2002/2003
FULL YEAR RESULTS

Paris, November 14, 2003 - The Board of Directors of Sodexho Alliance met on 12 November 2003 under the chairmanship of Pierre Bellon, to close the accounts for the year ended August 31, 2003.

Edgar Filing: SODEXHO ALLIANCE SA - Form 6-K

Sodexho Alliance reported consolidated revenues of 11.7 billion euro and Group net income of 162 million euro. The Board of Directors has determined that with this performance, Sodexho's teams succeeded in overcoming unfavorable economic conditions in a difficult political climate.

As a result of the appreciation of the euro against other currencies, currency conversion had a negative effect on all income statement line items. However, these exchange rate variations do not result in operating risk because both the receipts and expenses of each of our subsidiaries are in the same currency, unlike exporting businesses.

2002-2003 Financial Statements

In millions of euro

	Fiscal year 2002-2003	Fiscal year 2001-2002	Variation at current rates	Variation at constant rates
Revenues	11,687	12,612	- 7.3%	2.7%
EBITA	514	528	- 2.6%	9.8%
Net exceptional income (expense)	1	23	*	*
Group net income	162	183	- 11.3%	- 2.2%
Earnings per share before goodwill amortization (in euro)	1.41	1.58	- 10.6%	- 1.8%
Earnings per share after goodwill amortization (in euro)	1.02	1.15	- 11.4%	- 2.3%

* Not significant.

During the year, revenues declined by 7.3% due to a negative currency exchange rate impact of 10.0%. Organic growth of 3.1% compared favorably with that of the prior year, which was 1.9%.

- o In Food and Management Services, organic growth of 2.9% included 2.6% in the Healthcare segment, 2.9% in Education and 3.1% in Business and Industry. The year was noteworthy for the opening of Defense segments in the United States and Sweden. Since Defense is included in the Business and Industry segment, its development and the signing of significant contracts have contributed to the return to growth in this segment.

- o In Service Vouchers and Cards, organic growth reached 11.4% due to good commercial development and to new services provided to existing clients.

EBITA amounted to 514 million euro, decreasing by 2.6%. However, at constant exchange rates it improved by 9.8%. The EBITA margin was 4.4%, versus 4.2% in fiscal year 2001-2002. This improvement is explained by the first positive effects of our action plans to improve the profitability of our subsidiary in the United Kingdom and by a net improvement in our profitability in Continental Europe and North America.

Group net income declined by 11.3%, but it is comparable to that of the prior year calculated at average exchange rates for fiscal year 2002-2003.

Since the number of shares outstanding did not vary significantly during the year, earnings per share declined by 11.4%, but by only 2.3% at constant exchange rates.

Operating cash flow totaled 390 million euro, a level comparable to fiscal year 2001-2002, despite the unfavorable variation in currency exchange rates of 13%, thus confirming the Group's capacity to generate cash.

Our net debt declined by 162 million euro, of which 82 million euro resulted from exchange rates prevailing at the end of the fiscal year. As such, net debt totaled 1,201 million euro and represents less than 52% of shareholders' equity including minority interests.

Following the closing of the accounts, which reflected net income excluding currency conversion impacts comparable to that of the prior year, and after taking account of the Group's excellent financial model, the Board of Directors will ask shareholders to approve at the Annual Meeting on February 3, 2004 a net dividend of 0.61 euro per share, the same dividend per share as last year. The dividend payment date will be March 4, 2004.

During fiscal 2003, we signed several new contracts, including, for example, in Food and Management Services:

In Service Vouchers and Cards, new contracts were signed with the SNBC in Belgium, the Health Ministry in Venezuela and General Motors in Mexico.

OUTLOOK

The outlook is good. The potential market to conquer is large in all of our activities and in the countries where Sodexho does business. This growth potential is estimated at more than 380 billion euro.

Sodexho is number one worldwide in the segments with the greatest potential: Healthcare, Seniors, Education and Defense.

In addition, Sodexho's financial model is excellent. The activities chosen are not capital intensive; for fiscal year 2002-2003, net capital expenditures represented only 1.9% of revenues. Operating cash flow was 390 million euro. This allows us to finance growth, reimburse debt and reward shareholders.

Based on current information and today's economic climate, at the November 12, 2003 meeting, the Board of Directors fixed and confirmed the following minimum objectives for fiscal year 2003-2004:

- o Organic growth in revenues equal to that of fiscal year 2002-2003
- o EBITA of 550 million euro, which corresponds to an EBITA margin of 4.6%
- o Growth in Group Net Income, excluding exceptional items, of 5%

These objectives are based on the exchange rates used in the fiscal year 2002-2003 income statement.

In order to attain or exceed these objectives, our strategy is confirmed. It rests upon six strategic objectives:

- o Accelerate organic growth
- o Improve our human resources planning
- o Improve operational management
- o Improve cash flow
- o Reinforce control
- o Encourage transparency and communication

Group management will focus energies within the Group to improve Sodexho's performance as compared to that of its competitors.

The Board of Directors has expressed its confidence in the Group's future because Sodexho's strengths are numerous:

Sodexho's values: service spirit, team spirit, and the spirit of progress.
Sodexho's mission: "Improve the quality of daily life," which gives meaning to all of its team members.
Sodexho's worldwide network and its presence in 76 countries.
Sodexho's strong competitive positions.
Sodexho's excellent financial model.

The Board of Directors would like to thank our clients for their continued trust, our people who maintain their professionalism and efficiency every day to ensure our success around the world, and our shareholders for their loyalty.
