

MONROE CAPITAL Corp  
Form 497  
September 06, 2018

Filed pursuant to Rule 497(c)  
File No. 333-216665

**PROSPECTUS SUPPLEMENT  
(To Prospectus dated June 1, 2018)**

**Monroe Capital Corporation**

**\$60,000,000**

**5.75% Notes due 2023**

We are a specialty finance company focused on providing financing solutions primarily to lower middle-market companies in the United States and Canada. We are an externally managed, closed-end, non-diversified management investment company that has elected to be regulated as a business development company under the Investment Company Act of 1940, as amended. Our investment objective is to maximize the total return to our stockholders in the form of current income and capital appreciation through investment in senior, unitranche and junior secured debt and, to a lesser extent, unsecured subordinated debt and equity investments. We use our extensive leveraged finance origination infrastructure and broad expertise in sourcing loans to invest in primarily senior, unitranche and junior secured debt of middle-market companies.

We invest in securities that are rated below investment grade by rating agencies or that would be rated below investment grade if they were rated. Below investment grade securities are often referred to as high yield or junk. In addition, many of the debt securities we hold do not fully amortize prior to maturity, which heightens the risk that we may lose all or a part of our investment.

Monroe Capital BDC Advisors, LLC serves as our investment advisor. Monroe Capital Management Advisors, LLC serves as our administrator. Each of Monroe Capital BDC Advisors, LLC and Monroe Capital Management Advisors, LLC is affiliated with Monroe Capital, LLC, a leading lender to middle-market companies.

We are offering \$60,000,000 in aggregate principal amount of 5.75% notes due 2023, which we refer to as the Notes. The Notes will mature on October 31, 2023. We will pay interest on the Notes on January 31, April 30, July 31 and October 31 of each year, beginning October 31, 2018. We may redeem the Notes in whole or in part at any time or from time to time on or after October 31, 2020 at the redemption price of 100% of the aggregate principal amount thereof plus accrued and unpaid interest, as discussed under the section titled Description of the Notes Optional Redemption in this prospectus supplement. The Notes will be issued in minimum denominations of \$25 and integral multiples of \$25 in excess thereof.

The Notes will be our direct unsecured obligations and rank pari passu, which means equal in right of payment, with all outstanding and future unsecured indebtedness issued by us. Because the Notes will not be secured by any of our assets, they will be effectively subordinated to all of our existing and future secured unsubordinated indebtedness (or

any indebtedness that is initially unsecured as to which we subsequently grant a security interest), to the extent of the value of the assets securing such indebtedness, including, without limitation, borrowings under our senior secured revolving credit facility with ING Capital LLC, as amended (the ING Credit Facility ), of which we had U.S. dollar borrowings of \$95.3 million and non-U.S. dollar borrowings of £14.8 million (\$19.1 million) for total outstanding borrowings of \$114.4 million as of August 31, 2018. The Notes will be structurally subordinated to all existing and future indebtedness and other obligations of any of our subsidiaries, including Monroe Capital Corporation SBIC, LP ( MRCC SBIC ), since the Notes will be obligations exclusively of us and not of any of our subsidiaries. As of August 31, 2018, our subsidiaries had total indebtedness outstanding of \$115.0 million. None of our subsidiaries is a guarantor of the Notes and the Notes will not be required to be guaranteed by any subsidiary we may acquire or create in the future. For further discussion, see the section titled Description of the Notes in this prospectus supplement.

We intend to list the Notes on The Nasdaq Global Select Market, and we expect trading to commence thereon within 30 days of the original issue date under the trading symbol MRCCL. The Notes are expected to trade flat. This means that purchasers will not pay, and sellers will not receive, any accrued and unpaid interest on the Notes that is not included in the trading price. Currently, there is no public market for the Notes, and there can be no assurance that one will develop.

**Investing in our Notes involves a high degree of risk, including the risk of leverage. Before buying any Notes, you should read the discussion of the material risks of investing in us in Risk Factors beginning on page S-16 of this prospectus supplement and page 13 of the accompanying prospectus.**

This prospectus supplement and the accompanying prospectus contain important information about us that a prospective investor should know before investing in the Notes. Please read this prospectus supplement and the accompanying prospectus before investing and keep it for future reference. We file annual, quarterly and current reports, proxy statements and other information about us with the Securities and Exchange Commission ( SEC ). The information is available free of charge, and security holders may make inquiries by contacting us at 311 South Wacker Drive, Suite 6400, Chicago, Illinois 60606, Attention: Investor Relations, by calling us collect at (312) 258-8300, or on our website at [www.monroebdc.com](http://www.monroebdc.com). The SEC also maintains a website at [www.sec.gov](http://www.sec.gov) that contains such information. Information contained on our website is not incorporated by reference into this prospectus supplement and the accompanying prospectus, and you should not consider information contained on our website to be part of this prospectus supplement and the accompanying prospectus.

**Neither the SEC nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.**

	Per Note	Total
Public offering price	\$25.00	\$60,000,000
Underwriting discount (sales load and commissions)	\$0.78125	\$1,875,000
Proceeds, before expenses, to us <sup>(1)</sup>	\$24.21875	\$58,125,000

(1) We estimate that we will incur approximately \$0.4 million in offering expenses in connection with this offering.

The underwriters may also purchase up to an additional \$9,000,000 total aggregate principal amount of Notes offered by this prospectus supplement and the accompanying prospectus, solely to cover over-allotments, if any, within 30 days of the date of this prospectus supplement. If the underwriters exercise this option in full, the total public offering price will be \$69,000,000, the total underwriting discount (sales load and commissions) paid by us will be \$2,156,250, and total proceeds, before expenses, will be \$66,843,750.

**THE NOTES ARE NOT DEPOSITS OR OTHER OBLIGATIONS OF A BANK AND ARE NOT INSURED  
BY THE FEDERAL DEPOSIT INSURANCE CORPORATION OR ANY OTHER GOVERNMENT  
AGENCY.**

The underwriters are offering the Notes as set forth in Underwriting in this prospectus supplement. Delivery of the Notes will be made in book-entry form only through The Depository Trust Company, known as DTC, on or about September 12, 2018.

## **ABOUT THIS PROSPECTUS SUPPLEMENT**

This document is in two parts. The first part is this prospectus supplement, which describes the specific terms of this offering of the Notes and also adds to and updates information contained in the accompanying prospectus. The second part is the accompanying prospectus, which gives more general information and disclosures.

To the extent information differs between this prospectus supplement and the accompanying prospectus, you should rely only on such information in this prospectus supplement. You should read this prospectus supplement and the accompanying prospectus together with the additional information described under the heading Available Information before investing in the Notes.

**You should rely only on the information contained in this prospectus supplement and the accompanying prospectus. Neither we nor the underwriters have authorized any other person to provide you with different or additional information. If anyone provides you with different or additional information, you should not rely on it. Neither we nor the underwriters are making an offer to sell the Notes in any jurisdiction where the offer or sale is not permitted. You should assume that the information appearing in this prospectus supplement and the accompanying prospectus is accurate only as of their respective dates, regardless of the time of delivery of this prospectus supplement and the accompanying prospectus or any sales of the Notes. Our business, financial condition, results of operations and prospects may have changed since those dates.**

TABLE OF CONTENTS

## SUMMARY

*This summary highlights some of the information in this prospectus supplement. This summary is not complete and may not contain all of the information that you may want to consider before investing in the Notes. You should read this entire prospectus supplement and the accompanying prospectus carefully, including, in particular, the more detailed information set forth under Risk Factors and Management's Discussion and Analysis of Financial Condition and Results of Operations.*

**As used in this prospectus supplement, except as otherwise indicated, the terms:**

*we, us and our refer to Monroe Capital Corporation, a Maryland corporation; MC Advisors refers to Monroe Capital BDC Advisors, LLC, our investment advisor and a Delaware limited liability company;*

*MC Management refers to Monroe Capital Management Advisors, LLC, our administrator and a Delaware limited liability company;*

*Monroe Capital refers to Monroe Capital LLC, a Delaware limited liability company, and its subsidiaries and affiliates;*

*SLF refers to MRCC Senior Loan Fund I, LLC, an unconsolidated Delaware limited liability company, in which we co-invest with NLV Financial Corporation ( NLV ) primarily in senior secured loans. SLF is capitalized as transactions are completed and all portfolio and investment decisions in respect of SLF must be approved by representatives of each of the members. As of June 30, 2018, we owned 50.0% of the LLC equity interests of SLF. As of June 30, 2018, SLF had LLC equity interest subscriptions from its members totaling \$100.0 million, of which we have committed to fund \$50.0 million;*

*MRCC SBIC refers to Monroe Capital Corporation SBIC, LP, a Delaware limited partnership, our wholly-owned subsidiary that operates as a small business investment company pursuant to a license received from the United States Small Business Administration; and*

*LIBOR refers to the one-month, three-month or six-month London Interbank Offered Rate as reported by the British Bankers Association. Unless stated otherwise herein, LIBOR refers to the one-month rate.*

## Monroe Capital Corporation

We are an externally managed, closed-end, non-diversified management investment company that has elected to be regulated as a business development company under the Investment Company Act of 1940, as amended, or the 1940 Act, and that has elected to be treated as a regulated investment company, or RIC, for tax purposes under the U.S.

Internal Revenue Code of 1986, as amended, or the Code, commencing with our taxable year ended December 31, 2012. We provide customized financing solutions to lower middle-market companies in the United States and Canada focused primarily on senior secured, junior secured and unitranche secured (a combination of senior secured and junior secured debt in the same facility in which we syndicate a first out portion of the loan to an investor and retain a last out portion of the loan) debt and, to a lesser extent, unsecured subordinated debt and equity, including equity co-investments in preferred and common stock and warrants.

Our investment objective is to maximize the total return to our stockholders in the form of current income and capital appreciation through investment in senior, unitranche and junior secured debt and, to a lesser extent, unsecured subordinated debt and equity investments. We seek to use our extensive leveraged finance origination infrastructure and broad expertise in sourcing loans to invest in primarily senior, unitranche and junior secured debt of middle-market companies. We believe that our primary focus on lending to lower middle-market companies offers several advantages as compared to lending to larger companies, including more attractive economics, lower leverage,

more comprehensive and restrictive covenants, more expansive events of default, relatively small debt facilities that provide us with enhanced influence over our borrowers, direct access to borrower management and improved information flow.

S-1

---

## TABLE OF CONTENTS

In this prospectus supplement and the accompanying prospectus, the term **middle-market** generally refers to companies having annual revenue of between \$20 million and \$500 million and/or annual earnings before interest, taxes, depreciation and amortization, or EBITDA, of between \$3 million and \$50 million. Within the middle-market, we consider companies having annual revenues of less than \$250 million and/or EBITDA of less than \$25 million to be in the **lower middle-market**.

## **Portfolio Update**

Since the consummation of the initial public offering in October 2012, we have grown the fair value of our portfolio of investments to approximately \$498.2 million as of June 30, 2018. As of June 30, 2018, our portfolio consisted of 71 different portfolio companies, comprised of approximately 77.8% senior secured debt, 10.3% unitranche secured debt, 5.7% junior secured debt and 6.2% equity securities. As of June 30, 2018, the weighted average annualized effective yield on portfolio investments (which represents the expected annualized effective yield to be generated by us on our portfolio based on the composition of our portfolio as of such date) prior to leverage was 10.0% based on the par value of our debt investments and the cost basis of our preferred equity investments. For the six months ended June 30, 2018, our total return based on net asset value was 2.1% and our total return based on market value was 3.4%.

Our weighted average annualized effective yield on portfolio investments may be higher than an investor's yield on an investment in shares of our common stock. The weighted average annualized effective yield on portfolio investments is a metric on the investment portfolio alone and does not represent a return to stockholders. This metric is not inclusive of our fees and expenses, the impact of leverage on the portfolio or sales load that may be paid by investors.

In addition, total return figures disclosed above do not consider the effect of any sales load that may be incurred in connection with the sale of shares of our common stock. Our estimated weighted average annualized effective yield on portfolio investments and total return based on net asset value do not represent actual investment returns to stockholders. Our weighted average annualized effective yield on portfolio investments and total return figures are subject to change and, in the future, may be greater or less than the rates set forth above. See **Risk Factors** in the accompanying prospectus for a discussion of the uncertainties, risks and assumptions associated with these statements. See footnotes 4, 5 and 6 to the table included in **Selected Consolidated Financial Data** for information regarding the calculation of our total return based on market value, total return based on average net asset value, and weighted average annualized effective yield on portfolio investments, respectively.

## **Asset Coverage Approval**

On March 27, 2018, our Board approved the application of the modified asset coverage requirements set forth in Section 61(a)(2) of the 1940 Act. On June 20, 2018, our stockholders approved a proposal to accelerate the effective date of the modified asset coverage requirements. As a result, the asset coverage ratio test applicable to us was decreased from 200% to 150%, effective June 21, 2018. As of June 30, 2018, we had an asset coverage ratio of 312%.

For a discussion of the principal risk factors associated with these senior securities, see **Risk Factors** beginning on page S-16 of this prospectus supplement and beginning on page 13 of the accompanying prospectus.

## **Our Investment Advisor**

Our investment activities are managed by our investment advisor, MC Advisors. MC Advisors is responsible for sourcing potential investments, conducting research and due diligence on prospective investments and their private equity sponsors, analyzing investment opportunities, structuring our investments and managing our investments and portfolio companies on an ongoing basis. MC Advisors was organized in February 2011 and is a registered investment

adviser under the Investment Advisers Act of 1940, as amended, or the Advisers Act.

Under the investment advisory and management agreement with MC Advisors, or the Investment Advisory Agreement, we pay MC Advisors a base management fee and an incentive fee for its services. See Management and Other Agreements Investment Advisory Agreement Management and Incentive Fee in the accompanying prospectus for a discussion of the base management fee and incentive fee payable by us to MC Advisors. Our independent directors periodically review MC Advisors' services and fees as well as its portfolio management decisions and portfolio performance. In connection with these reviews, our independent directors consider whether our fees and expenses (including those related to leverage) remain appropriate.

S-2

---

## TABLE OF CONTENTS

MC Advisors seeks to capitalize on the significant deal origination, credit underwriting, due diligence, investment structuring, execution, portfolio management and monitoring experience of Monroe Capital's investment professionals.

The senior management team of Monroe Capital, including Theodore L. Koenig and Aaron D. Peck, provides investment services to MC Advisors pursuant to a staffing agreement, or the Staffing Agreement, between MC Management, an affiliate of Monroe Capital, and MC Advisors. Messrs. Koenig and Peck have developed a broad network of contacts within the investment community and average more than 25 years of experience investing in debt and equity securities of lower middle-market companies. In addition, Messrs. Koenig and Peck have extensive experience investing in assets that constitute our primary focus and have expertise in investing throughout all periods of the economic cycle. MC Advisors is an affiliate of Monroe Capital and is supported by experienced investment professionals of Monroe Capital under the terms of the Staffing Agreement. Monroe Capital's core team of investment professionals has an established track record in sourcing, underwriting, executing and monitoring transactions. From Monroe Capital's formation in 2004 through June 30, 2018, Monroe Capital's investment professionals invested in over 1,250 loan and related investments with an aggregate principal value of over \$9.0 billion.

In addition to their roles with Monroe Capital and MC Advisors, Messrs. Koenig and Peck serve as our interested directors. Mr. Koenig has more than 30 years of experience in structuring, negotiating and closing transactions on behalf of asset-backed lenders, commercial finance companies, financial institutions and private equity investors at organizations including Monroe Capital, which Mr. Koenig founded in 2004, and Hilco Capital LP, where he led investments in over 20 companies in the lower middle-market. Mr. Peck has more than 20 years of public company management, leveraged finance and commercial lending experience at organizations including Deerfield Capital Management LLC, Black Diamond Capital Management LLC and Salomon Smith Barney Inc.

Messrs. Koenig and Peck are joined on the investment committee of MC Advisors by Michael J. Egan and Jeremy T. VanDerMeid, each of whom is a senior investment professional at Monroe Capital. Mr. Egan has more than 30 years of experience in commercial finance, credit administration and banking at organizations including Hilco Capital, The CIT Group/Business Credit, Inc., The National Community Bank of New Jersey (The Bank of New York) and KeyCorp. Mr. VanDerMeid has more than 15 years of lending and corporate finance experience at organizations including Morgan Stanley Investment Management, Dymas Capital Management Company, LLC and Heller Financial.

## **About Monroe Capital**

Monroe Capital, a Delaware limited liability company that was founded in 2004, is a leading lender to middle-market companies. As of June 30, 2018, Monroe Capital had approximately \$5.6 billion in assets under management. Monroe Capital has maintained a continued lending presence in the lower middle-market throughout the most recent economic downturn. The result is an established lending platform that we believe generates consistent primary and secondary deal flow from a network of proprietary relationships and additional deal flow from a diverse portfolio of over 475 current investments. From Monroe Capital's formation in 2004 through June 30, 2018, Monroe Capital's investment professionals invested in over 1,250 loan and related investments with an aggregate principal value of over \$9.0 billion. The senior investment team of Monroe Capital averages more than 25 years of experience and has developed a proven investment and portfolio management process that has performed through multiple market cycles. In addition, Monroe Capital's investment professionals are supported by administrative and back-office personnel focused on operations, finance, legal and compliance, accounting and reporting, marketing, information technology and office management.

## **Market Opportunity**

We invest primarily in senior, unitranche and junior secured debt issued to lower middle-market companies in the United States and, to a lesser extent and in accordance with the limitations on foreign investments in the 1940 Act, Canada. We believe that U.S. and Canadian lower middle-market companies comprise a large, growing and fragmented market that offers attractive financing opportunities. We believe that there exists a large number of prospective lending opportunities for lenders, which should allow us to generate substantial investment opportunities and build an attractive portfolio of investments.

S-3

---

TABLE OF CONTENTS

## Investment Strategy

Our investment objective is to maximize the total return to our stockholders in the form of current income and capital appreciation primarily through investments in senior, unitranche and junior secured debt and, to a lesser extent, unsecured subordinated debt and equity. We also seek to invest opportunistically in attractively priced, broadly syndicated loans, which should enhance our geographic and industry portfolio diversification and increase our portfolio's liquidity. We do not target any specific industry, however, as of June 30, 2018, our investments in the healthcare & pharmaceuticals; banking, finance, insurance & real estate; and high tech industries represented approximately 12.8%, 12.3% and 10.8%, respectively, of the fair value of our portfolio. To achieve our investment objective, we utilize the following investment strategy:

***Attractive Current Yield on Investment Portfolio.*** We believe our sourcing network allows us to enter into transactions with attractive yields and investment structures. Based on current market conditions and our pipeline of new investments, we expect our target directly originated senior and unitranche secured debt will have an average maturity of three to five years and interest rates of 7% to 13%, and we expect our target directly originated junior secured debt and unsecured subordinated debt will have an average maturity of four to seven years and interest rates of 10% to 15%. In addition, based on current market conditions and our pipeline of new investments, we expect that our target debt investments will typically have a variable coupon (with a LIBOR floor), may include payment-in-kind, or PIK, interest (interest that is not received in cash, but added to the principal balance of the loan), and that we will typically receive upfront closing fees of 1% to 4%. We may also receive warrants or other forms of upside equity participation. Our transactions are generally secured and supported by a lien on all assets and/or a pledge of company stock in order to provide priority of return and to influence any corporate actions. Although we will target investments with the characteristics described in this paragraph, we cannot assure you that our new investments will have these characteristics and we may enter into investments with different characteristics as the market dictates. For a description of the characteristics of our current investment portfolio, see Management's Discussion and Analysis of Financial Condition and Results of Operations Portfolio and Investment Activity. Until investment opportunities can be found, we may invest our undeployed capital in cash, cash equivalents, U.S. government securities and high-quality debt investments that mature in one year or less from the date of investment. These temporary investments may have lower yields than our other investments and, accordingly, may result in lower distributions, if any, during such period. See Use of Proceeds.

***Sound Portfolio Construction.*** We strive to exercise discipline in portfolio creation and management and to implement effective governance throughout our business. Monroe Capital has been, and MC Advisors, which is comprised of substantially the same investment professionals who have operated Monroe Capital, is, and we believe will continue to be, conservative in the underwriting and structuring of covenant packages in order to enable early intervention in the event of weak financial performance by a portfolio company. We seek to pursue lending opportunities selectively and to maintain a diversified portfolio. We believe that exercising disciplined portfolio management through continued intensive account monitoring and timely and relevant management reporting allows us to mitigate risks in our debt investments. In addition, we have implemented rigorous governance processes through segregation of duties, documented policies and procedures and independent oversight and review of transactions, which we believe helps us to maintain a low level of non-performing loans. We believe that Monroe Capital's proven process of thorough origination, conservative underwriting, due diligence and structuring, combined with careful account management and diversification, enabled it to protect investor capital, and we believe MC Advisors follows and will follow the same philosophy and processes in originating, structuring and managing our portfolio investments.

***Predictability of Returns.*** Beyond conservative structuring and protection of capital, we seek a predictable exit from our investments. We seek to invest in situations where there are a number of potential exit options that can result in

full repayment or a modest refinance of our investment. We seek to structure the majority of our transactions as secured loans with a covenant package that provides for full or partial repayment upon the completion of asset sales and restructurings. Because we seek to structure these transactions to provide for contractually determined, periodic payments of principal and interest, we are less likely to depend on merger and acquisition activity or public equity markets to exit our debt investments. As a result, we believe that we can achieve our target returns even in a period when public markets are depressed.

S-4

---

TABLE OF CONTENTS

## Competitive Strengths

We believe that we represent an attractive investment opportunity for the following reasons:

***Deep, Experienced Management Team.*** We are managed by MC Advisors, which has access through the Staffing Agreement to Monroe Capital's experienced team comprised of over 90 professionals, including seven senior partners that average more than 25 years of direct lending experience. We are led by our Chairman and Chief Executive Officer, Theodore L. Koenig, and Aaron D. Peck, our Chief Financial Officer and Chief Investment Officer. This extensive experience includes the management of investments with borrowers of varying credit profiles and transactions completed in all phases of the credit cycle. Monroe Capital's senior investment professionals provide us with a difficult-to-replicate sourcing network and a broad range of transactional, financial, managerial and investment skills. This expertise and experience is supported by administrative and back office personnel focused on operations, finance, legal and compliance, accounting and reporting, marketing, information technology and office management. From Monroe Capital's formation in 2004 through June 30, 2018, Monroe Capital's investment professionals invested in more than 1,250 loan and related investments with an aggregate principal value of over \$9.0 billion.

***Differentiated Relationship-Based Sourcing Network.*** We believe Monroe Capital's senior investment professionals benefit from extensive relationships with commercial banks, private equity firms, financial intermediaries, management teams and turn-around advisors. We believe that this broad sourcing network differentiates us from our competitors and offers us a diversified origination approach that does not rely on a single channel and offers us consistent deal flow throughout the economic cycle. We also believe that this broad network allows us to originate a substantial number of non-private equity-sponsored investments.

***Extensive Institutional Platform for Originating Middle-Market Deal Flow.*** Monroe Capital's broad network of relationships and significant origination resources enable us to review numerous lending opportunities, permitting us to exercise a high degree of selectivity in terms of loans to which we ultimately commit. Monroe Capital estimates that it reviewed approximately 2,000 investment opportunities during 2017. Monroe Capital's over 1,250 previously executed transactions, over 475 of which are with current borrowers, offer us another source of deal flow, as these debt investments reach maturity or seek refinancing. We believe we are also positioned to benefit from Monroe Capital's established brand name, strong track record in partnering with industry participants and reputation for closing deals on time and as committed. Monroe Capital's senior investment professionals are complemented by extensive experience in capital markets transactions, risk management and portfolio monitoring.

***Disciplined, Credit-First Underwriting Process.*** Monroe Capital has developed a systematic underwriting process that applies a consistent approach to credit review and approval, with a focus on evaluating credit first and then appropriately assessing the risk-reward profile of each loan. MC Advisors' assessment of credit outweighs pricing and other considerations, as we seek to minimize potential credit losses through effective due diligence, structuring and covenant design. MC Advisors seeks to customize each transaction structure and financial covenant to reflect risks identified through the underwriting and due diligence process. We also seek to actively manage our origination and credit underwriting activities through personal visits and calls on all parties involved with an investment, including the management team, private equity sponsors, if any, or other lenders.

***Established Credit Risk Management Framework.*** We seek to manage our credit risk through a well-defined portfolio strategy and credit policy. In terms of credit monitoring, MC Advisors assigns each loan to a particular portfolio management professional and maintains an internal credit rating analysis for all loans. MC Advisors then employs ongoing review and analysis, together with monthly investment committee meetings to review the status of certain complex and challenging loans and a comprehensive quarterly review of all loan transactions. MC Advisors

investment professionals also have significant turnaround and debt work-out experience, which gives them perspective on the risks and possibilities throughout the entire credit cycle. We believe this careful approach to investment and monitoring enables us to identify problems early and gives us an opportunity to assist borrowers before they face difficult liquidity constraints. By anticipating possible negative contingencies and preparing for them, we believe that we diminish the probability of underperforming assets and loan losses.

S-5

---

TABLE OF CONTENTS

**Credit Facility**

We have a credit facility with ING Capital LLC, or the Lender, as agent, which as of June 30, 2018 consisted of a revolving line of credit of \$200.0 million, which may be increased to up to \$300.0 million pursuant to an accordion feature.

We may make draws under the revolver from time-to-time through December 2019 to make or purchase additional investments or for general working capital purposes until the maturity date of the credit facility, or the earliest to occur of (a) December 14, 2020, subject to extension as mutually agreed by us and the Lender, (b) the termination of the facility in accordance with its terms or (c) any other date mutually agreed to by us and the Lender. The revolving credit facility is secured by a lien on all of our assets, including cash on hand, but excluding the assets of our wholly-owned subsidiary, MRCC SBIC. The material terms of the credit facility are as follows:

total borrowing capacity currently equal to \$200.0 million and up to \$300.0 million pursuant to an accordion feature, subject to, among other things, availability under a defined borrowing base, which varies based on our portfolio characteristics and certain eligibility criteria and concentration limits, as well as valuation methodologies; an interest rate equal to, at our election, (a) LIBOR (one-month, two-month, three-month or six-month at our discretion based on the term of the borrowing) plus 2.75% per annum, or (b) a daily rate equal to 1.75% per annum plus the greater of the prime interest rate, the federal funds rate plus 0.5% or LIBOR plus 1.0%; in addition to the stated interest rate on borrowings under the revolving credit facility, we are required to pay a fee of 0.5% per annum on any unused portion of the revolving credit facility if the unused portion of the facility is less than 65% of the then available maximum borrowing or a fee of 1.0% per annum on any unused portion of the revolving credit facility if the unused portion of the facility is greater than or equal to 65% of the then available maximum borrowing; and

customary financial covenants and negative covenants and events of default.

As of June 30, 2018, we had U.S. dollar borrowings of \$106.0 million and non-U.S. dollar borrowings denominated in Great Britain pounds of £14.8 million (\$19.5 million in U.S. dollars) under our revolving credit facility and availability of \$74.5 million.

**MRCC SBIC**

On February 28, 2014, our wholly-owned subsidiary, MRCC SBIC, received a license from the U.S. Small Business Administration ( SBA ) to operate as a Small Business Investment Company ( SBIC ) under Section 301(c) of the Small Business Investment Company Act of 1958. MRCC SBIC commenced operations on September 16, 2013. As our wholly-owned subsidiary, MRCC SBIC relies on one or more exclusions from the definition of investment company under the 1940 Act and does not elect to be regulated as business development company under the 1940 Act. MRCC SBIC has an investment objective substantially similar to ours and makes similar types of investments in accordance with SBIC regulations.

On April 13, 2016, MRCC SBIC was approved by the SBA for an additional \$75.0 million in SBA-guaranteed debentures, for a total of \$115.0 million in available debentures. As of June 30, 2018, MRCC SBIC had \$57.6 million in leverageable capital (approximately 11.2% of our total assets) and \$115.0 million in SBA-guaranteed debentures outstanding.

We have received exemptive relief from the SEC to permit us to exclude the debt of our SBIC subsidiary guaranteed by the SBA from the definition of senior securities for the purposes of the asset coverage ratio we are required to maintain under the 1940 Act, which provides us with increased flexibility, but also increases our risks associated with

leverage.

## **Operating and Regulatory Structure**

Our investment activities are managed by MC Advisors under the supervision of our board of directors, a majority of whom are independent of us, MC Advisors and our and its respective affiliates.

S-6

---

## TABLE OF CONTENTS

As a business development company, we are required to comply with certain regulatory requirements. For example, while we are permitted to finance investments using leverage, which may include the issuance of notes, other borrowings and shares of preferred stock, our ability to use leverage is limited in significant respects. We are required to maintain an asset coverage ratio, as defined in the 1940 Act, of at least 150%, effective June 21, 2018. See Regulation in the accompanying prospectus. Any decision on our part to use leverage will depend upon our assessment of the attractiveness of available investment opportunities in relation to the costs and perceived risks of such leverage. The use of leverage to finance investments creates certain risks and potential conflicts of interest. See Risk Factors Risks Relating to our Business and Structure We maintain a revolving credit facility and may use other borrowed funds to make investments or fund our business operations, which exposes us to risks typically associated with leverage and increases the risk of investing in us in the accompanying prospectus and Risk Factors Recent legislation allows us to incur additional leverage.

Also, as a business development company, we are generally prohibited from acquiring assets other than qualifying assets unless, after giving effect to any acquisition, at least 70% of our total assets are qualifying assets. Qualifying assets generally include securities of eligible portfolio companies, cash, cash equivalents, U.S. government securities and high-quality debt instruments maturing in one year or less from the time of investment. Under the rules of the 1940 Act, eligible portfolio companies include (a) private domestic operating companies, (b) public domestic operating companies whose securities are not listed on a national securities exchange (e.g., The Nasdaq Global Market) or registered under the Securities Exchange Act of 1934, as amended, or the Exchange Act, and (c) public domestic operating companies having a market capitalization of less than \$250 million. Public domestic operating companies whose securities are quoted on the over-the-counter bulletin board or through Pink Sheets LLC are not listed on a national securities exchange and therefore are eligible portfolio companies. See Regulation in the accompanying prospectus. Additionally, to the extent we invest in the securities of companies domiciled in or with their principal places of business outside of the United States, we seek to limit those investments to companies domiciled or with their principal place of business in Canada. Any investments in Canadian companies will not be qualifying assets, meaning that in accordance with the 1940 Act, we cannot invest more than 30% of our assets in Canadian securities and other non-qualifying assets.

We have elected to be treated for U.S. federal income tax purposes as a RIC under the Code. In order to continue to qualify to be treated as a RIC, we must satisfy certain source of income, asset diversification and distribution requirements. See Material U.S. Federal Income Tax Considerations in the accompanying prospectus.

## **Conflicts of Interests**

Subject to certain 1940 Act restrictions, including restrictions on co-investments with affiliates, MC Advisors allocation policy offers us the right to participate in all investment opportunities that MC Advisors determines are appropriate for us in view of our investment objective, policies and strategies and other relevant factors. These offers are subject to the exception that, in accordance with MC Advisors conflict of interest and allocation policies, we might not participate in each individual opportunity but are entitled, on an overall basis, to participate equitably with other entities sponsored or managed by MC Advisors and its affiliates.

Affiliates of MC Advisors manage other assets in five closed-end funds, two small business investment companies and 12 private funds that also have an investment strategy focused primarily on senior, unitranche and junior secured debt and, to a lesser extent, unsecured subordinated debt to lower middle-market companies. In addition, MC Advisors and/or its affiliates may manage other entities in the future with an investment focus similar to ours, including a closed-end non-diversified management company that intends to be regulated as a business development company, which has been formed but has not yet commenced operations. To the extent that we compete with entities

managed by MC Advisors or any of its affiliates for a particular investment opportunity, MC Advisors seeks to allocate investment opportunities across the entities for which such opportunities are appropriate, consistent with (a) its internal conflict of interest and allocation policies, (b) the requirements of the Advisers Act and (c) certain restrictions under the 1940 Act and rules thereunder regarding co-investments with affiliates. MC Advisors' allocation policies are intended to ensure that we may generally share equitably with other investment funds or other investment vehicles managed by

S-7

---

## TABLE OF CONTENTS

MC Advisors or its affiliates in investment opportunities, particularly those involving a security with limited supply or involving differing classes of securities of the same issuer, which may be suitable for us and such other investment funds or other investment vehicles.

MC Advisors and/or its affiliates may in the future sponsor or manage investment funds, accounts or other investment vehicles with similar or overlapping investment strategies, and MC Advisors has put in place a conflict-resolution policy that addresses the co-investment restrictions set forth under the 1940 Act. MC Advisors seeks to ensure an equitable allocation of investment opportunities when we are able to invest alongside other accounts managed by MC Advisors and its affiliates. We received exemptive relief from the SEC on October 15, 2014 that permits us greater flexibility relating to co-investments, subject to certain conditions. When we invest alongside such other accounts as permitted under the 1940 Act, pursuant to SEC staff interpretations or our exemptive relief from the SEC that permits greater flexibility relating to co-investments, such investments will be made consistent with such relief and MC Advisors' allocation policy. Under this allocation policy, a fixed percentage of each opportunity, which may vary based on asset class and from time to time, will be offered to us and similar eligible accounts, as periodically determined by MC Advisors and approved by our board of directors, including a majority of our independent directors. The allocation policy provides that allocations among us and other accounts will generally be made pro rata based on each account's capital available for investment, as determined, in our case, by our board of directors, including a majority of our independent directors. It is our policy to base our determinations as to the amount of capital available for investment on such factors as the amount of cash on hand, existing commitments and reserves, if any, the targeted leverage level, the targeted asset mix and diversification requirements and other investment policies and restrictions set by our board of directors, or imposed by applicable laws, rules, regulations or interpretations. We expect that these determinations will be made similarly for other accounts. In situations where co-investment with other entities sponsored or managed by MC Advisors or its affiliates is not permitted or appropriate, such as when there is an opportunity to invest in different securities of the same issuer, MC Advisors will need to decide whether we or such other entity or entities will proceed with the investment. MC Advisors will make these determinations based on its policies and procedures, which will generally require that such opportunities be offered to eligible accounts on a basis that is fair and equitable over time, including, for example, through random or rotational methods.

## **Corporate History and Additional Information**

We were incorporated under the laws of Maryland on February 9, 2011. Our principal executive offices are located at 311 South Wacker Drive, Suite 6400, Chicago, Illinois 60606, and our telephone number is (312) 258-8300. We maintain a website at [www.monroebdc.com](http://www.monroebdc.com) and make all of our periodic and current reports, proxy statements and other information available, free of charge, on or through our website. Information on our website is not incorporated into or part of this prospectus supplement or the accompanying prospectus. You may also obtain such information free of charge by contacting us in writing at 311 South Wacker Drive, Suite 6400, Chicago, Illinois 60606, attention: Investor Relations.

We have filed with the SEC a registration statement on Form N-2, of which this prospectus supplement is a part, under the Securities Act of 1933, as amended, or the Securities Act. This registration statement contains additional information about us and the securities being offered by this prospectus supplement. We also file periodic reports, current reports, proxy statements and other information with the SEC. This information is available at the SEC's public reference room at 100 F Street, N.E., Washington, D.C. 20549 and on the SEC's website at [www.sec.gov](http://www.sec.gov). Information on the operation of the SEC's public reference room may be obtained by calling the SEC at 1-800-SEC-0330.

TABLE OF CONTENTS

**Risk Factors**

The value of our assets, as well as the market price of our securities will fluctuate. Our investments may be risky, and you may lose all or part of your investment in us. A material portion of our portfolio may have exposure to specific industries. See **Risk Factors** beginning on page S-16 of this prospectus supplement and beginning on page 13 of the accompanying prospectus for a more detailed discussion of the material risks you should carefully consider before deciding to invest in the Notes.

S-9

---

TABLE OF CONTENTS**THE OFFERING**

This summary sets forth certain terms of the Notes that we are offering pursuant to this prospectus supplement and the accompanying prospectus. This section and the Description of the Notes section in this prospectus supplement outline the specific legal and financial terms of the Notes. You should read this section of the prospectus supplement together with the section titled Description of the Notes beginning on page S-54 of this prospectus supplement and the more general description of the Notes in the section titled Description of Our Debt Securities beginning on page 148 of the accompanying prospectus before investing in the Notes. Capitalized terms used in this prospectus supplement and not otherwise defined have the meanings ascribed to them in the accompanying prospectus or in the indenture governing the Notes.

Issuer	Monroe Capital Corporation
Title of the securities	5.75% Notes due 2023
Initial aggregate principal amount being offered	\$60,000,000
Over-allotment option	The underwriters may also purchase from us up to an additional \$9,000,000 aggregate principal amount of Notes offered by this prospectus supplement and the accompanying prospectus within 30 days of the date of this prospectus supplement.
Initial public offering price	100% of the aggregate principal amount.
Principal payable at maturity	100% of the aggregate principal amount; the principal amount of each Note will be payable on its stated maturity date at the office of the trustee, paying agent, and security registrar for the Notes or at such other office as we may designate.
Type of note	Fixed-rate note
Listing	We intend to list the Notes on The Nasdaq Global Select Market within 30 days of the original issue date under the trading symbol MRCCCL.
Interest rate	5.75% per year
Day count basis	360-day year of twelve 30-day months
Original issue date	September 12, 2018
Stated maturity date	October 31, 2023
Date Notes start accruing interest	September 12, 2018
Interest payment dates	Every January 31, April 30, July 31 and October 31, commencing October 31, 2018. If an interest payment date falls on a non-business day, the applicable interest payment will be made on the next business day and no additional interest will accrue as a result of such delayed payment.
Interest periods	

The initial interest period will be the period from and including September 12, 2018, to, but excluding, the initial interest payment date, and the subsequent interest periods will be the periods from and including an interest payment date to, but excluding, the next interest payment date or the stated maturity date, as the case may be.

Regular record dates for interest payments

Every January 15, April 15, July 15 and October 15, commencing October 15, 2018.

S-10

---

TABLE OF CONTENTS

Specified currency

U.S. Dollars

Place of payment

St. Paul, Minnesota and/or such other places that may be specified in the indenture or a notice to holders.

Ranking of notes

The Notes will be our direct unsecured obligations and will rank:

pari passu, or equal, with any future unsecured, unsubordinated indebtedness;

senior to any of our future indebtedness that expressly provides it is subordinated to the Notes;

effectively subordinated to all of our existing and future secured indebtedness (including indebtedness that is initially unsecured in respect of which we subsequently grant a security interest), to the extent of the value of the assets securing such indebtedness, including, without limitation, borrowings under the ING Credit Facility, of which \$114.4 million was outstanding as of August 31, 2018; and

structurally subordinated to all existing and future indebtedness and other obligations of any of our subsidiaries, including the SBA-guaranteed debentures issued by MRCC SBIC, which, as of August 31, 2018, had total indebtedness outstanding of \$115.0 million.

Effective subordination means that in any liquidation, dissolution, bankruptcy or other similar proceeding, the holders of any of our existing or future secured indebtedness and the secured indebtedness of our subsidiaries may assert rights against the assets pledged to secure that indebtedness in order to receive full payment of their indebtedness before the assets may be used to pay other creditors. Structural subordination means that creditors of a parent entity are subordinate to creditors of a subsidiary entity with respect to the subsidiary's assets.

Denominations

We will issue the Notes in denominations of \$25 and integral multiples of \$25 in excess thereof.

Business day

Each Monday, Tuesday, Wednesday, Thursday and Friday that is not a day on which banking institutions in the City of New York or another place of payment are authorized or obligated by law or executive order to close.

Optional redemption

The Notes may be redeemed in whole or in part at any time or from time to time at our option on or after October 31, 2020, upon not less than 30 days nor more than 60 days written notice by mail prior to the date fixed for redemption thereof, at a redemption price of 100% of the outstanding principal amount of the Notes to be redeemed plus accrued and unpaid interest payments otherwise payable thereon for the then-current quarterly interest period accrued to, but excluding, the date fixed for redemption.

You may be prevented from exchanging or transferring the Notes when they are subject to redemption. In case any Notes

S-11

TABLE OF CONTENTS

are to be redeemed in part only, the redemption notice will provide that, upon surrender of such Note, you will receive, without a charge, a new Note or Notes of authorized denominations representing the principal amount of your remaining unredeemed Notes.

Any exercise of our option to redeem the Notes will be done in compliance with the 1940 Act.

If we redeem only some of the Notes, the trustee or DTC, as applicable, will determine the method for selection of the particular Notes to be redeemed, in accordance with the indenture governing the Notes and in accordance with the rules of any national securities exchange or quotation system on which the Notes are listed. Unless we default in payment of the redemption price, on and after the date of redemption, interest will cease to accrue on the Notes called for redemption.

Sinking fund

The Notes will not be subject to any sinking fund.

Repayment at option of holders

Holders will not have the option to have the Notes repaid prior to the stated maturity date.

Defeasance

The Notes are subject to defeasance by us. Defeasance means that, by depositing with a trustee an amount of cash and/or government securities sufficient to pay all principal and interest, if any, on the Notes when due and satisfying any additional conditions required under the indenture relating to the Notes, we will be deemed to have been discharged from our obligations under the Notes. See Description of the Notes Defeasance in this prospectus supplement.

Covenant defeasance

The Notes are subject to covenant defeasance by us. In the event of a covenant defeasance, upon depositing such funds and satisfying conditions similar to those for defeasance we would be released from certain covenants under the indenture relating to the Notes. The consequences to the holders of the Notes would be that, while they would no longer benefit from certain covenants under the indenture, and while the Notes could not be accelerated for any reason, the holders of the Notes nonetheless could look to the Company for repayment of the Notes if there were a shortfall in the funds deposited with the trustee or the trustee is prevented from making a payment. See Description of the Notes Defeasance in this prospectus supplement.

Form of notes

The Notes will be represented by global securities that will be deposited and registered in the name of DTC or its nominee. This means that, except in limited circumstances, you will not receive certificates for the Notes. Beneficial interests in the Notes will be represented through book-entry accounts of financial institutions acting on behalf of beneficial owners as direct and indirect participants in DTC. Investors may elect to hold interests in the Notes through either DTC, if they are a participant, or indirectly through organizations that are participants in DTC.

TABLE OF CONTENTS

Trustee, paying agent, and security registrar

U.S. Bank National Association

Other covenants

In addition to any covenants described elsewhere in this prospectus supplement or the accompanying prospectus, the following covenants will apply to the Notes:

We agree that for the period of time during which Notes are outstanding, we will not violate Section 18(a)(1)(A) as modified by such provisions of Section 61(a) as may be applicable to the Company from time to time of the 1940 Act or any successor provisions, whether or not we continue to be subject to such provisions of the 1940 Act, but giving effect, in either case, to any exemptive relief granted to us by the SEC. These provisions generally prohibit us from incurring additional borrowings, including through the issuance of additional debt securities, unless our asset coverage, as defined in the 1940 Act, equals at least 150% after such borrowings. See Risk Factors Risks Related to the Notes Recent legislation allows us to incur additional leverage in this prospectus supplement;

We agree that for the period of time during which Notes are Outstanding, the Company will not declare any dividend (except a dividend payable in stock of the issuer), or declare any other distribution, upon a class of the capital stock of the Company, or purchase any such capital stock, unless, in every such case, at the time of the declaration of any such dividend or distribution, or at the time of any such purchase, the Company has an asset coverage (as defined in the 1940 Act, except to the extent modified by this covenant) of at least the threshold specified in Section 18(a)(1)(B) as modified by such provisions of Section 61(a) of the 1940 Act as may be applicable to the Company from time to time or any successor provisions thereto of the 1940 Act, as such obligation may be amended or superseded, after deducting the amount of such dividend, distribution or purchase price, as the case may be, and in each case giving effect to (i) any exemptive relief granted to the Company by the Commission, and (ii) any SEC no-action relief granted by the Commission to another business development company, or BDC, (or to the Company if it determines to seek such similar no-action or other relief) permitting the BDC to declare any cash dividend or distribution notwithstanding the prohibition contained in Section 18(a)(1)(B) as modified by such provisions of Section 61(a) of the 1940 Act as may be applicable to the Company from time to time, as such obligation may be amended or superseded, in order to maintain such BDC's status as a regulated investment company under Subchapter M of the Code. For the purposes of determining asset coverage as used above, any and all of our indebtedness, including any outstanding

S-13

---

TABLE OF CONTENTS

borrowings under the ING Credit Facility and any successor or additional credit facility, shall be deemed a senior security of us; and

If, at any time, we are not subject to the reporting requirements of Sections 13 or 15(d) of the Securities Exchange Act of 1934 (the Exchange Act ), to file any periodic reports with the SEC, we agree to furnish to holders of the Notes and the trustee, for the period of time during which the Notes are outstanding, our audited annual consolidated financial statements, within 90 days of our fiscal year end, and unaudited interim consolidated financial statements, within 45 days of our fiscal quarter end (other than our fourth fiscal quarter). All such financial statements will be prepared, in all material respects, in accordance with applicable Generally Accepted Accounting Principles in the United States of America, or U.S. GAAP.

Events of default

You will have rights if an Event of Default occurs with respect to the Notes and is not cured.

The term Event of Default in respect of the Notes means any of the following:

We do not pay the principal of any Note when due and payable at maturity;

We do not pay interest on any Note when due and payable, and such default is not cured within 30 days of its due date;

We remain in breach of any other covenant in respect of the Notes for 60 days after we receive a written notice of default stating we are in breach (the notice must be sent by either the trustee or holders of at least 25% of the principal amount of the outstanding Notes);

We file for bankruptcy or certain other events of bankruptcy, insolvency or reorganization occur and remain undischarged or unstayed for a period of 60 days; or

On the last business day of each of twenty-four consecutive calendar months, the Notes have an asset coverage of less than 100%, giving effect to any exemptive relief granted to us by the SEC.

Further issuances

We have the ability to issue additional debt securities under the indenture with terms different from the Notes and, without the consent of the holders of the Notes, to reopen the Notes and issue additional Notes. If we issue additional debt securities, these additional debt securities could have a lien or other security interest greater than that accorded to the holders of the Notes, which are unsecured.

Use of proceeds

We estimate that the net proceeds we will receive from the sale of the Notes will be approximately \$57.7 million (or approximately \$66.4 million if the underwriters exercise their

---

S-14

TABLE OF CONTENTS

over-allotment option in full) based on a public offering price of \$25 per Note, after deducting the underwriting discount of approximately \$1.9 million (or approximately \$2.2 million if the underwriters fully exercise their over-allotment option) payable by us and estimated offering expenses of approximately \$0.4 million payable by us.

We intend to use the net proceeds from this offering to repay a portion of our indebtedness under the ING Credit Facility, invest in portfolio companies in accordance with our investment objectives and for general corporate purposes. We will also pay operating expenses, including management and administrative fees, and may pay other expenses from the net proceeds of this offering. See Use of Proceeds.

Governing law

The Notes and the indenture will be governed by and construed in accordance with the laws of the State of New York.

Global clearance and settlement procedures

Interests in the Notes will trade in DTC's Same Day Funds Settlement System, and any permitted secondary market trading activity in such Notes will, therefore, be required by DTC to be settled in immediately available funds. None of the Company, the trustee or the paying agent will have any responsibility for the performance by DTC or its participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

S-15

---

TABLE OF CONTENTS

## RISK FACTORS

*Investing in the Notes involves a number of significant risks. Before you invest in the Notes, you should be aware of various risks, including those described below. You should carefully consider these risk factors, together with all of the other information included in this prospectus supplement and the accompanying prospectus, before you decide whether to make an investment in our securities. The risks set out below are not the only risks we face. Additional risks and uncertainties not presently known to us or not presently deemed material by us may also impair our operations and performance. If any of the following events occurs, our business, financial condition, results of operations and cash flows could be materially and adversely affected. In such case, our net asset value could decline, and you may lose all or part of your investment.*

### Risks Related to the Notes

**The Notes will be unsecured and therefore will be effectively subordinated to any secured indebtedness we have currently incurred or may incur in the future and will rank pari passu with, or equal to, all outstanding and future unsecured indebtedness issued by us and our general liabilities.**

The Notes will not be secured by any of our assets or any of the assets of any of our subsidiaries. As a result, the Notes will be effectively subordinated to any secured indebtedness we or our subsidiaries have outstanding as of the date of this prospectus supplement (including the ING Credit Facility) or that we or our subsidiaries may incur in the future (or any indebtedness that is initially unsecured as to which we subsequently grant a security interest) to the extent of the value of the assets securing such indebtedness. In any liquidation, dissolution, bankruptcy or other similar proceeding, the holders of any of our secured indebtedness or secured indebtedness of our subsidiaries may assert rights against the assets pledged to secure that indebtedness in order to receive full payment of their indebtedness before the assets may be used to pay other creditors, including the holders of the Notes. As of August 31, 2018, we had \$114.4 million in outstanding indebtedness under the ING Credit Facility. The indebtedness under the ING Credit Facility is effectively senior to the Notes to the extent of the value of the assets securing such indebtedness.

**The Notes will be structurally subordinated to the indebtedness and other liabilities of our subsidiaries.**

The Notes will be obligations exclusively of Monroe Capital Corporation, and not of any of our subsidiaries. None of our subsidiaries will be a guarantor of the Notes, and the Notes will not be required to be guaranteed by any subsidiary we may acquire or create in the future. Any assets of our subsidiaries will not be directly available to satisfy the claims of our creditors, including holders of the Notes. Except to the extent we are a creditor with recognized claims against our subsidiaries, all claims of creditors of our subsidiaries will have priority over our equity interests in such entities (and therefore the claims of our creditors, including holders of the Notes) with respect to the assets of such entities. Even if we are recognized as a creditor of one or more of these entities, our claims would still be effectively subordinated to any security interests in the assets of any such entity and to any indebtedness or other liabilities of any such entity senior to our claims. Consequently, the Notes will be structurally subordinated to all indebtedness and other liabilities, including trade payables, of any of our existing or future subsidiaries, including MRCC SBIC. As of August 31, 2018, our subsidiaries had total indebtedness outstanding of \$115.0 million. In addition, in the future our subsidiaries may incur substantial additional indebtedness, all of which is and would be structurally senior to the

Notes.

**The indenture under which the Notes will be issued contains limited protection for holders of the Notes.**

The indenture under which the Notes will be issued offers limited protection to holders of the Notes. The terms of the indenture and the Notes do not restrict our or any of our subsidiaries' ability to engage in, or otherwise be a party to, a variety of corporate transactions, circumstances or events that could have a material adverse impact on your investment in the Notes. In particular, the terms of the indenture and the Notes will not place any restrictions on our or our subsidiaries' ability to:

issue securities or otherwise incur additional indebtedness or other obligations, including (1) any indebtedness or other obligations that would be equal in right of payment to the Notes, (2) any indebtedness or other obligations that would be secured and therefore rank effectively senior in right of payment to the Notes to the extent of the values of the assets securing such debt, (3) indebtedness

S-16

---

TABLE OF CONTENTS

of ours that is guaranteed by one or more of our subsidiaries and which therefore is structurally senior to the Notes and (4) securities, indebtedness or obligations issued or incurred by our subsidiaries that would be senior to our equity interests in those entities and therefore rank structurally senior to the Notes with respect to the assets of our subsidiaries, in each case other than an incurrence of indebtedness or other obligation that would cause a violation of Section 18(a)(1)(A) as modified by such provisions of Section 61(a) of the 1940 Act as may be applicable to us from time to time or any successor provisions, whether or not we continue to be subject to such provisions of the 1940 Act, but giving effect, in each case, to any exemptive relief granted to us by the SEC. Currently, these provisions generally prohibit us from making additional borrowings, including through the issuance of additional debt or the sale of additional debt securities, unless our asset coverage, as defined in the 1940 Act, equals at least 150% after such borrowings. See Recent legislation allows us to incur additional leverage below;

pay dividends on, or purchase or redeem or make any payments in respect of, capital stock or other securities ranking junior in right of payment to the Notes, including subordinated indebtedness, in each case other than dividends, purchases, redemptions or payments that would cause our asset coverage (as defined in the 1940 Act, except to the extent modified by this covenant) to fall below the threshold specified in Section 18(a)(1)(B) as modified by such provisions of Section 61(a) of the 1940 Act as may be applicable to us from time to time or any successor provisions, giving effect to (i) any exemptive relief granted to us by the SEC and (ii) no-action relief granted by the SEC to another BDC (or to us if we determine to seek such similar no-action or other relief) permitting the BDC to declare any cash dividend or distribution notwithstanding the prohibition contained in Section 18(a)(1)(B) as modified by such provisions of Section 61(a) of the 1940 Act as may be applicable to us from time to time in order to maintain the BDC's status as a RIC under Subchapter M of the Code. These provisions generally prohibit us from declaring any cash dividend or distribution upon any class of our capital stock, or purchasing any such capital stock if our asset coverage, as defined in the 1940 Act, is below 150% at the time of the declaration of the dividend or distribution or the purchase and after deducting the amount of such dividend, distribution or purchase. For the purposes of determining asset coverage as used above, any and all of our indebtedness, including any outstanding borrowings under the ING Credit Facility and any successor or additional credit facility, shall be deemed a senior security of us; sell assets (other than certain limited restrictions on our ability to consolidate, merge or sell all or substantially all of our assets);

enter into transactions with affiliates;

create liens (including liens on the shares of our subsidiaries) or enter into sale and leaseback transactions;

make investments; or

create restrictions on the payment of dividends or other amounts to us from our subsidiaries.

In addition, the indenture (as defined in Description of the Notes ) will not require us to make an offer to purchase the Notes in connection with a change of control or any other event.

Furthermore, the terms of the indenture and the Notes do not protect holders of the Notes in the event that we experience changes (including significant adverse changes) in our financial condition, results of operations or credit ratings, if any, as they do not require that we or our subsidiaries adhere to any financial tests or ratios or specified levels of net worth, revenues, income, cash flow, or liquidity.

Our ability to recapitalize, incur additional debt (including additional debt that matures prior to the maturity of the Notes), and take a number of other actions that are not limited by the terms of the Notes may have important consequences for you as a holder of the Notes, including making it more difficult for us to satisfy our obligations with respect to the Notes or negatively affecting the trading value of the Notes.

TABLE OF CONTENTS
