EXFO Reports Record Sales for Fiscal 2008

§ Annual sales increase 20.2% to a record-high of US\$183.8 million,

§ Telecom Division sales grow 24.0% year over year, led by 97.4% growth for protocol test business

§ Navtel Communications and Brix Networks acquisitions strengthen next-generation, IP testing and service assurance offering

§ Gross margin improves for a sixth consecutive year to reach 58.9%

§ Sales from new products amount to 34.6% of total revenue

QUEBEC CITY, CANADA, October 15, 2008—EXFO Electro-Optical Engineering Inc. (NASDAQ: EXFO, TSX: EXF) reported today record sales for the fiscal year ended August 31, 2008.

Annual sales increased 20.2% to a record-high of US\$183.8 million in fiscal 2008 from US\$152.9 million in 2007. In the fourth quarter of 2008, sales reached US\$50.9 million compared to US\$48.6 million in the previous quarter and US\$43.0 million in the fourth quarter of 2007. Overall for fiscal 2008, net accepted orders increased 17.8% to a record-high of US\$184.6 million for a book-to-bill ratio of 1.00. In the fourth quarter of 2008, net bookings totaled US\$45.7 million compared to US\$50.7 million in the third quarter of 2008 and US\$39.5 million in the fourth quarter of 2007.

Gross margin improved to 58.9% of sales in fiscal 2008 from 57.4% in 2007. In the fourth quarter of 2008, gross margin amounted to 59.9% compared to 60.9% in the previous quarter and 57.9% in the fourth quarter of 2007. Fiscal 2008 marked the sixth consecutive year that the company raised its gross margin.

In fiscal 2008, GAAP net earnings reached US\$18.4 million, or US\$0.27 per diluted share, including US\$5.3 million for the recognition of previously unrecognized future income tax assets, an extraordinary gain of US\$3.0 million related to the negative goodwill on the acquisition of Navtel Communications, and a net recovery of income tax of US\$1.2 million to account for new corporate tax rates in Canada and a related review of the company's tax strategy. These items were partially offset by US\$3.0 million in after-tax amortization of intangible assets and US\$1.3 million in stock-based compensation costs.

In 2007, GAAP net earnings totaled US\$42.3 million, or US\$0.61 per diluted share, including US\$27.8 million in recognition of previously unrecognized future income tax assets and tax credits and US\$1.1 million for a government grant recovery. These items were partially offset by US\$2.9 million in after-tax amortization of intangible assets and US\$1.0 million in stock-based compensation costs.

In the fourth quarter of 2008, GAAP net earnings amounted to US\$3.3 million, or US\$0.04 per diluted share, including US\$1.2 million in after-tax amortization of intangible assets and US\$0.4 million in stock-based compensation costs.

In the third quarter of 2008, GAAP net earnings reached US\$11.2 million, or US\$0.16 per diluted share, including US\$5.3 million for the recognition of previously unrecognized future income tax assets and an extraordinary gain of US\$3.0 million related to the negative goodwill on the acquisition of Navtel Communications. These items were partially offset by US\$0.8 million in after-tax amortization of intangible assets and US\$0.3 million in stock-based compensation costs.

In the fourth quarter of 2007, GAAP net earnings totaled US\$33.5 million, or US\$0.48 per diluted share, including US\$27.8 million in recognition of previously unrecognized future income taxes and tax credits and US\$1.1 million

from a government grant recovery. These items were partially offset by US\$0.7 million in after-tax amortization of intangible assets and US\$0.3 million in stock-based compensation costs.

Table of Contents

“Fiscal 2008 has been a year of transformation at EXFO as we positioned ourselves as a leader in next-generation, IP testing and service assurance through exceptional growth of our protocol test business as well as the acquisitions of Navtel Communications and Brix Networks,” said Germain Lamonde, EXFO’s Chairman, President and CEO. “We also expanded our global presence with increased sales and marketing initiatives in targeted countries, a new manufacturing facility in China, and enhanced capabilities at our R&D software center in India. These latest investments should accelerate earnings growth in 2009 and beyond.

“We balanced these longer-term initiatives with significant progress on a short-term basis, namely annual sales growth of 20.2% or more than twice the industry average. I’m especially proud of our higher-margin protocol test business, which posted a sales CAGR of 74.4% during the last three years on the strength of our focus on converged, IP networks. Not coincidentally, our gross margin improved for a sixth consecutive year and I’m optimistic that it will continue its upward trajectory in upcoming years.

“Our EBITDA, however, didn’t grow faster than sales for the first time in five years, as we accepted short-term losses for long-term benefits with the Brix acquisition. Looking ahead, I’m confident that we’ll return to our customary sales/EBITDA growth model, despite a visibly challenging macro-economic environment.”

Operating Expenses

Selling and administrative expenses amounted to US\$61.2 million, or 33.3% of sales, in fiscal 2008 compared to US\$49.6 million, or 32.4% of sales, in 2007. In the fourth quarter of 2008, selling and administrative expenses totaled US\$17.0 million, or 33.4% of sales, compared to US\$15.7 million, or 32.2% of sales, in the third quarter of 2008 and US\$13.0 million, or 30.3% of sales, in the fourth quarter of 2007.

Gross research and development (R&D) expenses reached US\$32.5 million, or 17.7% of sales, in fiscal 2008 compared to US\$25.2 million, or 16.5% of sales, in 2007. In the fourth quarter of 2008, gross R&D expenses attained US\$8.6 million, or 16.8% of sales, compared to US\$8.8 million, or 18.2% of sales, in the previous quarter and US\$7.1 million, or 16.6% of sales, in the fourth quarter of 2007.

Net R&D expenses totaled US\$26.9 million, or 14.6% of sales in fiscal 2008, compared to US\$16.7 million (including US\$3.2 million for the recognition of previously unrecognized R&D tax credits), or 10.9% of sales, in 2007. In the fourth quarter of 2008, net R&D expenses amounted to US\$7.3 million, or 14.3% of sales, compared to US\$7.4 million, or 15.2% of sales, in the third quarter of 2008 and US\$2.3 million (including US\$3.2 million for the recognition of previously unrecognized R&D tax credits), or 5.4% of sales, in the fourth quarter of 2007.

Fiscal 2008 and Fourth-Quarter Business Highlights

- § Market expansion — EXFO increased its annual sales 20.2% to US\$183.8 million, while the company's stated goal was 20% for the fiscal year. Telecom Division sales improved 24.0% year over year, led by 97.4% growth in the protocol test business (including a US\$5.4 million revenue contribution from Brix and Navtel) and 12.7% increase in the optical test business. In terms of geographic diversification, the Americas accounted for 55.8% of sales in 2008, Europe, Middle East and Africa (EMEA) 28.4%, and Asia-Pacific 15.8%. The Americas, EMEA and Asia-Pacific regions posted annual growth rates of 12.8%, 26.3% and 40.1% respectively. EXFO's sales to its largest customer dropped to 7.4% of total revenue in 2008, despite increasing market share at this account. Excluding sales to this customer, Telecom Division sales would have increased 37.3% year over year, while sales to the United States would have increased 28.7% year over year.
- § Profitability — GAAP earnings from operations amounted to 6.5% of sales in 2008, including 7.0% in the fourth quarter, while the company's goal was 8% for the fiscal year. The shortfall is mainly due to the short-term negative impact of the Brix Networks acquisition. EXFO also generated US\$13.8 million in cash flows from operating activities in 2008, bringing its cash and short-term investments to US\$87.5 million.
- § Innovation — EXFO launched 27 new products in fiscal 2008, including seven in the fourth quarter, compared to 20 in 2007. Key product releases in the fourth quarter of 2008 included amongst others a triple-play test set for ADSL2+/VDSL2 network deployments and a new Gigabit Ethernet software option for the Packet Blazer test modules that enables Internet Protocol/Multi-Protocol Label Switching (IP/MPLS) testing. Following the year-end, the company introduced an enhanced version of Navtel's InterWatch platform that simulates up to 256,000 unique IPv6 subscriber addresses per chassis, and new software features on the Transport Blazer test modules for characterizing 40G/43G SONET/SDH networks. Products on the market two years or less accounted for 34.6% of sales in fiscal 2008, including 29.0% in the fourth quarter, while the company's published goal was 30% for the fiscal year.

Business Outlook

EXFO forecasts sales between US\$45.0 million and US\$50.0 million and GAAP net earnings (net loss) between a net loss of US\$0.03 per diluted share and net earnings of US\$0.01 per diluted share for the first quarter of fiscal 2009. The GAAP net earnings/loss outlook includes US\$0.02 per diluted share in after-tax amortization of intangible assets

and stock-based compensation costs.

Table of Contents

Corporate Performance Results for Fiscal 2008

EXFO reported the following corporate performance results for fiscal 2008:

	Objective	Metric	2008 Result
	Increase sales (% of year-over-year growth)	20%	20.2%
	Maximize profitability (operating margin in %)	8%	6.5%
	Focus on innovation (sales % from products <2 years on market)	30%	34.6%

Long-Term Corporate Performance Objectives (Three-Year Plan)

EXFO disclosed the following three corporate performance objectives and related metrics for its three-year strategic plan ending at the close of fiscal 2011. These long-term objectives are meant to replace the performance goals that the company provided on an annual basis. These new objectives reflect the clear direction management is taking towards long-term value creation.

Objective	Three-Year Metric
Grow sales approximately 2 times faster than the industry rate	20% CAGR
Increase EBITDA* faster than sales	>20% CAGR
Raise gross margin to a sustainable level above 60% of sales	62%

*EBITDA is defined as net earnings before interest, income taxes, amortization of property, plant and equipment, amortization of intangible assets, and extraordinary gain.

Conference Call and Webcast

EXFO will host a conference call today at 5 p.m. (Eastern time) to review its fourth-quarter and year-end financial results for fiscal 2008. To listen to the conference call and participate in the question period via telephone, dial 1-416-620-5690. Germain Lamonde, Chairman, President and CEO, and Pierre Plamondon, CA, Vice-President of Finance and Chief Financial Officer, will participate in the call. An audio replay will be available one hour after the end of the conference call until 7 p.m. on October 22, 2008. The replay number is 1-402-977-9141 and the reservation number is 21393109. The live audio Webcast and replay of the conference call will also be available on EXFO's Website at www.EXFO.com/investors.

About EXFO

EXFO is a leading provider of test and monitoring solutions for network service providers and equipment manufacturers in the global telecommunications industry. The Telecom Division offers a wide range of innovative solutions extending across the full technology lifecycle from design to technology deployment and onto service assurance and covering all layers on a network infrastructure to enable triple-play services and next-generation, converged IP networking. The Life Sciences and Industrial Division offers solutions in medical device and opto-electronics assembly, fluorescence microscopy and other life science sectors. For more information, visit www.EXFO.com.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995, and we intend that such forward-looking statements be subject to the safe harbors created thereby. Forward-looking statements are statements other than historical information or statements of current condition. Words such as may, will, expect, believe, anticipate, intend, could, estimate, continue, or the negative or comparable terminology are intended to identify forward-looking statements. In addition, any statements that refer to expectations, projections or other characterizations of future events and circumstances are considered forward-looking

statements. They are not guarantees of future performance and involve risks and uncertainties.

Table of Contents

Actual results may differ materially from those in forward-looking statements due to various factors including consolidation in the global telecommunications test, measurement and monitoring industry; capital spending levels in the telecommunications, life sciences and high-precision assembly sectors; concentration of sales; fluctuating exchange rates and our ability to execute in these uncertain conditions; the effects of the additional actions we have taken in response to such economic uncertainty (including our ability to quickly adapt cost structures with anticipated levels of business, ability to manage inventory levels with market demand); market acceptance of our new products and other upcoming products; limited visibility with regards to customer orders and the timing of such orders; our ability to successfully integrate our acquired and to-be-acquired businesses; our ability to successfully expand international operations; the retention of key technical and management personnel; and future economic, competitive, financial and market conditions, including any slowdown or recession in the global economy. Assumptions relating to the foregoing involve judgments and risks, all of which are difficult or impossible to predict and many of which are beyond our control. Other risk factors that may affect our future performance and operations are detailed in our Annual Report, on Form 20-F, and our other filings with the U.S. Securities and Exchange Commission and the Canadian securities commissions. We believe that the expectations reflected in the forward-looking statements are reasonable based on information currently available to us, but we cannot assure you that the expectations will prove to have been correct. Accordingly, you should not place undue reliance on these forward-looking statements. These statements speak only as of the date of this document. Unless required by law or applicable regulations, we undertake no obligation to revise or update any of them to reflect events or circumstances that occur after the date of this document.
