Annual General Meeting 2004: ALTANA reports on a successful business year in 2003 and promising prospects for the future

Dividend increases by 11% to 0.83

Frankfurt/Bad Homburg, May 5, 2004 Shareholders of ALTANA AG (NYSE: AAA, FSE: ALT) approved all proposals made by the Management and Supervisory Boards at today's Annual General Meeting in Frankfurt. These include the payment of a dividend of 0.83 per share, an 11% increase on the previous year's 0.75. This brings the total dividend amount to 117 million (2002: 105 million).

This, the eighth consecutive double-digit dividend increase, underlines our commitment to sustained value enhancement for our shareholders and our traditionally shareholder-friendly dividend and distribution policy said Dr. Nikolaus Schweickart, Chairman of the Management Board.

In his speech, Dr. Nikolaus Schweickart reported to the shareholders on a successful business year in 2003. As a highly internationalized company, ALTANA succeeded in sustaining its upwards trend, now unbroken for almost a decade, in all the key operating indicators in spite of a significantly weak dollar. This makes ALTANA one of Germany's top performers. ALTANA plans to accelerate the pace of innovation and investment over the next few years in order to further enhance future profitability. Investment in property, plant, equipment and intangible assets will therefore total around 750 million in the period 2004 to 2006, whilst the research budget will amount to about 1.5 billion. As in past years, the company will also continue to create jobs in Germany and abroad.
