Financial review

As of 31 December 2014, following the capital increase of Oi S.A. (Oi), concluded on 5 May 2014 (the Oi Capital Increase), Portugal Telecom, SGPS, S.A. (PT SGPS) held a 39.7% direct and indirect stake in Oi, including a portion classified as a non-current asset held for sale (Note 12) in connection with the Exchange agreement (Exchange Agreement) entered into on September 2014 and completed on March 2015, and the remaining stake of 22.8% classified as investment in joint ventures (Note 13) and therefore accounted for using the equity method.

On 30 March 2015, the Exchange was completed, whereby PT SGPS (1) transferred to Portugal Telecom International Finance, B.V. (PT Finance), a subsidiary of Oi, an aggregate amount of 47,434,872 common shares of Oi and 94,869,744 preferred shares of Oi (after giving effect to the reverse share split of Oi), and (2) received from PT Finance debt securities of Rio Forte Investments S.A. (Rio Forte) with a nominal value of Euro 897 million and a call option on the transferred shares (Call Option). The transactions described above are referred to as the Exchange.

After the completion of the Exchange, PT SGPS holds (1) an effective stake of 27.5% in Oi corresponding to the 22.8% stake referred above plus 4.7% due to the decrease in the number of outstanding shares of Oi, (2) the debt securities of Rio Forte with nominal value of Euro 897 million (the Rio Forte Investments), and (3) the Call Option on 47,434,872 common shares and 94,869,744 preferred shares of Oi with an exercise price of R\$20.104 per common share and R\$18.529 per preferred share (after giving effect to the reverse share split of Oi), and with a 6-year maturity. The Call Option has partial expiration dates throughout the period so the option volume is reduced by 10% at the end of the first year and by 18% per year thereafter.

In the first quarter of 2015, the consolidated net loss amounting to Euro 43 million, mainly reflects a loss of Euro 28 million corresponding to the effective interest of PT SGPS (22.8% up to 30 March 2015) in the loss of R\$401 million (Euro 124 million) recorded by Oi in the first quarter of 2015.

Consolidated operating costs amounted to Euro 4.0 million in 1Q15 compared to Euro 4.8 million in 1Q14, a decrease explained by lower personnel costs due to lower variable remunerations. This effect was partially offset by higher third party expenses mainly related to financial and legal services associated with the Business Combination with Oi and the tender offer that PT SGPS was subject to.

Interest income amounted to Euro 0.1 million in 1Q15 compared to Euro 6.8 million in 1Q14. Interest income in 1Q14 mainly reflects cash amounts at Bratel Brasil S.A. (Bratel Brasil) that were used in 5 May 2014, under the Business Combination, to subscribe debentures (convertible into equity) issued by the controlling holding companies of Oi, where Bratel Brasil held a stake.

Losses in joint ventures amounted to Euro 39 million in 1Q15 and Euro 17 million in 1Q14, corresponding to the effective share of PT SGPS in losses of Oi and its controlling holding companies, based on the equity method of accounting. Losses recorded in 1Q15 reflect (1) a loss of Euro 28 million corresponding to PT SGPS' s effective stake (22.8% up to 30 March 2015) in the loss of R\$401 million (Euro 124 million) recorded by Oi in 1Q15, and (2) a loss of Euro 10 million corresponding to the impact of the increase in PT SGPS' s effective stake in Oi from 22.8% to 27.5% related to the completion of the Exchange, which occurred on 30 March 2015, which reflects the negative change in Oi' s shareholders equity between 4Q14 and 1Q15. The losses recorded in 1Q14, amounting to Euro 17 million, reflect (1) a loss of Euro 2 million corresponding to PT SGPS' s effective share (23.2%) in the loss of R\$21 million (Euro 6 million) recorded by Oi in 1Q14, and (2) a loss of Euro 15 million corresponding to PT SGPS' s effective stake in the

losses of the controlling holding companies of Oi, which mainly reflect interest expenses incurred by these entities associated with their gross debt at the time, which was fully repaid on 5 May 2014. The deterioration of Oi's results in 1Q15 compared to 1Q14 is mainly explained by a gain of R\$1.2 billion (Euro 0.4 billion) recorded in 1Q14 related to the disposal of mobile towers.

Net income from discontinued operations amounted to Euro 9 million in 1Q14 and includes the income from businesses contributed to the Oi Capital Increase on 5 May 2014.

Net loss amounted to Euro 43 million in 1Q15 and Euro 15 million in 1Q14, mainly reflecting higher losses in joint ventures (Euro 39 million in 1Q15 and Euro 17 million in 1Q14) and lower interest income.

Investments in joint ventures mainly correspond to PT SGPS' s effective stake in Oi (1) of 22.8% on 31 December 2014, which was impacted by the classification of a portion of the investment as non-current assets held for sale under the Exchange, and (2) of 27.5% on 31 March 2015, reflecting the share gain compared to 31 December 2014 due to the decrease in outstanding shares of Oi after the completion of the Exchange. On 31 March 2015 and 31 December 2014, PT SGPS' s effective stake in Oi corresponded to a total investment of Euro 775 million and Euro 693 million, respectively, an increase mainly explained by the share gain as referred to above. This effect more than compensated the net loss reported by Oi in 1Q15 and negative foreign currency translation adjustments resulting from the depreciation of the Real against the Euro in 1Q15. In addition to the effective stake in Oi, this line item also reflects PT SGPS' s effective stake in the controlling holding companies of Oi, amounting to Euro 19 million on 31 March 2015 and Euro 21 million on 31 December 2014. Investments in joint ventures are measured using the equity method of accounting.

Non-current assets held for sale as at 31 December 2014 correspond to the fair value of Oi shares in connection with the Exchange entered into with Oi. The fair value of these shares was measured based on the price of Oi' s shares as at 31 December 2014.

Other assets at 31 March 2015, amounting to Euro 226 million, mainly correspond to the fair value of assets received on 30 March 2015 in connection with the Exchange (Euro 220 million), including (1) Euro 135 million

related to the estimated fair value of debt instruments issued by Rio Forte, the nominal value of which amounts to Euro 897 million, and (2) Euro 86 million related to the estimated fair value of the Call Option.

Provisions on 31 December 2014 include an amount of Euro 27 million related to the financial impact of the Exchange. This provision included (1) Euro 168 million related to the difference between the accounting value of the shares to be exchanged (booked at fair value) and the fair value of assets received, (2) net of an amount of Euro 141 million (Note 13) corresponding to the estimated gain of the increase in PT SGPS's effective participation in Oi from 22.8% to 27.5%, as a consequence of the reduction in outstanding shares of Oi after the completion of the Exchange.

Equity amounted to Euro 1,087 million on 31 March 2015 compared to Euro 1,153 million on 31 December 2014, a decrease of Euro 65 million, mainly reflecting (1) the loss of Euro 43 million recorded in 1Q15 and (2) the negative currency translation adjustments amounting to Euro 25 million, which essentially reflect the impact of the devaluation of the Real against the Euro in 1Q15.

Businesses Combination of PT SGPS and Oi

Following the memorandum of understanding, disclosed in a timely manner to the market on 2 October 2013 (Memorandum of Understanding), PT SGPS, Oi and the major shareholders of both companies announced their intention to proceed with a business combination of PT SGPS and Oi (the Business Combination) merging them into a single listed entity under Brazilian law, it having been decided that such company would be Telemar Participações, S.A. (TmarPart).

The Business Combination, as initially envisioned, involved three main phases:

- A first phase, involving the Oi Capital Increase, was completed on 5 May 2014, with the issuance of common shares and preferred shares in an offering for an aggregate amount of R\$8,250 million in cash, including the exercise of a greenshoe, and common shares and preferred shares in favor of PT SGPS, in exchange for the contribution in kind, by PT SGPS to Oi of (i) all of the operating assets of PT SGPS, except the shares held directly or indirectly - through Bratel Brasil and PTB2, S.A. (PTB2) - in Oi, Contax Participações S.A. (Contax) and Bratel B.V. (Bratel), and (ii) substantially all of PT SGPS's liabilities on the date of the contribution, valued in net terms (assets less liabilities) in accordance with the respective appraisal report at R\$5,709.9 million. Simultaneously with the Oi Capital Increase, PT SGPS, through its subsidiaries in Brazil, subscribed to debentures convertible into shares of companies belonging to the control groups of AG Telecom Participações S.A. (AG Telecom) and of LF Tel S.A. (LF Tel), and these entities subscribed to debentures convertible into shares of TmarPart, which have been fully converted. As a result of such conversion, PT SGPS came to hold an additional shareholding stake in companies belonging to the control groups of AG Telecom and of LF Tel, and indirectly in TmarPart and Oi;
- A second phase, involved the merger of shares, under Brazilian law (the Merger of Oi), under which, subject to approval of holders of common shares of Oi and of TmarPart, all shares of Oi not belonging to TmarPart would be exchanged for common shares of TmarPart, with Oi becoming a wholly owned subsidiary of TmarPart and, at the same time, the latter would be listed on the *Novo Mercado* segment of BM&FBOVESPA S.A. - Bolsa de Valores, Mercadorias e Futuros (BM&FBOVESPA). Simultaneously with the Merger of Oi, a simplification of the corporate structure of TmarPart was planned, by means of the corporate reorganization of several direct and indirect shareholder holding companies of TmarPart, by which, among other things, PT SGPS would come to directly hold shares of Oi corresponding to its indirect stake in TmarPart (Corporate Reorganization); and
- A third phase, involving the subsequent merger under Portuguese and Brazilian law, of PT SGPS with and into TmarPart (the PT SGPS Merger), and under the terms of which the shareholders of PT SGPS would receive a total number of TmarPart shares equal to the number of shares of such company held by PT SGPS immediately prior to the PT SGPS Merger. The shares of TmarPart, the surviving entity of the above referenced transactions, would be listed on the *Novo Mercado* segment of BM&FBOVESPA, on the regulated market NYSE Euronext Lisbon (Euronext Lisbon) and the New York Stock Exchange (NYSE).

The transaction was thus agreed to, leaving execution thereof to the management of both companies (which included common members amongst themselves, by virtue of the reciprocal stake the companies held in the share

capital of each other), subject to the approval at a general shareholders meeting. In the specific case of PT SGPS, the first and third stages were subject to approval at a general shareholders meeting.

Phase 1 - Oi Capital Increase

As part of the process leading to the Business Combination, the Oi Capital Increase was carried out, and as planned, part of the newly issued shares of Oi were subscribed by PT SGPS and paid by means of a contribution in kind corresponding to all of the shares held by PT SGPS in PT Portugal SGPS, S.A. (PT Portugal), a company that then owned all of the operating assets of the business of the companies of the PT SGPS group (with the exception of shares directly or indirectly held in Oi, Contax and Bratel) and the respective liabilities at the date of its contribution (PT Assets). The PT Assets were contributed at a value based on a proposal by the Oi Board of Directors at a general shareholders meeting of Oi, supported by an appraisal report conducted by an independent company - Banco Santander (Brazil) S.A., hired for such purpose by Oi - in accordance with applicable Brazilian law. The report was approved at a general shareholders meeting of Oi, held on 27 March 2014.

As mentioned above, PT SGPS's participation in the Oi Capital Increase, given the importance of the matter, was submitted to approval by a meeting of PT SGPS's general shareholders.

On 27 March 2014, the shareholders of Oi approved the appraisal report referred to above and the contribution of PT Assets to Oi, valued at R\$5,709.9 million - corresponding to the equivalent of Euro 1,750 million, applying the real to euro exchange rate on 20 February 2014 (i.e., 3.2628 reais per euro), as provided for in previous agreements - an amount which the shareholders of PT SGPS, at a meeting also held on 27 March 2014, approved for the contribution of such PT Assets in connection with the Oi Capital Increase.

On 5 May 2014, the Oi Capital Increase was settled, with PT SGPS subscribing for 1,045,803,934 common shares and 1,720,252,731 preferred shares, which represented the share capital of Oi received in return for the contribution in kind of the entire share ownership of PT Portugal, holder of the PT Assets. In this manner, PT SGPS came to hold on such date, as its only significant asset, a direct and indirect stake of 39.7% in the share capital of Oi, comprising a stake of 39.0% of the voting share capital (excluding the indirect stake held by TmarPart, AG Telecom and LF Tel in Oi).

Among the PT Assets, contributed in connection with the Oi Capital Increase, was a creditor position on Rio Forte - a company in the Espírito Santo Group (GES) - which corresponded to short-term investments subscribed or acquired by two entities that were at the time, wholly owned subsidiaries of PT SGPS - namely PT Portugal and PT Finance - with a par value of Euro 897 million, identified as the Rio Forte Investments.

Rio Forte Investments

As mentioned above, included in the PT Assets contributed by PT SGPS in the Oi Capital Increase were short-term investments in commercial paper obligations issued by Rio Forte, and originally subscribed by PT SGPS and PT Finance, in the amount of Euro 897 million. The composition of the outstanding amount of the Rio Forte Investments at the time of the Oi Capital Increase on 5 May 2014 was as follows:

a) On 15 April 2014, PT Finance subscribed to Euro 647 million in notes issued by Rio Forte, with maturity on 15 July 2014. The terms and conditions of this transaction defined the notes as unsecured and unsubordinated debt, *pari passu* in terms of payment with the issuer's other unsecured and unsubordinated indebtedness, with a yield of 3.75% per annum. The jurisdiction for dispute resolution was Luxembourg.

b) On 15 April 2014, PT SGPS subscribed to Euro 200 million in notes issued by Rio Forte, with maturity on 15 July 2014. On 5 May 2014, which were transferred to PT Portugal as part of the process of transferring all assets and liabilities directly held by PT SGPS to PT Portugal in preparation for the contribution of PT Portugal in the Oi Capital Increase. These issuances were made through a private placement under the prospectus prepared by the issuer and dated 21 December 2012, entitled "Eur 1,000,000,000 Euro Medium Term Note Programme", which was approved by the Luxembourg Commission de Surveillance du Secteur Financier. The terms and conditions of this operation defined the notes as senior unsecured and unsubordinated debt, *pari passu* in terms of payment with the issuer's other unsecured and unsubordinated indebtedness, with a yield of 3% per annum. The jurisdiction for dispute resolutions was Luxembourg; and

c) On 17 April 2014, PT Finance subscribed to Euro 50 million in notes issued by Rio Forte, with maturity on 17 July 2014. This issuance was made through a private placement under the prospectus prepared by the issuer and dated 21 September 2012, entitled "Eur 1,000,000,000 Euro Medium Term Note Programme", which was approved by the Luxembourg Commission de Surveillance du Secteur Financier. The terms and conditions of this transaction defined the notes as senior unsecured and unsubordinated debt, *pari passu* in terms of payment with the issuer's other unsecured and unsubordinated indebtedness, with a yield of 3.75% per annum. The jurisdiction for dispute resolutions was Luxembourg.

As a result of the Oi Capital Increase, PT Portugal and PTIF and their rights as creditors under the Rio Forte Investments were transferred to Oi. On 15 and 17 July 2014, Rio Forte defaulted on the Rio Forte Investments held by PT Portugal and PTIF.

On 22 July 2014, Rio Forte has filed for creditor protection/controlled management (*gestion contrôlée*) under Luxembourg law. Even though it recognized that it did not have the financial capacity to meet its financial commitments, it understood that the best protection for its creditors would be the adoption of this legal regime, a request that was denied by a Luxembourg court on 17 October 2014. Following this rejection, Rio Forte went into liquidation and was declared bankrupt by the Luxembourg Court on 8 December 2014. According to the most recent public announcement of the liquidation trustees, the deadline for claims for this debt in connection with this lawsuit ends on 1 June 2015.

Agreement on the terms to proceed with the Business Combination

On 28 July 2014, following the default by Rio Forte, PT SGPS and Oi announced that they had reached an agreement on the definitive terms of the main agreements to be signed following a new Memorandum of Understanding announced on 16 July 2014. The main terms of these contracts established that:

- PT SGPS would exchange Rio Forte Investments amounting to Euro 897 million with Oi, in exchange for 474,348,720 common shares plus 948,697,440 preferred shares of Oi (Exchange Shares) - adjusting for the effect of the reverse split of Oi shares on 22 December 2014, corresponding to 47,434,872 common shares and 94,869,744 preferred shares representing 16.9% of its share capital;
- PT SGPS would be assigned an American non-transferable call option (Call Option) to acquire the Exchange Shares (with the strike price of R\$2.0104 for common shares and R\$1.8529 for preferred shares) which, adjusting to the effect of the reverse split of Oi shares, corresponds to R\$20.104 for common shares and R\$18.529 for preferred shares, after the reverse split, which would be adjusted by the Brazilian CDI rate plus 1.5% per year;
- The Call Option on the Exchange Shares would enter into force on the date of the Exchange and mature in six years, the possibility of PT SGPS exercising this option expiring by 10% at the end of the first year, and 18% at the end of each subsequent year;
- Any amount received as a result of monetization of the Call Option by issuing any derivative instruments would have to be used to acquire shares pursuant to the exercise the Call Option;

Table of Contents

- PT SGPS could only acquire shares of Oi or TmarPart through the exercise of the Call Option;
- The Call Option would be canceled if (i) the bylaws of PT SGPS were to be voluntarily altered to remove the 10% voting limitation, (ii) PT SGPS were to act as a competitor of Oi, or (iii) PT SGPS were to violate certain obligations arising from the definitive documentation, and
- The contracts would be concluded as soon as all corporate approvals were obtained and the Exchange, which was completed on 30 March 2015, would be subject to approval by CVM.

The terms of the agreements also included an alternative agreement to the previously announced merger of PT SGPS by TmarPart, in order to achieve the following objectives:

- Allow the merger of Oi into TmarPart and the migration to the *Novo Mercado* segment of BM&FBOVESPA be implemented as soon as possible, with the listing of TmarPart on BM&F Bovespa, Euronext Lisbon and NYSE;
- Subject to approval by the Board of Directors and at a general shareholders meeting convened specifically for this purpose, the implementation of an alternative structure to the PT SGPS Merger which would allow for the goal to be reached in the fastest and most efficient way possible, unifying the shareholder pools of both companies, and attributing to the shareholders of PT SGPS all of the TmarPart shares held by PT SGPS, after executing the Exchange and before exercising the Call Option, corresponding to a stake of 25.6% in TmarPart, adjusted by treasury shares, and
- PT SGPS would continue to be listed, its sole significant assets being those relating to the Rio Forte Investments and the Call Option.

The terms of the agreements, as described above, were approved on 8 September 2014 at the general shareholders meeting of PT SGPS, and the definitive agreements were signed on the same day. Implementation of the Exchange was in the meanwhile approved by the CVM.

Completion of the Exchange Agreement

On 24 March 2015, PT SGPS entered into an agreement with Oi, PT Portugal, PT Finance and TmarPart - Private Agreement for the Assignment of Rights and Obligations (Assignment Agreement), by means of which PT Portugal transferred to PT Finance the Rio Forte debt securities held by PT Portugal held by PT Portugal, and ceded to PT Finance all pertaining rights and obligations in connection with the Exchange Agreement (Assignment).

The Assignment Agreement also stipulated that the delivery of the Exchange Shares could be implemented by means of the transfer, by PT SGPS, of the Exchange Shares, or American Depositary Shares (ADS) of Oi, representative of the Exchange Shares, at PT SGPS's criteria. Oi's ADR Program is regulated by (1) the Depositary Agreement (Ordinary Shares), signed on 17 February 2012, as amended, between Oi, the Bank of New York Mellon, acting as depositary (Depositary), and all periodical holders of ADSs (American Depositary Shares) (ADSs ON), issued in the terms of the abovementioned Agreement; and (2) by the Depositary Agreement (Preferential Shares)

Table of Contents

signed on 27 February 2012, as amended, between Oi, the Depositary, and all periodical holders of ADSs (American Depositary Shares) (ADSs PN), issued in the terms of the abovementioned Agreement.

On 30 March 2015, the Exchange was concluded, by means of which PT SGPS (1) deposited Oi s shares object of the Exchange with the Depositary; and (2) instructed the Depositary to register the transfer of 47,434,872 ADSs ON and 94,869,744 ADSs PN (as a whole, the Exchange ADSs) to PT Finance, representing Oi s shares object of the Exchange.

Therefore, on 30 March 2015, PT SGPS transferred the Exchange ADSs to PT Finance, and PT Finance transferred to PT SGPS the Rio Forte Investments in the total nominal amount of 897 million Euros.

On 30 March 2015, the Call Option was in force and effective.

Negotiations between PT SGPS and the major shareholders of Oi were concluded on 31 March 2015. Such negotiations were aimed at arriving at a new agreement between the parties concerning the Oi corporate structure and governance model, given the impossibility of migrating TmarPart to the *Novo Mercado* segment of BM&FBovespa as of 31 March 2015. The drafting of a new agreement was key to anticipate the main benefits disclosed to shareholders at the time of the Oi Capital Increase, settled on 5 May 2014. This agreement does not limit the efforts to achieve listing on the *Novo Mercado* segment of BM&FBOVESPA.

The parties have agreed to a new corporate structure and governance model for Oi (the New Structure) which, in addition to the benefits and objectives disclosed following the Memorandum of Understanding, will allow Oi to anticipate a new governance model that will cover the main characteristics of the *Novo Mercado* segment of BM&FBOVESPA.

- All these significant alterations to Oi s corporate structure will be submitted for approval at a general shareholders meeting of Oi and will be implemented as quickly as possible, after approval from Agência Nacional de Telecomunicações Brasileira (ANATEL).
- Considering the consummation, on 30 March 2015, of the Exchange between PT SGPS and PT Finance of ordinary and preferential shares of Oi s capital, for Rio Forte Investments (the Exchange), the Call Option Agreement, signed on 8 September 2014 (Call Option Agreement), came into effect. An amendment (Amendment) to the Call Option Agreement was entered into, as was disclosed at the time, which will allow PT SGPS to achieve liquidity for its Call Option through a market sale, independent of previous consent from Oi, with Oi having a right of first refusal, if PT SGPS decides to transfer the Call Option to a third party. The Amendment is subject to approval by a general shareholders meeting of Oi to occur until 31 August 2015, and, if applicable, approval by the CVM, and Oi has committed to calling a general shareholders meeting in order to vote on the Amendment and the primary shareholders of Oi have committed to vote in favor of approving the Amendment.

Sale of the share capital of PT Portugal by Oi

On 2 November 2014, Oi received a firm offer to acquire the assets of PT Portugal from Altice S.A. (Altice), related to its operating activities. The amount of the offer was Euro 7.025 billion, excluding cash and debt, including and earn-out of Euro 500 million dependent on the generation of future revenue, and a 2nd earn-out of Euro 400

Table of Contents

million dependent on the future generation of operating free cash flow. This offer excludes the investments of PT Portugal in Africatel GmbH and Timor Telecom, S.A., the debt of PT Portugal, and the Rio Forte Investments.

Oi received a second offer to sell the assets of PT Portugal on 11 November 2014, presented as a joint offer by Apax Partners LLP (Apax) and Bain Capital Funds (Bain). This proposed acquisition amounted to Euro 7.075 billion, excluding cash and debt, contemplating earn-outs identical to the Altice offer. Apax and Bain did not offer to acquire the business of PT Portugal in Africa, the debt of this entity or the Rio Forte Investments.

On 1 December 2014, as a result of the evaluation of the offers submitted, Oi signed an exclusive agreement with Altice, effective for a period of 90 days, to allow Oi and Altice to negotiate and agree to the final terms of the sale of PT Portugal, and for Oi to obtain corporate authorizations necessary to sell the entity.

On 8 December 2014, the Board of Directors of Oi resolved in favor of the general terms and conditions of the sale of all of the shares of PT Portugal in favor of Altice, which essentially involves the operations carried out by PT Portugal in Portugal and Hungary. The approved transaction involves the sale of shares of PT Portugal, at an enterprise value corresponding to Euro 7.4 billion, with cash adjustments and debt, including the provision of an earn-out of Euro 500 million related to generation of future revenue of PT Portugal. Completion of the transaction will be preceded by an act of corporate reorganization, in order to delimit the businesses to be sold and businesses that will be segregated from PT Portugal, as described above. The sale of PT Portugal was approved at the general shareholders meeting of PT SGPS on 22 January 2015, which was a condition precedent for the effectiveness of the PT Portugal share purchase agreement.

On 22 April 2015, the preceding conditions were met, pertaining to (i) the approval, by the European Commission, and (ii) no opposition by Autoridade de Supervisão de Seguros e Fundos de Pensões (former Instituto de Seguros de Portugal) to the indirect equity interest held by Altice Portugal S.A. representing of 82.05% of the share capital of Previsão Sociedade Gestora de Fundos de Pensões, S.A. According to the press release by the European Commission of 20 April 2015, to which the above mentioned notification from Altice Portugal S.A. refers, the approval by the Commission is subject to the sale of current businesses of the French group in Portugal, namely Cabovisão and ONI.

Prior to the effectiveness of the sale and as condition precedent to the sale, the contract stipulates that certain acts of restructuring in the company should be performed, which are currently under way, with the purpose of outlining the businesses which are to be sold and segregating PT Portugal's investments which are not to be sold by Oi, including the investments in Africatel GmbH, Timor Telecom S.A., as well as a part or the whole of PT Portugal's debt.

Shareholder remuneration

On 29 January 2015, the Board of Directors of Oi reported the cancellation of the Shareholders Remuneration Policy for the 2013-2016 fiscal years, a policy that was communicated on 13 August 2013. In view of the decision made, Oi is only subject to the provisions of Law 6,404/76, and the Company's Bylaws. The canceled policy provided for dividends for the 2013-2016 fiscal years, an estimated amount of R\$500 million, which represented the minimum dividend that met the following objectives: i) payment of dividends corresponding to the greater of 25% of the adjusted net income for the fiscal year, 3% of Net Assets or 6% of the Share Capital; and ii) to ensure equitable payments among the classes of

common and preferred shares.

Delisting of PT SGPS ADS

On 9 March 2015 the Board of Directors of PT SGPS approved the delisting of its ADSs from the NYSE. 27 March 2015 was the last day PT SGPS ADSs were traded at the NYSE and the delisting of PT SGPS ADSs from trading at the NYSE became effective on 30 March 2015. After the delisting of ADS from the NYSE, the PT SGPS ADSs have traded on the U.S. over-the-counter market and PT SGPS shares continue to trade on the Euronext Lisbon. The decision was made after (i) PT SGPS has received a letter from the NYSE, dated 6 February 2015, giving notice that PT SGPS was below the continued listing criteria set forth in Section 801.02C of the NYSE Listed Company Manual because the average closing price of its ADSs had been less than US\$1.00 over a 30 consecutive trading day period. In light of these factors, and in order to achieve cost savings by eliminating costs associated with maintaining a listing on the NYSE, PT SGPS decided to delist the ADSs. PT SGPS currently intends to maintain its American Depositary Receipt facility, which will enable investors to retain their ADSs and trade those ADSs in the U.S. over-the-counter market. In addition, PT SGPS will continue to be subject to the reporting requirements of the U.S. Securities Exchange Act of 1934, including the requirement to file annual reports on Form 20-F and to submit reports on Form 6-K.

Corporate bodies

The following changes were made to the governing bodies of PT SGPS, throughout the first quarter of 2015:

- Francisco Teixeira Pereira Soares, on 27 February 2015
- Paulo José Lopes Varela, on 16 March 2015

- João Manuel Pisco de Castro, on 17 March 2015

Portugal Telecom, SGPS, S.A.

Notes to the Consolidated Financial Statements as at 31 March 2015

(Amounts stated in Euros, except where otherwise mentioned)

1. Introduction

As of 31 December 2014, following the Oi Capital Increase completed on 5 May 2014, PT SGPS held an effective interest of 39.7% in Oi, including an interest that was classified as a non-current asset held for sale (Note 12) in connection with the Exchange entered into on 8 September 2014 and completed on 30 March 2015, and a remaining interest of 22.8% that was classified as an investment in joint ventures (Note 13) and therefore recognized according to the equity method of accounting.

On 30 March 2015, the Exchange was completed, whereby PT SGPS (1) transferred to PT Finance 47,434,872 common shares of Oi and 94,869,744 preferred shares of Oi (after giving effect to the reverse share split of Oi), and (2) received from PT Finance the Rio Forte Investments, the notional value of which amounts to Euro 897 million, and a Call Option on the above mentioned shares whose main features are described below.

After the completion of the Exchange, PT SGPS holds (1) an effective share of 27.5% in Oi, corresponding to the 22.8% share referred to above plus 4.7% due to the decrease in the number of outstanding shares of Oi, (2) the Rio Forte Investments, with nominal value of Euro 897 million, and (3) the Call Option on 47,434,872 common shares and 94,869,744 preferred shares of Oi with an exercise price of R\$20.104 for common shares and R\$18.529 for preferred shares (after giving effect to the reverse share split of Oi), and with a 6-year maturity. The Call Option has partial expiration dates throughout the period so the option volume is reduced by 10% at the end of the first year and by 18% per year thereafter.

In March 2015, an amendment of the Call Option Agreement (*Amendment*), executed on 8 September 2014, was signed, which will allow PT SGPS to achieve liquidity for its Call Option through market sales, without requiring Oi approval, provided that Oi has a right of first refusal in case PT SGPS decides to sell the Call Option to a third party. The Amendment is subject to the approval of the shareholders' meeting of Oi and, if applicable, to the approval of the Brazilian securities and exchange commission (*Comissão de Valores Mobiliários*, or *CVM*). Oi has agreed to issue a call notice for a general meeting of its shareholders to deliberate upon the Amendment on or before 31 August 2015, to be held on or before 30 September 2015, and the relevant shareholders of Oi are committed to vote in favor of the approval of the Amendment.

At the end of March 2015, the parties agreed on a new model of corporate and management structure of Oi (*New Structure*), which apart from the benefits and purposes previously disclosed, has the following features:

- A corporate and management restructuring of Oi, eliminating the need to list TmarPart.

- Approval of new Bylaws of Oi, as well as an additional agreement regarding the provisional voting agreement of the shareholders, which will be in effect until the execution of the New Structure, which will allow: (i) the execution of a voluntary exchange program of preferred shares into common shares issued by Oi, with a ratio of 0.9211 common share to each preferred share, subject to the participation of at least two-thirds of the preferred shares within a period of 30 days following the general shareholders meeting of Oi, in order to provide to all shareholders with the right to vote and to maximize the possibility of a single class of shares; (ii) the implementation of the principle of one share, one vote. However, in order to preserve the balance between shareholders and the dispersion of shareholding control envisaged at the moment of the Oi Capital Increase, a 15% limitation of voting rights applicable to all the shareholders of Oi was agreed to be

Table of Contents

included in the Bylaws of Oi. This limitation will cease to be applicable upon the occurrence of certain events, including a capital increase, a corporate restructuring or a tender offer, which result in a dilution of the existing shareholder base (or the acquisition of shares, as the case may be) greater than 50%; (iii) to further improve liquidity, eliminating the lock-up agreements of all shareholders; (iv) the appointment of a new Board of Directors of Oi, with significant participation of independent members, in which the previous parity in TmarPart between the representatives of PT SGPS and of the Brazilian shareholders will remain in force; (v) the extinction of TmarPart, which will be merged into Oi, which will result in the termination of the existing shareholders' agreements, ensuring the dispersion of shareholder control of Oi; and (vi) the crystallization of financial synergies, through the merger of the controlling companies of Oi, directly and indirectly.

The New Structure will be executed as soon as possible, and no later than 31 October 2015. Thus, Oi will bring forward a new model of governance which will reflect the main features of the *Novo Mercado* segment of BM&FBOVESPA. All these significant changes will be submitted to the approval of the shareholders' meeting of Oi and will be executed as soon as possible after the approval of the Brazilian federal telecommunications regulator (ANATEL).

2. Basis of presentation

These interim consolidated financial statements have been presented in accordance with IAS 34 Interim Financial Reporting (IAS 34). Consequently, these financial statements do not include all the information required by the International Financial Reporting Standards (IFRS) as adopted by the European Union and accordingly should be read in conjunction with the consolidated financial statements for the year ended 31 December 2014. In addition, further explanations for the main changes of revenues and costs are disclosed in our interim management report, which should be read in conjunction with these interim consolidated financial statements.

After 5 May 2014, PT SGPS no longer fully consolidates the majority of the businesses held prior to that date, which were contributed to Oi in the Oi Capital Increase. Revenues, costs and cash flows of these businesses prior to that date are presented under line items of discontinued operations and as a result the Consolidated Statements of Income and Cash Flows for the three month period ended 31 March 2014 were restated accordingly (Note 3).
