Heartland Payment Systems, Inc. and Subsidiaries
Notes To Condensed Consolidated Financial Statements
(unaudited)

1. Organization and Operations

Basis of Financial Statement Presentation— The accompanying consolidated financial statements include those of Heartland Payment Systems, Inc. (the "Company," "we," "us," or "our") and its wholly-owned subsidiaries, Heartland Payroll Solutions, Inc., Heartland Payment Solutions, Inc., Heartland Acquisition LLC, TouchNet Information Systems, Inc. ("TouchNet") and Heartland Commerce, Inc. The condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. All intercompany balances and transactions with the Company's subsidiaries have been eliminated upon consolidation.

The accompanying condensed consolidated financial statements are unaudited. In the opinion of the Company's management, the unaudited condensed consolidated financial statements include all normal recurring adjustments necessary for a fair presentation of the Company's financial position at June 30, 2015, its results of operations for the three and six months ended June 30, 2015 and 2014, and changes in equity and cash flows for the six months ended June 30, 2015 and 2014. Results of operations reported for interim periods are not necessarily indicative of the results to be expected for the year ending December 31, 2015. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Annual Report on Form 10-K for the year ended December 31, 2014 (the "2014 Form 10-K"). The December 31, 2014 Condensed Consolidated Balance Sheet was derived from the audited 2014 consolidated financial statements.

Out of Period Adjustments Recorded in Prior Year—In the second quarter of 2014, the Company recorded out-of-period adjustments decreasing its revenue and increasing bad debt expense (included in Processing and Servicing in its Consolidated Statements of Income) by \$1.4 million and \$0.9 million, respectively. These adjustments related to immaterial errors that originated in 2013 in the Company's Heartland School Solutions business. These adjustments included revenue which was incorrectly recorded in prior periods and a reassessment of the collectability of certain customer accounts receivable. These out-of-period adjustments reduced earnings before income taxes and net income in the year ended December 31, 2014 by \$2.3 million and \$1.4 million, respectively, and reduced diluted earnings per share by \$0.04. The Company considered existing guidance in evaluating whether a restatement of prior financial statements was required as a result of these misstatements. The guidance requires corrections of errors to be recorded by restatement of prior periods, if material. The Company quantitatively and qualitatively assessed the materiality of the errors and concluded that the errors were not material to its earnings for the year ended December 31, 2014, and accordingly, no restatement of prior period financial statements was warranted.

Business Description—The Company's primary business is to provide payment processing services to merchants throughout the United States. This involves providing end-to-end electronic payment processing services to merchants by facilitating the exchange of information and funds between them and cardholders' financial institutions. To accomplish this, the Company undertakes merchant set-up and training, transaction authorization and electronic draft capture, clearing and settlement, merchant accounting, merchant assistance and support, and risk management. The Company also provides additional services, including those provided through its subsidiaries, such as:

- Integrated commerce solutions, payment processing, higher education loan services and open and closed-loop payment solutions to higher-education institutions through Campus Solutions,
- School nutrition, point-of-sale solutions ("POS"), and associated payment solutions, including online prepayment solutions, to kindergarten through 12th grade ("K-12") schools through Heartland School Solutions,
- Full-service payroll processing and related tax filing services, through Heartland Payroll Solutions, and
- Others including (1) prepaid and stored-value card solutions through Micropayments, (2) POS solutions and other adjacent business service applications through Heartland Commerce, and (3) marketing solutions including loyalty

and gift cards which the Company provides through Heartland Marketing Solutions.

Approximately 70% of the Company's revenue is derived from processing and settling Visa and MasterCard bankcard transactions for its merchant customers. Because the Company is not a "member bank" as defined by Visa and MasterCard, in order to process and settle these bankcard transactions for its merchants, the Company has entered into sponsorship agreements with member banks. Visa and MasterCard rules restrict the Company from performing funds settlement or accessing merchant settlement funds and require that these funds be in the possession of the member bank until the merchant is funded. A

6

Table of Contents

Heartland Payment Systems, Inc. and Subsidiaries

Notes To Condensed Consolidated Financial Statements—(Continued)

(unaudited)

sponsorship agreement with a member bank permits the Company to route Visa and MasterCard bankcard transactions under the member bank's control and identification numbers to clear credit and signature debit bankcard transactions through Visa and MasterCard. A sponsorship agreement also enables the Company to settle funds between cardholders and merchants by delivering funding files to the member bank, which in turn transfers settlement funds to the merchants' bank accounts. These restrictions place the settlement assets and obligations under the control of the member bank.

The sponsorship agreements with the member banks require, among other things, that the Company abide by the bylaws and regulations of the Visa and MasterCard networks, and certain sponsor banks require a cash balance in a deposit account. If the Company were to breach a sponsorship agreement and under certain other circumstances, the sponsor banks may terminate the agreement and, under the terms of the agreement, the Company would have six months to identify an alternative sponsor bank. The Company is generally dependent on its sponsor banks, Visa and MasterCard for notification of any compliance breaches. As of June 30, 2015, the Company has not been notified of any such issues by its sponsor banks, Visa or MasterCard.

As of June 30, 2015, the Company is party to three bank sponsorship agreements.

On February 8, 2012, the Company entered into a sponsorship agreement with Wells Fargo Bank, N.A. ("WFB"). Processing for small and mid-sized merchants (referred to as "Small and Midsized Enterprises," or "SME merchants") under the WFB sponsorship commenced in August 2012. Under the current arrangement, the WFB sponsorship agreement is in effect until February 8, 2016 and automatically renews for three years unless either party provides six months (180 days) written notice of non-renewal to the other party. Under the terms of the WFB sponsorship agreement, the Company has up to six months beyond February 8, 2016 to complete a conversion of its SME merchants to another sponsorship arrangement. For the first three-year automatic renewal, both parties have agreed to extend the period for providing notice of non-renewal for 90 days, to November 6, 2015. The Company is highly confident it will renew the WFB sponsorship agreement or secure another sponsorship arrangement for its SME merchants.

In November 2009, the Company entered into a sponsorship agreement with The Bancorp Bank ("TBB") to sponsor processing for the Company's Network Services merchants, which are predominately petroleum industry merchants of all sizes (referred to as "Network Services Merchants"), and as of October 2013, certain of the Company's SME merchants. The agreement with TBB expires in February 2016 and will automatically renew for successive one-year periods unless either party provides six months written notice of non-renewal to the other party.

On March 24, 2011, the Company entered into a sponsorship agreement with Barclays Bank Delaware to sponsor processing for certain of the Company's large national merchants. The agreement with Barclays Bank Delaware expires in March 2016 and will automatically renew for successive one-year periods unless either party provides six months written notice of non-renewal to the other party.

The following is a breakout of the Company's total Visa and MasterCard settled card processing volume for the month ending June 30, 2015 by percentage processed under its individual bank sponsorship agreements:

Sponsor Bank	% of June 2015 Bankcard Processing Volume
Wells Fargo Bank, N.A.	69%
The Bancorp Bank	21%
Barclays Bank Delaware	10%

The Company also provides card transaction processing for DFS Services, LLC ("Discover") and is designated as an

acquirer by Discover. The agreement with Discover allows the Company to acquire, process and fund transactions directly through Discover's network without the need of a bank sponsor. The Company processes Discover transactions similarly to the way it processes Visa and MasterCard transactions. The Company must comply with Discover's acquirer operating regulations and uses its sponsor banks to assist in funding its merchants' Discover transactions.

Under a prior sales and servicing program agreement with American Express Travel Related Services Company, Inc. ("American Express") the Company: (a) provided solicitation services by signing new-to-American Express merchants directly with American Express; (b) provided transactional support services on behalf of American Express to the Company's American

Table of Contents

Heartland Payment Systems, Inc. and Subsidiaries

Notes To Condensed Consolidated Financial Statements—(Continued)

(unaudited)

Express accepting merchants; and (c) provided processing, settlement, customer support and reporting to merchants, similar to

the services provided for the merchants' Visa, MasterCard and Discover transactions. In May 2014, the Company began offering a new American Express Card Acceptance Program (referred to as "OptBlue") to new merchants. The Company converted a majority of its existing merchants who were processing under the prior sales and servicing agreement with American Express to OptBlue during the third quarter of 2014. As a participant in OptBlue the Company acquires, contracts, and establishes pricing, as well as provides customer service, to merchants, similar to the transaction processing services the Company provides through Discover, Visa and MasterCard. The Company uses its sponsor banks to assist in funding its merchants' American Express transactions.

2. Summary of Significant Accounting Policies

Use of Estimates— The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Estimates include, among other things, the accrued buyout liability, capitalized customer acquisition costs, goodwill and intangible asset impairment review, revenue recognition for multiple element arrangements, loss reserves, certain accounts payable and accrued expenses and certain tax assets and liabilities as well as the related valuation allowances, if any. Actual results could differ from those estimates.

Cash and Cash Equivalents—At June 30, 2015, cash included approximately \$12.3 million of processing-related cash in transit and collateral, compared to approximately \$17.8 million of processing-related cash in transit and collateral at December 31, 2014. Processing-related cash in transit and collateral includes merchant deposits, collateral deposits, and funds in transit relating to timing differences for the Company's non-card payment processing businesses.

Receivables—The Company's primary receivables are from its bankcard processing merchants. In addition to receivables for transaction fees the Company charges its merchants for processing transactions, these receivables include amounts resulting from the Company's practice of advancing interchange fees to most of its SME merchants during the month and collecting those fees at the beginning of the following month. The Company does not advance interchange fees to its Network Services merchants. Network Services merchants are invoiced monthly, on payment terms of 30 days net from date of invoicing. Receivables from merchants also include receivables from the sale of POS terminal equipment.

The timing for presentment of transaction funding files to the bankcard networks results in the Company's sponsor banks receiving settlement cash one day before payment is made to merchants, thereby increasing funding obligations to its SME merchants, which are carried in processing liabilities. The Company funds interchange advances/receivables to SME merchants first from this settlement cash received from bankcard networks, then from the Company's available cash or by incurring a liability to its sponsor banks. At June 30, 2015 and December 31, 2014, the Company did not use any of its available cash to fund merchant advances. The amount due to sponsor banks for funding merchant advances was \$54.4 million at June 30, 2015 and \$29.9 million at December 31, 2014. The liability to sponsor banks is repaid at the beginning of the following month out of the fees the Company collects from its merchants.

Receivables also include amounts due from Discover and American Express for merchant bankcard transactions. These amounts are recovered the next business day following the date of processing the transaction.

Receivables also include amounts resulting from the sale, installation, training and repair of payment system hardware and software for Campus Solutions, Heartland School Solutions and Other (which includes receivables from Micropayments, Heartland Commerce and Heartland Marketing Solutions). These receivables are mostly invoiced on

terms of 30 days net from date of invoicing.

Receivables are stated net of allowance for doubtful accounts. The Company estimates its allowance based on experience with its merchants, customers, and sales force and its judgment as to the likelihood of their ultimate payment. The Company also considers collection experience and makes estimates regarding collectability based on trends in the aging. Historically, the Company has not experienced significant charge offs for its merchant and customer receivables, other than the out-of-period adjustment recorded in the second quarter of 2014 (see Note 1, Organization and Operations for further details).

Investments and Funds Held for Customers—Investments, including those carried on the Condensed Consolidated Balance Sheets as Funds held for customers, consist primarily of bond funds, tax-exempt bonds, certificates of deposit and

8

Table of Contents

Heartland Payment Systems, Inc. and Subsidiaries

Notes To Condensed Consolidated Financial Statements—(Continued)

(unaudited)

equity investments. Funds held for customers also include overnight bank deposits. The majority of investments carried in Funds held for customers are available-for-sale and recorded at fair value based on quoted market prices. Certificates of deposit are classified as held to maturity and recorded at cost. In the event of a sale, cost is determined on a specific identification basis. At June 30, 2015, Funds held for customers included cash and cash equivalents of \$144.2 million and investments available for sale of \$27.4 million.

The asset funds held for customers and the liability customer fund deposits include: (1) amounts collected from customers prior to funding their payroll liabilities, as well as related tax and fiduciary liabilities for those customers, and (2) amounts collected by Campus Solutions in its capacity as a loan servicer, which will be remitted to the customer/owner of the student loans the following month.

Capitalized Customer Acquisition Costs, net— Capitalized customer acquisition costs consist of (1) up-front signing bonus payments made to Relationship Managers and sales managers (who constitute the Company's sales force and are referred to as "salespersons") for the establishment of new merchant relationships, and (2) a deferred acquisition cost representing the estimated cost of buying out the residual commissions of vested salespersons. Capitalized customer acquisition costs represent incremental, direct customer acquisition costs that are recoverable through gross margins associated with merchant contracts. The capitalized customer acquisition costs are amortized using a method which approximates a proportional revenue approach over the initial three-year term of the merchant contract.

The up-front signing bonus paid for new SME bankcard, payroll and loyalty marketing accounts is based on the estimated gross margin for the first year of the merchant contract. The signing bonus, amount capitalized, and related amortization are adjusted after the first year to reflect the actual gross margin generated by the merchant contract during that year. The deferred customer acquisition cost asset is accrued over the first year of SME bankcard, payroll and loyalty marketing merchant processing, consistent with the build-up in the accrued buyout liability, as described below.

Management evaluates the capitalized customer acquisition costs for impairment on an annual basis by comparing, on a pooled basis by vintage month of origination, the expected future net cash flows from underlying merchant relationships to the carrying amount of the capitalized customer acquisition costs. If the estimated future net cash flows are lower than the recorded carrying amount, indicating an impairment of the value of the capitalized customer acquisition costs, the impairment loss will be charged to operations. The Company believes that no impairment has occurred as of June 30, 2015.

Unearned revenue— Unearned revenue of \$53.8 million and \$49.0 million at June 30, 2015 and December 31, 2014, respectively, is primarily related to the Company's Heartland School Solutions, Campus Solutions, Heartland Payroll Solutions and Heartland Commerce businesses. Unearned revenue is derived primarily from the sale and subscription of e-commerce solutions and integration to host computer systems as well as from support and maintenance contracts and professional services. Unearned revenue represents contractual obligations of the Company to provide software, services and support to customers in the future.

Processing Liabilities— Processing liabilities result primarily from the Company's card processing activities. Processing liabilities primarily reflect funds in transit associated with differences arising between the amounts the Company's sponsor banks receive from the bankcard networks and the amounts funded to the Company's merchants. Such differences arise from timing differences, interchange expense, merchant advances, merchant reserves and chargeback processing. These differences result in payables or receivables. If the settlement received from the bankcard networks precedes the funding obligation to the merchant, the Company records a processing liability. Conversely, if funding to the merchant precedes the settlement from the bankcard networks, the Company records a receivable from the

bankcard network. The amounts are generally collected or paid the following business day.

Chargebacks arise due to disputes between a cardholder and a merchant resulting from the cardholder's dissatisfaction with merchandise quality or the merchant's service, and the disputes may not always be resolved in the merchant's favor. In some of these cases, the transaction is "charged back" to the merchant and the purchase price is refunded to the cardholder by the credit card-issuing institution. If the merchant is unable to fund the refund, the Company is liable for the full amount of the transaction. The Company's obligation to stand ready to perform is minimal. The Company maintains a deposit or the pledge of a letter of credit from certain merchants as an offset to potential contingent liabilities that are the responsibility of such merchants. The Company evaluates its ultimate risk and records an estimate of potential loss for chargebacks based upon an assessment of actual historical loss rates compared to recent bankcard processing volume levels. The Company believes that the liability recorded as loss reserves approximates fair value.

Table of Contents

Heartland Payment Systems, Inc. and Subsidiaries

Notes To Condensed Consolidated Financial Statements—(Continued)

(unaudited)

Accrued Buyout Liability— The Company's Relationship Managers and sales managers are paid residual commissions based on the gross margin generated by monthly SME merchant processing activity. The Company has the right, but not the obligation, to buy out some or all of these commissions, and intends to do so periodically. Such purchases of the commissions are at a fixed multiple of the last twelve months' commissions. Because of the Company's intent and ability to execute purchases of the residual commissions, and the mutual understanding between the Company and the Relationship Managers and sales managers, the Company has accounted for this deferred compensation arrangement pursuant to the substantive nature of the plan. The Company therefore records the amount that it would have to pay (the "settlement cost") to buy out non-servicing related commissions in their entirety from vested Relationship Managers and sales managers, and an accrual, based on their progress towards vesting, for those unvested Relationship Managers and sales managers who are expected to vest in the future. As noted above, as the liability increases over the first year of a SME merchant contract, the Company also records a related deferred acquisition cost asset for currently vested Relationship Managers and sales managers. The accrued buyout liability associated with unvested Relationship Managers and sales managers is not included in the deferred acquisition cost asset since future services are required in order to vest. Subsequent changes in the estimated accrued buyout liability due to merchant attrition, same-store sales growth or contraction and changes in gross margin are included in the same income statement caption as customer acquisition costs expense.

Relationship Managers and sales managers earn portfolio equity on their newly installed payroll and loyalty marketing merchant accounts based on the residual commissions they earn on those accounts. The accrued buyout liability and deferred acquisition cost asset are accrued in the same manner as the SME merchant portfolio equity.

The accrued buyout liability is based on merchants under contract at the balance sheet date, the gross margin generated by those merchants over the prior twelve months, and the contractual buyout multiple. The liability related to a new merchant is therefore zero when the merchant is installed, and increases over the twelve months following the installation date. The same procedure is applied to unvested commissions over the expected vesting period, but is further adjusted to reflect the Company's estimate that 31% of unvested Relationship Managers and sales managers become vested, which represents the Company's historical vesting rate.

The classification of the accrued buyout liability between current and non-current liabilities on the Condensed Consolidated Balance Sheets is based upon the Company's estimate of the amount of the accrued buyout liability that it reasonably expects to pay over the next twelve months. This estimate is developed by calculating the cumulative annual average percentage that total historical buyout payments represent of the accrued buyout liability. That percentage is applied to the period-end accrued buyout liability to determine the current portion.

Revenue—The Company classifies its revenues into five categories: (i) Payment Processing, (ii) Heartland School Solutions, (iii) Heartland Payroll Solutions, (iv) Campus Solutions and (v) Other (including Heartland Commerce). The Company recognizes revenue when (1) persuasive evidence of an arrangement exists; (2) delivery has occurred or services have been performed; (3) the price is fixed or determinable; and (4) collectability is reasonably assured. The Company also evaluates its contractual arrangements for indications that multiple element arrangements may exist, including instances where more-than-incidental software deliverables are included. The following revenue recognition policies define the manner in which the Company accounts for sales transactions by revenue category.

Payment Processing revenue primarily consists of discount, per-transaction and periodic (primarily monthly) fees from the processing of Visa, MasterCard, American Express and Discover transactions for SME merchants and per-transaction fees for the authorization and settlement of transactions for Network Services merchants. Also

included in this category are American Express servicing fees, merchant service fees, fees for processing chargebacks and termination fees on terminated contracts. Interchange fees, which are the Company's most significant expense, are set by the card networks and paid to the card issuing banks. For the majority of SME card processing revenue, the Company does not offset processing revenues and interchange fees because its business practice is to advance the interchange fees to most SME merchants when settling their daily transactions (thus paying the full amount of the transaction to the merchant), and then to collect the full discount fees from merchants on the first business day of the next month. The Company has merchant portability, credit risk, and the ultimate responsibility to the merchant and, as such, revenue is reported at the time of settlement on a gross basis. Payment processing services are transaction based and priced either as a fixed fee per transaction or as a percentage of the transaction value. The fees are charged for the processing services provided and do not include the gross sales price paid by the ultimate buyer to the merchant. For SME merchants to whom the Company does not advance interchange, it records card processing revenues net of interchange fees. As Network Services does not advance interchange fees to its merchants, the Company records its card

Table of Contents

Heartland Payment Systems, Inc. and Subsidiaries

Notes To Condensed Consolidated Financial Statements—(Continued)

(unaudited)

processing revenues net of interchange fees. The Company records Payment Processing revenue at the time services are provided and at the time of shipment as it relates to deployment of POS devices.

Heartland Payroll Solutions revenue includes fees charged for payroll processing services, including check printing, direct deposit, related federal, state and local tax deposits and providing accounting documentation, and interest income earned on funds held for customers. Revenues are recorded at the time service is provided.

Heartland School Solutions revenue includes fees from sales and maintenance of cafeteria POS solutions and associated payment solutions, including online prepayment solutions, back office management and hardware and technical support.

Campus Solutions revenue includes fees associated with providing integrated commerce solutions to support administrative services for higher education, as well as student loan payment processing, delinquency and default services, refund management, tuition payment plans, electronic billing and payment, tax document services and business outsourcing. Campus Solutions revenue also includes fees from the sale and maintenance of open- and closed-loop payment hardware and software solutions for college or university campuses to process small value electronic transactions.

Heartland Commerce revenue includes sales of POS systems and the associated payment processing and adjacent business service applications.

Campus Solutions, Heartland School Solutions and Heartland Commerce have arrangements that contain multiple elements, such as hardware, software products, including perpetual licenses and Software-as-a-Service (“SaaS”) services, maintenance, and professional installation and training services. The Company allocates revenue to each element based on the selling price hierarchy. The selling price for a deliverable is based on vendor specific objective evidence (“VSOE”) of selling price, if available, or estimated selling price (“ESP”) if VSOE of selling price is not available. The Company establishes ESP based on management judgment, considering internal factors such as margin objectives, pricing practices and controls, customer segment pricing strategies and the product life cycle. In arrangements with multiple elements, the Company determines allocation of the transaction price at inception of the arrangement based on the relative selling price of each unit of accounting.

In multiple element arrangements where more-than-incidental software deliverables are included, the Company has applied the residual method to determine the amount of software license revenues to be recognized. Under the residual method, if fair value exists for undelivered elements in a multiple-element arrangement, such fair value of the undelivered elements is deferred with the remaining portion of the arrangement consideration recognized upon delivery of the software license or services arrangement. The Company allocates the fair value of each element of a software related multiple-element arrangement based upon its fair value as determined by VSOE, with any remaining amount allocated to the software license. If evidence of the fair value cannot be established for the undelivered elements of a software arrangement, then the entire amount of revenue under the arrangement is deferred until these elements have been delivered or objective evidence can be established.

Other revenues include Micropayments fees from selling hardware and software for unattended online wireless credit card based payment systems, and unattended value top up systems for off-line closed-loop smart (chip) card based payment systems. Also included in this category are Heartland Marketing Solutions fees from selling mobile and card-based marketing services, gift cards and rewards services as well as fees from selling, renting and deploying POS devices. Revenues are recorded at the time of shipment or at the time services are provided.

Loss Contingencies and Legal Expenses—The Company records a liability for loss contingencies when the liability is probable and the amount is reasonably estimable. Legal fees associated with loss contingencies are recorded when the legal fees are incurred.

The Company records recoveries from its insurance providers when cash is received from the provider.

Other Income (Expense)— Other income (expense) consists of interest income on cash and investments, the interest cost on the Company's borrowings, gains or losses on the disposal of assets, write downs of capitalized information technology development projects and other non-operating income or expense items.

Income Taxes—The Company accounts for income taxes by recognizing deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial statements and the tax

Table of Contents

Heartland Payment Systems, Inc. and Subsidiaries

Notes To Condensed Consolidated Financial Statements—(Continued)

(unaudited)

basis of assets and liabilities using enacted tax rates. The impact on deferred assets and liabilities of a change in tax rates is recognized in the period that the rate change is enacted. Valuation allowances are recorded when it is determined that it is more likely than not that a deferred tax asset will not be realized.

The provision for income taxes for the three and six months ended June 30, 2015 and 2014 and the resulting effective tax rates were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,		
	2015	2014	2015	2014	
	(In thousands)				
Provision for income taxes	\$13,340	\$12,552	\$22,268	\$22,852	
Effective tax rate	39.0	% 43.1	% 36.9	% 42.1	%

The decrease in the effective tax rate for the three months ended June 30, 2015, as compared to the three months ended June 30, 2014, was due to the Company's ability to utilize the losses generated from Leaf Acquisition, LLC ("Leaf") against consolidated taxable income during the three months ended June 30, 2015. In addition, the decrease in the effective tax rate for the six months ended June 30, 2015, as compared to the six months ended June 30, 2014, reflects the partial recognition of deferred tax benefits from past accumulated losses of Leaf due to the generation of future taxable income resulting from the acquisition of Dinerware. The structure of this acquisition along with the corresponding preliminary purchase price allocation resulted in the recording of deferred tax liabilities during the first quarter of 2015 on finite lived intangible assets that will provide a source of future taxable income.

The Company's tax provision for interim periods is determined using an estimate of its annual effective tax rate, adjusted for discrete items, if any, that are taken into account in the relevant period. Each quarter the Company updates its estimate of the annual effective tax rate, and if the Company's estimated tax rate changes, it makes a cumulative adjustment in that period.

The Company regularly evaluates its tax positions for additional unrecognized tax benefits and associated interest and penalties, if applicable. There are many factors that are considered when evaluating these tax positions including: interpretation of tax laws, recent tax litigation on a position, past audit or examination history, and subjective estimates and assumptions, which have been deemed reasonable by management. However, if management's estimates are not representative of actual outcomes, the Company's results could be materially impacted. The Company does not expect any material changes to unrecognized tax benefits in the next twelve months. At June 30, 2015, the reserve for unrecognized tax benefits related to uncertain tax positions was \$8.2 million, of which \$5.5 million would, if recognized, impact the effective tax rate. At December 31, 2014, the reserve for unrecognized tax benefits related to uncertain tax positions was \$7.3 million, of which \$4.9 million would, if recognized, impact the effective tax rate.

Share-Based Compensation— The Company expenses employee share-based compensation under the fair value method. Share-based compensation cost is measured at the grant date, based on the fair value of the award, and is recognized as expense over the requisite service period. The Company grants three types of Restricted Share Units ("RSUs"), service-based RSUs, performance-based RSUs ("PRSUs"), and total shareholder return RSUs ("TRSUs"). The Company's Board of Directors approves grants of PRSUs and TRSUs with grant-specific vesting and performance target terms. The methods and assumptions used in the determination of the fair value of share-based awards and measurement of performance targets are consistent with those described in the Company's 2014 Form 10-K. Share-based compensation costs recognized were \$5.1 million and \$3.7 million, respectively, for the three months ended June 30, 2015 and 2014 and \$9.7 million and \$7.5 million, respectively, for the six months ended June 30, 2015 and 2014.

Earnings per Share— Basic earnings per share was computed by dividing net income by weighted average number of common shares outstanding during the period. Diluted earnings per share was computed based on the weighted

average outstanding common shares plus equivalent shares assuming exercise of stock options and vesting of RSUs, PRSUs and TRSUs, where dilutive.

Common Stock Repurchases— On May 8, 2013, the Company's Board of Directors authorized the repurchase of up to \$75 million of the Company's outstanding common stock. During the six months ended June 30, 2014, the Company had repurchased 1,347,817 shares for \$54.5 million at an average cost of approximately \$40.40 per share. Total repurchases under this authorization were 1,882,417 shares for \$74.9 million at an average cost of approximately \$39.81 per share. Repurchases

Table of Contents

Heartland Payment Systems, Inc. and Subsidiaries

Notes To Condensed Consolidated Financial Statements—(Continued)

(unaudited)

under this authorization were completed during the second quarter of 2014. These repurchases were made through the open market in accordance with applicable laws and regulations. On May 8, 2014, the Company's Board of Directors authorized the repurchase of up to \$75 million of the Company's outstanding common stock. As of June 30, 2015, the Company has not repurchased any shares under the May 8, 2014 authorization.

The Company intends to fund any repurchases with cash flow from operations, existing cash on the balance sheet, and other sources, including the 2014 Revolving Credit Facility (as defined in Note 10 herein). The manner, timing and amount of repurchases, if any, will be determined by management and will depend on a variety of factors, including price, corporate and regulatory requirements, market conditions and other corporate liquidity requirements. The repurchase program may be modified or discontinued at any time.

Derivative Financial Instruments— The Company utilizes derivative instruments to manage interest rate risk on certain borrowings under its Credit Agreement (as defined in Note 10 herein). The Company recognizes the fair value of derivative financial instruments in the Condensed Consolidated Balance Sheets in investments, or accrued expenses and other liabilities. Changes in fair value of derivative instruments are recognized immediately in earnings unless the derivative is designated and qualifies as a hedge of future cash flows. For derivatives that qualify as hedges of future cash flows, the effective portion of changes in fair value is recorded in other comprehensive income and reclassified into interest expense in the same periods during which the hedged item affects earnings. Any ineffectiveness of cash flow hedges would be recognized in Other income (expense) in the Condensed Consolidated Statements of Income during the period of change.

The Company has entered into fixed-pay amortizing interest rate swaps as a hedge of future cash flows on certain variable rate debt outstanding under its credit facility. These interest rate swaps convert the related notional amount of variable rate debt to fixed rate. The following table summarizes the components of the interest rate swaps.

	June 30, 2015	December 31, 2014
	(In thousands)	
Notional value	\$7,500	\$15,000
Fair value (a)	(36) (126)
Deferred tax benefit	20	54

(a) Recorded as a liability in accrued expenses and other liabilities

Noncontrolling Interests— Prior to August 6, 2014, the Company owned 66.67% of the outstanding capital stock of Leaf. Noncontrolling shareholders' share of after-tax net loss of Leaf was included in Net loss attributable to noncontrolling interests in the Condensed Consolidated Statements of Income for the six months ended June 30, 2014. On August 6, 2014, the Company entered into a stock purchase agreement with the noncontrolling shareholders of Leaf under which it acquired all shares of Leaf common stock held by the noncontrolling shareholders. As a result of this transaction, Leaf became a wholly-owned subsidiary of the Company and there is no noncontrolling interest on the Condensed Consolidated Balance Sheet as of June 30, 2015 and December 31, 2014.

Subsequent Events—The Company evaluated subsequent events through the issuance date with respect to the condensed consolidated financial statements as of and for the six months ended June 30, 2015.

New Accounting Pronouncements— From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board ("FASB") or other standards setting bodies that the Company adopts as of the specified effective date.

In May 2014, the FASB issued guidance on revenue from contracts with customers, which requires an entity to recognize revenue from the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance addresses in particular contracts with more than one performance obligation as well as the accounting for some costs to obtain or fulfill a contract with a customer and provides for additional disclosures with respect to revenues and cash flows arising from contracts with customers. Entities can transition to the standard either retrospectively or as a cumulative-effect adjustment as of the date of adoption. On July 9, 2015, the FASB voted to approve a one-year deferral of the effective date. This made the new guidance effective December 15, 2017 for annual reporting periods beginning after that date. The FASB also approved early adoption of the standard, but not before the original effective date which was for reporting periods beginning after December 15, 2016. The Company has not yet selected a transition method and is currently assessing the impact the adoption of this guidance will have on the Company's consolidated financial statements and disclosures.

Table of Contents

Heartland Payment Systems, Inc. and Subsidiaries

Notes To Condensed Consolidated Financial Statements—(Continued)

(unaudited)

In August 2014, the FASB issued guidance on presentation of going concern financial statements which provides guidance about management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and to provide related footnote disclosures. The amendments in this guidance are expected to reduce diversity in the timing and content of footnote disclosures. The amendments in this guidance are effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. Early application is permitted. Entities can transition to the standard either retrospectively or as a cumulative-effect adjustment as of the date of adoption. The guidance will be applied prospectively. The effect on the Company's consolidated financial statements is still being evaluated.

In January 2015, the FASB issued guidance on simplifying income statement presentation by eliminating the concept of extraordinary items. This guidance eliminates from generally accepted accounting principles in the United States the concept of extraordinary items. The amendments in this guidance are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. Early application is permitted. This guidance can either be applied prospectively or retrospectively. The effect on the Company's consolidated financial statements is still being evaluated.

In April 2015, the FASB issued guidance on debt issuance costs, which requires that all costs incurred to issue debt be presented in the balance sheet as a direct deduction from the carrying value of the associated debt liability, consistent with the presentation of a debt discount. The standard also indicates that debt issuance costs do not meet the definition of an asset because they provide no future economic benefit. This is effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. Early adoption is permitted for financial statements that have not been previously issued. The new guidance should be applied on a retrospective basis. The effect on the Company's consolidated financial statements is still being evaluated.

In April 2015, the FASB issued guidance that defines specific criteria entities must apply to determine if a cloud computing arrangement includes an in-substance software license. The new guidance clarifies that software licenses included in a cloud computing software should be accounted for in the same manner as other software licenses. This amendment is effective for annual reporting periods, including interim periods within those periods, beginning after December 15, 2015. Early adoption is permitted. The new guidance can be applied on either a prospective or retrospective basis. The effect on the Company's consolidated financial statements is still being evaluated.

In July 2015, the FASB issued guidance to more clearly articulate the requirements for the subsequent measurement of inventory and related disclosures. The new guidance clarifies the basis for measuring inventory at the lower of cost and net realizable value. This amendment is effective for annual reporting periods, including interim periods within those periods, beginning after December 15, 2016. Early adoption is permitted. The new guidance should be applied on a prospective basis. The effect on the Company's consolidated financial statements is still being evaluated.

3. Acquisitions

Campus Solutions

TouchNet Information Systems, Inc.

On September 4, 2014, the Company completed the acquisition of TouchNet for a cash payment of \$375 million, less a net working capital deficit, for all outstanding common shares. The purchase was funded primarily through a new five-year \$375 million term loan. See Note 10, Credit Facilities for further details about the term loan.

The transaction was accounted for under the acquisition method of accounting. Beginning September 4, 2014, TouchNet's results of operations are included in the Company's results of operations. The fair values of the TouchNet assets acquired and liabilities assumed were estimated as of their acquisition date. The excess of the purchase price over the net assets, approximately \$221.6 million, was recorded as goodwill, which is deductible for income tax reporting. The fair values are preliminary, based on estimates, and may be adjusted as the Company analyzes what was known and knowable at the acquisition date, including the finalization of valuations. Acquisition-related costs of approximately \$2.3 million for advisory, legal and regulatory costs incurred in connection with the TouchNet acquisition have been expensed in general and administrative expenses.

The following table summarizes the preliminary purchase price allocation (in thousands):

Cash and cash equivalents	\$34,576
Receivables, net	12,243
Inventory	66
Prepaid expenses	601
Property and equipment, net	3,360
Intangible assets, net	144,400
Goodwill	221,575
Total assets acquired	416,821
Accounts payable	2,236
Accrued expenses and other liabilities	2,896
Current portion of unearned revenue	24,014
Current tax liability	13,914
Long-term portion of unearned revenue	2,037
Net assets acquired	\$371,724

The weighted average amortization life for the 2014 acquired finite lived intangible assets related to the acquisition of TouchNet is as follows:

Weighted average amortization life	(In years)
Customer relationships	20
Software	15
Trademark	5
Non-compete agreements	5
Overall	18

The following pro forma information shows the results of the Company's operations for the three and six months ended June 30, 2014 as if the TouchNet acquisition had occurred on January 1, 2013. The pro forma information is presented for information purposes only and is not necessarily indicative of what would have occurred if the acquisition had been made as of that date. The pro forma information is also not intended to be a projection of future results due to the integration of the acquired business.

	Three Months Ended June 30, 2014	Six Months Ended June 30, 2014
	(In thousands, except share data)	
Total revenues	\$599,382	\$1,140,655
Net income attributable to Heartland	\$18,814	\$36,317
Basic earnings per share	\$0.52	\$1.00
Diluted earnings per share	\$0.51	\$0.97

Heartland School Solutions

MCS Software Corporation

On April 1, 2014, the Company purchased the net assets of MCS Software Corporation ("MCS Software") for a \$17.3 million cash payment. The purchase price was financed under the 2013 Credit Facility and from operating cash flows.

The transaction was accounted for under the acquisition method of accounting. Beginning April 1, 2014, MCS Software's results of operations are included in the Company's results of operations. The allocation of the total purchase price was as follows: \$11.2 million to goodwill, \$6.4 million to intangible assets and \$0.3 million to net tangible liabilities. Pro forma results of operations have not been presented because the effect of this acquisition was not material. Goodwill is expected to be deductible for income tax reporting.

Heartland Payroll Solutions

Payroll 1, Inc.

On February 27, 2015, the Company purchased the stock of Payroll 1, Inc. ("Payroll 1") for a \$30.0 million cash payment, plus net working capital. The purchase price was financed under the 2014 Revolving Credit Facility.

The transaction was accounted for under the acquisition method of accounting. Beginning February 27, 2015, Payroll 1's results of operations were included in the Company's results of operations. The allocation of the total purchase price was as follows: \$19.8 million to goodwill, \$14.5 million to intangible assets and \$3.6 million to net tangible liabilities. The fair values are preliminary, based on estimates, and may be adjusted as the Company analyzes what was known and knowable at the acquisition date, including the finalization of valuations. Pro forma results of operations have not been presented because the effect of this acquisition was not material. Goodwill is not expected to be deductible for income tax reporting.

The weighted average amortization life for the 2015 acquired finite lived intangible assets related to the acquisition of Payroll 1 is as follows:

Weighted average amortization life	(In years)
Customer relationships	13
Software	6
Non-compete agreement	4
Overall	12

Heartland Commerce

Dinerware, LLC

On February 11, 2015, the Company purchased the stock of Dinerware, LLC ("Dinerware") for a \$15.0 million cash payment, plus net working capital. The purchase price was funded from a combination of operating cash and financing under the 2014 Revolving Credit Facility.

The transaction was accounted for under the acquisition method of accounting. Beginning on February 11, 2015, Dinerware's results of operations are included in the Company's results of operations. The allocation of the total purchase price was as follows: \$13.1 million to goodwill, \$2.6 million to intangible assets, and \$0.5 million to net tangible liabilities. The fair values are preliminary, based on estimates, and may be adjusted as the Company analyzes what was known and knowable at the acquisition date, including the finalization of valuations. Pro forma results of operations have not been presented because the effect of this acquisition was not material. Goodwill is not expected to be deductible for income tax reporting.

The weighted average amortization life for the 2015 acquired finite lived intangible assets related to the acquisition of Dinerware is as follows:

Weighted average amortization life	(In years)
Customer relationships	17
Software	5
Trademark	5
Non-compete agreement	3
Overall	13

pcAmerica, LLC

On January 30, 2015, the Company purchased the assets of pcAmerica, LLC ("pcAmerica") for a \$15.0 million cash payment, plus net working capital. The cash purchase price was funded from a combination of operating cash and financing under the 2014 Revolving Credit Facility.

The transaction was accounted for under the acquisition method of accounting. Beginning on January 30, 2015, pcAmerica's results of operations are included in the Company's results of operations. The allocation of the total purchase price was as follows: \$14.9 million to goodwill, \$1.5 million to intangible assets, and \$1.3 million to net tangible liabilities. The fair values are preliminary, based on estimates, and may be adjusted as the Company analyzes what was known and knowable at the acquisition date, including the finalization of valuations. Pro forma results of operations have not been presented because the effect of this acquisition was not material. Goodwill is expected to be deductible for income tax reporting.

The weighted average amortization life for the 2015 acquired finite lived intangible assets related to the acquisition of pcAmerica is as follows:

Xpient Solutions, LLC

On October 31, 2014, the Company acquired the net assets of Xpient Solutions, LLC ("Xpient") for a cash payment of \$30.0 million, plus net working capital. The purchase price was funded from a combination of operating cash and financing under the 2014 Revolving Credit Facility.

The transaction was accounted for under the acquisition method of accounting. Beginning October 31, 2014, Xpient's results of operations are included in the Company's results of operations. The allocation of the total purchase price was as follows: \$20.9 million to goodwill, \$9.5 million to intangible assets and \$3.6 million to net tangible assets. The fair values of Xpient's assets acquired and liabilities assumed were estimated as of their acquisition date. The fair values are preliminary, based on estimates, and may be adjusted as the Company analyzes what was known and knowable at the acquisition date, including the finalization of valuations. Pro forma results of operations have not been presented because the effect of this acquisition was not material. Goodwill is expected to be deductible for income tax reporting.

The weighted average amortization life for the 2014 acquired finite lived intangible assets related to the acquisition of Xpient is as follows:

Liquor Point of Sale

On February 14, 2014, the Company purchased the assets of Merchant Software Corporation (referred to as "Liquor POS") for a \$3.3 million cash payment. The cash purchase price was funded from operating cash flows.

The transaction was accounted for under the acquisition method of accounting. Beginning on February 15, 2014, Liquor POS's results of operations are included in the Company's results of operations. The allocation of the total purchase price was as follows: \$2.2 million to goodwill, \$1.2 million to intangible assets, and \$0.1 million to net tangible liabilities. Pro forma results of operations have not been presented because the effect of this acquisition was not material. Goodwill is expected to be deductible for income tax reporting.

4. Receivables

A summary of receivables by major class was as follows at June 30, 2015 and December 31, 2014:

	June 30, 2015	December 31, 2014
	(In thousands)	
Accounts receivable from merchants and customers	\$232,813	\$200,912
Accounts receivable from bankcard networks	35,327	31,279
Accounts receivable from others	4,741	3,465
	272,881	235,656
Less allowance for doubtful accounts	(1,593) (1,552
Total receivables, net	\$271,288	\$234,104

Included in accounts receivable from others are amounts due from employees (predominately salespersons), which were \$2.5 million and \$1.6 million at June 30, 2015 and December 31, 2014, respectively. Accounts receivable related to bankcard networks are primarily amounts due from Discover and American Express for bankcard transactions. A summary of the activity in the allowance for doubtful accounts for the three and six months ended June 30, 2015 and 2014 was as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
	(In thousands)			
Beginning balance	\$1,345	\$1,157	\$1,552	\$1,032
Out-of-Period adjustment (a)	—	875	—	875
Additions to allowance	2,050	791	2,706	1,128
Charges against allowance	(1,802) (1,043) (2,728) (1,255
Additions for acquisitions (b)	—	—	63	—
Ending balance	\$1,593	\$1,780	\$1,593	\$1,780

(a) See Note 1, Organization and Operations for a discussion of an Out-of-Period adjustment.

(b) Consists of allowances of businesses acquired during the six months ended June 30, 2015.

5. Funds Held for Customers and Investments

A summary of Funds held for customers and investments, including the amortized cost, gross unrealized gains (losses) and estimated fair value for investments available-for-sale by major security type and class of security were as follows at June 30, 2015 and December 31, 2014:

	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
	(In thousands)			
June 30, 2015				
Funds held for customers				
Conservative income bond fund - available for sale	\$ 13,012	\$—	\$(16)) \$ 12,996
Fixed income - municipal bonds - available for sale	14,429	3	(56)) 14,376
Cash and cash equivalents held for customers	144,259	—	—	144,259
Total funds held for customers	\$ 171,700	\$ 3	\$(72)) \$ 171,631

	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
	(In thousands)			
December 31, 2014				
Funds held for customers				
Conservative income bond fund - available for sale	\$ 13,012	\$—	\$(16)) \$ 12,996
Fixed income - municipal bonds - available for sale	14,688	2	(51)) 14,639
Cash and cash equivalents held for customers	148,857	—	—	148,857
Total funds held for customers	\$ 176,557	\$ 2	\$(67)) \$ 176,492

Expected maturities of the Fixed income - municipal bonds at June 30, 2015 are as follows:

	Total	Less Than 1 Year	1 To 5 Years	5 To 10 Years
	(In thousands)			
June 30, 2015				
Funds held for customers:				
Fixed income - municipal bonds - available for sale cost	\$ 14,429	\$ 1,334	\$ 13,095	\$—
Fixed income - municipal bonds - available for sale estimated fair value	\$ 14,376	\$ 1,335	\$ 13,041	\$—

During the six months ended June 30, 2015, the Company did not experience any other-than-temporary losses on its investments.

During the six months ended June 30, 2014, the Company sold available for sale securities for \$2.2 million and realized a gain on this sale of \$0.3 million which was recognized in the Condensed Consolidated Statements of Income for the six months ended June 30, 2014.

6. Capitalized Customer Acquisition Costs, Net

A summary of net capitalized customer acquisition costs as of June 30, 2015 and December 31, 2014 was as follows:

	June 30, 2015	December 31, 2014
	(In thousands)	
Capitalized signing bonuses	\$105,238	\$98,879
Less accumulated amortization	(49,161)	(47,238)
	56,077	51,641
Capitalized customer deferred acquisition costs	58,847	54,583
Less accumulated amortization	(36,284)	(33,117)
	22,563	21,466
Capitalized customer acquisition costs, net	\$78,640	\$73,107

A summary of the activity in capitalized customer acquisition costs, net for the three and six month periods ended June 30, 2015 and 2014 was as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
	(In thousands)			
Balance at beginning of period	\$75,096	\$62,628	\$73,107	\$61,027
Plus additions to:				
Capitalized signing bonuses, net	11,346	10,124	21,387	18,179
Capitalized customer deferred acquisition costs	7,026	6,626	13,129	12,157
	18,372	16,750	34,516	30,336
Less amortization expense on:				
Capitalized signing bonuses, net	(8,627)	(7,524)	(16,952)	(14,654)
Capitalized customer deferred acquisition costs	(6,201)	(5,421)	(12,031)	(10,276)
	(14,828)	(12,945)	(28,983)	(24,930)
Balance at end of period	\$78,640	\$66,433	\$78,640	\$66,433

Net signing bonus adjustments from estimated amounts to actual were \$(1.2) million and \$(1.1) million for the three months ended June 30, 2015 and 2014, respectively and \$(2.4) million and \$(2.1) million, respectively, for the six months ended June 30, 2015 and 2014. Net signing bonus adjustments are netted against additions in the table above. Negative signing bonus adjustments occur when the actual gross margin generated by the merchant contract during the first year is less than the estimated gross margin for that year, resulting in the overpayment of the up-front signing bonus and would be recovered from the relevant salesperson. Positive signing bonus adjustments result from the prior underpayment of signing bonuses and would be paid to the relevant salesperson.

Fully amortized signing bonuses of \$7.8 million and \$6.1 million, respectively, were written off during the three month periods ended June 30, 2015 and 2014 and \$15.0 million and \$12.5 million, respectively, were written off during the six month periods ended June 30, 2015 and 2014. In addition, fully amortized customer deferred acquisition costs of \$4.3 million and \$3.9 million, respectively, were written off during the three months ended June 30, 2015 and 2014 and \$8.9 million and \$7.4 million, respectively, were written off during the six months ended June 30, 2015 and 2014.

The Company believes that no impairment of capitalized customer acquisition costs has occurred as of June 30, 2015.

7. Intangible Assets and Goodwill

Intangible Assets — Intangible assets consisted of the following as of June 30, 2015 and December 31, 2014:

	June 30, 2015			Amortization Life and Method
	Gross Assets (In thousands)	Accumulated Amortization	Net Asset	
Finite Lived Assets:				
Customer relationships	\$175,903	\$28,200	\$147,703	5 to 21 years—proportional cash flow
Merchant portfolios	4,214	3,362	852	7 years—proportional cash flow
Software	61,404	15,723	45,681	3 to 15 years—straight line
Non-compete agreements	6,162	3,416	2,746	3 to 5 years—straight line
Other	6,076	1,005	5,071	5 to 9 years—straight line
	\$253,759	\$51,706	\$202,053	
	December 31, 2014			Amortization Life and Method
	Gross Assets (In thousands)	Accumulated Amortization	Net Asset	
Finite Lived Assets:				
Customer relationships	\$159,925	\$22,011	\$137,914	6 to 21 years—proportional cash flow
Merchant portfolios	4,214	3,161	1,053	7 years—proportional cash flow
Software	58,377	13,300	45,077	1 to 15 years—straight line
Non-compete agreements	5,947	2,830	3,117	5 years—straight line
Other	5,800	408	5,392	5 to 9 years—straight line
	\$234,263	\$41,710	\$192,553	

Amortization expense related to the intangible assets was \$5.1 million and \$2.5 million, respectively, for the three months ended June 30, 2015 and 2014 and \$10.0 million and \$4.8 million, respectively, for the six months ended June 30, 2015 and 2014, respectively. The estimated amortization expense related to intangible assets in twelve-month increments is as follows:

For the Twelve Months Ended June 30,

	(In thousands)
2016	\$19,240
2017	18,214
2018	16,556
2019	15,007
2020	12,594
Thereafter	120,442
	\$202,053

Edgar Filing: HEARTLAND PAYMENT SYSTEMS INC - Form 10-Q

Goodwill — The changes in the carrying amount of goodwill by segment for the six months ended June 30, 2015 and 2014 were as follows (in thousands):

	Payment Processing	Campus Solutions	Heartland School Solutions	Heartland Payroll Solutions	Leaf	Other	Total
Balance, January 1, 2014	\$43,701	\$35,789	\$53,350	\$31,018	\$20,619	\$6,501	\$190,978
Goodwill acquired during the period	—	—	13,592	—	—	2,247	15,839
Other (a)	—	—	—	—	(2,080)	—	(2,080)
Balance, June 30, 2014	43,701	35,789	66,942	31,018	18,539	8,748	204,737
Balance, January 1, 2015	43,701	257,337	64,522	31,018	—	29,134	425,712
Goodwill acquired during the period	—	—	—	21,915	—	27,927	49,842
Other (a)	—	26	—	(2,069)	—	636	(1,407)
Balance, June 30, 2015	\$43,701	\$257,363	\$64,522	\$50,864	\$—	\$57,697	\$474,147

(a) Reflects adjustments to allocations of purchase price after the quarter of acquisition.

The percentage of total reportable segments' assets comprised of goodwill as of June 30, 2015 and 2014 was as follows:

	Percent of Goodwill to Reportable Segments' Total Assets	
	June 30, 2015	June 30, 2014
Payment Processing	7.7%	8.0%
Campus Solutions	52.7%	49.0%
Heartland School Solutions	77.0%	77.2%
Heartland Payroll Solutions	22.2%	18.6%
Leaf	—%	45.6%
Other	59.9%	38.5%

In the fourth quarter of 2014, the Company considered the overlapping cloud-based POS systems in development at recently acquired Heartland Commerce businesses (see Note 3, Acquisitions) and decided that it would stop POS development efforts at Leaf, a previous Heartland Commerce solutions business. This decision caused a significant adverse change in the extent or manner in which the long-lived asset group of Leaf would be used, including Prosper, an internally developed POS software technology. Due to these changes in circumstances, the implied fair value of the Leaf reporting unit was determined to be significantly below its carrying value. This led to a Goodwill impairment charge for the full balance of Leaf goodwill as of December 31, 2014. In the fourth quarter of 2014, the Company recorded pre-tax goodwill and asset impairment charges of \$18.5 million and \$18.9 million, respectively.

8. Processing Liabilities

Processing liabilities result primarily from the Company's card processing activities and include merchant deposits maintained to offset potential liabilities arising from merchant chargebacks. A summary of processing liabilities and loss reserves was as follows at June 30, 2015 and December 31, 2014:

	June 30, 2015 (In thousands)	December 31, 2014
Merchant bankcard processing	\$112,676	\$109,361
Merchant deposits	6,403	6,655
Loss reserves	1,437	3,382

\$120,516

\$119,398

The Company's merchants have the liability for any charges properly reversed by the cardholder through a mechanism known as a chargeback. If the merchant is unable to pay this amount, the Company will be liable to the card brand networks for the reversed charges. The Company has determined that the fair value of its obligation to stand ready to perform is minimal. The Company requires personal guarantees and merchant deposits from certain merchants to minimize its obligation.

The card brand networks generally allow chargebacks within four months after the later of (1) the date the transaction is processed, or (2) the delivery of the product or service to the cardholder. As the majority of the Company's SME merchant transactions involve the delivery of the product or service at the time of the transaction, a reasonable basis for determining an estimate of the Company's exposure to chargebacks is the last four months' processing volume on the SME portfolio, which was \$31.5 billion and \$27.8 billion for the four months ended June 30, 2015 and December 31, 2014, respectively. However, for the four months ended June 30, 2015 and December 31, 2014, the Company was presented with \$14.7 million and \$16.0 million, respectively, in chargebacks by issuing banks. In the six months ended June 30, 2015 and 2014, the Company incurred merchant losses of \$1.9 million and \$1.6 million, respectively, or 0.43 basis points and 0.42 basis points, respectively, on total SME card processing volumes processed of \$44.6 billion and \$38.4 billion, respectively. These losses are included in processing and servicing costs in the Company's Condensed Consolidated Statements of Income.

The loss recorded by the Company for chargebacks associated with any individual merchant is typically small, due both to the relatively small size and the processing profile of the Company's SME merchants. However, from time to time the Company will encounter instances of merchant fraud, and the resulting chargeback losses may be considerably more significant to the Company. The Company has established a contingent reserve for estimated currently existing credit and fraud losses on its Condensed Consolidated Balance Sheets, amounting to \$1.4 million and \$3.4 million at June 30, 2015 and December 31, 2014, respectively. This reserve is determined by performing an analysis of the Company's historical loss experience applied to current processing volumes and exposures.

A summary of the activity in the loss reserve for the three and six months ended June 30, 2015 and 2014 was as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
	(In thousands)			
Beginning balance	\$1,848	\$1,672	\$3,382	\$1,505
Additions to reserve	787	1,191	1,769	2,057
Charges against reserve	(1,198)	(1,101)	(3,714)	(1,800)
Ending balance	\$1,437	\$1,762	\$1,437	\$1,762

9. Accrued Buyout Liability

A summary of the accrued buyout liability was as follows as of June 30, 2015 and December 31, 2014:

	June 30, 2015	December 31, 2014
	(In thousands)	
Vested Relationship Managers and sales managers	\$49,504	\$46,301
Unvested Relationship Managers and sales managers	1,636	1,692
	51,140	47,993
Less current portion	(16,386)	(15,023)
Long-term portion of accrued buyout liability	\$34,754	\$32,970

In calculating the accrued buyout liability for unvested Relationship Managers and sales managers, the Company has assumed that 31% of the unvested Relationship Managers and sales managers will vest in the future, which represents the Company's historical vesting rate. A 5% increase to 36% in the expected vesting rate would have increased the accrued buyout liability for unvested Relationship Managers and sales managers by \$0.2 million at June 30, 2015 and December 31, 2014, respectively.

A summary of the activity in the accrued buyout liability for the three and six months ended June 30, 2015 and 2014 was as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
	(In thousands)			
Beginning balance	\$46,482	\$41,300	\$47,993	\$39,379
Increase in settlement obligation, net	6,933	6,049	12,929	9,845
Buyouts	(2,275) (6,081) (9,782) (7,956
Ending balance	\$51,140	\$41,268	\$51,140	\$41,268

10. Credit Facilities

On September 4, 2014, the Company entered into an amended and restated senior secured credit facility (the "2014 Credit Agreement") with Bank of America, N.A., as administrative agent, and certain lenders who are a party to the 2014 Credit Agreement. This 2014 Credit Agreement replaced the Company's October 2013 Credit Agreement (the "2013 Credit Agreement"). Credit extended under the 2014 Credit Agreement is guaranteed by the Company's subsidiaries and is secured by substantially all of the Company's assets and the assets of the Company's subsidiaries.

The 2014 Credit Agreement provides for a revolving credit facility in the aggregate amount of up to \$400 million (the "2014 Revolving Credit Facility") and a term loan in an initial principal amount of \$375 million (the "2014 Term Credit Facility"). The 2014 Revolving Credit Facility includes up to \$35 million that may be used for the issuance of letters of credit and up to \$35 million that is available for swing line loans. All principal and interest not previously paid on the 2014 Revolving Credit Facility will mature and be due and payable on September 4, 2019. The 2014 Term Credit Facility amortizes on a quarterly basis as follows, with the remaining principal balance due on September 4, 2019: (i) 5% of the initial 2014 Term Credit Facility to be payable in each of the first three years, (ii) 7.5% of the initial 2014 Term Credit Facility to be payable in the fourth year and (iii) 10% of the initial 2014 Term Credit Facility to be payable in the fifth year. The 2014 Term Credit Facility is also subject to mandatory prepayment from the net cash proceeds of certain asset dispositions, casualty or condemnation events, issuance of indebtedness and extraordinary receipts. Subject to the terms and conditions of the 2014 Credit Agreement, without the consent of the then existing lenders (but subject to the receipt of commitments), the 2014 Revolving Credit Facility may be increased and new incremental term loans may be issued in an aggregate principal amount of up to \$150 million for all such increases under the 2014 Revolving Credit Facility and new term loans, subject to certain minimum threshold amounts. On September 4, 2014, the Company borrowed \$375 million under the 2014 Term Credit Facility and used that amount to fund the acquisition of TouchNet (See Note 3, Acquisitions). At June 30, 2015, the Company had \$360.9 million outstanding under the 2014 Term Credit Facility.

The 2014 Credit Agreement contains covenants which include: maintenance of certain leverage and fixed charge coverage ratios; limitations on the Company's indebtedness, liens on the Company's properties and assets, investments in and loans to other business units, the Company's ability to enter into business combinations and asset sales; and certain other financial and non-financial covenants. These covenants also apply to certain Company subsidiaries. The Company was in compliance with these covenants as of June 30, 2015. The Company had \$191.5 million and \$189.5 million outstanding under its 2014 Revolving Credit Facility at June 30, 2015 and December 31, 2014, respectively.

Under the terms of the 2014 Credit Agreement, the Company may borrow, at its option, at interest rates equal to one, two, three or six month adjusted LIBOR rates, or equal to the greater of the prime rate, the federal funds rate plus 0.50% or the adjusted LIBOR rate plus 1%, in each case plus a margin determined by the Company's current leverage ratio.

The weighted average interest rate at June 30, 2015 was 2.5%. Total unamortized fees and direct costs paid for the Company's credit facilities as of June 30, 2015 were \$5.2 million. These costs are being amortized to interest expense over the life of the Credit Agreement.

Heartland Payment Systems, Inc. and Subsidiaries

Notes To Condensed Consolidated Financial Statements—(Continued)

(unaudited)

11. Commitments and Contingencies

Litigation—The Company is involved in ordinary course legal proceedings, which include all claims, lawsuits, investigations and proceedings, including unasserted claims, which are probable of being asserted, arising in the ordinary course of business and otherwise not described below. The Company has considered all such ordinary course legal proceedings in formulating its disclosures and assessments. In the opinion of the Company, based on consultations with outside counsel, material losses in addition to amounts previously accrued are not considered reasonably possible in connection with these ordinary course legal proceedings.

Contingencies—The Company collects and stores sensitive data about its merchant customers and bankcard holders. If the Company's network security is breached or sensitive merchant or cardholder data is misappropriated, the Company could be exposed to assessments, fines or litigation costs that could be material.

Leases—The Company leases various office spaces and certain equipment under operating leases with remaining terms ranging up to 12 years. The majority of the office space lease agreements contain renewal options and generally require the Company to pay certain operating expenses.

Future minimum lease payments for all non-cancelable leases as of June 30, 2015 were as follows:

For the Twelve Months Ended June 30,	Operating Leases (a) (In thousands)
2016	\$15,557
2017	11,699
2018	9,900
2019	8,615
2020	5,918
Thereafter	26,027
Total future minimum lease payments	\$77,716

(a) There were no material capital leases at June 30, 2015.

Rent expense for leased facilities and equipment was \$4.4 million and \$3.1 million, respectively, for the three months ended June 30, 2015 and 2014, and \$9.1 million and \$5.8 million, respectively, for the six months ended June 30, 2015 and 2014.

Commitments—Certain officers of the Company have entered into employee confidential information and non-competition agreements under which they are entitled to severance pay equal to their base salary and medical benefits for one year or two years depending on the officer and a pro-rated bonus in the event they are terminated by the Company other than for cause. The Company paid \$0.6 million under one of these agreements in the six months ended June 30, 2014.

	\$648,369	\$42,440	\$78,107	\$501,795	\$26,027

The Company has agreements with several third-party processors to provide to us on a non-exclusive basis payment processing and transmittal, transaction authorization and data capture services, and access to various reporting tools. The Company's agreements with third-party processors require it to submit a minimum monthly number of transactions or volume for processing. If the Company submits a number of transactions or volume that is lower than the minimum, it is required to pay the third-party processors the fees that they would have received if the Company had submitted the required minimum number or volume of transactions.

The Company has agreements in place with several large telecommunications companies that provide data center services, wide area network connectivity, and voice services that are used by both the Company call center and (b) card payment processing platforms. These providers require both dollar and term commitments for the services they provide. If the Company does not meet the minimum terms, then there is a requirement to pay the remaining commitments.

Interest rates on the 2014 Revolving Credit Facility are variable in nature; however, the Company is party to fixed-pay amortizing interest rate swaps having a remaining notional amount of \$7.5 million. If interest rates were to remain at the June 30, 2015 level, the Company would make interest payments of \$0.1 million this year including net settlements on the fixed-pay amortizing interest rate swaps. The 2014 Revolving Credit Facility is (c) available on a revolving basis until September 4, 2019. While the Company is not contractually obligated to pay \$18.0 million of the outstanding balance of the 2014 Revolving Credit Facility, the Company includes this amount in the Current portion of borrowings on the Condensed Consolidated Balance Sheet since the Company intends to pay this amount in July 2015.

12. Segments

The Company bases its business segments on how it monitors and manages the performance of its operations as determined by the Company's chief operating decision maker or decision making group. The Company's operating segments are strategic business units that offer different products and services. They are managed separately because each business requires different marketing strategies, personnel skill sets and technology.

The Company has the following six reportable segments: (1) Payment Processing, which provides card payment processing and related services to the Company's SME merchants and Network Services Merchants, (2) Campus Solutions, which provides payment processing, integrated commerce solutions, loan services and open- and

closed-loop payment solutions to institutions of higher education, (3) Heartland School Solutions, which provides school nutrition and POS solutions and associated payment solutions to K-12 schools, (4) Heartland Payroll Solutions, which provides payroll processing and related tax filing services, (5) Leaf, which includes the operating losses for Leaf as well as the goodwill and POS asset impairment charges recorded in the fourth quarter of 2014, (see Note 7, Intangible Assets and Goodwill for further details) and (6) Other. The Other segment consists of (a) prepaid and stored-value card solutions provided by Micropayments, (b) loyalty and gift card marketing solutions including loyalty and gift cards provided by Heartland Marketing Solutions, and (c) POS solutions and other adjacent business service applications provided by Heartland Commerce. The individual components of the Other segment do not meet the defined thresholds for being individually reportable segments under applicable accounting guidance.

SME merchants and Network Services merchants are aggregated for financial reporting purposes in the Payment Processing Segment, as they both provide processing services related to bankcard transactions, exhibit similar economic characteristics, and share the same systems to provide services. Campus Solutions includes TouchNet and Educational Computer Systems, Inc. ("ECSI") for financial reporting purposes because they provide similar commerce solutions, exhibit similar economic characteristics, and provide services to a similar higher education customer base, including some client overlap.

Table of Contents

Heartland Payment Systems, Inc. and Subsidiaries

Notes To Condensed Consolidated Financial Statements—(Continued)

(unaudited)

The Company allocates revenues, expenses, assets and liabilities to segments only where directly attributable. The unallocated corporate administration amounts consist primarily of costs attributed to finance, corporate administration, human resources and corporate services. We have reclassified our comparable segment information for consistent presentation in this Quarterly Report on Form 10-Q.

The accounting policies of the operating segments are the same as described in the summary of significant accounting policies. The Company believes the terms and conditions of transactions between the segments are comparable to those which could have been obtained in transactions with unaffiliated parties.

At June 30, 2015 and 2014, 61% and 68%, respectively, of Heartland Payroll Solutions segment's total assets were funds that the Company holds as a fiduciary in its payroll processing services activities primarily for payment to taxing authorities. At June 30, 2015 and 2014, 6% and 24%, respectively, of the Campus Solutions segment's total assets represent funds held for the Company's loan servicing customers related to payment processing services provided for federal student loan billing and processing that are payable to higher education institutions and other businesses. See Note 7, Intangible Assets and Goodwill for goodwill as a percentage of the reportable segments' total assets.

A summary of the Company's segments as of and for the three and six months ended June 30, 2015 and 2014 was as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014

13. Earnings Per Share

The Company presents earnings per share data following the established standards for the computation and presentation of basic and diluted earnings per share data. Under these standards, the dilutive effect of stock options is excluded from the calculation of basic earnings per share but included in diluted earnings per share. The following is a reconciliation of the amounts used to calculate basic and diluted earnings per share:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
	(In thousands, except per share)			
Basic:				
Net income attributable to Heartland	\$ 20,906	\$ 17,452	\$ 38,144	\$ 33,192
Weighted average common stock outstanding	36,620	35,936	36,527	36,350
Earnings per share	\$ 0.57	\$ 0.49	\$ 1.04	\$ 0.91
Diluted:				
Net income attributable to Heartland	\$ 20,906	\$ 17,452	\$ 38,144	\$ 33,192
Basic weighted average common stock outstanding	36,620	35,936	36,527	36,350
Effect of dilutive instruments:

Earnings per share	\$0.56	\$0.48	\$1.03	\$0.89
--------------------	--------	--------	--------	--------

14. Fair Value of Financial Instruments

The Company applies a fair value framework in order to measure and disclose its financial assets and liabilities, which include fixed income equity securities, interest swap derivatives and certain other financial instruments. The Company determines fair value based on quoted prices when available or through the use of alternative approaches when market quotes are not readily accessible or available.

28

Table of Contents

Heartland Payment Systems, Inc. and Subsidiaries

Notes To Condensed Consolidated Financial Statements—(Continued)

(unaudited)

The Company's framework for measuring fair value provides a three-level hierarchy, which prioritizes the factors (inputs) used to calculate the fair value of assets and liabilities as follows:

Level 1 inputs are unadjusted quoted prices, such as a New York Stock Exchange closing price, in active markets for identical assets. Level 1 is the highest priority in the hierarchy.

Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as other significant inputs that are observable at commonly quoted intervals, such as interest rates, foreign exchange rates, and yield curves.

Level 3 inputs are unobservable and are based on the Company's assumptions due to little, if any, observable market information. Level 3 is the lowest priority in the hierarchy.

For the six months ended June 30, 2015, there have been no transfers between Level 1 and Level 2 categories. The following tables provide the assets and liabilities carried at fair value measured on a recurring basis as of June 30, 2015 and at December 31, 2014:

June 30, 2015	Total (In thousands)	Fair Value Measurement Category		
		Level 1	Level 2	Level 3

similar expressions.

Forward-looking statements involve risks, uncertainties and assumptions. Actual results may differ materially from those expressed in the forward-looking statements. You should understand that many important factors, in addition to those

30

Table of Contents

discussed elsewhere in this report, could cause our results to differ materially from those expressed in the forward-looking statements. Certain of these factors are described in Item 1A. Risk Factors of the 2014 Form 10-K and include, without limitation, unauthorized disclosure of user data through breaches of our computer systems or otherwise, our competitive environment, the business cycles and credit risks of our merchants, chargeback liability, merchant attrition, problems with our sponsor banks, our relationships with third-party bankcard payment processors, our inability to pass increased interchange fees, assessments, and transaction fees along to our merchants, economic conditions, systems failures and government regulation.

Overview

General

Our primary business is to provide payment processing services to merchants throughout the United States. This involves providing end-to-end electronic payment processing services to merchants by facilitating the exchange of information and funds between them and cardholders' financial institutions. To accomplish this, we undertake merchant set-up and training, transaction authorization and electronic draft capture, clearing and settlement, merchant accounting, merchant assistance and support, and risk management. Our card-accepting customers primarily fall into two categories: our core small and mid-sized merchants (referred to as "Small and Midsized Enterprises," or "SME merchants") and Network Services merchants, predominately petroleum industry merchants of all sizes (referred to as "Network Services merchants").

We provide additional services such as:

- Integrated commerce solutions, payment processing, higher education loan services and open and closed-loop payment solutions to higher-education institutions through Campus Solutions,
- School nutrition, point-of-sale solutions ("POS"), and associated payment solutions, including online prepayment solutions, to kindergarten through 12th grade ("K-12") schools through Heartland School Solutions,
- Full-service payroll processing and related tax filing services throughout the United States provided by Heartland Payroll Solutions, and
- Other, including (1) prepaid and stored-value card solutions throughout the United States and Canada provided by Micropayments, (2) POS solutions and other adjacent business service applications provided by Heartland Commerce, and (3) marketing solutions including loyalty and gift cards which we provide through Heartland Marketing Solutions.

Payment Processing

At June 30, 2015, we provided our card payment processing services to 175,359 active SME merchants located across the United States. This compares to 169,831 active SME merchants at December 31, 2014 and 169,167 active SME merchants at June 30, 2014. At June 30, 2015, we provided card payment processing services to approximately 2,938 Network Services merchants with approximately 43,519 locations compared to approximately 1,989 merchants and 43,086 locations at June 30, 2014. The increase in the number of Network Services merchants and locations in the six months ended June 30, 2015 primarily reflects adding smaller-sized merchants (merchants with single or few locations), predominantly in the petroleum industry. According to The Nilson Report, in 2014 we were the 5th largest merchant acquirer in the United States ranked by transaction count and the 9th largest merchant acquirer by processed dollar volume, which consisted of Visa and MasterCard credit and debit cards, as well as other credit cards such as American Express, UnionPay, Discover, Diners Club, Carte Blanche, JPB, EBT, etc. These rankings represented 3.8 billion transactions and 2.9% of the total U.S. bankcard processed dollar volume.

Our total card processing volume for the three months ended June 30, 2015 was \$30.4 billion, a 7.3% increase from the \$28.3 billion processed during the three months ended June 30, 2014. Our total card processing volume for the six months ended June 30, 2015 was \$56.4 billion, a 6.6% increase from the \$52.9 billion processed during the six months ended June 30, 2014. Our SME card processing volume for the six months ended June 30, 2015 was \$44.6

billion, an increase of 16.1% over the six months ended June 30, 2014. This increase in processing volume reflects same store sales growth and the addition of SME merchants whose processing volume exceeded that of merchants who attrited during the year. The increase in SME processing volume also reflects the impact of the new American Express Card Acceptance Program (referred to as "OptBlue") to new and existing merchants. We converted a majority of our existing merchants processing under the former sales and servicing agreement with American Express to OptBlue during the third quarter of 2014. Our card processing volume for the three and six months ended June 30, 2015 also includes \$6.6 billion and \$11.8 billion, respectively, of settled volume for Network Services merchants, compared to \$7.9 billion and \$14.5 billion, respectively, for the three and six months ended June 30, 2014. The decrease in Network Services card processing volume reflects lower volume at our petroleum industry customers. Card processing volume for the three and six months ended June 30, 2015 and 2014 was as follows:

Table of Contents

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
	(In millions)			
SME merchants	\$23,821	\$20,446	\$44,582	\$38,409
Network Services merchants	6,604	7,898	11,803	14,466
Total card processing volume (a)	\$30,425	\$28,344	\$56,385	\$52,875

(a) Card processing volume includes volume for credit and signature debit transactions.

Merchant attrition is expected in the card payment processing industry in the ordinary course of business. We experience attrition in merchant card processing volume resulting from several factors, including business closures, transfers of merchants' accounts to our competitors and account closures that we initiate due to heightened credit risks. We measure SME processing volume attrition relative to all SME merchants that were processing with us in the same month a year earlier. During the three and six months ended June 30, 2015, we experienced 9.8% and 9.7% average annualized attrition in our SME card processing volume compared to an average net volume attrition of 12.7% for the year ended December 31, 2014.

In our SME business, we measure same store sales growth, or contraction, as the change in card processing volume for all card merchants that were processing with us in the same month a year earlier. During the three months ended June 30, 2015, same store sales grew 3.4% on average, compared to growth of 2.4% in the quarter ended June 30, 2014 and 2.0% growth on average in all of 2014. Same store sales growth or contraction results from the combination of the increasing or decreasing use by consumers of bankcards for the purchase of goods and services at the POS, and sales growth or contraction experienced by our retained SME merchants. Generally, our same store sales experience has tracked with the overall economic conditions in the industries we serve. The following table compares our same store sales growth/(contraction) during 2015 and 2014:

Same Store Sales Growth (Contraction)	2015	2014
First Quarter	4.4%	(0.2)%
Second Quarter	3.4%	2.4%
Third Quarter		1.8%
Fourth Quarter		3.9%
Full Year		2.0%

We measure the overall production of our sales force by new gross margin installed, which reflects the expected annual gross profit from a merchant contract after deducting processing and servicing costs associated with that revenue. We measure installed margin primarily for our SME card processing, payroll processing and loyalty and gift card marketing businesses. Our newly installed gross margin for the three and six months ended June 30, 2015 increased 14.6% and 12.1% compared to the three and six months ended June 30, 2014. We attribute this increase in newly installed gross margin to higher volumes and margins at newly installed merchants and improved individual productivity achieved by our salespersons as well as growth in our sales force. Our combined Relationship Managers, Territory Managers and Senior Product Advisors ("SPA") totaled 1,157 and 985 at June 30, 2015 and December 31, 2014, respectively, and 922 at June 30, 2014. We expect to drive increases in year-over-year installed margin in future periods primarily by increasing the number of Relationship Managers, Territory Managers and SPAs.

The card revenue we earn in our SME business is recurring in nature, as we typically enter into three-year service contracts with our card processing SME merchants that, in order to qualify for the agreed-upon pricing, require the merchant to achieve card processing volume minimums. Our SME revenue is generated primarily from payment processing fees, which are a combination of a fee equal to a percentage of the dollar amount of each transaction we process plus a flat fee per transaction. We make mandatory payments of interchange fees to the card issuer through the card networks and dues, assessments and other network fees to Visa, MasterCard, American Express and Discover.

Our SME gross card processing revenue is largely driven by the Visa and MasterCard volume processed by our merchants. We also realize card processing revenues from processing transactions for our SME merchants accepting American Express and from processing Discover transactions.

In contrast to SME card processing revenues, revenues from our Network Services merchants are largely driven by the number of transactions we process (whether settled, or only authorized), not our processing volume, as the merchants which comprise Network Services' customer base pay on a per transaction basis for processing services. The number of Network Services transactions increased in 2015 primarily due to an increase in the number of transactions at our large petroleum merchants and the addition of smaller-size merchants.

Table of Contents

Additionally, we provide authorization, settlement and account servicing services on our front and back-end systems for American Express transactions for SME merchants and merchants originally signed to American Express by other processors. For those services we receive compensation from American Express on a per transaction basis. We converted a majority of our existing merchants processing under the former sales and servicing agreement with American Express to OptBlue during the third quarter of 2014. The number of transactions we processed for Network Services merchants and American Express for the three and six months ended June 30, 2015 and 2014 were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
	(In thousands)			
Network Services merchants:				
Settled	308,788	276,072	568,398	510,016
Authorized	617,576	625,644	1,157,844	1,189,897
Total Network Services	926,364	901,716	1,726,242	1,699,913
American Express (a)	273	8,262	518	15,762
Total	926,637	909,978	1,726,760	1,715,675

(a) Includes only those transactions not eligible for residual compensation

Our ability to manage our front-end authorization systems, HPS Exchange, VAPS and NWS, provides us greater control of the electronic transaction process, allows us to offer our merchants a differentiated product offering, and offers economies of scale that we expect will increase our long-term profitability. During the three months ended June 30, 2015 and 2014, approximately 97% and 96% of our SME transactions were processed through HPS Exchange. All of our Network Services transactions were processed through VAPS or NWS.

We provide clearing, settlement and merchant accounting services through our own internally developed back-end processing system, Passport. Passport enables us to customize these services to the needs of our Relationship Managers and merchants. At both June 30, 2015 and 2014, substantially all of our SME merchants were processing on Passport and all Network Services settled transactions were processed on Passport.

Campus Solutions

Campus Solutions provides payment processing, integrated commerce solutions, higher education loan services and open- and closed-loop payment solutions to campuses throughout the United States and Canada.

We provide a suite of solutions to support administrative services for higher education including student loan payment processing, delinquency and default services, refund management, tuition payment plans, electronic billing and payment, tax document services, and business outsourcing. Our OneCard product enables personal identification, door access, cashless vending and laundry transactions, meal plans and cashless printing at campus facilities. Our Give Something Back Network adds internet and phone accessible closed-loop debit card based financial services to the students, faculty, staff and local community merchants of an educational institution.

On September 4, 2014, we acquired TouchNet Information Systems, Inc. ("TouchNet"), an integrated commerce solutions provider to higher-education institutions. TouchNet became a part of our Campus Solutions business. See "—Liquidity and Capital Resources — Acquisitions" for additional information on this transaction. TouchNet added over 600 higher education clients serving over six million students which is nearly one-third of higher education enrollment in the United States.

As of June 30, 2015, we provided services to more than 3,400 colleges and universities serving over 12 million students and borrowers. Annually we support approximately \$24.5 billion in higher education payments, 26.5 million payment transactions, 5 million tax documents, and over \$650 million in annual reimbursements.

Heartland School Solutions

We provide school nutrition, POS solutions, and associated payment solutions including online prepayment, to K-12 schools throughout the United States. At June 30, 2015 and December 31, 2014, our Heartland School Solutions business provided services to more than 34,000 public and private schools, respectively. Our Heartland School Solutions business has been built through a series of six acquisitions, including the April 2014 acquisition of MCS Software. This acquisition continues the expansion of our market-leading position in the K-12 school nutrition and POS technology industry. The more than 34,000 K-12 schools that Heartland School Solutions serves nationwide, represents a 35% share of the public schools in the U.S.

Table of Contents

Heartland Payroll Solutions

We provide payroll processing services throughout the United States. At June 30, 2015, we processed payroll for 33,384 customers, an increase of 32.5% from 25,196 payroll customers at June 30, 2014. In the six months ended June 30, 2015, we installed 3,811 new payroll processing customers. We operate a comprehensive payroll management platform, which streamlines all aspects of the payroll process to enable time and cost savings. We consider our payroll platform to be state of the art enabling us to process payroll on a large scale and provide customizable solutions for businesses of all sizes.

On February 27, 2015, we purchased the stock of Payroll 1, Inc. ("Payroll 1") for a \$30.0 million cash payment, plus net working capital. The purchase price was financed by the 2014 Revolving Credit Facility. The acquisition of Payroll 1 expanded our existing payroll processing business and customer base by adding 6,573 customers at acquisition.

Heartland Commerce

We provide the hospitality and retail industry with leading-edge POS solutions, payments processing capabilities and other adjacent business service applications through our Heartland Commerce business. Heartland Commerce is comprised of Xpient Solutions, LLC ("Xpient" acquired in October 2014), Merchant Software Corporation (referred to as "Liquor POS" acquired in February 2014), Automation, Inc. (acquired in January 2015 and d/b/a "pcAmerica") and Dinerware, Inc. ("Dinerware" acquired in February 2015). See "— Liquidity and Capital Resources — Acquisitions" for more detail on these acquisitions.

In the fourth quarter of 2014, management considered the overlapping cloud-based POS systems in development at acquired Heartland Commerce businesses and decided that it would stop POS development efforts at Leaf Acquisition, LLC ("Leaf"), a previous Heartland Commerce business. This decision caused a significant adverse change in the extent or manner in which the long-lived asset group of Leaf would be used, including Prosper, an internally developed POS software technology. Due to these changes in circumstances, the implied fair value of the Leaf reporting unit was determined to be significantly below its carrying value. This led to a Goodwill Impairment charge for the full balance of Leaf Goodwill as of December 31, 2014. In the fourth quarter of 2014, we recorded pre-tax Goodwill and Asset Impairment charges of \$18.5 million and \$18.9 million, respectively. Leaf's operations lost \$1.2 million, or \$0.02 per share, in the three months ended June 30, 2015 compared to \$2.8 million, or \$0.05 per share, in the prior year second quarter. As of June 30, 2015, losses from Leaf have concluded.

Second Quarter of 2015 Financial Results

For the three months ended June 30, 2015, we recorded net income of \$20.9 million, or \$0.56 per share, compared to \$17.5 million, or \$0.48 per share, in the three months ended June 30, 2014. Our financial results for the three months ended June 30, 2015, as compared to the three months ended June 30, 2014, reflect the benefits of 27.9% year-over-year growth in net revenue partially offset by increases in all expense categories including increases of 31.1% in general and administrative expenses and 23.3% in processing and servicing costs.

Results for the three months ended June 30, 2014 include out-of-period adjustments decreasing our revenue and increasing bad debt expense (included in Processing and Servicing in our Condensed Consolidated Statements of Income) by \$1.4 million and \$0.9 million, respectively. These adjustments related to immaterial errors that originated in 2013 in our Heartland School Solutions business. These adjustments included revenue which was incorrectly recorded in prior periods and a reassessment of the collectability of certain customer accounts receivable. These out-of-period adjustments reduced earnings before income taxes and net income in the second quarter of 2014 by \$2.3 million and \$1.4 million, respectively, and reduced diluted earnings per share by \$0.04.

Our income from operations, which we also refer to as operating income, increased \$8.5 million, or 28.4%, to \$38.4 million for the three months ended June 30, 2015, from \$29.9 million for the three months ended June 30, 2014. Our operating margin, which we measure as operating income divided by net revenue, was 18.8% for the three months

ended June 30, 2015 and June 30, 2014. Results for the three months ended June 30, 2015 and 2014 include losses from operations of \$1.2 million and \$2.8 million, respectively, for Leaf. Excluding the operating losses from Leaf, our operating margin for the three months ended June 30, 2015 and 2014 was 19.4% and 20.6%, respectively. Our operating income and operating margin for the three months ended June 30, 2014 were also impacted by the out-of-period adjustments recorded by Heartland School Solutions.

The following is a summary of our financial results for the three months ended June 30, 2015:

Net revenue, which we define as total revenues less interchange fees and dues, assessments and fees, increased \$44.5 million, or 27.9%, from \$159.4 million in the three months ended June 30, 2014 to \$203.9 million in the three months ended June 30, 2015. The increase in net revenue reflects \$24.5 million and 15.4% growth relating

Table of Contents

to our 2014 and 2015 acquisitions. The remaining \$20.0 million, or 12.5%, organic increase in net revenue reflects the following:

Increased Payment Processing net revenue of \$13.3 million, or 11.3%, which reflects growth in SME processing volume. We earn percentage-based revenues on our SME processing volume. During the three months ended June 30, 2015, our SME processing volume increased 16.5% to \$23.8 billion from \$20.4 billion during the three months ended June 30, 2014. The year-over-year increase reflects same store sales growth and the addition of SME merchants whose processing volume and net revenue exceeded that of merchants who attrited in the same period. The increase in SME processing volume also reflects the conversion of new and existing merchants to OptBlue. We converted a majority of our existing merchants to OptBlue during the third quarter of 2014.

Organic increases in revenues across all other business segments including Heartland School Solutions, Heartland Payroll Solutions, Campus Solutions and Micropayments. These organic increases are further detailed in “— Results of Operations — Three Months Ended June 30, 2015 Compared to Three Months Ended June 30, 2014.”

Our Processing and servicing expense increased 23.3% from \$67.0 million for the three months ended June 30, 2014 to \$82.7 million for the three months ended June 30, 2015. The increase in processing and servicing expenses includes a \$6.8 million increase from our 2014 and 2015 acquisitions. The remaining increase of \$8.9 million is attributable to increased costs associated with processing and servicing higher SME bankcard processing volume, increased sales and incentive compensation, increased card equipment costs and increased cost of sales and servicing related to higher Heartland Payroll Solutions, Campus Solutions, and Micropayments revenues. Partially offsetting the growth in processing and servicing expenses is a decrease of \$0.9 million in bad debt expense associated with the out-of-period adjustment for Heartland School Solutions recorded in the three months ended June 30, 2014. There was also a decrease in pass through installation services expense of \$1.4 million associated with a large school district customer in 2014 that did not repeat in 2015.

Our General and administrative expenses increased 31.1% from \$43.4 million in the three months ended June 30, 2014 to \$56.9 million in the three months ended June 30, 2015. The increase in General and administrative expenses includes \$10.4 million from our 2014 and 2015 acquisitions. The remaining increase of \$3.1 million reflects higher personnel expense including incentive and share-based compensation increases. General and administrative expenses also increased due to continued investment in new growth initiatives and critical strategic areas including marketing, corporate and IT security initiatives.

See “— Results of Operations — Three Months Ended June 30, 2015 Compared to Three Months Ended June 30, 2014” for a more detailed discussion of our second quarter financial results.

Critical Accounting Estimates

The discussion and analysis of our financial condition and results of operations are based on our condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. These condensed consolidated financial statements are unaudited. In our opinion, the unaudited condensed consolidated financial statements include all normal recurring adjustments necessary for a fair presentation of our financial position at June 30, 2015, our results of operations, our changes in equity and our cash flows for the six months ended June 30, 2015 and 2014. Results of operations reported for interim periods are not necessarily indicative of the results to be expected for the year ended December 31, 2015. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses. Actual results could differ from those estimates. Our significant accounting policies are more fully described in Note 2 to our condensed consolidated financial statements included elsewhere in this report and in our 2014 Form 10-K.

Our critical accounting estimates and judgments have not changed materially from those reported in Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations in our 2014 Form 10-K.

Table of Contents

Payment Processing

Payment Processing net revenue increased \$13.4 million, or 11.3%, from \$117.9 million in the three months ended June 30, 2014 to \$131.3 million in the three months ended June 30, 2015. This increase was driven by a \$12.7 million or 12.1% increase in SME net revenue, reflecting a 16.5% increase in SME processing volume from \$20.4 billion in the three months ended June 30, 2014 to \$23.8 billion in the three months ended June 30, 2015. The year-over-year increase reflects same store sales growth and the addition of SME merchants whose processing volume and net revenue exceeded that of merchants who attrited in the same period. This increase in processing volume also reflects the conversion of new and existing merchants to OptBlue. We converted a majority of our existing merchants processing under the former sales and servicing agreement with American Express to OptBlue during the third quarter of 2014. Our SME processing volume includes processing volumes for merchants in our Heartland School Solutions, Campus Solutions, and Other businesses. However, net revenue related to that processing volume is included in the net revenue reported for those businesses.

Campus Solutions

Campus Solutions net revenue increased \$15.6 million, or 170.9%, from \$9.2 million in the three months ended June 30, 2014 to \$24.8 million in the three months ended June 30, 2015. The increase in Campus Solutions net revenue included \$13.8 million of revenue added by TouchNet in the three months ended June 30, 2015. The remaining increase in Campus Solutions net revenue was primarily due to higher student loan servicing related revenue.

Heartland School Solutions

Heartland School Solutions net revenue increased \$2.7 million, or 20.5%, from \$13.1 million in the three months ended June 30, 2014 to \$15.8 million in the three months ended June 30, 2015. The increase in Heartland School Solutions net revenue for the three months ended June 30, 2015 was due primarily to an increase in transaction processing net revenue reflecting growth in the number of parents who are adopting our electronic payment options. Net revenue for the three months ended June 30, 2014 included \$1.4 million of pass-through installation services revenue associated with a large school district customer in 2014 that did not repeat in 2015, and an out-of-period adjustment reducing net revenue for the period by \$1.4 million. See "—Overview—Second Quarter of 2015 Financial Results" for discussion of the out-of-period adjustment.

Heartland Payroll Solutions

Heartland Payroll Solutions net revenue increased \$4.9 million, or 42.4%, from \$11.6 million in the three months ended June 30, 2014 to \$16.5 million in the three months ended June 30, 2015. The increase in payroll processing net revenue included \$3.2 million of net revenue added by Payroll 1. The remaining organic increase of \$1.7 million and 14.6% is primarily due to a 6.4% increase in payroll processing customers (excluding 6,578 customers added by Payroll 1) from 25,196 at June 30, 2014 to 26,806 at June 30, 2015, as well as an overall increase in payroll processing revenue per customer.

Other

Other net revenue increased \$7.9 million, or 104.3%, from \$7.6 million in the three months ended June 30, 2014 to \$15.5 million in the three months ended June 30, 2015. The increase in other revenue included \$6.8 million of net revenue added by Xpient, pcAmerica, and Dinerware (which are all part of Heartland Commerce). The remaining organic increase of \$1.1 million, or 14.5%, primarily reflects growth in Micropayments revenue which reflects higher equipment sales and payment processing for unattended payment locations such as laundry facilities, kiosks and vending machines.

Total expenses. Total expenses increased \$35.9 million, or 27.8%, from \$129.5 million in the three months ended June 30, 2014 to \$165.4 million in the three months ended June 30, 2015, due to increases in processing and servicing,

depreciation and amortization, customer acquisition costs and general and administrative expenses. The increases in expenses reflect acquisitions and organic growth and are further discussed below. Total expenses represented 81.2% of net revenue in the three months ended June 30, 2015 and June 30, 2014, respectively.

Processing and servicing expense increased \$15.7 million, or 23.3%, from \$67.0 million for the three months ended June 30, 2014 to \$82.7 million for the three months ended June 30, 2015. The increase in processing and servicing expenses includes a \$6.8 million increase from our 2014 and 2015 acquisitions. The remaining increase of \$8.9 million was attributable to increased costs associated with processing and servicing higher SME bankcard processing volume, increased sales and incentive compensation, increased card equipment costs and increased organic cost of sales and servicing related to higher Heartland Payroll Solutions, Campus Solutions, and Micropayments revenues. Partially offsetting the growth in processing and servicing expenses is a decrease of \$0.9 million in bad debt expense associated with an out-of-period adjustment for Heartland School Solutions. See "[—Overview—Second Quarter of 2015 Financial Results](#)" for discussion of these adjustments. There was also a decrease in pass through installation services expense of \$1.4 million associated with a large school district customer in 2014 that did not repeat in 2015. As a percentage of net revenue, processing and servicing expense decreased to 40.6% for the three months ended June 30, 2015, compared with 42.1% for the three months ended June 30, 2014.

Table of Contents

Customer acquisition costs for the three months ended June 30, 2015 increased \$2.3 million, or 19.1%, from \$12.4 million for the three months ended June 30, 2014 to \$14.7 million for the three months ended June 30, 2015. As reflected in the table below, this increase reflects higher amortization on increased capitalized deferred acquisition costs resulting from improved levels of new installed margin and the impact of subsequent changes in the estimated accrued buyout liability due to lower merchant attrition and same-store sales growth. As a percentage of net revenue, customer acquisition costs decreased to 7.2% for the three months ended June 30, 2015 compared with 7.8% for the three months ended June 30, 2014.

Customer acquisition costs for the three months ended June 30, 2015 and 2014 included the following components (in thousands):

	Three Months Ended June		Change from		
	30, 2015	2014	Prior Year Amount	%	
Amortization of signing bonuses, net	\$8,627	\$7,524	\$1,103	14.7	%
Amortization of capitalized customer deferred acquisition costs	6,201	5,421	780	14.4	%
Increase in accrued buyout liability	6,933	6,049	884	14.6	%
Capitalized customer deferred acquisition costs	(7,026)	(6,626)	(400)	6.0	%
Total customer acquisition costs	\$14,735	\$12,368	\$2,367	19.1	%

Depreciation and amortization expense included in the consolidated income statement for the three months ended June 30, 2015 and 2014, by financial statement line item is as follows (in thousands):

	Three Months Ended June		Change from		
	30, 2015	2014	Prior Year Amount	%	
Processing and servicing					
Amortization – capitalized system development	\$3,465	\$3,659	\$(194)	(5.3)	%
Other	912	652	260	39.9	%
Total processing and servicing	4,377	4,311	66	1.5	%
Depreciation and amortization					
Acquired intangibles	5,135	2,600	2,535	97.5	%
Amortization – capitalized system development	4,080	2,647	1,433	54.1	%
Other	1,953	1,432	521	36.4	%
Total depreciation and amortization	11,168	6,679	4,489	67.2	%
Total depreciation and amortization	\$15,545	\$10,990	\$4,555	41.4	%

Total depreciation and amortization expenses increased \$4.5 million, or 41.4%, from \$11.0 million in the three months ended June 30, 2014 to \$15.5 million in the three months ended June 30, 2015. The increase in total depreciation and amortization expenses in the three months ended June 30, 2015 includes increases in acquired intangibles amortization of \$2.5 million due to our 2014 and 2015 acquisitions. See “— Liquidity and Capital Resources — Acquisitions” for further information on these acquisitions. The increase in total depreciation and amortization expense also reflects a \$1.2 million increase in capitalized system development amortization in the three months ended June 30, 2015.

Most of our investments in information technology have supported the continuing development of our product, servicing and sales-related initiatives. Depreciation and amortization expense recorded on these investments is included in processing and servicing expense. Additionally, we capitalized salaries, fringe benefits and other expenses incurred by our employees who worked on internally developed software projects and outsourced programming. Amortization does not begin on the internally developed software until the project is complete and placed in service, at which time we begin to amortize the asset over expected lives of three to seven years. The amount capitalized decreased from \$10.6 million in the three months ended June 30, 2014 to \$9.6 million in the three months ended June

30, 2015. The total amount of capitalized costs for projects placed in service in the three months ended June 30, 2015 and 2014 was \$11.5 million and \$9.1 million, respectively.

General and administrative expenses increased \$13.5 million, or 31.1%, from \$43.4 million in the three months ended June 30, 2014 to \$56.9 million in the three months ended June 30, 2015. The increase in General and administrative expenses includes \$10.4 million from our 2014 and 2015 acquisitions. The remaining increase of \$3.1 million reflects higher personnel expense including incentive and share-based compensation increases. General and administrative expenses also increased due to continued investment in new growth initiatives and critical strategic areas including marketing, corporate and IT security initiatives. General and administrative expenses as a percentage of net revenue for the three months ended June 30, 2015 was 27.9%, an increase from 27.2% for the three months ended June 30, 2014.

Table of Contents

Income from operations. Our income from operations, which we also refer to as operating income, increased \$8.5 million, or 28.4%, to \$38.4 million for the three months ended June 30, 2015, from \$29.9 million for the three months ended June 30, 2014. Our Operating Margin, which we measure as operating income divided by net revenue, was 18.8% for the three months ended June 30, 2015 and June 30, 2014, respectively. Results for the three months ended June 30, 2015 and 2014 include losses from operations of \$1.2 million and \$2.8 million, respectively, for Leaf.

Excluding the operating losses from Leaf, our Operating Margin for the three months ended June 30, 2015 and 2014 was 19.4% and 20.6%, respectively. Our operating income and operating margin for the three months ended June 30, 2014 was also impacted by the out-of-period adjustments recorded by Heartland School Solutions.

Interest expense. Interest expense for the three months ended June 30, 2015 was \$3.9 million, compared with \$1.3 million for the three months ended June 30, 2014. The increase in interest expense reflects higher borrowings under our 2014 Revolving Credit Facility (as defined in "—Liquidity and Capital Resources—Credit Facilities" herein) as well as interest expense on our 2014 Term Credit Facility (as defined in "—Liquidity and Capital Resources—Credit Facilities" herein) that was used to fund the TouchNet Acquisition. See "—Liquidity and Capital Resources — Credit Facilities" for more detail on our borrowings.

Income taxes. Income tax expense for the three months ended June 30, 2015 was \$13.3 million, reflecting an effective tax rate of 39.0%. This compares to income tax expense of \$12.6 million for the three months ended June 30, 2014, and an effective tax rate of 43.1%. The decrease in the effective tax rate for the three months ended June 30, 2015, as compared to the three months ended June 30, 2014, was due to the Company's ability to utilize the losses generated from Leaf against consolidated taxable income during the three months ended June 30, 2015.

Net income attributable to Heartland. As a result of the above factors, we recorded net income of \$20.9 million for the three months ended June 30, 2015. This compares to a net income of \$17.5 million for the three months ended June 30, 2014.

Results of Operations

Six Months Ended June 30, 2015 Compared to Six Months Ended June 30, 2014

The following table shows certain income statement data as a percentage of net revenue for the periods indicated (in thousands):

	Six Months Ended June 30, 2015	% of Net Revenue	Six Months Ended June 30, 2014	% of Net Revenue	Change Amount	%

Table of Contents

Revenue. The following tables summarize total revenue and total net revenue (which we define as total revenue less interchange fees and dues, assessments and fees) by segment for the six months ended June 30, 2015 and 2014 (in thousands):

	Six Months Ended June 30,		Change from		
	2015	2014	Prior Year	Amount	
Total revenue:					
Payment Processing	\$1,127,683	\$1,016,417	\$111,266	10.9	%
Campus Solutions	57,894	22,483	35,411	157.5	%
Heartland School Solutions	30,900	27,624	3,276	11.9	%
Heartland Payroll Solutions	33,698	25,808	7,890	30.6	%
Other	27,976	13,810	14,166	102.6	%
Total revenue	\$1,278,151	\$1,106,142	\$172,009	15.6	%

	Six Months Ended June 30,		Change from		
	2015	2014	Prior Year	Amount	
Total net revenue:					
Payment Processing	\$249,625	\$225,194	\$24,431	10.8	%
Campus Solutions	52,021	22,483	29,538	131.4	%
Heartland School Solutions	30,900	27,624	3,276	11.9	%
Heartland Payroll Solutions	33,698	25,808	7,890	30.6	%
Other	27,976	13,810	14,166	102.6	%
Total net revenue	\$394,220	\$314,919	\$79,301	25.2	%

Payment Processing

Payment Processing net revenue increased \$24.4 million, or 10.8%, from \$225.2 million in the six months ended June 30, 2014 to \$249.6 million in the six months ended June 30, 2015. This increase was driven by a \$23.3 million or 11.7% increase in SME net revenue, reflecting a 16.1% increase in SME processing volume from \$38.4 billion in the six months ended June 30, 2014 to \$44.6 billion in the six months ended June 30, 2015. The year-over-year increase reflects same store sales growth and the addition of SME merchants whose processing volume and net revenue exceeded that of merchants who attrited in the same period. This increase in processing volume also reflects the conversion of new and existing merchants to OptBlue. We converted a majority of our existing merchants processing under the former sales and servicing agreement with American Express to OptBlue during the third quarter of 2014. Our reported SME processing volume includes processing volumes for merchants in our Heartland School Solutions, Campus Solutions, and Other businesses. However, net revenue related to that processing volume is included in the net revenue reported for those businesses.

Campus Solutions

Campus Solutions net revenue increased \$29.5 million, or 131.4%, from \$22.5 million in the six months ended June 30, 2014 to \$52.0 million in the six months ended June 30, 2015. The increase in Campus Solutions net revenue included \$26.7 million of revenue added by TouchNet in the six months ended June 30, 2015. The remaining increase in Campus Solutions net revenue of \$2.8 million was due to higher student loan servicing related revenue and increased revenue associated with tax document services.

Heartland School Solutions

Heartland School Solutions net revenue increased \$3.3 million, or 11.9%, from \$27.6 million in the six months ended June 30, 2014 to \$30.9 million in the six months ended June 30, 2015. The increase in Heartland School Solutions net revenue is due primarily to an increase in transaction processing revenue reflecting growth in the number of parents

who are adopting our electronic payment options. Net revenue for the six months ended June 30, 2014 included \$3.6 million of pass-through installation services revenue associated with a large school district customer in 2014 that did not repeat in 2015, and an out-of-period adjustment reducing net revenue by \$1.4 million. See "—Overview—Second Quarter of 2015 Financial Results" for discussion of the out-of-period adjustment.

Heartland Payroll Solutions

Heartland Payroll Solutions net revenue increased \$7.9 million, or 30.6%, from \$25.8 million in the six months ended June 30, 2014 to \$33.7 million in the six months ended June 30, 2015. The increase in payroll processing net revenue included \$4.3 million of net revenue added by Payroll 1. The remaining organic increase of \$3.6 million is primarily due to a 6.4% increase in payroll processing customers (excluding 6,578 customers added by Payroll 1) from 25,196 at June 30, 2014 to 26,806 at June 30, 2015, as well as an overall increase in payroll processing revenue per customer.

Table of Contents

Other

Other net revenue increased \$14.2 million, or 102.6%, from \$13.8 million in the six months ended June 30, 2014 to \$28.0 million. The increase in other revenue included \$11.6 million of net revenue added by Xpient, pcAmerica, and Dinerware (which are all part of Heartland Commerce). The remaining organic increase of \$2.6 million reflects growth in Micropayments revenue which reflects higher equipment sales and payment processing for unattended payment locations such as laundry facilities, kiosks and vending machines.

Total expenses. Total expenses increased \$67.4 million, or 26.1%, from \$258.6 million in the six months ended June 30, 2014 to \$326.0 million in the six months ended June 30, 2015, due to the increases in processing and servicing, depreciation and amortization, customer acquisition costs and general and administrative expenses. The increases in expenses reflect acquisition related and organic growth and are further discussed below. Total expenses represented 82.7% of total net revenue in the six months ended June 30, 2015, compared to 82.1% in the six months ended June 30, 2014.

Processing and servicing expense increased \$24.8 million, or 18.2%, from \$135.7 million for the six months ended June 30, 2014 to \$160.4 million for the six months ended June 30, 2015. The increase in processing and servicing expenses includes a \$12.0 million increase from the 2014 and 2015 acquisitions. The remaining increase of \$12.7 million is attributable to increased costs associated with processing and servicing higher SME bankcard processing volume, increased sales compensation and increased organic cost of sales and servicing related to higher Heartland Payroll Solutions, Campus Solutions, and Micropayments revenues. Partially offsetting the growth in processing and servicing expenses is a decrease of \$0.9 million in bad debt expense associated with an out-of-period adjustment for Heartland School Solutions. See "—Overview—Second Quarter of 2015 Financial Results" for discussion of these adjustments. There was also a decrease in pass through installation services expense of \$3.6 million associated with a large school district customer in 2014 that did not repeat in 2015. As a percentage of net revenue, processing and servicing expense decreased to 40.7% for the six months ended June 30, 2015, compared with 43.1% for the six months ended June 30, 2014.

Customer acquisition costs for the six months ended June 30, 2015 increased \$6.2 million, or 27.3%, from \$22.6 million for the six months ended June 30, 2014 to \$28.8 million for the six months ended June 30, 2015. As reflected in the table below, this increase reflects higher amortization on increased capitalized deferred acquisition costs resulting from improved levels of new installed margin and the impact of subsequent changes in the estimated accrued buyout liability due to lower merchant attrition and same-store sales growth. As a percentage of net revenue, customer acquisition costs increased to 7.3% for the six months ended June 30, 2015 compared with 7.2% for the six months ended June 30, 2014.

Customer acquisition costs for the six months ended June 30, 2015 and 2014 included the following components (in thousands):

	Six Months Ended June 30,		Change from		
	2015	2014	Prior Year	Amount	
Amortization of signing bonuses, net	\$16,952	\$14,654	\$2,298	15.7	%
Amortization of capitalized customer deferred acquisition costs	12,031	10,276	1,755	17.1	%
Increase in accrued buyout liability	12,929	9,845	3,084	31.3	%
Capitalized customer deferred acquisition costs	(13,129)	(12,157)	(972)	8.0	%
Total customer acquisition costs	\$28,783	\$22,618	\$6,165	27.3	%

Table of Contents

Depreciation and amortization expense included in the consolidated income statement for the six months ended June 30, 2015 and 2014, by financial statement line item is as follows (in thousands):

	Six Months Ended June 30,		Change from		
	2015	2014	Prior Year	%	
Processing and servicing					
Amortization – capitalized system development	\$6,700	\$7,042	\$(342)	(4.9))%
Other	1,656	1,321	335	25.4)%
Total processing and servicing	8,356	8,363	(7)	(0.1))%
Depreciation and amortization					
Acquired intangibles	10,097	4,920	5,177	105.2)%
Amortization – capitalized system development	7,800	4,713	3,087	65.5)%
Other	3,944	2,858	1,086	38.0)%
Total depreciation and amortization	21,841	12,491	9,350	74.9)%
Total depreciation and amortization	\$30,197	\$20,854	\$9,343	44.8)%

Total depreciation and amortization expenses increased \$9.3 million, or 44.8%, from \$20.9 million in the six months ended June 30, 2014 to \$30.2 million in the six months ended June 30, 2015. The increase in total depreciation and amortization expenses in the six months ended June 30, 2015 includes increases in acquired intangibles amortization of \$5.2 million due to our 2014 and 2015 acquisitions. See “— Liquidity and Capital Resources — Acquisitions” for further information on these acquisitions. The increase in total depreciation and amortization expense is also due to a \$2.7 million increase in capitalized system development amortization in the six months ended June 30, 2015.

Most of our investments in information technology have supported the continuing development of our product, servicing and sales-related initiatives. Depreciation and amortization expense recorded on these investments is included in processing and servicing expense. Additionally, we capitalized salaries, fringe benefits and other expenses incurred by our employees that worked on internally developed software projects and outsourced programming. Amortization does not begin on the internally developed software until the project is complete and placed in service, at which time we begin to amortize the asset over expected lives of three to seven years. The amount capitalized decreased from \$22.4 million in the six months ended June 30, 2014 to \$18.9 million in the six months ended June 30, 2015. The total amount of capitalized costs for projects placed in service in the six months ended June 30, 2015 and 2014 was \$21.7 million and \$17.0 million, respectively.

General and administrative expenses increased \$27.1 million, or 30.9%, from \$87.9 million in the six months ended June 30, 2014 to \$115.0 million in the six months ended June 30, 2015. The increase in General and administrative expenses includes \$18.1 million from our 2014 and 2015 acquisitions. The remaining increase of \$9.0 million reflects higher personnel expense including incentive and share-based compensation increases. General and administrative expenses also include \$2.9 million relating to the March 2015 sales and servicing organization summit and \$1.6 million of acquisition related expenses. General and administrative expenses also increased due to continued investment in new growth initiatives and critical strategic areas including marketing, corporate and IT security initiatives. General and administrative expenses as a percentage of net revenue for the six months ended June 30, 2015 was 29.2%, an increase from 27.9% for the six months ended June 30, 2014.

Income from operations. Our income from operations, which we also refer to as operating income, increased \$11.9 million to \$68.2 million for the six months ended June 30, 2015, from \$56.3 million for the six months ended June 30, 2014, as a result of an increase in net revenue partially offset by increases in processing and servicing expenses, customer acquisition costs, depreciation and amortization and general and administrative expenses. Our Operating Margin, which we measure as operating income divided by net revenue, was 17.3% for the six months ended June 30, 2015, compared to 17.9% for the six months ended June 30, 2014. Excluding the operating loss from Leaf, our

Operating Margin for the six months ended June 30, 2015 and 2014 was 18.5% and 19.6%, respectively.

Interest expense. Interest expense for the six months ended June 30, 2015 was \$7.5 million, compared with \$2.3 million for the six months ended June 30, 2014. The increase in interest expense reflects higher borrowings under our 2014 Revolving Credit Facility (as defined in "—Liquidity and Capital Resources—Credit Facilities" herein) as well as interest expense on our 2014 Term Credit Facility (as defined in "—Liquidity and Capital Resources—Credit Facilities" herein) that was used to fund the TouchNet Acquisition. See "— Liquidity and Capital Resources — Credit Facilities" for more detail on our borrowings.

Income taxes. Income tax expense for the six months ended June 30, 2015 was \$22.3 million, reflecting an effective tax rate of 36.9%. This compares to income tax expense of \$22.9 million for the six months ended June 30, 2014, and an effective tax rate of 42.1%. The decrease in the effective tax rate for the six months ended June 30, 2015, as compared to the

Table of Contents

six months ended June 30, 2014, was due to the Company's ability to utilize the losses generated from Leaf against consolidated taxable income during the six months ended June 30, 2015. The decrease in the effective tax rate also reflects the partial recognition of deferred tax benefits from past accumulated losses of Leaf due to the generation of future taxable income resulting from the acquisition of Dinerware. The structure of this acquisition along with the corresponding preliminary purchase price allocation resulted in the recording of deferred tax liabilities on finite lived intangible assets that will provide a source of future taxable income.

Net income attributable to Heartland. As a result of the above factors, we recorded net income of \$38.1 million for the six months ended June 30, 2015. This compares to a net income of \$33.2 million for the six months ended June 30, 2014.

Balance Sheet Information

	June 30, 2015	December 31, 2014
	(In thousands)	
Selected Balance Sheet Data

June 30, 2015 Compared to December 31, 2014

Total assets increased \$75.7 million, or 5.5%, to \$1,463.4 million at June 30, 2015 from \$1,387.8 million at December 31, 2014. The increases at June 30, 2015 included \$37.2 million in receivables, \$12.3 million in property and equipment, net, \$48.4 million in goodwill and \$9.5 million in intangible assets. The increases in goodwill and intangible assets are primarily due to the acquisitions of pcAmerica, Dinerware and Payroll 1. These increases were partially offset by a decrease in cash of \$20.2 million to fund these acquisitions. See “— Liquidity and Capital Resources” for further details on these acquisitions.

Our receivables, which increased \$37.2 million or 15.9% from December 31, 2014, are primarily due from our card payment processing merchants and result in large part from our practice of advancing interchange fees to most of our SME merchants during the month and collecting those fees from our merchants at the beginning of the following month, as well as from transaction fees we charge merchants for processing transactions. Total receivables also include amounts due from Discover and American Express bankcard networks for merchant sales transactions. Receivables from the networks are recovered the following business day from the date of processing the transaction. Amounts due from SME bankcard processing merchants and bankcard networks at June 30, 2015 increased \$20.4

million from December 31, 2014.

The amount due to sponsor banks primarily for funding merchant advances was \$54.4 million and \$29.9 million at June 30, 2015 and December 31, 2014, respectively. The liability to sponsor banks is repaid at the beginning of the following month out of the fees we collect from our merchants.

Total borrowings under our credit facility decreased \$7.4 million, or 1.3%, to \$552.5 million at June 30, 2015 from \$559.9 million at December 31, 2014 reflecting our use of cash flow to reduce borrowings. See “—Liquidity and Capital Resources” for discussion of Credit Facilities.

Table of Contents

Total equity increased \$41.3 million from December 31, 2014 primarily due to net income of \$38.1 million. Other increases in total stockholders' equity for the six months ended June 30, 2015 included proceeds received from the exercise of stock options, tax benefits related to those stock option exercises and share-based compensation expense. Partially offsetting the increases in stockholders' equity were payments of cash dividends of \$7.3 million and restricted stock units vested of \$6.6 million during the six months ended June 30, 2015.

Liquidity and Capital Resources

General. Liquidity and capital resource management is a process focused on providing the funding we need to meet our short and long-term cash and working capital needs. We have used our funding sources to build our merchant portfolio, our technology platforms, our service center, and to make acquisitions with the expectation that these investments will generate cash flows sufficient to cover our working capital needs and other anticipated needs for capital.

Our cash requirements include funding payments to salespersons for signing bonuses, residual commissions and residual buyouts, paying interest expense and other operating expenses, including taxes, investing in our technology infrastructure, and making acquisitions of businesses or assets. We expect that our future cash requirements will continue to include amounts used to repurchase our common stock and pay dividends, both as authorized by our Board of Directors.

Other than borrowings we use to fund certain acquisitions and share repurchases, we fund our cash needs primarily with cash flow from our operating activities and through our agreements with our sponsor banks to fund SME merchant advances. We believe that our current cash and investment balances, cash generated from operations and our agreements with our sponsor banks to fund SME merchant advances will provide sufficient liquidity to meet our anticipated needs for operating capital for at least the next twelve months.

Working Capital. Our working capital, defined as current assets less current liabilities, was negative by \$14.5 million at June 30, 2015 compared to positive by \$15.1 million at December 31, 2014. The decrease in working capital is primarily due to the acquisitions of pcAmerica and Dinerware, which were partially funded by operating cash.

At June 30, 2015, we had cash on our Balance Sheet totaling \$50.6 million compared to cash of \$70.8 million at December 31, 2014. Our June 30, 2015 cash balance included approximately \$12.3 million of processing-related cash in transit and collateral, compared to approximately \$17.8 million of processing-related cash in transit and collateral at December 31, 2014.

On June 30, 2015, we had \$208.2 million available to us under our Revolving Credit Facility. See “— Credit Facilities” for more details.

Acquisitions.

Campus Solutions

On September 4, 2014, we completed the acquisition of TouchNet, an integrated commerce solutions provider to higher-education institutions for a cash payment of \$375 million for all outstanding common shares. The purchase was funded primarily with the new five year, \$375 million 2014 Term Credit Facility. See “— Credit Facilities” for further discussion. TouchNet added over 600 higher education clients serving over 6 million students, nearly one-third of the higher education enrollment in the United States, to our Campus Solutions business.

Heartland School Solutions

On April 1, 2014, we purchased the net assets of MCS Software for a \$17.3 million cash payment. The purchase price was financed under our 2013 Credit Facility and from operating cash flows. The acquisition further expands our market-leading position in the K-12 school nutrition and POS technology industry in our Heartland School Solutions business.

Heartland Payroll Solutions

On February 27, 2015, we purchased the stock of Payroll 1 for a \$30.0 million cash payment. The purchase price was financed under our 2014 Revolving Credit Facility. The acquisition of Payroll 1 expanded our existing payroll processing business and customer base by adding 6,526 customers.

Heartland Commerce

On February 11, 2015, we acquired the stock of Dinerware for a cash payment of \$15.0 million. The purchase was funded from a combination of operating cash and financing under the 2014 Revolving Credit Facility. Dinerware provides

Table of Contents

restaurant POS software solutions to the hospitality industry. Dinerware can be found in upscale restaurants, cafes, nightclubs, bar and grills, fast casual restaurants, counter service establishments, quick serve restaurants, hotels, casinos, cafeterias, golf courses, and wineries.

On January 30, 2015, we acquired the net assets of pcAmerica for a cash payment of \$15.0 million. The purchase was funded from a combination of operating cash and financing under the 2014 Revolving Credit Facility. PcAmerica delivers POS systems to streamline daily operations, including customer transactions, inventory tracking, employee labor, and marketing reports to meet the evolving needs of retail stores and restaurants.

On October 31, 2014, we acquired the net assets of Xpient for a cash payment of \$30.0 million. The purchase price was funded from a combination of operating cash and financing under the 2014 Revolving Credit Facility. Xpient provides POS software solutions to enterprise customers primarily in the food service industry.

On February 15, 2014, we purchased the assets of Liquor POS for a \$3.3 million cash payment. The purchase price was financed from operating cash flows. Liquor POS is a leading provider of POS systems to the liquor retail vertical.

Cash Flows Provided By Operating Activities. We reported net cash provided by operating activities of \$77.3 million for the six months ended June 30, 2015, compared to \$34.2 million in the six months ended June 30, 2014
