

Edgar Filing: AEROFLEX HOLDING CORP. - Form 10-Q

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock as of the latest practicable date.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial information of Aeroflex Holding Corp. and subsidiaries (“we”, “our”, “us”, or the “Company”) has been prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”) and the rules and regulations of the United States Securities and Exchange Commission (“SEC”), and reflects all adjustments, consisting of normal recurring adjustments, which in management’s opinion are necessary for a fair presentation. The June 30, 2013 balance sheet information has been derived from audited financial statements, but does not include all information or disclosures required by U.S. GAAP.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of sales and expenses during the reporting period. Actual results may differ from those estimates, and such differences may be material to the financial statements.

These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in our annual report on Form 10-K for the fiscal year ended June 30, 2013 (“the fiscal 2013 Form 10-K”).

Unless the context requires otherwise, “fiscal” refers to the twelve months ended June 30 of the applicable year. For example, “fiscal 2013” refers to the twelve months ended June 30, 2013.

Results of operations for interim periods are not necessarily indicative of results to be expected for the full fiscal year or any future periods.

2. Recent Accounting Pronouncements

In February 2013, the FASB issued guidance which improves the reporting of reclassifications out of accumulated other comprehensive income. The new guidance requires an entity to report the effect of significant reclassifications out of accumulated other comprehensive income on the respective line items in net income if the amount being reclassified is required under U.S. GAAP to be reclassified in its entirety to net income. For other amounts that are not required under U.S. GAAP to be reclassified in their entirety from accumulated other comprehensive income to net

income in the same reporting period, an entity is required to cross-reference other disclosures required under U.S. GAAP that provide additional detail about those amounts. This new guidance became effective for us in our first quarter of fiscal 2014. The adoption of this presentation and disclosure only guidance is reflected in our consolidated financial statements.

In March 2013, the FASB issued guidance to resolve the diversity in practice concerning the release of the cumulative translation adjustment (“CTA”) into net income (i) when a parent sells a part or all of its investment in a foreign entity or no longer holds a controlling financial interest in a subsidiary or group of assets within a foreign entity, and (ii) in connection with a step acquisition of a foreign entity. This amended guidance requires that CTA be released into net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary or group of assets had resided, and that a pro rata portion of the CTA be released into net income upon a partial sale of an equity method investment in a foreign entity only. In addition, the amended guidance clarifies the definition of a sale of an investment in a foreign entity to include both events that result in the loss of a controlling financial interest in a foreign entity and events that result in an acquirer obtaining control of an acquiree in which it held an equity interest immediately prior to the date of acquisition. The CTA should be released into net income upon the occurrence of such events. This new guidance becomes effective prospectively for us in our first quarter of fiscal 2015. The adoption of this new guidance is not expected to have a significant impact on our consolidated financial statements.

In July 2013, the FASB issued guidance that clarifies when an entity should present an unrecognized tax benefit, or a portion of an unrecognized tax benefit, in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward. If either (i) a net operating loss carryforward, a similar tax loss, or tax credit carryforward is not available as of the reporting date under the governing tax law to settle taxes that would result from the disallowance of the tax position or (ii) the entity does not intend to use the deferred tax asset for this purpose (provided that the tax law permits a choice), an entity should present an unrecognized tax benefit in the financial statements as a liability and should not net the unrecognized tax benefit with a deferred tax asset. This new guidance becomes effective prospectively for us in our first quarter of fiscal 2015, with retrospective application and early adoption permitted. The adoption of this new guidance is not expected to have a significant impact on our consolidated financial statements.

In April 2014, the FASB issued guidance which changes the requirements for reporting discontinued operations. The new guidance requires a disposal of a component of an entity or a group of components of an entity to be reported in discontinued operations if the disposal represents a strategic shift that has, or will have, a major effect on an entity's operations and financial results. A strategic shift could include a disposal of (i) a major geographical area of operations, (ii) a major line of business, (iii) a major equity method investment or (iv) other major parts of an entity. The new guidance no longer precludes presentation as a discontinued operation if (i) there are operations and cash flows of the component that have not been eliminated from the reporting entity's ongoing operations or (ii) there is significant continuing involvement with a component after its disposal. Additional disclosures about discontinued operations will also be required. This new guidance becomes effective for our fiscal year ending June 30, 2016, and is to be applied prospectively to new disposals and new classifications of disposal groups as held for sale after the effective date. Early adoption is permitted.

3. Discontinued Operations

On September 5, 2013, we sold the net assets of Aeroflex Test Equipment Services ("ATES"), a division of our U.K. subsidiary, Aeroflex Limited, for \$19.2 million in cash, inclusive of a working capital adjustment. ATES provided calibration and repair services of non-Aeroflex test and measurement equipment in the United Kingdom and was previously included in our Aeroflex Test Solutions ("ATS") segment. As a result of this sale, we recorded a gain on disposal of \$14.1 million. The gain is not subject to U.K. taxes.

We have reported the results of operations of ATES as income from discontinued operations. Prior period statements of operations have been restated to conform to the current presentation. Net sales from the ATES operations were \$2.4 million from July 1, 2013 to the date of sale and \$3.9 million and \$11.8 million for the three and nine months ended March 31, 2013, respectively.

4. Acquisition of a Business

Shenick Network Systems

On February 5, 2014, we acquired 100% of the stock of Shenick Network Systems Limited (“Shenick”), for a cash purchase price of \$27.1 million, inclusive of a working capital adjustment. The Company has withheld \$1.7 million of the \$27.1 million purchase price to cover certain future payments that may come due pursuant to the purchase agreement. Shenick, located in Dublin, Ireland, is a leading edge provider of virtual testing for next generation software defined networking. Shenick is included in our ATS segment.

We allocated the purchase price based on the estimated fair value of the assets acquired and liabilities assumed as follows:

(In thousands)

Current assets (excluding cash of \$1,649)	\$2,960
Property, plant and equipment	752
Deferred taxes	59
Amortizable intangibles:	
Customer related	4,780
Developed technology	6,880
Trade names	2,420
Goodwill	9,449
Total assets acquired	27,300
Current liabilities assumed	(1,819)
Net assets acquired	\$25,481

We are in the process of completing our assessment of the fair value of certain assets and liabilities as of the date of acquisition which is expected to be finalized upon the receipt and completion of additional information and analysis during the fourth quarter of fiscal 2014.

The intangibles are being amortized on a straight-line basis over a range of 3 to 6 years. The intangibles and goodwill are not deductible for tax purposes.

On a pro forma basis, had the Shenick acquisition taken place as of the beginning of the periods presented, our results of operations for those periods would not have been materially affected. The results of operations of Shenick were included in our accompanying consolidated financial statements commencing with the date of acquisition.

5.Accounts Receivable Reserve

In the quarter ended March 31, 2013, we recorded a special reserve of \$2.5 million for all accounts receivable due from a customer whose bank accounts were seized by the U.S. Attorney. This charge is included in selling, general and administrative expenses in the accompanying statements of operations.

6. Inventories

Inventories consisted of the following:

	March 31, 2014	June 30, 2013
	(In thousands)	
Raw materials	\$77,519	\$76,762
Work in process	58,238	52,221
Finished goods	35,584	27,533
	\$171,341	\$156,516

7.Intangible Assets and Other Long Lived Assets

Intangible Assets with Definite Lives

The components of amortizable intangible assets were as follows:

	March 31, 2014			June 30, 2013		
	Gross Carrying Amount	Accumulated Amortization	Total Net Book Value	Gross Carrying Amount	Accumulated Amortization	Total Net Book Value
	(In thousands)					
Developed technology	\$211,331	\$ 200,365	\$ 10,966	\$201,447	\$ 192,574	\$ 8,873
Customer related intangibles	232,829	191,417	41,412	226,406	171,514	54,892
Non-compete arrangements	10,399	10,201	198	10,344	9,401	943
Trade names	5,788	2,834	2,954	3,332	2,488	844
Total	\$460,347	\$ 404,817	\$ 55,530	\$441,529	\$ 375,977	\$ 65,552

Goodwill

We assess goodwill and other intangible assets with indefinite lives at least annually for impairment, in the fourth quarter of our fiscal year, or more frequently if certain events or circumstances indicate an impairment may have occurred. We test goodwill for impairment at the reporting unit level, which is one level below our operating segments.

The carrying amount of goodwill, by segment, was as follows:

	Microelectronic Solutions	Text Solutions	Total
	(In thousands)		
Balance at June 30, 2013			
Goodwill	\$339,859	\$159,284	\$499,143
Accumulated impairments	(90,100)	(93,400)	(183,500)
	249,759	65,884	315,643
Changes for the nine months ended March 31, 2014			
Goodwill recorded for acquisition of Shenick	-	9,449	9,449
Translation and other adjustments	547	763	1,310
	547	10,212	10,759
Balance at March 31, 2014			
Goodwill	340,406	169,496	509,902
Accumulated impairments	(90,100)	(93,400)	(183,500)
	\$250,306	\$76,096	\$326,402

In December 2013, based on a reduced forecast in one of our ATS reporting units, Avionics-Communications (“AVComm”), resulting from continued uncertainty in government spending, we had tested this reporting unit for impairment. As of December 31, 2013, the AVComm group had goodwill of \$24.1 million and an enterprise carrying value of \$91.2 million. We evaluated if there was impairment by comparing the fair value of the reporting unit with its enterprise carrying value. Based on our analysis of the discounted estimated cash flows of this group, we had estimated that the fair value of this group was approximately \$98.6 million at December 31, 2013 and that the goodwill had not been impaired. There were no indications of any impairment of the AVComm reporting unit at March 31, 2014. However, should actual results differ from our forecasts of cash flows and our estimated enterprise fair value decreases below the carrying value, then an impairment would likely occur and we would need to calculate the amount of the write-down of goodwill by comparing the implied fair value of the reporting unit’s goodwill (the excess of the fair value of the reporting unit over the fair value of its net identifiable assets) with the carrying amount of that goodwill. We will conduct our annual assessment of goodwill in the fourth quarter.

Other Long Lived Assets

In December 2012, we entered into a contract for the sale of our RF and microwave components (“RFMW”) Whippany, New Jersey building. The net proceeds received in January 2013 were less than the carrying value of the building. Therefore, in December 2012, we recorded a \$1.3 million impairment to the asset held for sale. Our RFMW reporting unit is included within our Aeroflex Microelectronic Solutions (“AMS”) segment.

8. Restructuring Charges

The following table sets forth the charges and payments related to the restructuring liability, which is reflected in accrued expenses and other current liabilities in the accompanying condensed consolidated balance sheets and relates primarily to our ATS segment for both its Wireless and AVComm groups, for the period indicated:

	Balance June 30, 2013	Nine Months Ended March 31, 2014			Balance March 31, 2014
	Restructuring Liability	Net Additions (In thousands)	Cash Payments	Effect of Foreign Currency	Restructuring Liability
Severance costs	\$ 904	\$ 1,806	\$ (1,888)	\$ 23	\$ 845
Facilities closure costs	88	1,747	(1,830)	-	5
Total	\$ 992	\$ 3,553	\$ (3,718)	\$ 23	\$ 850

9. Derivative Financial Instruments

We address certain financial exposures through a controlled program of risk management that includes the use of derivative financial instruments. When deemed appropriate to do so, we enter into interest rate swap derivatives to manage the effects of interest rate movements on portions of our debt. We routinely enter into foreign currency forward contracts, not designated as hedging instruments, to protect us from fluctuations in exchange rates.

Foreign Currency Forward Contract Derivatives

Foreign currency forward contracts are used to protect us from fluctuations in exchange rates. Our foreign currency forward contracts are not designated as hedges and therefore the change in fair value is included in other income (expense) as it occurs. As of March 31, 2014, we had \$43.4 million of notional value foreign currency forward contracts maturing through April 30, 2014. Notional amounts do not quantify risk or represent assets or liabilities of the Company, but are used in the calculation of cash settlements under the contracts.

The fair values of our derivative financial instruments included in the condensed consolidated balance sheets as of March 31, 2014 and June 30, 2013 were as follows:

(In thousands)	Asset (Liability) Derivatives March 31, 2014 Balance Sheet		June 30, 2013 Balance Sheet	
	Location	Fair Value (1)	Location	Fair Value (1)
Derivatives not designated as hedging instruments:				
Foreign currency forward contracts	Prepaid expenses and other current assets	\$ 31	Accrued expenses and other current liabilities	\$ (359)

(1) The fair values of derivative assets and liabilities are determined based on observable market data and are considered level 2 in the fair value hierarchy.

The amounts of the gains and losses related to our derivative financial instruments not designated as hedging instruments for the three and nine months ended March 31, 2014 and 2013 were as follows:

Derivatives Not Designated as Hedging Instruments	Location of Gain or (Loss) Recognized in Earnings on Derivative	Amount of Gain or (Loss) Recognized in Earnings on Derivative			
		Three Months Ended March 31, 2014	Three Months Ended March 31, 2013	Nine Months Ended March 31, 2014	Nine Months Ended March 31, 2013
Foreign currency forward contracts	Other income (expense)	\$(193)	\$190	\$ 390	\$ 161

(In thousands)

10. Long Term Debt and Credit Agreements

As of March 31, 2014, we were in compliance with all of the financial covenants contained in our senior secured credit facility.

Interest paid was \$20.5 million and \$27.6 million for the nine months ended March 31, 2014 and 2013, respectively. Accrued interest of \$2.3 million and \$2.5 million was included in accrued expenses and other current liabilities at March 31, 2014 and June 30, 2013, respectively.

The fair value of our debt instruments was as follows:

	As of March 31, 2014 (In thousands)	
	Carrying Amount	Estimated Fair Value
Senior secured term loan facility	\$ 587,000	\$ 592,870

As of June 30, 2013, our total debt had a carrying value of \$587.0 million and an estimated fair value of \$585.5 million.

The estimated fair value of our senior secured term loan facility was based on quoted prices and is considered a level 2 measurement.

11. Accumulated Other Comprehensive Income (Loss)

The changes in accumulated other comprehensive income (loss), net of tax, for the nine months ended March 31, 2014 were as follows:

	Net Minimum Pension Liability	Net Cumulative Translation Adjustment	Total
	(In thousands)		
Accumulated other comprehensive income (loss) at June 30, 2013	\$(1,403)	\$ (42,003)	\$(43,406)
Other comprehensive income (loss)			
Other comprehensive income (loss) before reclassifications	48	14,846	14,894
Amounts reclassified from accumulated other comprehensive income	26	-	26
Total other comprehensive income (loss)	74	14,846	14,920
Accumulated other comprehensive income (loss) at March 31, 2014	\$(1,329)	\$ (27,157)	\$(28,486)

12. Share-Based Payment ArrangementsRestricted Stock Units

During the nine months ended March 31, 2014, the compensation committee awarded restricted stock units, or RSUs, covering a total of 609,000 shares. The average grant date fair value per share of these RSUs was \$6.32 and they vest in equal tranches over service periods between one and four years.

Performance Restricted Stock Units

During the nine months ended March 31, 2014, the compensation committee awarded performance restricted stock units, or PRSUs, covering a total of 441,000 shares with an average grant date fair value of \$6.20. PRSUs include both a service condition and a performance condition. The number of PRSUs that will vest is dependent on the Company achieving pre-established annual financial performance targets. The PRSUs generally have a service period of up to three years. Vesting of 0% to 150% of the indicated shares may occur depending on the extent to which performance

targets are achieved.

13. Income (Loss) Per Common Share

Our consolidated statements of operations present basic and diluted income (loss) per common share. Basic income (loss) per common share is computed by dividing income (loss) by the weighted average number of common shares outstanding for the period. Diluted income (loss) per common share reflects the dilutive effects of RSUs and PRSUs, if any. The treasury stock method is used to determine the dilutive effect of these potentially dilutive securities.

13

The following table reconciles basic shares outstanding to diluted shares outstanding:

	Three Months Ended		Nine Months Ended	
	March 31, 2014	2013	March 31, 2014	2013
	(In thousands)			
Basic shares outstanding	85,186	84,904	85,039	84,870
Effect of dilution	225	-	251	-
Diluted shares outstanding	85,411	84,904	85,290	84,870

For the three and nine months ended March 31, 2014, 17,000 shares of common stock equivalents, (which includes PRSUs that have been earned, but are subject to the continued employment of the respective participants with the Company) were excluded from the diluted weighted average shares outstanding calculation because they were anti-dilutive. Also, if all maximum performance metrics are achieved, an additional 1.4 million PRSUs could potentially vest. These PRSUs have also been excluded from diluted income (loss) per common share as the performance criteria on these awards were not satisfied during these periods.

For the three and nine months ended March 31, 2013, 1.1 million shares of common stock equivalents, were excluded from the diluted weighted average shares outstanding calculation because they were anti-dilutive. Also, if all maximum performance metrics are achieved, an additional 1.1 million PRSUs could potentially vest. These PRSUs have also been excluded from diluted income (loss) per common share as the performance criteria on these awards were not satisfied during these periods.

14. Legal Matters

To resolve all those outstanding violations of the Arms Export Control Act, or AECA, and the International Traffic in Arms Regulations, or ITAR, during the period from 1999 to 2009 that were disclosed by us voluntarily to the U.S. State Department concerning space related hardware items that were exported to China and, without the requisite State Department licenses, to end users in numerous other foreign countries, without admitting or denying the allegation of the violations, we have entered into a Consent Agreement effectively as of August 6, 2013, with the U.S. Department of State, Office of Defense Trade Controls Compliance. The Consent Agreement involves, among other things, a fine of \$8.0 million payable over a two year period, \$4.0 million of which is suspended and eligible for credit based on pre and post Consent Agreement compliance expenditures and investments made by the Company and approved by the State Department. During fiscal 2013, we recorded a charge of \$8.0 million representing the legal obligation to the State Department under the then proposed terms of the Consent Agreement. In accordance with the terms of the Consent Agreement, in August 2013 we paid \$2.0 million of the fine. Going forward, the Consent Agreement will not impact our ability to transact business internationally.

In March 2005, we sold the net assets of our shock and vibration control device manufacturing business, which we refer to as VMC. Under the terms of the sale agreements, we retained certain liabilities relating to adverse environmental conditions that existed at the premises occupied by VMC as of the date of sale. We recorded a liability for the estimated remediation costs related to adverse environmental conditions that existed at the VMC premises when it was sold. The accrued environmental liability at March 31, 2014 was \$1.1 million, of which \$288,000 was expected to be paid within one year.

We are also involved in various other claims and legal actions that arise in the ordinary course of business. We do not believe that the ultimate resolution of any of these actions will have a material adverse effect on our business, results of operations, financial position, liquidity or capital resources.

15. Income Taxes

The income tax provision was \$2.5 million and the income tax benefit was \$43,000 for the three and nine months ended March 31, 2014 on pre-tax income from continuing operations of \$7.8 million and \$2.5 million, respectively. We recorded an income tax benefit for the three and nine months ended March 31, 2013 of \$3.1 million and \$10.9 million on a pre-tax loss from continuing operations of \$12.9 million and \$35.0 million, respectively. The effective income tax rate for both periods differed from the amount computed by applying the U.S. federal income tax rate to income from continuing operations before taxes primarily due to lower foreign tax rates, and state and local income taxes, including U.S. income tax on certain foreign income that we anticipate will be repatriated to the U.S.

The income tax benefit for the nine months ended March 31, 2014 reflects a discrete benefit of \$727,000 relating to a reduction in the statutory income tax rate in the U.K. partially offset by an adjustment to prior year U.S. federal income taxes. The income tax benefit for the nine months ended March 31, 2013 reflects a discrete benefit of \$442,000 relating to statutory income tax rate reductions in the U.K. and Sweden and the retroactive extension of the U.S. research credit largely offset by an adjustment of estimated deferred taxes.

Absent the discrete items, the effective tax rates were 28% and 23% for the three months ended March 31, 2014 and 2013 and 28% and 30% for the nine months ended March 31, 2014 and 2013, respectively. The current year's provision was a combination of a U.S. tax benefit on a domestic book loss and a foreign tax expense on foreign book income. The prior year's provision was a combination of a U.S. tax benefit on a domestic book loss and a foreign tax benefit on a foreign book loss.

In the nine months ended March 31, 2014 and 2013, we paid income taxes of \$13.6 million and \$5.1 million and received refunds of \$524,000 and \$5.7 million, respectively.

16. Business Segments

We are a global provider of radio frequency, or RF, and microwave integrated circuits, components and systems used in the design, development and maintenance of technically demanding, high-performance wireless communication systems. Our solutions include highly specialized microelectronic components and test and measurement equipment used by companies in the space, avionics, defense, commercial wireless communications, medical and other markets. Our sales to agencies of the United States government or to prime defense contractors or subcontractors of the United States government were approximately 30% and 29% for the three months ended March 31, 2014 and 2013 and 31% and 29% for the nine months ended March 31, 2014 and 2013, respectively. No customer constituted more than 10% of sales during any of the periods presented. Inter-segment sales were not material and have been eliminated from the tables below.

The majority of our operations are located in the United States. We also have operations in Europe and Asia, with our most significant non-U.S. operations in England. Net sales from facilities located in England were \$43.8 million and \$39.6 million for the three months ended March 31, 2014 and 2013 and \$115.2 million and \$105.1 million for the nine months ended March 31, 2014 and 2013, respectively. Total assets of our operations in England were \$202.7 million as of March 31, 2014 and \$189.2 million as of June 30, 2013.

Net sales, based on the customers' locations, attributed to the United States and other regions were as follows:

	Three Months Ended		Nine Months Ended	
	March 31, 2014	2013	March 31, 2014	2013
	(In thousands)			
United States of America	\$77,823	\$82,563	\$245,779	\$244,976
Europe and Middle East	34,565	34,775	84,037	92,915
Asia and Australia	33,464	34,514	86,357	92,763
Other regions	9,611	5,190	23,127	15,895
	\$155,463	\$157,042	\$439,300	\$446,549

We organize our operations into two segments: Aeroflex Microelectronic Solutions, or AMS, and Aeroflex Test Solutions, or ATS. We engineer, manufacture and market a diverse range of products in each of our segments. The segment data which follows reflects a reclassification of our frequency synthesizer product line from our ATS segment to our AMS segment for all periods presented to better align it with its end markets. Our synthesizer reporting unit had sales of \$5.3 million and \$4.2 million for the three months ended March 31, 2014 and 2013 and \$14.5 million and \$12.6 million for the nine months ended March 31, 2014 and 2013, respectively.

AMS offers a broad range of microelectronics products and is a leading provider of high-performance, high reliability specialty microelectronics components. Its products include high reliability, or HiRel, microelectronics/semiconductors, RF and microwave components, mixed-signal/digital Application Specific Integrated Circuits ("ASICs") and motion control products. ATS is a leading provider of a broad line of specialized test and measurement equipment. Its products include wireless test equipment, military radio and private mobile radio test equipment, avionics test equipment, synthetic test equipment and other general purpose test equipment.

Selected financial data by segment was as follows:

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2014	2013	2014	2013
	(In thousands)			
Net sales				
- Microelectronic solutions ("AMS")	\$88,317	\$89,864	\$246,080	\$251,237
- Test solutions ("ATS")	67,146	67,178	193,220	195,312
Net sales	\$155,463	\$157,042	\$439,300	\$446,549

- Corporate	(705)	-	(1,046)	(697)
Current period impact of acquisition related adjustments				
- AMS	25	20	75	31
- ATS	(284)	22	(240)	66
- Corporate	(55)	(55)	(165)	(165)
Operating income (loss) (GAAP)	15,138	(3,080)	24,624	(4,029)
Interest expense	(7,116)	(9,448)	(21,608)	(29,294)
Write-off of deferred financing costs	-	-	-	(824)
Other income (expense), net	(214)	(389)	(561)	(890)
Income (loss) from continuing operations before income taxes	\$7,808	\$(12,917)	\$2,455	\$(35,037)

Management evaluates the operating results of our two segments based upon Adjusted EBITDA (as defined in our credit agreement) as well as adjusted operating income, which is pre-tax operating income before certain non-cash, non-recurring and other items. We have set out above our adjusted operating income by segment and in the aggregate, and have provided a reconciliation of adjusted operating income to operating income (loss) on a GAAP basis and income (loss) from continuing operations before income taxes for the periods presented.

ITEM MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS 2. OF OPERATIONS

Unless the context requires otherwise: (i) "we," "our," "us," or the "Company" refer to Aeroflex Holding Corp. and subsidiaries; (ii) "fiscal" refers to the twelve months ended June 30 of the applicable year. For example, "fiscal 2013" refers to the twelve months ended June 30, 2013.

Forward-Looking Statements

This report contains "forward-looking statements." All statements other than statements of historical fact are "forward-looking statements" for purposes of the U.S. federal and state securities laws. These statements may be identified by the use of forward looking terminology such as "anticipate," "believe," "continue," "could," "estimate," "expect," "intend," "may," "might," "plan," "potential," "predict," "should" or "will" or the negative thereof or other variations thereon or comparable terminology.

We have based these forward-looking statements on our current expectations, assumptions, estimates and projections. While we believe these expectations, assumptions, estimates and projections are reasonable, such forward-looking statements are only predictions and involve known and unknown risks and uncertainties, many of which are beyond our control. These and other important factors may cause our actual results, performance or achievements to differ materially from any future results, performance or achievements expressed or implied by these forward-looking statements. A listing of some of the key factors that could cause actual results to differ from our expectations is included under the caption "Risk Factors" in our fiscal 2013 Form 10-K.

Given these risks and uncertainties, you are cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements included in this report are made only as of the date hereof. We undertake no obligation to update or revise any forward-looking statements, either to reflect new developments, or for any other reason, except as required by law.

Overview

Company Background

We are a leading global provider of RF and microwave integrated circuits, components and systems used in the design, development and maintenance of technically demanding, high-performance wireless communication systems. Our solutions include highly specialized microelectronic components and test and measurement equipment used by companies in the: (i) commercial wireless communications (ii) space, avionics and defense; and (iii) medical and other markets. We have targeted customers in these end markets because we believe our solutions address their technically demanding requirements. We were founded in 1937 and have proprietary technology that is based on extensive know-how and a long history of research and development focused on specialized technologies, often in collaboration with our customers.

Business Segments

Our business segments and major products included in each segment are as follows:

Aeroflex Microelectronic Solutions (“AMS”)

- HiRel microelectronics/semiconductors
- RF and microwave components
- Mixed-signal/digital Application Specific Integrated Circuits (“ASICs”)
- Motion control products

Aeroflex Test Solutions (“ATS”)

- Wireless test equipment
- Military radio and Private Mobile Radio, or PMR, test equipment
- Avionics test equipment
- Synthetic test equipment
- General purpose test equipment

Discontinued Operations

On September 5, 2013, we sold the net assets of Aeroflex Test Equipment Services (“ATES”), a division of our U.K. subsidiary, Aeroflex Limited, for \$19.2 million in cash, inclusive of a working capital adjustment. ATES provided calibration and repair services of non-Aeroflex test and measurement equipment in the United Kingdom and was previously included in our ATS segment. As a result of this sale, we recorded a gain on disposal of \$14.1 million. The gain is not subject to U.K. taxes.

We have reported the results of operations of ATES as income from discontinued operations. The prior period statement of operations has been restated to conform to the current presentation.

Results of Operations

The following table sets forth our historical results of operations as a percentage of net sales for the periods indicated below:

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2014	2013	2014	2013
Net sales	100.0%	100.0%	100.0%	100.0%
Cost of sales	46.7	49.2	49.1	49.4
Gross profit	53.3	50.8	50.9	50.6
Operating expenses:				
Selling, general and administrative costs	23.5	23.7	23.6	24.5
Research and development costs	14.6	14.8	15.2	14.6
Amortization of acquired intangibles	4.7	8.9	5.7	9.5
Restructuring charges	0.9	0.3	0.8	0.8
Impairment of other long-lived assets	-	-	-	0.3
ITAR settlement expense	-	5.1	-	1.8
Total operating expenses	43.7	52.8	45.3	51.5
Operating income (loss)	9.6	(2.0)	5.6	(0.9)
Other income (expense):				
Interest expense	(4.6)	(6.0)	(4.9)	(6.5)
Write-off of deferred financing costs	-	-	-	(0.2)
Other income (expense), net	(0.1)	(0.2)	(0.1)	(0.2)
Income (loss) from continuing operations before income taxes	4.9	(8.2)	0.6	(7.8)
Provision (benefit) for income taxes	1.6	(2.0)	-	(2.4)
Income (loss) from continuing operations	3.3	(6.2)	0.6	(5.4)
Discontinued operations:				
Income from discontinued operations, net of tax	-	0.3	0.1	0.3
Gain on disposal of operations, net of tax	-	-	3.2	-
Income from discontinued operations	-	0.3	3.3	0.3
Net income (loss)	3.3 %	(5.9)%	3.9 %	(5.1)%

Three Months Ended March 31, 2014 Compared to Three Months Ended March 31, 2013

Net Sales. Net sales were \$155.5 million for the three months ended March 31, 2014 and \$157.0 million for the three months ended March 31, 2013.

Net Sales

Three Months Ended March 31, (In thousands, except percentages)	AMS	% of Consolidated Net Sales	ATS	% of Consolidated Net Sales	Total
2014	\$88,317	56.8	% \$67,146	43.2	% \$155,463
2013	\$89,864	57.2	% \$67,178	42.8	% \$157,042

Net sales in the AMS segment decreased \$1.5 million, or 1.7%, to \$88.3 million for the three months ended March 31, 2014 from \$89.9 million for the three months ended March 31, 2013. This sales decrease was primarily attributable to volume reductions of HiRel microelectronics/semiconductors due to government budgetary constraints that have caused delays on defense and space programs and embargoes of sales to Russia, offset in part by increased sales volume of mixed-signal/digital ASICs, which are predominantly sold to our commercial customers.

Net sales from continuing operations in the ATS segment were \$67.1 million for the three months ended March 31, 2014 as compared to \$67.2 million for the three months ended March 31, 2013. A \$5.0 million volume driven increase in sales of wireless test equipment was offset by a volume reduction in the AVComm product groups.

Gross Profit. Gross profit equals net sales less cost of sales. Cost of sales includes materials, direct labor, amortization of capitalized software development costs and overhead expenses such as engineering labor, fringe benefits, depreciation, allocable occupancy costs and manufacturing supplies.

On a consolidated basis, gross profit was \$82.9 million, or 53.3% of net sales, for the three months ended March 31, 2014 compared to \$79.8 million, or 50.8% of net sales, for the three months ended March 31, 2013.

Gross Profit

Three Months	% of	% of	% of
--------------	------	------	------

Edgar Filing: AEROFLEX HOLDING CORP. - Form 10-Q

Ended March 31,	AMS	Net Sales	ATS	Net Sales	Total	Net Sales
(In thousands, except percentages)						
2014	\$43,043	48.7%	\$39,869	59.4%	\$82,912	53.3%
2013	\$43,349	48.2%	\$36,444	54.2%	\$79,793	50.8%

Gross margins in the AMS segment were 48.7% for the three months ended March 31, 2014, modestly higher than the 48.2% for the three months ended March 31, 2013.

Gross margins in the ATS segment were 59.4% for the three months ended March 31, 2014 and 54.2% for the three months ended March 31, 2013. Gross profit increased \$3.4 million. Gross margins improved for the three months ended March 31, 2014 as compared to the three months ended March 31, 2013, largely due to an increase in sales of our wireless test equipment, which has a higher margin than the segment average.

Selling, General and Administrative Costs. Selling, general and administrative (“SG&A”) costs include office and management salaries, fringe benefits, commissions, insurance and professional fees.

On a consolidated basis, SG&A costs decreased \$705,000, or 1.9%, when comparing the three months ended March 31, 2014 to the three months ended March 31, 2013. As a percentage of sales, SG&A decreased to 23.5% from 23.7% when comparing the three months ended March 31, 2014 to the three months ended March 31, 2013.

Selling, General and Administrative Costs

Three Months Ended		% of Net Sales		% of Net Sales			% of Net Sales
March 31,	AMS	AMS	ATS	Corporate	Corporate	Total	Total
(In thousands, except percentages)							
2014	\$13,200	14.9%	\$17,766	26.5%	\$ 5,568	\$36,534	23.5%
2013	\$16,045	17.9%	\$17,953	26.7%	\$ 3,241	\$37,239	23.7%

In the AMS segment, SG&A costs decreased \$2.8 million. This decrease was primarily attributable to a reserve recorded in March 2013, of \$2.5 million, established for accounts receivables with a customer whose bank accounts were seized by the U.S. Attorney.

Corporate general and administrative costs increased \$2.3 million, primarily due to an increase in, and timing of, employee related expenses, combined with acquisition related costs occurring in the three months ended March 31, 2014.

Research and Development Costs. Research and development costs include materials, engineering labor and allocated overhead.

On a consolidated basis, research and development costs decreased \$571,000 for the three months ended March 31, 2014 from the three months ended March 31, 2013.

Research and Development Costs

Three Months Ended		% of Net	% of Net	% of Net
--------------------	--	----------	----------	----------

Edgar Filing: AEROFLEX HOLDING CORP. - Form 10-Q

March 31,	AMS	Sales	ATS	Sales	Total	Sales
(In thousands, except percentages)						
2014	\$10,247	11.6%	\$12,429	18.5%	\$22,676	14.6%
2013	\$10,164	11.3%	\$13,083	19.5%	\$23,247	14.8%

Amortization of Acquired Intangibles. Amortization of acquired intangibles decreased \$6.8 million due to certain intangibles becoming fully amortized during fiscal 2014.

Restructuring Charges. On a consolidated basis, restructuring charges were \$1.3 million for the three months ended March 31, 2014 compared to \$396,000 for the three months ended March 31, 2013. For the three months ended March 31, 2014, the restructuring charges in both the AMS and ATS segments were related to cost savings initiatives as we continue to streamline our operations.

ITAR Settlement Expense. To resolve all those outstanding violations of the Arms Export Control Act, or AECA, and the International Traffic in Arms Regulations, or ITAR, during the period from 1999 to 2009 that were disclosed by us voluntarily to the U.S. State Department concerning space related hardware items that were exported to China and, without the requisite State Department licenses, to end users in numerous other foreign countries, without admitting or denying the allegation of the violations, we have entered into a Consent Agreement effectively as of August 6, 2013, with the U.S. Department of State, Office of Defense Trade Controls Compliance. The Consent Agreement involves, among other things, a fine of \$8.0 million payable over a two year period, \$4.0 million of which is suspended and eligible for credit based on pre and post Consent Agreement compliance expenditures and investments made by the Company and approved by the State Department. During the quarter ended March 31, 2013, we recorded a charge of \$8.0 million representing the legal obligation to the State Department under the then proposed terms of the Consent Agreement. In accordance with the terms of the Consent Agreement, in August 2013 we paid \$2.0 million of the fine. Going forward, the Consent Agreement will not impact our ability to transact business internationally.

Interest Expense. Interest expense decreased by \$2.3 million to \$7.1 million for the three months ended March 31, 2014 from \$9.4 million for the three months ended March 31, 2013. Interest expense decreased due to: (i) a lower outstanding principal amount resulting from voluntary debt payments made throughout fiscal 2013 totaling \$60 million; and (ii) a 125 basis point interest rate reduction in connection with the May 29, 2013 amendment to our senior secured credit facility.

Income Taxes. The income tax provision was \$2.5 million for the three months ended March 31, 2014 on a pre-tax income from continuing operations of \$7.8 million. We recorded an income tax benefit for the three months ended March 31, 2013 of \$3.1 million on a pre-tax loss from continuing operations of \$12.9 million. The effective income tax rate for both periods differed from the amount computed by applying the U.S. federal income tax rate to income from continuing operations before taxes primarily due to lower foreign tax rates, and state and local income taxes, including U.S. income tax on certain foreign income that we anticipate will be repatriated to the U.S.

The income tax provision for the three months ended March 31, 2014 includes a discrete charge of \$301,000 relating to prior year U.S. federal income taxes. The income tax benefit for the three months ended March 31, 2013 reflects a discrete benefit of \$190,000 primarily related to the retroactive extension of the research credit in the United States.

Income (Loss) from Continuing Operations. Income (loss) from continuing operations was \$5.3 million for the three months ended March 31, 2014 and \$(9.8) million for the three months ended March 31, 2013.

Discontinued Operations. As a result of the sale of ATES in September 2013, its results of operations have been removed from continuing operations for all periods. Net sales from the ATES operations were \$3.9 million for the three months ended March 31, 2013.

Net Income (Loss). Net income (loss) was \$5.3 million for the three months ended March 31, 2014 and \$(9.4) million for the three months ended March 31, 2013.

Nine Months Ended March 31, 2014 Compared to Nine Months Ended March 31, 2013

Net Sales. Net sales decreased \$7.2 million, or 1.6%, to \$439.3 million for the nine months ended March 31, 2014 from \$446.5 million for the nine months ended March 31, 2013.

Net Sales

Nine Months Ended March 31, (In thousands, except percentages)	AMS	% of Consolidated Net Sales	ATS	% of Consolidated Net Sales	Total
2014	\$246,080	56.0	% \$193,220	44.0	% \$439,300
2013	\$251,237	56.3	% \$195,312	43.7	% \$446,549

Net sales in the AMS segment decreased \$5.2 million, or 2.1%, to \$246.1 million for the nine months ended March 31, 2014 from \$251.2 million for the nine months ended March 31, 2013. This sales decrease was primarily attributable to volume reductions of HiRel microelectronics/semiconductors due to government budgetary constraints that have caused delays on defense and space programs and embargoes of sales to Russia, offset in part by increased sales volume of mixed-signal/digital ASICs, which are predominantly sold to our commercial customers.

Net sales from continuing operations in the ATS segment decreased \$2.1 million, or 1.1%, to \$193.2 million for the nine months ended March 31, 2014 from \$195.3 million for the nine months ended March 31, 2013. Volume driven increases in sales of wireless test equipment (\$10.0 million) and avionics test equipment (\$5.0 million) were more than offset by reductions in the sales volume of our radio test equipment, general purpose test equipment and synthetic test equipment.

Gross Profit. On a consolidated basis, gross profit was \$223.7 million, or 50.9% of net sales, for the nine months ended March 31, 2014 compared to \$226.1 million, or 50.6% of net sales, for the nine months ended March 31, 2013.

Gross Profit

Nine Months Ended March 31, (In thousands, except percentages)	AMS	% of Net Sales	ATS	% of Net Sales	Total	% of Net Sales
--	-----	----------------	-----	----------------	-------	----------------

Edgar Filing: AEROFLEX HOLDING CORP. - Form 10-Q

2014	\$114,869	46.7%	\$108,841	56.3%	\$223,710	50.9%
2013	\$122,060	48.6%	\$104,013	53.3%	\$226,073	50.6%

Gross margins in the AMS segment were 46.7% for the nine months ended March 31, 2014 and 48.6% for the nine months ended March 31, 2013. Gross profit decreased \$7.2 million for the nine months ended March 31, 2014 as compared to the nine months ended March 31, 2013 largely due to the reduction in sales, including a reduction in sales of HiRel microelectronics/semiconductors which have margins higher than the segment average.

Gross margins in the ATS segment were 56.3% for the nine months ended March 31, 2014 and 53.3% for the nine months ended March 31, 2013. Gross profit increased \$4.8 million. Gross margins improved for the nine months ended March 31, 2014 as compared to the nine months ended March 31, 2013 largely due to an increase in sales of our wireless test equipment, partially offset by decreases in margins in radio test equipment.

Selling, General and Administrative Costs. On a consolidated basis, SG&A costs decreased \$5.5 million, or 5.0%, when comparing the nine months ended March 31, 2014 to the nine months ended March 31, 2013. As a percentage of sales, SG&A decreased to 23.6% from 24.5% when comparing the nine months ended March 31, 2014 to the nine months ended March 31, 2013.

Selling, General and Administrative Costs

Nine Months Ended March 31,	AMS	% of Net Sales	ATS	% of Net Sales	Corporate	Total	% of Net Sales
(In thousands, except percentages)							
2014	\$39,401	16.0%	\$51,141	26.5%	\$13,172	\$103,714	23.6%
2013	\$41,874	16.7%	\$54,983	28.2%	\$12,329	\$109,186	24.5%

In the AMS segment, SG&A costs decreased \$2.5 million. This decrease was primarily attributable to a reserve recorded in March 2013, of \$2.5 million, established for accounts receivables with a customer whose bank accounts were seized by the U.S. Attorney.

In the ATS segment, SG&A costs decreased \$3.8 million, primarily due to cost reduction activities in both our Wireless and AVComm groups.

Corporate general and administrative costs increased \$843,000 primarily due to an increase in employee related expenses and acquisition related costs.

Research and Development Costs. On a consolidated basis, research and development costs increased \$1.6 million for the nine months ended March 31, 2014 from the nine months ended March 31, 2013, as we continue to invest in new technologies and enhancements to support future sales.

Research and Development Costs

Nine Months Ended March 31,	AMS	% of Net Sales	ATS	% of Net Sales	Total	% of Net Sales
(In thousands, except percentages)						
2014	\$29,355	11.9%	\$37,500	19.4%	\$66,855	15.2%

2013	\$27,831	11.1%	\$37,382	19.1%	\$65,213	14.6%
------	----------	-------	----------	-------	----------	-------

In the AMS segment, research and development costs increased \$1.5 million as a result of modest increases across our business units.

Amortization of Acquired Intangibles. Amortization of acquired intangibles decreased \$17.7 million due to certain intangibles becoming fully amortized during fiscal 2014.

Restructuring Charges. On a consolidated basis, restructuring charges were \$3.6 million for the nine months ended March 31, 2014 compared to \$3.7 million for the nine months ended March 31, 2013. For both of the nine month periods ended March 31, 2014 and 2013, the restructuring charges were primarily related to cost savings initiatives in the ATS segment for both our Wireless and AVComm groups.

Impairment of Other Long-Lived Assets. In December 2012, we entered into a contract for the sale of our RFMW Whippany, N.J. building. The net proceeds received in January 2013 were less than the carrying value of the building. Therefore, in December 2012, we recorded a \$1.3 million impairment to the asset held for sale. Our RFMW reporting unit is included within our AMS segment.

ITAR Settlement Expense. To resolve all those outstanding violations of the Arms Export Control Act, or AECA, and the International Traffic in Arms Regulations, or ITAR, during the period from 1999 to 2009 that were disclosed by us voluntarily to the U.S. State Department concerning space related hardware items that were exported to China and, without the requisite State Department licenses, to end users in numerous other foreign countries, without admitting or denying the allegation of the violations, we have entered into a Consent Agreement effectively as of August 6, 2013, with the U.S. Department of State, Office of Defense Trade Controls Compliance. The Consent Agreement involves, among other things, a fine of \$8.0 million payable over a two year period, \$4.0 million of which is suspended and eligible for credit based on pre and post Consent Agreement compliance expenditures and investments made by the Company and approved by the State Department. During the quarter ended March 31, 2013, we recorded a charge of \$8.0 million representing the legal obligation to the State Department under the then proposed terms of the Consent Agreement. In accordance with the terms of the Consent Agreement, in August 2013 we paid \$2.0 million of the fine. Going forward, the Consent Agreement will not impact our ability to transact business internationally.

Interest Expense. Interest expense decreased by \$7.7 million to \$21.6 million for the nine months ended March 31, 2014 from \$29.3 million for the nine months ended March 31, 2013. Interest expense decreased due to: (i) a lower outstanding principal amount resulting from voluntary debt payments made throughout fiscal 2013 totaling \$60 million; and (ii) a 125 basis point interest rate reduction in connection with the May 29, 2013 amendment to our senior secured credit facility.

Income Taxes. The income tax benefit was \$43,000 for the nine months ended March 31, 2014 on a pre-tax income from continuing operations of \$2.5 million. We recorded an income tax benefit for the nine months ended March 31, 2013 of \$10.9 million on a pre-tax loss from continuing operations of \$35.0 million. The effective income tax rate for both periods differed from the amount computed by applying the U.S. federal income tax rate to income from continuing operations before taxes primarily due to lower foreign tax rates, and state and local income taxes, including U.S. income tax on certain foreign income that we anticipate will be repatriated to the U.S.

The income tax benefit for the nine months ended March 31, 2014 reflects a discrete benefit of \$727,000, relating to a reduction in the statutory income tax rate in the U.K. partially offset by an adjustment to prior year U.S. federal income taxes. The income tax benefit for the nine months ended March 31, 2013 reflects a discrete benefit of \$442,000 relating to statutory income tax rate reductions in the U.K. and Sweden and the retroactive extension of the U.S. research credit largely offset by an adjustment of estimated deferred taxes.

Income (Loss) from Continuing Operations. Income (loss) from continuing operations was \$2.5 million for the nine months ended March 31, 2014 and \$(24.2) million for the nine months ended March 31, 2013.

Discontinued Operations. As a result of the sale of ATES in September 2013, its results of operations have been removed from continuing operations for all periods. Net sales from the ATES operations were \$2.4 million from July 1, 2013 to the date of sale and \$11.8 million for the nine months ended March 31, 2013. The gain on disposal was \$14.1 million.

Net Income (Loss). Net income (loss) was \$17.0 million for the nine months ended March 31, 2014 and \$(22.8) million for the nine months ended March 31, 2013.

Liquidity and Capital Resources

As of March 31, 2014, we had \$47.2 million of cash and cash equivalents, \$280.8 million in working capital and our current ratio was 3.40 to 1, versus \$39.4 million, \$262.8 million and 3.04 to 1, respectively, at June 30, 2013.

Our principal liquidity requirements are to service our debt and interest and meet our working capital and capital expenditure needs. As of March 31, 2014, we had \$587.0 million of debt outstanding, all of which was long-term, under our senior secured term loan facility. Additionally, at March 31, 2014, we were able to borrow \$57.1 million under the revolving portion of our senior secured credit facility, of which none was outstanding.

The financial covenant was eliminated from the term loan portion of our senior secured credit facility, when it was amended on May 29, 2013. To the extent that, at a quarter end, we have outstanding borrowings under the revolving credit portion of our senior secured term loan facility, we would be subject to a financial covenant based on Adjusted EBITDA. Adjusted EBITDA is defined as EBITDA (net income (loss) before interest expense, income taxes, depreciation and amortization), adjusted to add back or subtract certain non-cash, non-recurring and other items, as permitted by our senior secured credit facility. Our use of the term Adjusted EBITDA may vary from others in our industry. EBITDA and Adjusted EBITDA are not measures of operating income (loss), performance or liquidity under U.S. GAAP and are subject to important limitations. A reconciliation of net income (loss), which is a U.S. GAAP measure of our operating results, to Adjusted EBITDA, as defined in our debt agreement, is as follows:

	Three Months Ended		Nine Months Ended	
	March 31,	March 31,	March 31,	March 31,
	2014	2013	2014	2013
	(In thousands)			
Net income (loss)	\$5,326	\$(9,389)	\$16,960	\$(22,783)
Income from discontinued operations	-	(424)	(14,462)	(1,373)
Income (loss) from continuing operations	5,326	(9,813)	2,498	(24,156)
Interest expense	7,116	9,448	21,608	29,294
Provision (benefit) for income taxes	2,482	(3,104)	(43)	(10,881)
Depreciation and amortization	13,357	20,024	43,119	59,711
EBITDA	28,281	16,555	67,182	53,968
Restructuring related costs, including pro forma savings ^(a)	1,622	916	5,498	6,335
Impairment of other long-lived assets	-	-	-	1,340
ITAR settlement expense	-	8,000	-	8,000
Share-based compensation	1,620	1,243	3,632	2,610

Write-off of deferred financing costs	-	-	-	824

Edgar Filing: AEROFLEX HOLDING CORP. - Form 10-Q

Non-cash purchase accounting adjustments	308	-	308	-
Other defined items ^(b)	1,232	9	1,850	943
Adjusted EBITDA	\$33,063	\$29,252	\$78,470	\$76,549

Primarily reflects costs associated with the reorganization of our European operations and consolidation of certain of our U.S. operations. Pro forma savings reflect the costs that we estimate would have been eliminated during the fiscal year in which a restructuring occurred had the restructuring occurred as of the first day of that fiscal year. Pro forma savings were estimated to be \$292,000 and \$520,000 for the three months ended March 31, 2014 and 2013 and \$1.9 million and \$2.6 million for the nine months ended March 31, 2014 and 2013, respectively. The pro forma savings for the three months and nine months ended March 31, 2013 includes an additional \$417,000 and \$1.3 million which was not reflected in our Adjusted EBITDA as reported in our March 31, 2013 report on Form 10-Q as it relates to restructuring activities recorded throughout fiscal 2013.

^(b) Reflects other adjustments required in calculating our debt covenant compliance. These other defined items include legal fees related to certain litigation and business acquisition and divestiture related costs.

The maximum leverage ratio of total debt (less up to \$15.0 million of unrestricted cash) to Adjusted EBITDA, as defined in our senior secured credit facility, as amended, is only in effect if as of the last day of the fiscal quarter there are any outstanding borrowings under our senior secured revolving credit facility. The maximum leverage ratio permitted for the twelve months ended March 31, 2014 was 5.50, whereas our actual leverage ratio was 4.44.

As of March 31, 2014, there were no outstanding amounts under our senior secured revolving credit facility, therefore, the maximum leverage ratio covenant was not applicable. As of March 31, 2014, we were in compliance with all of the covenants contained in our senior secured credit facility.

Our senior secured credit facility contains restrictions on our activities, including but not limited to covenants that restrict us and our restricted subsidiaries, as defined in our senior secured credit facility, from:

- incurring additional indebtedness and issuing disqualified stock or preferred stock;

- making certain investments or other restricted payments;

- paying dividends and making other distributions with respect to capital stock, or repurchasing, redeeming or retiring capital stock or subordinated debt;

- selling or otherwise disposing of assets;

- under certain circumstances, issuing or selling equity interests;

- creating liens on our assets;

- consolidating or merging with, or acquiring in excess of specified annual limitations, another business, or selling or disposing of all or substantially all of our assets; and

- entering into certain transactions with our affiliates.

If for any reason we fail to comply with the covenants in the senior secured credit facility, we would be in default under the terms of the agreements governing our outstanding debt. If such a default were to occur, the lenders under the senior secured credit facility could elect to declare all amounts outstanding thereunder immediately due and payable, and the lenders would not be obligated to continue to advance funds to us. If the amounts outstanding under these debt agreements are accelerated, our assets may not be sufficient to repay in full the amounts owed.

We expect that cash generated from operating activities and availability under the revolving portion of our senior secured credit facility will be our principal sources of liquidity. Our ability to make payments on and to refinance our indebtedness and to fund working capital needs and planned capital expenditures will depend on our ability to generate cash in the future. This, to a certain extent, is subject to general economic, financial, competitive and other factors that are beyond our control. In addition, to the extent we have consolidated excess cash flows, as defined in the credit agreement governing the senior secured credit facility, we must use specified portions of the excess cash flows to prepay the senior secured credit facility. Based on our current level of operations, we believe our cash flow from operations and available borrowings under our senior secured credit facility will be adequate to meet our liquidity needs for at least the next twelve months. We cannot assure you, however, that our business will generate sufficient cash flow from operations, or those future borrowings will be available under the senior secured credit facility in an amount sufficient to enable us to repay our indebtedness at maturity or to fund other liquidity needs. We may need to refinance all or a portion of our indebtedness on or before the maturity thereof. We cannot assure you that we will be able to refinance any of our indebtedness on commercially reasonable terms or at all.

Cash Flows

For the nine months ended March 31, 2014, our cash flow provided by operations was \$26.8 million. Our investing activities used cash of \$21.3 million, primarily to purchase a business for \$23.8 million and for capital expenditures of \$17.0 million, partially offset by proceeds from the sale of ATES of \$19.2 million. Our financing activities used cash of \$1.8 million.

For the nine months ended March 31, 2013, our cash flow provided by operations was \$43.1 million. Our investing activities used cash of \$12.2 million, primarily for capital expenditures of \$14.3 million partially offset by proceeds of \$1.6 million from the sale of our Whippany, New Jersey facility. Our financing activities used cash of \$35.6 million, primarily for voluntary debt prepayments of \$35.0 million.

The decrease of \$16.3 million in cash provided by operating activities when comparing the nine months ended March 31, 2014 to the nine months ended March 31, 2013, resulted primarily from a current year increase in inventory to support a sales ramp expected in the fourth quarter and increased income tax payments since we have fully utilized our federal tax loss carryforwards and other credits.

Capital Expenditures

Capital expenditures were \$17.0 million and \$14.3 million for the nine months ended March 31, 2014 and 2013, respectively. Our capital expenditures consist primarily of equipment replacements.

Contractual Obligations

There have been no material changes in our contractual obligations as disclosed in our fiscal 2013 Form 10-K.

Off-Balance Sheet Arrangements

We do not maintain any off-balance sheet arrangements, transactions, obligations or other relationships with unconsolidated entities that would be expected to have material current or future effect upon our results of operations

or financial condition.

Critical Accounting Policies and Estimates

Information regarding our critical accounting policies and estimates appears within the “Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in our fiscal 2013 Form 10-K. During the nine month period ended March 31, 2014, there were no significant changes to any critical accounting policies or to the related estimates and judgments involved in applying those policies.

Recent Accounting Pronouncements

For information with respect to recent accounting pronouncements and the impact of these pronouncements on our consolidated financial statements, see Note 2 of Notes to Unaudited Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk. We are subject to interest rate risk in connection with borrowings under our senior secured credit facility, including any outstanding borrowings under our revolving credit facility. We currently do not have interest rate swap agreements hedging this debt. As of March 31, 2014, \$587.0 million was outstanding under the term-loan portion of the senior secured credit facility, bearing interest at 4.50% based on the adjusted LIBOR rate, which consists of a floor of 100 basis points, plus an applicable margin of 350 basis points above the floor. Our outstanding debt balance is subject to variable interest rates dependent upon fluctuations of the LIBOR rate. Based on the LIBOR rate at March 31, 2014, which was .23%, an increase of 1% in interest rates would only result in a .23% increase on the interest rate relating to our outstanding borrowings due to the 1.00% LIBOR floor, or a \$1.4 million increase in our annual interest expense. An increase of 1% in the LIBOR rate above the 1.00% floor would result in a \$6.0 million increase in our annual interest expense. In addition, as of March 31, 2014, our revolving credit facility of \$57.1 million, which would bear interest at 3.73% based on the LIBOR rate of .23% plus 350 basis points, was undrawn. Assuming the entire amount available to us was outstanding, a 1% change in interest rates would result in a \$579,000 change in our annual interest expense. Any debt we incur in the future may also bear interest at floating rates.

Foreign Currency Risk. Foreign currency contracts are used to protect us from exchange rate fluctuation from the time customers are invoiced in local currency until such currency is exchanged for U.S. dollars. We periodically enter into foreign currency contracts, which are not designated as hedges, and the change in the fair value is included in income currently within other income (expense). As of March 31, 2014, we had \$43.4 million of notional value foreign currency forward contracts maturing through April 30, 2014. Notional amounts do not quantify risk or represent assets or liabilities, but are used in the calculation of cash settlements under the contracts. The fair value of these contracts at March 31, 2014 was an asset of \$31,000. If foreign currency exchange rates (primarily the British pound and the Euro) change by 10% from the levels at March 31, 2014, the effect on our comprehensive income would be approximately \$18.2 million.

Inflation Risk. Inflation has not had a material impact on our results of operations or financial condition during the preceding three years.

ITEM 4. CONTROLS AND PROCEDURES

Our disclosure controls and procedures under the Securities Exchange Act of 1934, as amended, are designed to ensure that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported, within the time periods specified in the rules and forms of the Securities and Exchange Commission. Our disclosure controls and procedures are also designed to ensure that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial

Officer, to allow timely decisions regarding required disclosure. Our Principal Executive Officer and our Principal Financial Officer, with the assistance from other members of management, have reviewed the effectiveness of our disclosure controls and procedures as of March 31, 2014 and, based on their evaluation, have concluded that the disclosure controls and procedures were effective as of such date.

There have been no changes in our internal control over financial reporting that occurred during the quarter ended March 31, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

There have been no material changes in our legal proceedings disclosed in our fiscal 2013 Form 10-K.

Item 1A. Risk Factors

There have been no material changes in our risk factors disclosed in our fiscal 2013 Form 10-K except that the following risk factor is updated to reflect risks related to trade embargoes as set forth below.

Due to the international nature of our business, political or economic changes could harm our future sales, expenses and financial condition.

Our future sales, costs and expenses could be adversely affected by a variety of international factors, including:

- changes in a country's or region's political or economic conditions;
- longer accounts receivable cycles;
- trade protection measures and trade embargoes;
- unexpected changes in regulatory requirements;
- differing technology standards and/or customer requirements; and

import or export licensing requirements, which could affect our ability to obtain favorable terms for components or lead to penalties or restrictions.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None

Item 3. Defaults upon Senior Securities

None

Item 4. Mine Safety Disclosures

Not applicable

Item 5. Other Information

None

Item 6. Exhibits

See index of exhibits included on page 33.
