Stock Option Grants. At a meeting of the Management Resources Committee (the "MRC") of the Board of Directors of Applera Corporation ("Applera") held on June 2, 2005, the MRC approved the grant of non-qualified stock options to some employees of Applera and its subsidiaries, including: options to purchase shares of Applera Corporation-Applied Biosystems Group Common Stock ("AB stock") pursuant to the Applera Corporation/Applied Biosystems Group Amended and Restated 1999 Stock Incentive Plan; and options to purchase Applera Corporation-Celera Genomics Group Common Stock ("CRA stock") pursuant to the Applera Corporation/Celera Genomics Group Amended and Restated 1999 Stock Incentive Plan. The action of the MRC included grants of options to purchase the following number of shares of AB stock and CRA stock to Applera's executive officers:

<u>Executive Officer</u>	<u>Shares of AB Stock</u>	<u>Shares of CRA Stock</u>

Edgar Filing: APPLERA CORP - Form 8-K

The options to purchase shares of AB stock granted to our executive officers have an exercise price of \$21.475 per share, which was the fair market value of AB stock on the grant date based on the average of the high and low sales price of AB stock on the New York Stock Exchange on the grant date, and the options to purchase shares of CRA stock granted to our executive officers have an exercise price of \$10.155 per share, which was the fair market value of CRA stock on the grant date based on the average of the high and low sales price of CRA stock on the New York Stock Exchange on the grant date. These options have a term of 10 years from the grant date, and are fully vested and exercisable as of the grant date. However, shares acquired upon the exercise of these options are subject to a restriction on transfer (covering sales, gifts, pledges, and any other method of disposition). The transfer restriction will lapse, for each grant of options to purchase AB stock and CRA stock, on 25% of the shares covered by these grants on each of the first four anniversaries of the grant date. Also, the transfer restriction will lapse in full upon termination of employment for any reason.

Acceleration of Vesting of Previously Awarded Stock Options. At the June 2, 2005, MRC meeting, the MRC approved acceleration of the vesting of unvested stock options previously awarded to some Applera employees, including some executive officers. The accelerated options were issued under the Applera Corporation/Applied Biosystems Group Amended and Restated 1999 Stock Incentive Plan and the Applera Corporation/Celera Genomics Group Amended and Restated 1999 Stock Incentive Plan, and were issued in conjunction with long term incentives awarded to those Applera employees under the Applera Corporation Performance Unit Bonus Plan. However, shares acquired upon the exercise of these options are subject to a restriction on transfer (covering sales, gifts, pledges, and any other method of disposition). The transfer restriction will lapse as to shares issuable upon the exercise of these options on the date that the options would have otherwise vested with respect to those shares. Also, the transfer restriction will lapse in full upon termination of employment for any reason.
