Management's Discussion and Analysis of Financial Condition and Results of Operations

Special Note on Forward-Looking Statements

Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended, provide a safe harbor for certain forward-looking statements. This quarterly report contains statements that are forward-looking. Forward looking statements include those which are not historical facts, including without limitation statements about management's expectations for any period beyond the fiscal quarter ended March 31, 2003. Words such as "expect", "anticipate", "believe", "intend" and "estimate" and similar expressions are examples of words which identify forward looking statements. While these statements reflect the Company's beliefs as of the date of this report, they are subject to assumptions, uncertainties and risks that could cause actual results to differ materially and adversely from the results contemplated, forecast or estimated in the forward-looking statements included in this report. These factors include, but are not necessarily limited to, the impact of competitive products, the acceptance of new products or product lines in the marketplace, the Company's ability to manage growth, the availability of an adequate workforce and changes in market conditions.

Results of Operations. For the period ending March 31, 2003 as compared with the period ending March 31, 2002.

Product sales increased \$313,786 or 8%. The Company's loss of revenues in connection with Kmart Corporation's bankruptcy in the first quarter of 2002 was regained through revenues of approximately \$589,000 from Kmart Corporation in the first quarter of 2003.

Gross profit increased \$28,282. As a percentage of sales gross profit decreased from 40% to 38%, which can be attributed to higher cost of raw materials. The higher costs of raw materials are primarily as a result of a change in product mix where products were sold at a lower profit.

Selling and marketing increased \$186,123. An increase in Bad Debt Expense for non-reoccurring write offs of uncollectible receivables in the amount of \$261,000 was partially offset by decreases in Advertising and Sales Commissions.

General and administrative expenses increased \$152,724. Salaries increased approximately \$90,000 due in large part to additional staffing; Legal fees increased approximately \$25,000; Research and Development increased approximately \$16,000; and the remainder can be substantially attributed to modest increases in insurance, dues and subscriptions, office expenses, and travel.

Net income decreased by \$220,218, or 59% as explained by the above activities. As a percentage of sales, Net Operating Income, which excludes Interest, Other Income and Income taxes, decreased from 14% to 5%.

Liquidity and Capital Resources. Balance Sheet as of March 31, 2003 Compared to December 31, 2002.

At March 31, 2003, the Company had \$2,202,817 of cash and its current ratio was approximately 4 to 1. The Company believes its current capital resources are

Edgar Filing: ORALABS HOLDING CORP - Form 10QSB

sufficient to fund operations for the next twelve months.

Net cash used in operating activities in the amount of \$428,363 consists of the following:

Accounts Receivable increased \$731,922. The increase is from a combination of increased revenues and extended terms of payment for a customer that had purchases of approximately \$589,000 during the first quarter of 2003.

Prepaid Expense increased \$92,529. This increase is substantially from prepaid insurance premiums of approximately \$100,000.

Deposits increased \$100,032. The increase is substantially due to a deposit on raw materials that will subsequently be used to pay for the raw materials when received in the second quarter of 2003.

Accrued Liabilities increased \$135,853. Accrued payroll increased approximately \$71,000 due to timing of check disbursement. Reserves for commissions increased \$63,000 as it relates to increased receivables.

Reserve for returns decreased \$141,473. The Company made a specific allowance in the amount of \$150,000 in the fourth quarter of 2002. These products were returned in the first quarter of 2003, which was absorbed by the specific allowance, taking the reserve for returns back to 2.75% of revenues.

Income taxes payable increased \$85,820. This is due to timing differences of income tax payments to be made.

Retained earnings increased \$150,653 as a result of net income.

8

Trends. Lip balm revenues increased to \$3,422,105 in the first quarter of 2003 as compared to \$3,103,684 in the first quarter of 2002, or a 10% increase. Decreased lip balm revenues related to Kmart Corporation's bankruptcy in the first quarter of 2002 were substantially regained in the first quarter of 2003. The Company anticipates slowed sales and increased expenses late in the second quarter or in the third quarter as operations are planned to move to a larger and better equipped facility, which will afford the Company an opportunity to better serve existing customers and provide the capacity in warehousing and production to ultimately accommodate growth.

The sour drops and breath fresheners combined revenues increased to \$693,133 in the first quarter of 2003 as compared to \$577,690 in the first quarter of 2002, or a 20% increase. The Company continues to receive revenues from established customers, but without the uncertain introduction of new products in this category, continued growth for the remainder of 2003 is doubtful.

The nutritional supplements, on a relatively smaller scale, showed decline in revenue. Revenues were \$124,201 in the first quarter of 2003 as compared to \$159,571 in the first quarter of 2002, or a 22% decrease. The remainder of year 2003 may see a continued downward trend in this category. As stated in the 2002 10-KSB Trends section, "New business is needed for a reversal of fortune in this category, but none can be anticipated with any certainty in year 2003."

The Company revenues from international business were \$266,709 in the first quarter of 2003 as compared to \$301,624 in the first quarter of 2002, or a 12% decrease. The Company has continued to maintain and expand relationships with distributors in other countries through travel to international trade shows and face to face meetings, and although unstable conditions exist, the Company is

Edgar Filing: ORALABS HOLDING CORP - Form 10QSB

seeking to make gains in this sector of business in the second half of year 2003.

Impact of Inflation. The Company's financial condition has not been affected by the modest inflation of the recent past. The Company believes that revenues will not be materially affected by inflation. The Company's lip care and oral care products are primarily very low retail price points and impulse items. The nutritional supplements are a small part (approximately 3%) of revenues and could be negatively impacted by inflation.

Item 3. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. The Company's Chief Executive Officer and its Chief Financial Officer, after evaluating the effectiveness of the Company's disclosure controls and procedures (as defined in the Securities Exchange Act of 1934 Rules 13a-14(c) and 15d-14(c) as of a date within 90 days of the filing date of this quarterly report on Form 10-QSB (the "Evaluation Date")), have concluded that as of the Evaluation Date, the Company's disclosure controls and procedures were adequate and effective to ensure that material information relating to the Company and its consolidated subsidiaries would be made known to them by others within those entities, particularly during the period in which this quarterly report on Form 10-QSB was being prepared.

Changes in Internal Controls. There were no significant changes in the Company's internal controls or in other factors that could significantly affect the Company's disclosure controls and procedures subsequent to the Evaluation Date, nor any significant deficiencies or material weaknesses in such disclosure controls and procedures requiring corrective actions. As a result, no corrective actions were taken.

PART II - OTHER INFORMATION
