Director Nomination

General. The Board does not have a nominating committee. The functions of the nominating committee are performed by a majority of the independent directors who consider candidates for Board membership suggested by Board members, as well as management and stockholders and make recommendations for the Board's selection. The Board may also retain a third-party executive search firm from time to time if it believes such engagement is advisable in order to identify suitable candidates.

Stockholder Nominees. A stockholder who wishes to recommend a prospective nominee for the Board should notify any independent director in writing with whatever supporting material the stockholder considers appropriate, including (a) all information relating to such nominee that is required to be disclosed pursuant to Regulation 14A under the Securities Exchange Act of 1934 (including such person's written consent to being named in the Company's proxy statement for its annual meeting of stockholders as a nominee and to serving as a director (if elected)); (b) the names and addresses of the stockholders making the nomination and the number of shares of the Company's Common Stock which are owned beneficially and of record by such stockholders; and (c) appropriate biographical information and a statement as to the qualification of the nominee. A stockholder nomination should be submitted in the timeframe described in the Bylaws of the Company.

Process for Identifying and Evaluating Nominees. Once the independent directors have identified a prospective nominee, the Board makes an initial determination as to whether to conduct a full evaluation of the candidate. This initial determination is based on the information provided to the Board with the recommendation of the prospective candidate, as well as the Board's own knowledge of the prospective candidate, which may be supplemented by inquiries to the person making the recommendation or others. The preliminary determination is based primarily on the need for additional Board members to fill vacancies or to expand the size of the Board and the likelihood that the prospective nominee can satisfy the evaluation factors described below. If the Board determines, in consultation with the independent directors and other Board members as appropriate, that additional consideration is warranted, it may request a third-party search firm to gather additional information about the prospective nominee's background and experience and to report its findings to the Board. The Board then evaluates the prospective nominee against the following standards and qualifications, including:

the extent to which the prospective nominee contributes to the range of talent, skill and expertise appropriate for the Board;

the prospective nominee's ability to dedicate sufficient time, energy and attention to the diligent performance of his or her duties, including the prospective nominee's service on other public company boards;

the prospective nominee's standards of integrity, commitment and independence of thought and judgment; and

the extent to which the prospective nominee helps the Board reflect the diversity of the Company's stockholders, employees, customers and communities in which the Company operates.

The Board also considers such other relevant factors as it deems appropriate, including the current composition of the Board, the balance of management and independent directors, the need for Audit Committee and technical expertise and the evaluations of other prospective nominees. In connection with this evaluation, the Board determines whether to interview the prospective nominee, and will conduct an interview, if warranted, with one or more members of the Board, and others, including members of management, as appropriate. After completing this evaluation and interview, the Board determines the nominees after considering the recommendations and views of the directors and others as appropriate. The Board has adopted resolutions addressing the nominations process and such related matters as may be required under U.S. federal securities laws and the rules of The American Stock Exchange, Inc (the AMEX) and the Oslo Stock Exchange. A copy of the resolutions is available on the Company's website (www.canargo.com).

Table of Contents

To date, the Company has never received a proposal from a stockholder to nominate a director. Although the Company has not adopted a formal policy with respect to stockholder nominees, the directors expect that the evaluation process for a stockholder nominee would be similar to the process outlined above.

Process for Determining which Directors are Considered Independent. On April 21, 2004, the Company's Common Stock began trading on the AMEX. In connection with its Common Stock listing, the Company became subject to the listing standards adopted by the AMEX. The full text of the AMEX requirements can be found on its website (www.amex.com).

Pursuant to AMEX and Securities and Exchange Commission (SEC) requirements, the Board undertook its annual review of director independence in April 2008. During this review, the Board considered transactions and relationships between each director or any member of his immediate family and the Company and its subsidiaries and affiliates, including those reported under *Certain Relationships and Related Transactions* below. The Board also examined transactions and relationships between directors or their affiliates and members of the Company's senior management or their affiliates. As provided in the AMEX and SEC requirements, the purpose of this review was to determine whether any such relationships or transactions were inconsistent with a determination that the director is independent.

As a result of this review, the Board affirmatively determined that, other than Vincent McDonnell and Jeffrey Wilkins, all of the directors nominated for election at the Annual Meeting are independent of the Company and its management under the standards set forth in the requirements of the AMEX and the SEC. In addition, as further required by the AMEX listing standards, the Board has made an affirmative determination as to each independent director that no material relationships exist between any non-employee director and the Company which, in the opinion of the Board, would interfere with the exercise of their independent judgment. Vincent McDonnell and Jeffrey Wilkins are considered inside directors because of their role as senior executives of the Company. We provide additional information regarding Mr. Hammond under *Certain Relationships and Related Transactions* below.

ITEM 11. EXECUTIVE COMPENSATION.

Compensation Discussion and Analysis

The purpose of this Compensation Discussion and Analysis is to provide information about the Company's philosophy, objectives and processes regarding compensation for the named executive officers of the Company. It explains how the Compensation Committee makes executive compensation decisions and the reasoning behind the decisions that are made. For fiscal year 2007, we had the following four named executive officers:

Vincent McDonnell President and Chief Executive Officer effective June 27, 2007 and Chief Operating Officer and Chief Commercial Officer and Director;

David Robson Chairman and former Chief Executive Officer who stepped down as Chief Executive Officer on June 27, 2007 and former Director. Dr. Robson became Chairman and a non-employee Director effective June 27, 2007;

Jeffrey Wilkins Chief Financial Officer and Director effective September 24, 2007; and

Elizabeth Landles Corporate Secretary and former Executive Vice President who stepped down as Executive Vice President effective September 22, 2007.

Table of Contents

Effective February 11, 2008, Elizabeth Landles resigned from her position as Corporate Secretary and Jeffrey Wilkins was simultaneously appointed Corporate Secretary. The Company therefore currently has two named executive officers, Mr. McDonnell and Mr. Wilkins.

Executive Summary

The following provides a brief overview of the more detailed disclosure set forth in this Compensation Discussion and Analysis.

The objective of our compensation program is to align the interests of our executives with those of our shareholders, to motivate executives to achieve business goals set by the Company, to pay for performance and to recruit, retain, and motivate talented executives.

All compensation decisions regarding our chief executive officer are made by the Board after the Board first considers the recommendation of the Compensation Committee. All compensation decisions for our other named executive officers are made by the Compensation Committee.

The Compensation Committee reviews peer group data as part of its process in determining compensation recommendations for the named executive officers.

The Compensation Committee applies a degree of discretion as part of its process in determining compensation recommendations.

The Company provides our executive officers with the following types of compensation: base salary, long-term incentives and other personal benefits.

The market price for our common stock decreased significantly during fiscal year 2007. This negatively impacted the value of our executives' accumulated equity-based incentives during fiscal year 2007.

Each of our named executive officers has an employment service agreement or provided services under a management services agreement.

Compensation Committee

The Compensation Committee had two members up to September 24, 2007, when one member resigned, and one member thereafter. The Compensation Committee met four times during fiscal year 2007. The Compensation Committee is comprised solely of non-employee Directors, all of whom the Board has determined are independent pursuant to AMEX rules. A charter for the Compensation Committee has been compiled although this charter is currently subject to internal review and has not been formally adopted by the Board in the last three fiscal years.

The Compensation Committee is responsible for setting and administering policies that govern the Company's executive compensation programs, including stock compensation plans, although these policies are in the process of internal review and have not been formally adopted by the Board. The Compensation Committee's responsibilities include, among other duties, the responsibility to:

establish the base salary, incentive compensation and any other compensation for the Company's elected and appointed executive officers;

exercise oversight with respect to and to supervise the compensation scheme for the other employees of the company;

administer and grant awards under any stock option plan adopted by the Board;

administer and grant awards under the Corporation's securities compensation plan adopted August 16, 1995 by a predecessor by merger to this Corporation;

recommend to the Board any additional compensation, retirement or other employee benefit plan;
and

perform other functions or duties deemed appropriate by the Board.

Compensation decisions for all four named executive officers of the Company, which included the Chairman of the Board and Chief Executive Officer up until June 27, 2007 and the Chief Executive Officer thereafter, are made by the Compensation Committee.

Table of Contents

The agenda for meetings of the Committee is determined by the Chairman of the Compensation Committee with the assistance of the Chairman of the Board and Chief Executive Officer up until June 27, 2007 and the Chief Executive Officer thereafter. Compensation Committee meetings were regularly attended by the Chairman of the Board and Chief Executive Officer up to June 27, 2007 and the Chief Executive Officer thereafter. The Compensation Committee's Chairman reports the Committee's recommendations on executive compensation to the Board. The Chairman of the Board and Chief Executive Officer up to June 27, 2007 and the Chief Executive Officer thereafter may be delegated authority to fulfill certain administrative duties regarding the compensation programs. The Compensation Committee, under its proposed charter, has authority to retain, approve fees for and terminate advisors, consultants and agents as it deems necessary to assist in the fulfillment of its responsibilities although during fiscal year 2007 it did not seek external assistance.

Role of Executive Officers in Compensation Decisions

The Compensation Committee makes all compensation decisions for all executive officers of the Company and approves recommendations regarding both equity and non-equity compensation. The Chairman of the Board and Chief Executive Officer up to June 27, 2007 and the Chief Executive Officer thereafter regularly attends meetings of the Compensation Committee. The Chairman of the Board and Chief Executive Officer up to June 27, 2007 and the Chief Executive Officer thereafter annually reviews the performance of each executive officer (other than the Chairman of Board and Chief Executive Officer up to June 27, 2007 and the Chief Executive Officer thereafter whose performance is reviewed by the Committee). The conclusions reached and recommendations based on these reviews, including with respect to salary adjustments and annual award amounts, are presented to the Committee. The Committee can exercise its discretion in adopting or modifying any recommendations or awards to executive officers.

Employment Agreements with the Named Executive Officers

We have entered into written employment agreements with our named executive officers. A number of the elements of compensation, such as initial base salary and other personal benefits, are specified in the agreements. For a description of these agreements, see the section entitled, "Employment Agreements and Other Arrangements," below.

Setting Executive Compensation

Based on the foregoing objectives, the Compensation Committee has structured the Company's annual and long-term incentive based executive compensation to motivate executives to achieve business goals set by the Company. In furtherance of this, the Compensation Committee reviews data from annual reports and proxy statements issued by competitors to assess the Company's competitive position with respect to the following three components of executive compensation:

base salary;

short-term incentives; and

long-term incentives.

In making compensation decisions, the Committee reviews each element of total compensation against a peer group of publicly traded oil and gas companies. This peer group, which is periodically reviewed and updated by the Compensation Committee, consists of companies that the Committee believes are of similar size and stature to CanArgo Energy Corporation in terms of geographical operating environment and industry profile. The information derived from the peer group provides an indication of what executives might command from companies operating in a similar environment to that of CanArgo Energy Corporation. The companies comprising the peer group are as follows:

JKX Oil and Gas plc;

Revus Energeiry AS; and

Lundin Petroleum.

Table of Contents

The Compensation Committee does not target a specific percentile in the range of comparative data for each individual executive or for each component of compensation. Instead, the Compensation Committee structures a total compensation package in view of the comparative data and such other factors specific to the executive, including level of responsibility, prior experience and expectations of future performance. The Compensation Committee uses peer group data and also information contained from a review of a wider selection of publicly available annual reports for oil and gas companies to test for reasonableness and competitiveness of its compensation package as a whole, but exercises subjective judgment in allocating compensation among executives and within each individual's total compensation package.

2007 Compensation Committee Activity

The Compensation Committee met four times during fiscal year 2007. The Chairman of the Board and Chief Executive Officer up to June 27, 2007 and the Chief Executive Officer thereafter attended all four meetings to provide their recommendations in respect of various elements of compensation to named officers reporting to them. During 2007, the Compensation Committee reviewed and recommended, for each named officer, the level of compensation for each individual executive compensation component. The Compensation Committee did not adopt any new compensation plans or programs during the year nor did it introduce any new compensation policies during the year. The Company is in the process of developing its general compensation policies and to date no general policy has been adopted by the Board. However, terms and conditions relating to each named officer are contained in their specific service agreements. All named officer service agreements are publicly available through previous SEC filings.

2007 Executive Compensation Components

For the fiscal year ended December 31, 2007, the principal components of compensation for named officers were:
base salary;

long-term incentive compensation; and

other personal benefits.

Base Salary

Base salaries for executives were determined based upon job responsibilities, level of experience, individual performance, comparisons to the salaries of executives in similar positions obtained from competitive data from the peer group and also information contained from a review of a wider selection of publicly available annual reports for oil and gas companies. The goal for the base pay component is to compensate executives at a level which approximates the median salaries of individuals in comparable positions with comparable companies in the oil and gas industry. The Compensation Committee approves all salary increases for executive officers.

During the course of fiscal year 2007, the Compensation Committee approved base salary increases as follows:

	Annual Base Salary as at 31, December 2006 £	Annual Base Salary as at 31, December 2007 £	Annual Base Salary as at 1, April 2008 £
Vincent McDonell (1)	180,000	195,000	195,000
David Robson (2)	225,000	Not applicable	Not applicable
Jeffrey Wilkins (3)	120,000	130,000	130,000
Elizabeth Landles (3)	105,000	30,000	Not applicable

Table of Contents

- (1) In 2007, Mr. McDonnell was appointed Chief Executive Officer, effective June 27, 2007 in addition to his duties as President, Chief Operating Officer, Chief Commercial Officer and Director. In connection with this appointment Mr. McDonnell's salary was increased from £180,000 to £195,000.

- (2) Dr. Robson stepped down from the position of Chief Executive Officer and employee Director effective June 27, 2007. Dr. Robson resigned as a Director effective February 7, 2008.

- (3) In September 2007, Mr. Wilkins was appointed Director in addition to his duties as Chief Financial Officer. In connection with this appointment Mr. Wilkins's

salary was increased from £120,000 to £130,000.

- (4) Ms. Landles stepped down from the position of Executive Vice President effective September 22, 2007. Following the spin out of the Company's former subsidiary Tethys Petroleum Limited onto the Toronto Stock Exchange (TSX) on June 27, 2007, Ms. Landles devoted 30% of her time to the Corporate Secretary position. Ms. Landles salary was reduced from £105,000 to £30,000 to reflect these changes in responsibility. Ms. Landles resigned from her position as Corporate Secretary effective February 11, 2008.

Long-Term Incentive Compensation

The Compensation Committee has structured long-term incentive compensation to provide for an appropriate balance between rewarding performance and encouraging employee retention. Long-term incentives are granted primarily in the form of stock options. The purpose of stock options is to align compensation directly with increases in shareholder value. The number of options granted is determined by reviewing competitive data from the peer group and also information contained from a review of a wider selection of publicly available annual reports for oil and gas companies to determine the compensation made to other executives and management employees in comparable positions with comparable companies in the oil and gas sector. In determining the number of options to be awarded, the Compensation Committee also considers the grant recipient's qualitative and quantitative performance, the size of

stock option awards in the past, and expectations of the grant recipient's future performance.

During 2007, stock options were awarded to one named officer from the Company's 2004 Long Term Stock Incentive Plan (2004 Plan) in recognition of being appointed Director of the Company during the year. See the additional information regarding such grants appearing elsewhere in this Report. No stock options were awarded to the Chairman of the Board and Chief Executive Officer up to June 27, 2007 and the Chief Executive Officer thereafter. Stock options are granted at a price determined by the Committee, but not less than 100% of the fair market value of the stock on the date of the grant of the option. The Committee determined the price of granted options during the year at a 5% premium to the average price calculated over three days of the AMEX's closing price of the Company's common stock prior to the date of grant. The Committee did not and has never granted options with an exercise price that is less than the closing price of the Company's common stock on the grant date. Options granted by the Committee during 2007 have a term of 7 years from date of issue and vest 1/3 for each year over 3 years beginning immediately. Vesting and exercise rights cease three months after termination of employment except in the case of death, retirement or permanent disability.

The market price for our common stock decreased significantly during the fiscal year 2007. This negatively impacted the value of our executives' accumulated equity-based incentives during the fiscal year 2007.

Other Personal Benefits:

The Company provided named officers with the following other personal benefits that the Company and the Committee believe are reasonable and consistent with its overall compensation program to better enable the Company to attract and retain superior employees for key positions. The Committee periodically reviews the levels of other personal benefits provided to named officers.

For each of the named officers, including the Chairman of the Board and Chief Executive Officer up to June 27, 2007 and the Chief Executive Officer thereafter, the Company makes a monthly contribution of 9% of base salary to the named officer's individual personal pension plans, schemes or arrangements. Additionally, each named officer is provided with life assurance with death coverage of four times their annual salary, permanent

health, critical illness; income protection and family healthcare insurance. The Company does not maintain or sponsor any Company pension plans.

Potential Payments upon Termination or Change of Control

We believe that the interests of shareholders are best served if the interests of our senior management are aligned with them, and that the change of control arrangements for our named executive officers create incentives for our executive team to build stockholder value and to obtain the highest value possible should there be a possibility of our being acquired in the future, despite the risk that the acquisition could result in the executives losing their jobs.

The tables below reflect the amount of compensation to each of the named executive officers of the Company in the event of termination of such executive's employment. The amount of compensation payable to each named executive officer upon voluntary termination, retirement, involuntary not-for-cause termination, for cause termination, termination following a change of control and in the event of disability or death of the executive is shown below. The amounts shown assume that such termination was effective as of December 31, 2007, and thus includes amounts earned through such time and are estimates of the amounts which would be paid out to the executives upon their termination. The actual amounts to be paid out can only be determined at the time of executive's separation from the Company.

Payments Made Upon Termination

Regardless of the manner in which a named executive officer's employment terminates, he may be entitled to receive amounts earned during his term of employment under the terms of the Company's stock based compensation plans.

Payments Made Upon Retirement

In the event of the retirement of a named executive officer, he or she may be entitled to receive amounts earned during his term of employment under the terms of the Company's stock based compensation plans. The Company does not maintain or sponsor any pension or retirement plans for executives. Instead, the Company makes a monthly contribution of 9% of base salary to the named officer's individual personal pension plans, schemes or arrangements.

Payments Made Upon Death or Disability

In the event of the death or disability of a named executive officer, in addition to the benefits listed under the headings *Payments Made Upon Termination* and *Payments Made Upon Retirement* above, the named executive officer will receive benefits under the Company's life insurance plan, critical illness coverage or income protection plan, as appropriate.

Payments Made Upon Change of Control

As our named executive officers have all received awards under the Plan, all options issued under the 2004 Plan contain provisions whereby the award recipient may put back those option shares for cash, equal to the intrinsic value of the option shares on the date of exercise, to the Company in the event of a change of control, as defined in the 2004 Plan. The following table presents the 2004 Plan options held by our directors and executive officers and their intrinsic value as of December 31, 2007, which amounts are reflected in Column (f) of the succeeding Table for the named officers:

Tax and Accounting Implications*Compliance with Section 162(m) of the Internal Revenue Code*

Under Section 162(m) of the United States Internal Revenue Code of 1986, as amended, the Company may not deduct annual compensation in excess of \$1 million paid to certain employees; generally its Chief Executive Officer and its four other most highly compensated executive officers, unless that compensation qualifies as performance-based compensation. While the Compensation Committee intends to structure performance-related awards in a way that will preserve the maximum deductibility of compensation awards, the Compensation Committee may from time to time approve awards which would vest upon the passage of time or other compensation which would not result in qualification of those awards as performance-based compensation. It is not anticipated that compensation realized by any executive officer under the Company's plans and programs now in effect will result in a material loss of tax deductions.

Accounting for Stock-Based Compensation

For the year ended December 31, 2007 the Company accounted for its stock option program in accordance with the requirements of FASB 123 (Revised).

Mr. Russ Hammond, a non-employee director of the Company, is also an Investment Advisor to Provincial Securities Limited who became a minority shareholder in the Norio and North Kumisi (Block XI^c) Production Sharing Agreement through a farm-in agreement to the Norio MK72 well. On September 4, 2003 the Company concluded a deal to purchase Provincial Securities Limited's minority interest in CanArgo Norio Ltd. by a share swap for shares in the Company. The purchase was achieved by issuing 6 million restricted shares of common stock in the Company to the minority interest holders in CanArgo Norio Ltd. Of the interests in CanArgo Norio Ltd., Provincial Securities Limited owned 4% and received 2,234,719 shares of the Company's common stock.

Provincial Securities Limited also had an interest in Tethys Petroleum Limited (formerly named Tethys Petroleum Investments Limited) (Tethys), a Guernsey company, established to develop potential projects in Kazakhstan, in which the Company had a minority interest until June 2005 when the Company acquired the remaining 55% interest in Tethys which it did not own. Pursuant to this transaction, Provincial Securities Limited received 5,500,000 shares of the Company's common stock in exchange for its interest in Tethys. Mr. Hammond did not receive any compensation in connection with these transactions and disclaims any beneficial ownership of Provincial Securities Limited or of any shares of the Company's common stock owned by Provincial Securities Limited. In August 2007, the Company disposed of its interest in Tethys. Mr. Julian Hammond, Mr. Hammond's son, was employed as a Vice-President of Tethys, at an annual salary of £96,000 Pounds Sterling (£) and was awarded an aggregate of 190,000 options to purchase shares of common stock under the Company's Stock Option Plans at a weighted average exercise price of \$0.82. Mr. Hammond disclaims ownership of his son's shares.

Transactions with affiliates or other related parties including management of affiliates are to be undertaken on the same basis as third party arms-length transactions. The Company is in the process of reviewing its policy with respect to the review, approval or ratification of related person transactions and to date a formal policy has not been adopted by the Board. However, the Company follows the rules adopted by the AMEX in respect of related party transactions and is annually required to review related person transactions. Further, on an annual basis, each Director and executive officer is obligated to complete a Director and Officer Questionnaire which requires disclosure of any transaction with the Company in which the Director and executive officer, or any member of his or her immediate family, have a direct or indirect material interest.
