SUMMARY OF MINUTES

OF THE 541st MEETING

Date, time and place: August 1, 2012 at 8.30 a.m. at the company's head office,
Av. Barbacena 1200, 21st Floor, Belo Horizonte, Minas Gerais, Brazil.

Meeting Committee: Chair: Dorothea Fonseca Furquim Werneck;
Secretary: Alexandre de Queiroz Rodrigues

Summary of proceedings:

I **Conflict of interest:** The Chair asked the Board Members present whether they had any conflict of interest in the matters on the agenda of this meeting, and all said there was no such conflict of interest.

II **The Board approved:**

a) The proposal, by the Chair, that Mr. Fuad Jorge Noman Filho should not be Chief Officer for the Gas Division; and to elect, on an interim basis, as **Chief Officer of the Gas Division:**

Mr. João Luiz Senra de Vilhena

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

Brazilian, married, economist, resident and domiciled in Belo Horizonte, Minas Gerais, at Rua Espírito Santo 1996/1102, Lourdes, CEP 30160-032, bearer of Identity Card 50289-SSPMG and CPF 221805916-91,

to complete the same period of office as remains for the other Chief Officers, that is to say, until the first meeting of the Board of Directors held after the Annual General Meeting of 2015.

b) The proposal by the Chair, that the members of the Board of Directors should authorize her to call an Extraordinary General Meeting of Stockholders, to be held on August 29, 2012, at 11 a.m., to change the composition of the Board of Directors, and in the event of there not being a quorum, to make second convocation of stockholders within the legal period.

c) The minutes of this meeting.

III The Board authorized:

a) Giving of a surety guarantee, without joint liability, limited to 7.28% of the total value (to be up to R\$ 1 billion) of the issue of Promissory Notes to be made by Norte Energia S.A., with tenor of six months, interest rate equivalent to 109% of accumulated application of the Interbank CD (CDI) Rate, structuring fee of 0.33% of the total amount of the issue, and amortization at maturity. Said percentage represents the proportionate indirect holding of Cemig GT in the share capital of Norte Energia S.A.

b) Signature by Cemig GT of a private instrument to constitute a consortium, with:

Eletrobrás,	Electricité de France S.A.,	Construções e Comércio Camargo Corrêa S.A.,
Eletronorte,	Endesa Brasil S.A.,	Copel Geração e Transmissão S.A.,
Neoenergia Investimentos S.A., and		GDF Suez Energy Latin America Participações Ltda.,

for development of studies relating to the hydroelectric potential of the Tapajós Complex.

IV The Board submitted to the Extraordinary General Meeting of Stockholders a proposal that the representatives of Cemig at the Extraordinary General Meetings of Stockholders of **Cemig D** and **Cemig GT**, to be held on August 29, 2012, should vote in favor of alteration of the composition of the Board of Directors, if there is a change in the composition of the Board of Directors of Cemig.

V The Board appointed Mr. João Luiz Senra de Vilhena as **Chief Executive Officer** of **Gasmig**, on an interim basis, to serve the rest of the current period of office of that appointment, that is to say until the first meeting of the Board of Directors held after the Annual General Meeting of 2014, or until his successor, duly elected, is sworn in.

VI Executive Board: The Chairman stated that the members of the Executive Board are now as follows:

CEO:	Djalma Bastos de Moraes;
Deputy CEO:	Arlindo Porto Neto;
Chief Trading Officer:	José Raimundo Dias Fonseca;
Chief New Business Development Officer:	Fernando Henrique Schüffner Neto;
Chief Corporate Management Officer:	Frederico Pacheco de Medeiros;
Chief Distribution and Sales Officer:	José Carlos de Mattos;
Chief Finance and Investor Relations Officer:	Luiz Fernando Rolla;
Chief Counsel:	Maria Celeste Moraes Guimarães;
Chief Generation and Transmission Officer:	Luiz Henrique de Castro Carvalho;
Chief Institutional Relations and Communication Officer:	Luiz Henrique Michalick;
Chief Officer for the Gas Division:	João Luiz Senra de Vilhena.

VII Declaration by incoming Officer: The Chief Officer elected declared in advance that he is not subject to any prohibition on exercise of commercial activity, that he does not occupy any post in any company that could be considered a competitor of the Company, and that he does not have nor represent any interest conflicting with that of Cemig, and assumed a solemn undertaking to become aware of, obey and comply with the principles, ethical values and rules established by the Code of Ethical Conduct of Government Workers and Senior Administration of the State of Minas Gerais.

VIII The Chair spoke on general matters and business of interest to the Company.

The following were present:

Board members: Dorothea Fonseca Furquim Werneck, Adriano Magalhães Chaves,
Djalma Bastos de Moraes, José Augusto Gomes Campos,
Antônio Adriano Silva, Newton Brandão Ferraz Ramos,

EXTRAORDINARY GENERAL MEETING OF STOCKHOLDERS

CONVOCATION

Stockholders are hereby called to an Extraordinary General Meeting of Stockholders to be held on August 29, 2012 at 11 a.m. at the company's head office, Av. Barbacena 1200, 21st floor, in the city of Belo Horizonte, Minas Gerais, Brazil, to decide on the following matters:

- a) Change in the composition of the Board of Directors, as a result of resignation.

- b) Orientation of the vote of the representatives of Cemig (Companhia Energética de Minas Gerais) in the Extraordinary General Meetings of Stockholders of Cemig D (Cemig Distribuição S.A.) and of Cemig GT (Cemig Geração e Transmissão S.A.) to be held on the same day as this meeting, if there is a change in the composition of the Board of Directors of Cemig.

Multiple voting system: Under Article 3 of CVM Instruction 165 of December 11, 1991, adoption of the multiple voting system for election of members of the company's Board requires the vote of stockholders representing a minimum percentage of 5% (five per cent) of the voting stock.

Proxy votes: Any stockholder who wishes to be represented by proxy at the said General Meeting of Stockholders should obey the terms of Article 126 of Law 6406 of 1976, as amended, and of the sole paragraph of Clause 9 of the Company's by-laws, by exhibiting at the time, or depositing, preferably by August 27, 2012, proofs of ownership of the shares, issued by a depositary financial institution, and a power of attorney with specific powers, at Cemig's Corporate Executive Secretariat Office (*Superintendência da Secretaria Geral e Executiva Empresarial*) at Av. Barbacena, 1200 - 19th Floor, B1 Wing, Belo Horizonte, Minas Gerais.

PROPOSAL
BY THE BOARD OF DIRECTORS
TO THE
EXTRAORDINARY GENERAL MEETING OF STOCKHOLDERS
TO BE HELD ON
AUGUST 29, 2012

Dear Stockholders:

The Board of Directors of Companhia Energética de Minas Gerais (Cemig),

• **WHEREAS:**

- a) an Extraordinary General Meeting of Stockholders of Cemig will be held to change the composition of the Board of Directors;

- b) Clause 11, Paragraph 1, of Cemig's by-laws states:

The structure and composition of the Board of Directors and of the Executive Board of the Company shall be identical in the wholly-owned subsidiaries Cemig Distribuição S.A and Cemig Geração e Transmissão S.A., with the exception that only the subsidiary Cemig Distribuição S.A shall have a Chief Energy Distribution and Sales Officer and the respective Department, and only the subsidiary Cemig Geração e Transmissão S.A. shall have a Chief Energy Generation and Transmission Officer and the respective Department. ;

- c) Clause 8 of the by-laws of Cemig D and of Cemig GT states:

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

The Company's Board of Directors shall be made up of 14 (fourteen) members and an equal number of substitute members. One of the members shall be its Chairman and another its Vice-Chairman, all being elected and subject to dismissal at any time by the General Meeting of Stockholders, for a period of office of 3 (three) years, and able to be reelected.

§ 1 The members of the Board of Directors must, obligatorily, be the same members of the Board of Directors of the sole stockholder, Cemig. ;

• *hereby now proposes to you:*

that orientation should be given to the representatives of Cemig in the Extraordinary General Meetings of Stockholders of Cemig Distribuição S.A. (Cemig D) and Cemig Geração e Transmissão S.A. (Cemig GT), to be held on the same day for which the EGM of Cemig is called, to vote in favor of the alteration of the composition of the Boards of Directors of those companies, if there is a change in the composition of the Board of Directors of Cemig.

From the CEO and CFO

Cemig's CEO, Mr. Djalma Bastos de Moraes, comments:

With a diversified portfolio of businesses, Cemig proves its high capacity for generation of cash and addition of value for shareholders, validating the correctness nature of the Company's Long-term Strategic Plan. Its operational efficiency and great financial discipline ensure success in the execution of these projects, earning for Cemig the status of leading consolidator of the Brazilian power industry.

Cemig's Chief Financial Officer, Luiz Fernando Rolla, says:

In this second quarter our Company has continued to provide consistent, robust cash flow, as a result of our operations that continually to add value for our shareholders. Our Ebitda in the quarter is a record R\$ 1.4 billion, up 14% year-on-year, benefiting from our policy of maintaining high levels of operational efficiency. This excellence is reflected in our net income, of R\$ 604mn in the period, 15% more than in the second quarter of 2011. This new level of results reflects the correctness of our strategy of growth through acquisitions and new projects, within the process of consolidation of the sector. Our solid cash position of R\$ 2.3 billion provides the possibility for execution of our Long-term Strategic Plan, guaranteeing not only our policies of dividends and debt management, but also the execution of planned investments, including those associated with acquisition opportunities. The excellent results that we now present show that we continue to add value, in a continuous and sustainable manner, for all our

shareholders and indeed stakeholders. Initially, on the next page, we give the headline items of the 2Q12 figures:

Highlights of second quarter 2012

- Cash flow, measured by Ebitda, of **R\$ 1.4 billion** in 2Q12, **14.0%** higher than in 2Q11.
- Net income **16.0%** higher year-on-year in 2Q12, at the significant figure of **R\$ 604 million**.
- Net revenues of **R\$ 4.4 billion** in 2Q12, up **16.0%** from 2Q11.

Table of Contents

The Brazilian economic context

The IMF is indicating expectations for global growth of 3.5% in 2012 and 3.9% in 2013. The slower recovery in the United States, and the debt crisis in Europe, have had a negative effect. Forecast growth rates for the United States are 2.0% for 2012 and 2.3% for 2013 and for the Eurozone, contraction is expected, of 0.5% in 2012, and 0.7% in 2013. For the emerging economies, the main challenge is dealing with weaker total international trade and increased volatility in the capital markets. Growth of Chinese GDP in 2012, in the context of slowing growth rates globally, is expected to be 8.0%.

Brazil continues to hold a highlight position in the context of the international uncertainty and caution. Its public debt as a percentage of GDP has been contracting since 2003, and is now 37%. This level continues to fall, while the debt indicators of mature economies, in the world context, are high and growing.

The Central Bank's *Focus Report* of July 30, 2012 gives a forecast of 4.98% inflation, as measured by the IPCA index(1). With prices under control, it became possible to reduce the basic interest rate – the Selic Rate – to a historic low of 8.0% p.a., a level that still allows the monetary authority broad scope for further expansionary measures.

Also, Brazil now has record levels of international reserves – close to US\$ 375 billion – which makes the country now a net external creditor, with high liquidity in US dollars. With the confidence of foreign investors, the Brazilian economy continues to receive high levels of direct investment (approximately 2.5% of GDP in the first half of 2012). These investments, with good expected returns in the medium and long term, show the optimistic outlook of the investor market on Brazil's future.

With the fiscal and monetary stimulus measures, GDP growth is expected to increase in the second half of 2012, to a peak of around 4.5%, annualized, starting in the first quarter of 2013. The Central Bank's expectation

(1) Expanded National Consumer Price Index.

Table of Contents

for GDP growth in 2012 is 1.9%(2).

This level of growth outlook is corroborated by an average monthly wage of R\$ 1,725.60, representing real growth of 5% from May 2011 to May 2012. It has contributed to the low level of unemployment, currently at a historic low of 5.8% of the economically active population. This indicator has been persistently lower than corresponding indicators in the majority of the mature economies.

A highlight in this context is Brazil's robust financial system, with rigid rules controlling capitalization of banks, and low exposure risk, providing the possibility of sustainable economic growth for the country over the long term. Brazilian banks' capital reserves are currently at an average level of around 16%, higher than the 11% required by the Brazilian legislation, and the 8% level set for the Basle III Index.

In this context Brazil's lending sector continues to expand, enabling growth of a major consumer market, while default continues to be at acceptable levels.

Minas Gerais is the Brazilian state in which Cemig has its largest presence, and has grown faster than the rest of the country. In the first quarter of 2012 the year-on-year growth of its economy was 2.1%, compared to 0.8% for Brazil as a whole. Similarly, the state's unemployment rate is one of the Brazil's lowest, at 4.8% of the economically active population in May 2012, and continues to fall. The State of Minas Gerais was recently given the top rating (AAA) on the Brazilian scale by the risk rating agency Standard & Poor's – another contribution to the state's image as a leader in the nation. In the world context, the state's ratings give a solid situation and financial liquidity.

(2) Brazilian Central Bank *Focus Report*, July 30, 2012.

Table of Contents

Total Brazilian electricity consumption in the second quarter of 2012 was 111,531,759 GWh, 4.45% more than in 2Q11. Consumption increased in all consumer categories, led by commerce, in which consumption was up 8.54% year-on-year. Residential consumption grew 6.52%, and industrial consumption 0.38% with growth in the other consumer categories reported as 8.13%.

Brazilian electricity consumption, GWh

	2Q12	2Q11	%
Total	111,531,759	106,778,304	4.45
Residential	29,019,542	27,242,323	6.52
Industrial	46,149,606	45,976,145	0.38
Commercial	19,557,253	18,018,459	8.54
Other	16,805,358	15,541,377	8.13

Source: Brazilion Mining and Energy Ministry. Compilation: Cemig.

For continued economic growth, the Brazilian federal government has been investing in infrastructure through its Second Accelerated Growth Program (PAC 2), which aims to see R\$ 1.1 trillion allocated in electricity: R\$ 461.6bn by 2014, and R\$ 626.9bn after 2014. Plans are in progress for 76 new plants, to add 26,252 MW to Brazil's total generation capacity; and 29 transmission lines and 19 substations are in the process of construction under the program.

R\$ 55.1 billion has been invested in energy under the PAC 2 in electricity generation and transmission, oil and natural gas exploration, refining and petrochemicals, revitalization of the ship building industry and collection, storage and transport of renewable fuels.

According to the Energy Research Company (EPE) of the Mining and Energy Ministry, Brazilian energy consumption has grown faster than the country's overall growth rate as the elasticities in this chart indicate. Current plans and outlook now indicate a more sustainable ratio of electricity consumption growth to GDP in the period of 2011 through 2021. Total Brazilian electricity consumption is expected to grow at 4.5% over this period, to 736,000 GWh at the end of 2021(3).

(3) Forecasts by EPE and Mining and Energy Ministry.

Table of Contents**Appreciation in Cemig's share prices**

Share	Ticker	Currency	Close of June 2012	Close of March 2012	Change in period

IEEX	IEEX		35.415	35.281	0.38%

Sources: *Economática, Latibex.*

Brazil's leading stock index, the Ibovespa, has varied in response to the uncertain worldwide economic context, with a significant contraction of 15.74% in 2Q12. In this context, however, Cemig's preferred share (CMIG4) and common share (CMIG3) were once again outstanding, with gains of 11.96% and 9.90% respectively, in the quarter – also exceeding the Brazilian Electricity Stock Index (IEEX), which rose 0.38% in the quarter.

This significant performance by Cemig's shares in this quarter reflects the reputation that Cemig has won by addition of value for its shareholders – which is also evidenced by its strong policy of distribution of dividends. In April 2012 Cemig approved payment to shareholders of 53.58% of the net income for 2011 – a total of R\$ 1.294 billion in dividends. This will be paid in two installments, and represents a dividend yield of 4.4% for the PN shares and 5.5% for the ON shares(4).

(4) Based on stock prices on May 18, 2012.

Cemig's consolidated electricity market

The figures we report for Cemig's market include the sale of electricity by: **Cemig D, Cemig GT** consolidated (Cemig GT plus its proportionate holdings in *Cachoeirão, Pipoca* and the *Parajuru, Morgado* and *Volta do Rio* wind farms); the subsidiaries and affiliates (*Horizontes, Ipatinga, Sá Carvalho, Barreiro, Cemig PCH, Rosal* and *Capim Branco*); and **Light** (in proportion to Cemig's holding).

This includes: sales of electricity to both captive and free consumers, in the concession area of Minas Gerais and outside that state; the sales of electricity to other agents of the electricity sector in the Free and Regulated Markets; the sales under the Proinfa program to encourage alternative electricity sources; and the sales on the CCEE (the wholesale market) eliminating transactions between companies of the Cemig group.

Electricity consumption in Cemig's concession area in 2Q12 was 4.91% higher than in 2Q11. This reflects the constant increase in Cemig's total number of clients to a total of 11,489,000 consumers at the end of 2Q12, 1.7% more than in 2Q11. Of this total, Cemig D serves 7.4 million, an increase of 3.3% in 12 months; Light serves 4.1 million, a decrease of 1.0% in 12 months; Cemig GT has 337 clients, 18.7% more than at the end of 2Q11; and the subsidiary and affiliate companies have 21 clients.

This growth can be seen in detail in the separate consumer categories, as follows:

Table of Contents

Residential:

Residential consumption represented 16.8% of the total electricity sold by Cemig in 2Q12. The growth of 8.4% over 12 months is associated with connection of new consumers, and the increase in consumption of goods and services by private consumers due to the more favorable conditions of the Brazilian economy, with the vigor of the employment market being maintained, and growth in total real wages, associated with expansion of the supply of credit.

Industrial:

Consumption by Free Consumer clients represented 38.3% of the total volume of electricity transacted by Cemig in 1Q12 which is 0.3% less than in 2Q11. The reduction basically reflects reduction of industrial activity in Cemig's concession area.

Commercial:

This total volume of electricity transacted with this user group accounted for 11.6% of Cemig's total in 2Q12, and was 13.4% more than the volume transacted in 2Q11. This growth reflects the strong domestic consumer market, especially final consumption by private consumers.

Rural:

Rural consumption, representing 4.2% of total electricity sold by Cemig, was 15.5% higher than in 2Q11, following the connection of 101,606 new consumers in the interval of twelve months.

Table of ContentsOther consumer categories:

The total of other types of consumption in 2011 by public authorities, public illumination, public services, and Cemig's own consumption represented 6.4% of Cemig's total transactions in electricity in the quarter, and was 8.0% higher than in 2Q11.

	2Q12	MWh (*) 2Q11	Change %

(*) The information in MWh has not been reviewed by the external auditors.

This chart shows the breakdown of the Cemig Group's sales to final consumers:

Table of Contents

The electricity market of Cemig GT

The consolidated total of electricity sold by Cemig GT means the total of: sales to Free Clients both in the state of Minas Gerais and outside it; sales under the Proinfra program to encourage new energy sources; and wholesale sales in the Regulated and Free Markets, and through the CCEE (Electricity Trading Chamber).

This total was 4.0% lower in 2Q12 than in 2Q11, reflecting a lower volume of sales by Cemig through the CCEE in 2Q12.

The counterpart to this was that total revenue from electricity supply in 2Q12 was 15.7% higher year-on-year, at R\$ 1,211,270, compared to R\$1,046,679 in 2Q11.

This mainly reflects higher prices in the spot market, and also significant growth of 9% in the industrial consumer category and 328% in the commercial category.

Although the volume of electricity sold to other concession holders was 7.6% lower YoY, revenue from energy sold to other concession holders was 6.5% higher, at R\$ 398.8 million in 2Q12, compared to R\$ 374.4 million in 2Q11.

This table shows supply of electricity by type of consumer:

(**) The information in MWh has not been reviewed by the external auditors.

The electricity market of Cemig D

The concession area of Cemig Distribuição S.A. (Cemig D) covers 567,478 km², approximately 97% of the territory of Minas Gerais State. Cemig D has four electricity distribution concessions in Minas Gerais, under four concession contracts for the Western, Eastern, Northern and Southern areas of the State. These contracts have an expiry date of February 18, 2016, and a clause providing for their extension by the concession-granting power for a further 20 (twenty) years, upon application by the concession holder.

The total of electricity sold by Cemig D in 2Q12 was 1.8% higher than in 2Q11. The main factor in this comparison is consumption by the residential, commercial and rural consumer categories. Consumption by captive consumers in the industrial category was 11.6% lower year-on-year; but if adjusted for the clients that migrated to the free market in the period, Cemig D's volume of sales to the Industrial category would have been 3.6% higher year-on-year.

The following are some comments on the figures for the main consumer categories:

Table of Contents

Residential:

Residential consumption represents 35.9% of the total energy sold by Cemig D in 2Q12, and was 5.38% higher than in 2Q11.

Industrial:

Electricity used by captive industrial clients was 17.2% of the volume sold by Cemig D in 2Q12, and totaled 11.6% less than in 1Q11 – the main factor being the migration of captive clients to the status of free clients over the period: adjusted for this migration to the Free Market, the volume sold to industrial clients would have been 3.6% higher YoY.

Commercial and Services:

The volume of electricity sold to this consumer category accounted for 22.0% of the electricity sold by Cemig D in 2Q12, and was 4.5% higher than in 2Q11.

Rural:

Rural consumption was a significant 15.4% higher year-on-year, with the connection of 101,394 new rural properties added in the 12-month period. These consumers accounted for 11.5% of the total electricity consumption.

Table of ContentsOther consumer categories:

The total of the other types of consumption in 2011 by public authorities, public illumination, public services, and Cemig's own consumption was 2.5% higher than in 2Q11, and was 13.2% of the total volume sold by Cemig D.

Consolidated operational revenueRevenue from supply of electricity

Revenue from supply of electricity in 2Q12 was R\$ 4,101,807, 12.80% more than in 2Q11 (R\$ 3,636,250).

The main factors affecting revenue in 2012 were:

- Tariff increase for Cemig D with average effect on consumer tariffs of 3.85%, starting from April 8, 2012.

Table of Contents

- Tariff increase for Cemig D with average effect on consumer tariffs of 7.24%, starting from April 8, 2011.
- Volume of energy invoiced to final consumers 4.91% higher (this excludes Cemig's own internal consumption).

(*) The information in MWh has not been reviewed by the external auditors.

Revenue from wholesale electricity sales

Although the volume of electricity sold to other concession holders in 2Q12 was 4.56% lower than in 2Q11, revenue from these sales was 1.42% higher, at R\$ 400,500 (vs. R\$ 394,900 in 2Q11) due to the average sale price being 6.26% higher at R\$ 123.01 (one hundred twenty-three Reais) per MWh, compared to R\$ 115.76/MWh in 2Q11.

Table of Contents

Transactions in electricity on the CCEE

Revenue from electricity sales on the CCEE was R\$ 158,932 in the first half of 2012, compared to R\$ 32,599 in the first half of 2011 – an increase of 387.54%. This reflected the significantly higher spot market price in 1H12 of R\$ 115.15 compared to R\$ 27.77 in 1H11.

Revenue from use of the electricity Distribution Systems (TUSD)

The revenue from the TUSD (Tariff for Use of the Distribution System), received by Cemig D and Light, was 28.22% higher in 2Q12, at R\$ 535,295, compared to R\$ 417,478 in 2Q11. This revenue comes principally from charges to free consumers on the electricity sold by other agents of the electricity sector.

Revenue from use of the transmission grid

For the older concessions, the Revenue for use of the transmission grid refers to the tariff charged to agents in the electricity sector, including Free Consumers connected to the high voltage network, for use of that part of the National transmission Grid that is owned by the Company, less the amounts received that are used for amortization of the financial asset.

For the new concessions, it includes the portion received from agents of the electricity sector relating to operation and maintenance of the transmission lines and also the adjustment to present value of the transmission financial asset constituted, primarily, during the period of construction of the transmission facilities. The rates used for updating of the asset correspond to the remuneration on capital applied to the undertakings, and these vary in accordance with the model of undertaking and the investing company's cost of capital.

The revenue for use of the network was not significantly different year-on-year – at R\$ 364,115 in 2Q12, and R\$ 340,978 in 2Q11.

Table of Contents

Taxes and charges applied to revenue

The charges and taxes applied to revenue in 2Q12 totaled R\$ 1,891,716, an increase of 11.30% compared to 2Q11 (R\$ 1,699,652). The main variations in these deductions from revenue between the two years are as follows:

Global Reversion Reserve RGR

This deduction from revenue was 48.07% higher in 2Q12 than 2Q11. This is a non-controllable cost: the expense recognized in the income statement is the amount passed on to the tariff.

The Fuel Consumption Account CCC

The deduction from revenue for the CCC was R\$ 145,207 in 2Q12, 18.53% less than in 2Q11 (R\$ 178,224). This charge is for the costs of operation of the thermal plants in the national grid and in the isolated systems. It is prorated between electricity concession holders, on a basis set by a Resolution issued by the regulator, Aneel.

This is a non-controllable cost: in the distribution activity, the difference between the amounts used as a reference for calculation of tariffs and the cost actually incurred is compensated for in the next tariff adjustment. For the portion relating to transmission services, the Company charges the CCC amount to Free Consumers on their invoices and passes it on to Eletrobrás.

CDE Energy Development Account

The payments of the CDE are set by a resolution issued by the regulator, Aneel, and were 13.00% higher in 2Q12 than in 2Q11. The deduction from revenue relating to the CDE was R\$ 138,335 in 1H12, compared to R\$ 122,420 in 1H11.

Table of Contents

The other deductions from revenue are taxes, calculated as a percentage of amounts invoiced. Hence their variations are substantially proportional to the changes in revenue.

	2Q12	2Q11	Change, %
Taxes on revenue:			
ICMS tax	979,892	859,139	14.06
Cofins tax	406,407	366,414	10.91

0.30% additional payment (Law 12111/09)	10,063	7,289	38.06
	415,563	393,159	5.70
	1,891,716	1,699,652	11.30

Operational costs and expenses

(Excluding financial revenues/expenses)

Operational costs and expenses (excluding Financial revenue (expenses)) totaled R\$ 3,225,984 in 2Q12, 15.70% more than in 2Q11 (R\$ 2,788,331). This mainly reflects higher costs on employee profit shares, electricity bought for resale, operational reversals, charges for use of the national transmission grid, and gas bought for resale.

The following paragraphs outline the main variations in expenses:

Table of Contents

Employees and managers profit shares

The expense on employees and managers profit shares in 2Q12 was R\$ 62,467, compared to R\$ 1,068 in 2Q11, an increase of 5,748.97%. This is a reflection of the fact that in 2011 the provisioning of profit shares was posted in March, and in 2012 it was posted in April.

Electricity bought for resale

The expense on electricity bought for resale in 2Q12 was R\$ 1,384,490, which was 36.22% more than the expense of R\$ 1,016,344 in 2Q11. This primarily reflects the following factors:

- Cemig D's financial exposure to the spot market was 160.18% higher, at R\$ 212,547, in 2Q12, than in 2Q11 (R\$ 81,693), reflecting higher spot (PLD) prices in all the sub-markets, starting in March 2012, and also higher System Service Charges (ESS), due to dispatching of thermal plants.
- The volume of electricity acquired in the regulated market through Cemig D's auction was 35.11% higher as part of a strategy to minimize risks of financial exposure to the spot market.
- Cemig D's expense on electricity from Itaipu, which is indexed to the dollar, was 25.85% higher in Reais, at R\$ 226,332 in 2Q12, vs. R\$ 179,845 in 2Q11 mainly reflecting the weakening of the Real against the dollar in the first half of 2012, compared to strengthening of the Real against the dollar in the first half of 2011. In 1H12 the US dollar appreciated 7.76% against the Real, while in 1H11 it depreciated by 6.31% against the Real.

Charges for use of the transmission grid

Expenses on charges for the use of the transmission grid were R\$ 243,731 in 2Q12, 26.52% more than in 2Q11 (R\$ 192,636). This expense is for the charges payable by electricity distribution and generation agents for use

Table of Contents

of the facilities that are components of the national grid. The amounts to be paid are set by an Aneel Resolution.

This is a non-controllable cost: in the distribution activity, the difference between the amounts used as a reference for calculation of tariffs and the cost actually incurred is compensated for in the next tariff adjustment.

Gas purchased for resale

The cost of gas purchased for resale was R\$ 117,434 in 2Q12, 45.94% more than in 2Q11 (R\$ 80,465). This reflects the increase in the volume of gas purchased, to meet the requirements of higher sales of gas by Gasmig in 2012, due to increased industrial consumption following the expansion of Gasmig's client base in the Steel Valley (*Vale do Aço*) and South of Minas (*Sul de Minas*) regions.

Financial revenues (expenses)

Net financial expenses in 2Q12 totaled R\$ 302,632, 29.20% more than in 2Q11 (R\$ 234,232). The main factors in the difference between financial revenues/expenses in 2Q12 and 2Q11 are:

- Revenue from cash investments was 35.70% lower on less cash invested in 2012.
- Lower expense on costs of loans and financings: R\$ 331,094 in 2Q12, compared to R\$ 365,502 in 2Q11. This lower figure basically reflects the lower variation represented by the CDI rate over 2Q12 than over 2Q11. In 2Q12 this variation was 2.09%, compared to 2.80% in 2Q11.
- Expense of foreign exchange variations: The amount of the exchange rate variation effect, totaling R\$ 43,298 in 2Q12, mainly arises from exchange

Table of Contents

rate variations on loan contracts linked to the dollar, owed by the subsidiary Taesa, arising from the acquisition of Abengoa.

	2Q12	2Q11	Change, %

Losses on financial instruments		(3,889)	
Adjustment to present value		(665)	
Charges and monetary updating on Post-retirement obligations	(28,750)	(30,365)	(5.32)
Other	(46,050)	(29,223)	57.57
	(525,796)	(496,813)	5.83
NET FINANCIAL REVENUE (EXPENSES)	(302,632)	(234,232)	29.20

Income tax and Social Contribution tax

Cemig's expenses in 2Q12 on income tax and the Social Contribution tax totaled R\$ 280,436, on profit of R\$ 884,668 before tax effects, a percentage of 31.70%. In 2Q11 the Company's expenses on income tax and the Social Contribution tax were R\$ 259,149, on pre-tax profit of R\$ 782,206, a percentage of 33.13%.

Table of Contents**EBITDA**

(Method of calculation not reviewed by external auditors)

Cemig's Ebitda in 2Q12 was 14.39% higher in 2Q12 than 2Q11:

EBITDA - R\$ 000	2Q12	2Q11	Change, %
Profit (loss) for the period	604,232	523,057	15.52
+ Income tax and Social Contribution tax	280,436	259,149	8.21
+ Net financial revenue (expenses)	302,632	234,232	29.20
+ Depreciation and amortization	245,164	236,361	3.72
+ Equity gain (loss) on subsidiaries	656		
EBITDA	1,433,120	1,252,799	14.39

The higher Ebitda in 2Q12 than in 2Q11 mainly reflects net revenue 16.01% higher, partially offset by operational expenses (excluding effects of depreciation and amortization) 16.80% higher. Ebitda margin was practically unchanged between the quarters: 32.93% in 2Q11, and 32.47% in 2Q12.

Table of Contents

Light Highlights of 2Q 2012

For more information please see this link:

http://www.mzweb.com.br/light/web/arquivos/Release_2Q12.pdf

- Total electricity consumption in 2Q12, at 5,754 GWh, was 1.5% higher than in 2Q11, led by consumption 8.4% higher year-on-year in the commercial user category.
- Consolidated net revenue in the quarter, excluding construction revenue, was R\$ 1.636 billion, up 12.1% from 2Q11. Revenue was higher year-on-year in all the segments of Light's business, with a highlight for generation, in which revenue was up 48.38% YoY.
- Consolidated Ebitda in the quarter was R\$ 255.8 million, 6.2% more than in 2Q11, reflecting the strong performance of the generation sector. Ebitda margin in the quarter was 15.6%, which compares with 16.5% in 2Q11.
- Net income in the quarter was R\$ 39.8 million, 12.3% lower than the 2Q11 net income of R\$ 45.3 million, mainly due to higher financial expenses.
- Realized revenues from electricity invoices in 2011 were 98.2% of the total invoiced, 0.7 of a percentage point more than the ratio achieved in 2Q11.
- Non-technical losses in the quarter were 42.3% of the low-voltage invoiced market (by the Aneel criterion), 1.0 percentage point higher than in 1Q12, mainly due to a change in the criterion used to account for clients with long-term delinquency.
- At the end of the quarter Light's net debt was R\$ 3.517 billion, 2.3% more than at the end of March 2012. The Net Debt / Ebitda leverage ratio was 2.8x.

Taesa Highlights of 2Q 2012

<http://www.mzweb.com.br/taesa2011/web/arquivos/Release%202Q12.pdf>

- Non-adjusted Ebitda was R\$ 244.9 million, 40.2% more than in 1Q11, with Ebitda margin of 86.9%.
- Taesa paid dividends of R\$ 214 million, or R\$ 4.88 per Unit, on the profit for 2011.
- An agreement, for a total amount of R\$ 1.732 billion, was signed for transfer to Taesa of the minority stockholdings held by Cemig in the TBE Group.
- Taesa settled the transaction with Abengoa to acquire the remaining 50% of Unisa, paying approximately R\$ 904 million for that interest, financed by issue of short-term promissory notes totaling R\$ 905 million, at a cost of 104% of the CDI rate.
- Taesa raised 1.755 billion in its public offering, with its Unit priced at R\$ 65.00. The stockholder s structure:

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

- Net income in 2Q12 was R\$ 73.9 million, 1.6% higher than in 2Q11.

- Taesa's results for 1Q12 include the 1Q12 results of the assets of Abengoa that had been acquired (100% of NTE, and 50% of Unisa ATE, ATE II,

Table of Contents

ATE II and STE). The assets related to Abengoa were acquired on November 30, 2011 hence they have no effect on the results for 2Q11.

- The market capitalization of Taesa increased by 90.86% in the year, to R\$ 7.9 billion at the end of July.

Table of Contents**Permitted Annual Revenue RAP**

The Permitted Annual Revenue (*Receita Anual Permitida*, or RAP) of the Cemig group in 2011 was 13.0% of that of the whole Brazilian transmission market, totaling R\$ 1.7 billion, maintaining Cemig's position as Brazil's third largest transmission company, with a network of more than 10,000km of transmission lines.

This table gives the RAP of the Cemig group by company/project, as stated in Aneel Homologating Resolution 1171 of June 28, 2011, available at this link on Aneel's website:
