Forward-Looking Statements

This Quarterly Report on Form 10-Q contains certain estimates, predictions, and other “forward-looking statements” (as defined in the Private Securities Litigation Reform Act of 1995, and within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended).

Forward-looking statements are generally identified with the words “believe,” “expect,” “anticipate,” “intend,” “estimate,” “target,” “may,” “will,” “plan,” “project,” “should,” “continue,” or the negative thereof or other similar expressions, or discussion of future goals or aspirations, which are predictions of or indicate future events and trends and which do not relate to historical matters. Such statements are based on information available to management as of the time of such statements and relate to, among other things, expectations of the business environment in which we operate, projections of future performance (financial and otherwise), including those of acquired companies, perceived opportunities in the market and statements regarding our mission and vision. Forward-looking statements involve known and unknown risks, uncertainties, and other factors, which may cause actual results, performance, or achievements to differ materially from anticipated future results, performance or achievements expressed or implied by such forward-looking statements. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise.

Factors that could cause actual results to differ from those expected include, but are not limited to, general economic conditions caused by inflation, interest rates, consumer confidence, rates of unemployment and foreign currency exchange rates; global economic conditions; investment performance of assets in our pension plans; competitive conditions within our markets, including the acceptance of our new and existing products; potential loss of business or increased costs due to customer or vendor consolidation; customer contract bidding activity; threats or challenges to our patented or proprietary technologies; raw materials: costs, availability, and terms (particularly for polymer resins and adhesives); price changes for raw materials and our ability to pass these price changes on to our customers or otherwise manage commodity price fluctuation risks; unexpected energy surcharges; broad changes in customer order patterns; a failure in our information technology infrastructure or applications; changes in governmental regulation, especially in the areas of environmental, health and safety matters, fiscal incentives, and foreign investment; unexpected outcomes in our current and future administrative and litigation proceedings; unexpected outcomes in our current and future tax proceedings; changes in domestic and international tax laws; costs associated with the pursuit of business combinations or divestitures; unexpected costs associated with the integration of acquired businesses; unexpected costs and timing related to transition of production; changes in our labor relations; and the impact of changes in the world political environment including threatened or actual armed conflict. These and other risks, uncertainties, and assumptions identified from time to time in our filings with the Securities and Exchange Commission, including without limitation, those described in our Annual Report on Form 10-K for the year ended December 31, 2014 and our quarterly reports on Form 10-Q, could cause actual future results to differ materially from those projected in the forward-looking statements. In addition, actual future results could differ materially from those projected in the forward-looking statement as a result of changes in the assumptions used in making such forward-looking statement.

BEMIS COMPANY, INC. AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 — Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared by Bemis Company, Inc. (the "Company") in accordance with accounting principles for interim financial information generally accepted in the United States and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all the information and footnotes necessary for a comprehensive presentation of financial position and results of operations. It is management's opinion, however, that all material adjustments (consisting of normal recurring accruals) have been made which are necessary for a fair financial statement presentation. For further information, refer to the consolidated financial statements and footnotes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

As noted in Note 2 - New Accounting Guidance, the Company early adopted new guidance related to the presentation of debt issuance costs.

Additionally, during the first half of 2015 the Company revised certain internal working capital metrics and goals. To align external reporting with these metrics, the Company has reclassified certain amounts from "Accounts receivable, net" to "Prepaid expenses and other current assets" and from "Accounts payable" to "Employee-related liabilities" (see table below). Included within the amounts reclassified from "Accounts receivable, net" were vendor rebates, value-added taxes, and other non-trade receivables that included divestiture-related receivables. The Company also renamed "Accounts receivable, net" to "Trade receivables", and "Accrued salaries and wages" to "Employee-related liabilities" to provide more clarity.

(in millions)	December 31, 2014 (As reported)	Reclassification	December 31, 2014 (As reclassified)
Trade receivables	\$566.1	\$(69.8) \$496.3
Prepaid expenses and other current assets	98.8	69.8	168.6
Deferred charges and other assets	52.7	(4.3) 48.4
Accounts payable	272.4	(4.2) 268.2
Employee-related liabilities	86.6	4.2	90.8
Long-term debt	1,315.9	(4.3) 1,311.6

Note 2 — New Accounting Guidance

In July 2015, the Financial Accounting Standards Board ("FASB") issued guidance that simplifies the subsequent measurement of inventory by requiring inventory to be measured at the lower of cost and net realizable value. Entities already calculate net realizable value when applying today's lower of cost or market guidance, and the new guidance does not change that calculation. For inventory within the scope of the new guidance, entities will be required to compare the cost of inventory to only its net realizable value, and not to the three measures required by current guidance. The guidance is required to be applied by the Company in the first quarter of 2017, but early adoption is permitted. The Company is currently evaluating the impact of the new standard on its consolidated financial statements.

In April 2015, the FASB issued new guidance to simplify the presentation of debt issuance costs by requiring debt issuance costs to be presented as a deduction from the corresponding debt liability. This will make the presentation of debt issuance costs consistent with the presentation of debt discounts or premiums. Current guidance generally

requires entities to capitalize costs paid to third parties that are directly related to issuing debt and that otherwise wouldn't be incurred and present those amounts separately as deferred charges. The new guidance requires the discount or premium resulting from the difference between the net proceeds received upon debt issuance and the amount payable at maturity to be presented as a direct deduction from or an addition to the face amount of the debt. The guidance was early adopted as noted in Note 1.

In May 2014, the FASB issued new guidance which supersedes current revenue recognition requirements. This guidance is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In July 2015, the FASB voted to defer for one year the effective date of the new revenue standard. The guidance is required to be applied by the Company in the first quarter of fiscal 2018 using one of two retrospective application methods. The FASB also decided to permit entities to early adopt the standard. The Company is currently evaluating the application methods and the impact of this new statement on the Company's consolidated financial position, results of operations, and cash flows.

In April 2014, the FASB issued new guidance that redefines a discontinued operation as a component or group of components that has been disposed of or is classified as held for sale and represents a strategic shift that has (or will have) a major effect on an entity's financial results. Continuing involvement no longer precludes presentation as a discontinued operation. The guidance is required to be applied by the Company prospectively to new disposals and new classifications of disposal groups as held for sale beginning in fiscal 2015. While early adoption was permitted, the Company did not early adopt this guidance for its divestiture of its Pressure Sensitive Materials business. The Company does not expect the adoption of this standard will have a material impact on its consolidated financial statements.

Note 3 — Divestitures and Plant Closure

Bemis Healthcare Packaging Plant Closure

In January 2015, the Company announced that it will close a plant in Philadelphia, Pennsylvania, one of its healthcare packaging facilities. Total estimated costs are approximately \$8 million, with approximately \$6 million in cash payments expected. During the six months ended June 30, 2015, plant closure costs of \$5.3 million were recorded. These costs were recorded within restructuring costs and included the Company's best estimate of a withdrawal liability for a multi-employer pension plan settlement. Management expects to cease operations at this location by the end of 2015, with all closure costs to be incurred during fiscal 2015. Approximately half of cash payments are expected in late 2015 and half in 2016.

Divestiture of Pressure Sensitive Materials Business

On November 7, 2014, the Company completed the sale of its global Pressure Sensitive Materials business. Proceeds of the transaction totaled \$150.5 million. Of the total proceeds, \$136.9 million was received in fiscal 2014 and \$13.6 million was received in April 2015 which related to settlement of customary post-closing adjustments. The following table summarizes the results of the Pressure Sensitive Materials business, classified as discontinued operations for the three and six month periods ended June 30, 2015 and 2014:

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Net sales	\$—	\$144.0	\$—	\$286.8
Income (loss) from discontinued operations before income taxes	\$—	\$9.1	\$(3.7)	\$(7.2)
Provision for (benefit of) income taxes on discontinued operations	—	4.0	(1.1)	(1.8)
Income (loss) from discontinued operations, net of tax	\$—	\$5.1	\$(2.6)	\$(5.4)

Loss from discontinued operations in 2015 resulted from additional impairment charges, net of tax, reflecting finalization of post-closing adjustments. Income (loss) from discontinued operations in 2014 includes the operating results of the Pressure Sensitive Materials business, direct transaction costs associated with the divestiture, \$25.0 million of plant closure costs associated with the Stow, Ohio facility, and the associated income tax effects of these items.

Divestiture of Paper Packaging Division

On March 31, 2014, the Company completed the sale of its Paper Packaging Division. Annual net sales by this division were approximately \$160 million. Net proceeds of the transaction totaled \$79.8 million for the six months ended June 30, 2014. A \$9.4 million pre-tax gain on the sale was recorded as part of other non-operating income for

the six months ended June 30, 2014.

Note 4 — Financial Assets and Financial Liabilities Measured at Fair Value

The fair values of the Company's financial assets and financial liabilities listed below reflect the amounts that would be received to sell the assets or paid to transfer the liabilities in an orderly transaction between market participants at the measurement date (exit price).

The Company's non-derivative financial instruments include cash and cash equivalents, accounts receivable, accounts payable, short-term borrowings, and long-term debt. At June 30, 2015 and December 31, 2014, the carrying value of these financial instruments, excluding long-term debt, approximates fair value because of the short-term maturities of these instruments.

Fair value disclosures are classified based on the fair value hierarchy. Level 1 fair value measurements represent exchange-traded securities which are valued at quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access as of the reporting date. Level 2 fair value measurements are determined using input prices that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data. Level 3 fair value measurements are determined using unobservable inputs, such as internally developed pricing models for the asset or liability due to little or no market activity for the asset or liability.

The fair value measurements of the Company's long-term debt represent non-active market exchange-traded securities which are valued at quoted prices or using input prices that are directly observable or indirectly observable through corroboration with observable market data. The carrying values and estimated fair values of long-term debt at June 30, 2015 and December 31, 2014 follow:

(in millions)	June 30, 2015		December 31, 2014	
	Carrying Value	Fair Value (Level 2)	Carrying Value	Fair Value (Level 2)
Long-term debt	\$1,357.8	\$1,447.4	\$1,311.6	\$1,410.9

The fair values for derivatives are based on inputs other than quoted prices that are observable for the asset or liability. These inputs include interest rates. The financial assets and financial liabilities are primarily valued using standard calculations / models that use as their basis readily observable market parameters. Industry standard data providers are the primary source for forward and spot rate information for both interest rates and currency rates, with resulting valuations periodically validated through third-party or counterparty quotes. The fair value of the Company's derivatives follow:

(in millions)	Fair Value As of	Fair Value As of
	June 30, 2015 (Level 2)	December 31, 2014 (Level 2)
Interest rate swaps — net asset position	\$1.1	\$1.0

Note 5 — Derivative Instruments

The Company enters into derivative transactions to manage exposures arising in the normal course of business. The Company does not enter into derivative transactions for speculative or trading purposes. The Company recognizes all derivative instruments on the balance sheet at fair value. Derivatives not designated as hedging instruments are adjusted to fair value through income. Depending on the nature of derivatives designated as hedging instruments, changes in the fair value are either offset against the change in fair value of the hedged assets, liabilities, or firm

commitments through earnings or recognized in shareholders' equity through other comprehensive income until the hedged item is recognized. Gains or losses, if any, related to the ineffective portion of any hedge are recognized through earnings in the current period.

The Company enters into interest rate swap contracts to economically convert a portion of the Company's fixed-rate debt to variable rate debt. During the fourth quarter of 2011, the Company entered into four interest rate swap agreements with a total notional amount of \$400 million. These contracts were designated as fair value hedges of the Company's \$400 million 4.50 percent fixed-rate debt due in 2021. The variable rate for each of the interest rate swaps is based on the six-month London Interbank Offered Rate (LIBOR), set in arrears, plus a fixed spread. The variable rates are reset semi-annually at each net settlement date. Fair values of these interest rate swaps are determined using discounted cash flow or other appropriate

methodologies. Asset positions are included in deferred charges and other assets with a corresponding increase in long-term debt. Liability positions are included in other liabilities and deferred credits with a corresponding decrease in long-term debt.

The Company enters into forward exchange contracts to manage foreign currency exchange rate exposures associated with certain foreign currency denominated receivables and payables. Forward exchange contracts generally have maturities of less than six months and relate primarily to major Western European currencies for the Company's European operations, the U.S. dollar for the Company's Brazilian operations, and the U.S. and Australian dollars for the Company's New Zealand and Australian operations. The Company has not designated these derivative instruments as hedging instruments. At June 30, 2015 and December 31, 2014, the Company had outstanding forward exchange contracts with notional amounts aggregating \$3.6 million and \$2.3 million, respectively. The net settlement amount (fair value) related to active forward exchange contracts is recorded on the balance sheet as either a current or long-term asset or liability and as an element of other operating income which offsets the related transaction gains or losses. The net settlement amounts were immaterial for all periods presented.

The Company is exposed to credit loss in the event of non-performance by counterparties in forward exchange contracts and interest-rate swap contracts. Collateral is generally not required of the counterparties or of the Company. In the event a counterparty fails to meet the contractual terms of a currency swap or forward exchange contract, the Company's risk is limited to the fair value of the instrument. The Company actively monitors its exposure to credit risk through the use of credit approvals and credit limits, and by selecting major international banks and financial institutions as counterparties. The Company has not had any historical instances of non-performance by any counterparties, nor does it anticipate any future instances of non-performance.

The fair values, balance sheet presentation, and the hedge designation status of derivative instruments at June 30, 2015 and December 31, 2014 are presented in the table below:

(in millions)	Balance Sheet Location	Fair Value (Level 2) As of	
		June 30, 2015	December 31, 2014

Inventories are valued at the lower of cost, as determined by the first-in, first-out ("FIFO") method, or market. Inventory values using the FIFO method of accounting approximate replacement cost. Inventories are summarized as

follows:

(in millions)	June 30, 2015	December 31, 2014
Raw materials and supplies	\$179.9	\$193.9
Work in process and finished goods	377.1	381.9

Customer based	183.1	(75.5	188.4	(73.6
Reported balance	\$285.2	\$(127.7	\$296.4	\$(127.8

Amortization expense for intangible assets was \$7.2 million and \$7.8 million during the first six months of 2015 and 2014, respectively. Estimated amortization expense is \$7.2 million for the remainder of 2015; \$14.3 million for 2016; \$14.2 million for 2017 and 2018; \$14.0 million for 2019, and \$13.3 million for 2020. The Company does not have any accumulated impairment losses.

Note 8 — Components of Net Periodic Benefit Cost

Benefit costs for defined benefit pension plans are shown below. The funding policy and assumptions disclosed in the Company's 2014 Annual Report on Form 10-K are expected to continue unchanged throughout 2015.

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Service cost - benefits earned during the period	\$1.9	\$2.0	\$3.9	\$3.9

Net periodic benefit cost	\$2.7	\$1.7	\$5.4	\$4.8

Costs for defined contribution pension plans were \$4.5 million and \$9.7 million for the three and six months ended June 30, 2015. Costs for defined contribution pension plans were \$5.1 million and \$10.5 million for the three and six months ended June 30, 2014. Benefit costs for other postretirement plans were not significant for the six months ended June 30, 2015. For the six months ended June 30, 2014, a curtailment benefit of \$3.0 million was recorded related to other postretirement plan changes.

Note 9 — Accumulated Other Comprehensive Loss

The components and activity of accumulated other comprehensive loss are as follows:

(in millions)	Foreign Currency Translation	Pension And Other Postretirement Liability Adjustments	Accumulated Other Comprehensive Loss
December 31, 2013	\$(8.0)	\$(90.7)	\$(98.7)

Total	\$3.2	\$2.1	\$6.4	\$3.3

Accumulated other comprehensive loss associated with pension and other postretirement liability adjustments are net of tax effects of \$81.9 million and \$85.9 million as of June 30, 2015 and December 31, 2014, respectively. Other comprehensive income before reclassifications of \$7.7 million (\$4.8 million, net of tax) for the three and six months ended June 30, 2014, related to remeasurement of other postretirement plans triggered by curtailment. Refer to Note 8 — Components of Net Periodic Benefit Cost for additional detail.

Note 10 — Earnings Per Share Computations

A reconciliation of basic and diluted earnings per share is below:

(in millions, except per share amounts)	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014

Diluted	\$0.67	\$0.65	\$1.22	\$1.13

Certain stock awards outstanding were not included in the computation of diluted earnings per share above because they would not have had a dilutive effect. There were no anti-dilutive stock awards outstanding for the three and six months ended June 30, 2015. The excluded stock awards represented an aggregate of 0.4 million shares for the three and six months ended June 30, 2014.

Note 11 — Legal Proceedings

The Company is involved in a number of lawsuits incidental to its business, including environmental-related litigation and routine litigation arising in the ordinary course of business. Although it is difficult to predict the ultimate outcome of these cases, the Company believes, except as discussed below, that any ultimate liability would not have a material adverse effect on the Company's consolidated financial condition or results of operations.

Environmental Matters

The Company is a potentially responsible party ("PRP") pursuant to the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (commonly known as "Superfund") and similar state and foreign laws in proceedings associated with 17 sites around the United States and one in Brazil. These proceedings were instituted by the United States Environmental Protection Agency and certain state and foreign environmental agencies at various times beginning in 1983. Superfund and similar state and foreign laws create liability for investigation and remediation in response to releases of hazardous substances in the environment. Under these statutes, joint and several liability may be imposed on waste generators, site owners and operators, and others regardless of fault. Although these regulations could require the Company to remove or mitigate the effects on the environment at various sites, perform remediation work at such sites, or pay damages for loss of use and non-use values, the Company expects its liability in these proceedings to be limited to monetary damages. The Company expects its future liability relative to these sites to be insignificant, individually and in the aggregate.

The Company is involved in other environmental-related litigation arising in the ordinary course of business. The Company accrues environmental costs when it is probable that these costs will be incurred and can be reasonably estimated. The Company's reserve for environmental liabilities at June 30, 2015 and December 31, 2014 was \$6.6 million and \$6.1 million, respectively.

Brazil Tax Dispute - Goodwill Amortization

During October 2013, Dixie Toga, Ltda ("Dixie Toga") received an income tax assessment in Brazil for the tax years 2009 through 2011 that relates to the amortization of certain goodwill generated from the acquisition of Dixie Toga. The income tax assessed for those years is approximately \$12.3 million, translated to U.S. dollars at the June 30, 2015 exchange rate. The Company expects that tax examinations for years after 2011 will include similar assessments as the Company continues to claim the tax benefits associated with the goodwill amortization. An ultimate adverse resolution on these

assessments, including interest and penalties, could be material to the Company's consolidated results of operations and/or cash flows.

The Company has been advised by its legal and tax advisors that its position with respect to the deductions is allowable under the tax laws of Brazil. The Company is contesting the disallowance and believes it is more likely than not the tax benefit will be sustained in its entirety and consequently has not recorded a liability. The Company intends to litigate the matter if it is not resolved at the administrative appeals levels. The ultimate outcome will not be determined until the Brazilian tax appeal process is complete, which could take several years. At this time, the Company believes that final resolution of the assessment will not have a material impact on the Company's consolidated financial statements.

Brazil Investigation

On September 18, 2007, the Secretariat of Economic Law ("SDE"), a governmental agency in Brazil, initiated an investigation into possible anti-competitive practices in the Brazilian flexible packaging industry against a number of Brazilian companies including a Dixie Toga subsidiary. The investigation relates to periods prior to the Company's acquisition of control of Dixie Toga and its subsidiaries. Given the nature of the proceedings, the Company is unable at the present time to predict the outcome of this matter.

Note 12 — Segments of Business

The Company's business activities are organized around and aggregated into its two principal business segments, U.S. Packaging and Global Packaging, based on their similar economic characteristics, products, production process, types of customers, and distribution methods. Both internal and external reporting conforms to this organizational structure, with no significant differences in accounting policies applied. Minor intersegment sales are generally priced to reflect nominal markups. The Company evaluates the performance of its segments and allocates resources to them based primarily on operating profit, which is defined as profit before general corporate expense, interest expense, other non-operating income, and income taxes.

A summary of the Company's business activities reported by its two business segments follows:

Business Segments (in millions)	Three Months Ended June		Six Months Ended June	
	30, 2015	2014	30, 2015	2014

Note 13 — Subsequent Event

In July 2015, the Company signed a definitive agreement to acquire the South American rigid plastic packaging operations of Emplal Participacoes S.A., a Brazilian manufacturer of plastic packaging for food and consumer applications. This rigid packaging business, which includes two facilities in Brazil, recorded annual net sales of approximately \$75 million in 2014. The transaction is expected to close by the end of 2015, subject to customary closing conditions and regulatory review.

Overview

Bemis Company, Inc. is a leading global manufacturer of packaging supplying a variety of markets. Historically, about 75 percent of our total net sales are to customers in the food industry. Sales of our packaging products are widely diversified among food categories and can be found in nearly every aisle of the grocery store. Our emphasis on supplying packaging to the food industry has typically provided a more stable market environment for our U.S. Packaging and Global Packaging business segments.

Market Conditions

The markets into which our products are sold are highly competitive. Our leading market positions in packaging for perishable food and medical device products reflect our focus on value-added, proprietary products that provide food safety and sterility benefits. We also manufacture products for which our technical know-how and economies of scale offer us a competitive advantage. The primary raw materials for our business segments are polymer resins and films, paper, inks, adhesives, aluminum, and chemicals.

Discontinued Operations

On November 7, 2014, the Company completed the sale of its global Pressure Sensitive Materials business. Proceeds of the transaction totaled \$150.5 million. Of the total proceeds, \$136.9 million was received in fiscal 2014 and \$13.6 million was received in April 2015 which related to settlement of customary post-closing adjustments.

The Pressure Sensitive Materials business meets the criteria to be classified as a discontinued operation, which requires retrospective application to certain financial information for all periods presented. Amounts included in the consolidated statement of income have been recast to exclude Pressure Sensitive Materials amounts. The consolidated statement of cash flows for all periods includes both continuing and discontinued operations.

Loss from discontinued operations in 2015 resulted from additional impairment charges, net of tax, reflecting finalization of post-closing adjustments. Loss from discontinued operations in 2014 includes the operating results of the Pressure Sensitive Materials business, direct transaction costs associated with the divestiture, \$25.0 million of plant closure costs associated with the Stow, Ohio facility, and the associated income tax effects of these items.

Divestiture

Divestiture of Paper Packaging Division

On March 31, 2014, we completed the sale of our Paper Packaging Division. Annual net sales by this division were approximately \$160 million. Net proceeds of the transaction totaled \$79.8 million for the six months ended June 30, 2014, subject to customary post-closing adjustments. A \$9.4 million pre-tax gain on the sale was recorded as part of other non-operating income for the six months ended June 30, 2014.

Results of Operations — Second Quarter 2015

Consolidated Overview

(in millions, except per share amounts)

	2015	2014
Net sales	\$1,030.3	\$1,097.6
Income from continuing operations	65.6	60.7
Diluted earnings per share from continuing operations	0.67	0.60

Net sales for the second quarter of 2015 decreased 6.1 percent compared to the same period of 2014. The impact of currency translation reduced net sales by 5.4 percent. The remaining 0.7 percent decrease in net sales was driven by an approximate 2 percent reduction from lower volume, partially offset by the benefit of sales price and mix.

Diluted earnings per share from continuing operations for the second quarter of 2015 were \$0.67 compared to \$0.60 reported in the same quarter of 2014.

U.S. Packaging Business Segment

(dollars in millions)

	2015	2014
Net sales	\$694.7	\$725.8
Operating profit	102.9	101.0
Operating profit as a percentage of net sales	14.8	% 13.9

For the second quarter of 2015, U.S. Packaging net sales decreased 4.3 percent compared to the same period of 2014, reflecting an approximate 5 percent decrease in unit volumes, partially offset by an increase in sales price and mix. Unit volumes declined primarily from the impact of the Company's strategic pricing decisions.

Operating profit for the second quarter of 2015 was \$102.9 million, or 14.8 percent of net sales, compared to \$101.0 million, or 13.9 percent of net sales in 2014. This margin improvement primarily reflects continued operational improvements and sales mix benefits, partially offset by the impact of lower unit volumes.

Global Packaging Business Segment

(dollars in millions)

	2015	2014
Net sales	\$335.6	\$371.8
Operating profit (See Note 12 to the Condensed Consolidated Financial Statements)	27.0	26.6
Operating profit as a percentage of net sales	8.0	% 7.2

For the second quarter of 2015, Global Packaging net sales decreased 9.7 percent compared to the second quarter of 2014. The impact of currency translation reduced net sales by 15.9 percent, primarily driven by currencies in Latin America. Excluding the impact of currency translation, net sales increased 6.2 percent, reflecting an increase in unit volumes of approximately 5 percent, along with positive sales price and mix.

Operating profit for the second quarter of 2015 was \$27.0 million, or 8.0 percent of net sales, compared to \$26.6 million, or 7.2 percent of net sales, in 2014. The net effect of currency translation decreased operating profit during the second quarter of 2015 by \$4.9 million compared to the same period of 2014, primarily driven by currencies in Latin America. Margin improvement in this segment reflects strong operating performance and the overall favorable impact of increased sales of sophisticated, value-added packaging.

Consolidated Gross Profit (dollars in millions)	2015	2014		
Gross profit	\$221.2	\$219.0		
Gross profit as a percentage of net sales	21.5	% 20.0		%

Gross profit in 2015 reflects the benefits of improvements in sales mix and operational efficiencies.

Interest Expense (dollars in millions)	2015	2014		
Interest expense	\$12.8	\$17.0		
Effective interest rate	3.7	% 4.6		%

Interest expense declined as a result of refinancing bonds that matured August 1, 2014 with lower variable rate debt.

Consolidated Income Taxes (dollars in millions)	2015	2014		
Income taxes	\$33.0	\$30.6		
Effective tax rate	33.5	% 33.5		%

We expect the effective income tax rate for the full year of 2015 to be slightly less than 34 percent.

Results of Operations — Six Months Ended June 30, 2015

Consolidated Overview (in millions, except per share amounts)	2015	2014		
Net sales	\$2,070.4	\$2,192.6		
Income from continuing operations	122.6	120.4		
Diluted earnings per share from continuing operations	1.25	1.18		

Net sales for the six months ended June 30, 2015, decreased 5.6 percent from the same period of 2014. The impact of currency translation reduced net sales by 4.7 percent. The divestiture of the Paper Packaging Division in 2014 reduced sales by 1.7 percent. The remaining 0.8 percent increase in net sales represents a net benefit of increased selling prices and sales mix offset by an approximate 1 percent reduction from lower volume.

Diluted earnings per share from continuing operations for the six months ended June 30, 2015 were \$1.25 compared to \$1.18 reported in the same period of 2014. Results for 2015 included a \$0.03 charge from a healthcare packaging plant closure. Results for 2014 included a \$0.06 gain on the sale of the Paper Packaging Division.

U.S. Packaging Business Segment (dollars in millions)	2015	2014		
Net sales	\$1,401.7	\$1,464.0		
Operating profit	198.3	192.8		
Operating profit as a percentage of net sales	14.1	% 13.2		%

U.S. Packaging net sales decreased 4.3 percent in the six months ended June 30, 2015, compared to the same period of 2014. The first quarter 2014 divestiture of the Paper Packaging Division reduced sales by 2.6 percent. The remaining 1.7 percent decrease in net sales reflects an approximate 3 percent decrease in unit volumes, partially offset by an increase in sales price and mix.

Edgar Filing: BEMIS CO INC - Form 10-Q

Operating profit for the six months ended June 30, 2015 was \$198.3 million, or 14.1 percent of net sales, compared to \$192.8 million, or 13.2 percent of net sales, in 2014. As compared to the prior year, 2015 operating profit results reflect continued operational improvements and sales mix benefits, partially offset by the impact of lower unit volumes.

Global Packaging Business Segment

(dollars in millions)	2015	2014		
Net sales	\$668.7	\$728.6		
Operating profit (See Note 12 to the Condensed Consolidated Financial Statements)	51.3	50.7		
Operating profit as a percentage of net sales	7.7	% 7.0		%

Global Packaging net sales decreased 8.2 percent in the six months ended June 30, 2015 compared to the same period of 2014. The impact of currency translation reduced net sales by 14.1 percent, primarily driven by currencies in Latin America. The remaining 5.9 percent increase in Global Packaging net sales reflects an approximate 2 percent increase in unit volumes, along with positive sales price and mix.

Operating profit for the six months ended June 30, 2015 was \$51.3 million, or 7.7 percent of net sales, compared to \$50.7 million, or 7.0 percent of net sales, in 2014. The net effect of currency translation decreased operating profit during the first half of 2015 by \$8.7 million. During the year, management initiated the planned closure of one of its healthcare packaging plants, resulting in a \$5.3 million pre-tax charge. Underlying margin improvement in the Global Packaging segment reflects strong operating performance and the overall favorable impact of increased sales of sophisticated, value-added packaging.

Consolidated Gross Profit

(dollars in millions)	2015	2014		
Gross Profit	\$438.7	\$429.9		
Gross profit as a percentage of sales	21.2	% 19.6		%

Gross profit in 2015 reflects the benefits of improvements in sales mix, operational efficiencies, and a minimal benefit in the first quarter from the decline in resin prices.

Interest Expense

(dollars in millions)	2015	2014		
Interest expense	\$25.9	\$33.9		
Effective interest rate	3.8	% 4.7		%

Interest expense declined primarily as a result of refinancing bonds that matured August 1, 2014 with lower variable rate debt.

Other Non-operating Income

(in millions)	2015	2014		
Other non-operating income	\$(4.0) \$(14.4)	

A \$9.4 million pre-tax gain related to the sale of the Paper Packaging Division was recorded in the six months ended June 30, 2014.

Liquidity and Capital Resources

Net Debt to Total Capitalization

Net debt to total capitalization (which includes total debt net of cash balances divided by total debt net of cash balances plus equity) was 49.1 percent and 47.5 percent at June 30, 2015 and December 31, 2014, respectively. Total debt as of June 30, 2015 and December 31, 2014 was \$1.4 billion and \$1.3 billion, respectively.

Cash Flow

Net cash provided by operating activities was \$218.5 million for the first half of 2015, compared to \$70.4 million for the first half of 2014. Strong cash flow was driven by disciplined management of working capital during 2015. Additionally, in 2014 we used \$20 million of cash for payments related to the closure of one of the Pressure Sensitive Materials plants.

Net cash used in investing activities was \$75.3 million for the first six months of 2015 compared to cash provided by investing activities of \$18.3 million for the same period of 2014. Capital expenditures were \$96.3 million for the first six months of 2015 compared to \$69.3 million for the first six months of 2014 reflecting the improved timing of executing planned projects to support growth and operational efficiency. In 2014 we received \$79.8 million as net proceeds from the divestiture of the Paper Packaging Division.

Net cash used in financing activities was \$100.2 million for the six months ended June 30, 2015, compared to \$108.6 million for the same period of 2014.

Available Financing

In addition to using cash provided by operating activities, we issue commercial paper to meet our short-term liquidity needs. As of June 30, 2015, our commercial paper debt outstanding was \$360.8 million. Based on our current credit rating, we enjoy ready access to the commercial paper markets.

On August 12, 2013, we amended our revolving credit facility to increase the total amount available from \$800 million to \$1.1 billion and to extend the term from July 21, 2016 to August 12, 2018. This facility is principally used as back-up for our commercial paper program. Our revolving credit facility is supported by a group of major U.S. and international banks. Covenants imposed by the revolving credit facility include minimum net worth calculations and a maximum ratio of debt to total capitalization. The revolving credit agreement includes a \$100 million multicurrency limit to support the financing needs of our international subsidiaries. As of June 30, 2015, there was \$360.8 million of debt outstanding supported by this credit facility, leaving \$739.2 million of available credit. If we were not able to issue commercial paper, we would expect to meet our financial liquidity needs by accessing the bank market, which would increase our borrowing costs. Borrowings under the credit agreement are subject to a variable interest rate.

Liquidity Outlook

We expect cash flow from operations and available liquidity described above to be sufficient to support future operating activities. There can be no assurance, however, that the cost or availability of future borrowings will not be impacted by future capital market disruptions.

Dividends

In February 2015, the Board of Directors approved the 32nd consecutive annual increase in the quarterly cash dividend on common stock to \$0.28 per share, a 3.7 percent increase.

New Accounting Pronouncements

Refer to Note 2 — New Accounting Guidance in the Condensed Consolidated Financial Statements.

Critical Accounting Estimates and Judgments

Our discussion and analysis of our financial condition and results of operations is based on our consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period. On an ongoing basis, management evaluates its estimates and judgments, including those related to retirement benefits, intangible assets, goodwill, and expected future performance of operations. Our estimates and judgments are based on historical experience and on various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. These critical accounting estimates are discussed in detail in “Management’s Discussion and Analysis — Critical Accounting Estimates and Judgments” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2014.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in the Company’s market risk during the six-month period ended June 30, 2015. For additional information, refer to Note 4 and Note 5 to the Condensed Consolidated Financial Statements and to Part II, Item 7A of the Company’s Annual Report on Form 10-K for the year ended December 31, 2014.

ITEM 4. CONTROLS AND PROCEDURES

The Company’s management, under the direction, supervision, and involvement of the Chief Executive Officer and the Chief Financial Officer, has carried out an evaluation, as of the end of the period covered by this report, of the effectiveness of the design and operation of the disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) under the Securities Exchange Act of 1934 (the “Exchange Act”)) of the Company. Based on this evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that disclosure controls and procedures in place at the Company are effective to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified by the Securities and Exchange Commission’s rules and forms and is accumulated and communicated to our management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. There were no changes in the Company’s internal control over financial reporting that occurred during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The material set forth in Note 11 of the Notes to Condensed Consolidated Financial Statements is incorporated herein by reference.

ITEM 1A. RISK FACTORS

Information about our risk factors is contained in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2014. We believe that at June 30, 2015, there has been no material change to this information.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number of Shares That May Yet Be Purchased Under the Plans or Programs
