DESCRIPTION OF BUSINESS

(a)

BUSINESS DEVELOPMENT

American Petro-Hunter Inc. ("the Company") was incorporated on January 24, 1996, pursuant to the laws of the State of Nevada under the name Wolf Exploration, Inc. with a business plan to acquire properties for precious metal exploration in the western United States. However after considering several properties, the Company determined that the properties identified were not suitable to fully implement an exploration and development project in the United States. In August 1996 the Company changed management and developed a new business plan.

In October 1996, the Company entered into an agreement to acquire two numbered companies that were combined with 714674 Alberta Ltd. continuing in operation. The business operated as Calgary Chemical, selling chemical products to the oil and gas industry.

In March 1997, the Company's name was changed to Wolf Industries Inc. to reflect these developments.

Effective June 30, 1998, the Company sold its subsidiary, 714674 Alberta Ltd. ("Calgary Chemical") to Gorda Technology Holdings Limited, a Turks and Caicos Islands corporation ("Gorda"). The terms of the sale were as follows:

(a)

forgiveness of the inter-company debt owed by Calgary Chemical to the Company in the amount of \$82,289 (Canadian);

(b)

Payment by Gorda to the Company of fifteen percent of Calgary Chemical's after-tax profit (as determined by generally accepted accounting principles) for the fiscal year ended December 31, 1998 payable on or before March 31, 1999 and completion of an audit of the financial statements of Calgary Chemical for such period;

(c)

Indemnification by Gorda to hold the Company harmless from any and all liability arising from the debt guarantees of Calgary Chemical;

(d)

Agreement by Gorda to hire Mr. Blair Coady as the President and Chief Executive Officer of Calgary Chemical; and

(e)

Receipt by the Company from Mr. Coady of his resignation as President and Chief Executive Officer, Secretary, and Director of the Company and the surrender of Mr. Coady's options to acquire 700,000 shares of the Company's common stock.

This agreement is incorporated by reference from the Company's 10QSB filing for the quarter ended March 31, 1998.

The sale of Calgary Chemical was subject to approval of the shareholders of the Company, which was received at the Company's annual general meeting of July 24, 1998.

(a)

BUSINESS DEVELOPMENT (Continued)

On April 8, 1998, the Company entered into a License agreement with Andrew Engineering Inc. ("Andrew") a British Columbia corporation, Andrew Rawicz Ph.D., and Ivan Melnyk, Ph.D., whereby the Company acquired a world-wide license to manufacture and market a patent pending device for the color matching of dentures to a dental patient's existing tooth color. Drs. Rawicz and Melnyk hold the patent pending for the color analyzer and Andrew developed and/or acquired the techniques and other proprietary information related to the device. The License agreement required the Company and Andrew to develop a business plan for manufacturing and marketing the device, including obtaining financing of \$1,500,000 US. The license agreement required the issuance of 4.8 million shares of restricted stock to Andrew with registration rights on 600,000 of those shares, and also required that Mr. Patrick McGowan be appointed President and Chief Executive Officer. Mr. McGowan signed a management agreement with the Company, and at a meeting of the Company's Board of Directors held on April 16, 1998, Mr. McGowan and Mr. A. Schwabe were appointed to the Company's Board of Directors. They were also appointed interim President and CEO, and Secretary, Treasurer respectively, pending the approval of the shareholders of the Gorda transaction wherein Mr. Coady would resign from all positions. The agreement also provided for the Company to pay a royalty to Andrew in the amount of ten percent (10%) of gross profit on sales if the Company manufactures the product itself or a Royalty of seven percent (7%) of gross revenue if manufacturing is done by an independent third party.

This agreement is incorporated by reference from the Company's 10QSB filing for the quarter ended March 31, 1998.

Upon approval by the shareholders of the sale of Calgary Chemical at the 1998 annual general meeting, Mr. P. McGowan, Mr. A. Schwabe and Dr. David Gane were elected directors, and Messrs. McGowan and Schwabe were appointed President and CEO, and Secretary, Treasurer respectively.

In September 1998, 4.8 million shares of the Company's stock were issued to Andrew in accordance with that agreement.

As a result of settlement of the litigation with AEI Trucolor Inc. ("Trucolor"), the License Agreement was cancelled and the 4,800,000 shares were returned to the treasury in 1999.

This action was settled by the execution of two agreements, the effect of which was that the Company acquired a 40% interest in Trucolor, an arm's length company. As a result of the agreement, Trucolor became the owner of the rights to the device.

Pursuant to an agreement dated June 14, 2000, the Company purchased a 100% interest in a private company owned by a former director of the Company called Travelport Media Inc. ("TPI"). TPI was a Nevada, USA incorporated private internet e-commerce technology and content development company specializing in the travel and hospitality industry. The agreement required the Company to issue 3,000,000 share purchase warrants in exchange for a 100% interest in TPI. The share purchase warrants allowed the holder to purchase 3,000,000 common shares of the Company for \$0.27 per share. The warrants became vested and exercisable over a five-year period as follows:

Date of Vesting	Number of Warrants Vested
July 1, 2000	500,000
January 1, 2001	150,000
July 1, 2001	600,000
January 1, 2002	150,000
July 1, 2002	750,000
January 1, 2003	400,000
July 1, 2003	450,000

ITEM 1.

DESCRIPTION OF BUSINESS (Continued)

(a)

BUSINESS DEVELOPMENT (Continued)

Exercise Date	Maximum Number of warrants Available for exercise
June 30, 2001	600,000
June 30, 2002	600,000
June 30, 2003	600,000
June 30, 2004	600,000
June 30, 2005	600,000

The number of share purchase warrants would vest according to the above schedule provided that the holder of the warrants remained retained as a consultant by the Company. If the warrant holder was no longer retained as a consultant, any unvested warrants would immediately expire. Before the end of December 31, 2000, the Company's relationship with the consultant and former shareholder of TPI became strained, resulting in the consultant resigning as a director of the Company on September 11, 2000. The Company has recorded the 500,000 vested warrants at their intrinsic value on the June 14, 2000 grant date of \$80,000 in the books of the Company as compensation expense. In addition, as they are no longer recoverable, the Company has written off all advances to TPI and expenses paid by the Company on TPI's behalf to the statement of loss and retained earnings (deficit) as of December 31, 2000.

In addition, the Company issued 300,000 share purchase warrants to companies controlled by a director as finder's fees for bringing the two parties in the above noted transaction together. The Warrants enabled the holder to purchase 300,000 shares of the Company at \$0.27 each for a period of five years. The Company has recorded the warrants in its books at their June 14, 2000 intrinsic value of \$48,000. As a result of the separation of the parties involved in the above transaction, the share purchase warrants were cancelled by the Company before exercise.

In November, 2000, the Company received shareholder and regulatory approval to change its name to "Travelport Systems Inc." in anticipation of its new business direction.

Subsequent to December 31, 2000, the Company entered into a settlement agreement whereby the Company would give its interest in the shares of TPI back to the original owner on the condition that the original owner and former director of the Company would assume a liability of \$86,000 which was incurred by the Company on behalf of TPI for the purchase of certain computer equipment. The \$86,000 liability is included in accounts payable of the Company as at December 31, 2000. As the computer equipment was purchased on behalf of TPI, the Company has written off its interest in the equipment as part of the advances to Travelport Media, Inc.

In addition, subsequent to December 31, 2000 the Company cancelled 150,000 share purchase options exercisable at \$0.15 per share until October 11, 2005, and the Company cancelled 200,000 share purchase options exercisable at \$0.25 per share until October 19, 2005 issued to employees of TPI.

As a result of termination of the TPI agreement, the Company decided to change its business direction to oil and gas opportunities, and received shareholder and regulatory approval to change its name to "American Petro-Hunter Inc. in August, 2001.

(b) BUSINESS OF THE ISSUER

DENTAL COLOR ANALYZER

During 1998, the Company sold Calgary Chemical and acquired the worldwide manufacturing and marketing rights to a dental color analyzer ("the product"). This technology was developed to assist the dental industry in determining the shades and colors of dental materials used in replacement and/or restorative work, by precisely matching these shades to the original teeth of patients. The dental color analyzer discriminates between the minutest differences in tooth shading and determines the best shade match for partial or total restorative material. It does so by taking into account the differences in color of spectrally unmatched materials when illuminated with different light sources such as sunlight, incandescent lamps, and fluorescent lamps.

(b)

BUSINESS OF THE ISSUER (Continued)

DENTAL COLOR ANALYZER (Continued)

Since acquiring the rights in April 1998, the Company's efforts have been directed towards research, development and business plans for manufacturing and marketing the product. This has involved manufacturing a small quantity of the product for testing and demonstration purposes; engaging technical experts and firms to evaluate the product; attendance at dental conventions and shows to demonstrate the product; attendance at various dental firms and laboratories to demonstrate and evaluate the product; and work on both the product and related software to perfect its operation. The Company has also engaged the assistance of consultants to develop marketing plans for the product. This has resulted in the Company incurring substantial research and development expenditures in the year 1998.

The Company has also held discussions with companies involved in the distribution of dental products in Canada, the United States and Europe regarding marketing of the product.

The Company developed preliminary business plans to proceed with manufacture and sale of the units, but was delayed in proceeding pending completion of this research and development, and by the action brought against the Company by AEI Trucolor

As a result of settlement of the Trucolor action, Trucolor became the owner of the dental color analyzer. The manufacturing/distribution agreement was not consummated with a third party, as anticipated by the settlement agreement, and as a result the Company owns a 40% interest in Trucolor, and GPT owns a 60% interest.

ITEM 2.

DESCRIPTION OF PROPERTY

Effective January, 2000, the Company relocated its office to Surrey, B.C., under a verbal agreement with R-G Management, a company owned by a director of the Company, to pay Canadian \$200.00 per month for office rent, plus telephone charges and disbursements. The Company shares this office with other companies, and occupies approximately 150 square feet.

ITEM 3

LEGAL PROCEEDINGS

Canadian Western Bank

During 2002, The Company received a formal demand for payment from Canadian Western Bank ("CWB") whereby CWB, pursuant to a full liability guarantee provided by the Company in favor of 714674 Alberta Ltd. (operating as Calgary Chemical) is demanding payment of Cdn\$102,000 (approx. US\$85,000).

The Company divested itself of Calgary Chemical in 1998 under an agreement with the former president of the Company. The agreements covering the transaction included an indemnity guarantee from the purchaser whereby the purchaser would indemnify and save harmless the Company from any and all liability, loss, damage or expenses.

The Company intends to defend itself against the claim from CWB, believing that it has a valid indemnification from the purchaser of Calgary Chemical.

The amount of the guarantee provided by the Company was accrued in the financial statements for the year ended December 31, 2004.

September 30, 2004	\$0.16	\$0.135
December 31, 2004	\$0.16	\$0.13

The above quotations reflect inter-dealer prices, without retail mark-up, markdown, or commission and may not necessarily represent actual transactions.

In March of 2004, the Board of Directors of the Company approved the issuance of 475,000 shares at \$0.12 to three directors and a consultant of the Company for services rendered, which were issued in March, 2004.

(b)

HOLDERS

There were 57 holders of 6,525,620 shares of the Company's common stock as of December 31, 2004. This includes 13 holders of 1,224,110 shares of common stock whose certificates are restricted. The remainder of the shares are free trading.

(c)

DIVIDENDS

The Company has paid no dividends to date on its common stock. The Company reserves the right to declare a dividend when operations merit.

ITEM 6.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS.

The following should be read in conjunction with the Financial Statements and notes thereto appearing elsewhere in this report.

Revenue and expense transactions in Canadian funds are converted to US dollars at the average rates in effect when the transactions occurred. Asset and liability accounts are converted at year-end closing rates, which were U.S. \$0.8319 for one Canadian dollar at December 31, 2004 and \$0.7713 at December 31, 2003.

Plan of Operations

The Company has had no revenues during the 2004 and 2003 fiscal years. The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. Having no sources of income, substantial doubt is raised about the ability of the Company to continue as a going concern.

The Company's plan of operations for the remainder of the fiscal year is to seek out a privately held business with whom the Registrant can reorganize so as to take advantage of the Company's status as a publicly held corporation. As of the date of this report, Management has evaluated several potential reorganizations. However as of the date of this report, there has been no decision to proceed on any reorganization nor has any agreement been reached on even principal terms of such reorganization. The Company also intends to investigate the acquisition and development of natural resource projects without necessarily reorganizing with another party.

During the 2004 fiscal year, the Company investigated potential acquisitions, but did not proceed with them, as they were deemed unsuitable for acquisition by the Company.

(a) Results of Operations

The Company has had no revenues since June 30, 1998.

Administrative expenses for the fiscal year ended December 31, 2004 were \$33,155, compared to \$32,214 in 2003. Executive compensation was \$23,889 and Rent was \$1,929 compared to \$23,758 and \$1,680 respectively in 2003. The slightly higher amounts in 2004 are primarily due to the increased value of the Canadian dollar in US funds. The Company's administration costs were essentially comparable to 2003 as the Company was relatively inactive, other than investigating potential acquisitions. Also, in 2004 the amount of the loan guarantee to Canadian Western Bank of \$84,858 was accrued in the financial statements for the year.

(b)

Capital Resources

The Company had a working capital deficiency of \$319,090 at December 31, 2004. The Company has been meeting its obligations through funds loaned by a shareholder, and advances from directors, and has issued capital stock for certain services rendered to the Company in accordance with S-8 registration filings.

As at December 31, 2004, the balance of funds loaned by the shareholder amounted to US\$33,004 and advances from directors amounted to \$13,684.

The Company is now investigating new business opportunities, and intends to develop future plans, which will include issuing shares through private placements in order to provide funds for working capital and investment in such opportunities.

The Company has made no commitments for capital expenditures.

ITEM 6.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued).

(c)

Liquidity

The Company is illiquid at the present time and has been dependent upon shareholders and directors to provide funds to maintain its activities, as indicated previously. Once a suitable acquisition is identified, the Company expects to be able to raise funds through the issuance of shares.

ITEM 7.

FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The financial statements of the Company are filed under this Item, and are included herein by reference.

CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE - None.

ITEM 8A

CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures designed to ensure that information required to be disclosed in our filings under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Our chief executive officer and chief financial officer have evaluated our disclosure controls and procedures within 90 days prior to the filing of this annual report of Form 10-KSB and have determined that such disclosure controls and procedures are effective.

There have been no significant changes in our internal controls or in other factors that could significantly affect internal controls subsequent to the date of their evaluation including any corrective actions with regard to significant

deficiencies and material weaknesses.

The Audit Committee is comprised of the three members of the Board of Directors, being Messrs McGowan, Rook-Green and Whelan.

The Audit Committee is responsible for recommendation of the audit firm and compensation for completion of the audit to the Board of Directors. The auditor reports to the Audit Committee. The Company does not engage the auditor for any services other than the external audit.

LONG-TERM INCENTIVE PLANS AWARDS IN THE LAST FISCAL YEAR

In November 1996, the Company adopted the Wolf Exploration Inc. 1996 Directors and Officers Stock Option Plan, ("the Plan") for its officers, directors, key personnel and consultants to the Company. In 1996 and 1997, a total of 960,000 options to purchase shares were granted under this plan. As a result of the sale of Calgary Chemical, and change of management, the 960,000 options were cancelled in 1998. By resolution of the directors of the Company dated May 28, 1998, the Company reserved an additional one million shares of common stock of the Company for the Plan bringing the total shares reserved to 2,000,000 and renamed the Plan "The Wolf Industries Inc. 1998 Directors and Officers Stock Option Plan ("the Revised Plan") with all other terms and conditions of the Plan remaining in full force and effect.

In September 1998, the Company by resolution of the directors, established the "1998 Key Personnel Compensation Plan" ("Key Plan") whereby 1,000,000 shares of the Company's stock was reserved for issuance. By resolution of the directors dated November, 1998, a further 1,000,000 shares of common stock was authorized to be reserved for issuance, bringing the total issuable under the Key Plan to 2,000,000 shares of common stock.

During 1998, under the terms of the Revised Plan, a total of 1,050,000 options to purchase common shares of the Company were granted to three officers and directors of the Company at \$0.25 per share for a five-year period.

During 1998, under the terms of the Key Plan, options to purchase 75,000 shares of the common stock of the Company was granted to an employee at \$0.25 per share, for a five-year period. Also under the terms of the Key Plan, 1,973,026 shares of common stock of the Company were issued at a deemed price of \$0.25 per share, and 1,000,000 shares of common stock of the Company at a deemed price of \$0.20 per share for services rendered by key personnel to the Company. In 1999, under the terms of the Key plan, 350,000 shares were issued at a deemed price of \$0.18, and 100,000 shares were issued at a deemed price of \$0.15.

During 2000, 30,000 options were granted at \$0.30, and 300,000 at \$0.25, for five-year periods, under the terms of the two plans.

In October, 2000, the Company by resolution of the directors, established the 2000 Stock Option Plan ("2000 Plan"), whereby 5,000,000 of the company's stock was reserved for issuance. During 2000, under the terms of the 2000 Plan,

50,000 options to purchase shares were granted at \$0.30, 200,000 were granted at \$0.15, and 200,000 were granted at \$0.25, all for five year periods.

(d)

LONG-TERM INCENTIVE PLANS AWARDS IN THE LAST FISCAL YEAR (continued)

In September, 2001, the Company by resolution of the directors, established the 2001 Stock Option Plan ("2001 Plan"), whereby 1,500,000 of the company's stock was reserved for issuance. During 2001, under the terms of the 2001 Plan, 1,000,000 options to purchase shares were granted at \$0.15 for five-year periods. Also in September, 2001, the Company by resolution of the directors issued 50,000 options under an S8 filing.

No options were granted in the year ended December 31, 2004.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of

AMERICAN PETRO-HUNTER INC.

We have audited the balance sheet of **American Petro-Hunter Inc.** ("the Company") as at December 31, 2004 and the related statements of stockholders' deficiency, operations, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the Company's balance sheet as at December 31, 2003 and statements of stockholders' deficiency, operations, and cash flows for the year then ended, which were audited by other auditors whose report dated April 29, 2004, which expressed an unqualified opinion, has been furnished to us. Our opinion, insofar as it relates to the amounts included for such prior period, is based solely on the report of the other auditors.

We conducted our audit in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provide a reasonable basis for our opinion.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2004, and the results of its operations and its cash flows for the year then ended, in conformity with generally accepted accounting principles in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1, realization of a major portion of the assets is dependent upon the Company's ability to meet its future financing requirements and the success of future operations. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 1. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

1.

NATURE OF OPERATIONS and CONTINUANCE OF OPERATIONS

American Petro-Hunter Inc. was incorporated under corporate charter of the State of Nevada on January 24, 1996 as Wolf Exploration Inc. Active operations commenced on July 10, 1996. On March 17, 1997, Wolf Exploration Inc. changed its name to Wolf Industries Inc.; on November 21, 2000, changed its name to Travelport Systems Inc., and on August 17, 2001, changed its name to American Petro-Hunter Inc. The Corporation's business offices are located in Surrey, British Columbia, Canada.

These financial statements have been prepared in accordance with the United States generally accepted accounting principles applicable to a going concern, which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business. The Company has accumulated losses of \$3,273,287 and requires additional funds to maintain its operations. Management's plans in this regard are to raise equity financing as required.

These conditions raise substantial doubt about the Company's ability to continue as a going concern. These financial statements do not include any adjustments that might result from this uncertainty.

2.

SIGNIFICANT ACCOUNTING POLICIES

(a)

Principles of Accounting

These financial statements are stated in U.S. Dollars and have been prepared in accordance with accounting principles generally accepted in the United States of America.

(b)

Cash and Cash Equivalents

Cash equivalents comprise certain highly liquid instruments with a maturity of three months or less when purchased. As at December 31, 2004 and 2003, cash and cash equivalents consist of cash only.

(c)

Foreign Currency Translation

The Company's functional currency is the Canadian dollar and reporting currency is the United States Dollars. Monetary assets and liabilities are translated at the exchange rate in effect at the balance sheet date and non-monetary assets and liabilities at the rate in effect on the dates of the related transactions. Revenues and expenses are translated at rates approximating exchange rates in effect at the time of the transactions. Gains or losses arising on conversion of foreign currency transactions are included in the results of operations.

(d)

Advertising Costs

Advertising costs are expensed as incurred. The Company did not incur any advertising costs during the years ended December 31, 2004 and 2003.

2.

SIGNIFICANT ACCOUNTING POLICIES (Continued)

(e)

Income Taxes

The Company adopted the Statement of Financial Accounting Standards ("SFAS") No.

109, "Accounting for Income Taxes.". Under SFAS No. 109, deferred income tax assets and liabilities are computed for differences between the financial statements and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary, to reduce deferred income tax assets to the amount expected to be realized.

(f)

Use of Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, required management to make estimates and assumptions that reflect the reported amount of assets, liabilities, revenues, expenses and related disclosures. Actual results could differ from those estimates.

(g)

Stock-Based Compensation

The Company accounts for employee stock-based compensation using the intrinsic value method prescribed in Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees." Compensation cost for stock options, if any, is measured as the excess of the quoted market price of the Company's stock at the date of grant over the amount an employee must pay to acquire the stock. SFAS No.123, "Accounting for Stock-Based Compensation," established accounting and disclosure requirements using a fair-value-based method of accounting for stock-based employee compensation plans. The Company has elected to remain on its current method of accounting as described above, and has adopted the disclosure requirements of SFAS No. 123.

The Company did not grant any stock options during the fiscal years 2004 and 2003.

(h)

Impairment and Disposal of Long-Lived Assets

Long-lived assets are reviewed for impairment when circumstances indicate the carrying value of an asset may not be recoverable in accordance with the guidance established in Statement of Financial Accounting Standards ("SFAS") No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. For assets that are to be held and used, an impairment loss is recognized when the estimated undiscounted cash flows associated with the asset or group of assets is less than their carrying value. If impairment exists, an adjustment is made to write the asset down to its fair value, and a loss is recorded as the difference between the carrying value and fair value. Fair values are determined based on discounted cash flows or internal and external appraisals, as applicable. Assets to be disposed of are carried at the lower of carrying value or estimated net realizable value.

2.

SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i)

Comprehensive Income (Loss)

The Company has adopted Statement of Financial Accounting Standards No. 130 (SFAS 130), *Reporting Comprehensive Income*, which establishes standards for reporting and display of comprehensive income, its components and accumulated balances. The Company is disclosing this information on its Statements of Stockholders' Deficiency. Comprehensive income (loss) comprises equity except those resulting from investments by owners and distributions to owners.

(j)

Accounting for Derivative Instruments and Hedging Activities

The Company adopted Statement of Financial Accounting Standards Board No. 133

(SFAS 133), *Accounting for Derivative Instruments and Hedging Activities*, which requires companies to recognize all derivatives contracts as either assets or liabilities in the balance sheet and to measure them at fair value. If certain conditions are met, a derivative may be specifically designated as a hedge, the objective of which is to match the timing of gain or loss recognition on the hedging derivative with the recognition of (i) the changes in the fair value of the hedged asset or liability that are attributable to the hedged risk or (ii) the earnings effect of the hedged forecasted transaction. For a derivative not designated as a hedging instrument, the gain or loss is recognized in income in the period of change.

The Company has not entered into derivative contracts either to hedge existing risks or for speculative purposes. The adoption of this pronouncement does not have an impact on the Company's financial statements.

(k)

Loss Per Share

Basic loss per share is computed based on the weighted average number of common shares outstanding during the year. Diluted loss per share is based on the weighted average number of shares outstanding during the year and dilutive common equivalent shares from options and warrants outstanding during the year. No common equivalent shares are included for loss periods as they would be anti-dilutive.

(l)

Investment in AEI Trucolor Inc.

The Company carries its interest in AEI Trucolor Inc., a British Columbia private corporation, at cost. The Company does not exercise significant influence over the investee.

SIGNIFICANT ACCOUNTING POLICIES (Continued)

(m)

Fair Value of Financial Instruments

Fair value of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgement, they cannot be determined with precision. Changes in assumptions can significantly

affect estimated fair values.

The Company's financial instruments consist of cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities, loan from related parties, and loan guarantee. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest, or credit risks arising from these financial instruments. The fair values of these financial instruments approximate their carrying values.

The Company operates outside of the United States of America and is exposed to foreign currency risk due to the fluctuation between the currency in which the Company operates

in and the United States Dollars.

New Accounting Pronouncements

In November 2004, the FASB issued SFAS No. 151, *"Inventory Costs-an amendment of ARB No. 43, Chapter 4"*, which is the result of the FASB's project to reduce differences between U.S. and international accounting standards. SFAS No. 151 requires idle facility costs, abnormal freight, handling costs, and amounts of wasted materials (spoilage) be treated as current-period costs. Under this concept, if the costs associated with the actual level of spoilage or production defects are greater than the costs associated with the range of normal spoilage or defects, the difference would be charged to current-period expense, not included in inventory costs. SFAS No. 151 will be effective for inventory costs incurred during fiscal years beginning after June 15, 2005. The adoption of SFAS No. 151 will not have a material impact on the Company's financial statements.

In December 2004, FASB issued Statement No. 153, *"Exchange of Nonmonetary Assets"*. This statement addresses the measurement of exchanges of nonmonetary assets and eliminates the exception from fair value measurement for nonmonetary exchanges of similar productive assets and replaces it with an exception for exchanges that do not have commercial substance. A nonmonetary exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. This Statement is effective for periods beginning after June 15, 2005. The adoption of this new accounting pronouncement does have a material impact on the Company's financial statements, as the Company does not have any exchanges of nonmonetary assets.

(n)

New Accounting Pronouncements (Continued)

In December 2004, the FASB issued SFAS No. 123(R), *"Accounting for Stock-Based Compensation"*. SFAS 123(R) establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. This Statement focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. SFAS 123(R) requires that the fair value of such equity instruments be recognized as expense in the historical financial statements as services are performed. Prior to SFAS 123(R), only certain pro-forma disclosures of fair value were required. SFAS 123(R) shall be effective for the Company as of the beginning of the first interim or annual reporting period that begins after December 15, 2005. The adoption of FASB No. 123(R), will not have a material impact on the Company's financial statements.

3.

STOCK OPTION

The Company did not grant any stock options in fiscal years 2004 and 2003.

Summary of stock option information for the years ended December 31, 2004 and 2003 is as follows:

		Weighted Average Exercise
	Shares	Price
Options outstanding and exercisable at December 31, 2002	1,066,000	\$ 0.30

3.

STOCK OPTION (Continued)

Stock options outstanding and exercisable at December 31, 2004 are as follows:

Weighted

Range of			Average	Weighted
Exercise	Number	Number	Remaining	Average
Prices	Outstanding	Exercisable	Contractual	Exercise
			Life (years)	Price
\$0.01 - \$0.50	800,000	800,000	1.83	\$ 0.15
\$2.50 - \$3.00	3,000	3,000	0.25	\$ 3.00

Each option entitles the holder to acquire one common stock of the Company.

Had compensation expense for the Company's stock-based compensation plans been determined under SFAS No. 123, based on the fair market value at the grant dates, the Company's pro forma net loss and pro forma net loss per share would have been reflected as follows:

	2004	2003

AEI TRUCOLOR INC.

The Company holds a 40% interest in AEI Trucolor Inc, a private British Columbia Corporation and has written down its carrying value to a nominal amount to reflect its impaired value.

5.

RELATED PARTIES

(i)

During the year ended December 31, 2004, the Company paid management fees of \$23,889 (2003 - \$23,758) to a director.

(ii)

During the year ended December 31, 2004, the Company paid accounting fees, rental, and office expenses totaling \$13,470 (2003 - \$7,710) to a company owned by a director of the Company.

(iii)

Accounts payable related parties are payable to a director and a company owned by a director.

(iv)

Loans from related parties are advances made to the Company by a director and a company owned by a director. The loans are non-interest bearing and have no specific terms of repayments.

6.

LOSS FROM LOAN GUARANTEE

The Company received a demand for payment from Canadian Western Bank ("CWB") pursuant to a guarantee provided by the Company in favor of 714674 Alberta Ltd. (operating as Calgary Chemical) of Cdn\$102,000 (US\$ 84,858).

The Company divested itself of Calgary Chemical in 1998 under an agreement with the former president of the Company. The agreements covering the transaction included an indemnity guarantee from the purchaser of Calgary Chemical, whereby the purchaser would indemnify and save harmless the Company from any and all liability, loss, damage or expenses.

The Company intends to defend itself against the claim from CWB. The Company believes it has a valid indemnification from the purchaser of Calgary Chemical.

The amount of the guarantee provided by the Company was accrued in these financial statements at December 31, 2004.

7.

DEFERRED COMPENSATION

On March 5, 2004, the Company issued 90,000 shares of the Company's common stock, valued at \$0.12 per share, being the fair value at the time of issuance, totaling \$10,800 to the Company's attorney for legal services provided. As of December 31, 2004, total legal expenses charged to these shares were \$7,574. The balance of \$3,226 is a retainer paid for future legal services.

8.

INCOME TAXES

Deferred tax assets of the Company are as follows:

	2004		2003
Loss carryforwards	\$ 1,100,000	\$	1,040,000
Less: Valuation allowance	(1,100,000)		1,040,000
Deferred tax asset recognized	\$ -	\$	-

As at December 31, 2004, the Company has net operating loss carryforwards of approximately \$3,200,000 (2003 - \$3,060,000), which expires between 2016 to 2024.

A valuation allowance has been recorded to reduce the net benefit recorded in the financial statements related to these deferred tax assets. The valuation allowance is deemed necessary as a result of the uncertainty associated with the ultimate realization of these deferred tax assets.

9.

SUBSEQUENT EVENTS

The Company entered into a promissory note financing of \$50,000 at an interest rate of 10% per annum. The holders of the promissory notes at their option are entitled at any time commencing one year after the closing date until maturity, to convert any or all of the principal amounts of the notes (including interest) into common stock of the Company at \$0.05 per share. In addition, the holders of the promissory notes will receive 1,000,000 share purchase warrants to purchase common stock of the Company until February 25, 2008 at \$0.15 per share.
