This press release contains "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995. These include, but are not limited to, statements regarding anticipated future events and financial performance with respect to our operations. Forward-looking statements can be identified by the fact that they do not relate strictly to historical or current facts. They often include words like "believe", "expect", "anticipate", "estimated", "project", "plan", "pro forma" and "intend" or future or conditional verbs such as "will", "would" or "may". Factors that could cause actual results to differ materially from expected results include, but are not limited to, those set forth in our Registration Statement on Form 20-F, as filed with the Securities and Exchange Commission (SEC), the competitive environment in which we operate, changes in general economic conditions and changes in the French, American and/or global financial and/or capital markets. Forward-looking statements represent management's views as of the date they are made, and we assume no obligation to update any forward-looking statements for actual events occurring after that date. You are cautioned not to place undue reliance on our forward-looking statements.

Fiscal 2002-2003 Half-Year Results

(Paris - May 7, 2003) - The Board of Directors of Sodexho Alliance (Euronext: EXHO.PA / NYSE:SDX) met on May 5, 2003 under the chairmanship of Pierre Bellon to examine the interim financial statements for the six months

Edgar Filing: SODEXHO ALLIANCE SA - Form 6-K

that ended February 28, 2003.

1. Financial Performance for the first half 2002-2003

Results (in euro millions)

	Six months ended February 28, 2002	Six months ended February 28, 2003	% change excluding currency effect	Currency effect	% change
Revenues	6,572	6,168	+3%	-9%	-6%
EBITA	314	294	+5%	-11%	-6%
Group net income	128	86	-17%	-16%	-33%

Excluding the currency effect:

- o Consolidated revenues totaled 6.2 billion euro, with organic growth of 3%.
- o EBITA amounted to 294 million euro, a 5% increase over the prior comparable period.
- o EBITA margin stood at 4.8%, essentially from a significant improvement in operating results in Continental Europe.
- o Net financial expense increased by 27 million euro, mainly due to foreign exchange gains realized in the first-half of 2001-2002, when cash held by the Service Vouchers and Cards business in Latin America was transferred into hard currencies
- o The effective tax rate increased from 33% to 41%, as first-half 2001-2002 results included certain exceptional items which were not subject to income tax.
- o Group net income after goodwill amortization amounted to 86 million euro, a 17% decrease.

The euro's sharp appreciation against other currencies, notably the US dollar, led to a negative translation effect in the consolidated accounts which reduced reported revenues by 9%, EBITA by 11%, and Group net income by 16%.

However, unlike exporting companies, our subsidiaries' revenues and operating expenses are denominated in the same currency. Consequently, currency fluctuations do not create operating risks for Sodexho.

2. Sodexho in North America

Currently, 49% of Sodexho's revenues are generated in North America, where organic growth in revenues amounted to 3% in the first-half of 2002-2003. Since October 1, 2002, Sodexho Inc. has provided food services on 55 US Marine Corps sites in the United States. We have established a strong relationship of mutual respect and true partnership with the US Marine Corps, and they have recently assured us that they are satisfied with our performance and have no basis to cancel our contract.

With operations in all 50 states, Sodexho Inc. is solidly anchored in the United States, where it employs more than 110,000 Americans. Sodexho is

proud to be a leader in the world's largest market, notably in the two client segments with the greatest growth potential: education and healthcare.

4. Fiscal 2002-2003 Outlook

As Pierre Bellon said during the Annual Meeting of Sodexho Alliance shareholders last February, "the economic environment will not improve in 2003, which makes our clients hesitant about investing and hiring."

We have therefore set the following intermediary objectives for fiscal 2002-2003:

- o Organic growth in revenues of 4% or less, greater than the 1.9% in organic growth achieved in fiscal 2001-2002.
- o EBITA margin of 4.7%, as compared to 4.2% in fiscal 2001-2002.
- o Group net income of 210 million euro, at constant exchange rates and excluding exceptional items.

Healthcare:

Ben Taub General Hospital - United States, Texas - 879 beds - food services
Fairview Health Services - United States, Minneapolis - 2,613 beds - food services

Medical Center Of Louisiana - United States, Louisiana - 680 beds - food services

5. Fiscal 2002-2003 Outlook

As Pierre Bellon said during the Annual Meeting of Sodexho Alliance shareholders last February, "the economic environment will not improve in 2003, which makes our clients hesitant about investing and hiring."

We have therefore set the following intermediary objectives for fiscal 2002-2003:

- o Organic growth in revenues of 4% or less, greater than the 1.9% in organic growth achieved in fiscal 2001-2002.
- o EBITA margin of 4.7%, as compared to 4.2% in fiscal 2001-2002.
- o Group net income of 210 million euro, at constant exchange rates and excluding exceptional items.

In his remarks at the Annual Meeting, Pierre Bellon indicated that this would be difficult. We are continuing to use our best efforts to meet this net income objective, but according to our estimates, we are currently closer to a figure of 200 million euro at constant exchange rates and excluding exceptional items.

At current exchange rates, the negative currency effect for fiscal 2002-2003 will be approximately 20 million euro.

We are confident in the future of our Group, which enjoys enormous growth potential both in Food and Management Services and in Service Vouchers and Cards. We also benefit from many advantages over our global competitors.

- o Our values: service spirit, team spirit, the spirit of progress and conviviality.
- o Our mission: improving the quality of daily life, which gives meaning to everything our employees do.
- o A global network and operations in 74 countries.
- o Low capital-intensive businesses that generate cash flow.
- o An excellent business model where cash flow finances organic growth, reimburses borrowings and pays dividends.
