Set forth below is preliminary consolidated results of operations data for Acorn Energy, Inc. (the "Company" or "us") for the quarter ended March 31, 2008 and comparative data for the quarter ended March 31, 2007.

*Sales.* Sales in the first quarter of 2008 increased by \$3.3 million or 313% from \$1.0 million in the first quarter of 2007 to \$4.3 million in the first quarter of 2008. The increase in sales is attributable to SCR-Tech sales in the first quarter of 2008 of \$2.3 million and an increase in DSIT sales of 97% or \$1.0 million. The increase in DSIT sales was wholly attributable to an increase in RT Solutions segment sales which was the primarily due to two naval projects being performed by our DSIT subsidiary which began in the third quarter of 2007.

*Gross profit.* Gross profits in the first quarter of 2008 increased by \$1.1 million or 391% to \$1.4 million as compared to \$0.3 million in the first quarter of 2007. The increase in gross profits is attributable to SCR-Tech gross profits in the first quarter of 2008 of \$0.8 million and an increase in DSIT gross profits of 128% or approximately \$0.3 million. The increase in DSIT gross profits was wholly attributable to the abovementioned increase in RT Solutions segment sales. Gross margin also increased from 27% in the first quarter of 2007 to 33% in the first quarter of 2008. The increased gross margin is attributable to SCR-Tech's gross margin of 34% as well as DSIT's increased gross margin of 31%. DSIT's increased gross margin in the first quarter of 2008 is due to the increased gross margin in its RT Solutions segment (34% in the first quarter of 2008 as opposed to 28% in the first quarter of 2007) and to the increased margins in its naval solutions projects in particular.

*Selling, marketing, general and administrative expenses ("SMG&A").* SMG&A in the first quarter of 2008 increased by \$1.7 million to \$2.5 million as compared to \$0.8 million in the first quarter of 2007. A portion of the increase is attributable to SCR-Tech's SMG&A costs of \$0.6 million. In addition, in 2007, senior management in our DSIT subsidiary waived approximately \$0.2 million of liabilities DSIT had to them in order to shore up its results and maintain its working relationship with its banks. The remaining increase in our SMG&A costs is primarily due to increased professional fees reflecting a higher level of corporate activity in connection with our strategy to seek out and invest in companies that fit our target business model.

*Gain on early redemption of Debenture.* In accordance with applicable accounting standards, we recorded a non-cash gain of approximately \$1.3 million in connection with the January 2008 redemption of our Convertible Debentures.

*Finance expense, net.* The increase in finance expense to \$3.0 million in the first quarter of 2008 compared with \$26,000 in the first quarter of 2007 is due to the interest expense of \$3.1 million recorded with respect to the write-off of the remaining balances of debt origination costs, warrants value and beneficial conversion features in the early redemption of our convertible debentures.

*Taxes on income.* In the first quarter of 2008, we had an income tax benefit of \$0.6 million due to the recording of a deferred tax assets.

*Share of losses in Paketeria.* In the first quarter of 2008, we recorded a loss of \$258,000 representing our approximately 31% share of Paketeria's losses for the period. In addition, we also recognized additional losses totaling \$29,000 with respect to amortization related to the acquired value of a non-compete agreement and franchises.
