled to them. This agreement was approved by the Extraordinary General Meeting of Stockholders completed on January 12, 2006.

The Fourth Amendment to the CRC contract had backdated effect on the outstanding balance existing on December 31, 2004, and consolidated the amounts receivable under the Second and Third Amendments, which totaled R\$ 3,737,341 on March 31, 2008.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

The government of the state will amortize the debit in 61 consecutive half-yearly installments, becoming due by June 30 and December 31 of each year, over the period from June 2005 to June 2035 inclusive. The installments for amortization of the value of the principal, updated by the IGP-DI Index, have increasing values, the first being R\$ 28,828 and the 61st being R\$ 84,832 (in March 31, 2008 currency).

The amortization of the debt will primarily be effected by means of retention of 65.00% of the minimum obligatory dividends payable to the government of the State. If the amount is not sufficient to amortize the portion becoming due, the retention may be of up to 65% of all and any amount of extraordinary dividends or Interest on Equity. These dividends retained are used to amortize the contract in the following order: (i) settlement of past due installments; (ii) settlement of an installment for the current half-year; (iii) anticipated settlement of up to 2 installments; and, (iv) amortization of the debtor balance.

On March 31, 2008 the installments of the contract becoming due on June 30 and December 31, 2008 had already been amortized.

The signature of the Fourth Amendment to the contract provides that, so as to ensure complete receipt of the credits, the provisions of Clause 11 of the Bylaws must be obeyed they define certain targets to be met annually in conformity with the Strategic Plan, which must be complied with.

	Ratio	Index required
Debt / Ebitda		Less than 2 (1)
Debt / (Debt plus Stockholders' equity)		Less or equal to 40% (2)
Capital expenditure and acquisition of assets		Less or equal to 40% of Ebitda (3)

Ebitda = earnings before interest, taxes on profit, depreciation and amortization.

- (1) Less than 2.5 in certain situations specified in the Bylaws.
- (2) Less than equal to 50% in certain situations specified in the Bylaws.

b) Transfer of the CRC credits to a Receivables Investment Fund (FIDC)

On January 27, 2006 Cemig transferred the CRC credits into a Receivables Investment Fund (FIDC). The amount of the FIDC was established by the administrator based on long-term financial projections for Cemig, estimating the dividends that will be retained for amortization of the outstanding debtor balance on the CRC contract. Based on these projections the FIDC was valued on that date at a total of R\$ 1,659,125, of which R\$ 900,000 in senior units and R\$ 759,125 in subordinated units.

The senior units were subscribed and acquired by financial institutions and with amortization of 20 half-yearly installments, from June 2006, updated by the variation of the CDI plus 1.7% of interest per year, guaranteed by Cemig.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

The subordinated units were subscribed by Cemig and correspond to the difference between the total value of the FIDC and the value of the senior units.

The updating of the subordinated units corresponds to the difference between the valuation of the FIDC using a rate of 10.00% per year, and the increase in value of the senior units by the variation of the CDI plus interest of 1.70% per year.

The movement on the FIDC account in the first quarter of 2008 was as follows:

	Consolidated and Holding company
Balance at December 31, 2007	1,763,277
Monetary updating on the senior units	27,843
Monetary updating on the subordinated units	11,245
Amortization of the senior units	(62,252)
Amortization of the subordinated units	(899)
Balance at March 31, 2008	1,739,214
Composition of the FIDC on March 31, 2008	
- Senior units held by third parties	955,977
- Subordinated units held by Cemig	782,509
Dividends held by the Fund	728
	783,237
TOTAL	1,739,214

The dividends and Interest on Equity proposed by the Executive Board to the Board of Directors, to be distributed to stockholders for the business year 2007, are posted in Current Liabilities. Of the dividends to be distributed, R\$ 193,350 is payable to the Minas Gerais state government, of which R\$ 125,677 will be retained for settlement of part of the CRC credits that have become due. The remaining amount of R\$ 67.673 is to be paid to the Minas Gerais state government.

c) Consolidation criterion of the FIDC

Due to the guarantee offered by Cemig of settlement of the senior units in the event that the dividends due to the state government are not sufficient for amortization of the installments, the Consolidated Quarterly Information present the balance of the FIDC registered in full in Cemig and the senior units are presented as a debt under loans and financings in short and long-term liabilities. Similarly, in the consolidation the monetary updating of the FIDC was recognized in full as a financial expense, and in counterpart the amount of the monetary updating of the senior units was registered as a cost of debt.

13) REGULATORY ASSET PIS/PASEP AND COFINS

Federal Laws 10637 and 10833 changed the bases of application, and increased the rate, of the PIS, Pasep and Cofins taxes. As a result of these alterations there was an increase in PIS and Pasep expenses from December 2002 to March 2005 and in expenses on the Cofins tax from February 2004 to June 2005.

In view of the fact that this increase in the expense should be repaid to the company through tariffs, the credits were registered, in accordance with a criterion defined by ANEEL, as a regulatory asset and there was a counterpart reduction in the expense on PIS/Pasep and Cofins taxes.

b) Stockholding in Light

A discount was ascertained on the acquisition, corresponding to the difference between the amount paid by RME and the book value of the stake in the stockholders' equity of Light, in the amount of R\$ 364,961 (Cemig's portion is 25.00%). This discount arises from the estimate of the results of future years as a function of the commercial operation of the electricity distribution and generation concessions and thus is being amortized from October 2006 to May 2026, the date of the termination of the distribution concession, on a linear basis. In the consolidation the amount of the discount (R\$ 85,097) is presented as Future earnings.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

On May 16, 2007 the Brazilian Development Bank (BNDES) converted 90% of its debentures into shares in Light S.A., corresponding to 31.40% of the registered capital. This reduced the stake held by Rio Minas Energia Participações S.A. (RME) in Light S.A. from 79.39% to 54.20%, and consequently the stake held by Cemig from 19.85% to 13.55%. Subsequently, on October 19, 2007, the BNDES exercised the right given by 72,727 warrants, which reduced RME s stake to 52.25%, and the stake held by Cemig to 13.06%.

c) Acquisition of stake in electricity transmission companies

The goodwill on the acquisition of transmission companies Empresa Amazonense de Transmissão de Energia S.A. (EATE), Empresa Paraense de Transmissão de Energia S.A. (ETEP), Empresa Norte de Transmissão de Energia S.A. (ENTE), Empresa Regional de Transmissão de Energia S.A. (ERTE) and Empresa Catarinense de Transmissão de Energia S.A. (ECTE) corresponding to the amount paid and the book value of the stake in the stockholders' equity of the jointly controlled subsidiaries, arises from expectation of future earnings on the basis of the commercial operation of the transmission concessions. The amortization of the goodwill will take place over the remaining period of validity of the concessions (from August 2006 to 2030/2032). In the consolidated financial statements the value of the goodwill has been incorporated into Fixed assets - Intangible.

d) Investments in Infovias

The goodwill on the acquisition of Infovias is attributable to the expectation of future profitability, calculated on the projected cash flow and is being amortized in a linear manner over the period from January 2005, to June 2012. In the consolidation the amount of the goodwill was transferred to *Deferred*.

Sale of Way TV by Infovias

At an auction held on July 27, 2006, Way TV Belo Horizonte S.A., an indirect subsidiary of Cemig (through its investment of 65.25% in Infovias) was sold in full (100% of the shares) to TNL PCS Participações S.A., a subsidiary of Tele Norte Leste Participações S.A. Of the total sale price, R\$ 103 million was payable to Infovias. The price represents a premium of 65% on the minimum auction price, and the sale was conditional upon approval by the Brazilian Telecoms Regulator, Anatel.

On October 23, 2007 Anatel approved the transaction, pending publication in the federal Official Gazette, after reconsidering a decision made on March 19, 2007, when it had refused approval for the transfer of stockholding control.

The profit of Infovias from this sale, in the amount of R\$ 54,079,000, was recognized in the 4th quarter of 2007, when the approval was published in the federal Official Gazette.

Loan Contract

On November 14, 2007 Infovias and Cemig signed a loan contract in the amount of R\$ 89,957,000, with financial charges equal to 101.5% of CDI variation. This loan was settled by Cemig in January 2008 by means of reduction of the capital in Infovias.

e) Consortia

Cemig participates in consortia for electricity generation concessions, for which companies with an independent legal existence were not constituted to administer the object of the concession. In these operations, the controls, of the specific portion equivalent to the investments made, are maintained in the books of account of Cemig, as follows:

	Stake in the energy generated %	Average annual depreciation rate %	Consolidated 03/31/2008	Consolidated 12/31/2007
Holding company				
In progress				
Porto Estrela Plant	33,33	2,48	38,625	38,625
Igarapava Plant	14,50	2,58	55,554	55,554

Special Obligations linked to the concession	(2,501,819)		(2,501,819)	(2,518,602)
Fixed assets and intangible assets, net	20,018,231	(8,984,341)	11,033,890	11,094,924

Special obligations refers basically to the contributions by consumers for execution of the undertakings necessary to comply with requests for retail supply of electricity, and any settlement of these obligations depends on the will of ANEEL, at the termination of the distribution concessions, by reduction of the residual value of the fixed asset for the purposes of determining the amount which the Concession-granting Power will pay to the concession holder.

Under ANEEL Resolution 234 of October 31, 2006, and ANEEL Circular 1314/2007, of June 27, 2007, the balances of the Special obligations linked to assets will now be amortized as from the second cycle of tariff reviews, which in the case of Cemig Distribuição is from April 8, 2008, at a rate yet to be set by ANEEL, corresponding to the average rate of the assets in service.

The amount of R\$ 248,394 is recorded in *Fixed assets in progress - Distribution* on March 31, 2008 (R\$ 307,389 on December 31, 2007), relating to the Light for Everyone program.

Some land sites and buildings of the subsidiaries which were given in guarantee in lawsuits involving tax, labor-law, civil and other disputes are recorded in *Fixed assets - Administration*. These were posted at the amount of R\$ 10,051 on March 31, 2008, net of depreciation.

20) POST-EMPLOYMENT OBLIGATIONS**a) The Forluz Pension Fund**

Cemig is sponsor of the Forluminas Social Security Foundation Forluz, a non-profit legal entity whose object is to provide its associates and participants and their dependents and beneficiaries with a financial income supplementing retirement and pension, in accordance with the private pension plan to which they are linked.

The actuarial obligations and assets of the plan on December 31, 2004 were segregated between Cemig, Cemig Geração e Transmissão and Cemig Distribuição on the basis of the allocation of the employees to each of these companies.

Forluz makes the following supplementary pension benefit plans available to its participants:

Mixed Social Security Benefits Plan (Plan B): A defined-contribution plan in the phase of accumulation of funds, for retirement benefits for normal time of service and defined-benefit coverage for disability or death of the active participant, and also on receipt of benefits for time of contribution. The contributions of the Sponsor are equal to the basic monthly contributions of the participants, and this is the only plan open for joining by new participants.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

The contribution of the Sponsors to this plan is 27,52% for the portion with defined benefit characteristics, relating to the coverage for invalidity or death for the active participant, and this is used for amortization of the defined obligation through an actuarial calculation. The remaining 72,48%, relating to the portion of the plan with defined-contribution characteristics, goes to the nominal accounts of the participants and is recognized in the income statement for the year by the cash method, under Personnel expenses.

Hence the obligations for payment of supplementary pension benefits under the Mixed Plan, with characteristics of defined contribution, and their respective assets, in the same amount of R\$ 2,130,864, are not presented in this Explanatory Note.

Pension Benefits Balances Plan (Plan A): This includes all the active and assisted participants who opted to migrate from the previous Defined Benefit Plan, and are entitled to a proportional benefit by balances. In the case of the assets, this benefit was deferred to the retirement date.

Defined Benefit Plan: This is the benefit plan adopted by Forluz up to 1998, through which the average real salary of the last three years of activity of the employee in the Sponsor companies is complemented in relation to the amount of the Official Social Security benefit. After the process of migration that was carried out in June 2007, approved by the Private Pension Plans Secretariat (SPC), in which more than 80% of the participants migrated to Plans A and B, 51 participants remained in the defined benefit plan. Of these, seven are active employees, and 44 are retirees or pension holders.

Cemig, Cemig Geração e Transmissão and Cemig Distribuição also maintain, independently of the plans made available by Forluz, payments of part of the life insurance premium for the retirees and contribute to a health plan and a dental plan for the employees, retirees and dependents, administered by Forluz.

Amortization of actuarial obligations

Part of the consolidated actuarial obligation for post-employment benefits in the amount of R\$ 1,050,970 of March 31, 2008 (R\$ 1,062,998 on December 31, 2007) was recognized as an obligation payable by Cemig and its subsidiaries, and is being amortized by June 2024, through monthly installments calculated by the system of constant installments (the so-called Price table). Part of the amounts is adjusted annually based on the actuarial index of the Defined Benefit plan (the index for salary adjustment of the employees of Cemig, Cemig Geração e Transmissão and Cemig Distribuição, excluding productivity); and for the Balances Plan, the adjustment is by the IPCA Index published by the IBGE (Brazilian Geography and Statistics Institute), plus 6% per year.

If Forluz presents technical surpluses for a period of three consecutive years, these may be used for the reduction of part of the obligations payable recognized. Based on this provision, the surplus obtained by Forluz in the 2007 business year, in the amount of R\$ 89,462 million, will be used in the second quarter of 2008 for amortization of the debt recognized.

The liabilities and the expenses recognized by Light in connection with the Supplementary Retirement Plan are adjusted in accordance with the terms of CVM Decision 371 and an Opinion prepared by independent actuaries. The last actuarial valuation was made for the base date December 31, 2007.

b) The Braslight Pension Fund

Light, a subsidiary of RME, is the sponsor institution of Fundação de Seguridade Social Braslight, a non-profit private pension plan entity whose purpose is to guarantee retirement income to the employees of the company linked to the Foundation, and to provide pension income to their dependents.

Braslight was instituted in April 1974, and has three plans A, B and C put in place in 1975, 1984 and 1998 respectively. About 96% of the active participants of the other plans have migrated to plan C.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

In plans A and B the benefits are of the Defined Benefit type. In plan C, which is of the mixed type, the programmable benefits (retirement benefit not arising from invalidity, and the respective conversion into pension) during the capitalization phase are of the Defined Contribution type, without any link to the INSS, and the benefits arising from risk (illness assistance, retirement for invalidity, pension for death of an active participant, or for an invalid participant receiving illness assistance), as well as those of continued income, once granted, are of the defined benefit type.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

On October 2, 2001, the Private Pension Plans Secretariat approved a contract for a solution to the technical deficit and the refinancing of the reserve to be amortized relating to the pension plans of Braslight. These items are being recorded in full, and being paid in 300 monthly installments, starting from July 2001, updated by the variation of the IGP-DI inflation index and interest of 6.00% per year, totaling R\$ 910,668 at March 31, 2008.

The liabilities and the expenses recognized by Light in connection with the Supplementary Retirement Plan are adjusted in accordance with the terms of CVM Decision CVM 371 and an Opinion prepared by independent actuaries. The last actuarial valuation was made for the base date December 31, 2007.

The movement in the net liabilities has been as follows:

	Consolidated				
	Pension plans and supplementary retirement plans		Health plans	Dental plan	Life insurance
	Forluz	Braslight			
Balance at December 31, 2007	494,405	250,262	311,239	13,692	401,296

The amounts registered in current liabilities refer to the contributions to be made by Cemig in 2007 for amortization of the actuarial liabilities.

21) CONTINGENCIES FOR LEGAL PROCEEDINGS

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

Cemig and its subsidiaries are parties in Court and Administrative proceedings before various courts and government bodies, arising from the normal course of business, involving tax, labor-law, civil and other issues.

Actions in which the company is creditor with success judged probable

Pasep and Cofins widening of the calculation base

The holding company has legal proceedings challenging the expansion of the calculation base of the Pasep and Cofins taxes to include financial revenue and other non-operational revenues, in the period from 1999 to January 2004, through Law 9718 of November 27, 1998; and has a judgment in favor at the first instance. In the event that this action is won in the final instance (subject to no further appeal), and we would note that the Federal Supreme Court has ruled on several proceedings in favor of the taxpayer, the gain to be registered in the results of the year will be R\$ 159,402, net of income tax and Social Contribution Tax.

Actions in which the company is debtor

For those contingencies whose negative outcomes are considered probable, the company and its subsidiaries have constituted provisions for losses.

Cemig's management believes that any disbursements in excess of the amounts provisioned, if any, when the respective processes are completed, will not significantly affect the result of operations or the financial position of the holding company nor the consolidated result.

(*) Balance of contingencies without the effect of payments into court.

Details on the provisions constituted are as follows:

(a) Labor-law contingencies

The complaints under the labor laws are basically disputes on overtime and additional amounts for dangerous work.

(b) Civil disputes – tariff increase

Several industrial consumers filed actions against Cemig seeking reimbursement for the amounts paid as a result of the tariff increase during the federal government's economic stabilization plan known as the Cruzado Plan in 1986, alleging that the said increase violated the control of prices instituted by that plan. Cemig estimates the amounts to be provisioned based on the disputed amounts billed and based on recent Court decisions. The total value of the exposure of Cemig and its subsidiaries in this matter, 100% provisioned, is R\$ 105,166.

(c) The PIS and Cofins taxes

Light, controlled by RME, has challenged the changes made by Law 9718/98 in the system of calculation of the PIS and Cofins taxes (Contributions), in widening the taxable basis of those taxes and increasing of the rate of Cofins from 2% to 3%.

The amounts not paid are provisioned and have been updated by the Selic rate. On November 9, 2005, the full panel of the Federal Supreme Court ruled the widening of the base of the calculation of the Cofins tax unconstitutional. The same theory is applied to the PIS.

The amounts provisioned up to March 31, 2008 in the company are as follows:

- R\$ 106,615 in relation to the widening of the calculation base – this has been the subject of a judgment in a similar action in which the Federal Supreme Court decided in favor of the taxpayers; and
- R\$ 51,429 referring to the increase in the rate of Cofins from the rate of 2% to 3%, on which there has not yet been a judgment on the merits.

Light is awaiting judgment on the case, or a Resolution by the Senate, based on the Supreme Court decision, declaring this law unconstitutional. Either will make it possible to reverse the provision for the part related to expansion of the calculation base for the PIS and Cofins taxes.

The amounts given above are 25% of the total amounts, reflecting the proportionality of the consolidation, as recorded.

(d) ICMS

Since 1999, Light has suffered various inspections by the tax authority of Rio de Janeiro State in relation to the ICMS value added tax, charged by states. The infringement notices received so far and not paid are the subject of contestation in the administrative and legal spheres. Management, based on the opinion of its counsel and calculation of the amounts involved in the infringement notices, believes that only a part of the amounts represents probable risk of loss, and the amount of R\$ 19,152 is provisioned.

(e) Taxes and contributions demandabilities suspended

The provision constituted under this heading, of R\$ 68,554 (R\$ 46,842 on December 31, 2007), refers to the deduction from taxable profit (for the purposes of corporate income tax) of the expense on the Social Contribution tax paid since 1998. Cemig was awarded interim remedy by the 8th Federal Justice Court, on April 17, 1998, allowing it not to pay this tax.

(f) Social Security System

In December 1999 the National Social Security Institute (INSS) issued infringement notices against Light for alleged subsidiary responsibility to withhold payments at source on services of contractors and the applicability of the social security contribution on employees' profit shares.

Light challenged the legality of Law 7787/89 which increased the Social Security contribution percentage applying to payrolls, believing that it also changed the basis of calculations of Social Security contributions during the period July to September 1989. Based on the anticipatory remedy given by the Court, the amounts to be paid as Social Security contribution by the Company were offset.

The chance of loss in these actions is assessed as *probable*, and the amounts provisioned for the actions brought by the INSS total R\$ 34,427 (R\$ 33,857 on December 31, 2007).

(g) ANEEL administrative proceedings

On January 9, 2007, ANEEL notified Cemig Distribuição S.A. that it considered certain criteria adopted by the company in calculation of the revenue arising from the subsidy for low-income consumers to be incorrect, questioning the criteria for identification of the consumers who should receive the benefit and also the calculation of the difference to be reimbursed by Eletrobrás, in the estimated amount of R\$ 143,000. The company made a provision corresponding to the loss that it considers *probable* in this dispute, in the amount of R\$ 38,549.

Cemig Geração e Transmissão was served an infringement notice by the Minas Gerais State Forests Institute (IEF), alleging that it omitted to take measures to protect the fish population, causing fish deaths, as a result of the flow and operation of the machinery of the Três Marias Hydroelectric Plant. The company presented defense, and rates the risk of loss in this action as *probable*, in the amount of R\$ 6,324.

(h) Others

This refers to various claims by people alleging damages, mainly due to accidents allegedly occurring as a result of the Company's business, and damages as a result of power outages. The provision at March 31, 2008 represents the potential loss on these claims.

(i) Actions in which the chances of loss are considered *possible* or *remote*

Cemig and its subsidiaries are disputing, in the courts, other actions for which they consider the possibility of an outcome of loss in the action to be *possible* or *remote*. The following are the details of the most important actions:

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

(i) Income tax and Social Contribution on post-employment benefits

The federal tax authority, on October 11, 2001, issued a Notice of Infringement, in the updated amount of R\$ 310,983, as a result of the use of tax credits which resulted in the rectification, for the reduction of taxes payable, of the income tax declarations for 1997, 1998 and 1999. The income tax returns were rectified as a result of the change in the method of accounting for liabilities for post-employment benefits. The additional post-employment benefits that resulted from the changes in the method of accounting were recognized in the tax years rectified, resulting in a tax loss, and a negative taxable amount for the Social Contribution tax.

Cemig presented an administrative appeal in the Finance Ministry Taxpayers' Council, obtaining a favorable decision for the years of 1997 and 1998 and an adverse decision in relation to the year 1999. This adverse decision would result in reduction of the tax loss (negative basis), registered as tax credits, in the historic amount of R\$ 26,631. The tax credits were not reduced, and no provision for contingencies was made to meet any losses as a function of this decision, in view of the fact that Cemig believes it has solid legal grounds and argument for the procedures adopted for recovery of the said tax credits, as defense in Court. Thus, it considers the possibility of loss in this action to be remote.

Cemig offset the tax credits constituted (mentioned in the previous paragraph) to reduce federal taxes and Contributions payable in 2002 and 2003. Due to this fact, the federal tax authority refused Cemig's compensation proceedings, and Cemig would be exposed to an additional penalty, updated to March 31, 2008, of R\$ 274,577. With the decision of the Taxpayers' Council, mentioned above, Cemig considers that the refusal of this process of offsetting becomes null. Thus, no contingency provision was constituted to meet any losses, since Cemig believes that it has solid legal grounds for the procedures adopted and considers the likelihood of loss in this action to be remote.

(ii) Tax on Inheritance and Donations (ITCMD)

The State of Minas Gerais sued Cemig for non-payment of the tax on inheritance and donation (ITCMD) in relation to the contributions of consumers, the total amount involved on March 31, 2008 being R\$ 142,203. No provision was made for this dispute, since the Company believes it has arguments on the merit for defense against this claim. The possibility of loss attributed to this action is remote.

(iii) Acts of the Regulatory Agency and the Federal Audit Court

ANEEL filed an administrative action against Cemig stating that the company owes R\$ 670,546 to the federal government as a result of an alleged error in the calculation of credits under the CRC (Results Compensation) Account which were previously used to reduce the amounts owed to the federal government. On October 31, 2002 ANEEL issued a final administrative decision against Cemig. On January 9, 2004 the federal Treasury issued a notice of collection in the amount of R\$ 516,246. Cemig did not make the payment because it believes that it has arguments on the merit for defense in the Courts and thus has not made a provision for this action. The likelihood of loss in this action is assessed as possible.

On November 14, 2003, the Federal Audit Court began an administrative proceeding against ANEEL to assess the criteria adopted by the agency in the Emergency Program to Reduce Electricity Consumption. The Audit Board requested Cemig to provide certain information relating to its tariffs, which, according to the Federal Audit Court, had been incorrectly approved by ANEEL.

Additionally, the Federal Audit Court contested the index and X Factor used by ANEEL in the tariff review of 2003. Cemig filed administrative proceedings requesting the Federal Audit Court to contest the decision.

The potential loss on these actions by the Federal Audit Court is R\$ 84,979. The company has not posted any provision, and assesses the likelihood of loss in this action as possible.

(iv) Social Security and tax obligations on the indemnity for the Anuênio, and profit shares.

Cemig and its subsidiaries Cemig Geração e Transmissão and Cemig Distribuição paid an indemnity to their employees in the amount of R\$ 177,685, in exchange for rights to certain payments to be incorporated into salaries in the future, known as the *Anuênio*. The company and its subsidiaries did not make payments of income tax and social security contributions on this amount because it considered that these obligations are not applicable to amounts paid as indemnity. However, to avoid the risk of a future fine arising from a different interpretation by the federal tax authority and the National Social Security Institution, the company and its subsidiaries decided to file for orders of *mandamus* to allow payment into Court of the amount of any obligations, in the amount of R\$ 121,835, posted in *Deposits linked to legal actions*. No provision was made for possible losses in this matter since the company and its subsidiaries classify the risk of loss in this action as *possible*.

In September 2006 Cemig was notified by the INSS as a result of non-payment of a total of R\$ 103,098 as the Social Security contribution on the amounts paid as profit shares in the period 2000 to 2004. The company has appealed, in Administrative Proceedings, against this decision. No provision has been constituted for possible losses and Cemig believes it has arguments on the merit for defense. The chance of loss in this action is assessed as *possible*.

(V) ICMS tax

Since 2002 the company has received a subsidy from Eletrobrás for the discounts given to low-income consumers. The Minas Gerais State Tax Office served an infringement notice on Cemig, relating to the period from 2002 to 2005, on the argument that the subvention should be subject to the ICMS tax. The potential for loss in this action is R\$ 106,276, not including the ICMS tax which might yet be claimed by the Tax Office for the period subsequent to the infringement notice. No provision was constituted for the result of this dispute, since the company believes the legal obligation is non-existent and that it has arguments on the merit for defense against this demand. The chances of loss in this action are assessed as *possible*.

Cemig was served an infringement notice, as a co-responsible party, in relation to sales of excess electricity by industrial consumers during the period of electricity rationing, in which the Minas Gerais State Tax Authority demanded payment of the ICMS tax on these transactions, in the amount of R\$ 26,306. If the Company does in the future have to pay the ICMS tax on these transactions, it will be able to charge consumers to recover the amount of the tax plus any penalty payment. The chances of loss in this action are classified as *possible*.

(vi) Civil claims consumers

Several consumers and the Public Attorney of the State of Minas Gerais have brought civil actions against Cemig contesting tariff increases applied in previous years, including: the tariff subsidies granted to low-income consumers, the Extraordinary Tariff Recomposition, and the inflation index used to increase the tariff for electricity in April 2003, requesting 200% reimbursement on the amounts considered charge in error by the company. The company believes it has arguments on the merit for a legal defense and thus has not made a provision for these actions.

The company is defendant in legal proceedings challenging the criteria for measurement of amounts to be charged in relation to the contribution for public illumination, in the total amount of R\$ 448,929. The company believes it has arguments of merit for defense in Court, and thus has not constituted a provision for this action. The chances of loss in this action are assessed as *possible*.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

In addition to the issues described above, Cemig and its subsidiaries are involved, as Plaintiff or Defendant, in other cases, of less importance, related to the normal course of their operations. The management believes that it has adequate defense for this litigation, and significant losses relating to these issues which might have an adverse effect on the company's financial position or consolidated result of its operations are not expected.

22) STOCKHOLDERS EQUITY AND REMUNERATION TO STOCKHOLDERS

Balance at December 31, 2007	8,390,177
Net profit for the quarter	490,280
Balance on 31 March 2008	8,880,457

Stockholders Agreement

In 1997 the Government of the State of Minas Gerais sold approximately 33% of the Company's common shares to a group of investors led by Southern Electric Brasil Participações Ltda. (Southern). As part of this transaction the State of Minas Gerais and Southern signed a Stockholders Agreement which among other provisions contained the requirement for a specific quorum in decisions on significant corporate actions, certain changes to Cemig's bylaws, issuance of debentures and convertible securities, distribution of dividends other than those specified in the bylaws, and changes in the stockholding structure.

In September 1999 the government of the State of Minas Gerais brought an action for annulment of this Stockholders Agreement, with a request for anticipatory remedy. The Appeal Court of the State of Minas Gerais annulled the Stockholders Agreement in 2003. Appeals brought by Southern are before the Federal Courts.

23) GROSS RETAIL SUPPLY OF ELECTRICITY

The position in retail supply of electricity, by type of consumer, is as follows:

	Number of consumers		Consolidated (Not reviewed by independent auditors) MWh (*)		R\$	
	03/31/2008 (*)	03/31/2007 (*)	03/31/2008	03/31/2007	03/31/2008	03/31/2007

Total	10,378,332	10,143,811	13,876,236	14,247,981	3,575,243	3,034,879

(*) The table of consumers includes 100% of the consumers of Light, subsidiary of RME.

The table of MWh includes 25.00% of the total MWh sold by Light.

(**) Includes Regulated Market Electricity Sale Contracts (CCEARs) and bilateral contracts with other agents.

Low-income consumers

The federal government, through Eletrobrás (Centrais Elétricas Brasileiras) reimburses the distributors for the losses in revenue arising as a result of the criteria adopted as from 2002 for classification of consumers in the low-rental residential sub-category, in view of the lower tariff applied to their electricity bills.

The regulator, ANEEL, is reviewing the procedures for calculation by the company of revenue for the subsidy for low-income consumers. As a result of this review, the amounts posted in 2007 and 2008 were calculated on the basis of estimate, and their receipt for the period from February 2007 through March 2008 is pending.

ANEEL included the amounts to be reimbursed to the Company for the subsidy for low-income consumers, in the tariff review of April 2008.

24) REVENUE FROM USE OF THE NETWORK FREE CONSUMERS

The TUSD revenue is a charge made to free consumers for use of the distribution network.

	Consolidated	
	03/31/2008	03/31/2007
Tariff for Use of the Distribution System (TUSD)	309,353	315,829
Revenue from use of the basic network	155,616	136,367
Revenue from connection to the system	16,623	23,795
	481,592	475,991

Under the concession of some contracts between ANEEL and the transmission companies, the revenues to be earned in the final 15 years of the said contracts are 50.00% lower than those in the first 15 years of the concession. The company recognizes the revenues from these concessions in accordance with the said contracts.

25) OTHER OPERATIONAL REVENUES

THE VOLUNTARY DISMISSAL PROGRAM (PPD)

On March 11, 2008 the Executive Board approved the Company's new Voluntary Dismissal Program (PPD), which is now permanent and applicable to any voluntary resignations from employment contracts. The main financial incentives of the program are: payment of three gross monthly salaries and six months' contributions to the health plan after leaving the Company, deposit of the penalty payment of 40% on the balance of the FGTS fund applicable to dismissals, and payment of up to 24 months of contributions to the Pension Fund and the INSS (National Social Security System) after leaving the Company, in accordance with certain criteria established in the regulations of the PPD.

For employees over 55 years old with 35 years' contributions if male, or 30 years' contributions if female, the program's financial incentives are only guaranteed if subscription to the program takes place within 90 days after the date on which the criteria for age and time of contribution are met.

On March 31, 2008 96 employees (23 from Cemig Geração e Transmissão S.A., 72 from Cemig Distribuição S.A. and one from Cemig Holding) had joined the program, and a provision for the financial incentives was made, in the amount of R\$ 6,112.

The mainly condition for related party transaction are bellow:

- (1) The Company has contract of buying energy of Cemig Geração e Transmissão and Light Energia, throw the public action of energy in 2005, for 8 years since the initial;
- (2) Financial resources from CRC in the Investment Credit Funds in senior quotes and subordinate. See note nº 12;
- (3) Substantial part of the amount came from a renegotiation of the debt of selling energy to Copasa, with maturity until September 2012 and interest based IGPM (General Market Price Index) plus 0.5% per month.;
- (4) Issuance of debentures not convertible in stocks in the amount of R\$ 120,000 million, with interest based IGP-M (General Market Price Index), for the conclusion of the construction of Irapé Hydroelectric , for 25 years since the issuance;
- (5) Senior Quotes from thirds, in the amount of R\$ 900,000, amortized in 20 installment semiannual, since June, 2006, with interest based CDI (Interbank deposit rate) plus 1.7% per year. See note nº 12;
- (6) Financing controlled by Transudeste and Transirapé with maturity in 2019 (interest based TJLP (Brazilian Long-term Interest rate)+ 4.5% per year and UMBNDES 4.54% per year) and Transleste in 2017 and 2025 (interest rate of 5% per year and 10% per year);
- (7) Part of FORLUZ contracts are readjustment by IPCA (Consumer Price Index calculated by the Brazilian Institute of Geography and Statistics IBGE) and part of them readjustment with based on the increase of salary of the employees from CEMIG,CEMIG GT e CEMIG D, excluding productivity, added of 6% per year. See note nº 20.

See further information relating to the principal transactions in Explanatory Notes 4, 9, 12, 17, 18, 20, 21, 22, 26 and 28.

The balance under Consumers and traders relating to the Minas Gerais state government, in the amount of R\$ 34,342 on March 31, 2008 in the short and long term, includes amounts receivable from Copasa, which were renegotiated for payment in 96 months (R\$ 34,622 on March 31, 2007).

30) FINANCIAL INSTRUMENTS

Cemig's use of financial instruments is restricted to: Cash and cash equivalents, Consumers and traders, Amounts receivable from the Minas Gerais state government, Loans and financings, and Debentures; and the gains and losses obtained on the transactions are posted in full by the accrual method.

Cemig has operational policies and strategies aiming for liquidity, profitability and security, and also procedures for monitoring balances, and has operated with banks that meet the requirements for financial solidity and reliability, according to defined management criteria. The control policy consists of permanent monitoring of the rates contracted vis-à-vis those currently applied in the market.

Derivative instruments

The derivative instruments contracted by Cemig and its subsidiaries have the purpose of protecting their operations against the risks arising from foreign exchange variation and are not used for speculative purposes

On March 31, 2008, Cemig had instruments to swap financial results with financial institutions, to protect against possible variations in the exchange rate between the Brazilian Real and: (i) the US dollar, in an amount equivalent to US\$25,888 (R\$ 45,281); and (ii) the yen, in the amount equivalent to ¥3,878,825 (US\$38,901 or R\$ 68,042).

The principal amounts of the transactions and derivatives are not posted in the balance sheet, since they refer to transactions which do not require cash payments, but only payments of the gains or losses that actually occur. The net results realized on these transactions amounted to consolidated losses in the first quarter of 2008 and 2007, of R\$ 5,001 and R\$ 34,961, respectively, posted in Financial revenue (expenses).

The recognition of the net result not realized in operations with derivative instruments is carried out by the accrual method, which can generate differences when compared with the estimated market value of such instruments. This difference arises from the fact that market value includes recognition at present value of future gains or losses to be incurred on the transactions, in accordance with the expectation of the market at the moment at which the market value is ascertained.

The table below shows (i) the derivative instruments contracted by the subsidiaries Cemig Geração e Transmissão and Cemig Distribuição; (ii) the gains (losses) not realized, and recorded; and (ii) the respective estimate of market value of these instruments March 31, 2008:

Receivable by Cemig	Payable by Cemig	Maturity	Principal value, 000	on 31 March 2008 Unrealized loss	
				Price Book value	Estimated market value
		12/2009	¥ 3,878,825	(34,969)	(42,017)

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

¥ (Yen)	R\$					
US\$ exchange rate variation + 3.90% p.a.	111.00% of CDI					
US\$	R\$	From				
FX variation + rate (5.58% p.a. to 7.48% p.a.)	100% of CDI + rate (1.50% p.a. to 3.01% p.a.)	04/2008 to 06/2013	US\$	68,932	(135,023)	(141,750)
R\$	R\$or US\$					
106% of CDI rate	48% of CDI or FX variation, whichever is greater	04/2008	US\$	(43,044)	28	28
					(169,964)	(183,739)

Additionally, the jointly controlled subsidiary Light uses swap transactions to reduce risks arising from FX variations. The non-realized net value of these transactions on March 31, 2008, is R\$ 2,846 negative (R\$ 2,532 on December 31, 2007).

31) PERIODIC TARIFF REVIEW OF CEMIG DISTRIBUIÇÃO

On April 7, 2008 ANEEL published the result of its second Tariff Review of Cemig Distribuição. The impact perceived by consumers will be an average reduction of 12.24% in their electricity bills as from April 8, 2008. The tariff adjustments are at different levels for different categories of consumer. As an example, residential consumers had an increase of 17.11% on their energy bills, while high-voltage consumers had an increase of 8.02%.

The result of the Review takes place in the context of the regulatory framework, which requires that gains in productivity, resulting from the reduction of costs obtained in the years of the tariff cycle referred to, must be passed through to the tariff charged to consumers.

The Tariff for Use of the Distribution System (the TUSD), charged to Free Consumers for use of the network of Cemig Distribuição, was increased by 2.01%, the main component of which was an increase of 3.25% for consumers connected at 138kV.

A point that should be noted is that during the second cycle of Cemig's tariff review, that is to say, starting on April 8, 2008, the Special Obligations will begin to be amortized, posted as credits in the income statement for the period, using the average depreciation rate of the assets that gave rise to them. The company estimates that the value to be posted as credit in the 2008 income statement relating to this depreciation will be approximately R\$ 88,019.

32) SUBSEQUENT EVENT

Increase in registered capital

The General Meeting of Stockholders held on April 25, 2008 approved an increase in Cemig's registered capital from R\$ 2,432,307 to R\$ 2,481,508, upon capitalization of R\$ 49,201 from the balance on the *Capital RESERVE - Donations and subsidies for investment*, distributing to stockholders, as a consequence, a bonus of 2.02% in new shares, of the same type as those held, and with nominal value of R\$ 5.00.

This increase in the registered capital complies with Clause 5 of the agreement for assignment of the credit of the remaining balance on the CRC (Results Compensation) Account, which requires that a capital increase should be made in an amount corresponding to the total of the principal amortized under the CRC Contract, by the government of Minas Gerais State.

Acquisition of capital interest through TBE

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

On April 16, 2008 CEMIG through its subsidiary Empresa Amazonense de Transmissão de Energia S.A. EATE required 80.00% of the interest of Companhia Transmissora de Energia Elétrica LUMITRANS for R\$ 28,069 and 80.00% of the interest of Sistema de Transmissão Catarinense S.A. - STC for R\$ 49,086. The conclusion of this transaction is still depending on authorization by ANEEL, BNDES and of Conselho Administrativo de Defesa Econômica - CADE.

33) STATEMENT OF CASH FLOWS

This statement is in accordance with the criteria for disclosure established by the US accounting statement FAS 95 - *Statement of Cash Flows*, considering that the company is registered with the SEC (Securities and Exchange Commission) of the US and also prepares financial statements in accordance with accounting principles generally accepted in the US (US GAAP).

ECONOMIC AND FINANCIAL PERFORMANCE

In R\$ 000, unless otherwise stated.

Profit in the period

Cemig reported in the first quarter of 2008, a consolidated net profit of R\$ 490,280 compared to consolidated net profit of R\$ 406,632 million in the first quarter of 2007, an increase of 20.57%. This primarily reflects net operational revenue 19.67% higher, partly offset by operational costs and expenses 16.09% higher.

Information on Ebitda (method of calculation not reviewed by our external auditors)

Cemig's Ebitda in the first quarter of 2008 was R\$ 1,087,550, vs. R\$ 888,746 in the first quarter of 2007, or 22.37% higher year-on-year. Adjusted for non-recurring items, Ebitda was 17.73% higher.

As part of the tariff review of Cemig Distribuição, ANEEL included in the tariff to be applied as from April 8, 2008 certain financial items relating to previous business years which resulted in the recognition of regulatory assets and liabilities which will be received and/or discounted in the tariff to be received from consumers in the period April 8, 2008 to April 7, 2009. The impact on Ebitda of this non-recurring recognition of the financial items was R\$ 58,134, as shown in this table:

Ebitda - R\$ million	03/31/2008	03/31/2007	Change, %
Net profit	490,280	406,632	20.57
Provision for current and deferred income tax and Social Contribution	276,097	204,486	35.02
Employees' and managers' shares in results	22,058	21,046	4.81
Non-operational profit (loss)	6,102	6,196	(1.52)
Financial revenue (expenses)	79,112	66,906	18.24
Amortization and depreciation	201,481	178,726	12.73
Minority interests	12,420	4,754	161.25
Ebitda	1,087,550	888,746	22.37
Non-recurring items:			
Tariff review - Net revenue	(62,464)		
Tariff review - Operational expense	4,330		
Adjustment to RGR charge - Homologation by ANEEL		14,899	
Energy CVA		(29,245)	
ADJUSTED EBITDA	1,029,416	874,400	17.73

The higher Ebitda in the first quarter of 2008 than in the first quarter of 2007 was mainly due to net operational revenue 19.67% higher, partially offset by operational costs and expenses (excluding the effect of depreciation and amortization expenses) 16.51% higher.

The improved operational performance in 2008 was reflected in Ebitda margin, which rose from 38.04% in the first quarter of 2007 to 39.21% in the first quarter of 2008.

Gross revenue from supply of electricity

Gross revenue from supply of electricity in the first quarter of 2008, at R\$ 3,575,243, was 17.81% more than the revenue of R\$ 3,034,879 in the first quarter of 2007.

This increase was basically due to the following factors:

Tariff adjustment in Cemig Distribuição, with average impact on consumer tariffs of 5.16%, from April 8, 2007 (full effect in 2008).

5.73% increase in volume of energy invoiced to final consumers (this excludes Cemig's own internal consumption).

Increase in the average tariff for sale of electricity by Cemig Geração e Transmissão as a result of the scarcity of supply of electricity in the first quarter of 2008.

Recognition of non-recurring revenue relating to financial items of previous years which were included in the tariff, resulting in the constitution of regulatory assets in the gross amount of R\$ 67,194.

Electricity sold to final consumers (MWh)
(Data not audited by independent auditors)

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

Consumption by consumer category	MWh		Change, %
	03/31/08	03/31/07	
Residential	2,236,580	2,208,695	1.26
Industrial	6,101,503	5,690,629	7.22
Commercial, services and others	1,477,530	1,394,191	5.98
Rural	456,423	388,443	17.50
Public authorities	236,587	227,787	3.86
Public illumination	301,901	309,756	(2.54)
Public service	330,386	317,638	4.01
Total	11,140,910	10,537,139	5.73

Revenue from wholesale electricity sales

Revenues from energy sold to other concession holders and bilateral contracts totaled R\$ 294,355 in the first quarter of 2008, compared to R\$ 218,251 in the first quarter of 2007 – an increase of 34.87%. This was basically due to the increase in the price of electricity, since the volume traded was 26.37% lower (2,722,220 MWh in the first quarter of 2008, compared to 3,697,304 MWh in the first quarter of 2007). As a result of the reduced availability of electricity in the first quarter of 2008, which was a result of the lower rainfall, the price of electricity in the wholesale market increased significantly, to as much as R\$ 569.59/MWh in January 2008. The average wholesale tariff was R\$ 59.03/MWh in first quarter 2007, but R\$ 109.02/MWh in the first quarter of 2008 – 84.69% higher.

Revenue from use of the network – Free Consumers

Revenue from use of the network was 1.18%, or R\$ 5,601, lower, at R\$ 481,592 in the first quarter of 2008, compared to R\$ 475,991 in the first quarter of 2007). This reduction basically reflects the lower revenue from the Tariff for Use of the Distribution System (TUSD) of Cemig Distribuição and Light, of R \$309,353, 2.05% lower than in the first quarter of 2007 (R\$ 315.829). This revenue comes from the fees charged to Free Consumers on energy sold by other agents in the electricity sector.

This balance also includes revenue from use of the basic grid in the amount of R\$ 155,616 in March 2008 compare to R\$ 136,367 in March 2007, a grow of 14.12% and revenue from the interconnection system in the amount of R\$16,623 in March 2008 compare to R\$23,795 in March 2007, a reduction of 30.14%. See Explanatory Note 24 to the Consolidated Quarterly Information.

Non-controllable costs

The differences between the sums of non-controllable costs (also referred to as CVA) used as a reference in the calculation of the tariff adjustment and the disbursements actually made are offset in the subsequent tariff adjustments, and are registered in Current assets and Long term assets. Complying with the ANEEL Chart of Accounts, some items are allocated as *Deductions from operational revenue*. Please refer to further information in Explanatory Note 2 and Note 8 to the Consolidated Quarterly Information.

As from March 2008 the company began to receive, in the tariff, the amounts posted in assets under Portion A . Hence the portion of the non-controllable costs which were actually received in the tariff is transferred to *Operational expenses*

Deductions from operational revenues

Deductions from operational revenues, at R\$ 1,448,478 in the first quarter of 2008, were 7.39% higher than in the first quarter of 2007 (R\$ 1,348,839). The principal changes in these expenses are as follows:

Fuel Consumption Account - CCC

The deduction from revenue for the CCC was R\$ 77,225 in the first quarter of 2008, compared to R\$ 147,174 in the first quarter of 2007, an increase of 47.53%. This relates to the operational costs of thermal plants in the Brazilian interconnected and isolated systems, split pro-rata (by ANEEL Resolution) among electricity concession holders. This is a non-controllable cost. The amount posted for electricity *distribution* services corresponds to the amount actually passed through to the tariff. For the amount posted in relation to electricity *transmission* services the company merely passes through the charge, since the CCC is charged to Free Consumers on the invoice for the use of the basic grid, and passed onto Eletrobrás.

Energy Development Account - CDE

The deduction from revenue for the CDE was R\$ 97,387 in the first quarter of 2008, 2.46% higher than in the first quarter of 2007 (R\$ 95,049). The payments are specified by an ANEEL Resolution. This is a non-controllable cost. The amount posted for electricity distribution services corresponds to the amount actually passed through to the tariff. For the amount posted in relation to electricity transmission services the company merely passes through the charge since the CCC is charged to free consumer on the invoice for the use of the grid and passed onto Eletrobrás.

RGR - Global Reversion Reserve

The deduction from revenue for the RGR was R\$ 42,855 in the first quarter of 2008, 9.93% lower than in the first quarter of 2007 (R\$ 47,580). This basically reflects the accounting, in March 2007, of a complement to the expense for 2005, in the amount of R\$ 14,899, as homologated by ANEEL.

The other deductions from revenue are for taxes calculated as a percentage of billing, and their variations thus substantially arise from the changes in revenue.

Operational costs and expenses (excluding financial revenue/expenses)

Operational costs and expenses (excluding net financial revenue (expenses)) totaled R\$ 1,868,590 in the first quarter of 2008, 17.39% more than in the first quarter of 2007 (R\$ 1,591,766). This is basically because purchase of electricity contributed an increase of R\$ 125,078 to the expense. For more information, please see Explanatory Note 27 to the Consolidated Quarterly Information.

The principal changes in expenses are:

Electricity purchased for resale

Expenses on electricity purchased for resale totaled R\$ 725,366 in the first quarter of 2008, 20.84% higher than in the first quarter of 2007 (R\$ 600,288). This is a non-controllable cost, with the expense recognized in the income statement corresponding to the value effectively passed through to the tariff. Further information is given in Explanatory Note 27 to the Consolidated Quarterly Information.

Personnel expenses

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

Personnel expenses totaled R\$ 284,363 in the first quarter of 2008, 18.77% higher than in the first quarter of 2007 (R\$ 239,421). This increase was basically due to the following factors:

Salary adjustment of 5.00% given to the employees of the holding company, of Cemig Distribuição and of Cemig Geração e Transmissão in November 2007.

Provision for the new Voluntary Dismissal Program (PDD), in the amount of R\$ 6,112, in the first quarter of 2008.

Lower transfer of costs from personnel expenses to works in progress (R\$ 19,194 in the first quarter of 2008, vs. R\$ 34,762 in the first quarter of 2007) due to less capital expenditure activity.

Further information on the composition of personnel expenses is given in Explanatory Note 27 to the Consolidated Quarterly Information.

Depreciation and amortization

The expense on depreciation and amortization was 12.73% higher, at R\$ 201,481, in the first quarter of 2008, than in the first quarter of 2007 (R\$ 178,726), basically reflecting the start up of new distribution networks and lines as a consequence of the investments in the Light For Everyone program.

Post-employment obligations

Expenses on post-employment obligations totaled R\$ 61,668 in the first quarter of 2008, 101.77% higher than in the first quarter of 2007 (R\$ 30,563). These expenses basically represent interest on the actuarial liabilities of the Company, net of the expected return on pension plan assets, as estimated by an external actuary. The higher expense in 2008 basically reflects the adjustment in the actuarial assumptions in December, 2007, in which the assumed interest rate was reduced, increasing the value of the actuarial obligations.

Operational provisions

Operational provisions in the first quarter of 2008 totaled R\$ 96,353, a reduction of 8.49% in relation to their total of R\$ 105,294 in the first quarter of 2007. This lower figure basically reflects the provision of R\$ 30,000 for administrative proceedings by ANEEL, made in March 2007. For more information on this, please see Explanatory Notes 21 and 27 to the Quarterly Information.

Charges for Use of the Basic Transmission Grid

Charges for use of the transmission network were R\$ 172,324 in the first quarter of 2008, 17.18% less than in the first quarter of 2007 (R\$ 147,055).

These charges are payable by distribution and generation agents for use of the facilities and components of the basic grid, and are set by ANEEL resolution. This is a non-controllable cost, with the deduction from revenue recorded corresponding to the value effectively passed through to the tariff.

Gas purchased for resale

The cost of gas purchased for resale was R\$ 53,420 in the first quarter of 2008, 77.92% higher than in the first quarter of 2007 (R\$ 30,024). This basically is due to a higher quantity of gas purchased, due to more operation by the thermal plants that are clients of Gasmig, in the first quarter of 2008.

Outsourced services

Expenses on outsourced services in the first quarter of 2008 were R\$ 144,752, 19.90% higher than in the first quarter of 2007 (R\$ 120,732). This primarily reflects increased spending on maintenance and conservation of electricity facilities, contracted labor and communication.

Financial revenues (expenses)

The company posted net financial *expenses* of R\$ 79,112 for 2008, which compares with net financial *expenses* of R\$ 66,906 in first quarter 2007. The main factors affecting net financial revenues (expenses) were:

Revenue from cash investments was 27.56% higher in 2008, due to a higher average balance of cash invested. This revenue was R\$ 53,863 in the first quarter of 2008, vs. R\$ 42,226 in 2007.

The revenue from arrears penalty payments on client electricity bills was R\$ 26,281 higher, at R\$ 50,708 in the first quarter of 2008, vs. R\$ 24,427 in the first quarter of 2007. A principal component in this difference was reflected in revenue of Cemig Distribuição in the first quarter of 2008 of R\$ 10,516, when certain large industrial consumers paid accounts relating to previous year on which the value of the principal was considerably lower than the amount added as financial charges.

Revenue from monetary updating on the General Agreement for the Electricity Sector 27.50% lower. The revenue was R\$ 45,206 in the first quarter of 2008, vs. R\$ 62,353 in the first quarter of 2007 reflecting the lower value of the regulatory assets in 2008, as part of the regulatory assets previously posted (RTE and Deferred Tariff Adjustment) were amortized.

Monetary updating and interest on the Deferred Tariff Adjustment was 24.79% lower, at R\$ 25,897, in the first quarter of 2008, than in the first quarter of 2007 (R\$ 34,433) again due to reduction of the principal value of the asset as a result of parts of it being received in electricity accounts. For further details please see Explanatory Note 11 to the Consolidated Quarterly Information.

Servicing on loans and financings 12.66% lower, in the amount of R\$ 28,236, mainly reflecting a lower CDI rate (the indexor for the contracts) in the first quarter of 2008 than in the first quarter of 2007.

Net loss of R\$ 7,820 on currency variations in the first quarter of 2008, compared to net gain of R\$ 29,475 in the first quarter of 2007, basically reflecting effects on foreign currency loans and financings. The FX loss in 2008 mainly reflects the variation in the Yen (which is indexor of some contracts of Cemig Geração e Transmissão): the Yen appreciated by 10.78% during the first quarter of 2008, but devalued by 3.10% during the first quarter of 2007. In contrast, the US Dollar devalued in both periods: by 1.25% in the first quarter of 2008, and by 4.10% in the first quarter of 2007 providing some reduction in the FX loss.

Net loss on financial instruments in the first quarter of 2008, of R\$ 5,001, compared to a net loss of R\$ 34,961 in the same period of 2007. This mainly arises from the variation in the US Dollar mentioned in the previous paragraph, since the Company entered swap transactions, for part of its debt in foreign currency, in which the indexor on contracts was swapped from foreign currency to CDI.

For a breakdown of financial revenues and expenses, see Explanatory Note 28 to the Consolidated Quarterly Information.

Income tax and Social Contribution

In the first quarter of 2008, Cemig posted expenses on income tax and Social Contribution of R\$ 276,097, representing 34.48% of the pre-tax profit of R\$ 800,855. In the first quarter of 2007, the company posted expenses on income tax and Social Contribution of R\$ 204,486, representing 32.11% of the pre-tax profit of R\$ 636,918. These effective rates are compared with the nominal rates in Note 10 to the Consolidated Quarterly Information.

OTHER INFORMATION THAT THE COMPANY BELIEVES TO BE MATERIAL

Information not reviewed by our external auditors.

Investor relations

In 2007, in its continuing effort to optimize corporate governance practices, Cemig sought further to increase the transparency and proximity of its relationship with the capital markets, stockholders, analysts and investors, using the following means:

Cemig's internet site in three languages: Portuguese, English and Spanish.

Meetings with investors in Brazil and worldwide, roadshows (visits with presentations to investors), and one-on-one meetings.

We participate in events, congresses, and seminars for investors.

We disclose market announcements widely on the internet.

Quarterly, we publish our Letter to the Stockholder, in which we present results and highlight the most important facts.

We hold conference calls and videoconferences.

We file market announcements, announcements to stockholders and Material Announcements with the regulatory bodies of the capital markets both in Brazil (the CVM) and outside Brazil (the SEC, of the US).

Quarterly and annual results are published by presentations transmitted via video webcasts and conference calls, with simultaneous translation into English, at which the Chairman of the Board of Directors, and the Executive Board, are present.

In 2007 Cemig was present, worldwide, at 84 seminars, conferences and investor meetings; 10 congresses; 11 roadshows; and video and telephone conference calls with capital market analysts and investors. In our national and international events, we held more than 490 one-on-one meetings. This work is recognized by the fact that 19 financial institutions, in Brazil and worldwide, provide coverage of Cemig.

We also highlight our 12th Annual Cemig Meeting with the Association of Capital Markets Analysts and Investment Professionals (Apimec) in the city of Tiradentes, in Minas Gerais, which included a technical visit to the Itutinga Hydroelectric Plant, in the municipalities of Itutinga and Nazareno, in Minas Gerais.

On June 12, 2007 the New York Stock Exchange held Cemig Day, for the launch of ADRs representing Cemig's common (ON) shares. Cemig was the featured personality of the day: its flag was hoisted at the entrance to the Stock Exchange building; there was a lunch with investors and analysts, and a formal reception for the Company's Executive Board, the Minas Gerais State Economic Development Secretary and Board Chairman Marcio Araujo de Lacerda; a press conference; and the traditional closing bell ceremony. Representatives of Cemig rang the closing bell.

Finally, we were also able to focus on financial education for individual investors, through participation in the Expo Money exhibition, in São Paulo and in Belo Horizonte, in Brazil, and The World Money Show, in Orlando, Florida, USA.

Corporate governance

Our corporate governance model is based on principles of transparency, equity and the duty to report, focusing on clear definition of the roles and responsibilities of the Board of Directors and the Executive Board for formulation, approval and execution of policies and guidelines for managing the company's business.

We seek sustainable development of the company through equilibrium between the economic, financial, environmental and social aspects of our activities, aiming to improve the relationship with our stockholders, clients, and employees, the public at large and other stakeholders.

Cemig's preferred (PN) and common (ON) shares (tickers CMIG3 and CMIG4 respectively) have been listed under Corporate Governance Level 1 on the São Paulo stock exchange since 2001. This represents a guarantee to our stockholders of optimum reporting of information, and also that stockholdings are relatively widely dispersed. Since Cemig has ADRs (American Depository Receipts) listed on the New York Stock Exchange, representing preferred shares (with ticker CIG) and common shares (ticker CIG.C), we are also subject to the regulations of the US Securities and Exchange Commission (SEC) and the New York Stock Exchange Listed Companies Manual. Our preferred shares have been listed on the Latibex of the Madrid stock exchange (ticker: XCMIG) since 2002.

Our material procedures related to preparation of the Consolidated Financial Statements have been compliant since the end of 2006 with the requirements of Section 404 of the Sarbanes-Oxley law of the US.

The targets of the Strategic Plan, and our dividend policy, are incorporated into our Bylaws, which formally require the company to:

keep consolidated indebtedness equal to or less than 2 times Ebitda;

limit consolidated (Net debt) / (Net debt + Stockholders' equity) to 40%;

limit consolidated funds in Current assets to 5% of Ebitda;

limit consolidated funds destined to capital expenditure in each business year to 40% of Ebitda (this varies, exceptionally to 65% in 2006 and 55% in 2007);

invest only in distribution, generation and transmission projects which offer real minimum internal rates of return equal to or more than those specified in the company's Long-Term Strategic Plan, subject to the legal obligations;

limit the expenses of the subsidiary Cemig Distribuição S.A., and of any subsidiary which operates in electricity distribution, to amounts not greater than the amounts recognized in the tariff adjustments and reviews.

The Board of Directors may authorize numbers in excess of these standards, in response to temporary needs, up to the following limits:

consolidated debt: maximum 2.5 times Ebitda;

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

consolidated ratio (Net debt) / (Net debt + Stockholders' equity): maximum 50%;

consolidated funds in Current assets: maximum 10% of Ebitda;

The stockholders' agreement signed in 1997 between the government of Minas Gerais and Southern Electric Brasil Ltda. has been suspended by the Courts. Appeals filed by SEB are before the federal courts.

Board of Directors

Meetings

Our Board of Directors met 25 times in 2007. Subjects of discussion include strategic planning, expansion projects, acquisition of new assets, and other investments.

Membership, election and period of office

The present Board of Directors was elected on June 22, 2007, by the multiple vote mechanism, under Article 141 of Law 6404 of December 15, 1976, as amended. Of the 14 present sitting members of Cemig's Board of Directors, 8 were elected by the stockholder State of Minas Gerais, five by Southern Electric Brasil Participações Ltda. (SEB) and one by the minority holders of preferred shares.

The periods of office of the present members of the Board of Directors expire at the Annual General Meeting of Stockholders to be held in 2009.

Principal responsibilities and attributions

The Board of Directors has the following responsibilities and attributions, as well as those conferred on it by law:

decision, before signing, on any contract signed between Cemig and stockholders or their parent companies.

decision on any sale of goods, loans or financings, pledge of the company's property, plant or equipment, guarantees to third parties or other legal acts or transactions with value of R\$ 5 million or more.

authorization for issuance of securities in the domestic or external market to raise funds.

approval of the Strategic Plan, and revisions of it, and of the Multi-year Strategic Implementation Plan and revisions of it, and the Annual Budget.

In 2006 Cemig formed committees, made up of members of the Board of Directors, to provide prior discussion and analysis on matters to be decided by the Board. They are:

1. the Board of Directors' Support Committee;
2. the Governance Committee;
3. the Human Resources Committee;
4. the Strategy Committee;
5. the Finance Committee; and,
6. the Audit and Risks Committee.

Qualifications, remuneration

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

The members of the Board of Directors have training and experience in a wide range of areas (business administration, engineering, law, diplomacy, etc.), and with very broad experience in business management. Their remuneration is 20% of the average paid to our Directors, and does not include any share purchase options.

A list with the names of the members of the Board of Directors is on our website at: <http://v2.cemig.infoinvest.com.br/static/enu/diretoria.asp>

Audit Committee

We are subject to the Sarbanes-Oxley law due to our shares being registered with the Securities and Exchange Commission (SEC), the capital markets regulator of the United States. We opted for the exemption allowed by the Exchange Act, Rule 6404 and regulated by SEC Release 10-3A, which accepts the activity of the Audit Board as carrying out the function of the Audit Committee specified by the Sarbanes-Oxley law.

Executive Board

The Executive Board is made up of eight members whose individual functions are set by the company's Bylaws. They are elected by the Board of Directors for periods of office of three years. They may be reelected, and may also be dismissed at any time by the Board of Directors.

Members are allowed also to carry out non-remunerated roles in the management of wholly-owned subsidiaries and affiliates of Cemig, on decision by the Board of Directors of those companies. They are also, obligatorily, members, with the same positions, of the Boards of Directors of Cemig Geração and Transmissão S.A. and Cemig Distribuição S.A.

The periods of office of the present Chief Officers expire at the first meeting of the Board of Directors following the Ordinary General Meeting of Stockholders of 2009.

The members of the Executive Board, with information on their résumés, are listed on our website:
http://v2.cemig.infoinvest.com.br/static/ptb/curriculos_adm.asp

The Directors have individual responsibilities established by the Board of Directors and the Bylaws. These include, for example:

- Current management of the company's business, complying with the bylaws, the Strategic Plan, the Multi-Year Strategic Implementation Plan, and the Annual Budget.
- Decision on any disposal of goods, loans or financings, pledge of any of the company's property, plant or equipment, guarantees to third parties, or other legal acts or transactions in amounts less than R\$ 5 million;

The periods of office of the present Chief Officers expire at the first meeting of the Board of Directors following the Ordinary General Meeting of Stockholders of 2009.

The Executive Board meets weekly. It held 60 meetings in 2007.

A list of the members of the Executive Board, with information on their résumés, is on our website:
http://v2.cemig.infoinvest.com.br/static/ptb/curriculos_adm.asp

The Audit Board

Meetings

Cemig's Audit Board held 12 meetings in 2007.

Membership, election and period of office

We have a permanent Audit Board, established by the bylaws, made up of five sitting members and their respective substitute members. They are elected by the Annual General Meeting of Stockholders, for periods of office of one year, and may be reelected. They are:

- one member elected by the holders of the preferred shares.
- one member elected by holders of common shares, not belonging to the controlling stockholder group, representing at least 10% of the registered capital; and
- three members appointed by the majority stockholder.

The members of the Audit Board are listed on our website -

<http://v2.cemig.infoinvest.com.br/static/enu/diretoria.asp>.

Principal responsibilities and attributions

We are subject to the Sarbanes-Oxley law due to our shares being registered with the Securities and Exchange Commission (SEC), the capital markets regulator of the United States. As well as the attributions specified by Law 6404 of December 15, 1976, as amended, we opted for the exemption allowed by Rule 10-3A of the Exchange Act, regulated by SEC Release 82-1234, which accepts the operation of the Audit Board as an alternative to the Audit Committee as defined by the Sarbanes-Oxley law.

Qualifications, remuneration

The Audit Board is a multi-disciplinary body, made up of members with various competencies (accounting, economics, business administration, and others). Their remuneration is 10% of the average paid to the Directors.

The members of the Executive Board and their brief resumes are on our website: http://v2.cemig.infoinvest.com.br/static/ptb/curriculos_adm.asp

The Sarbanes-Oxley Law

Cemig obtained certification of its internal controls for mitigation of risks associated with the preparation and disclosure of the financial statements, in accordance with an opinion by the external auditors, Deloitte Touche Tohmatsu Auditores Independentes, issued in accordance with Section 404 of the Sarbanes-Oxley Law and the rules of the Public Company Accounting Oversight Board (PCAOB), which is a part of the annual 20-F report relating to the business year ending December 31, 2006, filed with the US Securities and Exchange Commission (SEC) on July 23, 2007.

A link was established between the potentially significant controls and accounting records in the financial statements for 2007; and the design of the key processes in controls for ensuring mitigation of the risks associated with the preparation and disclosure of the financial statements for the year ended December 31, 2007 was validated with our new external auditors, KPMG Auditores Independentes.

Management of corporate risks

Corporate risk management is a management tool that is an integral part of our corporate governance practices. For it to have maximum efficacy, and for it to be more easily included in the organization's culture, we aim to align it with the company's process of Strategic Planning which defines the strategic objectives of the company's business. Other instances of management that relate to corporate risk management include: The Corporate Governance Committee, compliance with the Sarbanes Oxley Law, the Budget Prioritization Committee, Internal Auditing, the Energy Risks Management Committee, the Insurable Risks Committee, the Control and Management Committee.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

Cemig's corporate risk management structure was put in place in 2003. The risks matrix was revised for the first time in 2004, and a second time in 2005-6, aiming to identify changes in relation to the level of performance expected for each process. The result has been improvement in the effectiveness of controls, commitment to implementation of the proposed mitigating action plans and, consequently, reduction of the impact and the probability of occurrence of innumerable risks.

The method that Cemig has chosen for measurement of risks is the ORCA method, which was put in place with the assistance of external consultants, based on four dimensions: objectives; risks; internal controls; and alignment.

To ensure the safety and confidentiality of the information, and speed of the process of periodic revision of the corporate risk matrix, Cemig uses the Integrated Risk Management System (SGIR) application, which reflects this risk reporting method. Cemig also makes a site on the theme available to employees on its Intranet, making it possible to monitor the risks identified by managers on a continuous and dynamic basis.

Functional structure

The main factor for the choice of functional structure adopted is decentralized management by the risk managers, which points up its corporate and matricial nature, with monitoring centralized by the Corporate Management Department, which manages material information with a systemic vision and complies with the demands of the Corporate Risks Management Committee. This Committee analyzes and allocates priority to the actions ordered by the Board of Directors and the Executive Board.

Challenges

The main challenges to be faced by Cemig's corporate risk management are:

- Improvement of the method of calculation of financial exposure represented by risks, to enable managers' assessment to be as objective as possible, and allow senior management more security in the decision-making process. The results expected are: improvement in the quality of information related to the matrix; guarantee of compliance with the guidelines arising from the Corporate Risk Management Policy.
- Creation of standard reports, aiming to meet the needs of the various levels of decision-making in the company.

Statement of Ethical Principles and Code of Professional Conduct

The approval by Cemig's Board of Directors, in May 2004, of the Declaration of Ethical Principles and Code of Professional Conduct <http://v2.cemig.infoinvest.com.br/?language=enu> was an important step in improving our internal system of corporate governance, and increasing our transparency. The Declaration is divided into 11 principles that reflect the ethical conduct and values that are part of our culture.

Cemig's Ethics Committee was created on August 12, 2004, to coordinate all actions relating to management of the Declaration of Ethical Principles and Code of Professional Conduct. This includes assessment and decision on any possible non-compliance with the document.

In December 2006 we created the Information Channel, to be used only by Cemig employees, and through it the Ethics Committee was then able to receive anonymous reports, via an open channel on our intranet – the Anonymous Information Channel. This channel can be used to report irregular practices contrary to the Company's interests, such as: financial fraud, including adulteration, falsification or suppression of financial, tax or accounting documents; misappropriation of goods or funds; receipt of undue advantages by managers and employees; irregular

contracting; or other practices considered to be illegal.

The Ethics Committee

This was created on August 12, 2004, with three sitting members and three substitute members, and is responsible for management (interpretation, publicizing, application and updating) of the Code of Professional Conduct.

It can receive and investigate any reports of violations of the ethical principles or rules of conduct, provided they have the complete name and address of the person giving the information and are sent to Cemig, at Av. Barbacena 1200, SA/17°/B2, accompanied by indication of the means of proof (witnesses, documents or other sufficient and appropriate means). They can also be sent by email or telephone the address and phone number are well known to all the company's employees.

In December 2006 we put in place our Anonymous Information Channel, available on the corporate intranet, the purpose of which is to receive and process accusations of irregular practices, such as financial fraud, undue appropriation of assets, receipt of irregular advantages or illegal contracting. This channel is one more step for the company in the direction of improving transparency, correct behavior and the concept of corporate governance within Cemig. This new instrument of corporate governance improves the management of our employees and of our business and reaffirms our ethical principles.

The Statement of Ethical Principles and Code of Professional Conduct of Cemig is based on 11 Principles, which express the ethical conduct and values incorporated into Cemig's culture. It is available on our Internet page: <http://cemig.infoinvest.com.br>.

AUDITORS REPORT ON SPECIAL REVIEW

Independent auditors review report

To

The Board of Directors

Companhia Energética de Minas Gerais - CEMIG
Belo Horizonte - MG

1. We have reviewed the Quarterly Financial Information of Companhia Energética de Minas Gerais - CEMIG (the Company) and the consolidated Quarterly Financial Information of the Company and its subsidiaries for the quarter ended March 31, 2008, comprising the balance sheets, the statements of income, of cash flows, the management report and explanatory notes, which are the responsibility of its management.

2. Our review was conducted in accordance with the specific rules set forth by the IBRACON - The Brazilian Institute of Independent Auditors, in conjunction with the Federal Accounting Council - CFC, and consisted mainly of the following: (a) inquiries and discussions with the persons responsible for the Accounting, Finance and Operational areas of the company and its subsidiaries as to the main criteria adopted in the preparation of the Quarterly Financial Information; and (b) reviewing information and subsequent events that have or may have relevant effects on the financial position and operations of the Company and its subsidiaries.

3. Based on our review, we are not aware of any material modifications that should be made in accounting information included in the Quarterly Financial Information described above, for it to be in accordance with the rules issued by the Brazilian Securities Commission (CVM), applicable to the preparation of the Quarterly Financial Information, including the Instruction CVM N° 469/08.

4. As mentioned in note 2, on December 28, 2007 Law N° 11,638 was enacted, and effective from January 1, 2008. This Law modified, amended and introduced new rules to the existing Corporate Law (Law N° 6,404/76) and resulted in changes to certain accounting practices currently adopted in Brazil. Despite the fact that the new Law is already in force, the changes required depend on the issuance of further normatization by local regulators, in order for them to be fully adopted by the companies. Therefore, in this transition phase, through the Instruction CVM N° 469/08, the Brazilian Securities Commission (CVM) has given the option to the non-application of the rules of Law N° 11,638/07 in the preparation of Quarterly Financial Information. As a consequence, the accounting information included in the Quarterly Financial Information - ITR for the quarter ended March 31, 2008, were prepared in accordance with the specific rules set forth by the CVM and does not contemplate all changes to the accounting practices introduced by Law N° 11,638/07.

5. As described in Note 31 to the financial information, as a result of the second periodic tariff review of the subsidiary Cemig Distribuição S.A., anticipated in the concession contracts, Aneel published, as provisional, the tariff repositioning of Cemig Distribuição S.A. in -12.24% to be applied in the period as from April 8, 2008. Possible effects as a result of the ultimate review, if any, will be reflected in the financial position of the Company and the subsidiary in subsequent periods.

6. As described in Notes 7 and 16 to the financial information, Companhia Energética de Minas Gerais CEMIG and its subsidiaries have assets and liabilities recorded in relation to transactions for the sale and purchase of energy and other transactions on the Electricity Trading Chamber (CCEE) (previously called MAE). These amounts were recorded on the basis of calculations prepared and published by the CCEE for transactions carried out to March 31, 2008, and may be changed as a result of decisions in current Court Proceedings brought by companies in the sector, in relation to the interpretation of the rules of the wholesale energy market in effect at the moment in which referred transactions are realized.

7. The financial statements of Companhia Energética de Minas Gerais CEMIG and its subsidiaries for the quarter ended March 31, 2007, presented for comparative purpose, were examined by other independent auditors, which issued a report with unqualified opinion, dated May 8, 2007, including emphasis paragraph relating to the matter mentioned in paragraph 6, and related to the expiration of the electricity generation concessions for the Emborcação, Nova Ponte, Pandeiros, Rio das Pedras, Poço Fundo, São Bernardo, Xicão, Luiz Dias and Santa Luzia of Cemig Geração e Transmissão S.A.. On June 14, 2007, the Mining and Energy Ministry (MME) renewed these concessions for a period of 20 years beginning on the date of maturity of each concession contract. The signing of the renewed concession contracts is expected during the first half of 2008.

EXPLANATORY NOTES TO THE QUARTERLY INFORMATION (ITR)

FOR THE QUARTERS ENDING MARCH 31, 2008 AND 2007

In R\$ \$ 000, except where otherwise stated.

1) OPERATIONAL CONTEXT

Cemig Distribuição S.A. (the company or Cemig Distribuição) is a Brazilian corporation registered with the Brazilian Securities Commission (CVM) for listing, and a wholly-owned subsidiary of Companhia Energética de Minas Gerais Cemig (Cemig). It was created on September 8, 2004 and started operating on January 1, 2005, following the segregation of Cemig s business activities.

Cemig Distribuição has a concession area of 567,478km², approximately 97% of Minas Gerais state, serving 6,476,950 consumers as of March 31, 2008. (Information not reviewed by our external auditors).

The Company was registered for listing by the CVM on September 25, 2006, but it should be emphasized that its shares are not traded on stock exchanges.

2) PRESENTATION OF THE QUARTERLY INFORMATION

The quarterly financial statements were prepared according to accounting principles adopted in Brazil, namely: the Brazilian Corporate Law; rules of the Brazilian Securities Commission (CVM Comissão de Valores Mobiliários); and rules of the specific legislation applicable to holders of electricity concessions, issued by the National Electricity Agency, Aneel.

The quarterly financial statements were prepared according to accounting principles, methods and criteria that are uniform in relation to those adopted on December 31, 2007.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

The statements of cash flow were prepared in accordance with the criteria of FAS 95 *Statement of Cash Flows*, with references made to the format of presentation, in connection with that of the group's holding company, Companhia Energética de Minas Gerais (Cemig) in the context of registry of the financial statements with the Securities and Exchange Commission (SEC).

As a result of inclusion in the Company's Bylaws in 2007 of a provision for payment of profit shares to the employees and managers of the company, this profit share has now begun to be posted as an amount reducing *Net profit before tax and profit shares*, where in 2007 it was posted under *Personnel expenses*.

Change in the Brazilian Corporate Law

On December 28, 2007, Law 11638/07 was passed, altering, repealing and creating new provisions in the Brazilian Corporate Law, in the chapter relating to disclosure and preparation of financial statements. Among other aspects, this changes the criterion for recognition and valuation of certain assets and liabilities. These changes in accounting practices come into effect as from January 1, 2008.

The aim of these changes is to increase the transparency of financial statements of Brazilian companies and eliminate some regulatory barriers that were an obstacle to the process of convergence of these financial statements with international financial reporting standards (IFRS):

The main changes to the Law, coming into effect as from 2008, with the possibility of impacting the company's financial statements, are as follows:

- Replacement of the *Statement of origins and uses of funds* by the *Cash flow statement*.
- Inclusion of the *Added value statement* in the group of financial statements prepared, disclosed and which are to be approved by the Ordinary General Meeting of Stockholders.
- A new possibility was created, further to that originally specified in the Corporate Law, of separation of trading reporting and tax reporting, by establishing the alternative for the company of adopting in its trading reporting, and not only in auxiliary books, the provisions of the Tax Law, provided that, immediately after the calculation of the taxable profit base amount, the necessary adjustments are made for the financial statements to be in harmony with the Corporate Law and the fundamental principles of accounting.
- Creation of two new subgroups of accounts: *Intangible*, in permanent assets, and *Adjustments to valuations of assets and liabilities* in Stockholders' equity. The subgroup of *Adjustments to valuation of assets and liabilities* will essentially have the purpose of containing the counterpart of certain valuations of assets at market price, the valuation of certain financial instruments and, also, conversion adjustments as a result of FX variation on holdings in companies outside Brazil, still pending specific regulation by the CVM (Securities Commission).
- New criteria for classification and valuation of investments and financial instruments, including derivatives. These financial instruments will be classified in three categories (*Held for trading*, *Held to maturity* and *Available for sale*) and their valuation at cost plus return or at market value will be made as a function of their classification in one of these categories.
- Introduction of the concept of *Adjustment to present value* for long-term asset and liability transactions and for significant short-term transactions, still awaiting specific regulation by the CVM.
- In absorption, merger or split transactions (combination of companies), when carried out between non-related parties and linked to effective transfer of control, all the assets and liabilities of the absorbed, split or merged company must be identified, valued and accounted at market value.
- Elimination of the possibility of spontaneous revaluations of fixed assets.

As communicated to the market, the CVM intends, by the end of 2008, to complete its process of issue of regulations for the provisions of the corporate law that were altered and which need regulation, and will review all its normative acts that deal with accounting matters, so as to verify and eliminate any divergences in relation to the specific alterations produced by the new law.

The Company's management is in the process of assessing the effects that the alterations mentioned above will produce on its stockholders' equity and profit for the year of 2008, and will also take into consideration the orientations and definitions to be issued by the regulatory bodies.

Reclassification of accounting balances

The following alterations have been made for the purposes of comparability in the amounts previously presented in the financial statements for 2007:

Original line		Reclassified to	
Operational costs	Cost of operation	Net profit	
Personnel and managers	15,842	Employees profit shares	(15,842)

3) CASH AND CASH EQUIVALENTS

	31/03/2008	31/12/2007
Bank accounts	10,506	245,398
Cash investments	917,690	390,888
	928,196	636,286

Cash investments consist of transactions carried out with Brazilian financial institutions, contracted on normal market conditions and under normal market rates, and are available to be used in the Company's operations.

4) CONSUMERS AND RESELLERS

Consumer type	Balances not yet due	Up to 90 days past due	More than 90 days past due	31/03/2008	Total	31/12/2007
Residential	388,637	169,651	78,107	636,395		607,386
Industrial	134,124	23,441	144,750	302,315		314,527
Commercial, services and others	209,855	60,543	60,498	330,896		321,801
Rural	62,838	19,265	20,083	102,186		104,006
Public authorities	39,710	7,783	8,236	55,729		58,767
Public illumination	91,255	6,877	9,757	107,889		112,993
Public service	32,385	15,195	5,627	53,207		52,604
Subtotal Consumers	958,804	302,755	327,058	1,588,617		1,572,084
Wholesale supply to other concession holders	1,235			1,235		13,392
Provision for doubtful receivables			(240,430)	(240,430)		(223,840)
	960,039	302,755	86,628	1,349,422		1,361,636

Receivables in the amount of R\$ 44,480 are recorded in Non-current assets at March 31, 2008 (R\$ 44,469 at December 31, 2007), in relation to the renegotiation of receivables owed by Copasa (Minas Gerais Water Company) and the prefecture of Belo Horizonte, to be paid by September 2012 and March 2010, respectively.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

Credits receivable from an industrial consumer in the amount of R\$ 45,778, not paid due to an injunction that allowed this payment not to be made until final judgment of a legal action challenging the tariff increase during the Cruzado Economic Plan, by Ministerial Order 045/86, are recorded in the accounts. The Company expects this action to be concluded before the end of 2008, and expects that the amounts referred to will be received in full.

According to rules laid down by Aneel, the criteria for constitution of provisions are as follows: (i) for consumers with significant debts payable, an individual analysis is made of the balance, taking into account the history of default, negotiations in progress and the existence of real guarantees; (ii) for other consumers, the debts receivable and unpaid for more than 90 days from residential consumers, more than 180 days from commercial consumers and more than 360 days for the other consumer categories are provisioned in full.

The provision for doubtful credits made is considered to be sufficient to cover any losses in the realization of these assets.

5) REGULATORY ASSETS AND LIABILITIES

The General Agreement for the Electricity Sector, signed in 2001, and the new regulations governing the electricity sector, result in the constitution of several regulatory assets and liabilities, and also in deferral of federal taxes applicable to these assets and liabilities (which are settled as and when the assets and liabilities are received and/or paid), as shown here:

	31/03/2008	31/12/2007
Assets		
Extraordinary Tariff Recomposition, and Portion A Note 6	1,022,219	1,076,765

	(1,315,308)	(1,395,005)
	1,250,040	1,151,330

6) THE EXTRAORDINARY TARIFF RECOMPOSITION, AND PORTION A

a) The Extraordinary Tariff Recomposition

Resolution 91 of the Emergency Electricity Council (GCE), of December 21, 2001 and Law 10438 of April 26, 2002, established the procedures for implementation of the Extraordinary Tariff Recomposition (RTE), coming into force on December 27, 2001. The tariff adjustments were set

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

by Resolution 130 of the GCE, on April 30, 2002, as follows:

- Adjustment of 2.90% for consumers in the residential classes (excluding low-rental consumers), and the rural, public-illumination and industrial high-voltage consumer classes for whom the cost of electricity represents 18.00% or more of the average cost of production and which meet certain requirements related to load factor and electricity demand, specified in the Resolution.
- Increase of 7.90% for other consumers.

The RTE described above is being used to compensate the following items:

- Losses of invoiced sales revenue in the period from June 1, 2001 to February 28, 2002, corresponding to the difference between estimated revenue if the rationing program had not been put in place and the actual revenue while the program was in place, according to a formula published by Aneel. Calculation of this value did not take into account any losses from default by consumers.
- Passthrough to be made to the generators who bought energy in the MAE which was succeeded in 2004 by the Electricity Sale Chamber (the CCEE/MAE), in the period from June 1, 2001 to February 28, 2002, with price in excess of R\$ 49.26/MWh (referred to as Free Energy).

The period of validity of the RTE, of 74 months, expired in February 2008, and the company has accounted losses of R\$ 93,935 as a result of this period not having been long enough for the total of the assets relating to the rationing-related losses to be received. Also due to the ending of this period, the company ceased to transfer amounts relating to the Free Energy-related losses to the generators.

b) Portion A

The items of Portion A are defined as being the sum of the differences, positive or negative, in the period January 1 to October 25, 2001, between the amounts of the non-manageable costs presented on the basis of the calculation for determination of the last annual tariff adjustment and the disbursements which effectively took place in the period.

The recovery of Portion A began in March 2008, immediately after the ending of the period of validity of the RTE, using the same mechanisms of recovery, that is to say, the adjustment applied to tariffs for compensation of the amounts of the RTE will continue, for compensation of the items of Portion A.

The Portion A credits are updated by the variation in the Selic rate up to the month in which they are actually offset.

As and when the amounts of Portion A are received in the tariff, the company transfers the corresponding amount, posted in assets, to the income statement, as follows:

Amounts transferred to expenses	31/03/2008
Energy bought for resale	523
Fuel Consumption Account (CCC)	7,106
RGR Global Reversion Reserve	710
Tariff for transport of electricity from Itaipu	15,523

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

Tariff for use of the grid transmission facilities	2,148
Financial compensation for use of water resources	630
	67
	26,707

c) Composition of the balances of the RTE and Portion A

	Principal	31/03/2008 Updated by Salic	Total	31/12/2007 Total

(3) Amounts homologated by Aneel Resolutions 482 of 2002 and 001 of 2004.

7) ANTICIPATED EXPENSES AND REGULATORY LIABILITIES CVA

The balance on the Account to Compensate for Variation of Portion A items (CVA) refers to the positive and negative variations between the estimate of Cemig's non-manageable costs, used for deciding the tariff adjustment, and the payments actually made. The variations ascertained are compensated in the subsequent tariff adjustments.

	Balance on 31/12/2007	Amounts deferred (1)	Amortization (2)	Monetary updating (3)	Balance on 31/03/2008
Energy bought for resale	(36,290)	76,368	(22,400)	2,362	20,040
Fuel Consumption Account (CCC)	(27,042)	3,470	12,364	(694)	(11,902)
Charge for System Service (ESS)	19,878	41,085	(2,043)	(185)	58,735
Tariff for transport of electricity from Itaipu	(745)	(152)	599	(87)	(385)
Tariff for use of transmission facilities that are part of the basic grid	(11,654)	(10,508)	8,359	(925)	(14,728)
Royalties for use of water resources	3,120		(417)		2,703

Alternative Energy Program Proinfa	7,448	3,971	(1,403)	(19)	9,997
	(35,092)	111,620	(4,535)	416	72,409

	31/03/2008	31/12/2007
Current assets	139,791	508,222
Non-current assets	651,616	177,211
Current liabilities	(246,172)	(529,961)
Non-current liabilities	(472,826)	(190,564)
	72,409	(35,092)

- (1) Refers to the part of non-controllable costs that comprises the CVA and was not included in revenue, and thus excluded from profit.
- (2) Refers to the non-controllable costs transferred to the income statement due to their inclusion in Cemig Distribuição's revenue through the tariff adjustment.
- (3) Refers to the updating, by the Selic rate variation, from the day of payment of the expense to the date of its actual compensation in the tariff adjustment.

8) TAXES SUBJECT TO OFFSETTING

	31/03/2008	31/12/2007
Current		
ICMS recoverable	102,121	102,121
Income tax	230,882	124,335
Social Contribution	98,732	60,782
COFINS	4,587	58,629

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

PASEP	917	11,069
Others	147	46
	437,386	356,982
Non-current		
ICMS recoverable	49,947	43,526
	487,333	400,508

The balances of income tax and Social Contribution refer to tax credits in corporate income tax returns of previous years, and payments made in 2008, which will be offset in the income tax and Social Contribution payable in the year.

The credits of ICMS recoverable, posted in Long term assets, arise from acquisitions of fixed assets and are offset in 48 months. The company is in the process of adaptation to the new requirements for electronic information laid down by the government of the state of Minas Gerais, which will allow for the offsetting of the credits as from 2008.

9) TAX CREDITS

Deferred income tax and Social Contribution

Cemig Distribuição has deferred income tax credits posted in Current assets and Non-current assets, constituted at the rate of 25.00%, and deferred Social Contribution credits, at the rate of 9.00%, as follows:

	31/03/2008	31/12/2007
Tax credits on temporary differences		
Post-employment obligations	42,319	40,795
Provision for doubtful receivables	92,941	87,300
Contingency provisions	18,446	15,820
Provisions for losses on realization of amounts receivable under the Extraordinary Tariff		
Recomposition and Free Energy	31,938	31,392
Provision for Pasep and Cofins taxes Extraordinary Tariff Recomposition	13,915	18,128
Financial instruments	50,252	46,527
Exchange rate variation	49,616	49,456
Others	5,493	23,865
	304,920	313,283
Current assets	126,276	126,570
Non-current assets	178,644	186,713

At its meeting on March 6, 2008, the Board of Directors approved the technical study prepared by the office of the Chief Officer for Finance, Investor Relations and Control of Holdings of Cemig Distribuição on the forecasts for future profitability adjusted to present value, which show capacity for realization of the deferred tax asset in a maximum period of 10 years, as defined in CVM Instruction 371. This study was also submitted to examination by Cemig Distribuição's Audit Board on March 06, 2008.

In accordance with the estimates of Cemig Distribuição, future taxable profits enable the deferred tax asset existing on March 31, 2008 to be realized according to the following estimate:

	31/03/2008
2008	106,337

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

2009	79,754
2010	30,138
2011	30,138
2012	30,139
2013 to 2015	19,952
2016 and 2017	8,462
	304,920

b) Reconciliation of the expense on income tax and Social Contribution:

The reconciliation of the nominal expense on income tax (rate 25%) and Social Contribution (rate 9%) with the actual expense shown in the income Statement is as follows:

	31/03/2008	31/03/2007 (reclassified)
Profit before income tax and Social Contribution	427,845	291,111
Income tax and Social Contribution nominal expense	(145,467)	(98,977)
Tax effects applicable to:		
Employees profit shares	5,492	5,386
Non-deductible contributions and donations	(1,014)	(821)
Others	(42)	(459)
Income tax and Social Contribution effective expense	(141,031)	(94,871)

10) DEFERRED TARIFF ADJUSTMENT

Aneel's decision on the periodic tariff revision of the company was brought into force through Homologating Resolution 71, published with backdated effect on April 4, 2004.

The periodic tariff review includes the repositioning of the electricity retail supply tariffs at a level compatible with the preservation of the economic-financial equilibrium of the concession contract, providing sufficient revenue to cover efficient operational costs and adequate remuneration of the investments.

The average adjustment applied to Cemig's tariffs on April 8, 2003, on a provisional basis, was 31.53%. However, as described in the Resolution mentioned, the final tariff repositioning for Cemig should be 44.41%. The percentage difference of 12.88% is being compensated in the tariffs.

The last installment for receipt of the difference between the tariffs adjustments was authorized on April 8, 2008 and included in the tariff adjustment which took place on April 8, 2008.

	31/03/2008	31/12/2007
Deferred tariff adjustment since April 8, 2003	949,612	949,612
Interest (defined by Aneel 11.26% p.a.)	447,881	434,188
Monetary updating IGP-M Inflation Index	201,967	189,763
(-) Amounts raised	(1,154,643)	(1,028,330)
	444,817	545,233
Current assets	432,616	463,491
Non-current assets	12,201	81,742

Additionally, deferred taxes applicable to actual revenue were recognized, the balance of which on March 31, 2008 was R\$ 192,383.

11) REGULATORY ASSET PIS, PASEP AND COFINS

Federal Laws 10637 and 10833 changed the bases of application, and increased the rate, of the PIS/Pasep and Cofins taxes. As a result of these alterations there was an increase in PIS/Pasep expenses from December 2002 to March 2005 and in expenses on the Cofins tax from February 2004 to June 2005.

In view of the fact that this increase in the expense should be repaid to the company, the credits were registered, in accordance with a criterion defined by Aneel, as a regulatory asset and there was a counterpart reduction in the expense on PIS/Pasep and Cofins taxes.

This regulatory asset is being reimbursed to the company through the tariff adjustments in the period of 2005 to 2008.

12) ASSETS AND INTANGIBLE ASSETS

	Historic cost	Accumulated depreciation	Net value 31/03/2008	Net amounts 31/12/2007
In progress	9,781,399	(4,300,387)	5,481,012	5,507,981
- Distribution	9,417,166	(4,055,386)	5,361,780	5,381,815

Land	1,177		1,177	1,177
Reservoirs, dams and water courses	44,047	(25,626)	18,421	18,442
Machines and equipment	156,299	(107,153)	49,146	51,501
Vehicles	32,728	(27,451)	5,277	5,799
Furniture and utensils	20,094	(18,500)	1,594	1,651
In progress	924,029		924,029	969,453
- Distribution	729,573		729,573	785,885
Fixed assets	690,253		690,253	749,099
Intangible	39,320		39,320	36,786
- Administration	194,456		194,456	183,568
Fixed assets	100,904		100,904	99,303
Intangible	93,552		93,552	84,265
ASSETS AND INTANGIBLE ASSETS	10,705,428	(4,300,387)	6,405,041	6,477,434
Special Obligations linked to the concession			(2,423,221)	(2,450,716)
Net fixed and intangible assets			3,981,820	4,026,718

Special Obligations refers basically to the contributions by consumers for execution of the undertakings necessary to comply with requests for retail supply of electricity, and any settlement of these obligations depends on the will of Aneel, at the termination of the distribution concessions, by reduction of the residual value of the fixed asset for the purposes of determining the amount which the Concession-granting power will pay to the concession holder.

Under Aneel Resolution 234 of October 31, 2006, and Aneel Circular 1314/2007, of June 27, 2007, the balances of the Special Obligations linked to assets will now be amortized as from the second cycle of tariff reviews, which in the case of Cemig is from April 8, 2008, corresponding to the average rate of the assets in service.

13) SUPPLIERS

	31/03/2008	31/12/2007
Current		
Wholesale supply and transport of electricity:		
Eletrobrás energy from Itaipu	126,218	196,913
Furnas	29,947	66,209
CCEE	92,605	
Cemig Geração e Transmissão S.A.	9,705	13,490
Wholesale supply of electricity Passthrough to the generators (Note 6)		23,368
Other generators and distributors	145,622	112,461
	404,097	412,441
Materials and services	110,076	155,951
	514,173	568,392
Non current		
Wholesale supply of electricity Passthrough to the generators (Note 6)	327,689	314,989
	841,862	883,381

14) TAXES, CHARGES AND CONTRIBUTIONS

	31/03/2008	31/12/2007
Current		
Income tax	143,179	
Social Contribution	51,580	
ICMS tax	245,622	242,892
Cofins tax	56,107	51,009
Pasep	12,095	11,074
Social security system	10,349	11,457
Others	12,020	16,337
	530,952	332,769
Deferred obligations		
Income tax	149,001	196,214
Social Contribution	53,640	70,637
Cofins	33,626	43,806
Pasep	7,300	9,511
	243,567	320,168
	774,519	652,937
Non-current		
Deferred obligations		
Income tax	83,044	81,485
Social Contribution	29,895	29,335
	112,939	110,820

Deferred obligations refers mainly to the assets and liabilities linked to regulatory issues, which are payable as and when the assets and liabilities are realized.

The other income tax and Social Contribution liabilities payable, recorded in *Current liabilities*, will be compensated by prepaid expenses, posted in Assets, under *Taxes offsettable*.

17) POST-EMPLOYMENT OBLIGATIONS

Cemig Distribuição is sponsor of the Forluminas Social Security Foundation Forluz, a non-profit legal entity whose object is to provide its associates and participants and their dependents and beneficiaries with a financial income supplementing retirement and pension, in accordance with the private pension plan to which they are linked.

Forluz makes the following supplementary pension benefit plans available to its participants:

Mixed Social Security Benefits Plan (Plan B): A defined-contribution plan in the phase of accumulation of funds, for retirement benefits for normal time of service and defined-benefit coverage for disability or death of the active participant, and also on receipt of benefits for time of contribution. The contributions of the Sponsor are equal to the basic monthly contributions of the participants, and this is the only plan open for joining by new participants.

The contribution of the Sponsors to this plan is 27.52% for the portion with defined benefit characteristics, relating to the coverage for invalidity or death for the active participant, and this is used for amortization of the defined obligation through an actuarial calculation. The remaining 72.48%, relating to the portion of the plan with defined-contribution characteristics, goes to the nominal accounts of the participants and is recognized in the income statement for the year by the cash method, under Personnel expenses.

Pension Benefits Balances Plan (Plan A): This includes all the active and assisted participants who opted to migrate from the previous Defined Benefit Plan, and are entitled to a proportional benefit by balances. In the case of the assets, this benefit was deferred to the retirement date.

Defined Benefit Plan: This is the benefit plan adopted by Forluz up to 1998, through which the average real salary of the last three years of activity of the employee in the Sponsor companies is complemented in relation to the amount of the official Social Security benefit. After the

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

process of migration that was carried out in June 2007, approved by the Private Pension Plans Secretariat (SPC), in which more than 80% of the participants migrated to Plans A and B, 51 participants remained in the defined benefit plan. Of these, seven are active employees, and 44 are retirees or pension holders.

Cemig Distribuição also maintains, independently of the plans made available by Forluz, payments of part of the life insurance premium for the retirees and contributes to a health plan for the employees, retirees and dependents, administrated by Forluz.

Amortization of actuarial obligations

Part of the actuarial obligation for post-employment benefits in the amount of R\$761,427 on 31 March 2008 (R\$ 770,142 on December 31, 2007), was recognized as an obligation payable by Cemig and its subsidiaries mentioned and is being amortized by June 2024, through monthly installments calculated by the system of constant installments (the so-called Price table). Part of the amounts is adjusted annually based on the actuarial index of the defined benefit plan (the index for salary adjustment of the employees of Cemig Distribuição, excluding productivity); and for the Balances Plan, adjusted by the IPCA Index published by the IBGE (Brazilian Geography and Statistics Institute), plus 6% per year.

Any technical surpluses that Forluz presents for a period of three consecutive years may be used for the reduction of part of the contractually recognized obligations payable.

Due to the item mentioned in the previous paragraph, the surplus obtained by Forluz in the 2007 business year, in the amount of R\$ 68,615, will be used in the 2nd quarter of 2008 for amortization of recognized debt.

The liabilities and the expenses recognized by Light in connection with the Supplementary Retirement Plan, the Health Plan and the Life Insurance Plan are adjusted in accordance with the terms of CVM Decision CVM 371 and the Opinion prepared by independent actuaries. As a result the financial updating and use of the surplus for amortization of the obligation in the debt agreed with Forluz, mentioned in the previous paragraphs, produce no accounting effect in the profit of Cemig Distribuição. The last actuarial valuation was made in relation to the base date December 31, 2007.

The movement in net liabilities has been as follows:

	Pension plans and supplementary retirement plans	Health plans	Dental plan	Life insurance
Net liabilities at December 31, 2007	360,260	225,629	9,922	293,113
Expenses recognized in the result	18,479	10,732	475	7,483
Contributions paid	(33,314)	(6,543)	(131)	(1,412)
Net liabilities on March 31, 2008	345,425	229,818	10,266	299,184
Current liabilities	57,816			
Non-current liabilities	287,609	229,818	10,266	299,184

The amounts registered in current liabilities refer to the contributions to be made by Cemig Distribuição in 2008 for amortization of the actuarial liabilities.

18) CONTINGENCY PROVISIONS

The company makes contingency provisions for lawsuits in which the chance of loss is rated **probable** . On this basis the amount of R\$54,388, an increase of R\$ 7,859 from the previous quarter, was provisioned on March 31, 2008 as follows:

	Balance on 31/12/2007	Additions or reversal of provisions	Balance on 31/03/2008
Labor-law contingencies			
Various	2,884	2,065	4,949
Civil			
Personal damages	1,417	4,900	6,317
Tariff increases	1,945	(196)	1,749
Others	3,944	(1,120)	2,824
Regulatory			
Aneel administrative proceedings	36,339	2,210	38,549
Total	46,529	7,859	54,388

On January 9, 2007 Aneel notified Cemig Distribuição S.A. that it considered certain criteria adopted by the company in calculation of the revenue from the subsidy for low-income consumers to be incorrect, questioning the criteria for identification of the consumers who should receive the benefit and also the calculation of the difference to be reimbursed by Eletrobrás, in the estimated amount of R\$ 143,000. The company has made a provision corresponding to the loss that it considers probable in this dispute, in the amount of R\$ 38,549.

Tariff Increases

Several industrial consumers filed actions against Cemig Distribuição seeking reimbursement for the amounts paid as a result of the tariff increase during the federal government's economic stabilization plan known as the Cruzado Plan in 1986, alleging that the said increase violated the control of prices instituted by that plan. Cemig Distribuição estimates the amounts to be provisioned based on the disputed amounts billed and based on recent judicial decisions. The total value of the exposure of Cemig Distribuição in this matter, 100% provisioned, is R\$ 1,749.

Cases where the chance of loss is rated possible

Additionally there are regulatory, civil and tax cases in progress in which the chance of loss is rated as **possible** , which are periodically re-assessed, and which do not require constitution of a provision in the financial statements. These are set out below:

Regulatory contingencies

Since 2002 the company has received subsidy payments from Eletrobrás in relation to the discounts given to low-income consumers. The Minas Gerais state office of the Federal Tax Authority served an infringement notice on Cemig Distribuição, on the argument that the subvention should be subject to the ICMS tax. The potential for loss in this action is R\$ 106,276, not including the ICMS tax, which could be questioned by the Secretariat relating to the period subsequent to the infringement notice. No provision was constituted for the result of this dispute, since the company believes the legal obligation is non-existent and that it has arguments on the merit for defense against this demand. The expectation of loss attributed to this action is possible .

Social Security and tax obligations indemnity for the Anuênio

Cemig Distribuição paid an indemnity to the employees in the amount of R\$ 127,058, in exchange for the rights to future payments, known as the Anuênio, which were to have been incorporated into salaries. The company did not make the payments of income tax and social security contribution because it considered that these obligations are not applicable to amounts paid as indemnity. However, to avoid the risk of a future fine arising from a different interpretation by the federal tax authority and the National Social Security Institution, the company decided to file for orders of mandamus to allow payment into Court of the amount of any obligations, in the amount of R\$ 87,268, posted in Deposits connected to legal actions. No provision was made for possible losses and the company classifies its expectation of loss in this case as possible.

Contingencies of the holding company

Cemig, the controlling company of Cemig Distribuição, is fighting court actions for which it believes the expectation of loss to be possible or remote. A negative ruling on these lawsuits could impact the businesses of Cemig Distribuição. The main actions that have this characteristic are described below:

- Several consumers and the Public Prosecutor of the State of Minas Gerais brought civil actions against Cemig contesting tariff adjustments applied in previous years, including the Extraordinary Tariff Recomposition and the inflation index used to increase the electricity tariff in April 2003. The litigants request reimbursement of 200% of such disputed amounts as are considered by the court to have been changed erroneously by the company. The company believes it has arguments on the merit for a legal defense and thus has not made a provision for these actions.
- The company is Defendant in actions challenging the criteria for measurement of the amounts to be charged for the public illumination contribution, in the total amount of R\$ 448,929. The Company believes that it has arguments on the merit for defense in this dispute and as a result has not constituted provision for this action. Expectation of loss in this action is classified as possible.

19) STOCKHOLDERS EQUITY

Cemig Distribuição has registered capital of R\$ 2,261,998, represented by 2,261,997,787 nominative common shares, without nominal value, wholly owned by Cemig.

Balance at December 31, 2007	2,440,542
Net profit in the quarter	270,659
Balance on 31 March 2008	2,711,201

20) **GROSS REVENUE FROM RETAIL SUPPLY OF ELECTRICITY, AND REVENUE FOR USE OF THE NETWORK CAPTIVE CONSUMERS**

The position in retail supply of electricity, by type of consumer, is as follows:

	(Not reviewed by independent auditors)		MWh		R\$	
	31/03/2008	31/03/2007	31/03/2008	31/03/2007	31/03/2008	31/03/2007
Residential	5,219,135	5,100,237	1,729,761	1,693,716	931,006	841,066

	6,476,950	6,302,080	5,174,893	4,905,927	2,338,274	1,920,510
Transactions in energy on the CCEE					5,073	
Total	6,476,950	6,302,080	5,174,893	4,905,927	2,343,347	1,920,510

Low-income consumers

The federal government, through Eletrobrás (*Centrais Elétricas Brasileiras*) reimburses the distributors for the losses in revenue arising as a result of the criteria adopted as from 2002 for classification of consumers in the low-rental residential sub-category, in view of the lower tariff applied to their electricity bills.

The regulator, Aneel, is reviewing the procedures for calculation by the Company of revenue for the subsidy for low-income consumers. As a result of this review, the amounts posted in 2007 were calculated on the basis of estimate, and their receipt for the period from February 2007 through March 2008 is pending.

Aneel included in the tariff review of April 2008 the amounts to be reimbursed to the company for the subsidy for low-income consumers.

21) **REVENUE FOR USE OF THE NETWORK FREE CONSUMERS**

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

Starting in January 2005, a significant part of large industrial consumers became Free Consumers, energy now being sold to them via Cemig Geração e Transmissão. With this change, the charges for use of the distribution network (the TUSD) of these Free Consumers began to be charged separately by Cemig Distribuição, and posted in the line *Revenue for use of the network*.

22) OTHER OPERATIONAL REVENUES

	31/03/2008	31/03/2007
Charged service	3,093	2,445
Other provisions of services	4,750	3,445
Rental and leasing	9,709	8,427
Others	3	61
	17,555	14,378

23) DEDUCTIONS FROM OPERATIONAL REVENUE

	31/03/2008	31/03/2007
<u>Taxes on revenue</u>		
ICMS tax	557,276	500,804
Cofins tax	242,383	177,059
PIS and Pasep tax	58,130	40,397
ISS tax on services	71	83
	857,860	718,343
<u>Charges to the consumer</u>		
RGR Global Reversion Reserve	15,420	25,527
PEE Energy Efficiency Program	8,602	4,913
CDE Energy Development Account	75,073	74,091

(-) Personnel costs transferred to works in progress	(16,269)	(29,709)
Voluntary Dismissal Program (PPD)	3,881	
	194,660	156,756

Voluntary Dismissal Program (PPD)

On March 11, 2008 the Executive Board approved the new permanent Voluntary Dismissal Program (PPD), applicable to spontaneous resignations as from that date. The program's financial incentives include payment of 3 months' gross remuneration, 6 months' contribution to the health insurance plan after severance of the employment contract, deposit of the penalty payment of 40% of the amount due under the FGTS retirement plan, and payment of up to 24 months' contributions to the Pension Fund and the INSS after severance, in accordance with certain criteria.

For employees over 55 with 35 years' contributions (for men) or 30 years' contributions (for women), the benefits are only available if the employee joins the plan within 90 days after meeting these age and contribution time limits.

On March 31, 2008 a total of 72 employees had subscribed to the PPD, and a provision of R\$3,881 had been made for the financial incentive payments.

b) OUTSOURCED SERVICES

The main conditions related to business transactions between related parties are below:

- (1) The company has electricity purchase contracts with Cemig Geração e Transmissão and Light Energia, arising from the public auction of electricity held in 2005, with period of 8 years from start of supply.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

- (2) A substantial part of the amount refers to renegotiation of the debit originating from the sale of electricity to Copasa, with payment scheduled up to September 2012, and financial updating by the IGPM index + 0.5% p.m.
- (3) Part of the contracts of Forluz are updated by the IPCA (Expanded Consumer Price Index) published by the IBGE (Brazilian Geography and Statistics Institute), and part are adjusted based on the Salary Adjustment Index of the employees excluding productivity, plus 6% per year (See Explanatory Note 17).

For more information on the main transactions, see Explanatory Notes 4, 8,13,14,17,19, 23 and 24.

27) FINANCIAL INSTRUMENTS

Cemig Distribuição uses financial instruments restricted to cash and cash equivalents, consumers and traders, amounts receivable from the Minas Gerais state government, loans and financings, and debentures, and the gains and losses obtained on the transactions are registered in full by the accrual method.

The derivative instruments contracted by the company have the purpose of protecting the company's operations against the risks arising from foreign exchange variation and are not used for speculative purposes.

The principal amounts of the transactions and derivatives are not posted in the balance sheet, since they refer to transactions which do not require payments of cash, but only of the gains or losses that actually occur. The net results of these transactions represented losses on March 31, 2008 and 2007 of, respectively, R\$ 7,291 and R\$ 21,076. These are posted in *Financial revenue (expenses)*.

The recognition of the net result not realized in operations with derivative instruments is carried out by the accrual method, which can generate differences when compared with the estimated market value of such instruments. This difference arises from the fact that market value includes recognition at present value of future gains or losses to be incurred on the transactions, in accordance with the expectation of the market at the moment at which the market value is ascertained.

The table below shows the derivative instruments contracted by the company, the gains (losses) not realized, registered, and the respective estimate of market value of these instruments on March 31, 2008:

Receivable by Cemig Distribuição	Owed by Cemig Distribuição	Period of maturities	Principal amount contracted 000	Book value	Unrealized loss Estimated market value
In US\$: 5.58% p.a. to 7.14% p.a.	In R\$: CDI + rate 1.5% p.a. to 3.01% p.a.	From 4 / 2008 to 6 / 2013	US\$62,072	(115,467)	(121,032)

28) THE TARIFF REVIEW

On April 7, 2008 Aneel published the result of the 2nd Tariff Review of Cemig Distribuição. The average impact perceived by consumers will be a reduction of 12.24% in their electricity invoices as from April 8, 2008. The rate adjustment is in fact different for different types of consumer – as an example, residential consumers had a reduction of 17.11% on their energy bills, while high-voltage consumers had a reduction of 8.02%.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

The result of the Review is an aspect of the regulation of the sector which requires that the gains in productivity resulting from the reduction of costs achieved by Cemig in the years since the last prior tariff review must be passed on to the tariff charged to consumers.

The Tariff charged to Free Consumers for use of the Distribution System (TUSD) was increased by 2.01%, mainly reflecting the increase of 3.25% for consumers connected at 138kV.

It should also be highlighted that as from the second cycle of the company's tariff review, i.e. April 8, 2008, the Special Obligations will begin to be amortized, posted as credits in the income statement, using the average depreciation rate on the assets that gave rise to them. The company estimates that the amount of the credit to be posted in the income statement for 2008 for this depreciation will be approximately R\$ 88,019.

29) STATEMENT OF CASH FLOWS

This statement is in accordance with the criteria for disclosure established by the US accounting statement FAS 95 - *Statement of Cash Flows*, considering that the company is registered with the SEC (Securities and Exchange *Commission*) of the US and also prepares financial statements in accordance with accounting principles generally accepted in the US (US GAAP).

ECONOMIC FINANCIAL PERFORMANCE

Amounts are in thousands of Reais unless otherwise stated.

Profit in the period

In the first quarter of 2008 (1Q08), Cemig Distribuição reported net profit of R\$ 270.659 million, 50.03% higher than the net profit of R\$180.398 reported for the first quarter of 2007. This result mainly reflects Net sales revenue 27.03% higher, partially offset by Operational costs and expenses 21.99% higher.

Ebitda information (method of calculation not reviewed by our external auditors).

The Ebitda of Cemig Distribuição in first quarter 2008 was a significant 37.55% higher than in 2007. Adjusted for non-recurring items, it was 27.18% higher.

As part of the tariff review of Cemig Distribuição, Aneel included in the tariff to be applied as from April 8, 2008 certain financial items relating to previous business years which resulted in the recognition of regulatory assets and liabilities which will be received and/or discounted in the tariff to be received from consumers in the period April 8, 2008 to April 7, 2009. The impact on Ebitda of this non-recurring recognition of the financial items was R\$ 58,134, as shown in this table:

EBITDA - R\$ -million	31/03/2008	31/03/2007 (Reclassified)	Change, %
Net profit	270,659	180,398	50.03
+ Income tax and Social Contribution	141,031	94,871	48.66
+ Employees and managers shares in results	16,155	15,842	1.98
+ Non-operational revenue (expenses)	1,464	9,350	(84.34)
Financial revenue (expenses)	(10,541)	(10,715)	(1.62)
+ Amortization and depreciation	110,515	95,059	16.26
= EBITDA	529,283	384,805	37.55
Non-recurring items:			
Tariff review Net revenue	(62,464)		
+ Tariff review Operational expense	4,330		
+ Adjustment to RGR charge Homologation by Aneel		14,899	
Energy CVA		(29,245)	
= ADJUSTED EBITDA	471,149	370,459	27.18

The higher Ebitda in the first quarter of 2008 than in the first quarter of 2007 was mainly due to net sales revenue 27.03% higher, partially offset by operational costs and expenses (excluding the effect of depreciation and amortization expenses) 22.59% higher. The improved performance in 2008 was reflected in Ebitda margin, which rose from 29.66% in 1Q07 to 32.12% in 2008.

Gross revenue from supply of electricity and use of the network – captive consumers

Gross revenue from retail supply of electricity in 1Q08 was R\$ 2.343 billion, compared to R\$ 1.921 billion in 1Q07, i.e. 22.02% higher.

The main impacts on 2008 revenues arose from the following factors:

- Tariff readjustment averaging 5.16% on consumer tariffs, starting from April 8, 2007 (full effect in 2008).
- 5.48% increase in volume of energy invoiced to final consumers (excluding internal consumption).
- Recognition of non-recurring revenue relating to financial items of previous years which were included in the tariff, resulting in the constitution of regulatory assets in the gross amount of R\$ 67,194.

Electricity sold to final consumers (MWh)

(Data not audited by independent auditors)

	31/03/2008	31/03/2007	Change, %
Residential	1,729,761	1,693,718	2.13

Public service	262,152	252,499	3.82
Total	5,165,978	4,897,372	5.48

Revenue for use of the network Free Consumers

This revenue refers to the Tariff for Use of the Distribution System (TUSD) charged to Free Consumers on energy sold, principally by Cemig Geração e Transmissão, and was not significantly different between 1Q07 when it was R\$ 313,102, and 1Q08, when it was R\$ 315,032.

Non-controllable costs

The differences between the sums of non-controllable costs (also referred to as CVA) used as a reference in the calculation of the tariff adjustment and the disbursements actually made are offset in the subsequent tariff adjustments, and are registered in Current assets and Long term assets. Complying with the Aneel Chart of Accounts, some Items are allocated as *Deductions from operational revenue*. Please refer to further information in Explanatory Note 2 and Note 7 to the Quarterly Information.

As from March 2008 the company began to receive, in the tariff, the amounts posted in assets under Portion A . Hence the portion of the non-controllable costs which were actually received in the tariff is transferred to *Operational expenses*, as shown in Explanatory Note 6, Item b .

Deductions from operational revenues

Deductions from operational revenues amounted to R\$ 1,028,152 In 1Q08, compared to R\$ 950,810 in 1Q07, 8.13% higher. The principal changes in these expenses are as follows:

Fuel Consumption Account CCC

The deduction from revenue relating to the CCC was R\$ 62,594 in 1Q08, compared to R\$ 112,880 in 1Q07, 44.55% lower. This relates to the operational costs of thermal plants in the Brazilian interconnected and isolated systems, split pro-rata among electricity concession holders by the Aneel Resolution. This is a non-controllable cost; the amount deducted from revenue is passed through to tariffs.

Energy Development Account CDE

The deduction from revenue relating to the CDE was R\$ 75,073 in 1Q07, compared to R\$ 74,091 in 1Q07, an increase of 1.33%. The payments are specified by an Aneel Resolution. This is a non-controllable cost, with the expense recognized in the income statement corresponding to the value effectively passed through to the tariff.

RGR Global Reversion Reserve

The deduction from revenue relating to the CDE was R\$ 15,420 in 1Q08, compared to R\$ 25,527 in 1Q07, a reduction of 39.59%. This basically reflects the accounting, in March 2007, of a complement to the expense for 2005, in the amount of R\$ 14,899, as homologated by Aneel.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

The other deductions from revenue are for taxes calculated as a percentage of billing, and their variations thus substantially arise from the changes in revenue.

Operational costs and expenses (excluding financial revenue/expenses)

Operational costs and expenses (excluding *Financial revenue (expenses)*) totaled R\$ 1,229,014 in 1Q08, 21.99% higher than the R\$ 1,007,434 reported for 1Q07. This is mainly due to variation in personnel costs, energy bought for resale and post-employment obligations. For further information on the composition of operational costs and expenses, see Explanatory Note 24 to the Quarterly Information.

The principal changes in expenses are:

Personnel expenses

Personnel expenses totaled R\$ 194.660 million in 1Q08, vs. R\$ 156.756 million in 1Q07, representing an increase of 24.18%. This increase was basically due to the following factors:

- salary increase of 5.00% given to employees in November 2007;
- provision of R\$ 3,881 for the Voluntary Dismissal Program (PPD), in first quarter 2008; and
- lower transfer of personnel costs to works in progress (R\$ 16,269 in 2008 vs. R\$ 29,709 in 2007), as a result of the lower capital expenditure program in 2008.

Further information on the composition of personnel expenses is given in Explanatory Note 24 to the Quarterly Information.

Electricity purchased for resale

Expense on electricity purchased for resale was R\$ 577,738 in 1Q08, compared to R\$ 440,021 in 1Q07, representing an increase of 31.30%. This is a non-controllable cost, with the expense recognized in the income statement corresponding to the value actually passed through to the tariff. Further information is given in Explanatory Note 24 to the Quarterly Information.

Depreciation and amortization

The expense on depreciation and amortization was 16.26% higher, at R\$ 110,515, in 1Q08, than in 1Q07 (R\$ 95,059), basically reflecting the startup of new distribution networks and lines as a consequence of the investments in the *Light for Everyone* program.

Post-employment obligations

Expenses on post-employment obligations totaled R\$ 37,169 in 1Q08, compared to R\$ 18,393 in 1Q07, 102.08% higher. These expenses basically represent interest on the actuarial liabilities of Cemig Distribuição, net of the expected return on plan assets, as estimated by an external actuary. The higher expense in 2008 basically reflects the adjustment in the actuarial assumptions in December 2007, in which the assumed interest rate was reduced, increasing the value of the actuarial obligations.

Operational provisions

Operational provisions totaled R\$ 36,652 in 1Q08, compared to R\$ 50,861 in 1Q07, a reduction of 27.94%. This lower figure basically reflects the provision of R\$ 30,000 for administrative proceedings by Aneel, made in March 2007. Please refer to further information in Explanatory Note 18 and Note 24 to the Quarterly Information.

Charges for Use of the Transmission Grid

Expenses on charges for the use of the transmission grid were R\$ 119,994 in 1Q08, vs. R\$ 116,984 in 1Q07, 2.57% higher. These charges are payable by distribution and generation agents for use of the facilities and components of the basic grid, and are set by Aneel resolution. This is a non-controllable cost, with the expense recognized in the income statement corresponding to the value effectively passed through to the tariff.

Outsourced services

Expenses on outsourced services in 1Q08 were R\$ 99,953, 28.47% higher than in 1Q07 (R\$ 77,800). This primarily reflects increased spending on maintenance and conservation of electricity facilities, contracted labor and communication. The expenses in the line are detailed in Explanatory Note 24 to the Quarterly Information.

Financial revenues (expenses)

In 1Q08 the company reported net financial expenses of R\$ 10,541, compared to net financial expenses of R\$ 10,715 in 1Q07. The main factors in this financial result are:

- Revenue from cash investments was 125.25% higher in 2008, due to a higher average balance of cash invested. This revenue was R\$ 18,040 in 1Q08, vs. R\$ 8,009 in 2007.
- The revenue from arrears penalty payments on client electricity bills was R\$ 22,500 higher, at R\$ 43,048 in 1Q08, vs. R\$ 20,548 in 1Q07. This variation arises from the revenue posted in 1Q08, in the amount of R\$ 10,516, relative to accounts received from major industrial consumers for consumption in prior years – the principal amounts of which were considerably less than the amounts added as penalty payments for delay in settlement.
- Lower revenue from monetary updating on the General Agreement for the Electricity Sector. The revenue was R\$ 27,337 in the first quarter of 2008, vs. R\$ 40,659 in 1Q 2007 – reflecting the lower value of the regulatory assets in 2008, as part of the regulatory assets previously posted (RTE and Deferred Tariff Adjustment) were amortized.
- Monetary updating and interest on the Deferred Tariff Adjustment was 28.83% lower, at R\$ 25,897, in 1Q08, than in 1Q07 (R\$ 36,387) – again due to reduction of the principal value of the asset as a result of parts of it being received in electricity accounts. For further details please see Explanatory Note 10 to the Quarterly Information.

- Net *loss* of R\$ 1,351 on currency variations in 1Q08, compared to net *gain* of R\$ 21,886 in 1Q07. This was basically due to lower depreciation of the dollar against the Real in 2008 than in 2007 and the reduction in the balance of the debt in foreign currency. In the first quarter of 2008 the dollar depreciated against the Real by 1.25%; while in first quarter 2007 it depreciated 4.10%.
- Net loss on financial instruments in 1Q08, of R\$ 7,291, compared to a net loss of R\$ 21,076 in 1Q 2007. This mainly arises from the variation in the US Dollar mentioned in the previous paragraph, since for part of its debt in foreign currency the Company entered into swap transactions in which the index on contracts was swapped from foreign currency to CDI.
- Lower expenses on the CPMF tax due to its being abolished.

For a breakdown of financial revenues and expenses, see Explanatory Note 25 to the Quarterly Information.

Income tax and Social Contribution

In 1Q08 Cemig Distribuição posted expenses on income tax and Social Contribution of R\$ 141,031, representing 32.96% of the pre-tax profit of R\$ 427,845. In 1Q07, the company posted expenses on income tax and Social Contribution of R\$ 94,871, representing 32.59% of the pre-tax profit of R\$ 291,111 million. These effective rates are reconciled with the nominal rates in Explanatory Note 9 to the Quarterly Information.

REPORT OF REVIEW BY INDEPENDENT AUDITORS

To

The Board of Directors

Cemig Distribuição S.A.

Belo Horizonte, Minas Gerais

1. We have examined the accounting information contained in the Quarterly Information (ITR) of Cemig Distribuição S.A. for the quarter ending March 31, 2008, consisting of the balance sheet, income statement and statement of cash flows, the report on performance and explanatory notes. These were prepared under the responsibility of the Company's management.

2. Our review was carried out in accordance with the specific rules established by Ibracon – the Institute of Independent Auditors of Brazil, together with the Federal Accounting Council (CFC), and consisted, principally, of: (a) enquiry and discussion with the managers responsible for the accounting, financial and operational areas of the Company, as to the main criteria adopted in the preparation of the Quarterly Information; and (b) review of the information and the subsequent events which may have had or may in the future have significant effects on the company's financial situation and its operations.

3. Based on our examination, we are not aware of any material change which should be made to the accounting information contained in the Quarterly Information referred to above, for it to be in accordance with the rules issued by the CVM (*Comissão de Valores Mobiliários*), applicable to preparation of Quarterly Information, including CVM Instruction 469/08.

4. As mentioned in Explanatory Note 2, Law 11638 of December 28, 2007 came into force on January 1, 2008. This law changed, repealed and introduced new provisions in Law 6404/76 (the Corporate Law) and changed the accounting practices adopted in Brazil. Although this law has already come into force, some changes introduced by it are still awaiting normalizing rules to be made by the regulatory bodies before they are to be adopted by companies. For this reason, in this transition phase, the CVM, through CVM Instruction 469/08, made immediate application of the provisions of Law 11638/07 in preparation of the Quarterly Information (ITR) optional. Hence, the accounting information contained in the Quarterly Information for the quarter ended March 31, 2008 was prepared in accordance with specific instructions of the CVM and does not include the changes in accounting practices introduced by Law 11638/07.

5. As mentioned in Explanatory Note 28 to the Quarterly Information (ITR), as a result of the 2nd periodic tariff review specified in the concession contract, Aneel has, provisionally, homologated the Company's tariff repositioning at 12.24%, to be applied to the period from April 8, 2008. Any effects arising from the final review will be reflected in the Company's equity and financial position in subsequent periods.

6. The Quarterly Information (ITR) of the Company for the quarter ended March 31, 2007, presented here for comparison, was examined by other independent auditors, who issued a report, without qualification, on it, dated May 8, 2007.

EXPLANATORY NOTES TO QUARTERLY INFORMATION

FOR THE YEAR ENDED DECEMBER 31, 2007

AND FOR THE QUARTERS ENDED MARCH 2008, AND MARCH 31, 2007

(In thousands of reais, unless otherwise indicated)

1) OPERATING CONTEXT

Cemig Geração e Transmissão S.A. (the Company, or Cemig Geração e Transmissão), is a publicly traded corporation, a wholly owned subsidiary of Companhia Energética de Minas Gerais - CEMIG (CEMIG), that was formed on September 8, 2004, whose operational start-up was January 1, 2005 as a result of the process of unbundling the activities of CEMIG.

The purpose of Cemig Geração e Transmissão is: (i) to study, plan, project, build, operate and develop electricity generation, transmission and commercialization systems and related services that have been or that may be transferred, by any legal deed, or companies over which it maintains shareholder control; (ii) to develop activities in the different fields of energy, at any of its sources, seeking economic and commercial development; (iii) to provide consulting services within its area of activity to companies in Brazil and abroad, and (iv) to perform activities that are directly or indirectly related to its company purpose.

Transfer of CEMIG 's generation concessions to Cemig Geração e Transmissão is in the process of being approved by Agência Nacional de Energia Elétrica - ANEEL, the National Electricity Agency.

Cemig Geração e Transmissão owns 46 plants, of which 43 are hydroelectric, 1 wind and 2 thermoelectric, and transmission lines, the majority of which form part of the basic network of Brazil 's generation and transmission system.

The opening of the Company 's capital was authorized by the Comissão de Valores Mobiliários - CVM, the Brazilian equivalent of the Securities and Exchange Commission, on October 10, 2006. It is noted that its shares are not traded on a stock exchange.

The Company has an equity stake in the following controlled companies under development:

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

- Hidrelétrica Cachoeirão S.A. (jointly controlled participation of 49.00%) Production and commercialization of electricity under an independent production system, through the Cachoeirão hydroelectric plant located in Pocrane, in the state of Minas Gerais. For more information see Explanatory Note 8.
- Guanhães Energia S.A. (jointly controlled participation of 49.00%) Production and commercialization of electricity through construction and development of the small hydroelectric plants Dores de Guanhães, Senhora do Porto and Jacaré, located in the municipality of Dores de Guanhães, in the state of Minas Gerais, and Fortuna II, located in the municipality of Virginópolis, in the state of Minas Gerais. For more information see Explanatory Note 8.
- Cemig Baguari Energia S.A. (jointly controlled participation of 100.00%) Production and commercialization of electricity under an independent production system. Cemig Geração e Transmissão expects to transfer the assets of the Baguari Consortium to that controlled company, and projects the start of operations in 2009.

- Madeira Energia S.A. (jointly controlled participation of 10.00%) Implementation, construction, operation and exploration of the Santo Antônio hydroelectric plant located in the hydrographic basin of Rio Madeira in the state of Rondônia, with capacity of 3,150 MW (information not reviewed by independent auditors) and projected start of commercial operation in 2012. For more information see Explanatory Note 8.

2) PRESENTATION OF QUARTERLY INFORMATION

2.1) Presentation of Quarterly Information

The quarterly information of the controlling company and the consolidated companies was developed and prepared in accordance with accounting practices used in Brazil, including: Brazilian Corporate Law, rules of the Comissão de Valores Imobiliários - CVM, and specific legislation applicable to electricity concession holders issued by Agência Nacional de Energia Elétrica - ANEEL.

The quarterly information was prepared following the uniform accounting principles, methods and criteria in relation to those adopted on December 31, 2007.

The Cash Flow Statements were prepared in accordance with the criteria established by FAS 95 - Statement of Cash Flows, in relation to the presentation format, in connection with the Group's holding company, Companhia Energética de Minas Gerais - CEMIG (CEMIG), regarding filing its financial statements with the Securities and Exchange Commission (SEC).

As a function of inclusion of the projected payment of profit-sharing of the Company's employees and managers in the Company By-Laws in 2007, this profit-sharing is recorded as a reducer of Net Income before taxes and statutory participations; thus, until the third quarter of 2007, it was recorded in the line Personnel Expenses.

Alteration in Brazilian Corporate Law

On December 28, 2007, Law No. 11,638/07 was enacted, altering, revoking and introducing new provisions to Brazilian Corporate Law in the chapter related to the release and preparation of financial statement, modifying, among other items, the criteria for the recognizing and valuing assets and liabilities. These changes in accounting practices took effect on January 1, 2008.

The purpose of these alterations was to increase the transparency of Brazilian companies' financial statements, and to eliminate some regulatory barriers that made it difficult to conform these statements to international accounting principles - IFRS.

The main alterations in the Law that took effect in 2008 that may impact the Company's Financial Statements are described below:

- Substitution of the Statement of Source and Use of Resources – DOAR, for the Statement of Cash Flows – DFC;
- Inclusion of the Statement of Added Value – DVA, into the group of financial statements that are prepared and released, and that must be approved at the General Ordinary Shareholders Meeting – AGO.

- In addition to what was originally stated in corporate law, creating a new possibility of separation between commercial bookkeeping and tax bookkeeping by establishing an alternative for the company to adopt tax law provisions in its commercial bookkeeping, and not just in auxiliary books, as long as the necessary adjustments are then made after determining the income base for taxation so that the financial statements are in agreement with Brazilian Corporate Law and fundamental accounting principles;
- Creation of two new account sub-groups: the Intangible, in Fixed Assets, and Adjustments to Equity Evaluation, in Net Equity; the sub-group of Adjustments to Equity Evaluation will essentially serve to cover the counterpart of certain asset valuations at market prices, the valuation of certain financial instruments, and, further, conversion adjustments as a function of the exchange rate variation of company investments abroad still pending specific regulation by the CVM;
- New criteria to classify and evaluate investments in financial instruments, including derivatives. These financial instruments will be classified into three categories (to be negotiated, maintained until maturity, and available for sale), and their valuation by cost plus yield, or at market value will be done as a function of their classification in one of those categories;
- Introduction of the concept of Adjustment to Present Value for operations, long-term assets and liabilities, and for relevant short-term assets and liabilities, which is awaiting specific regulation by the CVM;
- When operations of incorporation, merger or split-off (combination of companies) occur between unrelated parties, and when they are linked to the effective transfer of control, all the assets and liabilities of the incorporated, merged or split company must be identified, valued and recorded at market value.
- Elimination of the possibility of performing spontaneous revaluation of fixed assets.

As communicated to the market, in 2008 the CVM intends to conclude its normative process for the provisions of corporate law that were altered and that need regulation, and it will review all the normative acts regarding accounting matters, in order to verify and eliminate possible divergences in relation to the specific alterations produced by the new law.

Company Management is in the process of evaluating the effects that the abovementioned alterations will have on the net equity and results for the year 2008, and it will consider the guidance and definitions to be issued by the regulatory entities. At this time, Management does not believe it is possible to determine the effects of these alterations on the results and on net equity for the quarter ended March 31, 2008.

Restatement of Accounting Balances

For comparison purposes, the following alterations were made to the amounts previously presented in the 2007 financial statements:

Original Account		Restatement Account	
Current Assets		Current Assets	
Taxes for Offset	(17,516)	Tax Credits	17,516
Operating Costs Cost of Operation		Results	
Personnel and Managers	5,066	Employee Profit-Sharing	(5,066)

2.2) Consolidated quarterly Information

The consolidated quarterly information at March 31, 2008 includes the statements of the Company and the controlled companies Hidrelétrica Cachoeirão S.A., Guanhões Energia S.A., Cemig Baguari Energia S.A. and Madeira Energia S.A.

The accounting policies were applied uniformly to all the consolidated companies, and they are consistent with the policies used in the previous year.

The following were eliminated in the consolidation process: (i) participation in the net equity of the controlled companies; (ii) the result of the equity pick-up; (iii) the amounts of assets and liabilities between the consolidated companies, and (iv) the amounts of revenues and expenses arising from transactions between the consolidated companies.

The companies with shared control were proportionally consolidated as a function of the percent of participation. Therefore, each area of quarterly information was consolidated after application of the percent of participation. Consequently, there is no line for minority participation.

3) CASH AND CASH EQUIVALENTS

	Consolidated		Controlling Company	
	3/31/2008	12/31/2007	3/31/2008	12/31/2007
Bank Accounts	12,121	111,017	10,757	105,013
Short-Term Investments	964,205	805,271	956,996	802,103
	976,326	916,288	967,753	907,116

Short-Term Investments correspond to transactions with domestic financial institutions that are contracted under normal market conditions and rates, and they are available to be used in the Company's operations.

4) CONSUMERS AND RESELLERS

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

Consumer Class	Consolidated and Controlling Company			Total	
	Amounts Due	90 Days Past Due	More than 90 Days Past Due	3/31/2008	12/31/2007
Industrial	70,298	7,027	61,560	138,885	175,671
Supply to Other Concession Holders	181,456			181,455	124,209
Provision for Credits for Doubtful Payment			(84)	(84)	(84)
	251,753	7,027	61,476	320,256	299,796

The Company forms a provision for credits for doubtful payment through individual analysis of client payments, considering the history of non-payment, negotiations under way, and the existence of real guarantees.

The Provision for Credits for Doubtful Payment formed is considered to be sufficient to cover possible losses in the realization of these assets.

The amount of R\$45,056 is recorded in relation to industrial consumer credits not paid as a function of the injunction that allowed non-payment of that amount until the final judgment of the legal action questioning the tariff adjustment during the period of the Cruzado Plan through Directive 45/86. The Company expects the conclusion of this legal proceeding in 2008, and that the mentioned values will be received in full.

5) RESELLERS TRANSACTIONS WITH FREE ENERGY

The Company's rights and obligations in relation to free energy transactions within the scope of the Câmara de Comercialização de Energia Elétrica - CCEE [Electricity Commercialization Entity] during the period of the Rationing Program are shown below:

	Consolidated and Controlling Company	
	3/31/2008	12/31/2007
ASSETS		
Amounts to be received from distributors	425,910	436,084
Provision for losses in realization	(401,171)	(391,012)
	24,739	45,072
Current	16,002	31,426
Non-Current	8,737	13,646

The amounts to receive in Assets refer to the difference between the prices paid by the Company in energy transactions in the CCEE during the period of the Rationing Program, and the amount of R\$49.26/MWh, which must be reimbursed by the distributors through the amounts collected through the RTE, as defined in the General Agreement of the Electricity Sector.

As per ANEEL Resolution No. 36 of January 29, 2003, electricity distributors collect and pass through the amounts obtained on a monthly basis through the RTE to generators and distributors with amounts receivable, among which the Company has been included since March of 2003.

The rights of Cemig Geração e Transmissão are updated by the SELIC variation plus 1.00% interest per year.

The conclusion of some legal proceedings under way brought by market agents in relation to the interpretation of rules in effect during the period of transactions within the scope of the CCEE may result in alterations to the recorded amounts.

Provision for losses in realization

Cemig Geração e Transmissão receives RTE amounts from Cemig Distribuição and from other distributors, and there is a deadline stipulated by ANEEL to pass through those amounts to the Company.

The Company conducted a study considering the average pass-through amounts received from the distributors to verify if the period stipulated for the distributors to effect the pass-through would be sufficient for recovery of the amounts approved by ANEEL. Based on that study, the provision for losses in realization of credits from free energy on March 31, 2008 was estimated to be R\$401,171 (R\$391,012 on December 31, 2007).

6) TAXES FOR OFFSET

	Consolidated		Controlling Company	
	3/31/2008	12/31/2007 Restated	3/31/2008	3/31/2007 Restated
Current				
ICMS Recoverable	44,031	44,065	44,031	44,032
Income Tax	161,876	71,190	161,821	71,143
Social Contribution	54,499	22,363	54,499	22,363
PASEP	12,098	11,939	12,098	11,939
COFINS	55,602	54,866	55,602	54,866
Others	1,021	18,402	1,021	18,402
	329,127	222,825	329,072	222,745
Non-Current				
ICMS Recoverable	16,665	10,600	16,665	10,600
	345,792	233,425	345,737	233,345

The amounts of Income Tax and Social Contribution refer to credits from the Legal Entity Income Tax Statement – DPIJ, from prior years, and advance payments in 2008 that will be offset with Income Tax and Social Contribution payable reported for the year, which are recorded in the line Taxes, Rates and Contributions.

The recoverable ICMS credits that are recorded in Long-Term Assets come from acquisitions of fixed assets, which may be offset in 48 months. The Company is in the process of adapting to the new electronic information requirements demanded by the government of the state of Minas Gerais, which will allow credits to be offset in 2008.

7) TAX CREDITS**a) Deferred Income Tax and Social Contribution:**

The Company has recorded Income Tax credits at the rate of 25.00%, and Social Contribution at the rate of 9.00%, as follows:

	Consolidated and Controlling Company	
	3/31/2008	12/31/2007 Restated
Tax Credits on Temporary Differences:		
Provision for Losses in Realization of Amounts Receivable from Free Energy	136,398	132,944
Retirement Obligations	12,851	12,236
Provision for PASEP/COFINS – Extraordinary Tariff Adjustment	1,187	1,187
Financial Instruments	34,418	33,098
Exchange Rate Variation	19,746	17,468
Contingencies	2,206	2,568
Asset Provision – Extraordinary Tariff Adjustment	14,858	17,516

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

Others	2,177	8,010
	223,841	225,027
Current Assets	164,938	172,111
Non-Current Assets	58,903	52,916

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

In a meeting held on March 6, 2008, the Board of Directors approved the technical study prepared by the Director of Finance, Investor Relations and Control of Participations regarding projection of future profitability adjusted to present value, which shows the capacity of realization of the deferred fiscal asset in a maximum period of 10 years, as defined in CVM Instruction No. 371. That study was also submitted to examination by the Audit Committee on March 6, 2008.

In conformance with Company estimates, future taxable profits allow realization of the deferred tax asset existing on March 31, 2008, as shown below:

	Consolidated and Controlling Company
2008	155,771
2009	36,788
2010	17,042
2011	5,393
2012	2,422
2013 to 2015	3,855
2016 to 2017	2,570
	223,841

b) Reconciliation of Income Tax and Social Contribution Expense;

Reconciliation of the nominal Income Tax expense (rate of 25%) and Social Contribution (rate of 9%) with the effective expense presented in the Income Statement, is as follows:

	Consolidated and Controlling Company	
	3/31/2008	3/31/2007 Restated
Earnings Before Income Tax and Social Contribution:	317,600	272,008
Income Tax and Social Contribution Nominal Expense	(107,984)	(92,482)
Taxes Levied on:		
Employee Profit-Sharing	1,672	1,722
Others	(641)	29
Income Tax and Social Contribution	(106,953)	(90,731)

8) INVESTMENTS

	Consolidated		Controlling Company	
	3/31/2008	12/31/2007	3/31/2008	12/31/2007
In Controlled Partnerships and Jointly Controlled Companies			17,150	17,150
Hidrelétrica Cachoeirão S.A.			9,608	9,608

Madeira Energia S.A.	1,010,228	1,002,340	1,010,228	1,002,340

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

In Consortiums	1,752	1,755	1,752	1,755
Others	1,011,980	1,004,095	1,038,758	1,030,873

123

Jointly controlled companies (Information regarding capacity MWh and projected investments -not reviewed by independent auditors):

Hidrelétrica Cachoeirão S.A.

Cemig Geração e Transmissão (participation of 49.00%) in partnership with Santa Maria Energética S.A. (participation of 51.00%) formed Hidrelétrica Cachoeirão S.A., a projected investment of R\$100 million, whose company purpose is to build, operate and develop the small hydroelectric plant Cachoeirão, commercializing electricity.

The plant is in the construction phase, with the projected start-up date for its activities in September 2008, and with installed capacity of 27 MW.

Guanhães Energia S.A.

Cemig Geração e Transmissão (participation of 49.00%) in partnership with Investminas Participações S.A. (participation of 51.00%) formed Guanhões Energia S.A., whose company purpose is generation and commercialization of electricity through the construction and development of the small hydroelectric plants of Dores de Guanhões, Senhora do Porto and Jacaré located on the Guanhões River and in the municipality of Dores de Guanhões, Minas Gerais, with installed capacity of 14 MW, 12 MW and 9 MW, respectively; and Fortuna II, located in the municipality of Virginópolis, Minas Gerais, with installed capacity of 9 MW.

The plants are in the construction phase, with the projected start-up date for their activities in 2009, and with total installed capacity of 44 MW.

Cemig Baguari Energia S.A.

Cemig Baguari Energia S.A. is a wholly owned subsidiary of Cemig, and its purpose is the production and commercialization of electricity through an independent production system through operations of the Baguari plant, with the start of operations in 2009. The Company expects to transfer the assets of the Baguari Consortium to this controlled company during fiscal year 2008.

Madeira Energia S.A.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

Cemig Geração e Transmissão (participation of 10.00%) in partnership with Fumas Centrais Elétricas S.A. (participation of 39.00%), Construtora Norberto Odebrecht S.A. (participation of 1.00%), Odebrecht Investimento em Infra-estrutura Ltda. (participation of 17.60%), Andrade Gutierrez Participações S.A. (participation of 12.40%) and Fundo de Investimento em Participações Amazônia Energia (participation of 20.00%), formed Madeira Energia S.A., whose company purpose is the construction, operation and development of the Santo Antônio plant located in the hydrographic basin of Rio Madeira in the state of Rondônia, with capacity of 3,150 MW and projected start of commercial operation in 2012.

Consortiums

The Company participates in consortiums of electricity generation concessions for which companies of an independent legal nature were not formed to manage the object of the mentioned concession, and control is maintained in the accounting ledgers of Cemig Geração e Transmissão of the specific parcel that is equal to the investments made, as follows:

	Participation in Energy Generated	Average Annual Depreciation Rate %	3/31/2008	12/31/2007
In service				
Porto Estrela Plant	33.33%	2.48	38,625	38,625
Igarapava Plant	14.50%	2.58	55,554	55,554
Funil Plant	49.00%	2.77	181,403	171,855
Queimado Plant	82.50%	2.45	193,599	193,599
Aimorés Plant	49.00%	2.50	512,946	512,946
Accumulated Depreciation			(90,540)	(83,681)
Total in Operation			891,587	888,898
Under Way				
Queimado Plant	82.50%		13,125	13,125
Funil Plant	49.00%		71	9,531
Aimorés Plant	49.00%		24,506	23,369
Baguari Plant	34.00%		80,939	67,417
Total under Construction			118,641	113,442
Total Consortiums			1,010,228	1,002,340

Depreciation of the assets that form the fixed asset of the consortiums is calculated using the straight-line method, based on rates established by ANEEL.

The main information on investments is as follows:

Jointly Controlled Company	Number of Shares	Participation (%)	At March 31, 2008	
			Integrated Company Capital	Net Equity
Hidrelétrica Cachoeirão S.A.	35,000,000	49.00	35,000	35,000
Guanhães Energia S. A.	52,000,000	49.00	19,608	19,608
Madeira Energia S.A.	100,000	10.00	100	100
Cemig Baguari Energia S.A.	1,000	100.00	10	10

Some of the Company's land and buildings, recorded as Fixed Assets - Administration, were given as guarantees in legal proceedings involving tax, labor and civil matters, and other contingencies in the amount, net of depreciation, of R\$1,017 on March 31, 2008 (R\$1,030 on December 31, 2007).

According to Articles 63 and 64 of Decree No. 41,019 of February 26, 1957, the assets and facilities used in generation and transmission are linked to those services and cannot be withdrawn, transferred, ceded or given as a mortgage guarantee without the prior express authorization of the Regulatory Entity. ANEEL Resolution No. 20/99 regulates the unbundling of concession assets in the public service of electricity, conceding prior authorization for the unbundling of assets that are not of use to the Concession when destined for transfer, determining that this product is deposited in a linked bank account and used in the concession.

Non-Current Liabilities	1,026	2,034

14) POST-EMPLOYMENT OBLIGATIONS

The Company is one of the sponsors of Fundação Forluminas de Seguridade Social - FORLUZ, a non-profit entity whose purpose is to provide its members, participants and their dependents with a complement to their retirement and pension, in conformance with the social security plan to which they are linked.

FORLUZ makes the following supplemental retirement benefit plans available to its participants:

Mixed Social Security Benefit Plan (Plano B) Defined contribution plan in the phase of resource accumulation of retirement benefits for normal time and defined benefit for coverage for disability and death of active participants, as well as receipt of benefits for time of contribution. Sponsor contribution is equal to the basic monthly contributions of the participants, and it is the only plan open to new members.

The contribution of Cemig Geração e Transmissão to this plan is 27.52% for the defined benefit parcel in relation to coverage for disability and death of active participants, and it is used for amortization of the defined obligations through actuarial calculation. The remaining 72.48% referring to the defined contribution plan is destined to nominal accounts of the participants, and they are recognized in the results of the year under the cash system in the line Personnel Expenses.

Closed Social Security Benefits Plan (Plan A) Includes all active participants and members who opted to migrate from the old defined benefit plan, being entitled to a proportional paid benefit. In the case of the assets, this benefit was deferred until the date of retirement.

Defined Benefit Plan Benefit plan used by FORLUZ until 1998 through which the real average salary of the last three years of activity of the employee in the Company is complemented in relation to the amount of the benefit from Official Social Security. After the process of migration, which occurred in June 2007, approved by the Secretary of Complementary Social Security - SPC, in which more than 80% of the participants migrated to Plans A and B, 51 participants remained in the Defined Benefit Plan. Of these, seven are active and 44 are retirees/pensioners. On December 31, 2007, 23 active members and 255 retirees/pensioners were enrolled in this plan.

Independent of the plans made available by FORLUZ, Cemig Geração e Transmissão also continues paying part of the life insurance premium for retirees, and it contributes to a health and dental plan for employees, retirees and dependents, administered by FORLUZ.

Amortization of Actuarial Obligations

Part of the actuarial obligation with retirement benefits in the amount of R\$237,835 on March 31, 2008 (R\$240,556 on December 31, 2007) was recognized as an obligation payable by the Company, and it will be amortized by June 2024, through monthly payments calculated by the constant installment system (Tabela Price). Part of the amounts are readjusted annually based on an actuarial index of the Defined Benefit Plan (salary readjustment index of the employees of Cemig Geração e Transmissão, excluding productivity), and for the Paid Plan, readjusted by the National Consumer Price Index - IPCA of the Brazilian Institute of Geography and Statistics - IBGE, adding 6% per year.

The technical surpluses that occurred for the consecutive three-year period may be used to reduce some of the obligations payable recognized by the Company, as set forth contractually.

As a function of what was stated in the previous paragraph regarding the surplus obtained during 2007, R\$20,245 will be used in the 2nd quarter of 2008 for amortization of recognized debt.

The liability and the expenses recognized by the Company in connection with the Retirement Complement Plan, Health Plan, and Life Insurance Plan are adjusted according to the terms of CVM Deliberation No. 371 and the opinion prepared by independent actuaries. Thus, financial restatement and use of the surplus for amortization of the obligation in the debt agreed to with FORLUZ, mentioned in the preceding paragraphs, did not produce accounting effects in the results of Cemig Geração e Transmissão. The last actuarial evaluation was done based on the database of December 31, 2007.

The movements that occurred in the net liabilities are the following:

	Consolidated and Controlling Company			
	Pension Plan and Retirement Supplement	Health Plan	Dental Plan	Life Insurance
Net Liabilities at December 31, 2007	111,046	70,307	3,099	91,718
Expense Recognized in the Result	6,122	3,236	147	2,499
Contributions Paid	(10,406)	(2,036)	(41)	(435)
Net Liabilities at March 31, 2008	106,762	71,507	3,205	93,782
Current Liabilities	18,059			
Non-Current Liabilities	88,703	71,507	3,205	93,782

15) PROVISIONS FOR CONTINGENCIES

The Company formed a provision for contingencies for the proceedings for which a loss is considered to be probable. Thus, the following are provisioned as of March 31, 2008: the amount of R\$164 (R\$2,099 on December 31, 2007) in relation to labor contingencies and the amount of R\$6,324 (R\$5,454 on December 31, 2007) in relation to environmental contingencies.

Environmental Administrative Process

Cemig Geração e Transmissão was sued by the Instituto Estadual de Florestas - IEF [State Forestry Institute], alleging that the Company did not adopt measures to protect ichthyologic fauna, causing fish die-offs due to machinery discharge and operation at the Três Marias hydroelectric plant. The Company presented its defense and believes that the risk of losing this proceeding is probable, in the amount of R\$ 6,324, which has been duly provisioned.

Proceedings with possible risk of loss:

Additionally there are labor, civil and tax proceedings under way whose loss was estimated as being possible, periodically re-evaluated, or not requiring formation of a provision in the financial statements, shown below:

Social Security and Tax Obligations Payment of Annual Bonus

Cemig Geração e Transmissão made a payment to employees during fiscal year 2006 in the amount of R\$41,660 in exchange for the right related to future annual bonuses that would be incorporated into the salaries. The Company did not collect Income Tax and Social Security Contributions on this amount, as it considers these obligations not incident on indemnity payment amounts. However, to avoid the risk of a possible fine in the future as a function of an interpretation that diverges from that of the Federal Government and the INSS, the Company decided to petition for a court injunction that allowed a judicial deposit in the amount of the potential obligations on this money, in the amount of R\$ 28,716, recorded in the line Deposits Linked to Litigation. No provision was formed for possible losses regarding this matter. The Company believes that the risk of loss in this case is possible.

16) NET EQUITY

Change in Shareholders Equity:

	Consolidated and Controlling Company
Amount on December 31, 2007	2,988,263
Earnings in the Quarter	205,728

(*) Includes Energy Commercialization Contracts in the Regulated Environment CCEAR, and bilateral contracts with other agents.

18) REVENUES FROM NETWORK USE

These revenues refer to the tariff charged electricity sector agents, including free consumers connected to the high voltage network, for use of the basic transmission network owned by the Company, associated with the interconnected Brazilian system. The amounts to be received are recorded in assets in the line Concession Holders Energy Transmission.

19) DEDUCTIONS TO OPERATING REVENUES

Programa Prêmio de Desligamento – PPD

On March 11, 2008, the Programa Prêmio Desligamento – PPD, a Retirement Program, was approved by the Executive Directors to be a permanent program, and freely and spontaneously applicable to terminations of labor contracts as of that date. Among the main financial incentives of the Program are payment of three gross remunerations and six months of contributions to the health plan after leaving the Company, the deposit of a fine of 40% on the FGTS amount for cancellation purposes, and payment of up to 24 months of contributions to the Pension Fund and the INSS after leaving the Company, in conformance with certain criteria established in the PPD regulation.

For employees 55 years of age and with 35 years of service if male, or 30 years of service if female, the Program's financial incentives are only assured if the Program is enrolled in within a maximum of 90 days after the date of meeting the criteria of age and time of service mentioned.

On March 31, 2008, the PPD already had 23 employees enrolled, and a provision for the financial incentives was formed in the amount of R\$2,078.

The main conditions related to business between related parties are shown below:

- (1) The Company has energy purchase contracts of Cemig Geração e Transmissão and Light Energia from the public auction for existing energy that took place in 2005, with a maturity of eight years as of the start of supply;
- (2) Private Issue of Simple Debentures not convertible into shares in the amount of R\$120,000 million, restated by the General Price Index Market - IGP-M, for conclusion of the Irapé hydroelectric plant, with redemption 25 years after the date of issue.
- (3) Part of the FORLUZ contracts are readjusted by the National Consumer Price Index - IPCA of the Brazilian Institute of Geography and Statistics - IBGE, and part are readjusted based on the Employee Salary Readjustment Index, excluding productivity, plus 6% per year. See explanatory note No. 14.

The Company has energy sale contracts for Cemig Distribuição and Light S.A. in the period from 2006 to 2013 from the public auction for existing energy that occurred in 2005. It must be noted that the contracts with the mentioned companies were only signed after conclusion of the auction, in a process coordinated by the CCEE.

For more information regarding the main transactions that occurred, see Explanatory Notes 6, 11, 12, 14, 17, 19 and 21.

23) FINANCIAL INSTRUMENTS

The Company's financial instruments are restricted to Cash and Cash Equivalents, Consumers and Resellers, Loans and Financing, Obligations with Debentures and currency swaps, and the gains and losses that occur in the operations are fully recorded as per the accrual method.

The derivative instruments contracted by the Company are intended to protect the operations of Cemig Geração e Transmissão against the risks arising from exchange rate variations, and they are not used for speculative purposes.

The amounts of the principal from derivative operations are not recorded on the balance sheet as they refer to operations that do not require the transfer of the complete cash amount, but only the gains or losses accrued or incurred. The net results of these operations represent gains from January to March 2008, and losses from January to March 2007 in the amounts of R\$2,656 and R\$10,166, respectively, recorded in the financial results.

Recognition of the net result not realized in derivative instruments operations is done using the accrual basis, which may generate differences when compared with the estimated market value of those instruments. This difference is due to the fact that the market value recognizes the present value of the future gains or losses to be incurred in the operations, in accordance with the market's expectation at the time at which the amount is reported.

The following table presents the derivative instruments contracted by the Company, the unrealized losses recorded, and the respective estimated market value of these instruments on March 31, 2008:

Right of Cemig Geração e Transmissão S.A.	Obligation of Cemig Geração Transmissão	Maturity Period	Principal Amount Contracted - Thousands	Unrealized Loss	
				Accounting Value	Estimated Market Value
US\$ Exchange rate variation + rate (5.58% per year to 7.48% per year)	R\$ 100% of the CDI + rate(2.98% per year to 3.01% per year)	From 04/2008 until 11/2009	US\$6,860	(19,556)	(20,718)

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

At the Start of the Year	916,288	687,814	907,116	687,814
At the End of the Year	976,326	863,633	967,753	861,309
	60,038	175,819	60,637	173,495

ECONOMIC AND FINANCIAL PERFORMANCE CONSOLIDATED(amounts stated in thousands of *reais*, unless otherwise indicated)*Income in the Period*

In the first quarter of 2008, Cemig Geração e Transmissão reported net income of R\$205,728, compared with net income of R\$176,211 in the first quarter of 2007, an increase of 16.75%. This result is mainly due to the 21.41% increase in revenues from gross electricity supply.

EBITDA (methodology of calculation not reviewed by independent auditors)

The EBITDA of Cemig Geração e Transmissão showed a significant increase in the first quarter of 2008 over the first quarter of 2007, as shown in the following table.

EBITDA R\$ thousands	3/31/2008	3/31/2007 Restated	Var %
Net Income	205,728	176,211	16.75
+ Current and Deferred Income Tax and Social Contribution Expense	106,953	90,731	17.88
+ Employee and Manager Profit-Sharing	4,919	5,066	(2.90)
+ - Non-Operating Result	7,847	(5,476)	
+ Financial Result	79,686	69,062	15.38
+ Amortization and Depreciation	56,345	55,604	1.33
= EBITDA	461,478	391,198	17.97

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

Growth of EBITDA in the first quarter of 2008 in comparison with the first quarter of 2007 is mainly due to the 16.28% increase in net revenues, partially offset by the 12.92% increase in operating expenses (excluding the effects of expenses for depreciation and amortization). The better performance in 2008 was reflected in the EBITDA margin, which went from 66.62% in 2007, to 67.59% in 2008.

Gross Electricity Supply

Revenues from gross electricity supply were R\$721,201 in the first quarter of 2008, compared with R\$594,026 in the first quarter of 2007, an increase of 21.41%. This result is mainly due to an increase of 7.66% in the volume of energy sold to final consumers, and the increase in the average sales tariff due to the scarcity of energy supply.

Supply to industrial consumers was 4,492,919 MWh in the first quarter of 2008, compared to 4,173,200 MWh in the first quarter of 2007. This increase is mainly due to improved industrial activity in 2008.

Revenues from energy sold to other concession holders and bilateral contracts were R\$240,825 in the first quarter of 2008, compared to R\$ 218,624 in the first quarter of 2007, an increase of 10.15%. This result is basically due to the increased energy price once the quantity negotiated dropped 15.23%, which was mainly a function of scarce energy supply due to the lower volume of rain in 2008. The energy sold to other concession holders and bilateral contracts was 2,979,831 MWh in the first quarter of 2008, compared to 3,515,119 MWh in the first quarter of 2007.

The greatest impact in the reduction of volume of energy negotiated was in sales to commercializers, which showed a reduction of 48.6% in the first quarter of 2008, compared to the first quarter of 2007. This reduction was a result of directing energy to other segments and closing some contracts at the end of 2007, due to lower availability for short-term sales in 2008.

As a result of the lower availability of energy in the first quarter of 2008 due to the lower volume of rain, the Price for Payment of Differences PLD, shot up to R\$569.59/MWh in January 2008. The average supply tariff was R\$62.20/MWh in the first quarter of 2007, rising to R\$80.82/MWh, an increase of 29.94%.

Revenues from network use

These revenues essentially refer to use of the installations that comprise CEMIG's basic transmission network by electricity generators and distributors that form part of the Brazilian interconnected system, in conformance with the amounts defined through an ANEEL Resolution. These revenues increased 6.69% in the first quarter of 2008 compared to the first quarter of 2007.

Deductions to operating revenues

Deductions to operating revenues were R\$195,289 in the first quarter of 2008, compared to R\$151,454 in the first quarter of 2007, an increase of 28.94%. The main variations in deductions to revenues are the following:

Fuel Consumption Account - CCC

Deductions to CCC revenues were R\$7,127 in the first quarter of 2008, compared to R\$12,328 in the first quarter of 2007, a reduction of 42.19%. This refers to the costs of operating thermal and isolated plants in the Brazilian interconnected system, which costs are pro-rated among the electricity concession holders through an ANEEL Resolution. Cemig Geração e Transmissão just passes this cost through to Eletrobrás once the amount of the CCC is charged to free consumers in the invoice for use of the basic network.

Energy Development Account - CDE

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

Deductions to CDE revenues were R\$8,177 in the first quarter of 2008, compared to R\$7,395 in the first quarter of 2007, a reduction of 10.57%. The payments are defined through an ANEEL Resolution. Cemig Geração e Transmissão just passes this cost through to Eletrobrás once the amount of the CDE is charged to free consumers in the invoice for use of the basic network.

Global Reversion Reserve - RGR

Deductions to RGR revenues were R\$21,499 in the first quarter of 2008, compared to R\$16,000 in the first quarter of 2007, a reduction of 34.37%. This is a non-manageable cost, and the increase is due to higher revenues based on calculation of the mentioned charge in 2008.

The other deductions to revenues refer to taxes calculated based on the percentage of billing, therefore its variations are substantially due to evolution of the revenues.

Operating costs and expenses (excluding the financial result)

Operating costs and expenses (excluding the financial result) were R\$277,640 in the first quarter of 2008, compared to R\$251,577 in the first quarter of 2007, an increase of 10.36%. For more information regarding the composition of operating costs and expenses, see Explanatory Note No. 20 in the Quarterly Information.

The main variations in expenses are described below:

Personnel

Personnel expenses in the first quarter of 2008 were R\$64,219, compared to R\$55,116 in the first quarter of 2007, an increase of 16.52%. This result is mainly due to the following:

- Salary adjustment of 5.00% given to the employees in November 2007;
- Provision related to the Programa Prêmio de Desligamento - PPD in the amount of R\$2,078 in the first quarter of 2008; and
- Lower transfer of personnel costs to works in progress (R\$2,925 in 2008 and R\$4,694 in 2007), considering the lower investment program in 2008.

Retirement Obligations

Retirement obligations were R\$12,004 in the first quarter of 2008, compared to R\$5,746 in the first quarter of 2007, an increase of 108.91%. This expense basically represents the interest on the actuarial obligations of Cemig Geração e Transmissão, net of the yield expected from the plan assets, estimated by an external actuary. The higher expense in 2008 is due to an adjustment in actuarial assumptions in December 2007, with the reduction of the interest rates.

Charges for Use of the Transmission Network

Expenses for charges for use of the transmission network were R\$64,437 in the first quarter of 2008, compared to R\$61,964 in the first quarter of 2007, an increase of 3.99%. This expense refers to the charges due by electricity distribution and generation agents for use of the installations and components of the basic network, as defined by an ANEEL Resolution. The increase in the expense is mainly due to the average adjustment of 3.5% in the TUST and TUSD in June 2007.

Raw Materials and Inputs for Energy Production

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

This expense was R\$21,785 in the first quarter of 2008 and is due to the purchase of fuel for the Igarapé plant, which began operating due to the low level of water in the reservoirs, which was a consequence of the low volume of rain.

Third-Party Services

The expense for third-party services was R\$16,945 in the first quarter of 2008, compared to R\$18,512 in the first quarter of 2007, an increase of 8.46%. The list of third-party services is shown in Explanatory Note No. 20 of the Quarterly Information.

Other Operating Expenses

The other operating expenses were R\$8,773 in the first quarter of 2008, compared to R\$15,835 in the first quarter of 2007, an increase of 44.60%. This variation is basically due to recovery of expenses in fiscal year 2007 and recorded in 2008, in the amount of R\$8,982.

Financial Revenues (Expenses)

The financial result corresponds to a net financial expense of R\$79,686 in the first quarter of 2008, compared to a net financial expense of R\$69,062 in the first quarter of 2007, an increase of 15.38%. The items that comprise the financial result and that present the most significant variations are listed below:

- Reduction of 13.98% in loan and financing charges in the amount of R\$13,123, due to the lower CDI variation (contract index) in the first quarter of 2008, compared to the same period of 2007.
- Net loss from exchange rate variation in the first quarter of 2008 in the amount of R\$6,704, in comparison to a net gain of R\$6,752 in the first quarter of 2007, basically due to loans and financing in foreign currency. The exchange rate loss in 2008 is mainly due to the variation in the Japanese yen, which appreciated 10.78% in the first quarter of 2008, compared to a devaluation of 3.10% in the first quarter of 2007. In counterpart, the North American dollar devalued in the two periods compared; 1.25% in the first quarter of 2008 and 4.10% in the first quarter of 2007, which contributed to a reduction in the exchange rate loss.
- Net gain from financial instruments in the first quarter of 2008 in the amount of R\$2,656, in comparison with the net loss of R\$10,166 in the same period of 2007. This result is mainly due to the variation of the indexes mentioned in the previous item, considering that the Company performed swap operations for part of the debt in foreign currency with substitution of the variation of the contract index, from foreign currency to the CDI.

For more information regarding the composition of financial revenues and expenses, see Explanatory Note No. 21 in the Quarterly Information.

Income Tax and Social Contribution

In the first quarter of 2008, Cemig Geração e Transmissão reported Income Tax and Social Contribution expenses in the amount of R\$106,953 in relation to income of R\$317,600 before taxes, at a rate of 33.68%. In the first quarter of 2007, the Company reported Income Tax and Social Contribution expenses in the amount of R\$90,731 in relation to income of R\$272,008 before taxes, at a rate of 33.36%. The effective rates are reconciled with the nominal rates in Explanatory Note No. 7 of the Quarterly Information.

REPORT OF REVIEW BY INDEPENDENT AUDITORS

To

The Board of Directors

Cemig Geração e Transmissão S.A.

Belo Horizonte, Minas Gerais

1. We have examined the accounting information contained in the individual and consolidated Quarterly Information (ITR) of Cemig Geração e Transmissão S.A. for the quarter ending March 31, 2008, consisting of the balance sheet, income statement and statement of cash flows, the report on performance and explanatory notes. These were prepared under the responsibility of the Company's management.

2. Our review was conducted in accordance with the rules established by Ibracon – the Brazilian Institute of Independent Auditors, in conjunction with the Federal Accounting Council, and principally comprised: (a) questioning of and discussion with the managers responsible for the accounting, financial and operational areas of the Company and its subsidiaries, in relation to the principal criteria adopted in preparation of the Quarterly Information; and (b) review of such information and subsequent events as may have or come to have material effects on the financial situation and the operations of the company and its subsidiaries.

3. Based on our examination, we are not aware of any material change which should be made to the accounting information contained in the Quarterly Information referred to above, for it to be in accordance with the rules issued by the CVM (Comissão de Valores Mobiliários), applicable to preparation of Quarterly Information, including CVM Instruction 469/08.

4. As mentioned in Explanatory Note 2, Law 11638 of December 28, 2007 came into force on January 1, 2008. This law changed, repealed and introduced new provisions in Law 6404/76 (the Corporate Law) and changed the accounting practices adopted in Brazil. Although this law has already come into force, some changes introduced by it are still awaiting normalizing rules to be made by the regulatory bodies before they are to be adopted by companies. For this reason, in this transition phase, the CVM, through CVM Instruction 469/08, made immediate application of the provisions of Law 11638/07 in preparation of the Quarterly Information (ITR) optional. Hence, the accounting information contained in the Quarterly Information for the quarter ended March 31, 2008 was prepared in accordance with specific instructions of the CVM and does not include the changes in accounting practices introduced by Law 11638/07.

5. As described in Explanatory Notes 5 and 10, Cemig Geração e Transmissão S.A. has assets and liabilities registered in relation to transactions for sale and purchase of electricity, and other transactions, in the Electricity Sale Chamber – CCEE (previously, MAE). These amounts were recorded on the basis of calculations prepared and published by the CCEE for transactions carried out up to March 31, 2008, and these calculations may be changed as a result of decisions in legal actions currently in progress, brought by companies in the sector, in relation to interpretation of the rules of the wholesale energy market that were in force at the time of the said transactions.

6. The Quarterly Information (ITR) of Cemig Geração e Transmissão S.A. and the consolidated ITR of that Company and its subsidiaries for the quarter ended March 31, 2007, presented for comparison, were examined by other auditors, who issued a report on them,

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

without qualification, dated May 8, 2008, containing paragraphs of emphasis in relation to the subject referred to in paragraph 5 above and in relation to the expiry of the concessions for electricity generation of the Emborcação, Nova Ponte, Pandeiros, Rio das Pedras, Poço Fundo, São Bernardo, Xicão, Luiz Dias and Santa Luzia hydroelectric plants. On June 14, 2007 the Mining and Energy Ministry (MME) renewed the period of concession of these plants for a period of 20 years from the date of expiry of each concession contract, and signature of the contracts for renewal of the concessions is expected to take place in the first half of 2008.
