Item 8.01 Other Events.

On September 20, 2011, Iron Mountain Incorporated, or the Company, announced that it priced an underwritten public offering of \$400.0 million in aggregate principal amount of 7-3/4% Senior Subordinated Notes due 2019, or the Notes. The Notes will be sold at 100.0% of par. The net proceeds to the Company from the offering of the Notes are expected to be \$393.7 million, after paying the underwriters' discounts and commissions and estimated expenses. The Company intends to use the net proceeds from this offering for general corporate purposes, including funding a portion of the shareholder payout commitments we have made and possible future acquisitions and investments.

The following table sets forth our consolidated ratio of earnings to fixed charges for the periods indicated on an actual basis and on a pro forma basis, adjusted to give effect to the Company's proposed sale of the Notes as if it occurred on January 1, 2010:

	Year Ended December 31, 2010	Six Months Ended June 30, 2011
Actual Ratio of Earnings to Fixed Charges	2.2x	2.4x
Pro Forma Ratio of Earnings to Fixed Charges	2.0x	2.1x

The ratios of earnings to fixed charges presented above were computed by dividing our earnings by fixed charges (including for the pro forma ratio, giving effect to the sale of the Notes). For this purpose, earnings have been calculated by adding fixed charges to income from continuing operations before provision for income taxes. Fixed charges consist of interest expense, net and the interest portion of rent expense, but does not include interest expense related to uncertain tax positions.

This Current Report on Form 8-K shall not constitute an offer to sell or the solicitation of an offer to buy securities, nor shall there be any sale of these securities in any state or other jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state or jurisdiction.
