FORWARD-LOOKING STATEMENTS

This Annual Report contains forward-looking statements. These statements appear in a number of different places in this Annual Report. A forward looking statement is usually identified by the use in this Annual Report of certain terminology such as estimates , projects , expects , intends , believes , plans , anticipates , or their negatives or comparable words. Also look for discussions of strategy that involve risks and uncertainties. Forward-looking statements include statements regarding the outlook for the Company's future operations, forecasts of future costs and expenditures, evaluation of market conditions, the outcome of legal proceedings (if any), the adequacy of reserves, or other business plans. You are cautioned that such forward-looking statements are not guarantees and involve risks, assumptions and uncertainties. The Company's actual results may differ materially from those in the forward-looking statements due to risks facing the Company or due to actual facts differing from the assumptions underlying those forward-looking statements.

Some of these risks and assumptions, in addition to those identified under Item 3, Key Information Risk Factors, include:

general economic and business conditions, including changes in interest rates;

prices and other economic conditions;

natural phenomena;

actions by government authorities, including changes in government regulation;

the Company's relationship with CSAHC;

uncertainties associated with legal proceedings;

technological development;

future decisions by management in response to changing conditions;

the Company's ability to execute prospective business plans; and

misjudgments in the course of preparing forward-looking statements.

The Company advises you that these cautionary remarks expressly qualify in their entirety all forward-looking statements attributable to the Company, the Group, and persons acting on their behalf.

INTRODUCTORY NOTE

In this Annual Report, unless the context indicates otherwise, the Company means China Southern Airlines Company Limited, a joint stock company incorporated in China on March 25, 1995, the Group means the Company and its consolidated subsidiaries, and CSAHC means China Southern Air Holding Company, the Company's parent company which holds a 50.3% controlling interest in the Company.

References to China or the PRC are to the People's Republic of China, excluding Hong Kong, Macau and Taiwan. References to Renminbi or RMB are to the currency of China, references to U.S. dollars , \$ or US\$ are to the currency of the United States of America (the U.S. or United States), and reference to HK\$ is to the currency of Hong Kong. Reference to the Chinese Government is to the national government of China. References to Hong Kong or Hong Kong SAR are to the Hong Kong Special Administrative Region of the People's Republic of China. References to Macau or Macau SAR are to the Macau Special Administrative Region of the People's Republic of China.

The Company presents its consolidated financial statements in Renminbi. The consolidated financial statements of the Company as of December 31, 2004 and 2005 (the Financial Statements) have been prepared in accordance with International Financial Reporting Standards (IFRS) promulgated by the International Accounting Standards Board. IFRS includes International Accounting Standards (IAS) and related interpretations. IFRS differs in certain significant

respects from accounting principles generally accepted in the United States of

Table of Contents

America (U.S. GAAP). Information relating to the nature and effect of such differences is presented in Note 50 to the Financial Statements.

Solely for the convenience of the readers, this Annual Report contains translations of certain Renminbi amounts into U.S. dollars at the rate of US\$1.00 = RMB8.0694, which is the average of the buying and selling rates as quoted by the People's Bank of China at the close of business on December 31, 2005. No representation is made that the Renminbi amounts or U.S. dollar amounts included in this Annual Report could have been or could be converted into U.S. dollars or Renminbi, as the case may be, at any particular rate or at all. Any discrepancies in the tables included herein between the amounts listed and the totals are due to rounding.

GLOSSARY OF AIRLINE INDUSTRY TERMS

In this Annual Report, unless the context indicates otherwise, the following terms shall have the respective meanings set forth below.

Capacity Measurements

available seat kilometers or ASKs	the number of seats made available for sale multiplied by the kilometers flown
available ton kilometers or ATKs	the number of tons of capacity available for the transportation of revenue load (passengers and cargo) multiplied by the kilometers flown

Traffic Measurements

revenue passenger kilometers or RPKs	the number of revenue passengers carried multiplied by the kilometers flown
cargo ton kilometers	the cargo load in tons multiplied by the kilometers flown
revenue ton kilometers or RTKs	the load (passenger and cargo) in tons multiplied by the kilometers flown

Yield Measurements

passenger yield	revenue from passenger operations divided by RPKs
cargo yield	revenue from cargo operations divided by cargo ton kilometers
average yield	revenue from airline operations (passenger and cargo) divided by RTKs
ton	a metric ton, equivalent to 2,204.6 pounds

Load Factors

passenger load factor	RPKs expressed as a percentage of ASKs
overall load factor	RTKs expressed as a percentage of ATKs
breakeven load factor	the load factor required to equate scheduled traffic revenue with operating costs assuming that total operating surplus is attributable to scheduled traffic operations

ITEM 2. OFFER STATISTICS AND EXPECTED TIMETABLE.

Not applicable.

ITEM 3. KEY INFORMATION.

Selected Financial Data

The following tables present selected financial data of the Company as of and for each of the years in the five-year period ended December 31, 2005. The selected data of consolidated statements of operations for each of the years in the three-year period ended December 31, 2005 and consolidated balance sheets as of December 31, 2004 and 2005 have been derived from the consolidated financial statements of the Company, including the related notes, included elsewhere in this Annual Report. The selected IFRS data of consolidated statements of operations for the years ended December 31, 2001 and 2002 and IFRS consolidated balance sheets of December 31, 2001, 2002 and 2003 are derived from the Company's audited consolidated financial statements that are not included in this Annual Report.

The consolidated financial statements of the Company are prepared and presented in accordance with IFRS.

With effect from January 1, 2005, in order to comply with IAS1 and IAS27, the Group has changed its accounting policy relating to the presentation of minority interests. In prior years, minority interests at the balance sheet date were presented separately from liabilities and equity in the consolidated balance sheet. Minority interests in the results of the Group for the year were also separately presented in the consolidated statements of operations as a deduction before arriving at the profit attributable to shareholders (the equity shareholders of the Company). Under the new policy, minority interests are presented as part of equity, separately from interests attributable to the equity shareholders of the Company. Minority interests in the results of the Group for the period are presented on the face of the consolidated statements of operations as an allocation of the total profit or loss for the period between the minority interests and the equity shareholders of the Company. These changes in presentation have been applied retrospectively with comparatives restated.

In addition, with effect from January 1, 2005, the Group has changed its presentation of shares of affiliated companies and jointly controlled entities' taxation in order to comply with IAS 1. In prior years, the Group's share of taxation of affiliated companies and jointly controlled entities accounted for using the equity method was included as part of the Group's income tax in the consolidated statements of operations. In accordance with the implementation guidance in IAS 1, the Group has changed the presentation and includes the share of taxation of affiliated companies and jointly controlled entities accounted for using the equity method in the respective shares of profit or loss reported in the consolidated statements of operations before arriving at the Group's profit or loss before tax. These changes in presentation have been applied retrospectively with comparatives restated.

Under IFRS, the purchase method of accounting was applied to account for the acquisition of the airline operations and certain related assets of China Northern Airlines Company (CNA) and Xinjiang Airlines Company (XJA) (CNA/XJA Acquisitions) (details of which are disclosed in Item 4. Information on the Company History and Development of the Company) such that at December 31, 2004 only the acquired assets and liabilities are included in the consolidated financial statements. The results of the acquired operations and their related cash flows was included in the consolidated financial statements of the Group beginning January 1, 2005. Under U.S. GAAP, such transaction is considered to be a combination of entities under common control. A combination of entities under common control is accounted for in a manner similar to a pooling-of-interests. Consequently, the assets and liabilities of CNA and XJA are reflected at their U.S. GAAP carrying values and the U.S. GAAP consolidated financial statements are restated to include the assets and liabilities of CNA and XJA, and their results of operations and cash flows for all periods presented. See Note 50 to the consolidated financial statements for the nature and effect of such differences and other significant differences related to the Group between IFRS and U.S. GAAP as of December 31, 2004 and 2005 and for each of the years in the three-year period ended December 31, 2005 and the condensed consolidated financial statements prepared and presented in accordance with U.S. GAAP for the relevant periods. The following information should be read in conjunction with, and is qualified in its entirety by, the Financial Statements of the Group.

Selected Operating Data

The following selected operating data of the Group for the five years ended December 31, 2005 have been derived from consolidated financial statements prepared in accordance with IFRS and other data provided by the Group and have not been audited.

The operating data and the profit analysis and comparison for other years below is calculated and disclosed in accordance with the statistical standards, which has been implemented since January 1, 2001. See "Glossary of Airline Industry Terms" at the front of this Annual Report for definitions of certain terms used herein.

Risk Factors

Risks Relating to the Company

Government ownership and control of the Company

All Chinese airlines are wholly- or majority-owned either by the Chinese Government or by provincial or municipal governments in China. CSAHC, an entity wholly-owned by the Chinese Government, holds and exercises the rights of ownership of all of the Domestic Shares or 50.3% of the equity of the Company. The interests of the Chinese Government in the Company and in other Chinese airlines may conflict with the interests of the holders of the ADSs, H Shares and A Shares. The public policy considerations of the Chinese Government in regulating the Chinese commercial aviation industry may also conflict with its indirect ownership interest in the Company.

High operating leverage and foreign exchange exposure

The airline industry is generally characterized by a high degree of operating leverage. In addition, due to high fixed costs, the expenses relating to the operation of any flight do not vary proportionately with the number of passengers carried, while revenues generated from a flight are directly related to the number of passengers carried and the fare structure of such flight. Accordingly, a decrease in revenues could result in a proportionately higher decrease in net income. Moreover, as the Group has substantial obligations denominated in foreign currencies, its results of operations are significantly affected by fluctuations in foreign exchange rates, particularly for the U.S. dollar and the Japanese Yen. The Company incurred a net exchange loss of RMB59 million for 2004 and a net exchange gain of RMB1,220 million for 2005, mainly as a result of Japanese Yen fluctuation in 2004 and Renminbi appreciation in July 2005, respectively. A majority of this exchange loss or gain was unrealized in nature.

Potential conflicts of interest

CSAHC will continue to be the controlling shareholder of the Company. CSAHC and certain of its affiliated companies will continue to provide certain important services to the Company, including the import and export of aircraft spare parts and other flight equipment, housing services and financial services. In addition, Mr. Liu Shao Yong, the Chairman of the Board of Directors, also serves as the General Manager of CSAHC. The interests of CSAHC may conflict with those of the Company. In addition, any disruption of the provision of services by CSAHC's affiliated companies or a default by CSAHC of its obligations owed to the Company could affect the Company's operations and financial conditions. In particular, as part of its cash management system, the Company periodically places significant amount of demand deposits with China Southern Airlines Group Finance Company Limited (SA Finance), a PRC authorized financial institution controlled by CSAHC and an affiliated company of the Company. As a result, the Company's deposits with SA Finance are subject to the risks associated with the business of SA Finance over which the Company does not exercise control. As of December 31, 2004 and 2005, the Group had short-term deposits of RMB406 million and RMB544 million, respectively, with SA Finance.

Certain transactions between the Company and CSAHC or its affiliates (as defined in the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (the Hong Kong Listing Rules)) will constitute connected transactions of the Company under the Hong Kong Listing Rules and, unless exemptions are applicable or waivers are granted, will be subject to disclosure requirements and/or independent shareholders' approval in a general meeting.

Risks relating to certain real property

Although systems for registration and transfer of land use rights and related real property interests in China have been implemented, such systems do not yet comprehensively account for all land and related property interests. The land in Guangzhou on which the Company's headquarters buildings and other facilities are located and the buildings that the Company uses at its route base in Wuhan and Haikou are leased by the Company from CSAHC. However, CSAHC lacks adequate documentation evidencing CSAHC's rights to such land and buildings, and, as a consequence, the lease agreements between CSAHC and the Company for such land have not been registered with the relevant authorities. As a result, such lease agreements may not be enforceable. Lack of adequate documentation for land use rights and ownership of buildings subjects the Company to challenges and claims by third parties with respect to the Company's use of such land and buildings.

Table of Contents

The Company has been occupying all of the land and buildings described above without challenge or claim by third parties. CSAHC has received written assurance from the General Administration of Civil Aviation of China (CAAC) to the effect that CSAHC is entitled to continued use and occupancy of the land and certain related buildings and facilities. However, such assurance does not constitute formal evidence of CSAHC's right to occupy such lands, buildings and facilities, or the right to transfer, mortgage or lease such real property interests. The Company cannot predict the magnitude of the adverse effect on its operations if its use of any one or more of these parcels of land or buildings were successfully challenged. CSAHC has agreed to indemnify the Company and Guangzhou Aircraft Maintenance Engineering Company Limited (GAMECO), the Company's jointly controlled entity, against any loss or damage caused by any challenge of, or interference with, the use by the Company and GAMECO of any of their respective land and buildings.

Risks associated with Hong Kong and Macau routes

The Company's Hong Kong regional routes benefit from traffic originating in Taiwan. The Company's Hong Kong regional routes might be materially adversely affected if direct flights between Taiwan and Mainland China were permitted in the future. In such event, Xiamen Airlines Company Limited (Xiamen Airlines), the Company's subsidiary, might apply for route rights for direct flights between Taiwan and Mainland China, due partly to the proximity to Taiwan of Fujian province, where Xiamen Airlines is based. However, there can be no assurance that sufficient routes and flights between destinations in Taiwan and Mainland China could be obtained by Xiamen Airlines, if at all, or that adequate yields will be generated on these routes and flights.

Internal controls and management system

The Company will become subject to Section 404 of the Sarbanes-Oxley Act of 2002 in the fiscal year ending December 31, 2006, which requires the Company to set out a management report containing an assessment on its internal controls over financial reporting in its annual report. It also requires an independent registered public accounting firm attest to and report on management's assessment of the effectiveness of the Company's internal controls over financial reporting. If the Company cannot implement the requirements of Section 404 of the Sarbanes-Oxley Act of 2002 in a timely manner or with adequate compliance, its independent auditors may not be able to provide a written attestation as to the effectiveness of its internal controls over financial reporting and it may be subject to sanctions or investigation by regulatory authorities, such as the Securities and Exchange Commission. It could also result in the loss of investor confidence in the Company, in particular the reliability of financial statements, which in turn could harm the Company's business and negatively affect the market price of the Company's ADSs or H Shares. Furthermore, the Company may be required to incur significant costs for compliance with Section 404, and thereby increasing its costs relative to its revenues and decreasing its operating margins.

Risks Relating to the Chinese Commercial Aviation Industry*Government regulation*

The Company's ability to implement its business strategy will continue to be affected by regulations and policies issued or implemented by the CAAC, which encompasses substantially all aspects of the Chinese commercial aviation industry, including the approval of domestic, Hong Kong regional and international route allocation, air fares, aircraft acquisition, jet fuel prices and standards for aircraft maintenance, airport operations and air traffic control. Such regulations and policies limit the flexibility of the Company to respond to market conditions, competition or changes in the Company's cost structure. The implementation of specific CAAC policies could from time to time adversely affect the Company's operations. The CAAC has confirmed in writing that the Company will be treated equally with other Chinese airlines with respect to certain matters regulated by the CAAC. Nevertheless, there can be no assurance that the CAAC will, in all circumstances, apply its regulations and policies in a manner that results in equal treatment of all airlines.

Jet fuel supply and costs

The availability and cost of jet fuel have a significant impact on the Group's results of operations. The Group's jet fuel costs for 2005 accounted for 30.1% of its operating expenses. All of the domestic jet fuel requirements of Chinese airlines (other than at the Shenzhen, Zhuhai and Sanya airports) must be purchased from the exclusive providers, China Aviation Oil Supplies Company (CAOSC) and Bluesky Oil Supplies Company, companies controlled and supervised by the CAAC. Chinese airlines may also purchase their jet fuel requirements at the Shenzhen, Zhuhai and

Sanya airports from joint ventures in which the CAOSC is a partner. Jet fuel obtained from the CAOSC's regional branches is purchased at uniform prices throughout China that are determined and adjusted by the CAOSC from time to time with the approval of the CAAC and the pricing department of the State Planning Commission based on market conditions and other factors. As a result, the costs of transportation and storage of jet fuel in all regions of China are spread among all domestic airlines. Prior to 1994, domestic jet fuel prices were generally below international jet fuel prices. Since then, however, domestic jet fuel price from CAOSC has always been higher than international jet fuel prices, sometimes creating tension in fuel supply. In addition, jet fuel shortages have occurred in China and, on limited occasions before 1993, required the Company to delay or cancel flights. Although such shortages have not materially affected the Company's results of operations since 1993, there can be no assurance that such shortage will not occur in the future. If such shortage occurs in the future and the Company is forced to delay or cancel flights due to fuel shortage, its operational reputation among passengers and results of operations may suffer.

Infrastructure limitations

The rapid increase in air traffic volume in China in recent years has put pressure on many components of the Chinese commercial aviation industry, including China's air traffic control system, the availability of qualified flight personnel and airport facilities. Airlines, such as the Company, which have route networks that emphasize short- to medium-haul routes are generally more affected by insufficient aviation

Table of Contents

infrastructure in terms of on-time performance and high operating costs due to fuel inefficiencies resulting from the relatively short segments flown, as well as the relatively high proportion of time on the ground during turnaround. All of these factors may adversely affect the perception of the service provided by an airline and, consequently, the airline's operating results. In recent years, the CAAC has placed increasing emphasis on the safety of Chinese airline operations and has implemented measures aimed at improving the safety record of the industry. The ability of the Company to increase utilization rates and to provide safe and efficient air transportation in the future will depend in part on factors such as the improvement of national air traffic control and navigation systems and ground control operations at Chinese airports, which factors are beyond the control of the Company.

Competition

The CAAC's extensive regulation of the Chinese commercial aviation industry has had the effect of managing competition among Chinese airlines. Nevertheless, competition has become increasingly intense in recent years due to a number of factors, including relaxation of certain regulations by the CAAC, and an increase in the capacity, routes and flights of Chinese airlines. Competition in the Chinese commercial aviation industry has led to widespread price-cutting practices that do not in all respects comply with applicable regulations. Until the interpretation, if it occurs, of CAAC regulations limiting or prohibiting such price-cutting has been finalized and strictly enforced, discounted tickets from competitors will continue to have an adverse effect on the Company's sales.

The Company faces varying degrees of competition on its Hong Kong regional routes from certain Chinese airlines and Hong Kong Dragon Airlines Limited and on its international routes, primarily from non-Chinese airlines, most of which have significantly longer operating histories, substantially greater financial and technological resources and greater name recognition than the Company. In addition, the public's perception of the safety and service records of Chinese airlines could adversely affect the Company's ability to compete against its Hong Kong regional and international competitors. Many of the Company's international competitors have larger sales networks and participate in reservation systems that are more comprehensive and convenient than those of the Company, or engage in promotional activities, such as International Alliance programs, that may enhance their ability to attract international passengers.

Limitation on foreign ownership

Chinese Government policies limit foreign ownership in Chinese airlines. Under these policies, the percentage ownership of the Company's total outstanding ordinary shares held by investors in Hong Kong and any country outside China (Foreign Investors) may not in the aggregate exceed 49%. Currently, 26.8% of the total outstanding ordinary shares of the Company is held by Foreign Investors. For so long as the limitation on foreign ownership is in force, the Company will have no meaningful access to the international equity capital markets.

Consolidation and Restructuring

In 2000, the CAAC announced a restructuring plan with respect to the PRC aviation industry. Pursuant to such restructuring plan, each domestic airline is directed to consolidate into one of the three major airline groups in China: CSAHC, China National Aviation Holding Company and China Eastern Air Holding Group. As approved by the Company's shareholders in an extraordinary general meeting on December 31, 2004, the Company acquired the airline operations and certain related assets of CNA and XJA. These consolidation and restructuring pursuant to the CAAC restructuring plan may involve uncertainties and risks over a long period of time, including the following:

- failure to achieve the anticipated synergies, cost savings or revenue enhancing opportunities resulting from the restructuring activities;

- diversion of management's attention from existing business concerns and other business opportunities of the Group;

- difficulty in integrating the assets and business of other airlines, including its employees, corporate culture, managerial systems and processes, business information systems and services;

- difficulty in exercising control and supervision over various new operations within the Group;

failure to retain key personnel; and

increase in financial pressure due to assumption of recorded / unrecorded liabilities of the acquired businesses.

Table of Contents

The inability to manage additional businesses or integrate successfully the acquired businesses without substantial expense, delay or other operational or financial problems, or the occurrence of one or more of the events enumerated above, could materially adversely affect the Group's financial condition and results of operations.

Risks relating to the PRC

Foreign exchange risks

Under current Chinese foreign exchange regulations, Renminbi is fully convertible for current account transactions, but is not freely convertible for capital account transactions. Current account foreign exchange transactions can be undertaken without prior approval from the relevant Chinese Government agencies by producing commercial documents evidencing such transactions, provided that they are processed through Chinese banks licensed to engage in foreign exchange transactions. Conversion from Renminbi into a foreign currency or vice versa for purposes of capital account transactions requires prior approvals of relevant Chinese Government agencies. This restriction on capital account transactions could affect the ability of the Company to acquire foreign currency for capital expenditures. It could also have a material adverse effect on the Company's operations and financial conditions, given the Company's substantial foreign currency obligations.

The value of the Renminbi against the US dollar and other foreign currencies may fluctuate and is affected by, among other things, changes in China's political and economic conditions. On July 21, 2005, the PRC government changed its policy of pegging the value of the Renminbi to the U.S. dollar so that the Renminbi is now permitted to fluctuate within a band against a basket of certain foreign currencies. As a result, the value of the Renminbi against the U.S. dollar has appreciated by approximately 2%. Under the new policy, the value of Renminbi against the U.S. dollar has fluctuated on a daily basis within narrow ranges, but overall has further strengthened against the U.S. dollar. The PRC government has stated publicly that it intends to further liberalize its currency policy, which could result in a further and more significant change in the value of the Renminbi against the U.S. dollar. As the Company is not able to hedge effectively against the revaluation of the Renminbi other than by retaining its foreign currencies which it receives from its business and operational activities to the extent permitted by applicable law, any significant revaluation of the Renminbi may have a material adverse effect on the Company's financial performance, and the value of, and any dividends payable on, the Company's H Shares and ADSs in foreign currency terms.

Developing legal system

The Chinese legal system is based on written statutes and is a system, unlike common law systems, in which decided legal cases have little precedential value. In 1979, China began to promulgate a more comprehensive system of laws. On December 29, 1993, the Chinese National People's Congress promulgated the Company Law, which became effective on July 1, 1994. In August 1994, pursuant to the Company Law, the PRC State Council issued the PRC Special Regulations on Overseas Offering and Listing of Shares by Companies Limited by Shares to regulate joint stock companies that offer and list their shares overseas. These laws, regulations and legal requirements are relatively recent, and, like other laws, regulations and legal requirements applicable in China (including with respect to the commercial aviation industry), their interpretation and enforcement involve significant uncertainties.

Taxation of holders of H Shares or ADS by China

Chinese tax law generally provides for the imposition of a withholding tax on dividends paid by a Chinese company to a non-Chinese shareholder at a rate of 20%. In a notice and a letter issued by the State Taxation Bureau of the PRC, however, the Chinese tax authorities confirmed that the imposition of this withholding tax on dividends paid by joint stock companies, such as the Company, had been suspended. Accordingly, for so long as this imposition is suspended and not replaced or supplemented with similar requirements, any future dividends to be paid by the Company to holders of H Shares or ADS who are foreign individuals not resident in China or which are foreign enterprises with no permanent establishment in China will not be subject to a Chinese withholding tax. In the event that the suspension of the withholding tax is lifted, such payments will be subject to withholding tax at the 20% rate unless the holder is entitled to a tax waiver or a lower tax rate under an applicable double-taxation treaty. See Item 10

Additional Information - Taxation .

ITEM 4. INFORMATION ON THE COMPANY.

History and Development of the Company

The Company is a joint stock company incorporated in China on March 25, 1995, and is 50.3% owned by CSAHC. The registered address of the Company is Guangzhou Economic & Technology Development Zone, People's Republic

of China (telephone no: (86)20-8612-4738, website: www.cs-air.com).

Table of Contents

On March 13, 2003, the Company obtained an approval certificate from the Ministry of Commerce to change to a permanent limited company with foreign investments and on October 17, 2003 obtained a business license for its new status, as a permanent limited company with foreign investments issued by the State Administration of Industry and Commerce of the People's Republic of China.

Pursuant to an extraordinary general meeting of shareholders held on May 21, 2002, a resolution was passed authorizing the Company to issue not more than 1,000,000,000 A Shares of par value of RMB1.00 each. The Company issued and listed its 1,000,000,000 A Shares with a par value of RMB1.00 each on the Shanghai Stock Exchange in July 2003.

On October 17, 2003, the Company's registered address was moved to Guangzhou Economic & Technology Development Zone. In accordance with the Rules and Regulations for Implementation of Income Tax for Foreign Investment Enterprises and Foreign Enterprises of the PRC and a taxation approval document Guangzhou Municipal State Tax Bureau Suo De Shui Zi Que 020043, the Company is entitled to enjoy the preferential tax policy implemented in the Guangzhou Economic & Technology Development Zone effective October 1, 2003. As a result, the Company's income tax rate has been changed from 33% to 15% beginning from that date.

Flight safety is a perennial concern to airlines. In this regard, the Group is committed to flight safety by strengthening internal safety checks, pilot training and aircraft maintenance. As a result, the Group was awarded the Golden Roc Cup, the highest award for flight safety in the Chinese civil aviation industry, for the fourth time in 2004.

The acquisition of the airline operations of CNA and XJA was approved at the general meeting of the Company held on December 31, 2004. Such acquisition provides a robust platform for the Group to consolidate its market leadership and financial results. It also brought in various benefits to the Group by expanding its flight service network, fleet size and transport capacity, as well as lowering costs and improving overall efficiency. Given the investment incentive policies such as Go West and Revitalising the Old Industrial Bases in the North-eastern Region promulgated by the Chinese government, the economy in the western and north-eastern regions of China is expected to grow at a rapid pace in the coming decades, which in turn provides substantial growth potential for the Group. Ultimately, the acquisition will strengthen the Group's position as the largest airline in China and will create positive value to its investors. At present, the management of the Group focuses on harnessing the expanded business capacity and operation scale of the Group, and on enhancing its overall management standards through an integration of corporate culture, innovation and development, thereby realizing the ultimate goal of the Group's reorganization.

Pursuant to Pricing Reform of Domestic Civil Aviation as approved by the State Council of China effective on April 20, 2004, prices on domestic routes now fluctuate freely within a predetermined range. Instead of direct supervision by setting prices of air tickets through local price bureau, the government now provides guidance on domestic flights and domestic civil aviation is controlled by the government indirectly. Market-oriented pricing policy was introduced and pricing system has been adjusted as a result of the above pricing reform.

During 2005, the economy of the PRC maintained its rapid growth, which in turn gave the civil aviation industry a powerful boost. In particular, the fast expansion of the fleet capacity of the industry encouraged market demand through a number of factors, including improvement of civil aviation facilities and service quality as well as favorable price offers, which in turn drove up the passenger and cargo carried volume, the passenger load factor and overall load factor. On the other hand, as the PRC government expedited the process of open sky policy and relaxed restrictions for investment in domestic airlines, the fleet capacity and number of flights provided have significantly increased, which in turn intensified the competition in domestic and international routes. Together with the soaring jet fuel prices, these have exerted strong pressure on the operating costs for domestic airlines.

In 2005, with the persistent joint efforts of the Company's management and staff, the Group secured an exceptional safe flight operation record, and the enlarged operations after the joint recombination had undergone a smooth transition and gradually began to achieve the benefits from economies of scale. To cope with the increasing competition and the ever-changing demands of the aviation market, the Company is taking advantage of its own economies of scale and the potential market demands to stage a strategic transition from a city-pair operation model to a hubbing network operation model, so as to enhance the operational efficiency of the overall service network, and to maintain and increase its competitive edge in the market.

With the approval of the Board, the Company established a branch company in Beijing and will add wide-body airplanes to the operation base in Beijing from the summer of 2006, with the view to expanding its Beijing aviation business and building another main hub there in addition to its Guangzhou base. The Board believes that the establishment of Guangzhou and Beijing hubs will facilitate the Group's strategic refinement and enhancement of its route network operations in order to better position the Group to explore and seize the opportunities in the regional aviation market to be brought about by the 2008 Beijing Olympic Games.

Table of Contents

The Group had RMB4,707 million, RMB6,631 million and RMB11,873 million capital expenditures in 2003, 2004 and 2005 respectively. Of such capital expenditures in 2005, RMB6,938 were financed by capital lease, RMB4,325 million were financed by bank borrowings while the remaining RMB610 million were financed by internal resources. The capital expenditures were primarily incurred on the additional investments in aircraft and flight equipment under the Group's fleet expansion plans and Guangzhou new airport, and, to a small extent, additional investments in other facilities and buildings for operations.

CNA/XJA Acquisitions

Pursuant to a sale and purchase agreement dated November 12, 2004 between the Company, China Southern Airlines Holding Company, CNA and XJA which was approved by the Company's shareholders in an extraordinary general meeting held on December 31, 2004, the Company acquired the airline operations and certain related assets of CNA and XJA with effect from December 31, 2004 (the "CNA/XJA Acquisitions"). The consideration payable for the CNA/XJA Acquisitions amounting to RMB15,522 million was determined based on the fair value of the acquired assets. Such consideration was partly satisfied by assumption of debts and liabilities of CNA and XJA totaling RMB13,563 million outstanding as of December 31, 2004 and the remaining balance of RMB1,959 million was fully paid in cash during 2005.

The CNA/XJA Acquisitions have significantly expanded the fleet size and flight service network as well as the market share of the Group. Presently, the Group is implementing various measures to harnessing the expanded flight capacity and operations and integrating the business cultures and goals of the acquired operations with those of the Group.

Business Overview**General**

The Group provides commercial airline services throughout China, Hong Kong and Macau regions, Southeast Asia and other parts of the world. The Group is one of the three largest Chinese airlines and, as of year end 2005, ranked first in terms of passengers carried, number of scheduled flights per week, number of hours flown and size of route network and aircraft fleet. During the three years ended December 31, 2005, the Group's RPKs increased at a compound annual rate of 53.2%, from 26,387 million in 2003 to 61,923 million in 2005, while its capacity, measured in terms of ASKs, increased at a compound annual rate of 47.1%, from 40,867 million in 2003 to 88,361 million in 2005. In 2005, the Group carried 44.12 million passengers and had passenger revenue of RMB34,328 million (US\$4,254 million). The loss for 2005 attributable to equity shareholders of the Company was RMB1,848 million (US\$229 million).

The Group conducts a portion of its airline operations through its airline subsidiaries namely Xiamen Airlines, Southern Airlines (Group) Shantou Airlines Company Limited ("Shantou Airlines"), Guangxi Airlines Company Limited ("Guangxi Airlines"), Zhuhai Airlines Company Limited ("Zhuhai Airlines") and Guizhou Airlines Company Limited ("Guizhou Airlines") (collectively, the "Airline Subsidiaries"). In 2005, the Airline Subsidiaries carried 11.30 million passengers and had operating revenue of RMB8,019 million (US\$994 million) and accounted for 25.6% and 20.9% of the Group's passengers carried and operating revenue, respectively.

The Group also provides air cargo and mail services. The cargo and mail revenue of the Group increased by 37.7% to RMB3,091 million (US\$383 million) in 2005 as compared with 2004. The Group's airline operations are fully integrated with its airline-related businesses, including aircraft and engine maintenance, flight simulation and air catering operations.

As of the year end of 2005, the Group operated 559 routes, of which 452 were domestic, 78 were international and 29 were Hong Kong and Macau. The Group operates the most extensive domestic route network among all Chinese airlines. In 2005, the Group operated an average of 8,436 landings and take-offs per week, serving 142 destinations. Its route network covers commercial centres or rapidly developing economic regions in Mainland China.

The Group's corporate headquarters and principal base of operations are located in Guangzhou, which is the capital of Guangdong Province and the largest city in southern China. Located in the rapidly developing Pearl River Delta region, Guangzhou is also the transportation hub of southern China and one of China's major gateway cities. Guangzhou's significance has increased as the transportation infrastructure of Guangdong Province has developed through the construction and development of expressways, an extensive rail network and the port cities of Yantian,

Shekou, Chiwan, Mawan, Huangpu and Zhuhai.

Table of Contents

In addition to its main route base in Guangzhou, the Group also maintains certain regional route bases in Beijing, Zhengzhou, Wuhan, Changsha, Shenzhen, Shenyang, Changchun, Dalian, Harbin, Urumqi, Haikou, Zhuhai, Xiamen, Fuzhou, Guilin, Shantou, Guiyang, Sanya and Beihai. Most of its regional route bases are located in provincial capitals or major commercial centers in China.

The Group's operations primarily focus on the domestic market. In addition, the Group also operates Hong Kong and Macau and international flights. As of year end of 2005, the Group had 29 Hong Kong and Macau routes and 78 international routes. The Group's Hong Kong and Macau operations include flights between destinations in China and Hong Kong and Macau. The Group's international operations include scheduled services to Tokyo, Osaka, Amsterdam, Sharjah, Los Angeles, Fukuoka, Seoul, Sydney, Dubai, Paris and 11 Southeast Asian destinations. The Group operates the most extensive Southeast Asian route network among Chinese airlines.

As of December 31, 2005, the Group operated a fleet of 261 aircraft, consisting primarily of Boeing 737 series, 747, 757, 777, Airbus 300, 319, 320, 330, McDonnell Douglas 82, 90 and etc. The average age of the Group's fleet was 7.19 years as of the year end of 2005.

Restructuring and Initial Public Offering

As part of China's economic reforms in the 1980's, the PRC State Council directed the CAAC to separate its governmental, administrative and regulatory role from the commercial airline operations that were being conducted by the CAAC and its regional administrators. As a result, CSAHC was established on January 26, 1991 for the purpose of assuming the airline and airline-related commercial operations of the Guangzhou Civil Aviation Administration, one of the six regional bureaus of the CAAC. CSAHC was one of the 55 large-scale enterprises designated by the Chinese Government to play a leading role in their respective industries.

CSAHC was restructured in 1994 and 1995 in anticipation of the initial public offering of the Company. The restructuring was effected through the establishment of the Company and the execution of the Demerger Agreement, dated as of March 25, 1995, as amended (the Demerger Agreement), between CSAHC and the Company. Upon the restructuring, the Company assumed substantially all of the airline and airline-related businesses, assets and liabilities of CSAHC, and CSAHC retained its non-airline and non-airline-related businesses, assets and liabilities, and the non-business assets and liabilities. Upon this separation, all interests, rights, duties and obligations of CSAHC, whenever created or accrued, were divided between the Company and CSAHC based on the businesses, assets and liabilities assumed by each of them under the Demerger Agreement. Under the Demerger Agreement, CSAHC agreed not to conduct or participate or hold any interest in, either directly or indirectly, any business, activity or entity in or outside China that competes or is likely to compete with the commercial interests of the Group, although CSAHC may continue to hold and control the affiliates of CSAHC existing on the date of the Demerger Agreement and may continue to operate the businesses of such affiliates.

In July 1997, the Company completed a private placement of 32,200,000 H Shares to certain limited partnership investment funds affiliated with Goldman Sachs & Co. and an initial public offering of 1,141,978,000 H Shares, par value RMB 1.00 per share, and listing of the H Shares on The Stock Exchange of Hong Kong Limited (the Hong Kong Stock Exchange) and American Depositary Shares (ADSs, each ADS representing 50 H Shares) on the New York Stock Exchange. Prior to the private placement and the initial public offering, all of the issued and outstanding shares of capital stock of the Company, consisting of 2,200,000,000 Domestic Shares, par value RMB 1.00 per share, were owned by CSAHC, which owns and exercises, on behalf of the Chinese Government and under the supervision of the CAAC, the rights of ownership of the Domestic Shares held by CSAHC. After giving effect to the private placement and the initial public offering, CSAHC's continued ownership of the 2,200,000,000 Domestic Shares, represented approximately 65.2% of the total share capital of the Company, and will be entitled to elect all the directors of the Company and to control the management and policies of the Group. Domestic Shares and H Shares are both ordinary shares of the Company.

Pursuant to an extraordinary general meeting of shareholders held on May 21, 2002, a resolution was passed authorizing the Company to issue not more than 1,000,000,000 A Shares of par value of RMB1.00 each. The Company issued 1,000,000,000 A Shares with a par value of RMB1.00 each in July 2003 and listed these shares on the Shanghai Stock Exchange. Subsequent to the A Share issue, the shareholding of CSAHC on the Company was reduced from 65.2% to 50.3%.

Table of Contents

Traffic

The following table sets forth certain statistical information with respect to the Group's passenger and cargo and mail traffic for the years indicated.

Year	Passenger carried		Cargo and Mail Carried (tons)		Total traffic (tons kilometers)	
	Total (in million)	Increase (decrease) over previous year (%)	Total (in thousand)	Increase (decrease) over previous year (%)	Total (in million)	Increase (decrease) over previous year (%)
2001	19.12	13.5	398.0	12.7	3,034.0	16.1
2002	21.49	12.4	470.0	18.1	3,614.0	19.1
2003	20.47	(4.7)	464.0	(1.3)	3,561.0	(1.5)
2004	28.21	37.8	545.0	17.5	4,663.0	30.9
2005	44.12	56.4	775.0	42.2	7,284.0	56.2

Route Network

Overview

The Group operates the most extensive route network among the Chinese airlines. As of December 31, 2005, the Group operated 559 routes consisting of 452 domestic routes, 29 Hong Kong and Macau routes and 78 international routes. In 2005, the Group conducted an average of 8,436 landings and take-offs per week, serving 142 destinations.

The Group continually evaluates its network of domestic, Hong Kong and Macau and international routes in light of its operating profitability and efficiency. The Group seeks to coordinate flight schedules with the Airline Subsidiaries on shared routes to maximize load factors and utilization rates. The acquisition of domestic, Hong Kong and Macau and international routes is subject to approval of the CAAC, and the acquisition of Hong Kong and Macau and international routes is also subject to the existence and the terms of agreements between the Chinese Government and the government of the Hong Kong SAR, the government of Macau Special Administrative Region of the People's Republic of China (Macau SAR) and the government of the proposed foreign destination.

In order to expand the Group's international route network, the Group has entered into code-sharing agreements with several international airlines, including Delta Airlines, Asiana Airlines, Japan Air System, Vietnam Airlines, Royal Dutch Airlines and Garuda Indonesian. Under the code sharing agreements, the participating airlines are permitted to sell tickets on certain international routes operated by the Group to passengers using the Group's codes. Similarly, the Group is permitted to sell tickets for the other participating airlines using its CZ code. The code sharing agreements help increase the number of the Group's international sales outlets.

Route Bases

In addition to its main route base in Guangzhou, the Group maintains certain regional route bases in Beijing, Zhengzhou, Wuhan, Changsha, Shenzhen, Shenyang, Changchun, Dalian, Harbin, Urumqi, Haikou, Zhuhai, Xiamen, Fuzhou, Guilin, Shantou, Guiyang, Sanya and Beihai. Most of its regional route bases are located in provincial capitals or major commercial centres in the PRC.

The Group believes that its extensive network of route bases enables it to coordinate flights and deploy its aircraft more effectively and to provide more convenient connecting flight schedules and access service and maintenance facilities for its aircraft. The Group believes that the number and location of these route bases may enhance the Group's ability to obtain the CAAC's approval of requests by the Group to open new routes and provide additional flights between these bases and other destinations in China. Current regulations of the CAAC generally limit airlines to operations principally conducted from their respective route bases.

The Chinese Government approved a new Guangzhou airport project, which commenced construction in 2000 and completed in August 2004. The commencement of operation of the new Guangzhou Baiyun International Airport

which is the main hub of the Group, provides a wider platform of development for the operations of the Company.

Moreover, the Group has successfully secured the exclusive right to use Terminal No. 1 of the Beijing Capital International Airport, marking a substantial step in carrying out the strategy of the Group to improve its flight routes network.

Table of Contents

Domestic Routes

The Group's domestic routes network serves substantially all provinces and autonomous regions in China, including Guangdong, Fujian, Hubei, Hunan, Hainan, Guangxi, Guizhou, Henan, Heilongjiang, Jilin, Liaoning and Xinjiang, and serves all four centrally-administered municipalities in China, namely, Beijing, Shanghai, Tianjin, and Chongqing. In 2005, the Group's most profitable domestic routes were the routes between Guangzhou and Beijing, Guangzhou and Shanghai, Shenzhen and Beijing, Shanghai and Guangzhou, Shenzhen and Shanghai, Beijing and Guangzhou, Urumqi and Beijing, Beijing and Urumqi, Shanghai and Shenzhen, Beijing and Changchun.

Hong Kong and Macau Routes

The Group offers scheduled service between Hong Kong and Guangzhou, Kunming, Xiamen, Shantou, Beijing, Guilin, Meixian, Haikou, Wuhan, Zhengzhou, Nanning, Changsha, Quanzhou and Sanya; and between Macau and Fuzhou, Hangzhou and Xiamen. The Group's Hong Kong regional routes also include routes between Hong Kong and Zhanjiang, which the Group operates on a charter flight basis, as explained below. The Group believes that the routes on which it operates these charter flights are among its highest yielding routes, primarily because the Group faces limited competition on such routes and is consequently less subject to downward pricing pressures. In 2005, the most profitable Hong Kong regional routes (other than these charter flights) were those between Hong Kong and each of Wuhan, Guangzhou, Beijing, Shantou, Guilin, Kunming and Zhengzhou.

The Group's charter flights are regularly scheduled flights, but permission to operate these flights is subject to monthly review by the CAAC and the Civil Aviation Department of the Hong Kong SAR. The CAAC has informally indicated that it primarily considers market demand and airline capability in granting permission for such flights. The Group has been able to maintain all of the Hong Kong regional routes which it operates on a charter flight basis and believes that demand on such routes will continue. In 2005, the Group conducted a total of 17,807 flights on its Hong Kong and Macau routes, accounting for approximately 34.4% of all passengers carried by Chinese airlines on routes between Hong Kong or Macau and destinations in China.

International Routes

The Group is the principal Chinese airline connecting the rapidly developing Pearl River Delta region of China to Southeast Asia, with 29 routes serving 11 Southeast Asian destinations, including Singapore and major cities in Indonesia, Thailand, Malaysia, the Philippines, Vietnam and Laos. In 2005, the Group's most profitable international routes were those between Seoul and Dalian, Guangzhou and Tokyo. The Group believes that, among Chinese airlines, it is well-positioned to benefit from the business opportunities arising out of increased air traffic and the growing economic relationships between China and Southeast Asian countries.

In addition to the 29 routes serving 11 Southeast Asian destinations, the Group operates 45 other international routes providing scheduled services to Amsterdam, Sharjah, Osaka, Tokyo, Fukuoka, Seoul, Los Angeles, Sydney, Melbourne, Dubai and Paris.

Aircraft Fleet

The Group's fleet plan in recent years has emphasized expansion and modernization through the acquisition of new aircraft, the acquisition of existing aircraft in conjunction with our acquisition of CNA and XJA, and the retirement of less efficient, older aircraft. As of December 31, 2005, the Group operated a fleet of 261 aircraft with an average age of 7.19 years. Most aircraft of the Group are Boeing and Airbus aircraft. The Group has the largest fleet among Chinese airline companies. Most of the aircraft operated by the Group are leased pursuant to various types of leasing arrangements.

Table of Contents

The following table sets forth certain information regarding the Group's fleet of 261 aircraft as of December 31, 2005.

Model	Number of Aircraft	Average age (years)	Average Passenger Capacity
Boeing 777-200	4	9.53	380
Boeing 777-21B	6	7.20	292
Boeing 757-200	38	11.12	200
Boeing 747F	2	3.42	n/a
Boeing 737-800	15	2.32	167
Boeing 737-700	29	2.85	138
Boeing 737-500	15	12.80	130
Boeing 737-300	31	11.89	145
Airbus 300-600	6	10.96	272
Airbus 319-100	21	1.05	128
Airbus 320-200	30	5.38	158
Airbus 321-100	10	2.50	182
Airbus 330-200	4	0.72	264
McDonnell Douglas 82	23	14.63	144
McDonnell Douglas 90	13	7.85	157
Embraer 145 Jet	6	1.23	50
Cessna 208B	3	3.50	14
ATR-72	5	7.95	72

261

During 2005, the Group continued to expand and modernize its aircraft fleet. In 2005, the Group's major aircraft transactions included:

The addition of seven Airbus 319-100, two Boeing 737-700 and three Boeing 737-800 aircraft under operating lease and addition of one McDonnell Douglas 82 aircraft under wet lease agreement and the return of two Boeing 737-300, three Boeing 737-500 and two Boeing 737-300 QC under operating lease ; and

The acquisition of five Boeing 737-700 aircraft, six Airbus 320-200, four Airbus 330-200, six Airbus 319-100, two Airbus 321-200 and one Embraer 145 Jet financed by a combination of internal funds and long term bank loans.

In January 2005, the Company, as a lessee, entered into an agreement with an independent lessor for operating leases of nine Boeing 737-800 aircraft for a term of seven years with total future lease payments totalling approximately RMB1,721 million, scheduled for deliveries in 2005 and 2006.

In January 2005, China Aviation Supplies Import and Export Corporation, as a sole importing agent, entered into, on behalf of several PRC airlines including the Group, a general purchase agreement with the Boeing Company for the import of Boeing B7E7 aircraft. The Company, being one of the ultimate users for thirteen of the Boeing B7E7 aircraft, endorsed the general purchase agreement. The Company is currently in negotiation with the Boeing Company regarding the purchase agreements on such aircraft.

In March 2005, the Company, as a lessee, entered into another agreement with an independent lessor for operating leases of a total of twenty-five aircraft comprising five Boeing 737-700 aircraft, five Boeing 737-800 aircraft, five Airbus 320-200 aircraft and ten Airbus 321-200 aircraft with scheduled deliveries in 2006 and 2007. The terms of the leases range from ten to twelve years with total future lease payments totalling approximately RMB8,243 million.

In April 2005, the Company entered into a purchase agreement with Airbus SNC for the purchase of five Airbus A380 aircraft, scheduled for deliveries in 2007 to 2010.

In August 2005, CSA as a lessee, entered into an agreement with an independent lessor for operating leases of three 737-800 aircraft for a term of 138 months, with total future lease payments totalling approximately Rmb986 million, scheduled for deliveries in 2006.

Table of Contents

In November 2005, CSA, as a lessee, entered into an agreement with an independent lessor for operating leases of five A320-200 aircraft for a term of 140 months with total future lease payments totalling approximately Rmb1,694 million, scheduled for deliveries in 2006; and

In August 2005, CSA entered into two separate purchase agreements with Boeing and Airbus SNC respectively for the purchase of ten B787 aircraft, which are scheduled for deliveries in 2008 to 2010, and ten A330 aircraft, which are scheduled for deliveries in 2007 and 2008.

Aircraft Financing Arrangements*Overview*

A significant portion of the Group's aircraft is acquired under long-term capital or operating leases or long-term mortgage loans with remaining terms to maturity ranging from one to fifteen years. As of December 31, 2005, 65 of the Group's 261 aircraft were operated under capital leases, 86 were operated under operating leases, 51 were financed by long-term mortgage loans, while the remaining were acquired either with cash proceeds or acquired by exercising the purchase options upon expiry of the respective capital leases. The Group's planned acquisition of aircraft in the foreseeable future will generally be made pursuant to operating leases or capital leases. The Group's determination as to its acquisition strategy depends on the Group's evaluation at the time of its capacity requirements, anticipated deliveries of aircraft, the Group's capital structure and cash flow, prevailing interest rates and other general market conditions.

The following table sets forth, as of December 31, 2005, the number of aircraft operated by the Group pursuant to capital and operating leases and the remaining terms, expressed in years, of such leases.

Model	Capital Lease	Operating Lease	Average Remaining Lease Term
Boeing 777-200 and 777-21B	5	4	4.48
Boeing 757-200		15	3.10
Boeing 737-700		10	5.60
Boeing 737-800		3	8.17
Boeing 737-500		15	0.99
Boeing 737-300	4	10	1.32
Airbus 300-600	6		1.20
Airbus 319-100	6	15	9.05
Airbus 320-200	24	6	4.35
Airbus 321-100	6		8.02
Airbus 330-200	4		11.28
McDonnell Douglas 82		8	2.17
McDonnell Douglas 90	10		1.69
	65	86	

Capital Leases

As of December 31, 2005, the Group's aggregate future minimum lease payments (including future finance charges) required under its capital leases were RMB18,615 million (US\$2,307 million). As of year end 2005, a majority of the Group's capital leases had original terms ranging from ten to fifteen years from the date of delivery of the relevant aircraft, and the remaining terms of these leases ranged from one to twelve years. The Group's capital leases typically cover a significant portion of the relevant aircraft's useful life and transfer the benefits and risks of ownership to the Group. Under its capital leases, the Group generally has an option to purchase the aircraft at or near the end of the lease term. As a customary in the case of capital leases, the Group's obligations are secured by the related aircraft, as well as other collateral.

Table of Contents*Operating Leases*

As of December 31, 2005, the Group's aggregate future minimum lease payments required under its operating leases were RMB24,594 million (US\$3,048 million). As of year end 2005, the Group's operating leases had original terms generally ranging from eight to ten years from the date of delivery of the relevant aircraft, and the remaining terms of these leases generally ranged from one to ten years. Pursuant to the terms of the operating leases, the Group is obligated to make rental payments based on the lease term, with no termination payment obligations or purchase option, and the lessor bears the economic benefits and risks of ownership. Under its operating leases, the Group has no option to purchase the aircraft and is required to return the aircraft in the agreed condition at the end of the lease term. Although title to the aircraft remains with the lessor, the Group is responsible during the lease term for the maintenance, servicing, insurance, repair and overhaul of the aircraft.

Pursuant to capital or operating leases, the Group is obligated to indemnify the lessors against any withholding or similar taxes that may be imposed on the lessors by taxing authorities in China with regard to payments made pursuant to such leases. In accordance with relevant PRC tax regulations, a PRC lessee is liable to pay PRC withholding tax in respect of any lease payments regularly made to an overseas lessor. Depending on the circumstances, this tax is generally imposed at a fixed rate ranging from 10% to 20% of the lease payments, or in certain cases, the interest components of such payments. Pursuant to an approval document from the State Taxation Bureau, lease arrangements executed prior to September 1, 1999 are exempt from PRC withholding tax. The PRC withholding tax payable in respect of the operating leases executed after September 1, 1999 of RMB8 million, RMB23 million and RMB55 million during 2003, 2004 and 2005 respectively, have been included as part of the operating lease charges.

Aircraft Flight Equipment

The jet engines used in the Group's aircraft fleet are manufactured by General Electric Corporation, Rolls-Royce plc, United Technologies International, Inc., CFM International, Inc. and International Aviation Engines Corporation. As of year end 2005, the Group had 67 spare jet engines for its fleet. The Group determines its requirements for jet engines based on all relevant considerations, including manufacturers' recommendations, the performance history of the jet engines and the planned utilization of its aircraft. Rotables and certain of the expendables for the Group's aircraft are generally purchased by Southern Airlines (Group) Import & Export Trading Corporation (SAIETC), a subsidiary of CSAHC acting as agent for the Group, in consideration of an agency fee. The Group arranges the ordering of aircraft, jet engines and other flight equipment for the Airline Subsidiaries and keeps an inventory of rotatables and expendables for the Airline Subsidiaries.

Aircraft Maintenance

A major part of the maintenance for the Group's fleet other than overhauls of jet engines is performed by GAMECO, a jointly controlled entity established by the Company, Hutchison Whampoa (Hutchison) and South China International Aircraft Engineering Company Limited, consistent with the Group's strategy to achieve fully integrated airline operations and to assure continued access to a stable source of high quality maintenance services. The remaining part of the maintenance for the Group's fleet other than overhauls of jet engines is performed by service providers in China and overseas. GAMECO performs all types of maintenance services, ranging from maintenance inspections performed on aircraft before, after and between flights (line maintenance services) to major overhaul performed at specified intervals. GAMECO was the first of three aircraft maintenance facilities in China having been certified as a repair station by both the CAAC and the FAA. In March 1998, GAMECO received an approval certificate from the United Kingdom Civil Aviation Authority for the repair and maintenance of aircraft and aircraft engines.

The Group believes that GAMECO performs major maintenance checks on the Group's aircraft within time periods generally consistent with those of large international airline maintenance centers. GAMECO's repair and maintenance capabilities include overhaul of more than 90% of the Group's aircraft. Although rotables for the Group's aircraft are generally imported through SAIETC, a portion of expendables and other maintenance materials are directly imported by GAMECO. GAMECO also provides line maintenance services to 7 other Chinese airlines and 19 international airlines. GAMECO provides heavy maintenance services to 5 other Chinese airlines and 11 international airlines.

The Company and GAMECO had entered into an Aircraft Maintenance and Engineering Agreement for the provision of aircraft repair and maintenance services. On May 17, 1996, the Company and GAMECO entered into an

agreement regarding the fee arrangement for the provision of such repair and maintenance services (the Fee Agreement). Pursuant to the Fee Agreement and subsequent agreements, GAMECO charged the Company for expendables at cost plus 16%, and labour costs at US\$30 per hour during 2005. For the year ended December 31, 2005, the amount incurred by the Group for such repair and maintenance services was RMB535 million.

Overhauls of jet engines are performed by overseas qualified service providers in Germany, Malaysia, Canada and England. Starting from 2003, MTU Maintenance Zhuhai Co., Ltd., (MTU Zhuhai) a jointly controlled entity of the Company and MTU Aero Engines GmbH., also performed overhauls of certain jet engines for the Group. For the year ended December 31, 2005, repair fees amounting to RMB583 million were paid to MTU Zhuhai.

Table of Contents**Safety**

The Group endeavors to maintain strict compliance with all laws and regulations applicable to flight safety. In addition, the Group has adopted measures to eliminate or minimize factors that may impair flight safety, including specialized training programs and safety manuals. The Air Safety Management Department of the Company implements safety-related training programs on an ongoing basis in all of the Group's operations to raise the safety awareness of all employees. As a result, overall flight safety has gradually improved. There were no serious incidents involving casualty or flight damage throughout the three years ended December 31, 2005. For minor incidents which include various events and conditions prescribed by the CAAC which do not involve serious personal injury or material damage to flight equipment, the Group has kept the number consistently below the standard prescribed by the CAAC. For example, the Company's flight incident ratio was 0.13, 0.13 and 0.13 in 2003, 2004 and 2005, respectively. In comparison, CAAC's published maximum acceptable flight incident ratio was 1.3 in 2003 and 0.9 in 2004 and 0.29 in 2005. This ratio is defined as the occurrence of one incident for every 10,000 hours of flight time.

Jet Fuel

Jet fuel costs typically represent a major component of an airline's operating expenses. The Group's jet fuel costs for 2005 accounted for 30.1% of the Group's operating expenses. Like all Chinese airlines, the Group is generally required by the Chinese Government to purchase its jet fuel requirements from regional branches of CAOSC and Bluesky Oil Supplies Company, except at the Shenzhen, Zhuhai and Sanya airports which are supplied by Sino-foreign joint ventures in which CAOSC is a joint venture partner. CAOSC is a State-owned organization controlled and supervised by the CAAC that controls the importation and distribution of jet fuel throughout China.

Jet fuel obtained from CAOSC's regional branches is purchased at uniform prices throughout China that are determined and adjusted by CAOSC from time to time with the approval of the CAAC and the pricing department of the National Development and Reform Commission (NDRC) based on market conditions and other factors. As a result, the costs of transportation and storage of jet fuel in all regions of China are spread among all domestic airlines. Jet fuel costs in China are influenced by costs at State-owned oil refineries and limitations in the transportation infrastructure, as well as by insufficient storage facilities for jet fuel in certain regions of China.

Prior to 1994, domestic jet fuel prices were generally below international jet fuel prices. The Chinese Government had gradually increased domestic jet fuel prices in order to reflect more accurately the costs of supplying jet fuel in China. As a result, domestic jet fuel prices have become higher than those in the international market since the beginning of 1994. With the WTO entry, the jet fuel price in China will probably be trimmed by the market force to be in line with the international market.

CAOSC's maximum fuel price in 2005 was RMB5,220 per ton. The average price paid by the Group in 2005 was RMB4,846 per ton, which represents a 28.47% increase from that of 2004.

According to the Notice of the National Development and Reform Commission (NDRC) and the Civil Aviation Administration of China (CAAC) on Issues Relating to Introduction of the Fuel Surcharge for Domestic Routes, domestic airlines imposed fuel surcharges for all the domestic routes (excluding those from the mainland PRC to Hong Kong and Macau) with effect from August 1, 2005 (based on flight time). On February 16, 2006, the NDRC and CAAC released a supplementary document on Issues Relating to the Introduction of Fuel Surcharge for Domestic Routes, stating that due to the rising jet fuel price, the period of imposition of fuel surcharge by airlines was extended. On 28 March 2006, the NDRC and CAAC released another supplementary document on Issues Relating to the Introduction of Fuel Surcharge for Domestic Routes, thereby adjusting the amount of fuel surcharges from RMB20 to RMB30 per passenger for distance flown being less than 800 kilometres, and from RMB40 to RMB60 for distance exceeding 800 kilometres, during the period temporarily from April 10, 2006 to October 10, 2006. The introduction of fuel surcharge and the extension of the duration of the same will help relieve, to a certain extent, the burden of high jet fuel cost on the Group.

In addition to purchases of jet fuel from CAOSC, the Group is also permitted by the Chinese Government to purchase a portion of its jet fuel requirements for its international flights from foreign fuel suppliers located outside China at prevailing international market prices. Jet fuel purchased from such sources outside China accounted for approximately 20% of the Group's total jet fuel consumption in 2005.

Flight Operations

Flight operations for the Group's flights originating in Guangzhou are managed by the Company's flight operations and marketing divisions, which are responsible for formulating flight plans and schedules consistent with route and flight approvals received from the CAAC. The Company's flight operations center in Guangzhou is responsible for the on-site administration of flights, including the dispatch and coordination of flights, deployment of aircraft, ground services and crew staffing. In addition, each of the Airline Subsidiaries maintains flight operations centers at all servicing airports for on-site administration of their flights. The Company's general dispatch offices are responsible for monitoring conditions on the Group's route network, administering the Group's flight plans, collecting and monitoring navigation data and analyzing and monitoring airport conditions.

Table of Contents

To enhance its management of flight operations, the Group's computerized flight operations control system (SOC) began operation in May 1999. The system utilizes advanced computer and telecommunications technology to manage the Group's flights on a centralized, realtime basis. The Group believes that the system will assist it to (i) compile flight schedules more efficiently; (ii) increase the utilization of aircraft; (iii) allow real-time tracking of all of the Group's flights; and (iv) improve coordination of the Group's aircraft maintenance and ground servicing functions.

Training of Pilots and Flight Attendants

The Group believes that its pilot training program which was established in cooperation with the CAAC affiliated Beijing Aeronautics and Aviation University (the BAAU) has significantly improved the quality of the training received by the Group's pilots and has helped maintain the quality of the Group's staff of pilots at a level consistent with the expansion of operations called for by the Group's business strategy.

In the Group's pilot training program, trainees have two years of theoretical training at the BAAU. After successful completion of academic and physical examinations, students receive flight training for a period of approximately 20 months at China Southern West Australian Flying College Pty Ltd. (the Australian Pilot College), a company that is 65% owned by the Company and 35% owned by CSAHC. Each student at the Australian Pilot College is required to fly at least 230 hours before being awarded a flight certificate. Graduates of the BAAU and the Australian Pilot College are hired by the Group as trainee pilots after passing a CAAC-administered examination to obtain a pilot license. The total training period for the Group's trainee pilots is approximately five years. About 110 trainee pilots graduated from the Australian Pilot College each year.

Prior to January 2003, as part of the pilot training program, the Group also operated a flight simulator training center in Zhuhai, Guangdong Province (the Zhuhai Training Center), which was equipped with simulators for all models of aircraft currently operated by the Group. Trainee pilots received their initial training in the operation of a specific aircraft at the Zhuhai Training Center, which also provided training to pilots from other Chinese airlines. Such flight simulation training has been shifted to Zhuhai Xiang Yi Aviation Technology Company Limited (Zhuhai Xiang Yi), a jointly controlled entity between the Company and CAE International Holdings Limited, since January 2003. Zhuhai Xiang Yi currently leases the flight simulation facilities of Zhuhai Training Center from the Group and provides flight simulation training services to the Group.

The Group's pilots are required to be licensed by the CAAC, which requires an annual recertification examination. The Group's pilots attend courses in simulator training twice annually and in simulator emergency procedures annually. The Group also conducts regular advanced training courses for captains and captain candidates. Pilots advance in rank based on number of hours flown, types of aircraft flown and their performance history.

The Group conducts theoretical and practical training programs for its flight attendants at its Flight Attendants Training Center in Guangzhou (the Guangzhou Training Center). The Guangzhou Training Center is equipped with computerized training equipment, as well as simulator cabins for all models of aircraft currently operated by the Group. At the Guangzhou Training Center, flight attendants of the Group receive comprehensive training in areas such as in-flight service, emergency evacuation and water rescue.

Ground Services

The Group makes arrangements with airport authorities, other airlines or ground services companies for substantially all ground facilities, including jet-ways, waiting areas, ticket counters and support services buildings, at each airport that it serves. The Group pays landing, parking and other fees to such airports, including Baiyun International Airport in Guangzhou. At domestic airports, such fees are generally determined by the CAAC.

At new Baiyun International Airport in Guangzhou, the Group operates its own passenger check-in, cargo, mail and baggage handling, aircraft maintenance and cleaning services. The Group also provides such services to other airlines that operate in new Baiyun International Airport.

Ground services at the airports in Shenzhen, Changsha, Wuhan, Zhengzhou, Haikou, Zhuhai, Xiamen, Fuzhou, Guilin, Shantou, Guiyang and Beihai are primarily operated directly by the Group. Ground services at other airports in China are provided to the Group by local airport authorities or local airlines pursuant to various service agreements. Ground services and other services at airports outside China are provided to the Group by foreign services providers pursuant to various service agreements with such parties. All such agreements of the Group are short term and

otherwise on terms that are customary in the industry.

Table of Contents**Air Catering**

The Company owns a 75% equity interest in Guangzhou Nanland Air Catering Company Limited (Nanland). Nanland provides in-flight meals, snacks, drinks and related services for all of the Group's flights originating in Guangzhou and substantially all other flights departing from new Baiyun International Airport. The Group contracts with various air catering suppliers with respect to in-flight catering services for flights originating from other airports, generally on an annual basis and otherwise on terms that are customary in the industry.

Cargo and Mail

The Group also provides air cargo and mail services. A significant portion of these services is combined with passenger flights services. Currently, the Group also has two Boeing 747-400 freighters servicing three international cargo routes, Shenzhen to Chicago and Shenzhen to Shanghai to Belgium and Shanghai to Amsterdam.

Currently, the Group conducts its cargo business primarily through its cargo division in Shenzhen. To further tap into the growing cargo market, the Group has commenced the construction of a cargo centre in the Guangzhou new airport in 2004 and the construction was completed in 2005.

Sales, Reservations and Marketing*Passenger Ticket Sales and Reservations*

The Group's ticket sales and reservations are conducted by or through independent sales agents and the Group's own network of exclusive sales offices as well as the CAAC's sales offices and CSAHC's affiliates. The Group has sales offices in Guangzhou and its other route bases. In addition, the Group maintains regional sales offices in other cities in China, including Beijing and Shanghai. The Group maintains international sales offices in Bangkok, Manila, Hanoi, Ho Chi Minh City, Singapore, Kuala Lumpur, Penang, Jakarta and Phnom Penh in Southeast Asia, as well as in Sendai, Toyame, Hiroshima, Nagoya, Niigata, Osaka, Fukuoka, Tokyo, Seoul, Daejeon, Daegu, Busan Amsterdam, Los Angeles, Sydney, Paris, Melbourne and Sharjah.

In Hong Kong, ticket sales and reservations services are provided to the Group by China National Aviation Corporation and Nanlung Travel Agency Limited (a subsidiary of CSAHC) for a commission of 3% - 9% of the ticket price. The Group also has agency agreements with airlines in the Asia-Pacific region, Europe, the United States and Africa for the processing of ticket sales and reservations on a reciprocal basis. In 2005, approximately 30% of all ticket sales for the Group's scheduled flights were made by the Group's and CAAC's network of sales offices and CSAHC's affiliates. The Group also sells tickets and accepts reservations through an extensive network of non-exclusive independent sales agents, substantially all of whom operate in cities throughout China, with the remainder operating principally in Hong Kong and other Southeast Asian destinations served by the Group. Under the agency agreements with these sales agents, the Group pays commissions based on the value of tickets sold. The Group pays independent sales agents in China a commission of 3% of the ticket price, and pays independent sales agents outside China a commission ranging from 5% - 9% of the ticket price. Sales agents are typically permitted to withhold their commission from the proceeds of ticket sales that are remitted to the Group. In 2005, independent sales agents accounted for approximately 70% of the Group's ticket sales for its scheduled flights.

Substantially all of the Group's sales offices and agents in China are linked electronically to the CAAC's computerized ticketing and reservations system, which is in turn linked to all domestic airlines for flights throughout China. The Group has also entered into membership agreements with several international reservation systems, including ABACUS in Southeast Asia, SABRE and GALILEO in the United States, AMADEUS in Europe and INFINI in Japan. These systems facilitate reservations and sales of tickets for the Group's international flights.

Cargo

The Group's cargo and mail services are promoted through its own cargo divisions and independent cargo agents both within and outside China that track available space among all airlines. In particular, the Group employs a number of cargo agents in the Pearl River delta region. The Group generally pays such agents a commission of 4% - 5% of the relevant cargo freight rate for domestic and international services, respectively.

Table of Contents*Promotional and Marketing Activities*

The Group engages in regular promotional and marketing activities in an effort to increase its market share. The Group's promotional and marketing activities for domestic routes emphasize safety, passenger comfort and the frequency of the Group's flights. The Group's promotional and marketing activities for international and Hong Kong regional passengers emphasize the Group's quality of service, extensive route network in China and greater frequency of flights relative to other Chinese airlines. In addition, the Group also promotes and markets its Hong Kong regional and international routes on the basis of price.

The Group has been seeking to increase its name recognition by offering new services to passengers. For example, the Group was the first Chinese airline to provide off-airport check-in services. The Group also offers transfer and baggage through-handling services to passengers connecting to other airlines, including passengers connecting in Hong Kong for flights to Taiwan.

To enhance relationships with its passengers, the Group has launched two frequent flyer programs, namely the China Southern Airlines Sky Pearl Club, and the Egret Mileage Plus. By the end of 2005, the Group had approximately 4,055,600 members under these programs.

Regulation

The Chinese commercial aviation industry is subject to a high degree of regulation and oversight by the CAAC. Regulations and policies issued or implemented by the CAAC encompass substantially all aspects of airline operations, including the approval of domestic, Hong Kong and Macau and international route allocation, published airfares, aircraft acquisition, jet fuel prices and standards for aircraft maintenance, airport operations and air traffic control. The Civil Aviation Law, which became effective in March 1996, provides a framework for regulation of many of these aspects of commercial aviation activities. Although China's airlines operate under the supervision and regulation of the CAAC, they are accorded an increasingly significant degree of operational autonomy, including with respect to the application for domestic, Hong Kong and Macau and international routes, the allocation of aircraft among routes, the purchase of flight equipment, the pricing of air fares within a certain range, the training and supervision of personnel and their day-to-day operations.

As an airline providing services on international routes, the Group is also subject to a variety of bilateral civil air transport agreements that provide for the exchange of air traffic rights between China and various other countries. In addition, China is a contracting state, as well as a permanent member, of the International Civil Aviation Organization (the ICAO), an agency of the United Nations established in 1947 to assist in the planning and development of international air transport, and is a party to many other international aviation conventions. The ICAO establishes technical standards for the international aviation industry. The Group believes that it, in all material respects, complies with all such technical standards.

Route Rights

Domestic Routes. The right of any Chinese airline to carry passengers or cargo on any domestic route must be obtained from the CAAC. Non-Chinese airlines are not permitted to provide domestic air service between destinations in China. The CAAC's policy is to assign a domestic route to the Chinese airline that is best suited to serve the route based, in part, on the location of the airline's main or regional base at the point of origin. Under current regulations, airlines are generally expected to operate mainly from their route bases, and flights within a particular region are expected to be served by airlines based in that region. The Group believes that these regulatory parameters benefit airlines, such as the Group, that have a large number of regional route bases. The CAAC also considers other factors that may make a particular airline suitable to operate a domestic route, including the applicant's general operating authority, compliance with pricing regulations and regulations applicable to safety and service quality, market demand, the ability of the applicant in terms of its existing routes, and airport facilities and related support services.

The CAAC considers market conditions for a domestic route in determining whether the route should be allocated to one or more airlines. The CAAC requires the passenger load factor on a particular route to reach 75% before additional flights may be added on that route. Airlines serving the route are given priority for such additional flights, and only if such airlines cannot operate more flights will the CAAC permit another airline to commence service.

Hong Kong and Macau Routes. Hong Kong and Macau routes and landing rights are derived from agreements between the Chinese Government and the government of the Hong Kong SAR, and between the Chinese Government

and the government of Macau SAR. Such rights are allocated by the CAAC among the four Chinese airlines permitted to fly to Hong Kong or Macau. The Group understands that the criteria for determining whether a Hong Kong and Macau route will be allocated to a particular airline, include market demand, the ability of the airline to service the route and the appropriateness of the airline's aircraft for such route.

Table of Contents

A number of Hong Kong routes are operated by Chinese airlines on a charter flight basis. Permission to operate these flights is in theory subject to monthly review by the CAAC and the Hong Kong Civil Aviation Department. The CAAC has informally indicated that it primarily considers market demand and airline capability in granting permission for such flights.

International Routes. International route rights, as well as the corresponding landing rights, are derived from air services agreements negotiated between the Chinese Government, through the CAAC, and the government of the relevant foreign country. Each government grants to the other the right to designate one or more domestic airlines to operate scheduled service between certain destinations within each of such countries. Upon entering into an air services agreement, the CAAC determines the airline to be awarded such routes based on various criteria, including the availability of appropriate aircraft, flight and management personnel, safety record, the overall size of the airline, financial condition and sufficiency of assets to bear civil liabilities in international air services. These route rights may be terminated by the CAAC under special circumstances.

The criteria for determining whether an international route will be allocated to a second airline generally include (i) the terms of the relevant bilateral civil aviation agreement; (ii) consistency with overall national plans and the national interest and the enhancement of reasonable competition; and (iii) whether the international airports to be used are sufficient for the aircraft flown and employ security measures consistent with international standards.

In addition, if the relevant bilateral civil aviation agreement permits more than one Chinese airline to operate a particular international route, the CAAC will only permit a second airline to operate on such route if the number of passengers carried annually exceeds 100,000 and if there is a minimum average load factor of 68% for routes with at least five weekly flights by Chinese airlines, or 80% for routes with four or fewer weekly flights by Chinese airlines.

Air Fare Pricing Policy

Pursuant to Pricing Reform of Domestic Civil Aviation as approved by the State Council of the PRC effective on April 20, 2004, prices on domestic routes now fluctuate freely within a predetermined range. Instead of direct supervision by setting prices of air tickets through local price bureau, the government now provides guidance on domestic flights and domestic civil aviation is controlled by the government indirectly. Market-oriented pricing policy was introduced and pricing system has been adjusted as a result of the above pricing reform.

Published air fares of Chinese airlines for the Hong Kong and Macau routes are determined by the CAAC and the relevant civil aviation authorities in Hong Kong or Macau, subject to consultation between the relevant Chinese airlines and Hong Kong or Macau airlines. Airlines may offer discounts on flights on their Hong Kong regional routes.

Published air fares of Chinese airlines for international routes are determined through consultation between the relevant Chinese airlines and foreign airlines in accordance with the civil aviation agreements between the Chinese Government and the relevant foreign government, taking into account the international air fare standards established through the International Air Transport Association. All air fares for international routes must be approved by the CAAC. Discounting of published international air fares is permitted.

Acquisition of Aircraft and Flight Equipment

The CAAC requires all Chinese airlines to acquire their aircraft through China Aviation Supplies Import and Export Corporation (CASC), an entity controlled by the CAAC. If a Chinese airline plans to acquire an aircraft, the airline must first seek approval from the CAAC and NDRC. The airline must, as a condition of approval, provide specific acquisition plans, which are subject to modification by the CAAC and NDRC. If the CAAC and NDRC approve an aircraft acquisition, the airline negotiates the terms of the acquisition with the manufacturer together with CASC because CASC possesses the license required to import or export aircraft, and CASC receives a commission in respect thereof. Most Chinese airlines are also required to acquire their aircraft engines, spare parts and other flight equipment through CASC. The Company and a few other Chinese airlines are permitted to import jet engines and other flight equipment for their own use without the participation of CASC. In the case of the Company, SAIETC acts as its importer agent and is paid an agency fee for its services.

Jet Fuel Supply and Pricing

Table of Contents

CAOSC and Bluesky Oil Supplies Company, companies controlled and supervised by the CAAC, are the only jet fuel supply companies in China, with the exception of the joint venture jet fuel supply companies that supply the Shenzhen, Zhuhai and Sanya airports, in each of which CAOSC is a partner. Airlines are generally not permitted to buy jet fuel from other suppliers in their domestic operations, since the direct import of jet fuel for domestic purposes is prohibited. As a result, all Chinese airlines purchase their domestic jet fuel supply requirements (other than in respect of their Shenzhen, Zhuhai or Sanya operations) from the seven regional branches of CAOSC. Jet fuel obtained from such regional branches is purchased at uniform prices throughout China that are determined and adjusted by CAOSC from time to time with the approval of the CAAC and the pricing department of the NDRC based on market conditions and other factors.

Safety

The CAAC has made the improvement of air traffic safety in China a high priority and is responsible for the establishment of operational safety, maintenance and training standards for all Chinese airlines. The Chinese airlines are required to provide monthly flight safety reports to the CAAC, including reports of flight or other incidents or accidents and other safety related problems involving such airline's aircraft occurring during the relevant reporting period. The CAAC periodically conducts safety inspections on individual airlines.

The CAAC oversees the standards of all Chinese airline pilots through its operation of the CAAC Aviation College. The CAAC Aviation College is a monitoring unit located in Tianjin which implements a uniform pilot certification process applicable to all Chinese airline pilots and is responsible for the issuance, renewal, suspension and cancellation of pilot licenses. Every pilot is required to pass CAAC-administered examinations before obtaining a pilot license and is subject to an annual recertification examination.

All aircraft operated by Chinese airlines, other than a limited number of leased aircraft registered in foreign countries, are required to be registered with the CAAC. All aircraft operated by Chinese airlines must have a valid certificate of airworthiness, which is issued annually by the CAAC. In addition, maintenance permits are issued to a Chinese airline only after its maintenance capabilities have been examined and assessed by the CAAC. Such maintenance permits are renewed annually. All aircraft operated by Chinese airlines may be maintained and repaired only by CAAC-certified maintenance facilities, whether located within or outside China. Aircraft maintenance personnel must be certified by the CAAC before assuming aircraft maintenance posts.

Security

The CAAC establishes and supervises the implementation of security standards and regulations for the Chinese commercial aviation industry. Such standards and regulations are based on Chinese laws, as well as standards developed by international commercial aviation organizations. Each airline and airport in China is required to submit to the CAAC an aviation security handbook describing specific security procedures established by such airline or airport for the day-to-day operations of commercial aviation and procedures for staff training on security. Such security procedures must be based on relevant CAAC regulations and international commercial aviation treaties. Chinese airports and airlines that operate international routes must also adopt security measures in accordance with the requirements of the relevant international agreements.

Noise and Environmental Regulation

All airlines in China must comply with the noise and environmental regulations of the PRC State Environmental Protection Agency. Applicable regulations of the CAAC permit Chinese airports to refuse take-off and landing rights to any aircraft that does not comply with noise regulations.

Chinese Airport Policy

The CAAC supervises and regulates all civilian airports in China. The local government of the PRC manages the administration of most civilian airports in China, including the new Baiyun International Airport as of 2005, with limited exceptions. Airports in China are also subject to regulation and ongoing review by the CAAC, which determines take-off and landing charges, as well as charges for the use of airports and airport services.

Competition

The CAAC's extensive regulation of the Chinese commercial aviation industry has had the effect of managing competition among Chinese airlines. Nevertheless, competition has become increasingly intense in recent years due to a number of factors, including relaxation of certain regulations by the CAAC, an increase in the number of Chinese

airlines and an increase in the capacity, routes and flights of Chinese airlines.

Table of Contents

In the Chinese aviation industry, the three dominant airlines are the Group, Air China and China Eastern Airlines (China Eastern). In 2005, these three airlines together controlled approximately 74.84% of the commercial aviation market in China as measured by passengers carried.

Most major Chinese airlines have in recent years significantly expanded their fleets, while at the same time, passenger traffic has not increased proportionately. This has resulted in a reduction in the passenger load factors for most Chinese airlines. As a result, Chinese airlines are required to be more competitive with respect to, for example, quality of service, including ticketing and reservations, in-flight services, flight scheduling and timeliness.

The Group expects that competition in China's commercial aviation industry will continue to be intense. The Group will also face increasing competition from alternative means of transport, such as highway and rail, as China's transportation infrastructure improves.

Relative to other Chinese airlines, however, the Group believes that it possesses certain competitive advantages. The Group has the most extensive route network and the largest number of regional route bases among Chinese airlines, which the Group believes places it in a favorable position in the route allocation process. The Group also has the largest aircraft fleet of any Chinese airline, which, together with the Group's planned aircraft acquisitions, will permit the Group to expand its operations and to improve the deployment of the aircraft in its fleet. The Group also believes that its dominant presence in the populous and economically developed southern and central regions of China provides it with a competitive advantage in attracting new customers and that its fully integrated flight training, aircraft and engine maintenance, and air catering operations enable it to achieve and maintain high quality service to its customers.

The following table sets forth the Group's market share of passengers carried, cargo and mail carried and total traffic of Chinese airlines for the years indicated.

Year	Passenger carried		Cargo and Mail Carried		Total traffic	
	Industry	Group's	Industry	Group's	Industry	Group's
	Total (in million)	Share (% of total)	Total (in thousand)	Share (% of total)	Total (in billion)	Share (% of total)
1999	60.9	24.8	1,704	22.9	10.6	18.9
2000	67.2	24.9	1,967	22.5	12.3	20.0
2001	75.2	25.4	1,709	23.3	14.1	21.5
2002	85.9	25.0	2,021	23.3	16.5	21.9
2003	87.6	23.4	2,190	21.2	17.1	20.8
2004	121.2	23.3	2,770	19.7	23.1	20.2
2005	138.3	31.8	3,067	25.3	26.1	27.9

Domestic Routes

The Group competes against its domestic competitors primarily on the basis of flight schedule, route network, quality of service, safety, type and age of aircraft and, to a lesser extent and until recently, price. The Group competes against 10 other Chinese airlines in its various domestic route markets. Of these competitors, the largest are two airlines owned or controlled by the Chinese Government, and the remaining eight airlines are operated by or under the control of various Chinese provincial or municipal governments.

Table of Contents

The following table sets forth the Group's market share of the passengers carried, cargo and mail carried on departing flights and total departing flights at the ten busiest airports in China, based on passenger volume, in 2005.

Airport	Passenger carried (% of total)	Cargo and Mail	Departing flight (% of total)
		Carried (% of total)	
Beijing	19.14%	19.06%	17.95%
Shanghai Pudong	9.86%	5.13%	10.38%
Guangzhou	54.71%	45.10%	53.75%
Shanghai Hongqiao	18.18%	18.41%	16.95%
Shenzhen	33.08%	31.59%	29.98%
Chengdu	13.99%	17.07%	10.72%
Kunming	21.71%	18.27%	18.24%
Hangzhou	38.31%	32.91%	35.00%
Xian	14.75%	19.69%	10.18%
Haikou	30.26%	33.19%	23.73%

The following table sets forth the Group's market share of the passengers carried, cargo and mail carried on departing flights and total departing flights at 8 busiest airports in southern and central China (excluding Guangzhou, Shenzhen and Haikou, which are included in the table above), based on passenger volume, in 2005.

Airport	Passenger carried (% of total)	Cargo and Mail	Departing flight (% of total)
		Carried (% of total)	
Changsha	51.60%	71.54%	47.39%
Wuhan Tianhe	39.60%	43.56%	33.79%
Guilin	38.90%	38.26%	38.69%
Sanya	43.45%	29.70%	40.33%
Zhengzhou	71.79%	61.78%	59.17%
Nanning	43.60%	40.67%	35.27%
Zhang Jia Jie	40.45%	80.56%	38.33%
Shantou	81.64%	80.67%	69.55%

Hong Kong and Macau Routes

The Group dominates the routes operated by Chinese airlines between Hong Kong and Macau and China. In 2005, the Group operated an average of more than 17,807 charter and other scheduled flights per week between China and Hong Kong or Macau, accounting for approximately 34.4% of the total number of passengers carried by all Chinese airlines on the Hong Kong and Macau routes. The Group believes that the routes on which it operates charter flights are among its highest yielding routes, primarily because the Group faces limited competition on such routes and is consequently less subject to downward pricing pressures. Dragon Air, which is a Hong Kong-based airline, competes with the Group on many of the Group's Hong Kong and Macau routes.

Air Macau Group Ltd. (Air Macau), a Macau-based airline, started to operate routes in 1996 between Macau and China, including destinations such as Beijing, Shanghai, Xiamen and Wuhan. Air Macau also operates routes between Macau and Taiwan, including flights which allow passengers to travel between Taiwan and China through Macau. The air fares on some of Air Macau's routes are significantly less than air fares on comparable routes of the Group. Air Macau's routes provide an alternative to and compete with the Group's Hong Kong and Macau routes for passengers travelling between Taiwan and China.

International Routes

The Group competes with Air China, China Eastern and many well-established foreign airlines on its international routes. Most of these international competitors have significantly longer operating histories, substantially greater financial and technological resources and greater name recognition than the Group. In addition, the public's perception of the safety and service records of Chinese airlines may adversely affect the Group's ability to compete against its Hong Kong and Macau and international competitors. Many of the Group's international competitors have larger sales networks and participate in reservation systems that are more comprehensive and convenient than those of the Group, or engage in promotional activities that may enhance their ability to attract international passengers.

Table of Contents

Air China has the most extensive international route network among Chinese airlines. Beijing, the hub of Air China's operations, has been the destination for most international flights to China. The Group competes against, among other airlines, Thai Airways International, Singapore Airlines, Malaysian Airlines System, Air China and China Eastern on flights to Southeast Asian destinations. In the case of its European routes, the Group's competitors include Air France and KLM. The Group faces competition on its international route from Air China and China Eastern, each of which operates several routes between destinations in China and the United States, as well as international airlines that fly to Los Angeles from Hong Kong. The Group competes in the international market primarily on the basis of safety, price, timeliness and convenience of scheduling.

Airline Subsidiaries

The Airline Subsidiaries are joint ventures established by the Company and local companies in the provinces or special economic zones where the Airline Subsidiaries are based and are engaged in providing airline and related services. Except for Guangxi Airlines, of which the Company has 95% equity interest, the Company owns 60% equity interest in each of the remaining Airline Subsidiaries.

As of December 31, 2005, Xiamen Airlines operated under its own MF code a fleet of 34 aircraft on 96 domestic routes, 9 international routes and 7 Hong Kong and Macau routes. In 2005, Xiamen Airlines carried a total of about 6.92 million passengers, or approximately 15.7% of the passengers carried by the Group in that year, and had RMB4,852 million in operating revenue.

As of December 31, 2005, Shantou Airlines operated under the Group's CZ code 6 aircraft on 12 domestic routes, 1 international route and 1 Hong Kong and Macau route. In 2005, Shantou Airlines carried a total of about 1.17 million passengers, or 2.7% of the passengers carried by the Group in that year. Total operating revenue of Shantou Airlines for the year ended December 31, 2005 was RMB844 million.

As of December 31, 2005, Guangxi Airlines operated under the CZ code 5 aircraft on 15 domestic routes, 4 international routes and 2 Hong Kong and Macau routes. In 2005, Guangxi Airlines carried a total of about 1.03 million passengers, or 2.3% of the total number of passengers carried by the Group in that year. Total operating revenue of Guangxi Airlines for the year ended December 31, 2005 was RMB722 million.

As of December 31, 2005, Zhuhai Airlines operated under the CZ code 5 aircraft on 10 domestic routes. In 2005, Zhuhai Airlines carried a total of about 834,000 passengers, or approximately 1.9% of the total number of passengers carried by the Group in that year. Total operating revenue of Zhuhai Airlines for the year ended December 31, 2005 was RMB719 million.

As of December 31, 2005, Guizhou Airlines operated under the CZ code 6 aircraft on 14 domestic routes. In 2005, Guizhou Airlines carried a total of about 1.34 million passengers, or approximately 3.0% of the total number of passengers carried by the Group in 2005. Total operating revenue of Guizhou Airlines was approximately RMB882 million for the year ended December 31, 2005.

Insurance

The CAAC maintains fleet and legal liability insurance on behalf of the Group and all other Chinese airlines with the People's Insurance Company of China (PICC) under the PICC master policy. The Group maintains aviation hull all risks, spares and airline liability insurance, aircraft hull all risks and spare engines deductible insurance, aviation hull war and allied perils policy of the type and in the amount customary in the Chinese aviation industry.

Under Chinese law, civil liability of Chinese airlines for injuries suffered by passengers on domestic flights is limited to RMB70,000 (approximately US\$8,455) per passenger. Under the Convention for the Unification of Certain Rules Relating to International Transportation by Air of 1929 (as amended by the protocol of 1955, the Warsaw Convention), unless a separate agreement has been entered into between China and a specific country, civil liability for injuries suffered by passengers on international flights is limited to US\$135,000 per passenger. The Group believes that it maintains adequate insurance coverage for the maximum civil liability that can be imposed in respect of injuries to passengers under Chinese law, the Warsaw Convention or any separate agreement applicable to the Group.

The CAAC allocates insurance premiums payable in respect of the PICC master policy to each participating airline based on the value of the airline's insured aircraft or, in the case of leased aircraft, based on the amount required by the terms of the lease. Insurance claims made by any participating airline may cause the premiums paid by the Group

under the PICC master policy to increase. PICC's practice has been to reinsure a substantial portion of its aircraft insurance business through reinsurance brokers on the London reinsurance market.

Table of Contents

Intellectual Property

The Group's businesses and operations, other than the businesses and operations of Xiamen Airlines, are conducted under the names "China Southern" and "China Southern Airlines" in both English and Chinese. The Group uses as its logo a stylized rendition of a kapok plant. Xiamen Airlines conducts its businesses and operations under the name of "Xiamen Airlines" in English and Chinese and uses its own logo depicting a stylized rendition of an egret.

The names "China Southern" and "China Southern Airlines" contain Chinese words of common usage and are therefore not eligible for registration as tradenames under current Chinese law. The kapok logo is a trademark registered in China and recorded with the International Air Transport Association (IATA), the rights to which are owned by CSAHC. The Company and CSAHC have entered into a trademark license agreement (the "Trademark License Agreement"), pursuant to which CSAHC has licensed to the Group the right to use the names "China Southern" and "China Southern Airlines" in both English and Chinese and granted the Company a 10-year renewable license from 1997 to use the kapok logo on a world-wide basis. CSAHC has retained the right to use the kapok logo in connection with its non-airline related businesses conducted as of the date of the Trademark License Agreement and to permit its affiliates that do not compete, directly or indirectly, with the Group to use the kapok logo. Xiamen Airlines owns all rights to its egret logo, which is a trademark registered in China, and recorded with the IATA.

The Company owns all rights to three trademarks, being SKY PEARL CLUB, the logo relating to Easy Cargo 5000 and SKY PEARL CARD which are registered in China, and recorded with Trademark Office of the State Administration for Industry and Commerce. Zhuhai Airlines Company Limited owns all rights to the airline logo which is registered with the Trademark Office of the State Administration for Industry and Commerce.

Organizational Structure

The following chart illustrates the corporate structure of the Group as of year end 2005 and the aggregate effective equity interest of the Company in each of its principal subsidiaries, affiliated companies and jointly controlled entities. Note a: Another 26% ownership interest is held by CSA's subsidiaries.

Table of Contents

The particulars of the Company's principal subsidiaries as of December 31, 2005 are as follows:

Name of company	Place and date of	Proportion of ownership interest held by the Company
	establishment /operation	
Guangxi Airlines Company Limited	PRC April 28, 1994	95
Southern Airlines (Group) Shantou Airlines Company Limited	PRC July 20, 1993	60

Beijing Southern Airlines Ground Service PRC
Company Limited April 1, 2004

Certain of the Company's subsidiaries, affiliated companies and jointly controlled entities are PRC joint ventures which have limited duration pursuant to PRC law.

Property, Plant and Equipment

For a discussion of the Group's aircraft, see Item 4, Information on the Company History and development of the Company Aircraft Fleet.

Table of Contents

The Group's headquarters in Guangzhou occupy an area of approximately 149,000 square meters of land and a total gross floor area of approximately 149,000 square meters. The Group leases from CSAHC the land in Guangzhou on which the Group's headquarters and other facilities are located. The Group also leases from CSAHC certain buildings at the Wuhan and Haikou airports.

The Company's principal properties are located at its headquarters site and at its route bases. The following table sets forth certain information with respect to the Company's properties at its headquarters in Guangzhou and certain route bases as of the date hereof.

	Land		Buildings	
	(in square meters)		(in square meters)	
	Owned	Leased	Owned	Leased
Guangzhou	9,797	80,809	514,957	1,755
Shenzhen	208,740		54,093	
Zhuhai	170,062		18,791	
Changsha	138,949		47,190	
Zhengzhou	290,841		60,582	
Haikou	5,265		63,570	19,633
Wuhan		31,061	17,335	
Nanyang			12,156	

The following table sets forth certain information with respect to the properties of the Airline Subsidiaries as of the date hereof.

	Land		Buildings	
	(in square meters)		(in square meters)	
	Owned	Leased	Owned	Leased
Xiamen	451,121		355,038	12,509
Shantou	36,931	55,407	40,624	
Zhuhai	68,186		54,398	2,135
Guilin	72,563		73,379	139
Guizhou	259,879		93,390	3,533

As systems for registration and transfer of land use rights and related real property interests in China have been implemented relatively recently, such systems do not yet comprehensively account for all land and related property interests. The land in Guangzhou on which the Group's headquarters and other facilities are located and the buildings that the Group uses at its route base in Wuhan and Haikou are leased by the Company from CSAHC. However, CSAHC lacks adequate documentation evidencing CSAHC's rights to such land and buildings, and, as a consequence, the lease agreements between CSAHC and the Company for such land may not be registered with the relevant authorities. Lack of registration may affect the validity of such lease agreements. There are certain other parcels of land and buildings owned or used by the Group that lack adequate documentation. Lack of adequate documentation for land use rights and ownership of buildings may impair the ability of the Group to dispose of or mortgage such land use rights and buildings.

ITEM 5. OPERATING AND FINANCIAL REVIEW AND PROSPECTS.

The following discussion and analysis should be read in conjunction with the Financial Statements of the Group contained elsewhere in this Annual Report. The Group maintains its books and accounts in accordance with PRC Accounting Rules and Regulations (PRC GAAP) and prepares its financial statements in accordance with both PRC GAAP and IFRS. The Financial Statements contained elsewhere in this Annual Report have been prepared in accordance with IFRS. IFRS differs in certain significant respects from U.S. GAAP. Information relating to the nature and effect of such differences is presented in Note 51 to the Financial Statements.

Certain IFRS comparative figures have been restated as a result of the changes in accounting policies. For details, please refer to item 3.

Table of Contents**Critical Accounting Policies**

The discussion and analysis of the Group's financial condition and results of operations are based upon the consolidated financial statements, which have been prepared in accordance with IFRS. The preparation of such consolidated financial statements requires the Group to make estimates and judgments that affect the reported amount of assets and liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Actual results may differ from these estimates under different assumptions or conditions.

Critical accounting policies are defined as those that are reflective of significant judgments and uncertainties, and potentially result in materially different results under different assumptions and conditions. The Group believes that its critical accounting policies are limited to those described below. For a detailed discussion on the application of these and other accounting policies, see Note 2 to the Financial Statements.

Revenue Recognition

The Group records sales of passenger, cargo and mail tickets as Sales in advance of carriage, a current liability, on the consolidated balance sheet. Passenger, cargo and mail revenues are recognized and the related current liability is reduced when the transportation is provided. Sales in advance of carriage therefore represents ticket sold for future travel dates and estimated future refunds and exchanges of tickets sold for past travel dates. The Group's balance of sales in advance of carriage as of December 31, 2005 was RMB1,413 million.

Property, plant and equipment

The Group has approximately RMB54,266 million fixed assets as of December 31, 2005. In addition to the original cost of these assets, their recorded value is impacted by a number of policy elections, including the estimation of useful lives and residual values and when necessary, impairment charges.

There were no significant changes to the original estimated useful lives or residual values of the property, plant and equipment of the Group during 2003, 2004 and 2005. The Group records aircraft at acquisition cost. Depreciable life is determined through economic analysis, reviewing existing fleet plans, recommendations from manufacturers and comparing estimated lives to other airlines that operate similar fleets. Residual values are estimated based on our historical experience with regards to the sale of aircraft and are established in conjunction with the estimated useful lives of the aircraft. Residual values are based on current dollars when the aircraft are acquired and typically reflect asset values that have not reached the end of their physical life. Both depreciable lives and residual values are reviewed periodically to recognize changes in our fleet plan and changes in conditions.

In addition, the Group evaluates fixed assets used in operations for impairment. Under IFRS, if circumstances indicate that the net book value of an asset may not be recoverable, this asset may be considered impaired, and an impairment loss may be recognized in accordance with IAS 36 Impairment of Assets. The amount of impairment loss is the difference between the carrying amount of the asset and its recoverable amount. The recoverable amount is the greater of the net selling price and the value in use. In determining the value in use, the Group utilizes certain assumptions, including, but not limited to: (i) estimated fair market value of the assets, and (ii) estimated future cash flows expected to be generated by these assets, which are based on additional assumptions such as asset utilization, length of service the asset will be used in the Group's operations and estimated residual values. The Group will use all readily available information in determining an amount that is a reasonable approximation of recoverable amounts, including estimates based on industry trends and reference to market rates and transactions. Changes to the above estimates may have a material effect on the Group's Financial Statements. As of December 31, 2005, based on the result of evaluation, the Group considered that no impairment is required. Under U.S. GAAP, property, plant, and equipment of the Group are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset. During 2003, the impairment losses of RMB510 million was recognized on certain aircraft of CNA.

Impairment loss for doubtful accounts

The Group maintains an impairment loss for doubtful accounts for estimated losses resulting from the inability of the debtors to make required payments. The Group bases the estimates of future cash flows on the ageing of the trade receivables balance, debtors' credit-worthiness, and historical write-off experience. If the financial condition of the debtors were to deteriorate, actual write-offs would be higher than estimated.

Movements in impairment losses for doubtful accounts are as follows:

	Year ended December	
	31,	
	2004	2005
	RMB	RMB
At January 1	70	92
Impairment losses for bad and doubtful accounts	27	
Through the CNA/XJA Acquisitions	44	
Bad and doubtful accounts written off	(49)	(48)
At December 31	92	44

Table of Contents**Overview**

As a result of the growth in airline market, and acquisition of the airline operations and related assets of China Northern Airlines Company (CNA) and Xinjiang Airlines Company (XJA), the Group's business benefited from the increase of transport capacity, passenger volume and cargo and mail carried. Nevertheless, the Group is facing pressure on its operation due to continuing increase of jet fuel cost and intensified competition.

With effect from July 21, 2005, China began to adopt a managed floating exchange rate system based on market supply and demand of currencies, which is subject to adjustments with reference to a basket of currencies. The exchange rate of Renminbi (RMB) would no longer be pegged to the US dollar only and a more flexible exchange rate system was established. The exchange rate of U.S. dollar and RMB was at USD1.00: RMB8.11. Because the Group finances its aircraft acquisitions mainly through finance leases or bank loans in U.S. dollars, and there are a substantial amount of transactions and obligations denominated in U.S. dollars in relation to its global purchase of jet fuel, lease and purchase of aviation equipment as well as major repairs, in addition to the landing fees of its international flights in the airports of other countries, the Group benefited from the RMB appreciation. RMB appreciation has brought a one-off exchange gain to the Group and reduced its operating costs which are denominated in foreign currencies. On the other hand, RMB appreciation will also present the Group with a challenge in price competition in international route operations.

According to the Notice of the National Development and Reform Commission (NDRC) and the Civil Aviation Administration of China (CAAC) on Issues Relating to Introduction of the Fuel Surcharge for Domestic Routes, domestic airlines imposed fuel surcharges for all the domestic routes (excluding those from the mainland PRC to Hong Kong and Macau) with effect from August 1, 2005 (based on flight time). On February 16, 2006, the NDRC and CAAC released a supplementary document on Issues Relating to the Introduction of Fuel Surcharge for Domestic Routes, stating that due to the rising jet fuel price, the period of imposition of fuel surcharge by airlines was extended. On March 28, 2006, the NDRC and CAAC released another supplementary document on Issues Relating to the Introduction of Fuel Surcharge for Domestic Routes, thereby adjusting the amount of fuel surcharges from RMB20 to RMB30 per passenger for distance flown being less than 800 kilometres, and from RMB40 to RMB60 for distance exceeding 800 kilometres, during the period temporarily from April 10, 2006 to October 10, 2006. The introduction of fuel surcharge and the extension of the duration of the same will help relieve, to a certain extent, the burden of high jet fuel cost on the Group.

The Group's operating revenue is substantially dependent on the passenger and cargo traffic volume carried, which is subject to seasonal and other changes in traffic patterns, the availability of appropriate time slots for the Group's flights and alternative routes, the degree of competition from other airlines and alternate means of transportation, as well as other factors that may influence passenger travel demand and cargo and mail volume. In particular, the Group's airline revenue is generally higher in the second and third quarters than in the first and fourth quarters.

Like most airlines, the Group is subject to a high degree of financial and operating leverage. A significant percentage of the Group's operating expenses is fixed costs that do not vary proportionally based on the Group's yields or the load factors. These fixed costs include depreciation expense, jet fuel costs, landing and navigation fees, financing costs, operating lease payments, aircraft maintenance costs and labor for flight crew, cabin crew and ground personnel. Thus, a minor change in the Group's yields or load factors would have a material effect on the Group's results of operations. In addition, certain of these expenses, primarily financing costs and operating lease payments, labor costs and depreciation do not vary based on the number of flights flown. Thus, the Group's operating results can also be substantially affected by minor changes in aircraft utilization rates. The Group is and will continue to be highly leveraged with substantial obligations denominated in foreign currencies and, accordingly, the results of its operations are significantly affected by fluctuations in foreign exchange rates, particularly for the U.S. dollar and the Japanese yen. The Group recognized a net exchange loss of RMB59 million and net exchange gain of RMB1,220 million in 2004 and 2005, respectively. These amounts represented mainly unrealized exchange differences resulting from the retranslation of the foreign currency borrowings.

A number of other external variables, including political and economic conditions in China, tend to have a major impact on the Group's performance. The Group's financial performance is also significantly affected by factors arising from operating in a regulated industry. As substantially all aspects of the Group's airline operations are regulated by

the PRC government, the Group's operating revenues and expenses are directly affected by the PRC government's policies with respect to domestic airfares, jet fuel prices and landing and navigation fees, among others. The nature and extent of airline competition and the ability of Chinese airlines to expand are also affected by CAAC's control

Table of Contents

over route allocations. Any changes in the PRC government's regulatory policies, or any implementation of such policies could have a significant impact on the Group's future operations and its ability to implement its operating strategy.

Certain Financial Information and Operating Data by Geographic Region

The following table sets forth certain financial information and operating data by geographic region for the years ended December 31, 2003, 2004 and 2005:

Operating Results

The historical results of operations discussed below may not be indicative of the Group's future operating performance. In addition to the factors discussed under *Overview* above, the Group's future operations will be affected by, among other things, changes in the aviation market, the cost of jet fuel, aircraft acquisition and leasing costs, aircraft maintenance expenses, take-off and landing charges, wages, salaries and benefits and other operating expenses, foreign exchange rates and the rates of income taxes paid.

2005 Compared with 2004

The loss for 2005 attributable to equity shareholders of the Company is RMB1,848 million, as compared to a loss of RMB48 million for 2004. The scale of operations increased as a result of acquisition of the airline operations and related assets of CNA and XJA on December 31, 2004. The Group's operating revenue increased by RMB14,319 million or 59.7% from RMB23,974 million in 2004 to RMB38,293 million in 2005. Passenger load factor increased by 0.9 percentage point from 69.2% in 2004 to 70.1% in 2005. Passenger yield (in passenger revenue per RPK) decreased slightly by 3.5% to RMB0.55. Average yield (in traffic revenue per RTK) increased by 2.6% from RMB5.01 in 2004 to RMB5.14 in 2005. Operating expenses increased by RMB16,533 million or 71.7% from RMB23,065 million in 2004 to RMB39,598 million in 2005. As the increase in operating revenue is smaller than the increase in operating expenses, operating profit decreased by 243.6% from an operating profit of RMB909 million in 2004 to an operating loss of RMB1,305 million in 2005. The Group's net non-operating expenses decreased by 20.5%, from RMB689 million in 2004 to RMB548 million in 2005, mainly attributable to the combined effect of increase in exchange gain of RMB1,279 million, increase in interest expense of RMB925 million and a decrease in share of results of associates of RMB295 million.

Operating revenue

Substantially all of the Group's operating revenue is attributable to airline and airline related operations. Traffic revenue accounted for 97.7% and 97.4% of total operating revenue in 2005 and 2004 respectively. Passenger revenue and, cargo and mail revenue accounted for 91.7% and 8.3% respectively of total traffic revenue in 2005. The other operating revenue is mainly derived from commission income, income from general aviation operations, fees charged for ground services rendered to other Chinese airlines and air catering services.

Operating revenue increased by 59.7% from RMB23,974 million in 2004 to RMB38,293 million in 2005. The increase was primarily due to a 62.7% rise in passenger revenue from RMB21,100 million in 2004 to RMB34,328 million in 2005 resulting from increased traffic volume. The total number of passengers carried increased by 56.4% to 44.12 million passengers and the ASKs increased by 64.3% to 88,361 million in 2005. The increase in 2005 compared to 2004 was attributable to the general increasing traffic demand in the PRC airline market and deliveries of 108 aircraft during 2005 which caused an increase in passenger capacity of 68.1%.

Table of Contents

Passenger yield decreased slightly by RMB0.02. RPKs increased by 66.5% from 37,196 million in 2004 to 61,923 million in 2005, primarily as a result of the increase in passengers carried.

Domestic passenger revenue, which accounted for 82.1% of the total passenger revenue in 2005, increased by 67.1% from RMB16,869 million in 2004 to RMB28,182 million in 2005. Domestic passenger traffic in RPKs increased by 76.8%, mainly due to an increase in passengers carried. Domestic passenger yield decreased slightly by RMB0.03 to RMB0.55 in 2005.

Hong Kong and Macau passenger revenue, which accounted for 3.5% of total passenger revenue, increased by 8.2% from RMB1,104 million in 2004 to RMB1,194 million in 2005. For Hong Kong and Macau flights, passenger traffic in RPKs increased by 28.8%, while passenger capacity in ASKs increased by 40.1%, resulting in a 5.1 percentage point decrease in passenger load factor from 2004. Passenger yield decreased from RMB0.92 in 2004 to RMB0.77 in 2005 mainly due to intensified competition among airlines.

International passenger revenue, which accounted for 14.4% of total passenger revenue, increased by 58.4% from RMB3,127 million in 2004 to RMB4,952 million in 2005. For international flights, passenger traffic in RPKs increased by 29.5%, while passenger capacity in ASKs increased by 29.0%, resulting in a 0.3 percentage point rise in passenger load factor from 2004. Passenger yield increased by 21.7% from RMB0.46 in 2004 to RMB0.56 in 2005 mainly resulted from higher ticket price and the increases in traffic derived from short haul routes which generally had a higher yield than long haul routes.

Cargo and mail revenue, which accounted for 8.3% of the Group's total traffic revenue and 8.1% of total operating revenue, increased by 37.7% from RMB2,244 million in 2004 to RMB3,091 million in 2005. The increase was attributable to the increasing traffic demand.

Other operating revenue increased by 38.7% from RMB630 million in 2004 to RMB874 million in 2005. The increase was primarily due to the general growth in income from various auxiliary operations.

Operating expenses

Total operating expenses in 2005 amounted to RMB39,598 million, representing an increase of 71.7% or RMB16,533 million over 2004, primarily due to the total effect of increases in jet fuel costs, maintenance expenses and aircraft and traffic servicing expenses. Total operating expenses as a percentage of total operating revenue increased from 96.2% in 2004 to 103.4% in 2005.

Flight operations expenses, which accounted for 49.0% of total operating expenses, increased by 86.2% from RMB10,418 million in 2004 to RMB19,394 million in 2005, primarily as a result of increases in jet fuel costs, operating lease payments, catering expenses and labour costs for flight personnel. Jet fuel costs, which accounted for 61.5% of flight operations expenses, increased by 97.2% from RMB6,050 million in 2004 to RMB11,929 million in 2005 mainly as a result of increased fuel prices and fuel consumption. Operating lease payments increased by 50.0% from RMB1,665 million in 2004 to RMB2,497 million in 2005 primarily due to the additional rental payments for new aircraft under operating leases. Catering expenses increased by 69.6% from RMB705 million in 2004 to RMB1,196 million in 2005 due to the increase in number of passengers carried. Aircraft insurance costs decreased by 43.2% from RMB185 million in 2004 to RMB105 million in 2005, mainly because of the decrease in insurance premiums in 2005. Labour costs for flight personnel increased by 57.8% from RMB1,026 million in 2004 to RMB1,619 million in 2005, largely due to the increase in flying hours and allowance standard.

Maintenance expenses which accounted for 11.6% of total operating expenses, increased by 32.7% from RMB3,459 million in 2004 to RMB4,589 million in 2005. The increase was mainly attributable to the fleet expansion in recent years.

Aircraft and traffic servicing expenses, which accounted for 14.5% of total operating expenses, increased by 64.4% from RMB3,503 million in 2004 to RMB5,759 million in 2005. The increase primarily resulted from a 51.8% rise in landing and navigation fees from RMB3,222 million in 2004 to RMB4,891 million in 2005, due to an increase in number of landing and takeoffs.

Table of Contents

Promotional and marketing expenses, which accounted for 7.0% of total operating expenses, increased by 43.3% from RMB1,940 million in 2004 to RMB2,780 million in 2005. The increase was mainly resulted from the increase in sales volume, resulting in a 41.5% increase in sales commission expenses from RMB1,062 million in 2004 to RMB1,503 million in 2005.

General and administrative expenses, which accounted for 6.2% of the total operating expenses, increased by 85.7% from RMB1,323 million in 2004 to RMB2,457 million in 2005. This was mainly attributable to increased scale of operations.

Depreciation and amortisation, which accounted for 11.2% of total operating expenses, increased by 84.0% from RMB2,413 million in 2004 to RMB4,440 million in 2005, mainly resulting from the additional depreciation charge on aircraft delivered in 2004 and 2005.

Operating(loss)/Profit

There is an operating loss of RMB1,305 million in 2005 as compared to an operating profit of RMB909 million in 2004. This was mainly because operating revenue increased by RMB14,319 million or 59.7% in 2005 while operating expenses increased by RMB16,533 million or 71.7% in the same period.

Non-operating income/(expenses)

Interest expense increased by 133.9% from RMB691 million in 2004 to RMB1,616 million in 2005, mainly due to the increase in loans and lease obligations and interest rate. Interest income increased by 150.0% from RMB22 million in 2004 to RMB55 million in 2005, mainly attributable to the increase of interest rate.

During 2005, the Group recorded a net exchange gain of RMB1,220 million (2004: Net exchange loss of RMB59 million) mainly resulted from Renminbi appreciation in July 2005. Such amount represents mainly unrealised translation exchange gain, resulting from exchange gains on translated year end foreign currency denominated liabilities, rather than foreign exchange transactions incurred during the year.

Taxation

The statutory income tax rate in the PRC is 33%. Except for certain branches and subsidiaries, the Company and its subsidiaries are entitled to enjoy a preferential tax rate of 15% pursuant to approval documents issued by the relevant tax authorities.

In 2005, the Group recorded an income tax benefit of RMB7 million and actual effective tax rate was 0.4% while the Group's enacted tax rate is 15%. The difference is mainly due to the fact that a portion of tax loss is not recognized, the deferred tax effect of which is RMB135 million. In 2004, income tax expense of RMB65 million was recorded and actual effective tax rate was 30% while the Group's enacted tax rate in 2004 was 15%. The difference is mainly due to the tax effect of non-deductible expenses of RMB29 million.

2004 Compared with 2003

The Group recorded a net loss of RMB48 million attributable to equity shareholder for 2004, as compared to a net loss of RMB358 million attributable to equity shareholder for 2003. The Group's operating revenue increased by RMB6,504 million or 37.2% from RMB17,470 million in 2003 to RMB23,974 million in 2004. Passenger load factor increased by 4.6 percentage point from 64.6% in 2003 to 69.2% in 2004. Passenger yield (in passenger revenue per RPK) remain steady and at RMB0.57 in both years. Average yield (in traffic revenue per RTK) increased by 5.3% from RMB4.76 in 2003 to RMB5.01 in 2004. Operating expenses increased by RMB6,051 million or 35.6% from RMB17,014 million in 2003 to RMB23,065 million in 2004. As operating revenue increased more than operating expenses, operating profit increased by 99.3% from RMB456 million in 2003 to RMB909 million in 2004. The Group's net non-operating expenses decreased by 30.1%, from RMB967 million in 2003 to RMB676 million in 2004, mainly attributable to a decrease in unfavourable movement in foreign exchange differences of RMB105 million and a decrease in interest expense of RMB133 million. Overall, the Group recorded a net loss of RMB48 million in 2004, as compared to a net loss of RMB358 million in 2003.

Operating revenue

Substantially all of the Group's operating revenue is attributable to airline and airline related operations. Traffic revenue in 2004 and 2003 accounted for 97.4% and 97.1% respectively of total operating revenue. Passenger revenue and, cargo and mail revenue accounted for 90.4% and 9.6% respectively of total traffic revenue in 2004. The balance of the Group's operating revenue is derived

Table of Contents

from commission income, income from general aviation operations, fees charged for ground services rendered to other Chinese airlines and air catering services.

Operating revenue increased by 37.2% from RMB17,470 million in 2003 to RMB23,974 million in 2004. This increase was primarily due to a 40.6% rise in passenger revenue from RMB15,010 million in 2003 to RMB21,100 million in 2004 resulting from increased traffic volume. The PRC airline industry has fully recovered from the outbreak of severe acute respiratory syndrome (SARS) in China since August 2003. Coupling with the continued growth in domestic economic conditions, the aviation traffic volume in China attained a new highest record in 2004. The total number of passengers carried increased by 37.8% to 28.2 million passengers in 2004. The increase in 2004 compared to 2003 was attributable to the general increasing traffic demand in the PRC airline market and deliveries of 20 aircraft (excluding effect of CNA/XJA Acquisitions) during 2004 which caused an increase in passenger capacity of 31.6%. RPKs increased by 41.0% from 26,387 million in 2003 to RMB37,196 million in 2004, primarily as a result of an increase in passengers carried. Passenger yield remained constant at RMB0.57.

Domestic passenger revenue, which accounted for 79.9% of the total passenger revenue in 2004, increased by 37.8% from RMB12,242 million in 2003 to RMB16,869 million in 2004. Domestic passenger traffic in RPKs increased by 36.8%, mainly due to an increase in passengers carried. Passenger yield remained steady in 2004 and at RMB0.58. Included in the 2004 domestic passenger revenue was fuel surcharge imposed on domestic flights of approximately RMB281 million (2003: RMB716 million). Excluding the effect of fuel surcharge revenue, the passenger yield increased from RMB0.54 in 2003 to RMB0.57 in 2004 as a combined result of the growth in traffic demand and fleet expansion during 2004.

Hong Kong passenger revenue, which accounted for 5.3% of total passenger revenue, increased by 47.2% from RMB750 million in 2003 to RMB1,104 million in 2004. For Hong Kong regional flights, passenger traffic in RPKs increased by 54.6%, while passenger capacity in ASKs increased by 40.8%, resulting in a 5.6 percentage point increase in passenger load factor from 2003. Passenger yield decreased from RMB0.96 in 2003 to RMB0.92 in 2004 mainly due to intensified competition among airlines. Included in 2004 Hong Kong passenger revenue was fuel surcharge imposed on Hong Kong regional flights of approximately RMB67 million (2003: RMB24 million). Excluding the effect of fuel surcharge revenue, the passenger yield decreased from RMB0.93 in 2003 to RMB0.86 in 2004.

International passenger revenue, which accounted for 14.8% of total passenger revenue, increased by 55.0% from RMB2,018 million in 2003 to RMB3,127 million in 2004. For international flights, passenger traffic in RPKs increased by 59.3%, while passenger capacity in ASKs increased by 52.1%, resulting in a 2.9 percentage point rise in passenger load factor from 2003. Passenger yield decreased by 2.1% from RMB0.47 in 2003 to RMB0.46 in 2004 mainly resulted from the increases in traffic derived from long haul routes which generally had a lower yield than short haul routes.

Cargo and mail revenue, which accounted for 9.6% of the Group's total traffic revenue and 9.4% of total operating revenue, increased by 14.8% from RMB1,955 million in 2003 to RMB2,244 million in 2004. The increase was attributable to the increasing traffic demand.

Other operating revenue increased by 24.8% from RMB505 million in 2003 to RMB630 million in 2004. The increase was primarily due to the general growth in income from various auxiliary operations.

Operating expenses

Substantially all of the Group's operating expenses result from its airline operations. The vast majority of such expenses relate directly to flight operations, aircraft and traffic servicing, aircraft repair and maintenance and to depreciation and amortisation in respect of aircraft and flight equipment. Expenses associated directly with the Group's flight operations (collectively, flight operations expenses) include fuel costs, operating lease payments, catering expenses, aircraft insurance, flight personnel payroll and welfare and training expenses. Expenses associated directly with repairs and maintenance in respect of the Group's aircraft (collectively, repairs and maintenance expenses) include repairs and maintenance and overhaul charges, the costs of consumables and other maintenance materials and labour costs for maintenance personnel. Expenses associated directly with the Group's aircraft and traffic servicing operations (collectively aircraft and traffic servicing expenses) include landing and navigation fees, rental payments and charges in respect of terminal and other ground facilities and labour costs for ground personnel. The balance of

the Group's operating expenses result from promotional and marketing activities (collectively, promotional and marketing expenses) such as sales commissions, fees for use of the CAAC's reservation system, ticket-printing and sales office expenses, advertising and promotional expenses, and from general and administrative expenses, such as administrative salaries and welfare and other personnel benefits and office expenses.

Table of Contents

Total operating expenses in 2004 amounted to RMB23,065 million, representing an increase of 35.6% or RMB6,051 million over 2003, primarily due to the combined effect of increases in jet fuel costs, maintenance expenses and aircraft and traffic servicing expenses. Total operating expenses as a percentage of total operating revenue decreased from 97.4% in 2003 to 96.2% in 2004.

Flight operations expenses, which accounted for 45.2% of total operating expenses, increased by 47.4% from RMB7,070 million in 2003 to RMB10,418 million in 2004, primarily as a result of increases in jet fuel costs, operating lease payments, catering expenses, labour costs for flight personnel and inclusion of CAAC Infrastructure Development Fund of RMB466 million in operating expenses which is an usage charge since 2004 but was a turnover-based levy and deducted against the traffic revenue in 2003. Jet fuel costs, which accounted for 58.1% of flight operations expenses, increased by 56.5% from RMB3,867 million in 2003 to RMB6,050 million in 2004 mainly as a result of increased fuel prices and fuel consumption. Operating lease payments increased by 8.4% from RMB1,536 million in 2003 to RMB1,665 million in 2004, primarily due to the additional rental payments for new aircraft under operating leases. Catering expenses increased by 38.2% from RMB510 million in 2003 to RMB705 million in 2004, primarily due to increased passenger carried. Aircraft insurance costs decreased by 5.6% from RMB196 million in 2003 to RMB185 million in 2004, primarily because of a decrease in insurance premiums prescribed by the PRC insurance company. Labour costs for flight personnel increased by 40.9% from RMB728 million in 2003 to RMB1,026 million in 2004, largely due to the increase in flying hours.

Maintenance expenses which accounted for 15.0% of total operating expenses, increased by 33.6% from RMB2,589 million in 2003 to RMB3,459 million in 2004. The increase was primarily attributable to an 32.9% increase in aircraft overhaul charges from RMB2,377 million in 2003 to RMB3,158 million in 2004, as resulted from fleet expansion in recent years.

Aircraft and traffic servicing expenses, which accounted for 15.2% of total operating expenses, increased by 26.6% from RMB2,767 million in 2003 to RMB3,503 million in 2004. The increase primarily resulted from an 25.7% rise in landing and navigation fees from RMB2,563 million in 2003 to RMB3,222 million in 2004, due to an increase in number of landing and takeoffs.

Promotional and marketing expenses, which accounted for 8.4% of total operating expenses, increased by 31.1% from RMB1,480 million in 2003 to RMB1,940 million in 2004. The increase was due to 44.4% increase in labour costs from RMB225 million in 2003 to RMB325 million in 2004, as more payments of performance bonus were made because of the increased traffic volume.

General and administrative expenses, which accounted for 5.7% of the total operating expenses, increased by 25.6% from RMB1,053 million in 2003 to RMB1,323 million in 2004. This was mainly attributable to increased scale of operations.

Depreciation and amortisation, which accounted for 10.5% of total operating expenses, increased by 18.4% from RMB2,038 million in 2003 to RMB2,413 million in 2004. This increase was primarily as a result of the additions of aircraft during 2004.

Operating profit

Operating profit increased by 99.3% from RMB456 million in 2003 to RMB909 million in 2004. This was mainly because operating revenue increased by RMB6,504 million or 37.2% from 2003 and operating expenses increased by RMB6,051 million or 35.6% over the same period.

Non-operating income/(expenses)

Interest expense decreased by 16.1% from RMB824 million in 2003 to RMB691 million in 2004, mainly reflecting the combined effect of scheduled debt repayments and the replacement of certain RMB denominated bank loans of higher interest rates with US\$ denominated bank loans of lower interest rates.

Interest income increased by 69.2% from RMB13 million in 2003 to RMB22 million in 2004. This was mainly attributable to an increase in average cash balances.

During 2004, the Group recorded a net exchange loss of RMB59 million (2003:RMB164 million) mainly from its Japanese yen denominated borrowings as a result of the Japanese yen appreciation. Such amount comprised mostly unrealised translational exchange loss.

Taxation

Table of Contents

On October 17, 2003, the Company's registered address was moved to Guangzhou Economic & Technology Development Zone, Guangzhou, China. In accordance with the Rules and Regulations for Implementation of Income Tax for Foreign Investment Enterprises and Foreign Enterprises of the PRC and a taxation approval document Guangzhou Municipal State Tax Bureau Suo De Shui Zi Que 020043, the Company is entitled to enjoy the preferential tax policy implemented in the Guangzhou Economic & Technology Development Zone effective from October 1, 2003. As a result, the Company's income tax rate has been changed from 33% to 15% beginning from that date.

In 2003, the Group recorded an income tax benefit of RMB334 million resulting from reduction in net deferred taxation liability balance of RMB392 million. In 2004, income tax expense of RMB65 million was recorded.

Minority interests

Minority interests increased by 18.7% from RMB171 million in 2003 to RMB203 million in 2004, primarily reflecting the increased net profits earned by certain of the Group's airline subsidiaries for the year.

Additional information under U.S. GAAP*2005 Compared with 2004*

The loss for 2005 attributable to equity shareholders of the Company is RMB1,530 million, as compared to an income of RMB239 million for 2004. The scale of operations increased as a result of acquisition of the airline operations and related assets of CNA and XJA on December 31, 2004. The Group's operating revenue increased by RMB4,128 million or 12.1% from RMB34,165 million in 2004 to RMB38,293 million in 2005. Passenger load factor increased by 1.2 percentage point from 68.9% in 2004 to 70.1% in 2005. Passenger yield (in passenger revenue per RPK) decreased slightly by 3.1% to RMB0.55. Average yield (in traffic revenue per RTK) decreased by 1.6% from RMB5.22 in 2004 to RMB5.14 in 2005. Operating expenses increased by RMB7,097 million or 22.0% from RMB32,288 million in 2004 to RMB39,385 million in 2005. As the increase in operating revenue is smaller than the increase in operating expenses, operating income decreased by 158.2% from an operating profit of RMB1,877 million in 2004 to an operating loss of RMB1,092 million in 2005. The Group's net non-operating expenses decreased by 60.8%, from RMB1,184 million in 2004 to RMB464 million in 2005, mainly attributable to the combined effect of increase in exchange gain of RMB1,344 million, increase in interest expense of RMB405 million and a decrease in share of results of associates of RMB280 million.

Operating revenue

Substantially all of the Group's operating revenue is attributable to airline and airline related operations. Traffic revenue accounted for 97.7% and 97.3% of total operating revenue in 2005 and 2004 respectively. Passenger revenue and, cargo and mail revenue accounted for 91.7% and 8.3% and 91.6% and 8.4% respectively of total traffic revenue in 2005 and 2004 respectively. The other operating revenue is mainly derived from commission income, income from general aviation operations, fees charged for ground services rendered to other Chinese airlines and air catering services.

Operating revenue increased by 12.1% from RMB34,165 million in 2004 to RMB38,293 million in 2005. The increase was primarily due to a 12.8% rise in passenger revenue from RMB30,443 million in 2004 to RMB34,328 million in 2005 resulting from increased traffic volume. The total number of passengers carried increased by 14.0% to 44.12 million passengers and the ASKs increased by 14.3% to 88,361 million in 2005. The increase in 2005 compared to 2004 was attributable to the general increasing traffic demand in the PRC airline market and deliveries of 30 aircraft during 2005 which caused an increase in passenger capacity of 12.4%. RPKs increased by 16.3% from 53,233 million in 2004 to RMB61,923 million in 2005, primarily as a result of the increase in passengers carried. Passenger yield decreased slightly by RMB0.02 to RMB0.55.

Domestic passenger revenue, which accounted for 82.1% of the total passenger revenue in 2005, increased by 13.8% from RMB24,773 million in 2004 to RMB28,182 million in 2005. Domestic passenger traffic in RPKs increased by 17.8%, mainly due to an increase in passengers carried. Domestic passenger yield decreased slightly by RMB0.02 to RMB0.55 in 2005.

Table of Contents

Hong Kong and Macau passenger revenue, which accounted for 3.5% of total passenger revenue, increased by 3.7% from RMB1,151 million in 2004 to RMB1,194 million in 2005. For Hong Kong and Macau flights, passenger traffic in RPKs increased by 18.5%, while passenger capacity in ASKs increased by 26.5%, resulting in a 4.0 percentage point decrease in passenger load factor from 2004. Passenger yield decreased from RMB0.88 in 2004 to RMB0.77 in 2005 mainly due to intensified competition among airlines.

International passenger revenue, which accounted for 14.4% of total passenger revenue, increased by 9.6% from RMB4,519 million in 2004 to RMB4,952 million in 2005. For international flights, passenger traffic in RPKs increased by 8.3%, while passenger capacity in ASKs increased by 5.4%, resulting in a 1.8 percentage point rise in passenger load factor from 2004. Passenger yield increased by 1.1% from RMB0.55 in 2004 to RMB0.56 in 2005.

Cargo and mail revenue, which accounted for 8.3% of the Group's total traffic revenue and 8.1% of total operating revenue, increased by 10.7% from RMB2,792 million in 2004 to RMB3,091 million in 2005. The increase was attributable to the increasing traffic demand.

Other operating revenue decreased by 6.0% from RMB930 million in 2004 to RMB874 million in 2005. The decrease was primarily due to the reduced scale of other operation.

Operating expenses

Total operating expenses in 2005 amounted to RMB39,385 million, representing an increase of 22.0% or RMB7,097 million over 2004, primarily due to the total effect of increases in jet fuel costs, maintenance expenses and aircraft and traffic servicing expenses. Total operating expenses as a percentage of total operating revenue increased from 94.5% in 2004 to 102.9% in 2005.

Flight operations expenses, which accounted for 48.7% of total operating expenses, increased by 27.8% from RMB15,016 million in 2004 to RMB19,183 million in 2005, primarily as a result of increases in jet fuel costs, operating lease payments, catering expenses and labour costs for flight personnel. Jet fuel costs, which accounted for 62.2% of flight operations expenses, increased by 39.4% from RMB8,555 million in 2004 to RMB11,929 million in 2005 mainly as a result of increased fuel prices and fuel consumption. Operating lease payments increased by 12.6% from RMB2,109 million in 2004 to RMB2,375 million in 2005 primarily due to the additional rental payments for new aircraft under operating leases. Catering expenses increased by 21.2% from RMB987 million in 2004 to RMB1,196 million in 2005 due to the increase in number of passengers carried. Aircraft insurance costs decreased by 60.8% from RMB268 million in 2004 to RMB105 million in 2005, mainly because of the decrease in insurance premiums in 2005. Labour costs for flight personnel increased by 4.8% from RMB1,545 million in 2004 to RMB1,619 million in 2005, largely due to the increase in flying hours and allowance standard.

Maintenance expenses which accounted for 11.7% of total operating expenses, increased by 0.2% from RMB4,578 million in 2004 to RMB4,589 million in 2005.

Aircraft and traffic servicing expenses, which accounted for 14.6% of total operating expenses, increased by 20.3% from RMB4,789 million in 2004 to RMB5,759 million in 2005. The increase primarily resulted from a 10.0% rise in landing and navigation fees from RMB4,447 million in 2004 to RMB4,891 million in 2005, due to an increase in number of landing and takeoffs.

Promotional and marketing expenses, which accounted for 7.1% of total operating expenses, increased by 6.7% from RMB2,606 million in 2004 to RMB2,780 million in 2005. The increase was mainly resulted from the increase in sales volume, resulting in a 17.0% increase in sales commission expenses from RMB1,285 million in 2004 to RMB1,503 million in 2005.

General and administrative expenses, which accounted for 6.2% of the total operating expenses, increased by 39.7% from RMB1,759 million in 2004 to RMB2,457 million in 2005. This was mainly attributable to increased scale of operations.

Depreciation and amortisation, which accounted for 11.2% of total operating expenses, increased by 25.1% from RMB3,523 million in 2004 to RMB4,406 million in 2005, mainly resulting from the additional depreciation charge on aircraft delivered in 2004 and 2005.

Table of Contents*Operating (loss)/income*

There is an operating loss of RMB1,092 million in 2005 as compared to an operating profit of RMB1,877 million in 2004. This was mainly because operating revenue increased by RMB4,128 million or 12.1% in 2005 while operating expenses increased by RMB7,097 million or 22.0% in the same period.

Non-operating income/(expenses)

Interest expense increased by 34.2% from RMB1,184 million in 2004 to RMB1,589 million in 2005, mainly due to the increase in loans and lease obligations and interest rate. Interest income increased by 66.7% from RMB33 million in 2004 to RMB55 million in 2005, mainly attributable to the increase of interest rate.

During 2005, the Group recorded a net exchange gain of RMB1,220 million (2004: net exchange loss of RMB124 million) mainly resulted from Renminbi appreciation in July 2005. Such amount represented mainly unrealised translation exchange gain, resulting from exchange gains on translated year end foreign currency denominated liabilities, rather than foreign exchange transactions incurred during the year.

Taxation

The statutory income tax rate in the PRC is 33%. Except for certain branches and subsidiaries, the Company and its subsidiaries are entitled to enjoy a preferential tax rate of 15% pursuant to approval documents issued by the relevant tax authorities.

Income tax benefit for the year amounted to RMB46 million and actual effective tax rate was 3% in 2005 while the Group's enacted tax rate is 15%. The difference is mainly due to a portion of tax loss with a deferred tax effect of RMB135 million not recognized as well as the effect of change in enacted income tax rate applicable to airline operations of CNA and XJA of RMB79 million. In 2004, income tax expense of RMB261 million was recorded and actual effective tax rate was 38% while the Group's enacted tax rate in 2004 was 15%. The difference is mainly due to the effect of change in enacted income tax rate applicable to airline operations of CNA and XJA of RMB99 million, rate differential on airline operations of CNA and XJA of RMB43 million and non-deductible expenses of RMB37 million.

2004 Compared with 2003

The Group's operating revenue increased by RMB8,682 million or 34.1% from RMB25,483 million in 2003 to RMB34,165 million in 2004. Such growth was primarily attributable to growth in volume of passenger traffic carried by the Group as a result of the recovery of the Group's traffic operations from SARS and flight capacity. Operating expenses increased by RMB7,171 million or 28.6% from RMB25,117 million in 2003 to RMB32,288 million in 2004. As operating revenue increased more than operating expenses, operating profit increased by 412.8% from RMB366 million in 2003 to RMB1,877 million in 2004. The Group's net non-operating expenses decreased by 38.5%, from RMB1,905 million in 2003 to RMB1,171 million in 2004, primarily attributable to a decrease in unfavourable movement in foreign exchange differences of RMB257 million and a decrease in interest expense of RMB420 million. Overall, the Group recorded a net income of RMB239 million in 2004, as compared to a net loss of RMB1,140 million in 2003.

Operating revenue

Substantially all of the Group's operating revenue is attributable to airline and airline related operations. Traffic revenue in 2004 and 2003 accounted for 97.3% and 97.7% respectively of total operating revenue. Passenger revenue and, cargo and mail revenue accounted for 91.6% and 8.4% respectively of total traffic revenue in 2004. The balance of the Group's operating revenue is derived from commission income, income from general aviation operations, fees charged for ground services rendered to other Chinese airlines and air catering services.

Operating revenue increased by 34.1% from RMB25,483 million in 2003 to RMB34,165 million in 2004. This increase was primarily due to a 35.7% rise in passenger revenue from RMB22,438 million in 2003 to RMB30,443 million in 2004 resulting from increased traffic volume. The total number of passengers carried increased by 33.0% to 38.7 million passengers in 2004. RPKs increased by 34.3% from 39,626 million in 2003 to RMB53,233 million in 2004, primarily as a result of an increase in passengers carried. Passenger yield increased to RMB0.57.

Domestic passenger revenue, which accounted for 81.4% of the total passenger revenue in 2004, increased by 32.6% from RMB18,679 million in 2003 to RMB24,773 million in 2004. Domestic passenger traffic in RPKs

increased by 30.6%, mainly due to an increase in passengers carried. Passenger yield increased to RMB0.57 in 2004.

Table of Contents

Hong Kong passenger revenue, which accounted for 3.8% of total passenger revenue, increased by 47.4% from RMB781 million in 2003 to RMB1,151 million in 2004. For Hong Kong regional flights, passenger traffic in RPKs increased by 68.0%, while passenger capacity in ASKs increased by 55.8%, resulting in a 4.5 percentage point increase in passenger load factor from 2003. Passenger yield decreased from RMB1.00 in 2003 to RMB0.88 in 2004 mainly due to intensified competition among airlines.

International passenger revenue, which accounted for 14.8% of total passenger revenue, increased by 51.7% from RMB2,978 million in 2003 to RMB4,519 million in 2004. For international flights, passenger traffic in RPKs increased by 52.8%, while passenger capacity in ASKs increased by 44.1%, resulting in a 3.6 percentage point rise in passenger load factor from 2003. Passenger yield remain steady in 2004 and at RMB0.55.

Cargo and mail revenue, which accounted for 8.4% of the Group's total traffic revenue and 8.2% of total operating revenue, increased by 13.5% from RMB2,459 million in 2003 to RMB2,792 million in 2004. The increase was attributable to the increasing traffic demand.

Other operating revenue increased by 58.7% from RMB586 million in 2003 to RMB930 million in 2004. The increase was primarily due to the general growth in income from various auxiliary operations.

Operating expenses

Substantially all of the Group's operating expenses result from its airline operations. The vast majority of such expenses relate directly to flight operations, aircraft and traffic servicing, aircraft repair and maintenance and to depreciation and amortisation in respect of aircraft and flight equipment. Expenses associated directly with the Group's flight operations (collectively, flight operations expenses) include fuel costs, operating lease payments, catering expenses, aircraft insurance, flight personnel payroll and welfare and training expenses. Expenses associated directly with repairs and maintenance in respect of the Group's aircraft (collectively, repairs and maintenance expenses) include repairs and maintenance and overhaul charges, the costs of consumables and other maintenance materials and labour costs for maintenance personnel. Expenses associated directly with the Group's aircraft and traffic servicing operations (collectively aircraft and traffic servicing expenses) include landing and navigation fees, rental payments and charges in respect of terminal and other ground facilities and labour costs for ground personnel. The balance of the Group's operating expenses result from promotional and marketing activities (collectively, promotional and marketing expenses) such as sales commissions, fees for use of the CAAC's reservation system, ticket-printing and sales office expenses, advertising and promotional expenses, and from general and administrative expenses, such as administrative salaries and welfare and other personnel benefits and office expenses, and from asset impairment charges.

Total operating expenses in 2004 amounted to RMB32,288 million, representing an increase of 28.6% or RMB7,171 million over 2003, primarily due to the combined effect of increases in jet fuel costs, maintenance expenses and aircraft and traffic servicing expenses. In addition, in 2003, the Group recorded an asset impairment charge of RMB510 million on certain aircraft of CNA. The Group did not incur any asset impairment charges on its aircraft in 2004. Total operating expenses as a percentage of total operating revenue decreased from 98.6% in 2003 to 94.5% in 2004.

Flight operations expenses, which accounted for 46.5% of total operating expenses, increased by 45.1% from RMB10,351 million in 2003 to RMB15,016 million in 2004, primarily as a result of increases in jet fuel costs, operating lease payments, catering expenses, labour costs for flight personnel and inclusion of CAAC Infrastructure Development Fund of RMB632 million in operating expenses which is an usage charge since 2004 but was a turnover-based levy and deducted against the traffic revenue in 2003. Jet fuel costs, which accounted for 57.0% of flight operations expenses, increased by 51.1% from RMB5,662 million in 2003 to RMB8,555 million in 2004 mainly as a result of increased fuel prices and fuel consumption. Operating lease payments increased by 16.6% from RMB1,808 million in 2003 to RMB2,109 million in 2004, primarily due to the additional rental payments for new aircraft under operating leases. Catering expenses increased by 30.9% from RMB754 million in 2003 to RMB987 million in 2004, primarily due to increase in number of passengers carried. Aircraft insurance costs decreased by 7.9% from RMB291 million in 2003 to RMB268 million in 2004, primarily because of a decrease in insurance premiums prescribed by the PRC insurance company. Labour costs for flight personnel increased by 37.2% from RMB1,126 million in 2003 to RMB1,545 million in 2004, largely due to the increase in flying hours.

Maintenance expenses which accounted for 14.2% of total operating expenses, increased by 18.1% from RMB3,878 million in 2003 to RMB4,578 million in 2004. The increase was primarily attributable to an 16.7% increase in aircraft overhaul charges from RMB2,913 million in 2003 to RMB3,399 million in 2004, which was resulted from fleet expansion in recent years.

Table of Contents

Aircraft and traffic servicing expenses, which accounted for 14.8% of total operating expenses, increased by 25.9% from RMB3,803 million in 2003 to RMB4,789 million in 2004. The increase primarily resulted from an 25.7% rise in landing and navigation fees from RMB3,539 million in 2003 to RMB4,447 million in 2004, and an increase in number of landing and takeoffs.

Promotional and marketing expenses, which accounted for 8.1% of total operating expenses, increased by 27.6% from RMB2,043 million in 2003 to RMB2,606 million in 2004. The increase was due to 40.0% increase in labour costs from RMB305 million in 2003 to RMB427 million in 2004, as more payments of performance bonus were made because of the increased traffic volume.

General and administrative expenses, which accounted for 5.4% of the total operating expenses, increased by 25.9% from RMB1,397 million in 2003 to RMB1,759 million in 2004. This was mainly attributable to increased scale of operations.

Depreciation and amortisation, which accounted for 11.0% of total operating expenses, increased by 15.8% from RMB3,042 million in 2003 to RMB3,523 million in 2004. This increase was primarily as a result of the additions of aircraft during 2004.

Operating income

Operating income increased by 412.8% from RMB366 million in 2003 to RMB1,877 million in 2004. This was mainly because operating revenue increased by RMB8,682 million or 34.1% from 2003 and operating expenses increased by RMB7,171 million or 28.6% over the same period.

Non-operating income/(expenses)

Interest expense decreased by 26.2% from RMB1,604 million in 2003 to RMB1,184 million in 2004, mainly reflecting the combined effect of scheduled debt repayments and the replacement of certain RMB denominated bank loans of higher interest rates with US\$ denominated bank loans of lower interest rates.

Interest income increased by 22.2% from RMB27 million in 2003 to RMB33 million in 2004. This was mainly attributable to an increase in average cash balances.

During 2004, the Group recorded a net exchange loss of RMB124 million (2003: RMB381 million) mainly from its Japanese yen denominated borrowings as a result of the Japanese yen appreciation. Such amount comprised mostly unrealised translational exchange loss.

Taxation

On 17 October, 2003, the Company's registered address was moved to Guangzhou Economic & Technology Development Zone, Guangzhou, China. In accordance with the Rules and Regulations for Implementation of Income Tax for Foreign Investment Enterprises and Foreign Enterprises of the PRC and a taxation approval document

Guangzhou Municipal State Tax Bureau Suo De Shui Zi Que 020043 , the Company is entitled to enjoy the preferential tax policy implemented in the Guangzhou Economic & Technology Development Zone effective from 1 October, 2003. As a result, the Company's income tax rate has been changed from 33% to 15% beginning from that date. In 2003, the Group recorded an income tax benefit of RMB536 million resulting from a reduction in net deferred taxation liability balance of RMB341 million.

The airline operations of CNA and XJA were subject to PRC income tax at 33% during 2003 and up to December 30, 2004. As a result of the CNA/XJA Acquisitions having been effective December 31, 2004, the airline operations of CNA and XJA have become divisions of the Company and are subject to PRC income tax at the applicable rate of 15% beginning that date. Consequently, the airline operations of CNA and XJA recorded an income tax benefit of RMB99 million. Overall, net income tax expenses of the airline operations of CNA and XJA amounted to RMB274 million for 2004.

Minority interests

Minority interests increased by 52.0% from RMB127 million in 2003 to RMB193 million in 2004, primarily reflecting the increased net profits earned by certain of the Group's airline subsidiaries for the year.

Table of Contents**Liquidity and Capital Resources**

Prior to the initial public offering of the Company, the Group met its working capital and capital expenditure requirements through cash from its operations, the proceeds of certain long-term and short-term bank loans, capital lease financing and rebates available under certain of the Group's aircraft leases. In July 1997, the Company received net proceeds of RMB5,459 million from its initial public offering.

A majority part of these net proceeds was utilized to finance the Group's working capital and capital expenditure requirements. In July 2003, the Company issued 1,000,000,000 A Shares with a par value of RMB1.00 each at issue price of RMB2.70 by way of a public offering to natural persons and institutional investors in the PRC. The proceeds received by the Company, net of the issuance costs of RMB59,233, amounted to RMB2,641 million and have been used for the purchase of Boeing 737-800 aircraft in accordance with the disclosure in the Prospectus for Offering of the A Shares.

As of December 31, 2005, the Group had banking facilities with several PRC commercial banks for providing loan finance up to an approximate amount of RMB39,294 million to the Group. As of December 31, 2005, an approximate amount of RMB28,242 million was utilized. As of December 31, 2004 and 2005, the Group's cash and cash equivalents totaled RMB3,083 million and RMB2,901 million, respectively.

Net cash inflows from operating activities in 2003, 2004 and 2005 were RMB2,129 million, RMB3,596 million and RMB3,835 million, respectively.

Net cash used in investing activities in 2003, 2004 and 2005 was RMB5,434 million, RMB8,824 million and RMB8,009 million, respectively. Cash capital expenditures in 2003, 2004 and 2005 were RMB4,707 million, RMB6,631 million and RMB4,935 million, respectively, reflecting predominantly additional investments in aircraft and flight equipment under the Group's fleet expansion plans and Guangzhou new airport, and, to a small extent, additional investments in other facilities and buildings for operations.

Financing activities resulted in net cash inflows of RMB1,615 million, RMB6,231 million and RMB3,992 million in 2003, 2004 and 2005, respectively.

As of December 31, 2005, the Group's aggregate long-term debt and obligations under capital leases totaled RMB30,449 million. Based on such amount, in 2006, 2007, 2008, 2009, 2010 and thereafter, amounts payable under such debt and obligations will be RMB5,250 million, RMB7,246 million, RMB4,764 million, RMB2,812 million, RMB1,472 million and RMB8,905 million. Such borrowings were denominated, to a larger extent, in United States dollars and, to a smaller extent, in Japanese yen and Hong Kong dollars, with a significant portion being fixed interest rate borrowings. In the normal course of business, the Group is exposed to fluctuations in foreign currencies. The Group's exposure to foreign currencies was primarily as a result of its foreign currency debts. Depreciation or appreciation of the Renminbi against foreign currencies affects the Group's results significantly because the Group's foreign currency payments generally exceed its foreign currency receipts. The Group is not able to hedge its foreign currency exposure effectively other than by retaining its foreign currency denominated earnings and receipts to the extent permitted by the State Administration of Foreign Exchange, or subject to certain restrictive conditions, entering into forward foreign exchange contracts with authorized PRC banks.

As of December 31, 2005, the Group's short term bank debt was RMB14,346 million with interest rates ranging from 3.15% to 5.34% per annum. The Group's weighted average interest rate on short-term bank notes payable was 4.83% per annum as of December 31, 2005. The primary use of the proceeds of the Group's short-term debt is to finance working capital needs. The Group has generally been able to arrange short-term bank loans with domestic banks in China as necessary and believes it can continue to obtain them based on its well-established relationships with various lenders.

Through April 19, 2006, the Group renewed certain short-term bank debts of RMB2,611 million. The renewed debts are unsecured, bear interest at floating rates ranging from 3-month HIBOR/6-month LIBOR + 0.55% to 0.60% per annum and are repayable one year from their respective renewal dates. In addition, the Group entered into new short term bank debts agreement totalling RMB2,671 million subsequent to December 31, 2005. These new short term bank debts are unsecured and bear interest at floating rates ranging from 6-month LIBOR + 0.55% to 0.70% per annum with maturities through 2008.

From April 20, 2006 to May 31, 2006, the Group entered into additional new bank debts agreements totalling RMB3,808 million. These additional bank debts are unsecured, bear interest at floating rates ranging from 6-month LIBOR + 0.53% to 0.55% per annum and repayable one year from these respective origination dates.

As of December 31, 2005, the Group had obligations under operating leases totaling RMB24,594 million, predominately for aircraft. Of such amount, RMB3,340 million, RMB2,881 million, RMB2,785 million, RMB2,609 million, RMB2,523 million and RMB10,456 million, respectively, was due in 2006, 2007, 2008, 2009, 2010 and thereafter.

Table of Contents

As of December 31, 2005, the Group had a working capital deficit of RMB25,907 million, as compared to a working capital deficit of RMB18,855 million as of December 31, 2004. Historically, the Group operated in a negative working capital position, relying on cash inflow from operating activities and short-term bank debt refinancings to meet its short-term liquidity and working capital needs. The increase in the Group's working capital deficit from 2004 to 2005 was mainly because the Group sought increased short term debts to finance its aircraft acquisitions. Upon deliveries of the aircraft, the Group continued to seek renewal of its short-term debts instead of replacing such debts with long-term debts, as the interest rates for short-term debts are lower. The liquidity of the Group in the future will primarily be dependent on its ability to maintain adequate cash inflow from operations to meet its debt obligations as they become due and, on its ability to obtain adequate external financing to meet its committed future capital expenditures. The Group has obtained firm commitments from its principal bankers to renew its short-term bank loans outstanding at December 31, 2005 when they fall due during 2006. Subsequent to December 31, 2005, the Group renewed short-term debts of RMB2,611 million.

As the Group is subject to a high degree of operating leverage, a minor decrease in the Group's yield and/or load factor could result in a significant decrease in its operating revenue and hence its operating cashflows. This could arise in such circumstances as where competition between Chinese airlines increases or where PRC aviation demand decreases. Similarly, a minor increase in the jet fuel prices, particularly those in domestic market, could result in a significant increase in the Group's operating expenses and hence a significant decrease in its operating cashflows. This could be caused by fluctuations in supply and demand in international oil market. Currently, the Group's existing debt and lease facilities do not contain any financial covenants. Nevertheless, as the Group is subject to a high degree of financial leverage, an adverse change in the Group's operating cashflows could adversely affect its financial health and hence weaken its ability to obtain additional debt and lease facilities and to renew its short-term debt facilities as they fall due.

As of December 31, 2005, the Group had capital commitments in 2006, 2007, 2008, 2009 and 2010 of approximately RMB8,933 million, RMB9,445 million, RMB14,437 million, RMB5,300 and RMB9,688 respectively. Of such amounts, RMB7,341 million in 2006, RMB8,945 million in 2007 and RMB14,354 million in 2008, RMB5,300 million in 2009 and RMB9,688 million in 2010 are related to the acquisition of aircraft and related flight equipment, and RMB840 million in 2006 is related to the Group's facilities and equipment to be constructed and installed at the Guangzhou new airport. The remaining amounts of RMB752 million in 2006, RMB500 million in 2007 and RMB83 million in 2008 are related to the Group's other airport and office facilities and equipment, overhaul and maintenance bases and training facilities.

As of December 31, 2005, the Group undertook to make a capital contribution of approximately RMB83 million to jointly controlled entities.

As of December 31, 2005, the cash and cash equivalents of the Group totaled RMB2,901 million. Of such balance, 20.4% was denominated in foreign currencies.

No interim dividend was paid during the year ended December 31, 2005. The Board of Directors does not recommend the payment of a final dividend in respect of the year ended December 31, 2005.

The Group expects that the Group's cash from operations and short-term and long-term bank borrowings will be sufficient to meet its cash requirements in the foreseeable future.

Table of Contents**Contractual Obligations and Commercial Commitments**

The following table sets forth the Group's obligations and commitments to make future payments under contracts and under contingent commitments as of December 31, 2005.

	Total	As of December 31, 2005			After 5 years	As of
		less than 1 year	1-3 years	4-5 years		December 31, 2004
			(RMB million)			Total
Contractual obligations						
Short-term debt (Note 2)	14,346	11,735	2,611			9,925
Long-term debt	14,617	1,877	6,472	2,095	4,173	13,528
Capital lease obligations	15,832	3,373	5,538	2,189	4,732	11,743
Cash payable for CNA/ XJA Acquisitions						1,959
Total contractual obligations	44,795	16,985	14,621	4,284	8,905	37,155
Other commercial commitments						
Operating lease commitments	24,594	3,340	5,666	5,132	10,456	12,750
Aircraft purchase commitments (Note 1)	45,628	7,341	23,299	14,988		11,776
Capital commitments in respect of investments in the Guangzhou new airport	840	840				824
Other capital commitments	1,335	752	583			700
Investing commitments	83	83				83
Total commercial obligations	72,480	12,356	29,548	20,120	10,456	26,133
Estimated future interest payments on short term debt and long term debt						
Fixed rates	3,285	785	1,071	640	789	2,388
Variable rates	2,171	935	635	369	232	939
	5,456	1,720	1,706	1,009	1,021	3,327

Note 1 Amounts shown are net of previously paid purchase deposits.

Note 2 Short term bank debts included certain debts of RMB2,611 million which were renewed subsequent to December 31, 2005. The renewed debts are unsecured, bear interest at floating rates ranging from 3-month HIBOR/6-month LIBOR + 0.55% to 0.60% per annum and are repayable one year from their respective renewal dates.

ITEM 6. DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES.

Directors, Senior Management and Employees

The following table sets forth certain information concerning directors (Directors), senior management (Senior Management) and supervisors (Supervisors) of the Company in 2005. There were certain changes in the Company s Directors, Senior Management and Supervisors subsequent to December 31, 2005, details of which are set forth below.

Name	Position	Gender	Age
Liu Shao Yong	Chairman of the Board	Male	48
Liu Ming Qi(1)	Vice Chairman of the Board	Male	62
Peng An Fa(2)	Director	Male	58
Wang Quan Hua	Director	Male	52
Zhao Liu An	Director	Male	58
Zhou Yong Qian(3)	Director	Male	61
Si Xian Min	Director, President	Male	49
Zhou Yong Jin(1)	Director	Male	63
Xu Jie Bo	Director, Chief Financial Officer and Vice President	Male	41
Wu Rong Nan(1)	Director	Male	64
Simon To(4)	Independent Non-executive Director	Male	55
Peter Lok	Independent Non-executive Director	Male	70
Wei Ming Hai	Independent Non-executive Director	Male	42

Table of Contents

Name	Position	Gender	Age
Wang Zhi	Independent Non-executive Director	Male	64
Sui Guang Jun	Independent Non-executive Director	Male	45
Sun Xiao Yi	Chairman of the Supervisory Committee	Male	52
Yang Guang Hua	Supervisor	Male	53
Yang Yi Hua	Supervisor	Female	46
Li Kun(5)	Vice President	Male	46
Yuan Xin An	Vice President	Male	49
Zheng En Ren(6)	Vice President	Male	61

He Zong Kai(7)	Vice President	Male	55
Liu Qian	Chief Pilot	Male	40
Su Liang	Company Secretary	Male	44
Chen Wei Hua	General Counsel	Male	40

(1) The resignation of Liu Ming Qi, Zhou Yong Jin and Wu Rong Nan as Directors due to their retirement was approved at the first and second extraordinary general meetings of the Company on December 16, 2005.

(2) The removal of Peng An Fa as Director of the Company owing to suspicion that he had committed a crime was discussed and approved at the first extraordinary general meeting of the Company

on
December 16,
2005.

- (3) The resignation of Zhou Yong Qian as Director of the Company due to his retirement was approved at the 2005 annual general meeting of the Company on June 15, 2006.
- (4) The resignation of Simon To as independent non-executive Director upon the expiry of his six years term was approved at the second extraordinary general meeting of the Company on December 16, 2005.
- (5) Li Kun was relocated to another position and his resignation as Vice President of the Company was approved by the Board of the Company on December 13, 2005.
- (6) The resignation of Zheng En Ren as Vice President of the Company due to his retirement

was approved
by the Board of
the Company on
April 19, 2006.

- (7) The
appointment of
Ren Ji Dong and
He Zong Kai as
Vice Presidents
of the Company
were approved
by the Board on
March 29, 2005.

BOARD OF DIRECTORS

Mr. Liu Shao Yong is the chairman of the Board. He is a qualified class one pilot. He joined the Company in November 2004. Mr. Liu graduated from China Civil Aviation Flying College and obtained an EMBA from Tsinghua University in 2005. He joined the civil aviation industry in 1978. He held the positions of Captain of the Flying Squadron of China General Aviation Corporation and was appointed as the Deputy General Manager of China General Aviation Corporation, Deputy Director of Shanxi Provincial Civil Aviation Administration, General Manager of the Shanxi branch of China Eastern Airlines Corporation Limited and the Chief of the Flying Model Division of the Civil Aviation Administration of China. He served as the General Manager of China Eastern Airlines Corporation Limited and was appointed as the Vice Minister of Civil Aviation Administration of China. Since August 2004, Mr. Liu has served as the General Manager of China Southern Air Holding Company. Mr. Liu became the chairman of the Board on November 29 2004.

Mr. Wang Quan Hua is currently a Director of the Company and Vice President of CSAHC and became the employee of the Company in March 1995 after the establishment of the Company. Mr. Wang graduated from the Economic Management Department of Central Communist Party College. Mr. Wang began his career in civil aviation in 1972, and successively served as the Director of Planning Department of Guangzhou Civil Aviation Administration, the Office Director of China Southern Airlines Shenzhen Co., the Director of the Planning and Operation Division of CSAHC, the President of Strategy and Development Department of China Southern Airlines

Table of Contents

Company Limited and the Vice President of CSAHC. Mr. Wang became a Director of the Company on May 13, 2003.

Mr. Zhao Liu An is a Director of the Company and the Vice President of CSAHC. Mr. Zhao joined the Company in May 2003. Mr. Zhao began his career in civil aviation in 1966, and successively served as the Director of Flight Meteorology and Flight Safety Monitoring Division, Director of Science Education Division, the Director of Flying Model Division of Urumqi Civil Aviation Administration, Captain of the Ninth Squadron of the Civil Aviation Administration, the Vice President and President of Urumqi Civil Aviation Administration and Xinjiang Airlines. Mr. Zhao became a Director of the Company on May 13, 2003.

Mr. Si Xian Min is a Director and President of the Company. Mr. Si graduated from No. 14 Aviation College as an aircraft piloting major with an associate degree. Mr. Si, a professional political tutor, he began his career in civil aviation in 1975. He held positions as Director of the political division of China Southern Airlines Henan Branch, Party Secretary and Vice President of Guizhou Airlines, Deputy Party Secretary of China Southern Airlines Company Limited, Secretary of the Disciplinary Department of China Southern Airlines Company Limited and Party Secretary of China Northern Airlines and has been the President of the Company since October 2004. Mr. Si became a Director of the Company on December 31, 2004.

Mr. Xu Jie Bo is a Director, Vice President and Chief Financial Officer of the Company. Mr. Xu joined the Company in July 1998. He graduated from the Management Department of Tianjin University and was subsequently awarded with a master degree in business administration from Hong Kong Baptist University. A qualified senior accountant by profession, Mr. Xu started his career in August 1986 and worked as Supervisor of the Financial Management Office for Infrastructure Projects of Guangzhou Civil Aviation Administration. In December 1992, he took up the posts of Deputy Director and Director of the Financial Department of Central and Southern China Civil Aviation Administration. In July 1998, he became General Manager of the Financial Department and Chief Financial Officer of the Company. Currently, he is a Director and the Vice President and Chief Financial Officer of the Company. He is also a Director of Guizhou Airlines Company Limited, Vice Chairman of Sichuan Airlines Corporation Limited, and Vice Chairman of Xiamen Airlines Company Limited. Mr. Xu became a Director of the Company on April 16, 2001.

Mr. Peter Lok has been an Independent Non-Executive Director of the Company since April 16, 2001. He is also a veteran in the civil aviation industry. Mr. Lok joined the Civil Aviation Department of Hong Kong in 1956 and became its Assistant Director in 1982, Deputy Director in 1988, and Director from 1990 to 1996. From 1997 to 2000, Mr. Lok was an advisor and president of Hong Kong Commercial Airlines Center. Mr. Lok has sat on various Committees such as the Evaluation Committees for the Design of Shanghai's Pudong Airport, Committee for China's Zhuhai Aviation and Spaceflight Fair, Evaluation Committees for the IATA Eagle Award. He is also independent director of several listed airline companies.

Mr. Wei Ming Hai has been an Independent Non-Executive Director of the Company since April 16, 2001. Professor Wei has worked in Jiangxi Provincial Accounting Association, and he started working in Zhongshan University from 1991. In 1993 he became the chairman of the Accounting Department in the School of Management of Zhongshan University. In 1996 he became the Deputy Dean of the School of Management in Zhongshan University. In January 2000, he became Dean of the School of Management in Zhongshan University. Since 1998, Professor Wei has been a doctorate advisor for Accounting Information and Investment Analysis. Professor Wei is also on the board of directors of China Accountants Association, Vice Chairman of Accountants Association of Guangdong Province, Vice Chairman of Auditors Association of Guangzhou, Executive Member of the Research Institute of Financial Costs for Young and Middle-aged Accountants, member of American Accounting Association. Professor Wei holds a Ph.D degree in economics and has an MBA degree from Tulane University in the United States of America. He has published over 7 academic books or textbooks, and over 80 academic papers.

Table of Contents

Mr. Wang Zhi has been an Independent Non-Executive Director of the Company since May 2003. Mr. Wang graduated from the Aircraft Design Department of Harbin Institute of Technology. Mr. Wang began his career in 1965, and has successively served as the Director and Senior Engineer of Aeronautics Research Institute of China, the Vice Director and Vice secretary of the First Research Institute of Civil Aviation, the Vice Director and Director of the Planning Bureau of CAAC and the Director of the Planning Technology System Reform Department and the Planning Technology Department of CAAC. Mr. Wang is also a professor in several universities.

Mr. Sui Guang Jun has been an Independent Non-Executive Director of the Company since May 2003. Mr. Sui graduated from the Economic Department of Jinan University and obtained a master degree. Mr. Sui obtained a doctor degree in the Management of Organizations of Jinan University. He has successively served as the Vice Director of the Research Institute of Hong Kong and Macao Economies, the Dean of corporate administration department of Jinan University and the Chief of the Post-doc Committee of Applied Economics and the Dean of Management College in Jinan University. Mr. Sui is currently the Deputy Vice Chancellor of Guangdong University of Foreign Studies.

The independent non-executive Directors of the Company are nominated by the Board of Directors, and their appointment must be approved by the shareholders of the Company in a general meeting. The executive Directors of the Company are nominated by CSAHC, the controlling shareholder of the Company, and their appointment must be approved by the shareholders of the Company in a general meeting.

SUPERVISORY COMMITTEE

As required by the Company Law and the Articles of Association, the Company has a supervisory committee (the Supervisory Committee) which is primarily responsible for the supervision of senior management of the Company, including the Board of Directors, executive officers and other senior management personnel, to ensure that they act in the interests of the Company, its shareholders and employees, as well as in compliance with applicable law. The Supervisory Committee consists of three Supervisors. Two of the Supervisors are shareholder representatives appointed by shareholders, and one Supervisor is a representative of the Company's employees. The Supervisors serve terms of three years and may serve consecutive terms.

Mr. Sun Xiao Yi is a member of Party Committee and head of Discipline Supervision Team of China Southern Air Holding Company. Mr. Sun graduated from the Civil Aviation University of China with a degree in Economics and Administration and is currently a postgraduate law student of Central Communist Party College. Mr. Sun is a senior expert of Political Science and Economics with an associate degree. Mr. Sun has successively served as Vice Party Secretary of the Hubei branch of the Company, Party Secretary of the Flight Operations Department of the Company, and Vice Party Secretary of China Southern Air Holding Company. Mr. Sun became a Supervisor on June 16, 2004.

Mr. Yang Guang Hua is the Vice Party Secretary and Discipline Supervision Secretary of the Company. Mr. Yang is an engineer with university qualification. Mr. Yang has successively served as Deputy General Manager of the Hunan branch of the Company, General Manager of Southern Airlines (Group) Zhuhai Helicopters Company Limited, General Manager of the Hunan branch of the Company, and Deputy General Manager of the Company. Mr. Yang became a Supervisor on June 16, 2004.

Ms. Yang Yi Hua is the General Manager of the Audit Department of the Company. Ms. Yang is an internationally qualified internal auditor. She has successively served as Deputy Manager of the Clearance and Settlement Office of the Financial Division of the Guangzhou Civil Aviation Administration, Manager of the Financial Office of the Company's Financial Division, and Deputy General Manager of the Company's Audit Department. She has been the President of Xiamen Airlines since September 2005. Ms. Yang became a Supervisor on June 16, 2004.

Table of Contents**SENIOR ADMINISTRATIVE OFFICERS**

Mr. Yuan Xin An is a Vice President of the Company. He graduated from the Air Engineering College. Mr. Yuan has over 25 years of experience in the Chinese aviation industry. Notes:

- (i) The above amounts

included the salaries paid to these Directors as pilots of the Company.

- (ii) Simon To received director's fee of RMB1 during the year ended December 31, 2005.

Board Practices

Each Director's service contract with the Company or any of its subsidiaries provide prorated monthly salary upon termination of employment in accordance with his contract. The Director is entitled to paid leave in accordance with his contract. The term of office of a Director is three years. The term of office of the current Directors will end in 2007. A Director may serve consecutive terms upon re-election.

Audit Committee

The audit committee is appointed by the Board of Directors and consists of three independent non-executive Directors. The current members of the audit committee are Wei Ming Hai, Wang Zhi and Sui Guang Jun. Wei Ming Hai is the chairman of the audit committee. The term of office of each member is three years. The term of office of the current members will end in 2007. A member may serve consecutive terms upon re-election. At least once a year, the committee is required to meet with the Company's external auditors without any executive members of the Board in attendance. The quorum necessary for the transaction of any business is two committee members. The Audit Committee held nine meetings in 2005, which were attended by all members. The external auditors or the Chief Financial Officer of the Company may request a meeting of the audit committee.

The audit committee selects and engages, on behalf of the Company, external auditors to audit the Company's annual financial statements and considers questions regarding the audit fees and the resignation or dismissal of the external auditors. The audit committee also reviews and approves the planned scope of the Company's annual audit. In addition, the audit committee reviews the annual and interim financial statements, the preliminary announcement of results and any other announcement regarding the Company's results or other financial information to be made public, before submission to the Board of Directors. Moreover, the committee discusses problems arising from the audit and reviews the external auditors' management letter and management's response. Furthermore, the audit committee reviews the effectiveness of the system of internal financial controls from information provided by the Executive Directorate and management of the Company and ensures adherence to the Company's control policies so that the Company's assets are safeguarded and financial records are complete and accurate. The audit committee meets regularly with the Company's senior positions from finance department and internal audit department and the external auditors to consider the Company's financial reporting, the nature and scope of audit review and the effectiveness of the systems of internal control. The audit committee also reviews any significant transactions that are not in the ordinary course of business.

The Company has an internal audit department which reviews procedures in all major financial and operational activities. This department is led by the head of internal audit who is directly responsible to the Chairman of the Board and submits regular reports to the audit committee.

Remuneration Committee

The remuneration committee comprises three members. Currently, the remuneration committee is chaired by independent non-executive Director Sui Guang Jun with independent non-executive Director Wei Ming Hai and executive Director Wang Quan Hua as members. The term of office of each member is three years. The term of office of the current members will end in 2007. A member may serve consecutive terms upon re-election. The remuneration committee met once in 2005, which meeting was attended by all members. In addition, the remuneration committee also meets as and when required to consider remuneration related matters.

The responsibilities of the remuneration committee are to approve the remuneration packages of Directors and Senior Management of the Group, and the Company's preliminary proposals on annual emoluments of the directors and senior management of the Group. The remuneration committee is also responsible for assessing performance of executive Directors and approving the terms of executive Directors' service contracts.

Employees

As of December 31, 2005, the Group had 34,417 employees, including 2,567 pilots, 4,539 flight attendants, 5,076 maintenance personnel, 10,445 sales and marketing personnel, 3,243 administrative personnel and 8,547 temporary employees. All of the Group's pilots, flight attendants, maintenance personnel, administrative personnel and sales and marketing personnel are contract employees, and most of the Group's ancillary service workers are temporary employees. Contract employees are hired by the Group pursuant to renewable employment contracts with terms ranging from

Table of Contents

three to five years. Temporary employees generally are hired by the Group pursuant to at-will employment contracts or employment contracts with a term of one year.

The Company's employees are members of a trade union organized under the auspices of the All-China's Federation of Trade Unions, which is established in accordance with the Trade Union Law of China. A representative of the Company labor union currently serves on the Supervisory Committee of the Company. Each of the Company's subsidiaries has its own trade union. The Group has not experienced any strikes, slowdowns or labor disputes that have interfered with its operations, and the Group believes that its relations with its employees are good.

All employees of the Group receive cash remuneration and certain non-cash benefits. Cash remuneration consists of salaries, bonuses and cash subsidies provided by the Group. Salaries are determined in accordance with the national basic wage standards. The total amount of wages payable by the Group to its employees is subject to a maximum limit based on the profitability of the Group and other factors. Bonuses are based on the profitability of the Group. Cash subsidies are intended as a form of cost-of-living adjustment. In addition to cash compensation, the Group's contract employees receive certain non-cash benefits, including housing, education and health services, and the Group's temporary employees receive limited health services, but not housing or education. CSAHC provides certain services in respect of these benefits to the Group's employees in consideration of certain fees and other charges.

Retirement And Housing Benefits

Employees of the Group participate in several defined contribution retirement schemes organised separately by PRC municipal governments in regions where the major operations of the Group are located. The Group is required to contribute to these schemes at the rates ranging from 9% to 20% of salary costs including certain allowances. A member of the retirement schemes is entitled to pension benefits equal to a fixed proportion of the salary at the retirement date. The retirement benefit obligations of all existing and future retired staff of the Group are assumed by these schemes.

In addition, the Group was selected as one of the pilot enterprises to establish a supplementary defined contribution retirement scheme for the benefit of employees. In this connection, employees of the Group participate in a supplementary defined contribution retirement scheme whereby the Group is required to make defined contributions at rates ranging from 3% to 5% of total salaries. The Group has no obligation for the payment of pension benefits beyond the contributions described above.

Furthermore, pursuant to the comprehensive services agreement (the Services Agreement) dated May 22, 1997 between the Company and CSAHC, CSAHC provided quarters to eligible employees of the Group. In return, the Group paid a fixed annual fee of RMB85 million to CSAHC for a ten-year period from 1995 to 2004. The agreement expired by December 31, 2004 and no further payment was made in 2005.

Pursuant to an additional staff housing benefit scheme effective September 2002, the Group agreed to pay lump sum housing allowances to certain employees who have not received quarters from CSAHC or the Group according to the relevant PRC housing reform policy, for subsidising their purchases of houses. An employee who quits prior to the end of the vesting benefit period is required to pay back a portion of the lump sum housing benefits determined on a pro-rata basis of the vesting benefit period. The Group has the right to effect a charge on the employee's house and to enforce repayment through selling the house in the event of default in repayment. Any shortfall in repayment would be charged against income statement. As of December 31, 2005, the Company and the Group had made payments totalling RMB168 million under the scheme and recorded its remaining contractual liabilities totalling RMB92 million as accrued expenses on the balance sheets. Housing allowances are payable when applications are received from eligible employees.

Workers' Compensation

There is no workers' compensation or other similar compensation scheme under the Chinese labor and employment system. As required by Chinese law, however, the Group, subject to certain conditions and limitations, pays for the medical expenses of any contract employee who suffers a work-related illness, injury or disability and continues to pay the full salary of, and provides all standard cash subsidies to, such employee during the term of such illness, injury or disability. The Group also pays for certain medical expenses of its temporary employees.

Table of Contents**Share Ownership**

As of the date of this Annual Report, no Director, Senior Management or Supervisor of the Company is a beneficial owner of any shares of the Company's capital stock. As of the date of this Annual Report, no arrangement has been put in place involving issue or grant of options or shares or securities of the Company to any of the Director, Senior Management, Supervisor or employees of the Company.

ITEM 7. MAJOR SHAREHOLDERS AND RELATED PARTY TRANSACTIONS.**Major Shareholders***Share Capital Structure*

As of May 31, 2006, the total share capital of the Company was divided into 4,374,178,000 shares, of which approximately 50.3% (2,200,000,000 domestic shares) was held by CSAHC, approximately 26.84% (1,174,178,000 H shares) was held by Hong Kong and overseas shareholders and approximately 22.86% (1,000,000,000 A shares) was held by domestic shareholders. CSAHC owns 50.30% of the total share capital of the Company, therefore it is entitled to exercise all the rights of a controlling shareholder, including the election of executive Directors.

Substantial Shareholders

As of May 31, 2006, the following shareholders had an interest of 5% or more in the Company's shares:

Name	Number of Shares	Approximate Percentage of the Total Number of Shares
CSAHC	2,200,000,000 domestic shares	50.30%
HKSCC Nominees Limited	1,150,854,998 H shares	26.31%

The table below sets forth, as of May 31, 2006, the following entities hold 5% or more of the total number of H shares issued by the Company.

Name	Number of H Shares	Approximate Percentage of the Total Number of H Shares
HKSCC Nominees Limited	1,150,854,998	98.01%

Domestic shares and H shares have identical voting rights.

Related Party Transactions

The Company enters into transactions from time to time with CSAHC and its affiliates. For a description of such transactions, see Note 36 to the Financial Statements. In particular, the following arrangements, which the Company believes are material to its operations, have been made between the Company and CSAHC and its affiliates. The Company believes that these arrangements have been entered into by the Group in the ordinary course of business and in accordance with the agreements governing such transactions.

*Arrangements with CSAHC**Trademark License Agreement*

The Company and CSAHC entered into a ten year trademark licence agreement dated May 22, 1997 pursuant to which CSAHC acknowledges that the Company has the right to use the name "China Southern" and "China Southern Airlines" in both Chinese and English, and grants the Company a renewable royalty free license to use the kapok logo on a worldwide basis in connection with the Company's airline and airline-related businesses. Unless CSAHC gives a

written notice of termination three months before the expiration of the agreement, the agreement will be automatically renewed for another ten-year term.

Table of Contents*Leases*

The Company as lessee and CSAHC as lessor have entered into the following lease agreements:

The Company and CSAHC entered into a land lease agreement dated May 22, 1997, in respect of the land used by the Company within Guangzhou Baiyun International Airport. The rental payment is RMB2,651,000 per year. The term of the lease is five years commencing April 1, 1997, renewable by both parties thereafter (subject to mutual agreement with respect to rental terms).

The Company and CSAHC separately entered into four lease agreements dated May 22, 1997, in respect of office premises located at the east wing of the Guangzhou Railway Station on Guangzhou Huanshi Dong Road, office premises at Haikou Airport, office premises in Haikou City, and office premises at Tianhe Airport in Wuhan, Hubei Province. The aggregate rental payment under the four leases is RMB15,745,000 per year. The term of each lease is one year, renewable by the parties thereafter (subject to mutual agreement with respect to rental terms).

The Company and CSAHC entered into an indemnification agreement dated May 22, 1997 in which CSAHC has agreed to indemnify the Company against any loss or damage caused by or arising from any challenge of, or interference with, the Company's right to use certain land and buildings.

The Company and CSAHC entered into a lease agreement dated November 12, 2004, under which CSAHC leases to the Company certain lands by leasing the land use rights of such lands to the Company. These lands had been administratively allocated to Xinjiang Airlines and Northern Airlines for the purposes of their civil aviation and related businesses. Subsequently, CSAHC was authorised to deal with the land use rights of such lands, including leasing, but not transferring, such land use rights. Total area of the lands leased is 1,182,297 square metres, and the locations of such lands are in Urumqi, Shenyang, Dalian and Harbin. The lease is for a fixed term of three years, commencing from the effective date of the lease, and is renewable, subject to compliance with the relevant requirements of the Hong Kong Listing Rules by the Company, by an application in writing by the Company to the lessor three months before the end of the fixed term. The rent for the land use rights of the designated lands under lease agreement is RMB22,298,000 per year, payable in arrear by cheque, in cash or by bank transfer on or before the 10th day of each calendar month, and is determined after arm's length negotiation between the parties. The maximum aggregate annual limit (Cap) for the lease agreement is set at RMB22,298,000 per year. The lease agreement was approved by the shareholders of the Company at the 2nd extraordinary general meeting on December 31, 2004.

*Arrangements with CSAHC and CSAHC's Affiliates**Leases*

The Company, CSAHC and CNA entered into a lease agreement dated November 12, 2004, under which CSAHC and CNA lease to the Company certain buildings, facilities and other infrastructure related to the civil aviation businesses of CNA situated at various locations in Shenyang, Dalian, Jilin, Harbin, Chaoyang and Russia. The lease is for a fixed term of three years, commencing from the date of the lease, and is renewable, subject to compliance with the relevant requirements of the Hong Kong Listing Rules by the Company, by an application in writing by the Company to the lessor three months before the end of the fixed term. The consideration for lease agreement is RMB43,758,000 per year, payable in arrear by cheque, in cash or by bank transfer on or before the 10th day of each calendar month, and is determined after arm's length negotiation between the parties. The Cap for the lease agreement is set at RMB43,758,000 per year. The lease agreement was approved by the shareholders of the Company at the 2nd extraordinary general meeting on December 31, 2004.

The Company, CSAHC and XJA entered into a lease agreement dated November 12, 2004, under which CSAHC and XJA lease to the Company certain buildings, facilities and other infrastructure related to the civil aviation businesses of XJA situated in Xinjiang and Russia. The lease is for a fixed term of three years, commencing from the effective date of the lease, and is renewable, subject to compliance with the relevant requirements of the Hong Kong Listing Rules by the Company, by an application in writing by the Company to the lessor three months before the end of the fixed term. The consideration for lease agreement is RMB5,798,000 per year, payable in arrear by cheque, in cash or by bank transfer on or before the 10th day of each calendar month, and is determined after arm's length negotiation between the parties. The Cap for the lease agreement is set at RMB5,798,000 per year. The lease agreement was approved by the shareholders of the Company at the 2nd extraordinary general meeting on December 31, 2004.

Table of Contents**Arrangements with CSAHC's Affiliates***Southern Airlines (Group) Import and Export Trading Company (SAIETC), a wholly owned subsidiary of CSAHC*

The Company and SAIETC entered into an agreement dated May 22, 1997 for the import and export of aircraft, flight equipment, special vehicles for airline use, communication and navigation facilities, and training facilities for a term from May 22, 1997 to May 22, 2000 which was subsequently extended to May 22, 2006 by mutual agreement between the parties. The parties have determined the various rates for import and export services provided by SAIETC after negotiations on a fair and equitable basis, which are not higher than the market rates for similar services.

For the year ended December 31, 2005, the amount incurred by the Group for the import and export of the above equipment was RMB31,714,000.

In order to comply with the requirements under Rule 14A.35 of the Hong Kong Listing Rules so that SAIETC can continue to provide import and export services and custom clearing service after the expiry of the original agreement, the Company and SAIETC entered into a new import and export agency framework agreement (the Import and Export Agency Framework Agreement) on 1 January, 2006, which became effective on April 25, 2006, having been approved by the Board of Directors of the Company. The Import and Export Agency Framework Agreement is valid for a term of three years, commencing from the date of the agreement, subject to compliance with the relevant provisions of the Hong Kong Listing Rules by the Company. Both parties agreed that the agency fee for import and export shall be determined after arm's length negotiation and shall not be higher than the market rate.

Southern Airlines Advertising Company, which is 45% owned by the Company and 55% owned by CSAHC (SAAC)

The Company and SAAC entered into an agreement dated May 22, 1997 for the provision of advertising services for a term extending from May 22, 1997 to May 22, 2000. After extension of three years, the parties have mutually agreed to extend the agreement for another three years to May 22, 2006.

In order to comply with the requirements under Rule 14A.35 of the Hong Kong Listing Rules, so that SAAC can continue to provide advertising service after the expiry of the original agreement, the Company and SAAC entered into a new advertising agency agreement (Advertising Agency Agreement) on January 1, 2006 for a term of three years commencing from the date of the agreement, which became effective on 25 April, 2006, having been approved by the Board of Directors of the Company.

Under the agreement, SAAC will produce advertisement script, graphic and music to the Company with the copyright of such products belonging to the Company products belonging to the Company, provided that the Company shall comply with all relevant provisions under the Hong Kong Listing Rules. Both parties agreed that the agency rate for advertising under the Advertising Agency Agreement shall be determined after arm's length negotiation and shall not higher than the market rate. For the year ended 31 December 2005, the amount incurred by the Group to SAAC for advertising services was RMB3,062,000.

China Southern Airlines Group Finance Company Limited (SA Finance) which is 42% owned by CSAHC, 32% owned by the Company and 26% owned in aggregate by five subsidiaries of the Company

The Company entered into a financial agreement dated May 22, 1997 with SA Finance for the provision of financial services such as deposit and loan facilities, credit facilities, financial guarantees and credit references for a term commencing from May 22, 1997 to May 21, 2000. As agreed by the parties, the agreement was extended for six years to May 22, 2006. In order to comply with the new requirements under the Hong Kong Listing Rules, so that SA Finance can continue to provide deposit of money service and other financial services (subject to execution of separate agreements and further compliance with the Hong Kong Listing Rules), the Company and SA Finance entered into a new financial agreement on November 12, 2004, commencing from that date for a period of three years, and is renewable, subject to compliance with the requirements of the relevant Hong Kong Listing Rules by the Company, by an application in writing by the Company not less than 30 days before the end of the fixed term.

As SA Finance is a connected person of the Company under the Hong Kong Listing Rules, the financial agreement constitutes a discloseable and non-exempt continuing connected transaction under Rule 14A.35 of the Hong Kong Listing Rules and requires the Company to comply with the reporting and announcement requirement and the independent shareholders' approval requirement under Rule 14A.48 of the Hong Kong Listing Rules. The independent shareholders of the Company approved the financial agreement at the second extraordinary general meeting of the Company held on December 31, 2004.

Under such agreement, SA Finance agrees to accept deposit of money from the Company at interest rates not lower than those set by the People's Bank of China for the same term of deposit. SA Finance will in turn deposit the whole of such sums of money with certain banks including Bank of Agriculture, Bank of Communications, China Construction Bank and Industrial and Commercial Bank of China; make loans to the Company subject to the entering into of separate loan agreements, which will set out the Cap, terms and conditions of the loans, upon application by the Company during the term of the financial agreement. The maximum limit for amount of money deposit under the financial agreement is RMB1 billion. The Company will comply with the Hong Kong Listing Rules when entering into such separate written agreements. SA Finance shall not charge interest rates higher than those set by the People's Bank of China for similar loans. The total amount of outstanding loans extended by SA Finance to the Company must not exceed the sum of SA Finance's shareholders' equity, capital reserves and money deposit received from other parties (except the Company); and provide credit facilities, financial guarantees, credit references, and other financial services subject to the entering into of separate agreements, which will set out the cap, terms and conditions of such services, upon request by the Company during the term of the financial agreement. The Company will comply with the Hong Kong Listing Rules when entering into such separate written agreements.

Table of Contents

As of December 31, 2005, the Group's deposits placed with SA Finance amounted to RMB543,825,000, which bore interest at the rate of 0.72% per annum; the balance of the loans extended to the Group by SA Finance amounted to RMB300,000,000.

Shenzhen Air Catering Company Limited, which is 33% owned by CSAHC, and 67% owned by two independent third parties

The Company and Shenzhen Air Catering Company Limited entered into an agreement dated May 23, 1997 for the sale and purchase of in-flight meals for flights originating or stopping at the airport in Shenzhen. Pursuant to such agreement, Shenzhen Air Catering Company Limited will supply in-flight meals to the Group from time to time during the term from May 23, 1997 to May 23, 1998. The parties have mutually agreed that the agreement can be renewed automatically.

For the year ended December 31, 2005, the amount incurred by the Group to Shenzhen Air Catering Company Limited for the provision of in-flight meals was approximately RMB60,542,000.

China Southern West Australian Flying College Pty Ltd (the Australian Pilot College), which is 65% owned by the Company and 35% owned by CSAHC

CSAHC and the Australian Pilot College entered into an agreement dated October 7, 1993 for the provision of pilot training in Australia to the cadet pilots of CSAHC (the Training Agreement). The Training Agreement will remain in force unless terminated by either party upon 90 days' prior written notice to the other party. Pursuant to the De-merger Agreement, the Company has assumed all the interests, rights and obligations of CSAHC under the Training Agreement.

For the year ended December 31, 2005, the amount paid by the Group to the Australian Pilot College for training services was RMB81,471,000.

Southern Airlines (Group) Economic Development Company, which is 61% owned by CSAHC and 39% owned by an independent third party

The Company and Southern Airlines (Group) Economic Development Company entered into an agreement dated May 22, 1997 for the provision of drinks, snacks, liquor, souvenirs and other products for a term extending from May 22, 1997 to May 22, 2007.

For the year ended December 31, 2005, the amount paid by the Group to Southern Airlines (Group) Economic Development Company for the provision of drinks, snacks, liquor, souvenirs and other products was RMB87,521,000.

Ticket sales arrangements

The Group has entered into ticket agency agreements for the sale of the Group's air tickets with several subsidiaries of CSAHC (the Agents). The Agents charge commission on the basis of the rates stipulated by the CAAC and International Air Transport Association (IATA). The Agents charge a commission in the amount of 3% of the ticket price for domestic tickets and 5% to 12% of the ticket price for Hong Kong and Macau regional/international tickets. The Group has other air ticket sales agents in China who also charge commission at the same rates. The Agents also act as air ticket sales agents for other Chinese airlines and charge the same rates of commission to such other airlines as those charged to the Group. The rates of commission are not higher than market rates for similar services.

For the year ended December 31, 2005, the aggregate amount of ticket sales of the Group conducted through the Agents was RMB451,121,000.

China Southern Airlines Group Air Catering Company Limited (the Catering Company), a wholly owned subsidiary of CSAHC

Table of Contents

The Company and the Catering Company entered into a catering agreement dated November 12, 2004 under which the Catering Company would supply (1) in-flight meals in accordance with the menus of in-flight meals to be agreed with the Company from time to time, and in such quantity as the Company shall advise the Catering Company in advance; and (2) catering services for different flights of the Company (including normal, additional, chartered and temporary flights) originating or stopping at the domestic airports, mainly in northern China and the Xinjiang regions where the Catering Company provides catering services.

The catering agreement is for a fixed term of three years, commencing from the date of the agreement. The parties have agreed, after arms length negotiation, on the price of each type of in-flight meals and the service charges for each type of aircraft. The prices of in-flight meals and the service charges are not higher than the market rate of comparable in-flight meals and service charges. The Catering Company will issue an invoice listing out the quantity of in-flight meals supplied, the agreed unit price and the total price payable for each of the Company flight it provides service. The Cap for the Catering Agreement is set at RMB220,000,000 per year.

For the year ended December 31, 2005, the Company paid the in-flight meals charge of RMB112,136,000 pursuant to the catering agreement.

China Southern Airlines Group Passenger and Cargo Agent Company Limited (PCACL), a wholly owned subsidiary of CSAHC

In order to comply with the requirements under Rule 14A.35 of the Hong Kong Listing Rules so that PCACL can continue to provide ticket agency services, the Company and PCACL, a wholly owned subsidiary of CSAHC whose principal business activity is that of acting as an air ticket agent and airfreight forwarding agent, entered into a new ticket agency framework agreement (the *New Ticket Agreement*) and a new airfreight forwarding agency framework agreement (the *New Airfreight Agreement*, together with *New Ticket Agreement*, the *Two Sales Agency Framework Agreements*) on January 1, 2006, which became effective on April 25, 2006, having been approved by the Board of Directors of the Company.

The *Two Sales Agency Framework Agreements* are valid for a term of three years commencing from January 1, 2006, subject to the compliance of relevant requirements of the Hong Kong Listing Rules by the Company. The parties agreed that the agency fee shall be determined after arms length negotiation and shall not be higher than the market rate.

China Southern Airlines Group Travel Development Company Limited (CSA Travel), a wholly owned subsidiary of CSAHC

The Company and CSA Travel, whose principal business activity is that of operating tourism related business, entered into a framework agreement on Lease, Operation and Management (*Framework Agreement on Lease and Operation*) on January 1, 2006 in order to allow Company to lease certain hotels belonging to it to CSA Travel for it to operate, and to provide certain relevant services in compliance with the requirements under Rule 14A.35 of the Hong Kong Listing Rules for a term of three years, commencing from the date of the agreement. The *Framework Agreement on Lease and Operation* became effective on April 25, 2006, having been approved by the Board of Directors of the Company. Pursuant to the agreement, the Company shall lease Guangzhou Airlines Hotel, Zhuhai Pilot Mansion and certain portions of CSA Guangzhou Hotel and Beijing CSA Hotel to the CSA Travel for operation and management of such hotels. With regard to the amount of rent payable under the agreement, the annual cap for the *Framework Agreement on Lease and Operation* is set at RMB6,000,000 per annum for the entire term of the agreement.

Guangzhou China Southern Airlines Property Management Company Limited (the GCSAPMC), which is 90% owned by CSAHC and 10% owned by the Company's Union

The Company and GCSAPMC, whose principal business activity is that of management of real property, entered into a framework agreement for the Engagement of Property Management (*Property Management Framework Agreement*) on January 1, 2006 in respect of engaging GCSAPMC to provide property management and improvement services in compliance with the requirements under Rule 14A.35 of the Hong Kong Listing Rules for a term of three years, commencing from the date of the agreement. The *Property Management Framework Agreement* became effective on April 25, 2006, having been approved by the Board of Directors of the Company. The *Property Management Framework Agreement* would become effective upon approval by the Board of Directors of the Company. Pursuant to the agreement, the Company has appointed GCSAPMC to provide management and

maintenance services for the Company's headquarters in Guangzhou and to provide maintenance and management services for the 110KV transformer substation at the new Baiyun International Airport to ensure the ideal working conditions of the Company's production and office facilities and physical environment, and the normal operation of equipment. The fee charging schedule shall be determined at an arm's length between both parties. The agency fee is payable within the time period set out in the invoice to be delivered to the Company. The Company will fund the agency fee wholly by its internal resources.

With regard to the approximate amount of agency fee payable for property management and improvement services under the agreement likely to be incurred each year during the term of the agreement, the annual cap for the Property Management Framework Agreement is set at RMB47,010,000 per annum for the entire term of the agreement.

CSAHC Hainan Co., Ltd., (Hainan Co., Ltd.), a subsidiary of CSAHC from Hainan Co., Ltd.

In order to expand the assets size and competitive advantage of the Company's airline operations and completely remove competition with CSAHC in the airline industry, the Board of Directors reviewed and approved the acquisition (the Acquisition) by the Company of the assets (Core Assets) and liabilities (Core Liabilities) in relation to the airline operations of CSAHC Hainan Co., Ltd. (Hainan Co., Ltd.), a subsidiary of CSAHC from Hainan Co., Ltd., whose main business is that of civil aviation, on April 18, 2006.

As agreed by the parties, the value of the Core Assets to be acquired and the Core Liabilities to be assumed by the Company is determined in accordance with the valuation reports (Zhongqihuapingbaozi (2006) Report No. 024) on the transfer of business and assets of Hainan Co., Ltd. dated June 30, 2005 which was issued by China Enterprise Appraisal Co., Ltd., which sets out the estimated value of the Core Assets as RMB355,150,000, consisting mainly of RMB103,020,000 in cash, RMB55,110,000 for bill and trade receivables, RMB160,970,000 for airplanes, aviation equipment and production-related buildings and equipment, as well as RMB35,480,000 of land; and the Core Liabilities, which include airplane repair expenses, jet fuel and takeoff and landing fees, amount to RMB350,000,000. The Core Liabilities will be paid directly by the Company to the creditors in accordance with the terms and period as agreed by relevant parties. After deducting the above-mentioned liabilities, the Company shall pay RMB5,150,000 in cash, being the difference in the estimated values of the Core Assets and Core Liabilities, into the bank account designated by Hainan Co., Ltd. The Company will fund the consideration for the Acquisition wholly by its internal resources.

Nan Lung Travel & Express (Hong Kong) Ltd. (the Nanlung), a subsidiary wholly owned by CSAHC

As China Airlines (Hong Kong) Co., Ltd. has ceased to act as agent of the Company in respect of its ticket sales, account settlement and the ground operations of its flights in Hong Kong region, for the purpose of maintaining the sales and operations of the Company in Hong Kong region, the Company entered into a new General Agency Agreement for Sale of Freight and Passenger Services (the Agency Agreement) with Nanlung on May 16, 2006, having been approved by the Board of Directors of the Company.

The Agency Agreement is valid for a term of one year, commencing from January 1, 2006, subject to compliance with the relevant provisions of the Hong Kong Listing Rules by the Company. Both parties agreed that prior to the establishment of any relevant entity in Hong Kong region by the Company, the Company authorizes Nanlung to act as agent in its sales and account settlement and the ground operations of its flights in Hong Kong region, and that the rates of the various agency fees shall be determined after arm's length negotiation and shall not exceed those of the same category that prevail in the market, with a ceiling set at 6% of the revenue of the Company that is derived from freight and passenger services sold through the agency of Nanlung (the total amount shall not exceed HK\$60 million). The agency fee is payable within the time period set out in the invoice to be delivered to the Company. The Company will fund the agency fee wholly by its internal resources.

Memorandum and Articles of Association

The following is a summary of certain provisions of our articles of association. As this is a summary, it does not contain all the information that may be important to you. You and your advisors should read the text of our articles of association for further information.

The Company is registered with and has obtained a business license from the State Administration Bureau of Industry and Commerce of the People's Republic of China on March 25, 1995. The Company's business license number is 1000001001760.

On March 13, 2003, the Company obtained an approval certificate from the Ministry of Commerce to change to a permanent limited company with foreign investments and obtained the business license (Qi Gu Guo Zi Di No. 000995) on October 17, 2003 issued by the State Administration of Industry and Commerce of the People's Republic of China.

Objects and Purpose

Pursuant to Article 13 of the Articles of Association, the business purposes of the Company are: (i) to absorb domestic and foreign capital; (ii) to assist in developing the aviation industry of China; (iii) to promote the development of the national economy of China; (iv) to utilize corporate incentive mechanisms of privatization; (v) to draw on the advanced management expertise of other domestic and foreign companies; (vi) to continuously improve the management of the Company; (vii) to enhance the market competitiveness of the Company; (viii) to generate economic and social benefits for the Company; and (ix) to generate steady income for the Company's shareholders. Pursuant to Article 14 of the Articles of Association, the scope of business of the Company shall be consistent with and subject to the scope of business approved by the relevant supervisory department of the State. The scope of business of the Company includes: (i) provision of scheduled and non-scheduled domestic, regional and international air transportation services for passengers, cargo, mail and luggage; (ii) undertaking general aviation services; (iii) provision of aircraft repair and maintenance services; (iv) acting as agent for other domestic and international airlines; (v) provision of air catering services and (vi) engaging in other airline or airline-related business, including advertising for such services.

Directors

Pursuant to Article 179 of the Articles of Association, where a Director of the Company is in any way, directly or indirectly, materially interested in a contract, transaction or arrangement or proposed contract, transaction or arrangement with the Company, (other than his contract of service with the Company), he shall declare the nature and extent of his interests to the Board of Directors at the earliest opportunity, whether or not the contract, transaction or arrangement or proposal therefor is otherwise subject to the approval of the Board of Directors.

Pursuant to Article 130 of the Articles of Association, where a Director is interested in any resolution proposed at a board meeting, such Director shall not be present and shall not have a right to vote. Such Director shall not be counted in the quorum of the relevant meeting.

Table of Contents

Pursuant to Article 187 of the Articles of Association, the Company shall, with the prior approval of shareholders in general meeting, enter into a contract in writing with a Director wherein his emoluments are stipulated. The aforesaid emoluments include, emoluments in respect of his service as Director, Supervisor or senior administrative officer of the Company or any subsidiary of the Company; emoluments in respect of the provision of other services in connection with the management of the affairs of the Company and any of its subsidiaries; and payment by way of compensation for loss of office, or as consideration for or in connection with his retirement from office.

Pursuant to Article 124(6) of the Articles of Association, the Board of Directors has the power to formulate proposals for increases or reductions in the Company's registered capital and the issue of debentures of the Company; such resolutions must be passed by more than two-thirds of all the Directors.

There is no mandatory retirement age for the Directors of the Company. The Directors of the Company are not required to hold shares of the Company.

Ordinary Shares

Pursuant to Article 19 of the Articles of Association, subject to the approval of the securities authority of the State Council, the Company may issue and offer shares to domestic investors or foreign investors for subscription. Foreign investors are those investors of foreign countries and regions of Hong Kong, Macau and Taiwan who subscribe for shares issued by the Company. Domestic investors are those investors within the territory of the PRC (excluding investors of the regions referred to in the preceding sentence) who subscribe for shares issued by the Company.

Pursuant to Article 20 of the Articles of Association, Shares issued by the Company to domestic investors for subscription in Renminbi shall be referred to as Domestic-Invested Shares. Shares issued by the Company to foreign investors for subscription in foreign currencies shall be referred to as Foreign-Invested Shares. Foreign-Invested Shares which are listed overseas are called Overseas-Listed Foreign-Invested Shares. The foreign currencies mean the legal currencies (apart from Renminbi) of other countries or districts which are recognized by the foreign exchange control authority of the state and can be used to pay the Company for the share price.

Pursuant to Article 21 of the Articles of Association, Domestic-Invested Shares issued by the Company shall be called A Shares. Overseas-Listed Foreign-Invested Shares issued by the Company and listed in Hong Kong shall be called H Shares. H Shares are shares which have been admitted for listing on The Stock Exchange of Hong Kong Limited, the par value of which is denominated in Renminbi and which are subscribed for and traded in Hong Kong dollars. H Shares can also be listed on a stock exchange in the United States of America in the form of American depositary receipts.

The Company has issued a total of 4,374,178,000 ordinary shares, of which (a) 2,200,000,000 are Domestic Shares held by CSAHC, (b) 1,174,178,000 are H Shares held by Hong Kong and overseas shareholders and (c) 1,000,000,000 are A Shares held by PRC shareholders.

Pursuant to Article 54 of the Articles of Association, the ordinary shareholders of the Company shall enjoy the following rights:

- (1) the right to attend or appoint a proxy to attend shareholders' general meetings and to vote thereat;
- (2) the right to dividends and other distributions in proportion to the number of shares held;
- (3) the right of supervisory management over the Company's business operations, and the right to present proposals or enquiries;
- (4) the right to transfer, donate or pledge his shares in accordance with laws, administrative regulations and provisions of these articles of association;
- (5) the right of knowledge and decision making power with respect to important matters of the Company in accordance with laws, administrative regulations and these articles of association;
- (6) the right to obtain relevant information in accordance with the provisions of these articles of association, including:
 - (i) the right to obtain a copy of these articles of association, subject to payment of the cost of such copy;

Table of Contents

- (ii) the right to inspect and copy, subject to payment of a reasonable charge:
 - (a) all parts of the register of shareholders;
 - (b) personal particulars of each of the Company's directors, supervisors, president and other senior administrative officers, including:
 - (aa) present name and alias and any former name or alias;
 - (bb) principal address (residence);
 - (cc) nationality;
 - (dd) primary and all other part-time occupations and duties;
 - (ee) identification documents and their relevant numbers;
 - (c) state of the Company's share capital;
 - (d) reports showing the aggregate par value, quantity, highest and lowest price paid in respect of each class of shares repurchased by the Company since the end of last accounting year and the aggregate amount paid by the Company for this purpose;
 - (e) minutes of shareholders' general meetings;
 - (f) interim and annual reports of the Company.
- (7) in the event of the termination or liquidation of the Company, to participate in the distribution of surplus assets of the Company in accordance with the number of shares held;
- (8) other rights conferred by laws, administrative regulations and these articles of association.

Pursuant to Article 55 of the Articles of Association, the ordinary shareholders of the Company shall assume the following obligations:

 - (1) to abide by these articles of association;
 - (2) to pay subscription monies according to the number of shares subscribed and the method of subscription;
 - (3) no right to return shares to the Company unless laws and regulations provide otherwise;
 - (4) other obligations imposed by laws, administrative regulations and these articles of association.

Shareholders are not liable to make any further contribution to the share capital other than as agreed by the subscriber of the relevant shares on subscription.

Action necessary to change rights of shareholders

Pursuant to Article 112 of the Articles of Association, shareholders who hold different classes of shares are shareholders of different classes.

The holders of the Domestic-Invested Shares and holders of Overseas-Listed Foreign-Invested Shares shall be deemed to be shareholders of different classes.

Table of Contents

Pursuant to Article 113 of the Articles of Association, rights conferred on any class of shareholders in the capacity of shareholders (class rights) may not be varied or abrogated unless approved by a special resolution of shareholders in general meeting and by holders of shares of that class at a separate meeting conducted in accordance with Articles 115 to 119.

Pursuant to Article 115 of the Articles of Association, shareholders of the affected class, whether or not otherwise having the right to vote at shareholders' general meetings, shall nevertheless have the right to vote at class meetings in respect of matters concerning sub-paragraphs (2) to (8), (11) and (12) of Article 114, but interested shareholder(s) shall not be entitled to vote at class meetings. Interested shareholder(s) is:

- (1) in the case of a repurchase of shares by offers to all shareholders or public dealing on a stock exchange under Article 31, a controlling shareholder within the meaning of Article 57;
- (2) in the case of a repurchase of share by an off-market contract under Article 31, a holder of the shares to which the proposed contract relates;
- (3) in the case of a restructuring of the Company, a shareholder within a class who bears less than a proportionate obligation imposed on that class under the proposed restructuring or who has an interest in the proposed restructuring different from the interest of shareholders of that class.

Pursuant to Article 116 of the Articles of Association, resolutions of a class of shareholders shall be passed by votes representing more than two-thirds of the voting rights of shareholders of that class represented at the relevant meeting who, according to Article 115, are entitled to vote at class meetings.

Pursuant to Article 117 of the Articles of Association, written notice of a class meeting shall be given forty-five (45) days before the date of the class meeting to notify all of the shareholders in the share register of the class of the matters to be considered, the date and the place of the class meeting. A shareholder who intends to attend the class meeting shall deliver his written reply concerning attendance at the class meeting to the Company twenty (20) days before the date of the class meeting.

If the number of shares carrying voting rights at the meeting represented by the shareholders who intend to attend the class meeting reaches more than one half of the voting shares at the class meeting, the Company may hold the class meeting; if not, the Company shall within five (5) days notify the shareholders again by public notice of the matters to be considered, the date and the place for the class meeting. The Company may then hold the class meeting after such publication of notice.

Pursuant to Article 118 of the Articles of Association, notice of class meetings need only be served on shareholders entitled to vote thereat.

Meeting of any class of shareholders shall be conducted in a manner as similar as possible to that of general meetings of shareholders. The provisions of these articles of association relating to the manner to conduct any shareholders' general meeting shall apply to any meeting of a class of shareholders.

Pursuant to Article 119 of the Articles of Association, the special procedures for voting at any meeting of a class of shareholders shall not apply to the following circumstances:

- (1) where the Company issues, upon the approval by special resolution of its shareholders in general meeting, either separately or concurrently once every twelve months, not more than 20 per cent of each of its existing issued Domestic-Invested Shares and Overseas-Listed Foreign-Invested Shares;
- (2) where the Company's plan to issue Domestic-Invested Shares and Overseas-Listed Foreign-Invested Shares at the time of its establishment is carried out within fifteen (15) months from the date of approval of the Securities Committee of the State Council.

Meetings of shareholders

Shareholders' general meetings is the organ of authority of the Company and shall exercise its functions and powers, among other things, to decide on the Company's operational policies and investment plans, to elect and replace directors and decide on matters relating to the remuneration of directors, to examine and approve reports of the board of directors, etc.

Table of Contents

There are two types of shareholders' general meetings: annual general meetings and extraordinary general meetings. Shareholders' general meetings shall be convened by the board of directors. Annual general meetings are held once every year and within six (6) months from the end of the preceding financial year.

Under any of the following circumstances, the Board of Directors shall convene an extraordinary general meeting within two (2) months:

- (1) when the number of Directors is less than the number of Directors required by the Company Law or two thirds of the number of Directors specified in the Articles of Association;
- (2) when the unrecovered losses of the Company amount to one third of the total amount of its share capital;
- (3) when shareholder(s) holding 10 per cent or more of the Company's issued and outstanding shares carrying voting rights request(s) in writing the convening of an extraordinary general meeting;
- (4) when deemed necessary by the Board of Directors or as requested by the supervisory committee.

When the Company convenes a shareholders' general meeting, written notice of the meeting shall be given forty five (45) days before the date of the meeting to notify all of the shareholders in the share register of the matters to be considered and the date and the place of the meeting. A shareholder who intends to attend the meeting shall deliver his written reply concerning the attendance of the meeting to the Company twenty (20) days before the date of the meeting.

The Company shall, based on the written replies received twenty (20) days before the date of the shareholders' general meeting from the shareholders, calculate the number of voting shares represented by the shareholders who intend to attend the meeting. If the number of voting shares represented by the shareholders who intend to attend the meeting reaches one half or more of the Company's total voting shares, the Company may hold the meeting; if not, then the Company shall within five (5) days notify the shareholders again by public notice of the matters to be considered, the place and date for, the meeting. The Company may then hold the meeting after such publication of notice.

Limitation on right to own securities

The PRC Special Regulations on Overseas Offering and the Listing of Shares by Companies Limited by Share (the Special Regulations) and the Mandatory Provisions for Articles of Association of Companies to be Listed Overseas (the Mandatory Provisions) provide for different classes of shares to be subscribed for and traded by local and overseas investors respectively. Shares which can be traded by overseas investors must be in registered form and while denominated in Renminbi, they are traded in foreign currency with dividends payable in foreign currency. Local investors are prohibited from dealing in such shares.

Merger, acquisition or corporate restructuring

Pursuant to Article 221 of the Articles of Association, in the event of the merger or division of the Company, a plan shall be presented by the Company's board of directors and shall be approved in shareholders' general meeting and the relevant examining and approving formalities shall be processed as required by law. A shareholder who objects to the plan of merger or division shall have the right to demand the Company or the shareholders who consent to the plan of merger or division to acquire that dissenting shareholder's shareholding at a fair price. The contents of the resolution of merger or division of the Company shall be made into special documents for shareholders' inspection. Such special documents shall be sent by mail to holders of Overseas-Listed Foreign-Invested Shares.

The Articles of Association do not contain any provisions governing the ownership threshold above which shareholder ownership must be disclosed.

Material Contracts

The Company has not entered into any material contracts other than in the ordinary course of business and other than those described in this Item 10, Item 4, Information on the Company or elsewhere in this annual report on Form 20-F.

- (a) A sale and purchase agreement (the Sale and Purchase Agreement) dated November 12, 2004 between the Company, CSAHC, CNA, a wholly owned subsidiary of CSAHC, and XJA, a wholly owned subsidiary of CSAHC, pursuant to which the Company agreed to acquire, and CSAHC, CNA and XJA agreed to sell certain airlines and airlines-related operations, assets and properties of CNA, XJA and their respective subsidiaries, which included aircraft, engines, spare parts, aviation equipment and facilities, properties, office facilities, and

other fixed, current and intangible assets. In addition, the Company will also assume all indebtedness in the aggregate sum of RMB13,438,191,000 owed by XJA, CNA and their respective subsidiaries in connection with their civil aviation business. The total consideration, including the assumption of the debts under the Sale and Purchase Agreement was RMB15,397,524,000. It became effective upon approval by the shareholders of the Company on December 31, 2004.

- (b) A lease agreement (the Lease Agreement 1) dated November 12, 2004 between the Company, CSAHC and CNA, pursuant to which CSAHC and CNA lease to the Company certain buildings, facilities and other infrastructure related to the civil aviation business of CNA situated at various locations in Shenyang, Dalian, Jilin, Harbin, Chaoyang and Russia for a period of three years. The consideration for Lease Agreement 1 is RMB41,993,318.44 per year. It became effective upon approval by the shareholders of the Company on December 31, 2004.
- (c) A lease agreement (the Lease Agreement 2) dated November 12, 2004 between the Company, CSAHC and XJA, pursuant to which CSAHC and XJA lease to the Company certain buildings, facilities and other infrastructure related to the civil aviation business of XJA situated at Xinjiang and Russia for a period of three years. The consideration for Lease Agreement 2 is RMB5,797,908.61 per year. It became effective upon approval by the shareholders of the Company on December 31, 2004.
- (d) A lease agreement (the Lease Agreement 3) dated November 12, 2004 between the Company and CSAHC, pursuant to which CSAHC leases to the Company certain lands situated in Urumqi, Shenyang, Dalian and Harbin, by leasing the land use rights of such lands to the Company for a period of three years. The consideration for Lease Agreement 3 is RMB22,298,033 per year. It became effective upon approval by the shareholders of the Company on December 31, 2004.
- (e) A catering agreement (the Catering Agreement) dated November 12, 2004 between the Company and China Southern Airlines Group Air Catering Company Limited (the Catering Company), a wholly owned subsidiary of CSAHC, pursuant to which the Catering Company supplies in-flight meal and catering services to the flights of the Company originating or stopping at the domestic airports, mainly in Northern China and Xinjiang regions where the Catering Company provides catering services for a period of three years. The consideration for the catering agreement is based on the price of each type of in-flight meals and the service price for each type of aircraft, and is capped at RMB220 million per year. It became effective upon approval by the shareholders of the Company on December 31, 2004.
- (f) A financial agreement (the Financial Agreement) dated November 12, 2004, between the Company and Southern Airlines Group Finance Company Limited (SA Finance), a connected person of the Company which is 42% owned by CSAHC, 32% owned by the Company and 26% owned in aggregate by five subsidiaries of the Company. The Financial Agreement commenced from November 12, 2004 for a period of three years, and is renewable, subject to compliance with the requirements of the relevant Hong Kong Listing Rules by the Company, by an application in writing by the Company not less than 30 days before the end of the fixed term. Under the Financial Agreement, SA Finance provides deposit of money service and, subject to the execution of further agreements with the Company, other financial services like loan facilities, credit facilities, financial guarantees and credit references to the Company. The Company is not subject to any extra charges for depositing money with SA Finance. For the other financial services provided by SA Finance under the financial agreement, the Company is liable to pay SA Finance the standard charging rates set by the People's Bank of China. The PRC commercial banks also charge similar charging rates set by the People's Bank of China. The Company will make payment for such interest, fees and commissions in accordance with the payment terms of the separate agreements for the provision of loans or other financial services as might be entered into between the Company and SA Finance. It became effective upon approval by the shareholders of the Company on December 31, 2004.
- (g) A framework agreement on lease and operation dated January 1, 2006 between the Company and China Southern Airlines Group Travel Development Company Limited (the CSA Travel), a wholly owned subsidiary of CSAHC,

pursuant to which the Company leases certain hotels belonging to it to CSA Travel for operation and management for a period of three years. The consideration for the framework agreement on lease and operation is based on the rent payable and fees for operation and management of the hotels, and is capped at RMB6 million per year. It became effective on April 25, 2006 has been approved by the directors of the Company.

- (h) An advertising agency agreement dated January 1, 2006 between the Company and Southern Airlines Advertising Company (the SAAC), a related party that is 45% owned by the Company and 55% owned by CSAHC, pursuant to which the SAAC produces advertisement script, graphic and music for the Company with the copyright of such products belonging to the Company for a period of three years. The consideration for the advertising agency agreement is based on the fees payable for advertising services to be provided, and is capped at RMB30 million per year. It became effective on April 25, 2006 has been approved by the directors of the Company.
- (i) A property management framework agreement dated January 1, 2006 between the Company and Guangzhou China Southern Airlines Property Management Company Limited (the GCSAPMC), a related party that is 90% owned by CSAHC and 10% owned by the Company's union, pursuant to which the GCSAPMC provides property management and improvement services for certain properties of the Company for a period of three years. The consideration for the property management framework agreement is based on the fees payable for management and maintenance services to be provided, and is capped at RMB47,010,000 per year. It became effective on April 25, 2006 has been approved by the directors of the Company.
- (j) An acquisition agreement dated April 1, 2006 between the Company and CSAHC Hainan Co., Ltd. (the Hainan Co., Ltd.), a subsidiary of CSAHC, pursuant to which the Company has agreed to acquire and Hainan Co., Ltd. has agreed to sell the assets and liabilities in relation to the airline operations of Hainan Co., Ltd. The total consideration payable by the Company, including the assets to be acquired and the liabilities to be assumed by the Company, was RMB5,150,000. It became effective upon approval by the directors of the Company on April 18, 2006.
- (k) An agency agreement for sale of freight and passenger services dated May 16, 2006 between the Company and Nan Lung Travel & Express (Hong Kong) Ltd. (the Nanlung), a wholly owned subsidiary of CSAHC, pursuant to which the Nanlung acts as agent in the Company's sales and account settlement and the ground operations of the Company's flights in Hong Kong region for a period of one year. The consideration for the agency agreement is based on the fees payable for ticket sale and other services to be provided, and is capped at RMB60 million for the entire term of the agency agreement. It became effective on May 16, 2006 and was approved by the directors of the Company on December 24, 2005.

Table of Contents**Exchange Controls**

Under current Chinese foreign exchange regulations, Renminbi is fully convertible for current account transactions, but is not freely convertible for capital account transactions. Current account foreign exchange transactions can be undertaken without prior approval from the relevant Chinese Government agencies by producing commercial documents evidencing such transactions, provided that they are processed through Chinese banks licensed to engage in foreign exchange transactions. Conversion from Renminbi into a foreign currency or vice versa for purposes of capital account transactions requires prior approvals of relevant Chinese Government agencies. This restriction on capital account transactions could affect the ability of the Company to acquire foreign currency for capital expenditures.

The Company is generally required by law to sell all its foreign exchange revenues to Chinese banks. The Company may purchase foreign exchange directly from Chinese banks for any current account transactions, such as trade transactions in its usual and normal course of business, including acquisition of aircraft, jet fuel and flight equipment (such acquisition requires approvals from the relevant Chinese Government agencies). Payment of dividends by the Company to holders of the Company's H Shares and ADSs is also considered a current account transaction under Chinese law. Therefore, there is no legal restriction on the conversion of Renminbi into foreign exchange for the purpose of paying dividends to such holders of H Shares and ADSs. In addition, the Company's Articles of Association require the Company to pay dividends to holders of the Company's H Shares and ADSs in foreign currency.

On July 21, 2005, the PRC government changed its policy of pegging the value of the Renminbi to the U.S. dollar so that the Renminbi is now permitted to fluctuate within a band against a basket of certain foreign currencies. As a result, the value of the Renminbi against the U.S. dollar has appreciated by approximately 2%. Under the new policy, the value of Renminbi against the U.S. dollar has fluctuated on a daily basis within narrow ranges, but overall has further strengthened against the U.S. dollar. The PRC government has stated publicly that it intends to further liberalize its currency policy, which could result in a further and more significant change in the value of the Renminbi against the U.S. dollar. Any significant revaluation of the Renminbi may have a material adverse effect on the Company's financial performance, and the value of, and any dividends payable on, the Company's H Shares and ADSs in foreign currency terms.

Other Limitations

There are no limitations on the right of non-resident or foreign owners to hold or vote H Shares or ADSs imposed by Chinese law or by the Articles of Association or other constituent documents of the Company. However, under current Chinese law, foreign ownership of the Company may not exceed 49%.

Taxation**Chinese Taxation**

The following is a general summary of certain Chinese tax consequences of the acquisition, ownership and disposition of H Shares and ADSs. This summary is based upon tax laws of China as in effect on the date of this Annual Report, including the income tax treaty between the United States and China (the U.S.-PRC Tax Treaty), all of which are subject to change or different interpretation.

In general, for Chinese tax purposes, holders of ADSs will be treated as the owners of the H Shares represented by those ADSs, and exchanges of H Shares for ADSs, and ADSs for H Shares, will not be subject to taxation under the laws of China.

This summary does not purport to address all material tax consequences for holders or prospective purchasers of H Shares or ADSs, and does not take into account the specific circumstances of such investors. Investors should consult their own tax advisors as to Chinese or other tax consequences of the acquisition, ownership and disposition of H Shares or ADSs.

Dividends

Chinese tax law generally provides for the imposition of a withholding tax on dividends paid by a Chinese company to a non-Chinese shareholder at a rate of 20%. However, the Chinese tax authorities have temporarily suspended imposition of this withholding tax. Accordingly, dividends paid by the Company to holders of H Shares or ADSs who are foreign individuals not resident in China or which are foreign enterprises with no permanent

establishment in China will currently not be subject to Chinese withholding tax. In the event that the suspension of the withholding tax is lifted, such payments will be subject to withholding tax at the 20% rate unless the holder is entitled to a tax waiver or a lower tax rate under an applicable double-taxation treaty.

China currently has double-taxation treaties with a number of countries, including Australia, Canada, France, Germany, Japan, Malaysia, the Netherlands, Singapore, the United Kingdom and the United States. Under the U.S.-PRC Tax Treaty, China may tax a dividend paid by the Company to a U.S. holder up to a maximum of 10% of the gross amount of such dividend.

Capital Gains from Transfer or Disposition of Shares

Chinese tax law generally provides that an individual who transfers or otherwise disposes of a company's shares of capital stock is subject to a 20% capital gains tax. Currently, foreign enterprises and all individuals are temporarily exempt from capital gains tax on transfers of shares of capital stock of joint stock companies, such as the Company. Should such temporary exemption be discontinued, such holders may be

Table of Contents

subject to a 20% capital gains tax unless reduced by an applicable double-taxation treaty. Under the U.S.-PRC Tax Treaty, for example, China may only impose a 20% capital gains tax from the sale or other disposition by a U.S. holder of H Shares or ADSs representing an interest in the Company of 25% or more.

Stamp Duty

Transfers of shares of capital stock of a company are not subject to Chinese stamp duty if the transfer does not take place within China (excluding Hong Kong, Macau and Taiwan).

United States Federal Income Taxation

This discussion describes the material U.S. federal income tax consequences of the purchase, ownership and disposition of the Company's ADSs. This discussion does not address any aspect of U.S. federal gift or estate tax, or the state, local or foreign tax consequences of an investment in the Company's ADSs. This discussion applies to you only if you hold and beneficially own the Company's ADSs as capital assets for tax purposes. This discussion does not apply to you if you are a member of a class of holders subject to special rules, such as:

dealers in securities or currencies;

traders in securities that elect to use a mark-to-market method of accounting for securities holdings;

banks or other financial institutions;

insurance companies;

tax-exempt organizations;

partnerships and other entities treated as partnerships for U.S. federal income tax purposes or persons holding ADSs through any such entities;

persons that hold ADSs as part of a hedge, straddle, constructive sale, conversion transaction or other integrated investment;

U.S. Holders (as defined below) whose functional currency for tax purposes is not the U.S. dollar;

persons liable for alternative minimum tax; or

persons who actually or constructively own 10% or more of the total combined voting power of all classes of the Company's shares (including ADSs) entitled to vote.

This discussion is based on the U.S. Internal Revenue Code of 1986, as amended, which is referred to in this discussion as the Code, its legislative history, existing and proposed regulations promulgated thereunder, published rulings and court decisions, all as currently in effect. These laws are subject to change, possibly on a retroactive basis. In addition, this discussion relies on the assumptions regarding the value of the Company's shares and the nature of its business over time. Finally, this discussion is based in part upon the representations of the depositary and the assumption that each obligation in the deposit agreement and any related agreement will be performed in accordance with its terms. For U.S. federal income tax purposes, as a holder of ADSs, you are treated as the owner of the underlying ordinary shares represented by such ADSs.

You should consult your own tax advisor concerning the particular U.S. federal income tax consequences to you of the purchase, ownership and disposition of the Company's ADSs, as well as the consequences to you arising under the laws of any other taxing jurisdiction.

For purposes of the U.S. federal income tax discussion below, you are a U.S. Holder if you beneficially own ADSs and are:

a citizen or resident of the United States for U.S. federal income tax purposes;

a corporation, or other entity taxable as a corporation, that was created or organized in or under the laws of the United States or any political subdivision thereof;

an estate the income of which is subject to U.S. federal income tax regardless of its source; or

a trust if (a) a court within the United States is able to exercise primary supervision over its administration and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (b) the trust has a valid election in effect to be treated as a U.S. person.

If you are not a U.S. person, please refer to the discussion below under *Non-U.S. Holders*.

For U.S. federal income tax purposes, income earned through a foreign or domestic partnership or other flow-through entity is attributed to its owners. Accordingly, if a partnership or other flow-through entity holds ADSs, the tax treatment of the holder will generally depend on the status of the partner or other owner and the activities of the partnership or other flow-through entity.

U.S. Holders

Dividends on ADSs

Subject to the *Passive Foreign Investment Company* discussion below, if the Company makes distributions and you are a U.S. Holder, the gross amount of any distributions you receive on your ADSs will generally be treated as dividend income if the distributions are made from the Company's current or accumulated earnings and profits, calculated according to U.S. federal income tax principles. Dividends will generally be subject to U.S. federal income tax as ordinary income on the day you actually or constructively receive such income. However, if you are an individual and have held your ADSs for a sufficient period of time, dividend distributions on the Company's ADSs will generally constitute qualified dividend income taxed at a preferential rate (generally 15% for dividend distributions before January 1, 2009) as long as the Company's ADSs continue to be readily tradable on the New York Stock Exchange and certain other conditions apply. You should consult your own tax adviser as to the rate of tax that will apply to you with respect to dividend distributions, if any, you receive from us.

Distributions on the Company's ADSs, if any, will generally be taxed to you as dividend distributions for U.S. tax purposes. Even if you are a corporation, you will not be entitled to claim a dividends-received deduction with respect to distributions you receive from the Company. Dividends generally will constitute foreign source passive income for U.S. foreign tax credit limitation purposes.

Sales and other dispositions of ADSs

Subject to the *Passive Foreign Investment Company* discussion below, when you sell or otherwise dispose of the Company's ADSs, you will generally recognize capital gain or loss in an amount equal to the difference between the amount realized on the sale or other disposition and your adjusted tax basis in the ADSs, both as determined in U.S. dollars. Your adjusted tax basis will generally equal the amount you paid for the ADSs. Any gain or loss you recognize will be long-term capital gain or loss if your holding period in the Company's ADSs is more than one year at the time of disposition. If you are an individual, any such long-term capital gain will be taxed at preferential rates. Your ability to deduct capital losses will be subject to various limitations.

Passive Foreign Investment Company

If the Company were a Passive Foreign Investment Company or PFIC in any taxable year in which you hold the Company's ADSs, as a U.S. Holder, you would generally be subject to adverse U.S. tax consequences, in the form of increased tax liabilities and special U.S. tax reporting requirements.

The Company will be classified as a PFIC in any taxable year if either: (1) the average percentage value of its gross assets during the taxable year that produce passive income or are held for the production of passive income is at least 50% of the value of its total gross assets or (2) 75% or more of its gross income for the taxable year is passive income (such as certain dividends, interest or royalties). For purposes of the first test: (1) any cash, cash equivalents, and cash invested in short-term, interest bearing, debt instruments, or bank deposits that is readily convertible into cash, will generally count as producing passive income or held for the production of passive income and (2) the average value of the Company's gross assets is calculated based on its market capitalization.

The Company believes that it was not a PFIC for the taxable year 2004. However, there can be no assurance that the Company will not be a PFIC for the taxable year 2005 and/or later taxable years, as PFIC status is re-tested each year and depends on the facts in such year. For example, the Company would be a PFIC for the taxable year 2005 if

the sum of its average market capitalization, which is its share price multiplied by the total amount of its outstanding shares, and its liabilities over that taxable year is not more than twice the value of its cash, cash equivalents, and other assets that are readily converted into cash.

If the Company were a PFIC, you would generally be subject to additional taxes and interest charges on certain excess distributions the Company makes and on any gain realized on the disposition or deemed disposition of your ADSs, regardless of whether the Company continues to be a PFIC in the year in which you receive an excess distribution or dispose of or are deemed to dispose of your ADSs. Distributions in respect of your ADSs during a taxable year would generally constitute excess distributions if, in the aggregate, they exceed 125% of the average amount of distributions in respect of your ADSs over the three preceding taxable years or, if shorter, the portion of your holding period before such taxable year.

To compute the tax on excess distributions or any gain, (1) the excess distribution or the gain would be allocated ratably to each day in your holding period, (2) the amount allocated to the current year and any tax year before the Company became a PFIC would be taxed as ordinary income in the current year, (3) the amount allocated to other taxable years would be taxable at the highest applicable marginal rate in effect for that year, and (4) an interest charge at the rate for underpayment of taxes for any period described under (3) above would be imposed with respect to any portion of the excess distribution or gain that is allocated to such period. In addition, if the Company were a PFIC, no distribution that you receive from the Company would qualify for taxation at the preferential rate discussed in the Dividends on ADSs section above.

If the Company were a PFIC in any year, as a U.S. Holder, you would be required to make an annual return on IRS Form 8621 regarding your ADSs. However, the Company does not intend to generate, or share with you, information that you might need to properly complete IRS Form 8621. You should consult with your own tax adviser regarding reporting requirements with regard to your ADSs.

If the Company were a PFIC in any year, you would generally be able to avoid the excess distribution rules described above by making a timely so-called mark-to-market election with respect to your ADSs provided the Company's ADSs are marketable. The Company's ADSs will be marketable as long as they remain regularly traded on a national securities exchange, such as the New York Stock Exchange. If you made this election in a timely fashion, you would generally recognize as ordinary income or ordinary loss the difference between the fair market value of your ADSs on the first day of any taxable year and their value on the last day of that taxable year. Any ordinary income resulting from this election would generally be taxed at ordinary income rates and would not be eligible for the reduced rate of tax applicable to qualified dividend income. Any ordinary losses would be limited to the extent of the net amount of previously included income as a result of the mark-to-market election, if any. Your basis in the ADSs would be adjusted to reflect any such income or loss. You should consult with your own tax adviser regarding potential advantages and disadvantages to you of making a mark-to-market election with respect to your ADSs. Separately, if the Company were a PFIC in any year, you would be able to avoid the excess distribution rules by making a timely election to treat us as a so-called Qualified Electing Fund or QEF. You would then generally be required to include in gross income for any taxable year (1) as ordinary income, your pro rata share of the Company's ordinary earnings for the taxable year, and (2) as long-term capital gain, your pro rata share of the Company's net capital gain for the taxable year. However, the Company does not intend to provide you with the information you would need to make or maintain a QEF election and you will, therefore, not be able to make or maintain such an election with respect to your ADSs.

Non-U.S. Holders

If you beneficially own ADSs and are not a U.S. Holder for U.S. federal income tax purposes (a Non-U.S. Holder), you generally will not be subject to U.S. federal income tax or withholding on dividends received from the Company with respect to ADSs unless that income is considered effectively connected with your conduct of a U.S. trade or business and, if an applicable income tax treaty so requires as a condition for you to be subject to U.S. federal income tax with respect to income from your ADSs, such dividends are attributable to a permanent establishment that you maintain in the United States. You generally will not be subject to U.S. federal income tax, including withholding tax, on any gain realized upon the sale or exchange of ADSs, unless:

that gain is effectively connected with the conduct of a U.S. trade or business and, if an applicable income tax treaty so requires as a condition for you to be subject to U.S. federal income tax with respect to income from your ADSs, such gain is attributable to a permanent establishment that you maintain in the United States; or

you are a nonresident alien individual and are present in the United States for at least 183 days in the taxable year of the sale or other disposition and either (1) your gain is attributable to an office or other fixed place of business that you maintain in the United States or (2) you have a tax home in the United States.

If you are engaged in a U.S. trade or business, unless an applicable tax treaty provides otherwise, the income from your ADSs, including dividends and the gain from the disposition of the Company's ADSs, that is effectively connected with the conduct of that trade or business will generally be subject to the rules applicable to U.S. Holders discussed above. In addition, if you are a corporation, you may be subject to an additional branch profits tax at a rate of 30% or any lower rate under an applicable tax treaty.

U.S. information reporting and backup withholding rules

In general, dividend payments with respect to the ADSs and the proceeds received on the sale or other disposition of those ADSs may be subject to information reporting to the IRS and to backup withholding (currently imposed at a rate of 28%). Backup withholding will not apply, however, if you (1) are a corporation or come within certain other exempt categories and, when required, can demonstrate that fact or (2) provide a taxpayer identification number, certify as to no loss of exemption from backup withholding and otherwise comply with the applicable backup withholding rules. To establish your status as an exempt person, you will generally be required to provide certification on IRS Form W-9, W-8BEN or W-8ECI, as applicable. Any amounts withheld from payments to you under the backup withholding rules will be allowed as a refund or a credit against your U.S. federal income tax liability, provide that you furnish the required information to the IRS.

HOLDERS OF THE COMPANY'S ADSS SHOULD CONSULT WITH THEIR OWN TAX ADVISORS REGARDING THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATIONS AS WELL AS ANY TAX CONSEQUENCES RESULTING FROM PURCHASING, HOLDING OR DISPOSING OF THE ADSS, INCLUDING THE APPLICABILITY AND EFFECT OF THE TAX LAWS OF ANY STATE, LOCAL OR FOREIGN JURISDICTION AND INCLUDING ESTATE, GIFT, AND INHERITANCE LAWS.

Dividends and Paying Agents

Comparison of New York Stock Exchange Corporate Governance Rules and China Corporate Governance Rules for Listed Companies

Under the amended Corporate Governance Rules of New York Stock Exchange (NYSE), foreign issuers (including the Company) listed on the NYSE are required to disclose a summary of the significant differences between their domestic corporate governance rules and NYSE corporate governance rules that would apply to a U.S. domestic

issuer. A summary of such differences is listed below:

NYSE corporate governance rules

Director Independence

A listed company must have a majority of independent directors on its board of directors. No director qualifies as independent unless the board of directors affirmatively determines that the director has no material relationship with the listed company (either directly or as a partner, shareholder or officer of an organization that has a relationship with the company). In addition, a director must meet certain standards to be deemed independent. For example, a director is not independent if the director is, or has been within the last three years, an employee of the listed company, or if the director has received, during any twelve-month period within the last three years, more than US\$100,000 in direct compensation from the listed company.

The non-management directors of each listed company must meet at regularly scheduled executive sessions without management.

Nominating/Corporate Governance Committee

Listed companies must have a nominating/corporate governance committee composed entirely of independent directors.

The nominating/corporate governance committee must have a written charter that addresses the committee's purposes and responsibilities which, at minimum, must be to: search for eligible people for the board of directors, select and nominate directors for the next session of the shareholders' annual meeting, study and propose corporate governance guidelines, supervise the evaluation of the board of directors and management, and evaluate the performance of the committee every year.

Compensation Committee

Listed companies must have a compensation committee composed entirely of independent directors.

Corporate governance rules applicable to the domestically listed companies in China and the Company's governance practices

Director Independence

Any listed company must establish an independent director system and set forth specific requirements for the qualification of independent directors. An independent director shall not hold any other position in the listed company other than being a director and shall not be influenced by the main shareholders or the controlling persons of the listed company, or by any other entities or persons with whom the listed company has a significant relationship.

The Company's governance practices

The Company has complied with the relevant Chinese corporate governance rules and has implemented internal rules governing the independence and responsibilities of independent directors. The Company determines the independence of independent directors every year.

No similar requirements.

Nominating/Corporate Governance Committee

The board of directors of a listed company may, through the resolution of the shareholders' meeting, establish a nominating committee composed entirely of directors, of which the independent directors shall be the majority and the convener.

The Company's governance practices

The Company has not established a nominating committee. The independent non-executive Directors of the Company are nominated by the Board of Directors, and their appointment must be approved by the shareholders of the Company in a general meeting. The executive Directors of the Company are nominated by CSAHC, the controlling shareholder of the Company, and their appointment must be approved by the shareholders of the Company in a general meeting.

Compensation Committee

The board of directors of a listed company can, through the resolution of shareholders' meeting, have a compensation and evaluation committee composed

entirely of directors, of whom the independent directors are the majority and act as the convener.

The Company's governance practices

The Company has established a remuneration committee consisting of three members. The remuneration committee is chaired by independent non-executive Director Sui Guang Jun with independent non-executive Director Wei Ming Hai and executive Director Wang Quan Hua as members.

The written charter of the compensation committee must state, at least, the following purposes and responsibilities:

- (1) review and approve the corporate goals associated with CEO's compensation, evaluate the performance of the CEO in fulfilling these goals, and based on such evaluation determine and approve the CEO's compensation level;
- (2) make recommendations to the board with respect to non-CEO executive officer compensation, and incentive-compensation and equity-based plans that are subject to board approval;
- (3) produce a committee report on executive compensation as required by the SEC to be included in the annual proxy statement or annual report filed with the SEC.

The charter must also include the requirement for an annual performance evaluation of the compensation committee.

Audit Committee

Listed companies must have an audit committee that satisfies the requirements of Rule 10A-3 of Exchange Act. It must have a minimum of three members, and all audit committee members must satisfy the requirements for independence set forth in Section 303A.02 of NYSE Corporate Governance Rules as well as the requirements of Rule 10A-3b (1) of the Exchange Act.

The written charter of the audit committee must specify that the purpose of the audit committee is to assist the board oversight of the integrity of financial statements, the company's compliance with legal and regulatory requirements, qualifications and independence of independent auditors and the performance of the listed company's internal audit function and independent auditors.

The written charter must also require the audit committee to prepare an audit committee report as required by the SEC to be included in the listed

The responsibilities are similar to those stipulated by the NYSE rules, but the committee is not required to produce a report on the executive compensation or make an annual performance evaluation of the committee. The responsibilities of the remuneration committee are to approve the remuneration packages of Directors and senior management of the Group, and the Company's preliminary proposals on annual emoluments of the directors and senior management of the Group. The remuneration committee is also responsible for assessing performance of executive director and approving the terms of executive directors' service contracts.

Audit Committee

The board of directors of a listed company can, through the resolution of the shareholders' meeting, establish an audit committee composed entirely of directors, of which the independent directors are the majority and act as the convener, and, at minimum, one independent director is an accounting professional.

The responsibilities of the audit committee are similar to those stipulated by the NYSE rules, but according to the domestic practices, the Company is not required to make an annual performance evaluation of the audit committee and the audit committee is not required to prepare an audit report to be included in the Company's annual proxy statement.

The Company's governance practices

The Board of Directors of the Company has established an audit committee that satisfies relevant domestic

company's annual proxy statement as well as an annual performance evaluation of the audit committee.

Each listed company must have an internal audit department.

Shareholders must be given the opportunity to vote on equity-compensation plans and material revisions thereto, except for employment incentive plans, certain awards and plans in the context of mergers and acquisitions.

Corporate Governance Guidelines

Listed companies must adopt and disclose corporate governance guidelines, involving director qualification standards, director compensation, director continuing education, annual performance evaluation of the board of directors, etc.

Code of Ethics for Directors, Officers and Employees

Listed companies must adopt and disclose a code of business conduct and ethics for directors, officers and employees, and promptly disclose any waivers of the code for directors or executive officers.

requirements and the audit committee has a written charter.

China has a similar regulatory provision, and the Company has an internal audit department.

The relevant regulations of China require the board of directors to propose plans and types of director compensation for the shareholders' meeting to approve. The compensation plan of executive officers is subject to approval by the board and announced at the shareholders' meeting and disclosed to the public upon the approval of the board of directors. The approval of director compensation and compensation plan of executive officers of the Company satisfies relevant domestic requirements.

Corporate Governance Guidelines

China Securities Regulatory Commission (CSRC) has issued the Corporate Governance Rules, with which the Company has complied.

Code of Ethics for Directors, Officers and Employees

China does not have such requirement for a code for ethics. But, the directors and officers must perform their legal responsibilities in accordance with the Company Law of PRC, relative requirements of CSRC and Mandatory Provisions to the Charter of Companies Listed Overseas.

The Company's governance practices

The Company does not have, in form, a code of ethics that applies to the president, chief financial officer and principal accounting officer, or collectively, the senior corporate officers. The senior executive officers, all of whom currently serve as our directors, are subject to the director service contracts that they have with the Company. Under the director service contracts, the directors, including the senior corporate officers, agree that each director owes a fiduciary and diligence obligation to the Company and that no director shall engage in any activities in competition with the Company's business or carry any activities detrimental to the interests of the Company. Each of the directors, including the senior corporate officers, also agreed to perform their respective duties as directors and senior officers in accordance with the Company Law of the PRC, relevant rules and regulations promulgated by China Securities Regulatory Commission and the

Mandatory Provisions of Articles of Association of Overseas Listed Companies.

Each listed company CEO must certify to the NYSE each year that he or she is not aware of any violation by the company of NYSE corporate governance listing standards and he or she must promptly notify the NYSE on writing of any material non-compliance with any applicable provisions of Section 303A.

No similar requirements.

Table of Contents**ITEM 11. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.**

The Group is subject to market risks due to fluctuations in interest rates. The majority of the Group's borrowings is in the form of long-term fixed- and variable-rate debts with original maturities ranging from two to fifteen years. Fluctuations in interest rates can lead to significant fluctuations in the fair value of such debt instruments. From time to time, the Group may enter into interest rate swaps designed to mitigate exposure relating to interest rate risks. No such contract was outstanding as of December 31, 2005.

The Group is also exposed to foreign currency risk as a result of its aircraft and flight equipment being sourced from overseas suppliers. Specifically, the Group's foreign currency exposure relates primarily to its foreign currency long-term debts used to finance such capital expenditures and its capital commitments. Subject to certain restrictive conditions imposed by the State Administration of Foreign Exchange, the Group may, from time to time, enter into forward foreign exchange contracts to mitigate its foreign currency exposures. No such contract was outstanding as of December 31, 2005.

As of December 31, 2005, the Group operated a total of 151 aircraft under operating and capital leases at rates that are substantially fixed. Such leases expose the Group to market risks; however, in accordance with Item 305 of Regulation S-K, such leases have been excluded from the following market risk tables. Commitments under operating and capital leases are disclosed in Note 28 to the Financial Statements.

The following table provides information regarding the Group's material interest rate sensitive financial instruments as of December 31, 2005 and 2004:

	As of December 31, 2005						As of December 31, 2004			
	Expected maturity date						Total recorded	Fair value(2)	Total recorded	Fair value(2)
	2006	2007	2008	2009	2010	Thereafter	amount		amount	
Debt										
Fixed-rate notes payable										
In US\$	484	449	303	266	215	697	2,414	2,440	2,252	2,464
Average interest rate	6.47%	6.47%	6.47%	6.62%	6.47%	6.47%	6.47%		6.09%

ITEM 12. DESCRIPTION OF SECURITIES OTHER THAN EQUITY SECURITIES.

Not applicable.

PART II

ITEM 13. DEFAULTS, DIVIDEND ARREARAGES AND DELINQUENCIES.

None.

ITEM 14. MATERIAL MODIFICATIONS TO THE RIGHTS OF SECURITY HOLDERS AND USE OF PROCEEDS.

There were no material modifications affecting the rights of securities holders made during the fiscal year ended December 31, 2005.

Use of Proceeds

(1) Effective date of the Securities Act registration statement for which the use of proceeds information is being disclosed:

July 23, 1997.

SEC file number assigned to such registration statement: 333-7114.

(2) The offering commenced on July 23, 1997.

(3) The offering was not terminated prior to the sale of any securities registered under the registration statement.

(4) (i) The offering was not terminated prior to the sale of all securities registered under the registration statement.

(ii) Name of the managing underwriter: Goldman Sachs (Asia) L.L.C. (global coordinator).

(iii) and (iv)

Title of each class of securities registered	Amount registered(1)	Aggregate price of offering amount registered(2)	Amount sold(3)	Aggregate offering price of amount sold(4)
Ordinary H Shares of par value RMB 1.00 per share represented by American Depository Shares	861,823,000 shares	US\$528,469,864	851,501,000 shares	US\$522,140,413

Notes:

(1) The amount does not include 322,677,000 H Shares (some of which in the form of ADSs) which have not been registered with the SEC, of which 290,477,000 H Shares were sold to certain corporate investors in Hong Kong as part of the global offering of the Company in July 1997 and 32,200,000 H Shares were sold to certain limited partnership

investment
funds affiliated
with Goldman,
Sachs & Co. in
a private
placement in
June 1997 prior
to the
Company's
global offering.

Table of Contents

- (2) Assumes that all H Shares were sold in the form of ADSs. The price to public for each ADS is US\$30.66. Each ADS represents 50 H Shares.
- (3) The amount does not include 322,677,000 H Shares referred to in note (1) above.
- (4) The amount does not include US\$197,865,536 which represents the proceeds from the sale of 322,677,000 H Shares referred to in note (1) above. If the latter amount is included, the aggregate amount of proceeds to the Company would be US\$720,005,950. In addition, the aggregate amount is calculated on the assumption that all H Shares were sold in the form of ADSs. Based on the actual sale of H Shares and ADSs, the aggregate amount of proceeds to the Company was US\$719,494,700. The issue price

per H Share was
HK\$4.70.

(v)

Underwriting discounts and commissions	US\$ 36,593,000
Finder's fees	
Expenses paid to or for underwriters	US\$ 2,958,000
Other expenses	US\$ 21,411,000
Total expenses	US\$ 60,962,000

Note: No direct or indirect payments were made to directors, officers, general partners of the Company or their associates, or to persons owning ten percent or more of any class of equity securities of the Company, or to affiliates of the Company. All payments were made to third parties.

(vi) Net offering proceeds to the Company after deducting the total expenses in item (4)(v) above:
US\$658,532,700

Note: The amount is calculated on the basis of the actual aggregate amount of proceeds to the Company, and includes the proceeds from the sale of 322,677,000 H Shares referred to in note (1) of item (4)(iv) above.

(vii) As of December 31, 2005, the net offering proceeds to the Company was used up as follows:

Construction of plant, building and facilities	US\$41.9 million
Purchase and installation of machinery and equipment	US\$394.6 million
Purchase of real estate	
Acquisition of other business(es)	
Repayment of indebtedness	US\$192.4 million
Working Capital	US\$29.6 million

Note: No direct or indirect payments were made to directors, officers, general partners of the Company or their associates, or to persons owning ten percent or more of any class of equity securities of the Company, or to affiliates of the Company. All payments were made to third parties.

(viii) The uses of proceeds do not represent a material change in the use of proceeds described in the prospectus.

PART III

ITEM 15. CONTROLS AND PROCEDURES.

Our president and chief financial officer have evaluated the effectiveness of our disclosure controls and procedures (as defined in the Exchange Act Rules 13a-15(e) or 15d-15(e)), and concluded that, based on their evaluation, our disclosure controls and procedures are effective as of the end of the period covered by this Annual Report to ensure that material information required to be included in this Annual Report would be made known to them by others on a timely basis.

There has been no significant change in our internal controls over financial reporting during the period covered by this Annual Report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**ITEM 16A. AUDIT COMMITTEE FINANCIAL EXPERT.**

The Board of Directors has determined that Mr. Wei Ming Hai qualifies as an audit committee financial expert in accordance with the terms of Item 16. A of Form 20-F. See Item 6 Directors, Senior Management and Employees Directors and Senior Management .

ITEM 16B. CODE OF ETHICS.

As of the date of this Annual Report, the Company does not have, in form, a code of ethics that applies to the president, chief financial officer and principal accounting officer, or collectively, the senior corporate officers. The senior executive officers, all of whom currently serve as our directors, are subject to the director service contracts that they have with the Company. Under the director service contracts, the directors, including the senior corporate officers, agree that each director owes a fiduciary and diligence obligation to the Company and that no such director shall engage in any activities in competition with the Company's business or carry out any activities detrimental to the interests of the Company. Each of the directors, including the senior corporate officers, also agreed to perform their respective duties as directors and senior officers in accordance with the Company Law of the PRC, relevant rules and regulations promulgated by China Securities Regulatory Commission and the Mandatory Provisions of Articles of Association of Overseas Listed Companies.

ITEM 16C. PRINCIPAL ACCOUNTING FEES AND SERVICES.

The following table sets forth the aggregate audit fees, audit-related fees, tax fees of the Company's principal accountants and all other fees billed for products and services provided by the Company's principal accountants other than the audit fees, audit-related fees and tax fees for each of the fiscal years 2004 and 2005:

	Audit Fees	Audit-Related Fees	Tax Fees
2004	RMB8.9 million	RMB6.6 million	RMB0.11 million
2005	RMB13.9 million	RMB5.8 million	RMB0.11 million

Audit-related fees

Services provided primarily consist of the following:

- a) Review of the Group's 2005 interim financial report prepared under IFRS; and
- b) In connection with the Company's acquisition of the airline operations and related assets of China Northern Airlines Company and Xinjiang Airlines Company;
 - Audit of the financial statements of China Northern Airlines Company and Xinjiang Airlines Company;

Issuance of comfort letter on profit forecast;

Issuance of comfort letter on working capital forecast; and

Issuance of report on statement of indebtedness.

Tax fees

Services provided primarily consist of tax compliance services.

Table of Contents

ITEM 16D. Exemptions from the Listing Standards for Audit Committee

Not applicable.

ITEM 16E. PURCHASES OF EQUITY SECURITIES BY THE ISSUER AND AFFILIATED PURCHASERS.

The Company and its affiliated companies have not purchased any issued common shares of the Company during 2005 and up to the date of this Annual Report.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders of
China Southern Airlines Company Limited:

We have audited the accompanying consolidated balance sheets of China Southern Airlines Company Limited (the Company) and its subsidiaries (the Group) as of December 31, 2004 and 2005, and the related consolidated statements of operations, cash flows and changes in shareholders' equity for each of the three years in the period ended December 31, 2005, all expressed in Renminbi. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of China Southern Airlines Company Limited and its subsidiaries as of December 31, 2004 and 2005, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2005 in conformity with International Financial Reporting Standards promulgated by the International Accounting Standards Board.

As more fully described in Note 3 to the consolidated financial statements, the Group changed the presentation of share of affiliated companies and jointly controlled entities' taxation in the consolidated statements of operations in order to comply with IAS 1, Presentation of financial statements . In addition, the Group changed the manner in which it presents minority interests in the consolidated balance sheets and consolidated statements of operations in order to comply with IAS 1 and IAS 27, Consolidated and separate financial statements .

International Financial Reporting Standards vary in certain significant respects from accounting principles generally accepted in the United States of America. Information relating to the nature and effect of such differences is presented in Note 51 to the consolidated financial statements.

The accompanying consolidated financial statements as of and for the year ended December 31, 2005 have been translated into United States dollars solely for the convenience of readers. We have audited the translation, and in our opinion, the consolidated financial statements expressed in Renminbi have been translated into United States dollars on the basis set forth in Note 1 to the consolidated financial statements.

Hong Kong, China

April 19, 2006, except as to Note 44, which is as of May 31, 2006.

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in millions, except share data)**

1. BASIS OF PRESENTATION

China Southern Airlines Company Limited (the Company) and its subsidiaries (the Group) are principally engaged in the provision of domestic, Hong Kong and Macau and international passenger, cargo and mail airline services, with flights operating primarily from the Guangzhou Baiyun International Airport, which is both the main hub of the Group's route network and the location of its corporate headquarters.

The Company was established in the People's Republic of China (the PRC, China or the State) on March 25, 1995 as a joint stock limited company as part of the reorganization (the Reorganization) of the Company's holding company, China Southern Air Holding Company (CSAHC). CSAHC is a state-owned enterprise under the supervision of the PRC central government.

The Company's H shares and American Depositary Shares (ADS) (each ADS representing 50 H Shares) have been listed on The Stock Exchange of Hong Kong Limited and the New York Stock Exchange, respectively since July 1997. In July 2003, the Company issued 1,000,000,000 A shares which are listed on the Shanghai Stock Exchange.

The Company acquired the airline operations and certain related assets of China Northern Airlines Company (CNA) and Xinjiang Airlines Company (XJA) from its parent company, CSAHC, on December 31, 2004 (the CNA/XJA Acquisitions) (Note 40).

The consolidated financial statements have been prepared in Renminbi (RMB), the national currency of the PRC. Translation of amounts from RMB into United States dollar (US\$) solely for the convenience of readers has been made at the rate of US\$1.00 to RMB8.0694, being the average of the buying and selling rates as quoted by the People's Bank of China (the PBOC) at the close of business on December 31, 2005. No representation is made that the RMB amounts could have been, or could be, converted into US\$ at that rate or at any other certain rate on December 31, 2005 or at any other certain date.

2. PRINCIPAL ACCOUNTING POLICIES

(a) Statement of compliance

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) promulgated by the International Accounting Standards Board (the IASB). IFRSs include International Accounting Standards (IAS) and interpretations.

The IASB has issued a number of new and revised IFRSs that are effective for accounting periods beginning on or after January 1, 2005. Information on the changes in accounting policies resulting from initial application of these new and revised IFRSs for the current and prior accounting periods reflected in these financial statements is provided in Note 3.

Information relating to the nature and effect of the significant differences between IFRSs and accounting principles generally accepted in the United States of America ("U.S. GAAP") are set forth in Note 51.

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

(b) Basis of preparation

As of December 31, 2005, the Group's current liabilities exceeded its current assets by RMB25,907, which includes current instalments of notes payable of RMB16,223. In preparing the consolidated financial statements, the directors have considered the Group's sources of liquidity and believe that adequate funding is available to fulfil the Group's short term obligations and capital expenditure requirements. Accordingly, the consolidated financial statements have been prepared on the basis that the Group will be able to continue as a going concern. Further details are set out in Note 41.

The consolidated financial statements comprise the Company and its subsidiaries and the Group's interest in affiliated companies and jointly controlled entities.

The measurement basis used in the preparation of the consolidated financial statements is the historical cost basis except that the following assets are stated at their fair value as explained in the accounting policies set out below:

Certain property, plant and equipment (Note 2(d)); and

Short term investments (Note 2(h)).

The preparation of financial statements in conformity with IFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of IFRSs that have significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year are disclosed in Note 47.

(c) Basis of consolidation

(i) Subsidiaries

F-10

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

A subsidiary is an entity controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable or convertible are taken into account. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control effectively commences until the date that control ceases.

Intra-group balances and transactions, and any unrealized income arising from intra-group transactions, are eliminated in full in preparing the consolidated financial statements. Unrealized losses resulting from intra-group transactions are eliminated in the same way as unrealized income, but only to the extent that there is no evidence of impairment.

Minority interests at the balance sheet date, being the portion of the net assets of subsidiaries attributable to equity interests that are not owned by the Company, whether directly or indirectly through subsidiaries, are prepared in the consolidated balance sheet and statement of changes in shareholders' equity within equity, separately from, equity attributable to the equity shareholders of the Company. Minority interests in the results of the Group are presented on the face of the consolidated statement of operations as an allocation of the total income or loss for the year between minority interest and the equity shareholders of the Company.

Where losses applicable to the minority exceed the minority's interest in the equity of a subsidiary, the excess, and any further losses applicable to the minority, are charged against the Group's interest except to the extent that the minority has a binding obligation to, and is able to, make additional investment to cover the losses. If the subsidiary subsequently reports income, the Group's interest is allocated all such income until the minority's share of losses previously absorbed by the Group has been recovered.

(ii) Affiliated companies and jointly controlled entities

An affiliated company is an entity in which the Group has significant influence, but not control or joint control, over the financial and operating policies. The consolidated financial statements include the Group's share of the total recognized gains and losses of affiliated companies on an equity accounted basis, from the date that significant influence commences until the date that significant influence ceases. When the Group's share of losses exceeds its interest in an affiliated company, the Group's carrying amount is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of an affiliated company.

A jointly controlled entity is an entity over whose activities the Group has joint control, established by contractual agreement. The consolidated financial statements include the Group's share of the total recognized gains and losses of jointly controlled entities on an equity accounted basis, from the date that joint control commences until the date that joint control ceases. When the Group's share of losses exceeds its interest in a jointly controlled entity, the Group's carrying amount is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of a jointly controlled entity.

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

Unrealized income arising from transactions with affiliated companies and jointly controlled entities are eliminated to the extent of the Group's interest in the entity. Unrealized losses are eliminated in the same way as unrealized income, but only to the extent that there is no evidence of impairment.

F-12

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

(iii) Goodwill

Goodwill represents the excess of the cost of a business combination or an investment in an affiliated company or a jointly controlled entity over the Group's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities.

Goodwill is stated at cost less accumulated impairment losses. Goodwill is allocated to cash-generating units and is tested annually for impairment (Note 2(1)). In respect of affiliated companies or jointly controlled entities, the carrying amount of goodwill is included in the carrying amount of the interest in the affiliated company or jointly controlled entity.

Any excess of the Group's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over the cost of a business combination or an investment in an affiliated company or a jointly controlled entity is recognized immediately in income or loss.

On disposal of a cash generating unit, an affiliated company or a jointly controlled entity during the year, any attributable amount of purchased goodwill is included in the calculation of the gain or loss on disposal.

(d) Property, plant and equipment and depreciation

(i) Owned assets

An item of property, plant and equipment is initially recorded at cost less accumulated depreciation (see (iv) below) and impairment losses (Note 2(1)). The cost of an asset comprises its purchase price and any directly attributable costs of bringing the asset to working condition and location for its intended use and the initial estimate, where relevant, of the costs of dismantling and removing the item and restoring the site on which it is located. Subsequent to the revaluation (Note 21), which was based on depreciated replacement costs, property, plant and equipment are carried at revalued amount, being the fair value at the date of the revaluation less any subsequent accumulated depreciation and impairment losses. Revaluations are performed with sufficient regularity to ensure that the carrying amount of these assets does not differ materially from that which would be determined using fair value at the balance sheet date.

Gains or losses arising from the retirement or disposal of an item of property, plant and equipment are determined as the difference between the estimated net disposal proceeds and the carrying amount of the item and are recognized in the statement of operations on the date of retirement or disposal. Any related revaluation surplus is transferred from the revaluation reserve to retained earnings.

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

(ii) Leased assets

Leases in terms of which the Group assumes substantially all the risks and rewards of ownership are classified as capital leases.

Flight equipment acquired by way of capital leases is stated at an amount equal to lower of its fair value and the present value of minimum lease payments at inception of the lease, less accumulated depreciation (see (iv) below) and impairment losses (Note 2(1)) and the corresponding liabilities, net of finance charges are recorded as obligations under capital leases. Subsequent to the revaluation (Note 21), which was based on depreciated replacement costs, leased assets are carried at revalued amount, being the fair value at the date of the revaluation less any subsequent accumulated depreciation and impairment losses. Revaluations are performed with sufficient regularity to ensure that the carrying amount of these assets does not differ materially from that which would be determined using fair value at the balance sheet date.

The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent rentals are written off as an expense of the period in which they are incurred.

Gains or losses on aircraft sale and leaseback transactions which result in capital leases are deferred and amortized over the terms of the related leases. Gains or losses on other aircraft sale and leaseback transactions are recognized immediately if the transactions are established at fair value. Any difference between the sales price over fair value is deferred and amortized over the period the assets are expected to be used.

Where the Group has the use of assets held under operating leases, payments made under operating leases are charged to the statement of operations in equal instalments over the accounting periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased asset. Lease incentives received are recognized in the statement of operations as an integral part of the aggregate net lease payments. Contingent rentals are charged to the consolidated statement of operations in the accounting period in which they are incurred.

(iii) Subsequent costs

The Group recognizes in the carrying amounts of an item of property, plant and equipment the cost of replacing part of such an item when that cost is incurred if it is probable that the future economic benefits embodied with the item will flow to the Group and the cost of the item can be measured reliably. All other costs are recognized in the statement of operations as an expense as incurred.

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

(iv) Depreciation

Depreciation is calculated to write off the cost or revalued amount of items of property, plant and equipment, less their estimated residual value, if any, using the straight line method over their estimated useful lives as follows:

Buildings	15 to 40 years
Owned and leased aircraft	15 to 20 years
Other flight equipment	
Jet engines	8 to 15 years
Others, including rotatable spares	8 to 15 years
Machinery and equipment	5 to 10 years
Vehicles	6 years

Depreciation for assets acquired under capital leases is calculated to write off the cost of the assets in equal annual amounts over the term of the relevant lease or, where it is likely the Group will obtain ownership of the asset, the life of the asset, as set out above.

Where parts of an item of property, plant and equipment have different useful lives, the cost or valuation of the item is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value, if any, are reviewed annually.

(e) Construction in progress

Construction in progress represents office buildings, various infrastructure projects under construction and equipment pending installation, and is stated at cost less impairment losses (Note 2(1)). Cost comprises direct costs of construction and the initial estimate, where relevant, of the costs of dismantling and removing the item and restoring the site on which it is located as well as interest charges during the periods of construction and installation. Capitalization of these costs ceases and the construction in progress is transferred to property, plant and equipment when the asset is substantially ready for its intended use, notwithstanding any delay in the issue of the relevant commissioning certificates by the relevant PRC authorities.

No depreciation is provided in respect of construction in progress.

(f) Lease prepayments

Lease prepayments represent land use rights paid to the PRC's governmental authorities. Land use rights are carried at cost less impairment losses (Note 2(1)) and are charged to the statement of operations on a straight-line basis over the respective periods of the rights which range from 30 to 50 years.

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

(g) Deferred expenditure

Custom duties and other direct costs in relation to modifying, introducing and certifying certain operating leased aircraft are deferred and amortized over the terms of the related leases.

Lump sum housing benefits payable to employees of the Group are deferred and amortized on a straight line basis over a period of 10 years, which represents the benefit vesting period of the employees.

Deferred expenditure is carried at cost less impairment losses (Note 2(1)).

(h) Other investments in debt and equity securities

The Group's policies for investments in debt and equity securities, other than investments in subsidiaries, affiliated companies and jointly controlled entities, are as follows:

Investments in securities held for trading are classified as current assets and are initially stated at fair value. At the balance sheet date the fair value is remeasured, with any resultant gain or loss recognized in the statement of operations.

Dated debt securities that the Group has the positive ability and intention to hold to maturity are classified as held-to-maturity securities. Held-to-maturity securities are initially recognized in the balance sheet at fair value plus transaction costs. Subsequently, they are stated in the balance sheet at amortized cost less impairment losses (Note 2(1)).

Other financial instruments are stated at cost less impairment losses (Note 2(1)). Other financial instruments represent unquoted available-for-sale equity securities of companies established in the PRC. There is no quoted market price for such equity securities and accordingly a reasonable estimate of the fair value could not be measured reliably.

(i) Inventories

Inventories, which consist primarily of expendable spare parts and supplies, are stated at cost less any applicable provision for obsolescence, and are expensed when used in operations. Cost represents the average unit cost. Inventories held for disposal are stated at the lower of cost and net realizable value. Net realizable value represents estimated resale price.

(j) Trade and other receivables

Trade and other receivables are initially recognized at fair value and thereafter stated at amortized cost less impairment losses for bad and doubtful debts (Note 2(1)), except where the effect of discounting would be immaterial. In such cases, the receivables are stated at cost less impairment losses for bad and doubtful debts (Note 2(1)).

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

(k) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions having been within three months of maturity at acquisition. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents for the purposes of the consolidated statement of cash flows.

(l) Impairment of assets

(i) Impairment of investments in debt and equity securities and other receivables

Investments in debt and equity securities and other current and non-current receivables that are stated at cost or amortized cost are reviewed at each balance sheet date to determine whether there is objective evidence of impairment. If any such evidence exists, any impairment loss is determined and recognized as follows:

For unquoted equity securities and current receivables that are carried at cost, the impairment loss is measured as the difference between the carrying amount of the financial asset and the estimated future cash flows, discounted at the current market rate of return for a similar financial asset where the effect of discounting is material. Impairment losses for current receivables are reversed if in a subsequent period the amount of the impairment loss decreases. Impairment losses for equity securities are not reversed.

For financial assets carried at amortized cost, the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition of these assets).

If in a subsequent period the amount of an impairment loss decreases and the decrease can be linked objectively to an event occurring after the impairment loss was recognized, the impairment loss is reversed through the statement of operations. A reversal of an impairment loss shall not result in the asset's carrying amount exceeding that which would have been determined had no impairment loss been recognized in prior years.

F-17

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

(ii) Impairment of other assets

Internal and external sources of information are reviewed at each balance sheet date to identify indications that the following assets may be impaired or an impairment loss previously recognized no longer exists or may have decreased:

Property, plant and equipment;

Construction in progress;

Lease and equipment deposits;

Lease prepayments;

Deferred expenditure; and

Interests in affiliated companies and jointly controlled entities.

If any such indication exists, the asset's recoverable amount is estimated.

Calculation of recoverable amount

The recoverable amount of an asset is the greater of its net selling price and the value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit).

Recognition of impairment losses

An impairment loss is recognized in the statement of operations whenever the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment losses recognized in respect of cash-generating units are allocated first to reduce the carrying amount of the other assets in the unit (or group of units) on a pro rata basis, except that the carrying value of an asset will not be reduced below its individual fair value less costs to sell, or value in use, if determinable.

Reversals of impairment losses

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

An impairment loss is reversed if there has been a favorable change in the estimates used to determine the recoverable amount.

A reversal of an impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognized in prior years. Reversals of impairment losses are credited to the statement of operations in the year in which the reversals are recognized.

F-19

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

(m) Interest-bearing borrowings

Interest-bearing borrowings are recognized initially at fair value, less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortized cost with any difference between cost and redemption value being recognized in the consolidated statement of operations over the period of the borrowings using the effective interest method.

(n) Trade and other payables

Trade and other payables are initially recognized at fair value and thereafter stated at amortized cost unless the effect of discounting would be immaterial, in which case they are stated at cost.

(o) Provisions and contingent liabilities

Provisions are recognized for liabilities of uncertain timing or amount when the Group has a present legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligations and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(p) Defeasance of long-term liabilities

Where long-term liabilities have been defeased by the placement of security deposits, those liabilities and deposits (and income and charge arising therefrom) are netted off in order to reflect the overall commercial effect of the arrangements. Such netting off has been effected where a right is held by the Group to insist on net settlement of the liability and deposit including in all situations of default and where that right is assured beyond doubt.

(q) Deferred credits

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

In connection with the acquisition or operating lease of certain aircraft and engines, the Group receives various credits. Such credits are deferred until the aircraft and engines are delivered, at which time they are either applied as a reduction of the cost of acquiring the aircraft and engines, resulting in a reduction of future depreciation, or amortized as a reduction of rental expense for aircraft and engines under operating leases.

F-21

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

(r) Income tax

Income tax for the year comprises current and movement in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognized in the statement of operations except to the extent that they relate to items recognized directly in equity, in which case they are recognized in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable income will be available against which the asset can be utilized, are recognized. Future taxable income that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilized.

The limited exceptions to the recognition of deferred tax assets and liabilities are those temporary differences arising from goodwill not deductible for tax purposes, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit (provided they are not part of a business combination), and temporary differences relating to investment in subsidiaries to the extent that, in the case of taxable differences, the Group controls the timing of the reversal and it is probable that the difference will not reverse in the foreseeable future, or in the case of deductible differences, unless it is probable that they will reverse in the future.

The amount of deferred tax recognized is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date. Deferred tax assets and liabilities are not discounted.

The carrying amount of a deferred tax asset is reviewed at each balance sheet date and is reduced to the extent that it is no longer probable that sufficient taxable income will be available to

AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

allow the related tax benefit to be utilized. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable income will be available.

Additional income taxes that arise from the distribution of dividends are recognized when the liability to pay the related dividends is recognized.

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities, if the Group has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

in the case of current tax assets and liabilities, the Group intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously; or

in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:

the same taxable entity; or

different taxable entities, which, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realize the current tax assets and settle the current tax liabilities on a net basis or realize and settle simultaneously.

(s) Revenue recognition

(i) Passenger, cargo and mail revenues are recognized when the transportation is provided. Ticket sales for transportation not yet provided are included in current liabilities as sales in advance of carriage. Revenues from airline-related business are recognized when services are rendered. Revenue is stated net of sales tax.

(ii) Interest income is recognized as it accrues using the effective interest method.

(iii) Dividend income is recognized when the Group's right to receive dividend is established.

(iv) Operating lease income is recognized on a straight line basis over the terms of the respective leases.

(t) Traffic commissions

Traffic commissions are expensed when the transportation is provided and the related revenue is recognized. Traffic commissions for transportation not yet provided are recorded on the balance sheet as a prepaid expense.

AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

(u) Maintenance and overhaul costs

Routine maintenance, repairs and overhauls are expensed in the statement of operations as and when incurred.

In respect of owned and capital leased aircraft, components within the aircraft subject to replacement during major overhauls are depreciated over the average expected life between major overhauls. When each major overhaul is performed, its cost is recognized in the carrying amount of property, plant and equipment and is depreciated over the estimated period between major overhauls. Any remaining carrying amount of cost of previous major overhaul is derecognized and charged to the statement of operations.

In respect of aircraft held under operating leases, a provision is made over the lease term for the estimated cost of overhauls required to be performed on the related aircraft prior to their return to the lessors.

(v) Borrowing costs

Borrowing costs are expensed in the statement of operations as and when incurred, except to the extent that they are capitalized as being directly attributable to the acquisition or construction of an asset which necessarily takes a substantial period of time to get ready for its intended use.

(w) Retirement benefits

Contributions to retirement schemes and additional retirement benefits paid to retired employees are accrued in the year in which the associated services are rendered by employees.

(x) Frequent flyer award programs

The Group maintains two frequent flyer award programs, namely, the China Southern Airlines Sky Pearl Club and the Egret Mileage Plus, which provide travel awards to members based on accumulated mileage. The estimated incremental cost to provide free travel is recognized as an expense and accrued as a current liability as members accumulate mileage. As members redeem awards or their entitlements expire, the incremental cost liability is reduced accordingly to reflect the acquittal of the outstanding obligations.

Revenue from mileage sales to third parties under the frequent flyer award programs is recognized when the related transportation services are provided.

(Amounts in millions, except share data)**

(y) Translation of foreign currencies

Transactions in foreign currencies are translated into Renminbi at the applicable rates of exchange quoted by the PBOC prevailing on the transaction dates. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated into Renminbi at the PBOC exchange rates at the balance sheet date. Foreign exchange differences arising on translation are recognized in the statement of operations. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated into Renminbi at the PBOC exchange rates prevailing on the transaction dates. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated into Renminbi at the PBOC exchange rates at the dates the fair value was determined.

(z) Related parties

For the purposes of these consolidated financial statements, parties are considered to be related to the Group if the Group has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control or common significant influence. Related parties may be individuals (being members of key management personnel, significant shareholders and/ or their close family members) or other entities and include entities which are under the significant influence of related parties of the Group where those parties are individuals, and post-employment benefit plans which are for the benefit of employees of the Group or of any entity that is a related party of the Group.

(aa) Segmental reporting

A segment is a distinguishable component of the Group that is engaged either in providing products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

3. NEW AND REVISED IFRSs

The IASB has issued a number of new and revised IFRSs that are effective for accounting periods beginning on or after January 1, 2005.

The accounting policies of the Group after the adoption of these new and revised IFRSs have been summarized in Note 2. The following sets out information on the significant changes in accounting policies for the current and prior accounting periods reflected in these financial statements.

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period (Note 48).

F-26

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

(Amounts in millions, except share data)

(a) Changes in presentation of share of affiliated companies and jointly controlled entities taxation (IAS 1, Presentation of Financial Statements)

In prior years, the Group's share of taxation of affiliated companies and jointly controlled entities accounted for using the equity method was included as part of the Group's income tax in the consolidated statement of operations. With effect from January 1, 2005, in accordance with the implementation guidance in IAS 1, the Group has changed the presentation and includes the share of taxation of affiliated companies and jointly controlled entities accounted for using the equity method in the respective shares of income or loss reported in the consolidated statement of operations before arriving at the Group's income or loss before tax. These changes in presentation have been applied retrospectively with comparatives restated.

As a result of these changes in presentation, the Group's share of results of affiliated companies and jointly controlled entities and income tax expense/benefit have been adjusted. Share of income of affiliated companies for the years ended December 31, 2003 and 2004 decreased by RMB3 and RMB2, respectively. Share of losses of affiliated companies for the year ended December 31, 2005 decreased by RMB15. Share of losses of jointly controlled entities increased by RMB7 and RMB11 for the years ended December 31, 2003 and 2004, respectively, and decreased by RMB3 for the year ended December 31, 2005. The Group's income tax expense has decreased by RMB10 and RMB13 during the years ended December 31, 2003 and 2004, respectively and income tax benefit has decreased by RMB18 during the year ended December 31, 2005. Accordingly, there is no effect on the net results and net assets of the Group in periods presented.

(b) Changes in presentation of minority interests (IAS 1, Presentation of financial statements and IAS 27, Consolidated and separate financial statements)

In prior years, minority interests at the balance sheet date were presented separately from liabilities and equity in the consolidated balance sheet. Minority interests in the results of the Group for the year were also separately presented in the consolidated statement of operations as a deduction before arriving at the results attributable to shareholders (the equity shareholders of the Company).

With effect from January 1, 2005, in order to comply with IAS 1 and IAS 27, the Group has changed its accounting policy relating to presentation of minority interests. Under the new policy, minority interests are presented as part of equity, separately from interests attributable to the equity shareholders of the Company. Further details of the new policy are set out in Note 2(c). These changes in presentation have been applied retrospectively with comparatives restated.

F-27

(c) Scope of related parties (IAS 24, Related party disclosures)

As a result of the adoption of revised IAS 24, the definition of related parties as disclosed in Note 2(z) has been expanded such that state-controlled entities are included. The revised IAS 24 also requires the compensation of key management personnel to be disclosed. The Group has included these additional disclosures in these consolidated financial statements.

4. TURNOVER

Turnover comprises revenues from airline and airline-related business and is stated net of sales tax. An analysis of turnover is as follows:

	Year ended December 31,		
	2003 RMB	2004 RMB	2005 RMB
Traffic revenue			
Passenger	15,010	21,100	34,328
Cargo and mail	1,955	2,244	3,091
	16,965	23,344	37,419
Other operating revenue			
Commission income	140	203	237
General aviation income	40	55	77
Ground services income	99	146	195
Air catering income	31	53	25
Net income from lease arrangements (Note 21)	69		
Rental income	40	45	69
Aircraft lease income		11	1
Others	86	117	270
	505	630	874
	17,470	23,974	38,293

Pursuant to various sales tax rules and regulations, the Group is required to pay sales tax to national and local tax authorities at the rate of approximately 3% of the traffic revenue in respect of domestic flights and outbound international/Hong Kong and Macau flights. Sales tax incurred by the Group for the years ended December 31, 2003, 2004 and 2005, netted off against revenue, amounted to RMB206, RMB716, and RMB1,111, respectively.

F-29

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

(Amounts in millions, except share data)

In addition, the Group is required to pay contributions to the CAAC Infrastructure Development Fund. Prior to May 1, 2003, contributions to CAAC Infrastructure Development Fund were payable at 5% and 2%, respectively, of the domestic and international/ Hong Kong and Macau traffic revenue. For the period from May 1, 2003 to March 31, 2004, the Group was exempted from paying any contributions. Effective from April 1, 2004, contributions to the CAAC Infrastructure Development Fund are payable based on the traffic capacity deployed by the Group on its routes. The contributions now form part of the flight operations expenses and amounted to RMB466 and RMB978 for the years ended December 31, 2004 and 2005, respectively (Note 5). The contributions for the year ended December 31, 2003 amounted to RMB251 were netted off against traffic revenue.

- adjustment for change in enacted tax rate	(392)		
	(334)	65	(7)

On October 17, 2003, the Company's registered address was moved to Guangzhou Economic & Technology Development Zone. In accordance with the Rules and Regulations for Implementation of Income Tax for Foreign Investment Enterprises and Foreign Enterprises of the PRC and a taxation approval document Guangzhou Municipal State Tax Bureau Suo De Shui Zi Que 020043, the Company is entitled to enjoy the preferential tax policy implemented in the Guangzhou Economic & Technology Development Zone effective October 1, 2003. As a result, the Company's income tax rate has been changed from 33% to 15% beginning from that date.

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

As a result of the reduction in income tax rate, the Company's net deferred tax liability balance at January 1, 2003 of RMB507 was reduced by RMB392. Accordingly, a net deferred tax credit of RMB392 was recognized in the consolidated statement of operations for the year ended December 31, 2003.

In respect of the Group's overseas airline activities, the Group has either obtained exemptions from overseas taxation pursuant to the bilateral aviation agreements between the overseas governments and the PRC government, or has sustained tax losses in these overseas jurisdictions. Accordingly, no provision for overseas tax has been made for the years ended December 31, 2003, 2004 and 2005.

b) Reconciliation between tax (benefit)/expense and accounting (loss)/income at applicable tax rates

	Year ended December 31,		
	2003 RMB <i>(restated, Note 3)</i>	2004 RMB <i>(restated, Note 3)</i>	2005 RMB
(Loss)/income before tax	(521)	220	(1,853)
Expected tax on (loss)/income before tax calculated at 15% for the years ended December 31, 2003, 2004 and 2005	(78)	33	(278)
Adjustments:			
Effect on change in income tax rate on deferred taxation	(392)		
Rate differential on subsidiaries/branches	5	3	7
Tax effect of non-deductible expenses	80	29	82
Tax effect of non-taxable income			(8)
Tax effect of share of results of affiliated companies and jointly controlled entities	(9)	(1)	37
Tax effect of unused tax losses not recognized	22		135
Expired tax losses	34		
Others	4	1	18
Actual tax (benefit)/expense	(334)	65	(7)

All but an insignificant amount of (loss)/income before taxation is from domestic sources.

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

In accordance with relevant PRC tax regulations, a PRC lessee is liable to pay PRC withholding tax in respect of any lease payments regularly made to an overseas lessor. Depending on the circumstances, this tax is generally imposed at a fixed rate ranging from 10% to 20% of the lease payments, or in certain cases, the interest components of such payments. Pursuant to an approval document from the State Tax Bureau, lease arrangements executed prior to September 1, 1999 were exempted from PRC withholding tax.

The PRC withholding tax payable by the Group for the years ended December 31, 2003, 2004 and 2005 of RMB8, RMB23 and RMB55, respectively, in respect of the operating leases executed after September 1, 1999 has been included as part of the operating lease rentals.

14. DIVIDENDS

No interim dividend was paid during the years ended December 31, 2003, 2004 and 2005.

The board of directors of the Company does not recommend the payment of a final dividend in respect of the year ended December 31, 2005. No final dividend was paid in respect of the years ended December 31, 2003 and 2004.

15. BASIC LOSS PER SHARE

The calculation of basic loss per share for the years ended December 31, 2003, 2004 and 2005 is based on the loss attributable to equity shareholders of the Company of RMB358, RMB48, and RMB1,848, respectively, and the weighted average number of shares in issue of 3,831,712,000, 4,374,178,000, and 4,374,178,000, respectively.

The amount of diluted loss per share is not presented as there were no dilutive potential ordinary shares in existence during the years ended December 31, 2003, 2004 and 2005.

16. CASH AND CASH EQUIVALENTS

As of December 31, 2004 and 2005, cash and cash equivalents comprise cash at bank and in hand and deposits with China Southern Airlines Group Finance Company Limited (SA Finance), a PRC authorized financial institution controlled by CSAHC and an affiliated company of the Group. In accordance with the financial agreement dated May 22, 1997 and subsequently revised on December 31, 2004 between the Company and SA Finance, all the Group's deposits accepted by SA Finance were simultaneously placed with several designated major PRC banks by SA Finance. As of December 31, 2004 and 2005, the Group's deposits with SA Finance amounted to RMB406 and RMB544, respectively.

(a) Substantially all of the Group's buildings are located in the PRC. The Group was formally granted the rights to use the twenty one parcels of land in Guangzhou, Shenzhen, Zhuhai, Beihai, Changsha, Shantou, Haikou, Zhengzhou, Guiyang and Wuhan by the relevant PRC authorities for periods of 30 to 70 years, which expire between 2020 and 2068. For other land in the PRC on which the Group's buildings are erected, the Group was formally granted the rights to use such land for periods of one to five years pursuant to various lease agreements between the Company and CSAHC. In this connection, rental payments totaling RMB2, RMB2 and RMB24 were paid to CSAHC for each of the

years ended December 31, 2003, 2004 and 2005, respectively in respect of these leases (Note 36).

(b) In compliance with the PRC rules and regulations governing initial public offering of shares by PRC joint stock limited companies, the property, plant and equipment of the Group as of December 31, 1996 were revalued. This revaluation was conducted by Guangzhou Assets Appraisal Corp., a firm of independent valuers registered in the PRC, on a depreciated replacement cost basis, and approved by the China State-owned Assets Administration Bureau.

F-42

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

Subsequent to the 1996 revaluation, the property, plant and equipment of the Group are carried at revalued amount, being the fair value at the date of the revaluation less any subsequent accumulated depreciation and impairment losses. Revaluation is performed with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the balance sheet date. Based on a revaluation performed as of September 30, 2005, by Savills Valuation & Professional Services Limited, a firm of independent valuers, on a depreciated replacement cost basis, the carrying value of property, plant and equipment did not differ materially from their fair value. Consequently, no additional fair value adjustment was recorded during the year ended December 31, 2005.

At December 31, 2005, the carrying amount of such revalued property, plant and equipment approximated the historical carrying value of such assets had they been stated at cost less accumulated depreciation and impairment losses.

(c) As of December 31, 2004 and 2005, certain aircraft of the Group with an aggregate carrying amount of approximately RMB23,562 and RMB30,408, respectively, were mortgaged under certain notes payable and lease agreements (Notes 27 and 28).

(d) In 2003, the Group entered into operating lease arrangements to lease certain flight training facilities and buildings to Zhuhai Xiang Yi Aviation Technology Company Limited (Zhuhai Xiang Yi), a jointly controlled entity of the Group. The leases with initial one-year term are automatically renewable for additional subsequent one year unless either party gives appropriate notice of termination. In this connection, rental income totaling RMB31, RMB31 and RMB31 was received by the Group for each of the years ended December 31, 2003, 2004 and 2005 in respect of the leases (Note 36). The carrying amount and accumulated depreciation of the relevant property, plant and equipment totaled RMB787 and RMB514 at December 31, 2004, and RMB862 and RMB664 at December 31, 2005, respectively. Depreciation of relevant property, plant and equipment recognized for each of the years ended December 31, 2003, 2004 and 2005 amounted to RMB55, RMB55 and RMB35, respectively. As of December 31, 2005, the Group's total future minimum lease payments under non-cancellable operating leases were receivable within one year and amounted to RMB31.

(e) The Group entered into two separate arrangements (the Arrangements) with certain independent third parties during each of 2002 and 2003. Under each of the Arrangements, the Group sold an aircraft and then immediately leased back the aircraft for an agreed period. The lease payment obligations, with pre-determined net present value, are to be satisfied solely out of the sale proceeds and such amount has been placed irrevocably by the Group in form of deposits and debt securities in favor of the lessor. The Group has an option to purchase the aircraft at a pre-determined date and an agreed purchase price to be satisfied by the balances of the deposits and debt securities outstanding at that date. In the event that the lease agreement is early terminated by the Group, the Group is liable to pay a pre-determined penalty to the lessor. Provided that the Group complies with the lease agreements, the Group is entitled to the continued possession and operation of the aircraft. Since the Group retains substantially all risks and rewards incident to ownership of the aircraft and enjoys substantially the same rights to their use as before the Arrangements, no adjustment has been made to the property, plant and equipment. As of December 31, 2004 and 2005, the net present value of the lease commitments and the corresponding defeased deposits and debt securities amounted to RMB2,462 and RMB2,376, respectively. As a result of the Arrangements, the Group received net cash benefit of RMB69 in 2003, which was recognized as income for 2003.

(f) As of December 31, 2005 and up to the date of approval of these consolidated financial statements, the Group is in the process of applying for the land use right certificates and property title certificates in respect of the properties located in the Guangzhou Baiyun International Airport, in which the Group has interests and for which such certificates have not been granted. As of December 31, 2004 and 2005, carrying value of such properties of the Group amounted to RMB2,319 and RMB2,316, respectively. The directors of the Company are of the opinion that the use of and the conduct of operating activities at the properties referred to above are not affected by the fact that the Group has not yet obtained the relevant land use right certificates and property title certificates.

As of December 31, 2004 and 2005, the Group had tax losses for PRC income tax purposes totaling approximately RMB260 and RMB1,601. Such tax losses are available for carry forward to set off against future PRC assessable income for a maximum period of five years and will expire in 2011. In accordance with accounting policy set out in Note 2(r), as of December 31, 2004 and 2005, the Group has not recognized deferred tax assets in respect of tax losses to the extent of approximately Nil and RMB710 as it was determined by management that it is not probable that future taxable income against which the losses can be utilized will be available before they expire.

As of December 31, 2004 and 2005, the Group has also not recognized deferred tax assets in respect of cumulative tax losses from operations in Hong Kong of approximately RMB303, as it is not probable that future taxable income against which the losses can be utilized will be available. The tax losses do not expire under current tax legislation.

26. OTHER ASSETS

As of December 31, 2004 and 2005, other assets of the Group include lump sum housing benefits of RMB197 and RMB171, respectively. Further details are set out in Note 37.

Movements of lump sum housing benefits are as follows:

	December 31,	
	2004	2005
	RMB	RMB
At January 1	223	197
Amortization for the year	(26)	(26)
At December 31	197	171

27. DEBT**Short-term notes payable**

	December 31,	
	2004	2005
	RMB	RMB
Short-term notes payable	9,925	14,346
Current installments of long-term notes payable	1,593	1,877
	11,518	16,223

Borrowings under short-term notes payable are used primarily to finance working capital needs and are repayable in full on the respective due dates with interest rates ranging from 3.15% to 5.34% per annum. The Group's weighted average interest rate on short-term notes payable was 1.60% and 4.83% per annum, respectively, as of December 31, 2004 and 2005.

Short-term notes payable include certain notes payable of RMB2,611 which were renewed subsequent to December 31, 2005. The renewed notes payable are unsecured, bear interest at floating rates ranging from 3-month HIBOR/6-month LIBOR + 0.55% to 0.60% per annum and are repayable within one year from their respective renewal dates.

In addition, the Group entered into new notes payable agreements totalling RMB2,671 subsequent to December 31, 2005. These new notes payable are unsecured and bear interest at floating rates ranging from 6-month LIBOR + 0.55% to 0.70% per annum with maturities through 2008.

At December 31	1,477	(390)
Total	7,474	5,626

(a) According to the PRC Company Law and the Articles of Association of the Company and certain of its subsidiaries, the Company and the relevant subsidiaries are required to transfer 10% of their annual net income after taxation, as determined under relevant PRC accounting rules and regulations, to a statutory surplus reserve until the reserve balance reaches 50% of the registered capital. The transfer to this reserve must be made before distribution of

a dividend to shareholders.

Statutory surplus reserve can be used to offset prior years' losses, if any, and may be converted into share capital by the issue of new shares to shareholders in proportion to their existing shareholding or by increasing the par value of the shares currently held by them, provided that the balance after such issue is not less than 25% of the registered capital.

AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

(Amounts in millions, except share data)

(b) According to the PRC Company Law and the Articles of Association of the Company and certain of its subsidiaries, the Company and the relevant subsidiaries are required to transfer between 5% to 10% of their annual net income after taxation, as determined under PRC accounting rules and regulations, to the statutory public welfare fund. This fund can only be utilized on capital items for the collective benefits of the Company's and the relevant subsidiaries' employees such as the construction of dormitories, canteen and other staff welfare facilities. This fund is non-distributable other than in liquidation. The transfer to this fund must be made before distribution of a dividend to shareholders and is subject to respective shareholders' approval.

(c) The appropriation of this reserve is subject to shareholders' approval. The usage of this reserve is similar to that of statutory surplus reserve.

(d) Dividend distributions may be proposed at the discretion of the Company's board of directors, after consideration of the transfers referred to above and making up cumulative prior years' losses. Pursuant to the Articles of Association of the Company, the net income of the Company for the purpose of dividend distribution is deemed to be the lesser of (i) net income determined in accordance with the PRC accounting rules and regulations, and (ii) the net income determined in accordance with IFRSs; or if the financial statements of the Company are not prepared in accordance with IFRSs, the accounting standards of one of the countries in which its shares are listed. As of December 31, 2005, the Company did not have any distributable reserves.

36. RELATED PARTY TRANSACTIONS

In addition to the balances discussed in Notes 16, 17, 21, 27, 29 and 30 to these consolidated financial statements, the Group entered into the following material related party transactions.

(a) Significant transactions with related companies

The Group obtained various operational and financial services provided by CSAHC and its affiliates, and the Group's affiliated companies and jointly controlled entities during the normal course of its business. In the past, CSAHC was under the direct control of the Civil Aviation Administration of China (the CAAC). However, such control has been shifted to the China State-owned Assets Administration Bureau since early 2003. Consequently, transactions with the CAAC and its affiliates beginning from 2003 are no longer presented as related party transactions of the Group.

- (ii) The Group purchases certain inflight meals and related services from Shenzhen Air Catering Company Limited, a co-operative joint venture established in the PRC, in respect of which CSAHC is entitled to 33% of its income after tax, and Southern Airlines (Group) Catering Co., Ltd, a wholly owned subsidiary of CSAHC.
- (iii) During 2003, wet lease rentals totaling RMB36, were paid to XJA, pursuant to a wet lease agreement in respect of a Boeing 757-200 aircraft effective October 2002. The wet lease agreement was terminated in April 2003.

(iv)

Commission is earned by certain subsidiaries of CSAHC in connection with the air tickets sold by them on behalf of the Group.

Commission is calculated based on a fixed rate ranging from 1.5% to 12% on the ticket value.

- (v) Certain sundry aviation supplies are purchased from Southern Airlines (Group) Economic Development Company (SAGEDC), a subsidiary of CSAHC.
- (vi) The Group leases an aircraft from China Southern Airlines (Group) Hainan Co., Ltd, a subsidiary of CSAHC.
- (vii) The Group leases certain land and buildings in the PRC from CSAHC. Rental payments for land and buildings amounted to RMB2 (Note 21(a)) and

RMB13,
respectively,
RMB2 (Note
21(a)) and
RMB16,
respectively,
and RMB24
(Note 21(a)) and
RMB66,
respectively
were paid to
CSAHC in
2003, 2004 and
2005,
respectively.

- (viii) China Southern Airlines (Group) Property Management Co., Ltd, a subsidiary of CSAHC, provides property management services to the Group.
- (ix) The Group paid a fixed annual fee of RMB85 to CSAHC from 1995 to 2004 in respect of the provision of quarters to the eligible employees of the Group (Note 37). No such payment was made in 2005.
- (x) Airport ground service was provided by Beijing Southern Airlines Ground Services

Company
Limited, a
jointly
controlled entity
of the Company.

- (xi) The Group has a 50% equity interest in both Guangzhou Aircraft Maintenance Engineering Company Limited (GAMECO) and MTU Maintenance Zhuhai Co., Ltd (MTU Zhuhai), which provide comprehensive maintenance services to the Group.
- (xii) The Group has a 51% equity interest in Zhuhai Xiang Yi, which provides flight simulation services to the Group. In addition, the Group entered into operating lease agreements to lease certain flight training facilities and buildings to Zhuhai Xiang Yi (Note 21(d)).

(xiii) Interest income was received from deposits with SA Finance. The applicable interest rates are determined in accordance with the deposit rates published by the PBOC (Note 16).

The Group obtained loans from SA Finance. The interest rates ranged from 3.30% to 5.02% per annum during the year ended December 31, 2005.

(xiv) On December 31, 2004, the Group acquired the airline operations and certain related assets of CNA and XJA at a total consideration of RMB15,522, which was partly satisfied by assumption of debts and liabilities of

CNA and XJA totalling RMB13,563 outstanding as of that date. The remaining consideration of RMB1,959 was fully paid in cash during 2005.

- (xv) In 2004, the Group provided administrative services to CNA and XJA. Operating expenses amounted to RMB65 million were recharged to CNA and XJA on a cost basis.
- (xvi) In 2003, CSAHC made short term advances to the Group. These advances were unsecured, interest free and fully repaid in 2004.
- (xvii) Prior to January 1, 2002, the Group paid a fixed annual fee to CSAHC in return for CSAHC providing medical benefit, transportation subsidies and other welfare facilities to the retirees of the

Group. Such arrangement was terminated on January 1, 2002. In 2003, CSAHC refunded RMB58 to the Group which represented the difference between the aggregate fixed annual fees received from the Group and the aggregate cost of services incurred by CSAHC under the above agreement.

In addition to the above, certain subsidiaries of CSAHC also provided hotel and other services to the Group during the year. The total amount involved is not material to the results of the Group for the year.

Senior management	2,246	2,686
	6,930	6,147

Total remuneration is included in staff costs (Note 11).

(d) The Group participates in various defined contribution retirement plans organized by municipal and provincial governments for its staff. Details of the Group's employee benefits plan are disclosed in Note 37.

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

(e) Transactions with other state-owned enterprises

The Group is a state-owned entity and operates in an economic regime currently predominated by state-owned entities. Apart from transactions with CSAHC and its affiliates, the Group conducts a majority of its business activities with entities directly or indirectly owned or controlled by the PRC government and numerous government authorities and agencies (collectively referred to as state-owned entities) in the ordinary course of business. These transactions, which include sales and purchase of goods and ancillary materials, rendering and receiving services, lease of assets, purchase of property, plant and equipment and obtaining finance, are carried out at terms similar to those that would be entered into with non-state-owned entities and have been reflected in these financial statements. The management believes that it has provided meaningful disclosure of related party transactions as summarized above.

37. RETIREMENT AND HOUSING BENEFITS

Employees of the Group participate in several defined contribution retirement schemes organized separately by PRC municipal governments in regions where the major operations of the Group are located. The Group is required to contribute to these schemes at the rates ranging from 14% to 20% during the year ended December 31, 2004 and 9% to 20% during the year ended December 31, 2005, respectively, of salary costs including certain allowances. A member of the retirement schemes is entitled to pension benefits equal to a fixed proportion of the salary at the retirement date. The retirement benefit obligations of all existing and future retired staff of the Group are assumed by these schemes.

In addition, the Group was selected as one of the pilot enterprises to establish a supplementary defined contribution retirement scheme for the benefit of employees. In this connection, employees of the Group participate in a supplementary defined contribution retirement scheme whereby the Group is required to make defined contributions at rates ranging from 3% to 5% of total salaries. The Group has no obligation for the payment of pension benefits beyond the contributions described above.

Furthermore, pursuant to the comprehensive services agreement (the Services Agreement) dated May 22, 1997 between the Company and CSAHC, CSAHC provided quarters to eligible employees of the Group. In return, the Group paid a fixed annual fee of RMB85 to CSAHC for a ten-year period from 1995 to 2004. The agreement expired by December 31, 2004 and no further payment was made in 2005.

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

Pursuant to an additional staff housing benefit scheme effective September 2002, the Group agreed to pay lump sum housing allowances to certain employees who have not received quarters from CSAHC or the Group according to the relevant PRC housing reform policy, for subsidizing their purchases of houses. An employee who quits prior to the end of the vesting benefit period is required to pay back a portion of the lump sum housing benefits determined on a pro-rata basis of the benefit vesting period. The Group has the right to effect a charge on the employee's house and to enforce repayment through selling the house in the event of default in repayment. Any shortfall in repayment would be charged against consolidated statements of operations. As at December 31, 2004 and 2005, the Group had made payments totaling RMB152 and RMB168, respectively, under the scheme and recorded its remaining contractual liabilities totaling RMB108 and RMB92, respectively, as accrued expenses on the consolidated balance sheets. Housing allowances are payable when applications are received from eligible employees.

38. SEGMENTAL INFORMATION

The Group operates principally as a single business segment for the provision of air transportation services. The analysis of turnover and operating income/(loss) by geographical segment is based on the following criteria:

- (i) Traffic revenue from domestic services within the PRC (excluding Hong Kong and Macau) is attributed to the domestic operation. Traffic revenue from inbound/outbound services between the PRC and Hong Kong/Macau, and the PRC and overseas destinations is attributed to the Hong Kong and Macau operation and international operation respectively.
- (ii) Other revenue from ticket selling, general aviation and ground services, air catering and other miscellaneous services is attributed on the basis of where the services are performed.

	Domestic RMB	Hong Kong and Macau RMB	International* RMB	Total RMB
2003				
Traffic revenue	13,087	808	3,070	16,965
Other operating revenue	436		69	505
Turnover	13,523	808	3,139	17,470
Operating income/(loss)	440	(29)	45	456
Depreciation and amortization	1,581	85	372	2,038

Significant non-cash items other than depreciation and amortization:

Impairment losses for trade and other receivables	12			12
---	----	--	--	----

Write-down of inventories			209	209

* Asian market accounted for approximately 70%, 67% and 74%,

respectively, of the Group's total international traffic revenue for the years ended December 31, 2003, 2004 and 2005. The remaining portion was mainly derived from the Group's flights to/from European, North American and Australian regions.

The major revenue-earning assets of the Group are its aircraft fleet, all are registered in the PRC. Since the Group's aircraft fleet is employed flexibly across its route network, there is no suitable basis of allocating such assets to geographic segments. Most of the Group's non-aircraft assets are located in the PRC.

39. MATERIAL NON-CASH TRANSACTIONS

During 2004, the Group acquired the airline operation and related assets of CNA and XJA at a total consideration of RMB15,522, which was partially satisfied by assumption of debts and liabilities of CNA and XJA totalling RMB13,563 outstanding as of December 31, 2004. Details are set out in Note 40.

During 2005, aircraft acquired under capital leases amounted to RMB6,938.

	The Group (without effect of CNA/XJA Acquisitions) RMB	Results of airline operations of CNA/XJA RMB	Combined RMB
Turnover	23,974	10,057	34,031
Income for the year	155	170	325

41. FINANCIAL INSTRUMENTS

Financial assets of the Group include cash and cash equivalents, other investments, trade receivables, other receivables, other current assets and amounts due from related companies. Financial liabilities of the Group include notes payable, obligations under capital leases, trade and bills payables, amounts due to related companies, taxes payable and other liabilities.

Liquidity risk

As at December 31, 2005, the Group's current liabilities exceeded its current assets by RMB25,907. For the year ended December 31, 2005, the Group recorded a net cash inflow from operating activities of RMB3,835, a net cash outflow from investing activities and financing activities of RMB4,017, and a decrease in cash and cash equivalents of RMB182.

In 2006 and thereafter, the liquidity of the Group is primarily dependent on its ability to maintain adequate cash inflow from operations to meet its debt obligations as they fall due, and on its ability to obtain adequate external finance to meet its committed future capital expenditures. The Group has obtained firm commitments from its principal bankers to renew its short-term notes payable outstanding at December 31, 2005 when they fall due during 2006. Subsequent to December 31, 2005, the Group renewed short-term notes payable outstanding of RMB2,611 (Notes 27). The directors of the Company believe that sufficient financing will be available to the Group.

The directors of the Company have carried out a detailed review of the cash flow forecast of the Group for the twelve months ending December 31, 2006. Based on such forecast, the directors have determined that adequate liquidity exists to finance the working capital and capital expenditure requirements of the Group during that period. In preparing the cash flow forecast, the directors have considered historical cash requirements of the Group as well as other key factors, including the availability of the above-mentioned loan finance which may impact the operations of the Group during the next twelve-month period. The directors are of the opinion that the assumptions and sensitivities which are included in the cash flow forecast are reasonable. However, as with all assumptions in regard to future events, these are subject to inherent limitations and uncertainties and some or all of these assumptions may not be realized.

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

Interest rate risk

The interest rates and maturity information of the Group's notes payable, and maturity information of the Group's capital leases obligations are disclosed in Notes 27 and 28, respectively.

Foreign currency risk

The Renminbi is not freely convertible into foreign currencies. All foreign exchange transactions involving Renminbi must take place either through the PBOC or other institutions authorized to buy and sell foreign exchange or at a swap center.

The Group currently maintains bank accounts in currencies other than the Renminbi to engage in foreign exchange transactions. The amount of foreign exchange that can be retained by the Group under this system is determined by the State Administration of Foreign Exchange (SAFE) based on the Group's expected payment obligations in foreign currencies for lease and debt payments and for dividends. Any amounts of foreign exchange that the Group receives in excess of such amount must be converted into Renminbi at the rate prevailing in the PRC inter-bank market. The Group will have access to foreign currency through the inter-bank system, subject to the approval of the SAFE, to satisfy its foreign exchange requirements where these exceed the amount of foreign exchange that the Group has retained.

The Group has significant exposure to foreign currency as substantially all of the Group's lease obligations and notes payable are denominated in foreign currencies, principally US dollars, and to a lesser extent, Japanese Yen. Depreciation or appreciation of the Renminbi against foreign currencies affects the Group's results significantly because the Group's foreign currency payments generally exceed its foreign currency receipts. The Group is not able to hedge its foreign currency exposure effectively other than by retaining its foreign currency denominated earnings and receipts to the extent permitted by the SAFE, or subject to certain restrictive conditions, entering into forward foreign exchange contracts with authorized PRC banks.

On July 21, 2005, the PBOC announced that the PRC government reformed the exchange rate regime by moving into a managed floating exchange rate regime based on market supply and demand with reference to a basket of foreign currencies. In particular, the exchange rate of US dollar against Renminbi was adjusted upward to 8.11 yuan per US dollar with effect from the close of business on July 21, 2005.

Credit risk

Substantially all of the Group's cash and cash equivalents are deposited with PRC financial institutions, which management believes are of high credit quality.

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

A significant portion of the Group's air tickets are sold by agents participating in the Billing and Settlement Plan (BSP), a clearing scheme between airlines and sales agents organized by International Air Transportation Association which has insignificant credit risk to the Group. As of December 31, 2004 and 2005, the balance due from BSP agents amounted to RMB411 and RMB782, respectively. The credit risk exposure to BSP and the remaining trade receivables balance has been monitored by the Group on an ongoing basis and the impairment losses for bad and doubtful accounts have been within management's expectations.

Fair value

(a) All financial instruments are carried at amounts not materially different from their fair values as of December 31, 2004 and 2005 except the following:

	December 31,			
	2004		2005	
	Carrying amount	Fair value	Carrying amount	Fair value
	RMB	RMB	RMB	RMB
Notes payable	23,453	23,665	28,963	28,989

The following methods and assumptions were used to estimate the fair value for each class of financial instrument:

- (i) *Cash and cash equivalents, short term investments, trade receivables, other receivables and other current assets. Obligation under capital leases, trade and bills payables, taxes payable and other liabilities.*

The carrying values approximate their fair values because of the short maturities of these instruments.

- (ii) *Notes payable*

The fair value has been estimated by applying a discounted cash flow approach using interest rates available to the Group for similar indebtedness.

- (iii) Fair value estimates are made at a specific point in time and based on relevant market information about the financial instruments. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

- (b) The economic characteristics of the Group's capital leases vary from lease to lease. It is impractical to compare such leases with those prevailing in the market within the constraints of timeliness and cost for the purpose of estimating the fair value of such leases.

(Amounts in millions, except share data)

At December 31, 2005, the Group had on order 82 aircraft and certain flight equipment, scheduled for deliveries in 2006 to 2010. Deposits of RMB6,351 million have been made towards the purchase of these aircraft and related equipment. As of December 31, 2005, the approximate total future payments, including estimated amounts for price escalation through anticipated delivery dates for these aircraft and flight equipment are as follows:

	2004 RMB	2005 RMB
2005	8,748	
2006	2,996	7,341
2007	32	8,945
2008		14,354
2009		5,300
2010		9,688
	11,776	45,628

At December 31, 2005, the Group's attributable share of the capital commitments of jointly controlled entities was as follows:

	2004 RMB	2005 RMB
Authorized and contracted for		
Authorized but not contracted for	156	74
	156	74

(b) Investing commitments

At December 31, 2005, the Group committed to make capital contributions in respect of:

	2004 RMB	2005 RMB
Subsidiaries	181	
Jointly controlled entities	83	83
	264	83

43. CONTINGENCIES

(a) Pursuant to the Reorganization of CSAHC effected in 1995 (Note 1), the Company assumed the airline and airline-related businesses together with the relevant assets and liabilities from CSAHC. The Company has been advised by its PRC lawyers that, except for liabilities constituting or arising out of or relating to the businesses assumed by the Company in the Reorganization, no other liabilities were assumed by the Company, and the Company is not jointly and severally liable for other debts and obligations incurred by CSAHC prior to the Reorganization. There are not, however, any definitive PRC regulations or other pronouncements confirming such conclusion.

(b) The Group leases from CSAHC certain land in Guangzhou and certain land and buildings in Wuhan and Haikou. The Group has a significant investment in buildings and other leasehold improvements located on such land. However, such land in Guangzhou and such land and buildings in Wuhan and Haikou lack adequate documentation evidencing CSAHC's rights thereto.

The Group cannot predict the magnitude of the effect on its financial condition or results of operations to the extent that their uses of one or more of the above parcels of land or the related facilities were successfully challenged. Pursuant to an indemnification agreement dated May 22, 1997 entered into between the Company and CSAHC, CSAHC has agreed to indemnify the Group against any loss or damage caused by any challenge or interference with the Group's use of any of its land and buildings.

44. SUBSEQUENT EVENT

From April 20, 2006 to May 31, 2006, the Group entered into additional new notes payable agreements totalling RMB3,808. These additional new notes payable are unsecured, bear interest at floating rates ranging from 6-month LIBOR + 53% to 55% per annum and repayable one year from their respective origination dates.

45. COMPARATIVE FIGURES

Certain comparative figures have been adjusted or re-classified as a result of the changes in accounting policies. Further details are disclosed in Note 3.

46. PARENT AND ULTIMATE HOLDING COMPANY

As of December 31, 2005, the directors of the Company consider the parent and ultimate holding company of the Group to be CSAHC, a state-owned enterprise established in the PRC. This entity does not produce financial statements available for public use.

47. ACCOUNTING ESTIMATES AND JUDGMENTS

The Group's financial position and results of operations are sensitive to accounting methods, assumptions and estimates that underlie the preparation of the financial statements. The Group bases the assumptions and estimates on historical experience and on various other assumptions that the Group believes to be reasonable and which form the basis for making judgments about matters that are not readily apparent from other sources. On an on-going basis, management evaluates its estimates. Actual results may differ from those estimates as facts, circumstances and conditions change.

The selection of critical accounting policies, the judgments and other uncertainties affecting application of those policies and the sensitivity of reported results to changes in condition and assumptions are factors to be considered when reviewing the financial statements. The principal accounting policies are set forth in Note 2. The Group believes the following critical accounting policies involve the most significant judgments and estimates used in the preparation of the financial statements.

Impairments

If circumstances indicate that the net book value of a long-lived asset may not be recoverable, this asset may be considered impaired, and an impairment loss may be recognized in accordance with IAS 36 Impairment of Assets. The carrying amounts of long-lived assets are reviewed periodically in order to assess whether the recoverable amounts have declined below the carrying amounts. These assets are tested for impairment whenever events or changes in circumstances indicate that their recorded carrying amounts may not be recoverable. When such a decline has occurred, the carrying amount is reduced to recoverable amount. The recoverable amount is the greater of the net selling price and the value in use. In determining the value in use, expected cash flows generated by the asset are discounted to their present value, which requires significant judgment relating to level of traffic revenue and amount of operating costs. The Group uses all readily available information in determining an amount that is a reasonable approximation of recoverable amount, including estimates based on a reasonable and supportable assumptions and projections of traffic revenue and amount of operating costs.

Depreciation

Property, plant and equipment are depreciated on a straight-line basis over the estimated useful lives, after taking into account the estimated residual value. The Group reviews the estimated useful lives of the assets regularly in order to determine the amount of depreciation expense to be recorded during any reporting period. The useful lives are based on the Group's historical experience with similar assets and taking into account anticipated technological changes. The depreciation expense for future periods is adjusted if there are significant changes from previous estimates.

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

Impairment loss for doubtful accounts

The Group maintains an impairment loss for doubtful accounts for estimated losses resulting from the inability of the debtors to make required payments. The Group bases the estimates of future cash flows on the ageing of the trade receivables balance, debtors' credit-worthiness, and historical write-off experience. If the financial condition of the debtors were to deteriorate, actual write-offs would be higher than estimated.

48. RECENTLY ISSUED ACCOUNTING STANDARDS

New standards and interpretations which are not yet effective for the accounting period ending December 31, 2005 and which have not been adopted in these consolidated financial statements are as follows:

IFRS 6, Exploration for and evaluation of mineral resources	Effective for accounting periods beginning on or after January 1, 2006
IFRS 7, Financial instruments: disclosure	January 1, 2007
IFRIC 4, Determining whether an arrangement contains a lease	January 1, 2006

The Group is in the process of making an assessment of what the impact of these amendments, new standards and new interpretations is expected to be in the period of initial application. So far it has concluded that the adoption of these amendments and new standards and new interpretations in future periods is unlikely to have a significant impact on the Group's results of operations and financial position.

(Amounts in millions, except share data)**

51. SIGNIFICANT DIFFERENCES BETWEEN IFRS AND U.S. GAAP

The Group's accounting policies conform with IFRSs which differ in certain significant respects from U.S. GAAP. Information relating to the nature and effect of such differences is set out below.

(a) CNA/XJA Acquisitions

As disclosed in Note 1 to the consolidated financial statements prepared under IFRSs, the Group acquired the airline operations and certain related assets and liabilities of CNA and XJA with effect from December 31, 2004. Under IFRSs, the purchase method of accounting was applied to such business combination such that at December 31, 2004 only the acquired assets and assumed liabilities are included in the consolidated financial statements of the Group. The results of the acquired operations and their related cash flows were included in the consolidated financial statement of the Group beginning January 1, 2005.

Under U.S. GAAP, such transaction is considered to be a combination of entities under common control. A combination of entities under common control is accounted for in a manner similar to a pooling-of-interests. Consequently, the assets and liabilities of CNA and XJA are reflected at their historical net asset carrying values and the U.S. GAAP consolidated financial statements of the Group are restated to include the historical carrying values of assets and liabilities of CNA and XJA, and their results of operations and cash flows for all the periods presented.

(b) Sale and leaseback accounting

Under IFRSs, gains on sale and leaseback transactions where the subsequent lease is an operating lease are recognized as income immediately, if the transactions are established at fair value. Differences between the sale price and fair value are deferred and amortized over the period for which the assets are expected to be used. Under U.S. GAAP, such gains are deferred and amortized over the term of the lease.

(c) Lease arrangements

As disclosed in Note 21 to the consolidated financial statements, during 2002 and 2003, the Group entered into two separate arrangements with certain independent third parties under which the Group sold aircraft and then immediately leased back the aircraft for a pre-determined period.

As a result of the Arrangements, the Group received a net cash benefit of RMB52 and RMB69 in 2002 and 2003, respectively, which were recognized as income under IFRSs. Under U.S. GAAP, such benefits are deferred and amortized over the minimum lease period.

In addition, under the lease arrangements, the commitments by the Group to make long-term lease payments are defeased by the placement of security deposits. As such, under IFRSs, such commitments and deposits are not recognized on the consolidated balance sheets. Under U.S. GAAP, such commitments and deposits amounting to RMB2,462 and RMB2,376 as of December 31, 2004 and 2005, respectively, would be recognized on the consolidated balance sheets, as such commitments are not deemed as extinguished by the placement of security deposits.

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

(d) Capitalized interest

Under IFRSs, the Group capitalizes interest costs to the extent the related borrowings are directly attributable to the acquisition or construction of an asset.

Under U.S. GAAP, interest costs capitalized are determined based on specific borrowings related to the acquisition or construction of an asset, if an entity's financing plans associate a specific new borrowing with a qualifying asset. If average accumulated expenditures for the asset exceed the amounts of specific new borrowings associated with the asset, additional interest costs capitalized are based on the weighted average interest rate applicable to other borrowings of the entity.

(e) Revaluation of property, plant and equipment

In connection with the Reorganization in 1996, the property, plant and equipment of the Group were revalued as of December 31, 1996 (see Notes 1 and 21 to the consolidated financial statements). Such revaluation resulted in an increase in shareholders' equity with respect to the increase in carrying amount of certain property, plant and equipment above their historical cost bases, while a charge to the consolidated statement of operations was recorded with respect to the reduction in carrying amount of certain property, plant and equipment below their historical cost bases. In addition, the revalued property, plant and equipment amounts serve as the tax bases of property, plant and equipment for years beginning in 1997. Accordingly, the revaluation eliminated certain of the temporary differences which gave rise to a deferred tax asset as of December 31, 1996. Such tax asset was offset against the revaluation surplus.

Under U.S. GAAP, property, plant and equipment are stated at their historical cost unless an impairment loss has been recorded. An impairment loss on property, plant and equipment is recorded under U.S. GAAP if the carrying amount of such asset exceeds its future undiscounted cash flows, excluding finance costs. The future undiscounted cash flows, excluding finance costs, of the Group's property, plant and equipment whose carrying amount was reduced in connection with the Reorganization, exceed their historical cost carrying amount and, therefore, impairment of such assets is not appropriate under U.S. GAAP. Accordingly, the revaluation reserve recorded directly to shareholders' equity and the charge recorded under IFRSs in 1996 and the additional depreciation charges recorded in the nine years ended December 31, 2005, as a result of the Reorganization are reversed for U.S. GAAP purposes.

However, as a result of the tax deductibility of the net revaluation reserve, a deferred tax asset related to the reversal of the net revaluation reserve is created under U.S. GAAP with a corresponding increase in shareholders' equity as of December 31, 1996. Such deferred tax asset will be reversed upon depreciation of the net revaluation surplus included in the property, plant and equipment beginning 1997.

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

(Amounts in millions, except share data)

(f) Investments in affiliated company and jointly controlled entity

During 2002, the Group invested in an affiliated company and a jointly controlled entity, which were PRC state-owned enterprises. Under IFRSs, such investments are initially recorded on a fair value basis at the cost of purchases borne by the Group. In the consolidated statements of operations, the equity share of results of the investees are measured based on the fair value of underlying net assets determined on the dates of acquisitions.

Under U.S. GAAP, such transactions are considered to be combinations of businesses under common control. Consequently, such investments are initially recorded at the Group's equity share of net assets of the investees determined on a historical cost basis. The differences between such amounts and the cost of purchases are reflected as movements in the shareholders' equity. In the consolidated statements of operations, the equity share of results of the investees are measured based on the historical cost basis.

(g) Provision for major overhauls

As disclosed in Notes 2(u) and 33 to the consolidated financial statements prepared under IFRS, in respect of aircraft held under operating leases, a provision is made over the lease term for the estimated cost of overhauls required to be performed on the related aircraft prior to their return to the lessors.

Under U.S. GAAP, a liability is recorded at the outset of the operating leases for the fair value of contractual obligations to perform the overhauls and a deferred asset is recorded for the corresponding amount, which is amortized over the term of the operating lease. The carrying amounts of such liability and asset amounted to approximately RMB749 and RMB390 respectively as of December 31, 2004 and RMB941 and RMB489 respectively as of December 31, 2005.

The effect of above difference on the net income/(loss) and shareholders' equity reported under U.S. GAAP was not material for the years presented.

(h) Classification of short-term obligations expected to be refinanced

As described in Note 27 to the consolidated financial statements prepared under IFRSs, the short-term notes payable included certain notes payable of RMB2,611 which were renewed subsequent to December 31, 2005. The maturity dates of these notes payable are extended for twelve months to after December 31, 2006.

Under U.S. GAAP, such short-term obligations which were refinanced on a long-term basis after the balance sheet date but before issuance of financial statements are classified as non-current liabilities. Consequently, under U.S. GAAP, short-term notes payable and consolidated current liabilities would be RMB18,834 and RMB35,739, respectively, at December 31, 2005.

F-82

Table of Contents

**CHINA SOUTHERN AIRLINES COMPANY LIMITED
AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

(i) Financial statements presentation and disclosure**(i) Gain/(loss) on sale of property, plant and equipment**

In the consolidated statements of operations presented under IFRSs, gain/(loss) on sale of property, plant and equipment is classified under Non-operating income/(expenses). Under U.S. GAAP, such gain/(loss) is classified under Operating income/(expenses) General and administrative.

(ii) Presentation of dividends received in the consolidated statements of cash flows

In the consolidated statements of cash flows presented under IFRSs, dividends received are classified within investing activities. Under U.S. GAAP, such dividends received are classified within operating activities.

(iii) Deferred tax assets/liabilities

As disclosed in Note 25 to the consolidated financial statements, deferred tax assets are presented on a net basis under IFRSs. Under U.S. GAAP, the gross amounts of such deferred tax assets and any applicable valuation allowances are separately disclosed.

In addition, deferred tax liabilities and assets should be classified as non-current when a classified balance sheet is presented under IFRSs. Under U.S. GAAP, an enterprise shall separate deferred tax liabilities and assets into a current amount and a non-current amount based on the classification of the related asset or liability for financial reporting.

The U.S. GAAP presentation of deferred tax assets/(liabilities) as of December 31, 2004 and 2005 are as follows:

	December 31,	
	2004	2005
	RMB	RMB
Deferred tax assets:		
Tax losses	92	347
Repair charges capitalized	254	275
Accrued expenses	275	175
Others	21	29
Total deferred tax assets	642	826
Less: valuation allowance	(53)	(188)
	589	638
Deferred tax liabilities:		
Accrued expenses	75	58
Depreciation allowances in excess of the related depreciation	752	832
Others	49	16
Total deferred tax liabilities	876	906
	(287)	(268)

Representing:

Deferred tax assets	current portion	161	61
Deferred tax assets	non-current portion	428	577
Deferred tax liabilities	current portion	(75)	(58)
Deferred tax liabilities	non-current portion	(801)	(848)
		(287)	(268)

The valuation allowance was RMB48 as of January 1, 2003. During the years ended December 31, 2003, 2004 and 2005, the valuation allowance increased by RMB5, RMBNil and RMB135, respectively.

(iv) Minority interests

Under IFRS, minority interests at the balance sheet date are presented in the consolidated balance sheet within equity, separately from the equity attributable to the equity shareholders of the Company, and minority interests in the results of the Group for the year are presented in the consolidated statement of operations as an allocation of the total net income for the year between the minority interests and the equity shareholders of the Company. Under US GAAP, minority interests at the balance sheet date are presented in the consolidated balance sheet either as liabilities or separately from liabilities and equity. Minority interests in the results of the Group for the year are also separately presented in the consolidated statement of operations as a component of net income.

(v) Share of taxation of affiliated companies and jointly controlled entities

During the years ended December 31, 2003 and 2004, the Group's share of taxation of affiliated companies and jointly controlled entities accounted for using the equity method was included as part of the Group's income tax in the consolidated statements of operations under both IFRS and U.S. GAAP. As discussed in Note 3, with effect from January 1, 2005, the Group has changed the presentation and includes the share of taxation of affiliated companies and jointly controlled entities accounted for using the equity method in the respective shares of income or loss reported in the consolidated statements of operations before arriving at the Group's income or loss before tax. These changes in presentation have been applied retrospectively with comparatives restated for both IFRS and U.S. GAAP.

Income tax (benefit)/expense under U.S. GAAP for the years ended December 31, 2003 and 2004 have been restated as follows:

	2003	2004
	RMB	RMB
Income tax (benefit)/expense as previously reported under U.S. GAAP	(526)	274
Reclassification for share of taxation of affiliated companies and jointly controlled entities	(10)	(13)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

(Amounts in millions, except share data)

The Group has changed the presentation and includes the share of taxation of affiliated companies and jointly controlled entities accounted for using the equity method in the respective shares of income or loss reported in the consolidated statements of operations before arriving at the Group's income or loss before tax. These changes in presentation have been applied retrospectively with comparatives restated for both IFRS and U.S. GAAP. Further details are set out in Note 3 and Note 51(i).

Condensed consolidated statements of cash flows

The Group applies IAS 7 Cash Flow Statements. Its objectives and principles are similar to those set out in Statement of Financial Accounting Standards No. 95, Statement of Cash Flows (SFAS 95) for U.S. GAAP. The principal differences between the standards relate to classification. Dividend received classified as investing activities under IAS 7 are classified as operating activities under SFAS 95. Summarized cash flows data by operating, investing and financing activities in accordance with SFAS 95 are as follows:

	2003	2004
	RMB	RMB
Net cash inflow/(outflow) from		
Operating activities	2,965	5,419
Investing activities	(7,558)	(9,507)
Financing activities	2,820	4,172
(Decrease)/increase in cash and cash equivalents	(1,773)	84
Cash and cash equivalents at January 1	4,772	2,999
Cash and cash equivalents at December 31	2,999	3,083

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Amounts in millions, except share data)**

Notes:

- (a) In connection with the CNA/XJA Acquisitions, certain assets and liabilities of CNA and XJA which were not to be acquired by the Company were transferred to CSAHC, the owner of CNA and XJA during 2003 and 2004.
- (b) In connection with the CNA/XJA Acquisitions, the property, plant and equipment of CNA and XJA were revalued as of December 31, 2003 according to the relevant PRC rules and regulations. The revalued amount serves as the tax base for future years. Such revaluation is not recorded under U.S. GAAP. However, a deferred tax asset is recognized for the tax deductibility of the resulting net revaluation surpluses with a corresponding credit to the equity under U.S. GAAP.
- (c) As a result of the CNA/XJA Acquisitions, the tax losses attributable to the airline operations of CNA and XJA are no longer available for utilization against future taxable income of such operations. Accordingly, the deferred tax assets arising from such tax losses and related valuation allowance was eliminated against equity.

Related party transactions

In addition to the related party transactions disclosed in Note 36, the Group and the airline operations of CNA and XJA had entered into the following material related party transactions.

- (a) For the years ended December 31, 2003 and 2004, repairing charges of RMB701 and RMB1,159, respectively, was incurred by the Group and the airline operations of CNA and XJA in connection with aircraft repair and maintenance services rendered by GAMECO and MTU Zhuhai. GAMECO and MTU Zhuhai are jointly controlled entities of the Company.
- (b) Operating lease charges of RMB15 and RMB82, respectively, were paid by the Group and the airline operations of CNA and XJA to CSAHC under lease arrangement for certain land and buildings in the PRC for the years ended December 31, 2003 and 2004.
- (c) Aircraft lease income of RMBNil and RMB111, respectively, for the years ended December 31, 2003 and 2004, represents rental receivables in respect of short term leasing of aircraft by the Group and the airline operations of CNA and XJA to certain airlines controlled by the CSAHC.

Post-retirement benefit

Employees of the Group and the airline operations of CNA and XJA participate in several defined contribution retirement schemes organized separately by PRC municipal governments in regions where the major operations of the Group and the airline operations of CNA and XJA are located. The Group and the airline operations of CNA and XJA are required to contribute to these schemes at the rates ranging from 14% to 20% of salary costs including certain allowances. A member of the retirement schemes is entitled to pension benefits equal to a fixed proportion of the salary at the retirement date. The retirement benefit obligations of all the existing and future retired staff are assumed by these schemes. Contributions to the retirement schemes are charged to consolidated statements of operations as and when incurred. Contributions to the retirement schemes amounted to RMB231 and RMB243, respectively, during 2003 and 2004.
