DOCUMENTS INCORPORATED BY REFERENCE

The Annual Information Form of Nevsun Resources Ltd. (the Registrant) for the fiscal year ended December 31, 2007 is attached as Exhibit 99.1 and is incorporated herein by reference.

The audited consolidated financial statements of the Registrant for the years December 31, 2007 and 2006, including the report of the auditors with respect thereto, are attached as Exhibit 99.2 and are incorporated herein by reference.

For a reconciliation of material measurement differences between Canadian generally accepted accounting principles (Canadian GAAP) and United States generally accepted accounting principles, (U.S. GAAP) see the U.S. GAAP Supplemental Information, Reconciliation with United States Generally Accepted Accounting Principles , attached as Exhibit 99.4 and incorporated herein by reference.

The Registrant s management s discussion and analysis (MD&A) follows the Registrant s audited consolidated financial statements as Exhibit 99.3 and is incorporated herein by reference.

EXPLANATORY NOTE

The Registrant is a Canadian issuer eligible to file its annual report pursuant to Section 13 of the Securities Exchange Act of 1934 (the Exchange Act) on Form 40-F. The Registrant is a foreign private issuer as defined in Rule 3b-4 under the Exchange Act. Accordingly, the Registrant s equity securities are exempt from Sections 14(a), 14(b), 14(c), 14(f) and 16 of the Exchange Act pursuant to Rule 3a12-3.

The Registrant is permitted, under a multi-jurisdictional disclosure system adopted by the United States, to prepare this annual report on Form 40-F in accordance with Canadian disclosure requirements, which are different from those of the United States. In particular, and without limiting the foregoing, all mineral resource and reserve estimates included in this report have been prepared in accordance with Canadian National Instrument 43-101 and the Canadian Institute of Mining and Metallurgy (CIM) Classification System. These standards differ significantly from the requirements of the United States Securities and Exchange Commission (the Commission), and mineral resource and reserve information included herein may not be comparable to similar information concerning United States companies.

For definitions of the terms mineral reserve, mineral resource, measured mineral resource, indicated mineral resource and inferred mineral resource under CIM standards, and a summary of the differences between CIM and U.S. standards, see the sections entitled Information Concerning Preparation of Resource Estimates and Glossary and Defined Terms beginning on page ii of the Registrant s Annual Information Form included in this report.

The Registrant prepares its financial statements in accordance with Canadian GAAP, and is subject to Canadian auditing and auditor independence standards. Accordingly, the financial statements of the Registrant included in this report may not be comparable to financial statements of United States companies. Significant differences between Canadian GAAP and U.S. GAAP are described in the U.S. GAAP Supplemental Information, Reconciliation with United States Generally Accepted Accounting Principles , included in this report.

FORWARD LOOKING STATEMENTS

This report contains forward-looking statements concerning anticipated developments on the Registrant's mineral properties in Mali and Eritrea and in the Registrant's other operations; planned exploration and development activities; the adequacy of the Registrant's financial resources; financial projections, including, but not limited to, estimates of capital and operating costs, production, grades, processing rates, life of mine, metal prices, exchange rates, reclamation costs, net present value, internal rates of return and payback; and other events or conditions that may occur in the future. Forward-looking statements are frequently, but not always, identified by words such as "expects," "anticipates," "believes," "intends," "estimates," "potential," "possible," "budget" and similar expressions, or statements of conditions or results "will," "may," "could" or "should" occur or be achieved. Information concerning the interpretation of drill results and estimates of mineral resources and reserves also may be deemed to be forward-looking statements, as such information constitutes a prediction of what mineralization might be found to be present if and when a project is actually developed. Forward-looking statements are statements about the future and are inherently uncertain, and actual achievements of the Registrant or other future events or conditions may differ materially from those reflected in the forward-looking statements due to a variety of risks, uncertainties and other factors, including, without limitation, those described in the Annual Information Form of the Registrant included in this report.

The Registrant's forward-looking statements are based on the beliefs, expectations and opinions of management on the date the statements are made and the Registrant assumes no obligation to update such forward-looking statements in the future. For the reasons set forth above, investors should not place undue reliance on forward-looking statements.
