(Attach Extra Sheets if Needed)

We are unable to timely file our annual report on Form 10-K for the year ended December 31, 2004 without unreasonable effort or expense due to delays in executing against our "Section 404" project plan, primarily due to process changes in our internal control over financial reporting necessitated by our merger with Horizon Medical Products in July 2004. As a result of these delays, we have not yet completed our financial statements and related disclosures for our annual report on Form 10-K for the year ended December 31, 2004; nor have we completed our evaluation of the effectiveness of our internal control over financial reporting as of December 31, 2004.

However, to date, we have identified material weaknesses in our procurement process which did, prior to adjustment, or could otherwise, result in a material misstatement of our annual or interim financial statements. As a result of these material weaknesses, the Company did not maintain effective internal controls over accounting for its procurement process as of December 31, 2004. The material weaknesses we have identified are not appropriately accruing for certain invoices at December 31, 2004 and not properly reconciling accrued

liabilities at December 31, 2004. We may identify additional control deficiencies in our internal control over financial reporting as we continue our assessment. Because of these material weaknesses, management has concluded the Company's internal control over financial reporting was not effective as of December 31, 2004. In addition, we expect our independent registered public accounting firm to issue an adverse opinion on the effectiveness of our internal control over financial reporting.

(3) Is it anticipated that any significant change in results of operations from

the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

|X|Yes |_|No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

The Company completed a merger with Horizon Medical Systems, Inc. on July 29, 2004. Therefore there were significant changes in the results of operations from the corresponding period for the last fiscal year due to the consolidation of the results of the merged entities from July 29, 2004 through December 31, 2004. A copy of the press release issued by the Company with respect to the Company's earnings results for the fourth quarter and fiscal year ended December 31, 2004 can be found as an exhibit to the Company's current report on Form 8-K, dated February 16, 2005.
