_	general and administrative, or MG&A, expenses for the quarter ended September 30, 2014 decreased to \$22.6 million from \$23.9 the previous quarter.
Real Estat	te Investment Activity
	ber, the Company entered into an agreement to acquire 319,000 square feet of vacant commercial condominium units on the 22nd th floors in the newly constructed Midtown Manhattan class-A office

property located at 55 West 46th Street for \$275.0 million. As part of the agreement, the seller had the option, which has since been exercised, to include the vacant 2nd floor, comprising 28,000 square feet, for an additional purchase price of \$20.0 million. The Company will also acquire a retail store on 46th Street and the building s parking garage and fitness center. This transaction is expected to be completed before the end of 2014, subject to the satisfaction of customary closing conditions.

In September, the Company closed on the acquisition of the fee interest at 635 Madison Avenue for \$145.0 million. The property is encumbered by a ground lease through April 2030 with one twenty-one year renewal extension option. The improvements of the fee interest include a 19-story 176,530-square-foot office tower.

In September, the Company, together with its joint venture partner, closed on the acquisition of the retail condominium at 121 Greene Street in SoHo for \$27.2 million. The 7,200 square foot prime retail condominium is located along one of SoHo s most popular shopping corridors, adjacent to Ralph Lauren and directly across the street from Apple s local flagship. The acquisition marks the continued growth of the Company s prime retail property portfolio, which already includes several other assets in Manhattan s popular SoHo shopping district.

In September, the Company, together with its joint venture partner, entered into an agreement to sell 180 Maiden Lane for a gross sales price of \$470.0 million, resulting in an internal rate of return on the investment of approximately 16.0 percent. This transaction is expected to close during the fourth quarter of 2014, subject to the satisfaction of customary closing conditions.

In September, the Company, together with its joint venture partner, closed on the sale of all its interests, including the fee position and retail condominium unit, in the mixed-use college dormitory/retail asset at 180 Broadway for a gross sales price of \$222.5 million. The Company recognized a promote of \$3.3 million and a gain on sale of \$16.5 million.

In September, the Company invested \$50.0 million in the construction of a large residential rental project at 605 West 42nd Street in Manhattan. The investment consists of mezzanine loan interests and a fixed-price option for the Company to acquire up to a 20 percent equity stake in the property upon completion of the project. The project, one of several to be constructed in New York s Midtown West development area over the next decade, will consist of a 1.16 million-square-foot tower that will feature 1,174 rental apartment units.

Debt and Preferred Equity Investment Activity

The carrying value of the Company's debt and preferred equity investment portfolio totaled \$1.4 billion at September 30, 2014. During the third quarter, the Company originated and retained, or acquired new debt and preferred equity investments totaling \$155.1 million, at a weighted average current yield of 10.1 percent, and recorded \$287.6 million of principal reductions from investments that were sold or repaid. As of September 30, 2014, the debt and preferred equity investment portfolio had a weighted average maturity of 2.0 years, excluding any extension options, and had a weighted average yield during the third quarter of 10.5 percent.

Financing and Capital Activity

In September, the Company refinanced the Graybar Building at 420 Lexington Avenue, site of the Company s headquarters. The new 10-year, \$300.0 million leasehold mortgage features a fixed interest rate of 3.98 percent and replaces the previous \$181.0 million, 7.15 percent fixed-rate mortgage that the Company initially obtained in 2009 at the trough of the credit markets. The refinancing reduced the Company s overall cost of capital, termed out its debt maturities and generated \$91.4 million of net cash proceeds, after giving consideration to closing costs and the defeasance charge on the previous financing.

In October, the Company and its joint venture partner closed on a new \$97.0 million leasehold mortgage at 650 Fifth Avenue.	The new
two-year mortgage, which bears interest at 350 basis points over LIBOR, had an initial funding of \$65.0 million.	

Dividends

During the third quarter of 2014, the Company declared quarterly dividends on its outstanding common and preferred stock as follows:

- \$0.50 per share of common stock, which was paid on October 15, 2014 to stockholders of record on the close of business on September 30, 2014; and
- \$0.40625 per share on the Company s 6.50% Series I Cumulative Redeemable Preferred Stock for the period July 15, 2014 through and including October 14, 2014, which was paid on October 15, 2014 to stockholders of record on the close of business on September 30, 2014, and reflects the regular quarterly dividend which is the equivalent of an annualized dividend of \$1.625 per share.

Non-GAAP Supplemental Financial Measures

Funds from Operations (FFO)

FFO is a widely recognized measure of REIT performance. The Company computes FFO in accordance with standards established by the National Association of Real Estate Investment Trusts, or NAREIT, which may not be comparable to FFO reported by other REITs that do not compute FFO in accordance with the NAREIT definition, or that interpret the NAREIT definition differently than the Company does. The revised White Paper on FFO approved by the Board of Governors of NAREIT in April 2002, and subsequently amended, defines FFO as net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from debt restructuring, sales of properties and real estate related impairment charges, plus real estate related depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures. The Company presents FFO because it considers it an important supplemental measure of the Company s operating performance and believes that it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, particularly those that own and operate commercial office properties. The Company also uses FFO as one of several criteria to determine performance-based bonuses for members of its senior management. FFO is intended to exclude GAAP historical cost depreciation and amortization of real estate and related assets, which assumes that the value of real estate assets diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. Because FFO excludes depreciation and amortization unique to real estate, gains and losses from property dispositions and extraordinary items, it provides a performance measure that, when compared year over year, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, interest costs, providing perspective not immediately apparent from net income. FFO does not represent cash generated from operating activities in accordance with GAAP and should not be considered as an alternative to net income (determined in accordance with GAAP), as an indication of the Company s financial performance or to cash flow from operating activities (determined in accordance with GAAP) as a measure of the Company s liquidity, nor is it indicative of funds available to fund the Company s cash needs, including our ability to make cash distributions.

Funds Available for Distribution (FAD)

FAD is a non-GAAP financial measure that is not intended to represent cash flow for the period and is not indicative of cash flow provided by operating activities as determined in accordance with GAAP. FAD is presented solely as a supplemental disclosure with respect to liquidity because the Company believes it provides useful information regarding the Company's ability to fund its dividends. Because all companies do not calculate FAD the same way, the presentation of FAD may not be comparable to similarly titled measures of other companies. FAD does not represent cash flow from operating, investing and finance activities in accordance with GAAP and should not be considered as an alternative to net income (determined in accordance with GAAP), as an indication of the Company's financial performance, as an alternative to net cash flows from operating activities (determined in accordance with GAAP), or as a measure of the Company's liquidity.

Same-Store Net Operating Income, Same-Store Cash Net Operating Income and Related Measures

The Company presents same-store net operating income, same-store cash net operating income, same-store joint venture net operating income, and same-store joint venture cash net operating income because the Company believes that these measures provide investors with useful information regarding the operating performance of properties that are comparable for the periods presented. For properties owned since January 1, 2013 and still owned in the same manner at the end of the current quarter, the Company determines same-store net operating income by subtracting same-store property operating expenses and ground rent from same-store recurring rental and tenant reimbursement revenues. Same-store cash net operating income is derived by deducting same-store straight line and free rent from, and adding same-store tenant credit loss allowance to, same-store net operating income. Same-store joint venture net operating income and same-store joint venture cash net operating income are calculated in the same manner as noted above, but includes just the Company s pro-rata share of the joint venture net operating income. None of these measures is an alternative to net income (determined in accordance with GAAP) and same-store performance should not be considered an alternative to GAAP net income performance.
