FOR IMMEDIATE RELEASE

Oncolytics Biotech Inc. Announces Issuance of 13th U.S. Patent

CALGARY, AB, November 2, 2004 Oncolytics Biotech Inc. (TSX: ONC, NASDAQ: ONCY) (Oncolytics) has been granted U.S. Patent 6,811,775 entitled Reovirus for the Treatment of Cellular Proliferative Disorders.

This patent further expands our portfolio of intellectual property specifically in the area of using recombinant reovirus for the treatment of neoplasia (cancers) and non-cancer cellular proliferative diseases such as neurofibromatosis, said Dr. Matt Coffey, Vice President, Product Development of Oncolytics. This patent expands on previously issued patents in this area.

About Oncolytics Biotech Inc.

Oncolytics is a Calgary-based biotechnology company focused on the development of REOLYSIN®, its proprietary formulation of the human reovirus, as a potential cancer therapeutic. Oncolytics' researchers have demonstrated that the reovirus is able to selectively kill cancer cells and, *in vitro*, kill human cancer cells that are derived from many types of cancer including breast, prostate, pancreatic and brain tumours, and have also demonstrated successful cancer treatment results in a number of animal models. Phase I clinical trial results have indicated that REOLYSIN® was well tolerated and that the reovirus demonstrated activity in tumours injected with REOLYSIN®.

This news release contains forward looking statements, within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. Forward looking statements, including among others, the Company's belief as to the safety and efficacy of the reovirus, the Company's expectations as to the potential applications of the patented technology and other statements relating to anticipated developments in the Company's business and technologies, involve known and unknown risks and uncertainties that could cause the Company's actual results to differ materially from those in the forward looking statements. Such risks and uncertainties include, among others, the efficacy of REOLYSIN® as a cancer treatment, the success and timely completion of clinical studies and trials, uncertainties related to the research and development of pharmaceuticals, uncertainties related to the regulatory process and general changes to the economic environment. Investors should consult the Company's quarterly and annual filings with the Canadian and U.S. securities commissions for additional information on risks and uncertainties relating to the forward looking statements. Investors are cautioned against placing undue reliance on forward looking statements. The Company does not undertake to update these forward looking statements.
