AMERICAN BILTRITE INC  
Form 10-Q  
May 15, 2006

FORM 10-Q

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Quarterly Report Pursuant to Section 13 or 15(d)  
of the Securities Exchange Act of 1934

For Quarter Ended March 31, 2006

Commission File Number 1-4773

AMERICAN BILTRITE INC.  
(Exact name of registrant as specified in its charter)

Delaware  
(State or other jurisdiction of  
incorporation or organization)

04-1701350  
(IRS Employer Identification No.)

57 River Street  
Wellesley Hills, Massachusetts 02481-2097  
(Address of Principal Executive Offices)  
(781) 237-6655  
(Registrant's telephone number, including area code)

Not Applicable  
(Former name, former address and former fiscal year  
if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. Large accelerated filer  Accelerated filer  Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class	Outstanding at May 9, 2006
-----	-----
Common Stock	3,441,551 shares

FORWARD LOOKING STATEMENTS

Some of the information presented in or incorporated by reference in this report constitutes "forward-looking statements," within the meaning of the Private Securities Litigation Reform Act of 1995, that involve risks, uncertainties and

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

assumptions. These statements can be identified by the use of the words such as "anticipate," "believe," "estimate," "expect," "intend," "plan," "project" and other words of similar meaning. In particular, these include statements relating to intentions, beliefs or current expectations concerning, among other things, future performance, results of operations, the outcome of contingencies such as bankruptcy and other legal proceedings, and financial conditions. These statements do not relate strictly to historical or current facts. These forward-looking statements are based on the Company's expectations, as of the date of this report, of future events, and the Company undertakes no obligation to update any of these forward-looking statements. Although the Company believes that these expectations are based on reasonable assumptions, within the bounds of its knowledge of its business and operations, there can be no assurance that actual results will not differ materially from its expectations. Readers are cautioned not to place undue reliance on any forward-looking statements. Any or all of these statements may turn out to be incorrect. By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. Any forward-looking statements made in this report speak only as of the date of such statement. It is not possible to predict or identify all factors that could potentially cause actual results to differ materially from expected and historical results. Factors that could cause or contribute to the Company's actual results differing from its expectations include those factors discussed in Item 1A of Part II of this Quarterly Report on Form 10-Q and in the Company's other filings with the Securities and Exchange Commission.

5

AMERICAN BILTRITE INC. AND SUBSIDIARIES  
NOTES TO UNAUDITED CONSOLIDATING CONDENSED  
FINANCIAL STATEMENTS  
March 31, 2006  
(Unaudited)

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

### Note A - Basis of Presentation

The accompanying unaudited consolidating condensed financial statements which include the accounts of American Biltrite Inc. and its wholly owned subsidiaries (and including, unless the context otherwise indicates, K&M Associates, L.P., referred to herein as "ABI", "American Biltrite" or the "Company") as well as entities over which it has voting control have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information, the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments, provisions for discontinued operations and provisions to effect the plan of reorganization of Congoleum Corporation, a majority-owned subsidiary of the Company, to settle asbestos liability) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2006 are not necessarily indicative of the results that may be expected for future periods, including the year ending December 31, 2006. For further information, refer to the consolidating financial statements and footnotes thereto included in the American Biltrite Inc.'s Annual Report on Form 10-K for the year ended December 31, 2005.

The consolidating balance sheet at December 31, 2005 has been derived from the audited financial statements as of that date but does not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements.

Certain amounts in 2005 have been reclassified to conform to 2006 classifications. The Company has separately disclosed the operating, investing and financing portions of the cash flows attributed to its discontinued operations, which in prior periods were reported on a combined basis as a single amount.

During 2003, the Company decided to discontinue the operations of its Janus Flooring Corporation subsidiary ("Janus"), a manufacturer of pre-finished hardwood flooring, and sell the related assets. Historical financial results have been restated to reflect the classification of Janus as a discontinued operation in accordance with the Financial Accounting Standards Board's ("FASB") Statement of Financial Accounting Standards ("SFAS") No. 144, Accounting for the Impairment or Disposal of Long-lived Assets. Results of Janus, including charges resulting from the shutdown, are being reported as a discontinued operation.

6

### Note A - Basis of Presentation (continued)

As discussed more fully below and elsewhere in these footnotes, the Company's majority owned subsidiary Congoleum Corporation ("Congoleum") and two of Congoleum's subsidiaries filed voluntary petitions commencing cases for reorganization relief under Chapter 11 of the United States Bankruptcy Code (the "Bankruptcy Code") on December 31, 2003. The accompanying consolidating condensed financial statements include the results for Congoleum for all periods presented. ABI continues to own a majority of the voting stock of Congoleum and expects to continue to control Congoleum while it is in reorganization proceedings.

In January 2004, Congoleum filed its proposed plan of reorganization and disclosure statement with the Bankruptcy Court. In November 2004, Congoleum filed a modified plan of reorganization and related documents with the

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

Bankruptcy Court (the "Fourth Plan") reflecting the result of further negotiations with representatives of the Asbestos Claimants' Committee, the Future Claimants' Representative and other asbestos claimant representatives. The Bankruptcy Court approved the disclosure statement and plan voting procedures in December 2004, and Congoleum obtained the requisite votes of asbestos personal injury claimants necessary to seek approval of the Fourth Plan. In April 2005, Congoleum announced that it had reached an agreement in principle with representatives of the Asbestos Claimants' Committee and the Future Claimants' Representative to make certain modifications to its proposed plan of reorganization and related documents governing the settlement and payment of asbestos-related claims against Congoleum. Under the agreed-upon modifications, asbestos claimants with claims settled under Congoleum's pre-petition settlement agreements would agree to forbear from exercising the security interest they were granted and share on a pari passu basis with all other present and future asbestos claimants in insurance proceeds and other assets of the trust to be formed upon confirmation of the plan under Section 524(g) of the Bankruptcy Code (the "Plan Trust") to pay asbestos claims against Congoleum. In July 2005, Congoleum filed an amended plan of reorganization (the "Sixth Plan") and related documents with the Bankruptcy Court which reflected the result of these negotiations, as well as other technical modifications. The Bankruptcy Court approved the disclosure statement and voting procedures, and Congoleum commenced solicitation of acceptances of the Sixth Plan in August 2005. In September 2005, Congoleum learned that certain asbestos claimants were unwilling to agree to forbear from exercising their security interest as contemplated by the Sixth Plan, and the Sixth Plan was subsequently withdrawn. In November 2005, the Bankruptcy Court denied a request to extend Congoleum's exclusive right to file a plan of reorganization and solicit acceptances thereof. In February 2006, Congoleum filed a new amended plan of reorganization (the "Seventh Plan"). On February 27, 2006, Congoleum announced its intention to make additional changes to its plan of reorganization, and on March 17, 2006, it filed a new amended plan (the "Eighth Plan"). In addition, an insurance company has filed a plan of reorganization (the "CNA Plan") and the Official Committee of Bondholders has also filed a plan (the "Bondholder Plan"). The Bankruptcy Court has scheduled a hearing to consider the adequacy of the disclosure statements with respect to these plans for June 8, 2006.

7

### Note A - Basis of Presentation (continued)

There can be no assurance that Congoleum will not amend the Eighth Plan, that Congoleum will obtain approval to solicit acceptances of its plan of reorganization, that Congoleum will receive the acceptances necessary for confirmation of its plan of reorganization, that its plan will not be modified further, that its plan will receive necessary court approvals from the Bankruptcy Court or the Federal District Court, or that such approvals will be received in a timely fashion, that its plan will be confirmed, or that its plan, if confirmed, will become effective. It is unclear whether the Bankruptcy Court will approve the CNA Plan or the Bondholder Plan or whether such plans, if confirmed, would be feasible. Moreover, it is unclear whether any other person will attempt to propose a plan or what any such plan would provide or propose, and whether the Bankruptcy Court would approve a plan other than Congoleum's proposed plan.

Congoleum is presently involved in litigation with certain insurance carriers related to disputed insurance coverage for asbestos related liabilities, and certain insurance carriers filed various objections to Congoleum's previously proposed plans of reorganization and related matters and are expected to file objections to the Eighth Plan. Certain other parties have also filed various objections to Congoleum's previously proposed plans of reorganization and may

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

file objections to the Eighth Plan.

Congoleum expects that the terms of the Eighth Plan may be amended or modified as a result of further negotiations with various parties. The terms of the CNA Plan and the Bondholder Plan are materially different from the terms of the Eighth Plan, and these plans may also be amended or modified or may be withdrawn. There can be no assurance that the terms of the reorganization plan that is ultimately confirmed, if any, will not materially differ from the terms of the Eighth Plan. Congoleum expects that it will take until some time in the fourth quarter of 2006, at the earliest, to obtain confirmation of any plan of reorganization.

In anticipation of Congoleum's commencement of the Chapter 11 cases, Congoleum entered into a settlement agreement with various asbestos personal injury claimants (the "Claimant Agreement"), which provides for an aggregate settlement value of at least \$466 million as well as an additional number of individually negotiated trial listed settlements with an aggregate value of approximately \$25 million, for total settlements in excess of \$491 million. As contemplated by the Claimant Agreement, Congoleum also entered into agreements establishing a pre-petition trust (the "Collateral Trust") to distribute funds in accordance with the terms of the Claimant Agreement and granting the Collateral Trust a security interest in Congoleum's rights under its applicable insurance coverage and payments from Congoleum's insurers for asbestos claims. In December 2005, Congoleum commenced an omnibus avoidance action and a sealed avoidance action (collectively, the "Avoidance Actions") seeking to void the security interest granted to the Collateral Trust and such settlements. In March 2006, Congoleum filed a motion for summary judgment in the Avoidance Actions seeking to avoid the Claimant Agreement settlements and liens under various bankruptcy theories. Under the terms of the Eighth Plan, asbestos personal injury claimants voting to accept the plan would irrevocably consent or would be deemed to have irrevocably consented to the forbearance of any claim and lien rights under the Claimant Agreement and related agreements. Under the terms of the Eighth Plan, after the

### Note A - Basis of Presentation (continued)

establishment of the Plan Trust, the assets in the Collateral Trust would be transferred to the Plan Trust and any asbestos claims would be paid in accordance with the terms of the Eighth Plan. Settlement values under the Eighth Plan may differ from values under the Sixth Plan and the Claimant Agreement, which, together with the outcome of the Avoidance Actions, may materially affect the liability associated with the asbestos personal injury claims against Congoleum. As a result of tabulating ballots on the Fourth Plan, Congoleum is also aware of claims by claimants whose claims were not determined under the Claimant Agreement but who have submitted claims with a value of approximately \$512 million based on the settlement values applicable in the Sixth Plan. Based on the Eighth Plan, Congoleum has made provision in its financial statements for the minimum amount of the range of estimates for its contribution to effect its plan to settle asbestos liabilities through the Plan Trust. Congoleum recorded charges aggregating approximately \$51.3 million in prior years, and is not yet able to determine the amount of the additional cost that will be required to complete its reorganization. Actual amounts that will be contributed to the Plan Trust and costs for pursuing and implementing the Eighth Plan or any other plan of reorganization could be materially higher than currently recorded. Congoleum may record significant additional charges should the minimum estimated cost increase. Delays in proposing, filing or obtaining approval of the Eighth Plan or any new amended plan of reorganization, or the continued pursuit of the CNA Plan or the Bondholder Plan by the proponents of such plans, or the proposal of additional plans by other parties could result in a proceeding that takes longer

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

and is more costly than Congoleum has estimated.

For more information regarding Congoleum's asbestos liability and plan for resolving that liability, please refer to Note J of the Notes to Unaudited Consolidating Condensed Financial Statements.

Although there can be no assurances with respect to the terms of any new amended plan, the Company believes, based on the terms of the Eighth Plan and subsequent negotiations regarding a new amended plan that have occurred to date, that there is reasonable basis to expect it will maintain control of Congoleum under the terms of a new amended plan, subject to Congoleum obtaining the necessary acceptances and approvals required for confirmation of the plan. Accordingly, the Company has elected to continue to consolidate the financial statements of Congoleum in its consolidated results because it believes that is the appropriate presentation given its anticipated continuing control of Congoleum. However, the accompanying financial statements also present the details of consolidation to separately show the financial condition, operating results and cash flows of ABI (excluding Congoleum and its wholly owned subsidiaries) and Congoleum and its wholly owned subsidiaries, which may be more meaningful for certain analyses.

9

### Note A - Basis of Presentation (continued)

The financial statements of Congoleum have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. Accordingly, the financial statements do not include any adjustments that might be necessary should Congoleum be unable to continue as a going concern. As described in Note J, there is substantial doubt about Congoleum's ability to continue as a going concern unless it obtains relief from its substantial asbestos liabilities through a successful reorganization under Chapter 11 of the Bankruptcy Code.

The American Institute of Certified Public Accountants Statement of Position 90-7, Financial Reporting by Entities in Reorganization under the Bankruptcy Code ("SOP 90-7"), provides financial reporting guidance for entities that are reorganizing under the Bankruptcy Code. Congoleum has implemented this guidance in its consolidated financial statements for periods commencing after December 31, 2003. Pursuant to SOP 90-7, companies in reorganization under the Bankruptcy Code are required to segregate pre-petition liabilities that are subject to compromise and report them separately on the balance sheet. Liabilities that may be affected by a plan of reorganization are recorded at the amount of the expected allowed claims, even if they may be settled for lesser amounts. Liabilities for asbestos claims are recorded based upon the minimum amount Congoleum expects to spend for its contribution to, and costs to settle asbestos liabilities through, the Plan Trust. Obligations arising post-petition and pre-petition obligations that are secured or that the Bankruptcy Court has authorized Congoleum to pay, are not classified as liabilities subject to compromise. Other pre-petition claims (which would be classified as liabilities subject to compromise) may arise due to the rejection by Congoleum of executory contracts or unexpired leases pursuant to the Bankruptcy Code or as a result of the allowance by the Bankruptcy Court of contingent or disputed claims related to pre-petition matters.

### Note B - Stock Based Compensation

Effective January 1, 2006, the Company adopted the provisions of Statement of Financial Accounting Standards No. 123(R), Share-Based Payment, and related interpretations ("SFAS No. 123(R)") using the modified prospective method and,

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

accordingly, has not restated prior period results. SFAS No. 123(R) establishes the accounting for equity instruments exchanged for employee services. Under SFAS No. 123(R), share-based compensation cost is measured at the grant date based on the calculated fair value of the award. The expense is recognized over the employees' requisite service period, generally the vesting period of the award. SFAS No. 123(R) also requires the related excess tax benefit received upon exercise of stock options or vesting of restricted stock, if any, to be reflected in the statement of cash flows as a financing activity rather than an operating activity.

The Company has elected to continue to use the Black-Scholes option pricing model to estimate the fair value of stock-based awards. The use of a Black-Scholes option pricing model requires the input of assumptions determined by management of the company at the measurement date. These assumptions include the risk-free interest rate, expected dividend yield, volatility factor of the expected market price of the Company's common stock and the expected life of stock option grants.

10

### Note B - Stock Based Compensation (continued)

Prior to the adoption of SFAS No. 123(R), the Company accounted for stock options to employees in accordance with Accounting Principles Board Opinion (APB) No. 25, Accounting for Stock Issued to Employees, and related interpretations. The Company also provided the disclosures required under SFAS No. 123, Accounting for Stock-Based Compensation ("SFAS No. 123"), as amended by SFAS No. 148, Accounting for Stock-Based Compensation - Transition and Disclosures. As a result, no expense was reflected in the Company's operating results for the first quarter of 2005 for stock options, as all options granted had an exercise price equal to the market value of the underlying common stock on the date of grant.

The table below reflects the pro forma net income and earnings per share for the first quarter of 2005 had compensation for stock options been determined based on the fair value at the grant date, consistent with the methodology prescribed under SFAS No. 123.

Net income for the three months ended March 31, 2005

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

No stock options were granted by American Biltrite or Congoleum during the three months ended March 31, 2006 and 2005. The pro forma expense for the first quarter of 2005 represents the vesting of options previously granted by American Biltrite and Congoleum.

On November 10, 2005, the Board of Directors of American Biltrite approved the vesting of all outstanding and unvested options held by directors, officers and employees under the Company's 1993 Stock Award and Incentive Plan, as amended and restated as of March 4, 1997, and 1999 Stock Option Plan for Non-Employee Directors (together, the "ABI Stock Plans"). As a result of the acceleration of vesting, options to acquire 195,600 shares of the Company's common stock, which otherwise would have vested from time to time over the next four years, became immediately exercisable in full. This action was taken to eliminate, to the extent permitted, the transition expense that the Company otherwise would incur in connection with the adoption of SFAS No. 123(R). The exercise prices of all

11

### Note B - Stock Based Compensation (continued)

of the unvested options were lower than the closing trading price of the Company's common stock on the modification date. Under the accounting guidance of Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, the accelerated vesting resulted in a charge for stock-based compensation of approximately \$22 thousand in 2005.

As a result of the acceleration of vesting of stock options granted under the ABI Stock Plans, the Company did not have stock compensation expense related to the ABI Stock Plans during the first quarter of 2006. Congoleum recorded stock compensation expense of \$55 thousand during the first quarter of 2006 for the vesting of previously granted options under its plans. This expense is included in the Company's consolidated net income for the three months ended March 31, 2006. The impact of the adoption of SFAS No. 123(R) on net income per share was approximately \$0.01 per share for the first quarter of 2006. At March 31, 2006, the unrecognized compensation expense related to unvested options previously granted by Congoleum was approximately \$300 thousand. This compensation expense will be recognized as the options vest over a weighted-average period of 1.6 years.

### ABI Stock Plans

During 1999, ABI adopted a stock option plan, which permits the issuance of up to 50,000 shares of common stock upon exercise of options granted under the plan to ABI's non-employee directors. Under the terms of the plan, options granted are nonqualified and have an exercise price per share equal to 100% of the fair market value per share of the Company's common stock at the date of grant. Options granted under the plan are exercisable six months after the date of grant.

ABI maintains a stock award and incentive plan which permits the issuance of options, stock appreciation rights (SARs), limited SARs, restricted stock, restricted stock units and other stock-based awards to selected employees and independent contractors of the Company. Upon adoption of the plan, 400,000 shares of common stock were reserved for issuance upon exercise of options granted under the plan. The plan provides that the term of each award be determined by the compensation committee of the Board of Directors (the "Committee") charged with administering the plan. During 1997, the Board of Directors approved an amendment to the plan to increase from 400,000 to 550,000 the number of shares reserved for issuance upon exercise of options granted under the plan.

Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

Under the terms of the plan, options granted may be either nonqualified or incentive stock options and the exercise price per share, determined by the Committee, may not be less than the fair market value of a share on the date of grant. SARs and limited SARs granted in tandem with an option shall be exercisable only to the extent the underlying option is exercisable and the grant price shall be equal to the exercise price of the underlying option. In addition, the Committee may grant restricted stock to participants under the plan at no cost to them. No SARs or restricted stock have been granted under the plan since its adoption. Other than the restrictions that limit the sale and transfer of these SARs and restricted stock, participants are entitled to all the rights of a shareholder.

12

Note B - Stock Based Compensation (continued)

Congoleum Stock Option Plans

Congoleum maintains a stock option plan for its officers and key employees and a stock option plan for its non-employee directors (together, the "Congoleum Stock Option Plans"). Under these plans, options to purchase up to 850,000 shares of Congoleum's Class A common stock may be issued to directors, officers and key employees. These options may be either incentive stock options or nonqualified stock options, and the options' exercise price must be at least equal to the fair market value of Congoleum's Class A common stock on the date of grant.

Shares issued as a result of stock option exercises under the ABI Stock Plans or the Congoleum Stock Option Plans will be funded through treasury stock of the respective companies.

Stock Option Information

Stock option information for the ABI Stock Plans and the Congoleum Stock Option Plans as of and for the three months ended March 31, 2006 was as follows:

	ABI Stock Plans		Congoleum Option P
	Shares	Weighted- Average Exercise Price	Shares
	-----		-----
Outstanding at December 31, 2005	483,000	\$15.42	693,500

	\$81,928	\$77,127
	=====	=====

### Note D - Sale of Property

In January 2005, the Company completed the sale of a warehouse building and land

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

located in Tullahoma, Tennessee. The building and land were owned by Tullahoma Properties, L.L.C. ("Tullahoma Properties"), a subsidiary in which ABI owns a 62.5% interest. The building was previously leased to a third party, and upon termination of the lease in 2003, Tullahoma Properties listed the property for sale. The building and land were sold for \$2.5 million in cash and a gain of approximately \$2.3 million was recognized and included in other income in the first quarter. After taxes and non-controlling interest, the increase in first quarter 2005 net income as a result of the sale was \$887,000 or \$0.26 per share.

14

### Note E - Accrued Expenses

Accrued Expenses at March 31, 2006 and December 31, 2005 consisted of the following (in thousands):

	March 31, 2006	December 31, 2005
	-----	-----
Accrued advertising and sales promotions	\$22,412	\$24,089
Employee compensation and related benefits	9,091	9,499
Interest	143	265
Environmental matters	1,124	1,124
Royalties	646	806
Taxes payable	163	1,330
Other	6,230	5,863
	-----	-----
	\$39,809	\$42,976

	-----	-----
	\$29,664	\$29,625
	=====	=====

See Note G for Liabilities Subject to Compromise.

15

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

### Note G - Liabilities Subject to Compromise

As a result of Congoleum's Chapter 11 filing (see Notes A and J of the Notes to the Unaudited Consolidating Condensed Financial Statements), pursuant to SOP 90-7, Congoleum is required to segregate pre-petition liabilities that are subject to compromise and report them separately on the consolidated balance sheet. Liabilities that may be affected by a plan of reorganization are recorded at the amount of the expected allowed claims, even if they may be settled for lesser amounts. Substantially all of Congoleum's pre-petition debt is recorded at face value and is classified within liabilities subject to compromise. In addition, Congoleum's accrued but unpaid interest expense on its 8 5/8% Senior Notes Due 2008 is also recorded in liabilities subject to compromise. See Notes A and J of the Notes to the Unaudited Consolidating Condensed Financial Statements for further discussion of Congoleum's asbestos liability. Liabilities subject to compromise were as follows (in thousands):

	March 31, 2006	December 31, 2005
	-----	-----
Current		
Pre-petition other payables and accrued interest	\$ 26,660	\$ 23,990
Non-current		
Debt (at face value)	100,000	100,000
Pension liability	16,552	16,871
Other post-retirement benefit obligation	8,330	8,407
Pre-petition other liabilities	13,534	13,583
	-----	-----
	138,416	138,861
Elimination - Payable to American Biltrite	(147)	(147)
	-----	-----
	138,269	138,714
	-----	-----
Total liabilities subject to compromise	\$ 164,929	\$ 162,704
	=====	=====

Additional pre-petition claims (which would be classified as liabilities subject to compromise) may arise due to the rejection by Congoleum of executory contracts or unexpired leases, or as a result of the allowance by the Bankruptcy Court of contingent or disputed claims.

### Note H - Pension Plans

The Company and Congoleum sponsor several noncontributory defined benefit pension plans covering most of their employees. Benefits under the plans are based on years of service and employee compensation. Amounts funded annually by the Company and Congoleum are actuarially determined using the projected unit credit and unit credit methods and are equal to or exceed the minimum required by government regulations. Congoleum also maintains health and life insurance programs for retirees (reflected in the table below under the columns entitled "Other Benefits").

### Note H - Pension Plans (continued)

The following summarizes the components of the net periodic benefit cost for the Company's and Congoleum's pension and other benefit plans during the three months ended March 31, 2006 and 2005 (in thousands):

Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

	2006		2005	
	Pension	Other Benefits	Pension	Other Benefits
Components of Net Periodic Benefit Cost:				
Service cost	\$ 603	\$ 48	\$ 586	\$ 46
Interest cost	1,493	132	1,445	130
Expected return on plan assets	(1,428)	--	(1,270)	--
Recognized net actuarial loss	359	16	361	15
Amortization of transition obligation	--	--	(18)	--
Amortization of prior service cost	(40)	9	(60)	(47)
Net periodic benefit cost	\$ 987	\$205	\$ 1,044	\$ 144

The weighted average assumptions used to determine net periodic benefit cost for the three months ended March 31, 2006 and 2005 were as follows:

	2006		2005	
	Pension	Other Benefits	Pension	Other Benefits
Discount rate	6.00%	6.00%	6.10% - 6.25%	6.25%
Expected long-term return on plan assets	7.00% - 7.50%	-	7.00% - 7.50%	-
Rate of compensation increase	4.00% - 5.50%	-	4.00% - 5.00%	-

17

Note I - Commitments and Contingencies

The Company and Congoleum are subject to federal, state and local environmental laws and regulations and certain legal and administrative claims are pending or have been asserted against the Company and Congoleum. Among these claims, the Company and Congoleum are separately a named party in several actions associated with waste disposal sites. These actions include possible obligations to remove or mitigate the effects on the environment of wastes deposited at various sites, including Superfund sites and certain of the Company's and Congoleum's owned and previously owned facilities. The contingencies also include claims for personal injury and/or property damage. The exact amount of such future cost and timing of payments are indeterminable due to such unknown factors as the magnitude of cleanup costs, the timing and extent of the remedial actions that may be required, the determination of the Company's and Congoleum's liability in proportion to other potentially responsible parties, and the extent to which costs may be recoverable from insurance. The Company and Congoleum have recorded provisions in the financial statements for the estimated probable loss associated with all known general and environmental contingencies. While the Company and Congoleum believe their estimate of the future amount of these liabilities is reasonable, and that they will be paid over a period of five to

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

ten years, the timing and amount of such payments may differ significantly from the Company's and Congoleum's assumptions. Although the effect of future government regulation could have a significant effect on the Company's and Congoleum's costs, the Company and Congoleum are not aware of any pending legislation that would have such an effect. There can be no assurances that the costs of any future government regulations could be passed along to their customers. Estimated insurance recoveries related to these liabilities are reflected in other non-current assets.

The Company and Congoleum record a liability for environmental remediation claims when it becomes probable that the Company or Congoleum, as applicable, will incur costs relating to a clean-up program or will have to make claim payments, and the costs or payments can be reasonably estimated. As assessments are revised and clean-up programs progress, these liabilities are adjusted to reflect such revisions and progress.

Liabilities of Congoleum comprise the substantial majority of the environmental and other liabilities reported on the Company's consolidated balance sheet. Due to the relative magnitude and wide range of estimates of these liabilities and the fact that recourse related to these liabilities is generally limited to Congoleum, these matters are discussed separately following matters for which ABI has actual or potential liability. However, since ABI includes Congoleum in ABI's consolidating financial statements, to the extent that Congoleum incurs a liability or expense, it will be reflected in ABI's consolidating financial statements.

18

### Note I - Commitments and Contingencies (continued)

#### American Biltrite Inc.

ABI is a co-defendant with many other manufacturers and distributors of asbestos containing products in approximately 1,692 pending claims involving approximately 2,036 individuals as of March 31, 2006. The claimants allege personal injury or death from exposure to asbestos or asbestos-containing products. Activity related to ABI's asbestos claims is as follows:

	Three Months Ended March 31, 2006	Year Ended December 31, 2005
	-----	-----
Beginning claims	1,703	1,838
New claims	117	621
Settlements	(14)	(24)
Dismissals	(114)	(732)
	-----	-----
Ending claims	1,692	1,703
	=====	=====

The total indemnity costs incurred to settle claims during the three months ended March 31, 2006 and twelve months ended December 31, 2005 were \$1.1 million and \$1.3 million, respectively, all of which were paid by ABI's insurance carriers pursuant to ABI's applicable insurance policies, as were the related defense costs. The average indemnity cost per resolved claim was approximately \$8.3 thousand for the three months ended March 31, 2006 and \$1.7 thousand for the year ended December 31, 2005.

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

In general, governmental authorities have determined that asbestos-containing sheet and tile products are nonfriable (i.e., cannot be crumbled by hand pressure) because the asbestos was encapsulated in the products during the manufacturing process. Thus, governmental authorities have concluded that these products do not pose a health risk when they are properly maintained in place or properly removed so that they remain nonfriable. The Company has issued warnings not to remove asbestos-containing flooring by sanding or other methods that may cause the product to become friable.

The Company estimates its liability to defend and resolve current and reasonably anticipated future asbestos-related claims (not including claims asserted against Congoleum), based upon a strategy to actively defend or seek settlement for those claims in the normal course of business. Factors such as recent and historical settlement and trial results, the incidence of past and recent claims, the number of cases pending against it and asbestos litigation developments that may impact the exposure of the Company were considered in performing these estimates. In 2005, the Company utilized an actuarial study to assist it in developing estimates of the Company's potential liability for resolving present and possible future asbestos claims. At December 31, 2005, the estimated range of liability for settlement of current claims pending and claims anticipated to be filed through 2011 was \$9.5 million to \$18.8 million. The Company believes no amount within this range is

19

### Note I - Commitments and Contingencies (continued)

more likely than any other, and accordingly, recorded the minimum liability estimate of \$9.5 million in its consolidated financial statements at December 31, 2005. At March 31, 2006, the Company has recorded \$9.6 million for the estimated minimum liability. The Company also believes that, based on this minimum liability estimate, the corresponding amount of insurance probable of recovery is \$9.0 million at March 31, 2006 and December 31, 2005, which has been included in other assets. The same factors that affect developing forecasts of potential indemnity costs for asbestos-related liabilities also affect estimates of the total amount of insurance that is probable of recovery, as do a number of additional factors. These additional factors include the financial viability of some of the insurance companies, the method in which losses will be allocated to the various insurance policies and the years covered by those policies, how legal and other loss handling costs will be covered by the insurance policies, and interpretation of the effect on coverage of various policy terms and limits and their interrelationships. These amounts were based on currently known facts and a number of assumptions. However, projecting future events, such as the number of new claims to be filed each year, the average cost of disposing of each such claim, and the continuing solvency of various insurance companies, as well as numerous uncertainties surrounding asbestos legislation in the United States, could cause the actual liability and insurance recoveries for the Company to be higher or lower than those projected or recorded.

Due to the numerous variables and uncertainties, including the effect of Congoleum's Chapter 11 case and plan of reorganization on the Company's liabilities, the Company does not believe that reasonable estimates can be developed of liabilities for asbestos-related claims against the Company (not including claims asserted against Congoleum) beyond a five year horizon. The Company will continue to evaluate its range of future exposure, and the related insurance coverage available, and when appropriate, record future adjustments to those estimates, which could be material.

The Company anticipates that resolution of its asbestos related liabilities resulting from Congoleum's reorganization plan will be limited to liabilities

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

derivative of claims asserted against Congoleum as may be afforded under Section 524(g)(4) of the Bankruptcy Code.

ABI reported in its December 31, 2005 Annual Report on Form 10-K that it has been named as a Potentially Responsible Party ("PRP") within the meaning of the Federal Comprehensive Environmental Response Compensation and Liability Act, as amended ("CERCLA"), with respect to five sites located in four separate states (the "CERCLA Sites"). There has been no material developments relating to these sites during the three month period ended March 31, 2006.

In 1993, a lawsuit was brought by Olin Corporation ("Olin"), the present owner of a former chemical plant site in Wilmington, Massachusetts (the "Olin Site"), which alleged that ABI and three other named defendants were liable for a portion of the site's soil and groundwater response and remediation costs at the site. A wholly-owned subsidiary of ABI owned and operated the Wilmington plant from 1959 to 1964, and for approximately one month during 1964, American Biltrite Inc. held title to the property directly.

20

### Note I - Commitments and Contingencies (continued)

In 2000, ABI and The Biltrite Corporation ("TBC") entered into a settlement agreement with Olin that resolved all claims and counterclaims among the parties. Under the terms of the agreement, ABI and TBC together paid Olin \$4.1 million in settlement of their share of Olin's \$18 million of alleged past response costs incurred through December 31, 1998. ABI and TBC also agreed to reimburse Olin for 21.7% of Olin's response costs incurred at the Olin Site after January 1, 1999, plus pay an annual reimbursement of \$100 thousand for Olin's internal costs as long as Olin is actively working on remediating the site. Under an agreement between ABI and TBC, TBC is liable for 37.5% of the aggregate amounts due from ABI and TBC under the settlement agreement with Olin.

Additional expenditures, principally consisting of remediation and oversight costs, will be required to remediate the Olin Site. Olin has estimated that the total response costs for 2006 will be approximately \$7.2 million. For costs beyond 2006, ABI has estimated the range of total response costs for the site to be between \$15.7 million and \$45.3 million. As of March 31, 2006 ABI has estimated its potential liability to Olin to be in the range of \$3.5 million to \$10.8 million after allocation for the annual reimbursement of \$100 thousand for Olin's internal costs but before any recoveries from insurance and TBC. Costs are expected to be incurred over the next 10 years. In January 2006, the EPA assumed the responsibility for the oversight of the Olin Site from the Massachusetts Department of Environmental Protection.

The State of Maine Department of Environmental Protection has put Miller Industries, Inc. ("Miller"), the present owner of a former ABI sheet vinyl plant in Lisbon Falls, Maine, on notice to clean up a dumpsite where there is exposed asbestos from sheet vinyl waste along with other hazardous substances. In September 2005, a lawsuit was brought by Miller against ABI, which alleged that ABI and one other named defendant are liable for costs to clean up the dumpsite ("Parcel A") and a second parcel of land ("Parcel B"), which is alleged to contain polychlorinated biphenyls ("PCB's") in the soil. The lawsuit, captioned Miller Industries, Inc. v. American Biltrite Inc. et al, was filed on September 22, 2005 in the Androscoggin Superior Court of Maine. Miller is seeking indemnification or contribution from ABI for the clean-up of both parcels of land (together, the "Maine Sites"). The lawsuit was dismissed by the Superior Court of Maine on February 3, 2006 for lack of subject matter jurisdiction and failure to state a claim upon which relief can be granted. In January 2006, ABI was notified by the Maine DEP that it is a responsible party as to both Parcel A

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

and Parcel B.

Prior to the commencement of the lawsuit by Miller, the Company had been investigating and reviewing the condition of Parcel A and its potential liability for its share of any clean-up costs. The Company believes, at this time, that the cost of site investigation, remediation, maintenance and monitoring for Parcel A will be between approximately \$1.2 million and \$1.5 million. Prior to the filing of the lawsuit, the Company was also in the process of reviewing the condition of Parcel B and its potential liability for its share of any clean-up costs. The Company cannot determine at this time the cost of site investigation, remediation, maintenance and monitoring for Parcel B. Furthermore, at this time, the Company is not able to determine what its potential liability will be with regard to the Maine Sites. Under an agreement between ABI and TBC, TBC is liable for 37.5% of costs incurred by ABI for the Maine Sites.

21

### Note I - Commitments and Contingencies (continued)

ABI has made demands against its insurance carriers to provide defense and indemnity for ABI's liabilities at all of the CERCLA and state supervised sites. An agreement was executed by ABI and its carriers regarding the payment of the defense costs for the Olin Site. ABI has reached agreements with four of its insurance carriers whereby the carriers have reimbursed the Company \$6.5 million for past and current environmental claims. One carrier has also agreed to reimburse the Company for 2.5% of the Company's liabilities regarding future environmental expenses related to the Olin Site, \$57 thousand of which was reimbursed through March 31, 2006 and 37.5% of the amount of that reimbursement was shared with TBC pursuant to the Company's agreement with TBC. ABI and one of its insurance carriers continue to discuss ABI's remaining demands for insurance coverage for these sites.

In connection with the transfer of ABI's Trenton, NJ tile plant to Congoleum in 1993, the Company signed an administrative consent order from the New Jersey Department of Environmental Protection for any environmental remediation the state may require at that location. Pursuant to the contribution in 1993 of the Company's former tile division to Congoleum, Congoleum assumed liability for the cost of cleaning up the site. Congoleum has established a remediation trust fund of \$100 thousand as financial assurance for certain remediation funding obligations. The Company remains contingently liable in the event that Congoleum fails to perform or fund any required remediation relating to this site.

The outcome of these matters could result in significant expenses incurred by, or judgments assessed against, the Company, which could have a material adverse effect on the financial position, results of operations or cash flows of the Company.

#### Congoleum

Congoleum is a defendant in a large number of asbestos-related lawsuits and on December 31, 2003, filed a petition commencing a voluntary reorganization case under Chapter 11 of the Bankruptcy Code. See Note J - "Congoleum Asbestos Liabilities and Reorganization."

Congoleum is named, together with a large number (in most cases, hundreds) of other companies, as a PRP in pending proceedings under CERCLA and similar state laws. In addition, in four other instances, although not named as a PRP, Congoleum has received a request for information. These pending proceedings in which Congoleum is a named PRP currently relate to eight disposal sites in New

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

Jersey, Pennsylvania and Maryland in which recovery from generators of hazardous substances is sought for the cost of cleaning up the contaminated waste sites. Congoleum's ultimate liability and funding obligations in connection with those other sites depends on many factors, including the volume of material contributed to the site by Congoleum, the number of other PRP's and their financial viability, the remediation methods and technology to be used and the extent to which costs may be recoverable by Congoleum from relevant insurance policies. However, under CERCLA, and certain other laws, as a PRP, Congoleum can be held jointly and severally liable for all environmental costs associated with a site.

22

### Note I - Commitments and Contingencies (continued)

The most significant exposure to which Congoleum has been named a PRP relates to a recycling facility site in Elkton, Maryland. The PRP group at this site is made up of 81 companies, substantially all of which are large, financially solvent entities. Two removal actions were substantially complete as of December 31, 1998, and a groundwater treatment system was installed thereafter. The EPA has selected a remedy for the soil and shallow groundwater; however, the remedial investigation/feasibility study related to the deep groundwater has not been completed. The PRP group estimated that future costs of the remedy recently selected by the EPA based on engineering estimates would be approximately \$11.0 million. Congoleum's proportionate share, based on waste disposed at the site, is estimated to be approximately 5.7%, or approximately \$700 thousand. The majority of Congoleum's share of costs incurred to date has been paid by one of its insurance carriers, whose remaining policy limits for this claim will cover approximately half this amount. Congoleum expects the balance to be funded by other insurance carriers and Congoleum.

Congoleum also accrues remediation costs for certain of Congoleum's owned facilities on an undiscounted basis. Congoleum has entered into an administrative consent order with the New Jersey Department of Environmental Protection and has established a remediation trust fund of \$100 thousand as financial assurance for certain remediation funding obligations. Estimated total clean-up costs of \$1.6 million, including capital outlays and future maintenance costs for soil and groundwater remediation, are primarily based on engineering studies. Of this amount, \$300 thousand was included in current liabilities subject to compromise and \$1.3 million was included in non-current liabilities subject to compromise as of March 31, 2006 and December 31, 2005.

At March 31, 2006 and December 31, 2005, Congoleum had recorded a total of \$4.3 million for estimated environmental liabilities and \$1.9 million for related insurance recoveries. Receivables for expected insurance recoveries are recorded if the related carriers are solvent and paying claims under a reservation of rights or under an obligation pursuant to coverage in place or a settlement agreement. Substantially all of Congoleum's recorded insurance asset for environmental matters is collectible from a single carrier.

Congoleum anticipates that these matters will be resolved over a period of years, and that after application of expected insurance recoveries, funding of the costs by Congoleum will not have a material adverse impact on Congoleum's liquidity or financial position. However, unfavorable developments in these matters could result in significant expenses or judgments that could have a material adverse effect on the business, operations and financial position of Congoleum.

Other

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

In addition to the matters referenced above and in Note J, in the ordinary course of their businesses, the Company and Congoleum become involved in lawsuits, administrative proceedings in connection with product liability claims and other matters. In some of these proceedings, plaintiffs may seek to recover large and sometimes unspecified amounts, and the matters may remain unresolved for several years.

23

### Note J - Congoleum Asbestos Liabilities and Reorganization

In early 2003, Congoleum announced a strategy for resolving current and future asbestos claims liability through confirmation of a pre-packaged plan of reorganization under Chapter 11 of the Bankruptcy Code. Later in 2003, Congoleum entered into the Claimant Agreement, a settlement agreement with various asbestos personal injury claimants. As contemplated by the Claimant Agreement, Congoleum also entered into agreements establishing the Collateral Trust to distribute funds in accordance with the terms of the Claimant Agreement and granting the Collateral Trust a security interest in Congoleum's rights under its applicable insurance coverage and payments from Congoleum's insurers for asbestos claims.

The Claimant Agreement established a compensable disease valuation matrix (the "Matrix") and allowed claimants who qualified to participate in the Claimant Agreement (the "Qualifying Claimants") to settle their claims for the Matrix value, secured in part (75%) by a security interest in the collateral granted to the Collateral Trust. The Collateral Trust provides for distribution of trust assets according to various requirements that give priority (subject to aggregate distribution limits) to participating claimants who had pre-existing unfunded settlement agreements ("Pre-Existing Settlement Agreements") with Congoleum and participating claimants who qualified for payment under unfunded settlement agreements entered into by Congoleum with plaintiffs that had asbestos claims pending against Congoleum and which claims were scheduled for trial after the effective date of the Claimant Agreement but prior to the commencement of Congoleum's anticipated Chapter 11 reorganization case ("Trial-Listed Settlement Agreements").

The Claimant Agreement incorporated Pre-Existing Settlement Agreements and the settlement of certain Trial-Listed Settlement Agreement claims for a fully secured claim against the Collateral Trust, and it settled all other claims for a secured claim against the Collateral Trust equal to 75% of the claim value and an unsecured claim for the remaining 25%. In December 2005, Congoleum commenced the Avoidance Actions seeking to void the security interest granted to the Collateral Trust and such settlements. In March 2006, Congoleum filed a motion for summary judgment in the Avoidance Actions seeking to avoid the Claimant Agreement settlements and liens under various bankruptcy theories.

In October 2003, Congoleum began soliciting acceptances for its proposed pre-packaged plan of reorganization and Congoleum received the votes necessary for acceptance of the plan in late December 2003. On December 31, 2003, Congoleum filed a voluntary petition with the Bankruptcy Court (Case No. 03-51524) seeking relief under Chapter 11 of the Bankruptcy Code. In January 2004, Congoleum filed its proposed plan of reorganization and disclosure statement with the Bankruptcy Court.

24

### Note J - Congoleum Asbestos Liabilities and Reorganization (continued)

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

In November 2004, Congoleum filed the Fourth Plan with the Bankruptcy Court reflecting the result of further negotiations with representatives of the Asbestos Claimants' Committee, the Future Claimants' Representative and other asbestos claimant representatives. The Bankruptcy Court approved the disclosure statement and plan voting procedures in December 2004 and Congoleum obtained the requisite votes of asbestos personal injury claimants necessary to seek approval of the Fourth Plan.

In April 2005, Congoleum announced that it had reached an agreement in principle with representatives of the Asbestos Claimants' Committee and the Future Claimants' Representative to make certain modifications to its proposed plan of reorganization and related documents governing the settlement and payment of asbestos-related claims against Congoleum. Under the agreed-upon modifications, asbestos claimants with claims settled under Congoleum's pre-petition settlement agreements would agree to forbear from exercising the security interest they were granted and share on a pari passu basis with all other present and future asbestos claimants in insurance proceeds and other assets of the Plan Trust.

In July 2005, Congoleum filed the Sixth Plan and related documents with the Bankruptcy Court which reflected the result of these negotiations, as well as other technical modifications. The Bankruptcy Court approved the disclosure statement and voting procedures and Congoleum commenced solicitation of acceptances of the Sixth Plan in August 2005. In September 2005, Congoleum learned that certain asbestos claimants were unwilling to agree to forbear from exercising their security interest as contemplated by the Sixth Plan and subsequently withdrew the Sixth Plan.

In November 2005, the Bankruptcy Court denied a request to extend Congoleum's exclusive right to file a plan of reorganization and solicit acceptances thereof. In February 2006, Congoleum filed the Seventh Plan. On February 27, 2006, Congoleum announced its intention to make additional changes to its plan of reorganization, and on March 17, 2006 it filed the Eighth Plan. In addition, an insurance company has filed the CNA Plan and the Official Committee of Bondholders has filed the Bondholder Plan. The Bankruptcy Court has scheduled a hearing to consider the adequacy of the disclosure statements with respect to these plans for June 8, 2006.

Under the terms of the Eighth Plan, asbestos personal injury claimants voting to accept the plan would irrevocably consent or would be deemed to have irrevocably consented to the forbearance of any claim and lien rights under the Claimant Agreement and related agreements.

Under the terms of the Eighth Plan, after the establishment of the Plan Trust, the assets in the Collateral Trust would be transferred to the Plan Trust and any asbestos claims would be channeled to the Plan Trust and paid in accordance with the terms of the Eighth Plan.

### Note J - Congoleum Asbestos Liabilities and Reorganization (continued)

There can be no assurance that Congoleum will not amend the Eighth Plan, that Congoleum will obtain approval to solicit acceptances of its plan of reorganization, that Congoleum will receive the acceptances necessary for confirmation of its plan, that its plan will not be modified further, that its plan will receive necessary court approvals from the Bankruptcy Court or the Federal District Court, or that such approvals will be received in a timely fashion, that its plan will be confirmed, or that its plan, if confirmed, will become effective. It is unclear whether the Bankruptcy Court will approve the

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

CNA Plan or the Bondholder Plan or whether either of such plans, if confirmed, would be feasible. Moreover, it is unclear whether any other person will attempt to propose a plan or what any such plan would provide or propose, and whether the Bankruptcy Court would approve a plan other than Congoleum's proposed plan.

Congoleum is presently involved in litigation with certain insurance carriers related to disputed insurance coverage for asbestos related liabilities, and certain insurance carriers filed various objections to Congoleum's previously proposed plans of reorganization and related matters and are expected to file objections to the Eighth Plan. Certain other parties have also filed various objections to Congoleum's previously proposed plans of reorganization and may file objections to the Eighth Plan.

During 2005 and 2006 Congoleum has entered into a number of settlement agreements with excess insurance carriers over coverage for asbestos-related claims. In May 2005, certain AIG companies agreed to pay approximately \$103 million over ten years to the Plan Trust. This settlement resolves coverage obligations of policies with a total of \$114 million in liability limits for asbestos bodily injury claims. Payment is subject to various conditions, including without limitation, the effectiveness of a plan of reorganization that provides AIG with certain specified relief including a channeling injunction pursuant to Section 524(g) of the Bankruptcy Code. An insurer has appealed the approval order granted by the Bankruptcy Court to the U.S. District Court, where it is pending. In June 2005, Congoleum entered into a settlement agreement with certain underwriters at Lloyd's, London, pursuant to which the certain underwriters paid approximately \$20 million into an escrow account in exchange for a release of insurance coverage obligations. The escrow agent will transfer the funds to the Plan Trust once a plan of reorganization with the Section 524(g) protection specified in the settlement agreement goes effective and the Bankruptcy Court approves the transfer of the funds. In August 2005, Congoleum entered into a settlement agreement with Federal Insurance Company pursuant to which Federal will pay \$4 million to the Plan Trust, subject to certain adjustments, once a plan of reorganization with the Section 524(g) protection specified in the settlement agreement goes effective and the Bankruptcy Court approves the transfer of the funds. The Future Claimants' Representative has appealed the approval order granted by the Bankruptcy Court to the U.S. District Court, where it is pending. In October 2005, Congoleum entered into a settlement agreement with Mt. McKinley Insurance Company and Everest Reinsurance Company pursuant to which Mt. McKinley and Everest have paid \$21.5 million into an escrow account. The escrow agent will transfer the funds to the Plan Trust once a plan of reorganization with the Section 524(g) protection specified in the settlement agreement goes effective and the Bankruptcy Court

26

Note J - Congoleum Asbestos Liabilities and Reorganization (continued)

approves the transfer of the funds. An insurer and the Future Claimants' Representative have appealed the approval order granted by the Bankruptcy Court to the U.S. District Court, where it is pending. In March 2006, Congoleum entered into a settlement agreement with Harper Insurance Limited. Under the terms of this settlement, Harper will pay \$1.4 million to Congoleum or the Plan Trust once certain conditions are satisfied, including the effectiveness of a plan of reorganization containing the Section 524(g) protection specified in the settlement agreement. The Bankruptcy Court approved this settlement on April 2006. In April 2006, Congoleum entered into a settlement agreement with Travelers Casualty and Surety Company and St. Paul Fire and Marine Insurance Company (collectively, "Travelers"). Under the terms of this settlement, Travelers will pay \$25 million in two installments over thirteen months to the Plan Trust once a plan of reorganization with the Section 524(g) protection

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

specified in the settlement agreement goes effective and the Bankruptcy Court approves the transfer of the funds.

A motion for Bankruptcy Court approval of this settlement is pending. In April 2006, Congoleum also entered into a settlement agreement with Fireman's Fund Insurance Company. Under the terms of this settlement, Fireman's Fund will pay \$1 million to the Plan Trust once a plan of reorganization with the Section 524(g) protection specified in the settlement agreement goes effective and the Bankruptcy Court approves the transfer of the funds. A motion for Bankruptcy Court approval of this settlement is pending. It is possible that any of the settling insurers may argue that the Eighth Plan is not substantially similar to relevant provisions of earlier plans referenced in its respective settlement agreement and therefore is relieved of its settlement obligation.

Congoleum expects that it will take until some time in the fourth quarter of 2006 at the earliest to obtain confirmation of the Eighth Plan.

Under the Eighth Plan, Congoleum's assignment of insurance recoveries to the Plan Trust is net of costs incurred by Congoleum in connection with insurance coverage litigation. Congoleum is entitled to withhold from recoveries, or seek reimbursement from the Plan Trust, for coverage litigation costs incurred after January 1, 2003. Congoleum also paid \$1.3 million in claims processing fees in connection with claims settled under the Claimant Agreement. Under the Eighth Plan, Congoleum is entitled to withhold from recoveries, or seek reimbursement from the Plan Trust, for the \$1.3 million claims processing fee. There can be no assurance that any future plan will provide for Congoleum to recover any coverage litigation costs or claims processing fees. The Eighth Plan provides for the channeling of asbestos property damage claims in addition to asbestos personal injury claims to the Plan Trust. There were no asbestos related property damage claims asserted against Congoleum at the time of its bankruptcy filing. The Bankruptcy Court approved an order establishing a bar date of May 3, 2004 for the filing of asbestos property damage claims. The claims agent appointed in Congoleum's bankruptcy proceeding advised Congoleum that, as of the bar date, it received 35 timely filed asbestos property damage claims asserting liquidated damages in the amount of approximately \$0.8 million plus additional unspecified amounts. Congoleum objected to certain claims on various grounds, and the Bankruptcy Court ultimately allowed 19 claims valued at \$133 thousand. The Eighth Plan will pay those claims in full from certain insurance proceeds.

27

### Note J - Congoleum Asbestos Liabilities and Reorganization (continued)

The Eighth Plan provides that on the effective date of the Eighth Plan, Congoleum will issue a new security (the "New Convertible Security") in the form of either shares of preferred stock or convertible promissory notes and contribute it to the Plan Trust on the effective date of its plan of reorganization in satisfaction of section 524(g) of the Bankruptcy Code. If the New Convertible Security is to be shares of preferred stock of reorganized Congoleum, it will have the following terms: (i) an initial liquidation preference equal to \$2,738,234.75 in the aggregate, such amount being subject to increase in the amount (the "Market Reset Obligation"), if any, by which 36% of reorganized Congoleum's market capitalization based on average trading prices for reorganized Congoleum's Class A common stock at the close of trading for the 90 consecutive trading days beginning on the one year anniversary of the effective date of its plan of reorganization, exceeds such initial liquidation preference; (ii) an initial dividend rate equal to 9% of the liquidation preference per annum, payable semi-annually in arrears, with such dividend rate to reset at the rate of 5% of the liquidation preference per annum on the tenth anniversary of such effective date and payable at such reset dividend rate per

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

annum unless and until redeemed; (iii) redeemable for the liquidation preference at the option of the Plan Trust or reorganized Congoleum following the tenth anniversary of such effective date; (iv) a mandatory redemption on the fifteenth anniversary of such effective date if not redeemed earlier; (v) convertible into 5,700,000 shares of Class A Common Stock (or the equivalent thereof on a fully diluted basis) upon a specified default of the obligation to pay dividends and a failure to cure such default within any cure period, which, when combined with the 3.8 million newly issued shares of Class A Common Stock to be contributed to the Plan Trust, will result in the Plan Trust owning 51% of the voting common shares of reorganized Congoleum on a fully diluted basis; and (vi) no voting rights, except upon conversion. If the New Convertible Security is convertible promissory notes, such notes will be on economic terms substantially equivalent to provisions (i) and (v) of the preferred stock described herein, with other terms substantially the same as the Promissory Note described in the Sixth Plan.

Under the Eighth Plan and related documents, ABI has agreed to make a cash contribution in the amount of \$250 thousand to the Plan Trust upon the formation of the Plan Trust. Under the Eighth Plan, ABI would receive certain relief as may be afforded under Section 524(g)(4) of the Bankruptcy Code from asbestos claims that derive from claims made against Congoleum, which claims are expected to be channeled to the Plan Trust. However, the Eighth Plan does not provide that any other asbestos claims that may be asserted against ABI would be channeled to the Plan Trust.

There are sufficient risks and uncertainties related to Congoleum's efforts to confirm a plan of reorganization such that no assurances of the outcome can be given. In addition, the remaining costs to effect the reorganization process, consisting principally of legal and advisory fees and contributions to the Plan Trust, are expected to be approximately \$17.2 million at a minimum, not including any Market Reset Obligation arising from revaluation of the New Convertible Security, and could be materially higher.

28

### Note J - Congoleum Asbestos Liabilities and Reorganization (continued)

Based on the Eighth Plan, Congoleum has made provision in its financial statements for the minimum amount of the range of estimates for its contribution to effect its plan to settle asbestos liabilities through the Plan Trust. Congoleum recorded charges aggregating approximately \$51.3 million in prior years, and is not yet able to determine the amount of the additional cost that will be required to complete its reorganization as based on the Eighth Plan. Congoleum is not yet able to determine the additional costs that may be required to effect the Eighth Plan or any other plan, and actual amounts that will be contributed to the Plan Trust and costs for pursuing and implementing any plan of reorganization could be materially higher than currently recorded. Delays in proposing, filing or obtaining approval of the Eighth Plan or any new amended plan of reorganization, or the continued pursuit of the CNA Plan or the Bondholder Plan by the proponents of such plans, or the proposal of additional plans by other parties could result in a proceeding that takes longer and is more costly than Congoleum has estimated. Congoleum may record significant additional charges should the minimum estimated cost increase.

### Note K - Comprehensive Income (Loss)

The following table presents total comprehensive income for the three months ended March 31, 2006 and 2005 (in thousands):

	2006	2005
	-----	-----

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

Net income	\$ 486	\$ 624
Foreign currency translation adjustments	29	(192)
	-----	-----
 Total comprehensive income	 \$ 515	 \$ 432
	=====	=====

### Note L - Earnings (Loss) Per Share

Basic and diluted earnings per share are computed in accordance with FASB Statement No. 128, Earnings per Share ("SFAS 128"). SFAS 128 requires both basic earnings per share, which is based on the weighted-average number of common shares outstanding, and diluted earnings per share, which is based on the weighted-average number of common shares outstanding and all dilutive potential common equivalent shares outstanding. The dilutive effect of options is determined under the treasury stock method using the average market price for the period. Common equivalent shares are included in the per share calculations when the effect of their inclusion would be dilutive.

29

### Note M - Industry Segments

#### Description of Products and Services

The Company has four reportable segments: flooring products, tape products, jewelry and a Canadian division that produces flooring and rubber products. The flooring products segment consists of Congoleum, a manufacturer of resilient floor coverings, which are sold primarily through floor covering distributors to retailers and contractors for commercial and residential use. The tape products segment manufactures paper, film, HVAC, electrical, shoe and other tape products for use in industrial and automotive markets in two production facilities in the United States, and in finishing and sales facilities in Belgium and Singapore. The jewelry segment consists of the Company's majority-owned subsidiary K&M Associates L.P., a national costume jewelry supplier to mass merchandisers and department stores. The Company's Canadian division produces flooring, rubber and other industrial products.

Net sales by segment for the three months ended March 31, 2006 and 2005 were as follows (in thousands):

	2006	2005
	-----	-----
Net sales to external customers:		
Flooring products	\$ 57,237	\$ 57,682
Tape products	26,123	22,599
Jewelry	15,084	15,888
Canadian division	13,277	11,255
	-----	-----

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

On December 31, 2003, Congoleum filed a voluntary petition with the Bankruptcy Court seeking relief under Chapter 11 of the Bankruptcy Code as a means to resolve claims asserted against it related to the use of asbestos in its products decades ago. During 2003, Congoleum obtained the requisite votes of asbestos personal injury claimants necessary to seek approval of a proposed, pre-packaged Chapter 11 plan of reorganization. In January 2004, Congoleum filed its proposed plan of reorganization and disclosure statement with the Bankruptcy Court. In November 2004, Congoleum filed the Fourth Plan with the Bankruptcy Court reflecting the result of further negotiations with representatives of the Asbestos Claimants' Committee, the Future Claimants' Representative and other asbestos claimant representatives. The Bankruptcy Court approved the disclosure statement and plan voting procedures in December 2004 and Congoleum obtained the requisite votes of asbestos personal injury claimants necessary to seek approval of the Fourth Plan. In April 2005, Congoleum announced that it had reached an agreement in principle with representatives of the Asbestos Claimants' Committee and the Future Claimants' Representative to make certain modifications to its proposed plan of reorganization and related documents governing the settlement and payment of asbestos-related claims against Congoleum. Under the agreed-upon modifications, asbestos claimants with claims settled under Congoleum's pre-petition settlement agreements would agree to forbear from exercising the security interest they were granted and share on a pari passu basis with all other present and future asbestos claimants in insurance proceeds and other assets of the Plan Trust. In July 2005, Congoleum filed the Sixth Plan and related documents with the Bankruptcy Court which reflected the result of these negotiations as well as other technical modifications. The Bankruptcy Court approved the disclosure statement and voting procedures and Congoleum commenced solicitation of acceptances of the Sixth Plan in August 2005. In September 2005, Congoleum learned that certain asbestos claimants were unwilling to agree to forbear from exercising their security interest as contemplated by the Sixth Plan and the Sixth Plan was subsequently withdrawn. In November 2005, the Bankruptcy Court denied a request to extend Congoleum's exclusive right to file a plan of reorganization and solicit acceptances thereof. In February 2006, Congoleum filed the Seventh Plan. On February 27, 2006, Congoleum announced its intention to make additional changes to its plan of reorganization, and on March 17, 2006 it filed the Eighth Plan. In addition, an insurance company has filed the CNA Plan and the Official Committee of Bondholders has filed the Bondholder Plan. The Bankruptcy Court has scheduled a hearing to consider the adequacy of the disclosure statements with respect to these plans for June 8, 2006.

There can be no assurance that Congoleum will not amend the Eighth Plan, that Congoleum will obtain approval to solicit acceptances of its plan of reorganization, that Congoleum will receive the acceptances necessary for confirmation of its plan of reorganization, that its plan will not be modified further, that its plan will receive necessary court approvals from the Bankruptcy Court or the Federal District Court, or that such approvals will be received in a timely fashion, that its plan will be confirmed, or that its plan, if confirmed, will become effective. It is unclear whether the Bankruptcy Court will approve the CNA Plan or the Bondholder Plan or whether either of such plans, if confirmed, would be feasible. Moreover, it is unclear whether any other person will attempt to propose a plan or what any such plan would provide or propose, and whether the Bankruptcy Court would approve a plan other than Congoleum's proposed plan.

Congoleum is presently involved in litigation with certain insurance carriers related to disputed insurance coverage for asbestos related liabilities, and certain insurance carriers filed various objections to Congoleum's previously proposed plans of reorganization and related matters and are expected to file objections to the Eighth Plan. Certain other parties have also filed various objections to Congoleum's previously proposed plans of reorganization and may file objections to the Eighth Plan.

Congoleum expects that the terms of the Eighth Plan may be amended or modified as a result of further negotiations with various parties. The terms of the CNA Plan and the Bondholder Plan are materially different from the terms of the Eighth Plan, and these plans may also be amended or modified or may be withdrawn. There can be no assurance that the terms of the reorganization plan that is ultimately confirmed, if any, will not materially differ from the terms of the Eighth Plan. Congoleum expects that it will take until some time in the fourth quarter of 2006 at the earliest to obtain confirmation of any plan of reorganization.

In anticipation of Congoleum's commencement of the Chapter 11 cases, Congoleum entered into the Claimant Agreement, which provides for an aggregate settlement value of at least \$466 million as well as an additional number of individually negotiated trial listed settlements with an aggregate value of approximately \$25 million, for total settlements in excess of \$491 million. As contemplated by the Claimant Agreement, Congoleum also entered into agreements establishing the Collateral Trust to distribute funds in accordance with the terms of the Claimant Agreement and granting the Collateral Trust a security interest in Congoleum's rights under its applicable insurance coverage and payments from Congoleum's insurers for asbestos claims. In December 2005, Congoleum commenced the Avoidance Actions seeking to void the security interest granted to the Collateral Trust and such settlements. In March 2006, Congoleum filed a motion for summary judgment in the Avoidance Actions seeking to avoid the Claimant Agreement settlements and liens under various bankruptcy theories. Under the terms of the Eighth Plan, asbestos personal injury claimants voting to accept the plan would irrevocably consent or would be deemed to have irrevocably consented to the forbearance of any claim and lien rights under the Claimant Agreement and related agreements. Under the terms of the Eighth Plan, after the establishment of the Plan Trust, the assets in the Collateral Trust would be transferred to the Plan Trust and any claims subject to the Claimant Agreement would be channeled to the Plan Trust and paid in accordance with the terms of the Eighth Plan. Settlement values under the Eighth Plan may differ from values under the Sixth Plan and the Claimant Agreement, which, together with the outcome of the Avoidance Actions, may materially affect the liability associated with the asbestos personal injury claims against Congoleum. As a result of tabulating ballots on the Fourth Plan, Congoleum is also aware of claims by claimants whose claims were not determined under the Claimant Agreement but who have submitted claims with a value of approximately \$512 million based on the settlement values applicable in the Sixth Plan. Based on the Eighth Plan, Congoleum has made provision in its financial statements for the minimum amount of the range of estimates for its contribution to effect its plan to settle asbestos liabilities through the Plan Trust. Congoleum recorded charges aggregating approximately \$51.3 million in prior years and is not yet able to determine the amount of the additional cost that will be required to complete its reorganization. Actual amounts that will be contributed to the Plan Trust and costs for pursuing and implementing the Eighth Plan or any other plan of reorganization could be materially higher than currently recorded. Congoleum may

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

record significant additional charges should the minimum estimated cost increase. Delays in proposing, filing or obtaining approval of the Eighth Plan or any new amended plan of reorganization, or the continued pursuit of the CNA Plan or the Bondholder Plan by the proponents of such plans, or the proposal of additional plans by other parties could result in a proceeding that takes longer and is more costly than Congoleum has estimated.

Please refer to "Risk Factors - The Company and its majority-owned subsidiary Congoleum have significant asbestos liability and funding exposure, and the Company's and Congoleum's strategies for resolving this exposure may not be successful" included in Part II, Item 1A. for a discussion of certain factors that could cause actual results to differ from the Congoleum's goals for resolving its asbestos liability through a plan of reorganization.

During 2003, the Company decided to discontinue the operations of its Janus Flooring Corporation subsidiary ("Janus"), a manufacturer of pre-finished hardwood flooring, and sell the related assets. Results of Janus, including charges resulting from the shutdown, are being reported as a discontinued operation.

Due to Congoleum's Chapter 11 proceedings and separate capital structure, the Company believes that presenting ABI and its non-debtor subsidiaries separately from Congoleum is the most meaningful way to discuss and analyze its financial condition and results of operations. ABI and its non-debtor subsidiaries are comprised of the Tape, Jewelry (comprised of the Company's majority-owned subsidiary, K&M Associates L.P.) and Canadian division segments as well as Corporate items and Janus. Congoleum is the flooring products segment.

### Application of Critical Accounting Policies and Estimates

The discussion and analysis of the Company's financial condition and results of operations are based upon the Company's consolidating financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities as of the date of the Company's financial statements and the reported amounts of revenues and expenses during the reporting period. The Company's actual results may differ from these estimates under different assumptions or conditions.

Critical accounting policies are defined as those that reflect significant judgments and uncertainties, and could potentially result in materially different results under different assumptions and conditions. The Company believes that its most critical accounting policies, upon which its financial condition depends and which involve the most complex or subjective decisions or assessments, are those described in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2005, filed with the Securities and Exchange Commission. There have been no material changes in what the Company considers to be its critical accounting policies or the applicability of the disclosure the Company provided regarding those policies in that Form 10-K.

### Results of Operations

#### ABI and Non-Debtor Subsidiaries

Three Months Ended March 31

Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

	2006		2005	
	-----		-----	
	(In thousands of dollars)			
Net sales	\$ 54,484		\$ 49,742	
Cost of sales	39,531		34,931	
	-----		-----	
Gross profit	14,953	27.4%	14,811	29.8%
Selling, general & administrative expenses	13,994	25.7%	13,791	27.7%
	-----		-----	
Operating income	959		1,020	
Interest expense, net	(593)		(719)	
Other income, net	160		2,132	
	-----		-----	
Income before taxes and other items	526		2,433	
Provision for income taxes	196		971	
Noncontrolling interests	(16)		(474)	
	-----		-----	
Income from continuing operations	\$ 314		\$ 988	
	=====		=====	

Net sales in the first quarter of 2006 were \$54.5 million compared to \$49.7 million in the first quarter of 2005, an increase of \$4.8 million or 9.7%. Tape division sales increased \$3.5 million, or 15.6%, as a result of higher sales volume in automotive and other films, coupled with price increases on most product lines. Canadian division sales increased \$2.0 million, or 18%, on higher volume and pricing of flooring and industrial products. Jewelry sales declined \$0.8 million, or 5.1%, as sales were negatively affected by the merger and store consolidation by two major department store customers.

Gross profit decreased from 29.8% for the first quarter of 2005 to 27.4% for the first quarter of 2006. Gross margins declined in the Tape business due to higher costs for raw materials and energy, of which only a portion was recovered through selling price increases. Jewelry margins also declined, as the cost of goods (primarily sourced from China) has increased while mass merchandisers have resisted efforts to pass along those increases. A lower proportion of Jewelry sales in the first quarter of 2006 versus 2005 also contributed to the overall gross margin decrease, because Jewelry has higher gross margins as a percent of sales than the other segments. Canadian margins improved due to increased sales volume, higher selling prices to offset cost increases, and manufacturing cost reductions.

The Company includes the cost of purchasing and finished goods inspection in selling, general and administrative expenses. Some companies also record such costs in operating expenses while others record them in cost of goods sold. Consequently, the Company's gross profit margins may not be comparable to other companies. Had the Company recorded these expenses in cost of sales, the gross profit margins for the quarter ended March 31, 2006 and 2005 would have been 26.9% and 29.3%, respectively.

Selling, general and administrative ("SG&A") expenses in the first quarter of 2006 increased by \$203 thousand or 1.5% compared to the first quarter of 2005. This increase was primarily due to higher freight and sales commissions. As a percentage of net sales, SG&A decreased from 27.7% to 25.7%, as programs to contain or reduce SG&A costs kept the growth rate of these expenses well below

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

the sales growth rate.

Net interest expense for the first quarter of 2006 was lower than the first quarter of 2005 primarily due to a 150 basis point reduction in the leverage fee charged on the Company's \$20 million notes.

Other income for the first quarter of 2005 includes a gain of \$2.3 million recognized on the sale of a warehouse. The impact of this sale on the Company's net income after taxes and non-controlling interest was \$887 thousand, or \$0.26 per share.

The effective tax rate was 37% in the first quarter of 2006 compared to 40% in the first quarter of 2005. The lower rate is attributed to the effect of the Canadian division's lower effective rate and projected income for the year.

Income from continuing operations in the first quarter of 2006 was \$314 thousand compared to \$988 thousand for the corresponding prior year period. Excluding the net impact of the warehouse sale, income from continuing operations for the first quarter of 2005 was approximately \$101 thousand.

### Congoleum

	Three Months Ended March 31			
	2006		2005	
	-----		-----	
	(In thousands of dollars)			
Net sales	\$ 57,237		\$ 57,630	
Cost of sales	43,960		43,969	
	-----		-----	
Gross profit	13,277	23.2%	13,661	23.7%
Selling, general & administrative expenses	10,396	18.2%	11,733	20.4%
	-----		-----	
Operating income	2,881		1,928	
Interest expense, net	(2,577)		(2,402)	
Other (expense) income, net	(42)		122	
	-----		-----	
Income (loss) before taxes	262		(352)	
Provision for income taxes	51		--	
	-----		-----	
Net income (loss)	\$ 211		\$ (352)	
	=====		=====	

Net sales for the three months ended March 31, 2006 were \$57.2 million as compared to \$57.6 million for the three months ended March 31, 2005, a decrease of \$0.4 million or 0.7%. The decrease reflected weaker sales in high-end resilient sheet products and the impact of a promotional roll sales program in the first quarter of 2005 which was not repeated in 2006. Offsetting these declines were the impact of price increases instituted in the second half of 2005 (5.7%) and higher sales in the manufactured housing category.

Gross profit for the three months ended March 31, 2006 totaled \$13.3 million, or 23.2% of net sales, compared to \$13.7 million, or 23.7% of net sales, for the same period last year. The major factors leading to the deterioration in gross margin were the increase in raw material costs and utility costs experienced during the second half of 2005, which reduced margins by approximately 4.0%

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

points of net sales, and the poorer sales mix which reduced margin by 2% points of net sales. This was partially mitigated by the 5.7% increase in selling prices.

Selling, general and administrative expenses were \$10.4 million for the three months ended March 31, 2006 as compared to \$11.7 million for the three months ended March 31, 2005, a decrease of \$1.3 million. The reduction in expenses reflects lower merchandising and sales support related costs (down \$0.6 million), lower compensation and related benefit costs reflecting workforce reductions in late 2005 (\$0.4 million) and lower depreciation expense (\$0.2 million). As a percent of net sales, selling, general and administrative costs were 18.2% for the three months ended March 31, 2006 compared to 20.4% for the same period last year.

Income from operations was \$2.9 million for the quarter ended March 31, 2006 compared to income of \$1.9 million for the quarter ended March 31, 2005. The improvement in operating income was a result of lower selling, general and administrative expenses which offset the impact of lower sales and gross margins.

### Liquidity and Capital Resources

#### ABI & Non-Debtor Subsidiaries

Cash and cash equivalents, including short term investments, decreased \$2.8 million in the first three months of 2006 to \$1.9 million. Cash used by operating activities, principally for seasonal working capital increases, was funded from existing balances. Working capital at March 31, 2006 was \$21.1 million, up from \$19.8 million at December 31, 2005. The ratio of current assets to current liabilities at March 31, 2006 was 1.35 compared to 1.33 at December 31, 2005.

Capital expenditures in the first three months of 2006 were \$418 thousand compared to \$346 thousand for the first three months of 2005. It is anticipated that capital spending for the full year 2006 will be approximately \$4 million.

During the first quarter of 2005, the Company sold a warehouse for \$2.5 million, resulting in net cash proceeds of \$2.3 million. The warehouse was owned by Tullahoma Properties L.L.C., a subsidiary in which the Company owns a 62.5% interest.

37

The Company has recorded provisions which it believes are adequate for environmental remediation, including provisions for testing and potential remediation of conditions at its own facilities, and non-asbestos product-related liabilities. While the Company believes its estimate of the future amount of these liabilities is reasonable, that most of such amounts will be paid over a period of one to ten years and that the Company expects to have sufficient resources to fund such amounts, the actual timing and amount of such payments may differ significantly from the Company's assumptions. Although the effect of future government regulation could have a significant effect on the Company's costs, the Company is not aware of any pending legislation or regulation relating to these matters that would have a material adverse effect on its consolidated results of operations or financial position. There can be no assurances that any such costs could be passed along to its customers.

American Biltrite Inc. has two principal debt agreements that it is party to as borrower. The first of those agreements is a credit agreement (the "Credit Facility") with Fleet National Bank, a Bank of America company ("BoFA"), and

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

Bank of America National Association acting through its Canada branch (the "Canadian Lender"). The Credit Facility provides American Biltrite Inc. and its subsidiary K&M Associates L.P. with a revolving credit facility of up to \$20 million and a \$12 million borrowing sublimit for American Biltrite Inc.'s subsidiary American Biltrite (Canada) Ltd. ("AB Canada"). The amount of domestic borrowings available from time to time under the Credit Facility for the Company may not exceed the lesser of (a) \$20 million less the then outstanding amount of borrowings by AB Canada under the Canadian sublimit facility and (b) the applicable borrowing base. The formula used for determining the borrowing base is based upon inventory, receivables and fixed assets of the Company and certain of its subsidiaries (not including, among others, AB Canada and Congoleum), reduced by amounts outstanding under the Note Agreement (as defined below). American Biltrite Inc. and K&M Associates L.P. may also obtain letters of credit in an aggregate amount at any time outstanding of up to \$4 million, subject to the Credit Facility's maximum borrowing availability limit discussed above.

Interest is payable quarterly on domestic revolving loans borrowed by American Biltrite Inc. and K&M Associates L.P. under the Credit Facility at rates which vary depending on the applicable interest rate in effect and are generally determined based upon: (a) if a LIBOR based rate is in effect, at a rate between a LIBOR based rate plus 1.0% to a LIBOR based rate plus 2.75%, depending on the Company's leverage ratio, as determined under the Credit Facility, (b) if a fixed rate is in effect, at a rate between the fixed rate plus 1.0% to a fixed rate plus 2.75%, depending on the Company's leverage ratio, as determined under the Credit Facility, and (c) for loans not based on a LIBOR or fixed rate, the higher of BofA's applicable prime rate and 0.50% plus the federal funds rate, as determined under the Credit Facility. Under the Credit Facility, the Company may generally determine whether interest on domestic revolving loans will be calculated based on a LIBOR based rate, and if BofA elects to make a fixed rate option available, whether interest on revolving loans will be calculated based on a fixed rate.

The amount of borrowings available from time to time for AB Canada under the Canadian sublimit facility under the Credit Facility is limited to the lesser of (a) \$12 million, (b) AB Canada's borrowing base amount, which is based upon AB Canada's accounts receivable, inventory and fixed assets, and (c) \$20 million less the amount of domestic borrowings outstanding under the Credit Facility on behalf the Company and K&M Associates L.P. The Canadian sublimit facility also

38

allows AB Canada to obtain letters of credit in an aggregate amount at any time outstanding of up to \$1 million, subject to the Canadian sublimit facility's maximum borrowing availability limit discussed above. AB Canada may borrow amounts under the Canadian sublimit facility in United States or Canadian dollar denominations; however, solely for purposes of determining amounts outstanding and borrowing availability under the Credit Facility, all Canadian dollar denominated amounts will be converted into United States dollars in the manner provided in the Credit Facility.

Interest is payable quarterly on revolving loans under the Canadian sublimit facility at rates which vary depending on the applicable interest rate in effect and are generally determined based upon: (a) if a LIBOR based rate is in effect, at a rate between a LIBOR based rate plus 1.0% to a LIBOR based rate plus 2.75%, depending on the Company's leverage ratio, as determined under the Credit Agreement, and (b) if a LIBOR based rate is not in effect, for outstanding revolving loans denominated in Canadian dollars, the higher of 0.50% plus the applicable 30-day average bankers' acceptance rate as quoted on Reuters CDOR page and the Canadian Lender's applicable prime rate for loans made in Canadian dollars to Canadian customers, and for outstanding revolving loans denominated

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

in United States dollars, the higher of 0.50% plus the federal funds rate as calculated under the Credit Agreement and the applicable rate announced by the Canadian Lender as its reference rate for commercial loans denominated in United States dollars made to a person in Canada. Under the Credit Agreement, AB Canada may generally determine whether interest on revolving loans will be calculated based on a LIBOR based rate.

The Credit Facility expires on September 30, 2006. The Company expects that it will be able to extend the maturity or obtain a replacement facility on substantially similar terms before the expiration date of the current facility, although there can be no assurances in this regard.

The second principal debt agreement that American Biltrite Inc. is a party to (the "Note Agreement") is with The Prudential Insurance Company of America ("Prudential"). Under the Note Agreement, the Company previously issued notes in an aggregate principal amount of \$20 million (the "Notes"). The Notes generally bear interest at a rate of 7.91% per annum, and the Company is obligated to pay Prudential an additional fee on each interest payment date if the Company's and certain of its subsidiaries' ratio of debt to EBITDA, as defined under the Note Agreement, exceeds certain levels. The amount of those fees that may be payable by the Company varies depending on the extent the Company's and certain of its subsidiaries' debt exceeds EBITDA, as determined under the Note Agreement, and is capped at 2% of the outstanding principal amount of the Series A Notes. During 2004 and for the first quarter of 2005, the Company was obligated to pay the full 2% of that fee. For the second quarter of 2005, the fee was 1%, and for the third and fourth quarter of 2005 and the first quarter of 2006, it was 0.5%. Principal on the Notes is repayable in five annual installments of \$4.0 million beginning on August 28, 2006.

The Credit Facility and the Note Agreement contain certain covenants that the Company must satisfy. The covenants included in the Credit Facility and the Note Agreement include certain financial tests, restrictions on the ability of the Company to incur additional indebtedness or to grant liens on its assets and restrictions on the ability of the Company to pay dividends on its capital stock. In addition, the Credit Facility includes a financial covenant that

39

requires the Company's consolidated adjusted EBITDA for the four consecutive fiscal quarters ending June 30, 2006 to exceed 150% of the Company's consolidated pro forma fixed charges for the 12-month period beginning immediately after June 30, 2006, as determined under the Credit Facility (the "Pro Forma Financial Covenant"). The financial tests are required to be calculated based on the Company accounting for its majority-owned subsidiary Congoleum Corporation on the equity method and include a maximum ratio of total liabilities to tangible net worth, a minimum ratio of earnings before interest, taxes, depreciation and amortization ("EBITDA") less certain cash payments for taxes, debt service, and dividends to interest expense, a minimum level of tangible net worth, a requirement that there be no consecutive quarterly losses from continuing operations, and a maximum level of capital spending. In addition, beginning on September 30, 2006, the Note Agreement requires the Company to satisfy a different set of financial covenants, including a minimum ratio of current assets to current liabilities, a minimum ratio of adjusted EBITDA to fixed charges, a cap on the amount of debt as a percentage (45%) of tangible net worth, a cap on the amount of priority debt (generally, debt of a Company subsidiary (not including Congoleum) that is not a guarantor under the Note Agreement plus secured debt of the Company) as a percentage (15%) of tangible net worth, a minimum leverage ratio, and a minimum amount of tangible net worth. The Company does not presently expect to meet all of the different set of financial covenants which take effect on September 30, 2006 and expects

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

it will need to negotiate amendments to or waivers of certain covenants, although there can be no assurance it will be successful in that regard.

Pursuant to the Credit Facility and the Note Agreement, the Company and certain of its subsidiaries granted BofA, the Canadian Lenders and Prudential a security interest in most of the Company's and its subsidiaries' assets. The security interest granted does not include the shares of capital stock of the Company's majority-owned subsidiary Congoleum Corporation or the assets of Congoleum Corporation. In addition, pursuant to the Credit Facility and the Note Agreement, certain of the Company's subsidiaries have agreed to guarantee the Company's obligations (excluding AB Canada's obligations) under the Credit Facility and the Note Agreement.

In the past, the Company has had to amend its debt agreements in order to avoid being in default of those agreements as a result of failing to satisfy certain financial covenants contained in those agreements. In January 2004, the Credit Facility and the Note Agreement were amended to remove a former lender under the Credit Facility, reduce the credit line to \$20 million, and to modify the tangible net worth, adjusted EBITDA to interest expense and consecutive quarterly loss covenants. Fees of \$83 thousand were paid to the lenders in connection with those amendments. In April 2004, the Credit Facility and the Note Agreement were amended to permit AB Canada the ability to grant a security interest in certain assets under a credit agreement that AB Canada was a party to. In November 2004, the Credit Facility was amended to extend the term of the Credit Facility to January 1, 2006, to modify the treatment of tax refunds in covenant calculations, and to modify the measurement levels for the adjusted EBITDA to interest expense and current assets to current liabilities covenants for the remainder of the extended term of the Credit Facility. A fee of \$50 thousand was paid in connection with that amendment.

40

On May 20, 2005, the Company entered into amendments and restatements of its Credit Facility and Note Agreement. The amendment to the Credit Facility extended the maturity date of the Credit Facility to September 30, 2006, added the Pro Forma Financial Covenant and added the \$12 million Canadian sublimit facility for AB Canada. Pursuant to the amended Credit Facility, AB Canada granted a security interest in all of its personal property to the Canadian Lender. During the second quarter of 2005, AB Canada repaid all amounts outstanding under its previous credit agreement with another lender from the proceeds of borrowings under the Credit Facility.

The amendment to the Note Agreement in May 2005 generally removed the application of the financial covenants under the Note Agreement for any measurement period prior to March 31, 2005, which effectively cured the Company's preexisting failure to satisfy the adjusted EBITDA to interest expense covenant (as determined under the Note Agreement) as of December 31, 2004. In addition, the amendments modified the financial covenants for 2005 under the Note Agreement to make them comparable to the financial covenants for 2005 under the Credit Facility. The amendment also requires the Company to enter into a definitive commitment to replace or refinance the \$20 million borrowing limit under the Credit Facility by June 30, 2006 and to consummate the replacement or refinancing by September 30, 2006.

Fees and expenses incurred for the amendments to the Credit Facility and Note Agreement in May 2005 were approximately \$425 thousand.

As indicated above, the Company will need to extend or replace the Credit Facility and expects that it will need to obtain additional amendments or waivers of covenants under the Note Agreement during 2006. There can be no

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

assurance that the Company will be successful in doing so.

Certain defaults under the Note Agreement, such as defaults resulting from certain bankruptcy, insolvency and receivership matters of the Company or certain of its subsidiaries (not including Congoleum), automatically cause all amounts owing with respect to the Notes then outstanding under the Note Agreement to become immediately due and payable. A default in the payment of principal or interest under the Notes would allow each individual noteholder to cause all amounts owed with respect to the Notes held by such holder to become immediately due and payable. In addition, with respect to all other defaults under the Note Agreement, holders of at least 51% of the aggregate principal amount of the Notes then outstanding could cause all amounts then owing with respect to the Notes to become immediately due and payable. The Company understands that Prudential is the only holder of the Notes and, as such, any decision to cause the acceleration of amounts owed with respect to the Notes would be made at Prudential's discretion.

Certain events of default under the Credit Facility, such as defaults resulting from certain bankruptcy, insolvency and receivership matters of the Company or certain of its subsidiaries (not including Congoleum) automatically terminate BofA's and the Canadian Lender's obligations to make borrowings available under the Credit Facility and causes all amounts outstanding under the Credit Facility to become immediately due and payable. With respect to all other events of default under the Credit Facility, BofA and the Canadian Lender may terminate their obligations to make borrowings available under the Credit Facility and cause all amounts outstanding under the Credit Facility to become immediately due and payable.

41

Pursuant to the terms of the Credit Facility and the Note Agreement, a default by the Company under one of those agreements triggers a cross-default under the other agreement. If a default occurs, BofA and the Canadian Lender and Prudential could respectively require the Company to repay all amounts outstanding under the respective debt agreements. If a default occurs and the Company is unable to obtain a waiver from the applicable lender and the Company is required to repay all amounts outstanding under those agreements, the Company would need to obtain funding from another source. Otherwise, the Company would likely be unable to repay those outstanding amounts, in which case, BofA as administrative agent over the collateral securing the amounts outstanding under the Credit Facility and the Note Agreement, might exercise BofA's and the Canadian Lender's and Prudential's rights over that collateral. Any default by the Company under the Credit Facility or the Note Agreement that results in the Company being required to immediately repay outstanding amounts under its debt agreements, and for which suitable replacement financing is not timely obtained, would have a material adverse effect on the Company's business, results of operations and financial condition.

As noted above, the Credit Facility and the Note Agreement restrict the Company's ability to obtain additional financing. Moreover, since the Company and most of its subsidiaries have already granted security interests in most of their assets, the Company's ability to obtain any additional debt financing may be limited. The Company currently believes that its cash flow from operations, expected proceeds from the sale of the Janus Flooring assets and borrowings available under its existing credit facilities will be adequate for its expected capital expenditure, working capital and debt service needs, subject to compliance with the covenants contained in its debt agreements and the ability of the Company to replace or refinance its existing credit facility that is scheduled to expire on September 30, 2006 on satisfactory terms. However, if circumstances change, the inability of the Company to obtain any necessary

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

additional debt financing would likely have a material adverse effect on its business, operations and financial condition.

Under the terms of the Eighth Plan, ABI expects to contribute \$250 thousand in cash to the Plan Trust on the effective date of the plan. Under the terms of the Eighth Plan, unlike under the Sixth Plan, ABI would not pledge any of its assets, including shares of Congoleum stock it owns or certain rights it has to receive indemnification payments from Congoleum pursuant to a joint venture agreement that ABI and Congoleum are party to, as security for Congoleum's obligations under the new convertible security (as was contemplated, under the Sixth Plan with respect to Congoleum's obligations under the Promissory Note described in the Sixth Plan). In addition, the Eighth Plan does not, unlike the Sixth Plan, contemplate that ABI would be required to make any additional contributions to the Plan Trust if ABI were to sell its Congoleum stock under the circumstances provided under the Sixth Plan, a description of which ABI provided in previous periodic reports it filed with the Securities and Exchange Commission.

Under the Eighth Plan, ABI would receive certain relief as may be afforded under Section 524(g)(4) of the Bankruptcy Code from asbestos personal injury claims that derive from claims made against Congoleum, which claims are expected to be channeled to the Plan Trust. However, the Eighth Plan does not provide that any other asbestos claims that may be asserted against ABI would be channeled to the Plan Trust. To the extent that the Company pays material amounts for asbestos-related property damage claims that the Company would have been

42

entitled to be reimbursed for by Congoleum absent the provisions of Congoleum's plan of reorganization, that could have a material adverse effect on the Company's liquidity and capital resources. Furthermore, to the extent that the amount of any of the Company's indemnity claims against the Plan Trust are reduced pursuant to the distribution procedures under Congoleum's plan of reorganization to an amount less than the corresponding amount paid by the Company, that could have a material adverse effect on the Company's liquidity and capital resources.

The Company has not declared a dividend subsequent to the third quarter of 2003. Future dividends, if any, will be determined by the Company's Board of Directors based upon the financial performance and capital requirements of the Company, among other considerations. Under the Credit Facility, aggregate dividend payments (since June 30, 2003) are generally limited to 50% of cumulative consolidated net income (computed treating Congoleum under the equity method of accounting), as determined under the Credit Facility, earned from June 30, 2003. Under the Note Agreement, aggregate dividend payments (since December 31, 2000) generally may not exceed the sum of \$6 million plus 50% of cumulative consolidated net income (accounting for Congoleum under the equity method of accounting), as determined under the Note Agreement, earned after December 31, 2000.

### Congoleum

The consolidated financial statements of Congoleum have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. Accordingly, Congoleum's consolidated financial statements do not include any adjustments that might be necessary should Congoleum be unable to continue as a going concern. As described more fully in the Notes to the Unaudited Consolidating Condensed Financial Statements contained in Part I, Item 1 of this Quarterly Report on Form 10-Q, there is substantial doubt about Congoleum's ability to continue as a

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

going concern unless it obtains relief from its substantial asbestos liabilities through a successful reorganization under Chapter 11 of the Bankruptcy Code.

On December 31, 2003, Congoleum filed a voluntary petition with the Bankruptcy Court (Case No. 03-51524) seeking relief under the Bankruptcy Code. See Notes A and J of the Notes to the Unaudited Consolidating Financial Statements. These matters will have a material adverse impact on Congoleum's liquidity and capital resources. During the first quarter of 2006, Congoleum paid \$5.9 million in fees and expenses related to implementation of its planned reorganization under Chapter 11 and litigation with certain insurance companies. Pursuant to terms of the Eighth Plan and related documents, Congoleum is entitled to reimbursement for certain expenses it incurs for claims processing costs and expenses in connection with pursuit of insurance coverage. At March 31, 2006, Congoleum recorded \$18.4 million as a receivable for such reimbursements. The amount and timing of reimbursements that will be received will depend on when Congoleum or the Plan Trust receives funds from insurance settlements or other sources. There can be no assurances that these reimbursements will be received, or that the terms providing for such reimbursements will not be modified. Congoleum expects to spend a further \$17.2 million at a minimum in fees, expenses, and trust contributions in connection with obtaining confirmation of its plan of reorganization, which amount is recorded in its reserve for asbestos-related liabilities in addition to the \$9.4 million insurance settlement being held as

43

restricted cash. It also expects to spend a further \$7.9 million at a minimum in connection with insurance coverage litigation costs, for which it expects to be reimbursed as discussed above. Required expenditures could be materially higher than these estimates. Congoleum currently holds \$3.8 million in restricted cash that may be available to offset future costs incurred pursuing insurance coverage, subject to approval by the Bankruptcy Court.

Due to the Chapter 11 proceedings, Congoleum has been precluded from making interest payments on its outstanding Senior Notes since January 1, 2004. The amount of accrued interest that is due but has not been paid on the Senior Notes during this period is approximately \$21.6 million, including interest on the unpaid interest due. In February 2006, the Bankruptcy Court ordered Gilbert, Heintz & Randolph, a law firm formerly representing Congoleum, to disgorge all fees and certain expenses it was paid by Congoleum. The law firm has appealed this ruling. The amount of the disgorgement is approximately \$9.6 million. Pursuant to the terms of the Eighth Plan, holders of the Senior Notes would forego \$10 million in interest accrued during the post-petition period and would receive the right to any funds (net of related expenses) from the fee disgorgement and other causes of action against the law firm and one of its service providers, subject to a maximum of \$10 million plus interest at 8.625% from the effective date of the plan until the time such payment is made (the "Maximum Additional Bondholder Recovery"). There can be no assurance that the Plan, which is ultimately confirmed, will provide for such interest forgiveness. Any net recoveries in excess of the Maximum Additional Bondholder Recovery would be paid to the Plan Trust.

Pursuant to the terms of the Eighth Plan, Congoleum is to make a cash contribution of approximately \$7.7 million to the Plan Trust when the plan goes effective. The Eighth Plan also provides that the maturity of the Senior Notes will be extended by three years from August 2008 to August 2011. There can be no assurance that the plan which is ultimately confirmed will provide for such maturity extension.

As part of the Eighth Plan, Congoleum expects that it will issue a convertible security (the "New Convertible Security") to the Plan Trust. Under the terms of

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

the Eighth Plan, the New Convertible Security means either shares of preferred stock or convertible promissory notes to be issued by reorganized Congoleum and contributed to the Plan Trust on the effective date of the Eighth Plan in satisfaction of section 524(g) of the Bankruptcy Code. If the New Convertible Security is to be shares of preferred stock of reorganized Congoleum, it will have the following terms: (i) an initial liquidation preference equal to \$2,738,234.75 in the aggregate, such amount being subject to increase in the amount, if any, by which 36% of reorganized Congoleum's market capitalization based on average trading prices for reorganized Congoleum's Class A common stock at the close of trading for the 90 consecutive trading days beginning on the one year anniversary of the effective date of the plan of reorganization, exceeds such initial liquidation preference; (ii) an initial dividend rate equal to 9% of the liquidation preference per annum, payable semi-annually in arrears, with such dividend rate to reset at the rate of 5% of the liquidation preference per annum on the tenth anniversary of the effective date of the plan of reorganization and payable at such reset dividend rate per annum unless and until redeemed; (iii) redeemable for the liquidation preference at the option of the Plan Trust or reorganized Congoleum following the tenth anniversary of the effective date of the plan of reorganization; (iv) a mandatory redemption on the fifteenth anniversary of the effective date of the plan of reorganization if not redeemed earlier; (v) convertible into 5,700,000 shares of Class A Common Stock (or the equivalent thereof on a fully diluted basis) upon a specified default of

44

the obligation to pay dividends and a failure to cure such default within any cure period, which, when combined with the 3.8 million newly issued shares of Class A Common Stock to be contributed to the Plan Trust, will result in the Plan Trust owning 51% of the voting common shares of reorganized Congoleum on a fully diluted basis; and (vi) no voting rights, except upon conversion. If the New Convertible Security is convertible promissory notes, such notes will be on economic terms substantially equivalent to provisions (i) and (v) of the preferred stock described herein, with other terms substantially the same as the Promissory Note described in the Sixth Plan. Although the earliest redemption or repayment date for the New Convertible Security does not occur until its tenth anniversary of issuance, this obligation may affect Congoleum's ability to obtain other sources of financing or refinance existing obligations. In addition, it is expected that the terms of the New Convertible Security will require Congoleum to make regularly scheduled dividend or interest payments prior to such instrument's redemption or maturity date.

Unrestricted cash and cash equivalents, including short-term investments at March 31, 2006, were \$14.7 million, a decrease of \$9.9 million from December 31, 2005. Under the terms of its revolving credit agreement, payments on Congoleum's accounts receivable are deposited in an account assigned by Congoleum to its lender and the funds in that account are used by the lender to pay down any loan balance. Funds deposited in this account but not yet applied to the loan balance, which amounted to \$2.7 million and \$2.0 million at March 31, 2006 and December 31, 2005, respectively, are recorded as restricted cash. Additionally, \$9.4 million remaining from a \$14.5 million settlement received in August 2004 from an insurance carrier, which is subject to the lien of the Collateral Trust, is included as restricted cash at March 31, 2006. Congoleum expects to contribute these funds, less any amounts withheld pursuant to reimbursement arrangements, to the Plan Trust. Working capital was \$30.0 million at March 31, 2006, up from \$28.0 million at December 31, 2005. The ratio of current assets to current liabilities at March 31, 2006 was 1.3 to 1.0, which is unchanged from December 31, 2005. The ratio of debt to total capital at March 31, 2006 was 0.48 to 1.0 which is also unchanged since December 31, 2005. Net cash used by operations during the first three months of 2006 was \$10.8 million, as compared to net cash used by operations of \$9.3 million in the first three months of

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

2005. The increase in cash used by operations in the first three months of 2006 versus the first three months of 2005 was primarily due to higher working capital requirements and increased reorganization expenditures in 2006.

Capital expenditures for the three months ended March 31, 2006 totaled \$0.5 million. Congoleum is currently planning capital expenditures of approximately \$5 million in 2006 and between \$5 million and \$7 million in 2007, primarily for maintenance and improvement of plants and equipment, which it expects to fund with cash from operations and credit facilities.

In January 2004, the Bankruptcy Court authorized entry of a final order approving Congoleum's debtor-in-possession financing, which replaced its pre-petition credit facility on substantially similar terms. The debtor-in-possession financing agreement (as amended and approved by the Bankruptcy Court to date) provides a revolving credit facility expiring on December 31, 2006 with borrowings up to \$30 million. Interest is based on 0.75% above the prime rate. This financing agreement contains certain covenants, which include the maintenance of minimum earnings before interest, taxes, depreciation and amortization ("EBITDA"). It also includes restrictions on the incurrence of additional debt and limitations on capital expenditures. The covenants and

45

conditions under this financing agreement must be met in order for Congoleum to borrow from the facility. Congoleum was in compliance with these covenants at March 31, 2006. Borrowings under this facility are collateralized by inventory and receivables. At March 31, 2006, based on the level of receivables and inventory, \$17.6 million was available under the facility, of which \$4.7 million was utilized for outstanding letters of credit and \$11.5 million was utilized by the revolving loan. Congoleum anticipates that its debtor-in-possession financing facility will be replaced with a revolving credit facility on substantially similar terms upon confirmation and effectiveness of its plan of reorganization. While Congoleum expects the facilities discussed above will provide it with sufficient liquidity, there can be no assurances that it will continue to be in compliance with the required covenants, that Congoleum will be able to obtain a similar or sufficient facility upon exit from bankruptcy, or that the debtor-in-possession facility (as extended) will be renewed prior to its expiration if Congoleum's plan of reorganization is not confirmed before that time.

In addition to the provision for asbestos litigation discussed previously, Congoleum has also recorded what it believes are adequate provisions for environmental remediation and product-related liabilities (other than asbestos-related claims), including provisions for testing for potential remediation of conditions at its own facilities. Congoleum is subject to federal, state and local environmental laws and regulations and certain legal and administrative claims are pending or have been asserted against Congoleum. Among these claims, Congoleum is a named party in several actions associated with waste disposal sites (more fully discussed in Note I to the Unaudited Consolidating Condensed Financial Statements contained in Item 1 of this Quarterly Report on Form 10-Q). These actions include possible obligations to remove or mitigate the effects on the environment of wastes deposited at various sites, including Superfund sites and certain of Congoleum's owned and previously owned facilities. The contingencies also include claims for personal injury and/or property damage. The exact amount of such future cost and timing of payments are indeterminable due to such unknown factors as the magnitude of cleanup costs, the timing and extent of the remedial actions that may be required, the determination of Congoleum's liability in proportion to other potentially responsible parties, and the extent to which costs may be recoverable from insurance. Congoleum has recorded provisions in its financial

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

statements for the estimated probable loss associated with all known general and environmental contingencies. While Congoleum believes its estimate of the future amount of these liabilities is reasonable, and that they will be paid over a period of five to ten years, the timing and amount of such payments may differ significantly from Congoleum's assumptions. Although the effect of future government regulation could have a significant effect on Congoleum's costs, Congoleum is not aware of any pending legislation which would reasonably have such an effect. There can be no assurances that the costs of any future government regulations could be passed along to its customers. Estimated insurance recoveries related to these liabilities are reflected in other non-current assets.

The outcome of these environmental matters could result in significant expenses incurred by or judgments assessed against Congoleum.

46

Congoleum's principal sources of capital are net cash provided by operating activities and borrowings under its financing agreement. Congoleum has used \$10.8 million in cash from operations in the first quarter of 2006 (as more fully discussed above), which includes the benefit of \$2.2 million of accrued but unpaid interest on long-term debt. Congoleum believes these sources will be adequate to fund working capital requirements, debt service payments, and planned capital expenditures for the foreseeable future. To meet the funding obligations under the Eighth Plan, Congoleum anticipates it will need to obtain the contemplated forgiveness of \$10 million of interest on the Senior Notes and obtain reimbursement for any unreimbursed coverage litigation costs. Actual sources and uses of funds to consummate the effectiveness of the Eighth Plan or any other plan may differ from this description, but confirmation of any plan is dependent on such plan demonstrating it leaves Congoleum with sufficient liquidity that further reorganization will not be needed. Congoleum's inability to obtain confirmation of the Eighth Plan in a timely manner would have a material adverse effect on Congoleum's ability to fund its operating, investing and financing requirements.

### Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company is exposed to changes in prevailing market interest rates affecting the return on its investments. The Company invests primarily in highly liquid debt instruments with strong credit ratings and short-term (less than one year) maturities. The carrying amount of these investments approximates fair value due to the short-term maturities. If market interest rates were to increase by 10% from levels at March 31, 2006, the fair value of our investments would decline by an immaterial amount. In addition, substantially all of the Company's outstanding long-term debt as of March 31, 2006 consisted of indebtedness with a fixed rate of interest, which is not subject to change based upon changes in prevailing market interest rates.

A portion of the Company's operations consists of manufacturing and sales activities in foreign jurisdictions. The Company manufactures its products in the United States, Canada, Belgium and Singapore and sells those products in those markets as well as in other countries in Europe and Asia. As a result, the Company's financial results could be significantly affected by factors such as changes in foreign currency exchange rates or weak economic conditions in the foreign markets in which the Company distributes its products. The Company's operating results are exposed to changes in exchange rates between the U.S. dollar and the Canadian dollar and the U.S. dollar and the Euro. When the U.S. dollar strengthens against the Canadian dollar or Euro, the U.S. dollar value of the applicable foreign currency sales decreases. When the U.S. dollar weakens

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

against those currencies, the U.S. dollar value of the applicable foreign currency sales increases.

Under its current policies, the Company does not use derivative financial instruments, derivative commodity instruments or other financial instruments to manage its exposure to changes in interest rates, foreign currency exchange rates, commodity prices or equity prices and does not hold any instruments for trading purposes.

47

### Item 4: Controls and Procedures

- a) Evaluation of Disclosure Controls and Procedures. The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, amended (the "Exchange Act")), as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures were (1) designed to ensure that material information relating to the Company, including its consolidated subsidiaries, is made known to the Company's Chief Executive Officer and Chief Financial Officer by others within those entities, particularly during the period in which this report was being prepared, and (2) effective, in that they provide reasonable assurance that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.
- (b) Changes in Internal Control Over Financial Reporting. There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

48

## PART II. OTHER INFORMATION

### Item 1. Legal Proceedings

The information contained in Note I "Commitments and Contingencies" and Note J "Congoleum Asbestos Liabilities and Reorganization" of the Notes to Unaudited Consolidating Condensed Financial Statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q, in "management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources" included in Part I, Item 1 of this Quarterly Report on Form 10-Q, and in "Risk Factors - The Company and its majority-owned subsidiary Congoleum have significant asbestos liability and funding exposure, and the Company's and Congoleum's strategies for resolving this exposure may not be successful," included in Part II, Item 1A of this Quarterly Report on Form 10-Q, are incorporated herein by reference.

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

### Item 1A. Risk Factors

The Company and its majority-owned subsidiary Congoleum have significant asbestos liability and funding exposure, and the Company's and Congoleum's strategies for resolving this exposure may not be successful.

The Company and Congoleum have significant liability and funding exposure for asbestos personal injury claims. In connection with Congoleum's strategy for resolving its asbestos liability, in 2003, Congoleum entered into settlement agreements with various asbestos claimants totaling in excess of \$491 million. Under the terms of the Eighth Plan, asbestos personal injury claimants voting to accept the plan would irrevocably consent or would be deemed to have irrevocably consented to the forbearance of any claim and lien rights under such settlement agreements. The outcome of the Avoidance Actions could affect the outcome of plan voting and, therefore, confirmation of the Eighth Plan or any modified version of that plan or any other plan pursued by Congoleum.

There can be no assurance that Congoleum will not amend the Eight Plan, that Congoleum will obtain approval to solicit acceptances for its plan, that Congoleum will receive the acceptances necessary for confirmation of its plan, that its plan will not be modified further, that its plan will receive necessary court approvals from the Bankruptcy Court or the Federal District Court, or that such approvals will be received in a timely fashion, that its plan will be confirmed, or that its plan, if confirmed, will become effective. In November 2005, the Bankruptcy Court denied a request to extend Congoleum's exclusive right to file a plan of reorganization and solicit acceptances thereof, and plans have been filed by an insurance company and the Official Committee of Bondholders. It is unclear whether any other person will attempt to propose a plan or what any such plan would provide or propose, and whether the Bankruptcy Court would approve a plan other than Congoleum's proposed plan.

The Eighth Plan and any alternative plan of reorganization pursued by Congoleum or another plan proponent or confirmed by the Bankruptcy Court and the Federal District Court could materially differ from the description of the Eighth Plan contained in the Annual Report on Form 10-K. Furthermore, the estimated costs and contributions to effect the Eighth Plan or an alternative plan could be

49

significantly greater than currently estimated. Any plan of reorganization pursued by Congoleum will be subject to numerous conditions, approvals and other requirements, including Bankruptcy Court and Federal District Court approvals, and there can be no assurance that such conditions, approvals and other requirements will be satisfied or obtained.

Confirmation of a plan of reorganization will depend on Congoleum obtaining exit financing to provide it with sufficient liquidity to fund obligations upon the plan becoming effective. If Congoleum's cash flow from operations is materially less than anticipated, and/or if the costs in connection with seeking confirmation of the Eighth Plan or in connection with Congoleum's New Jersey state court insurance coverage litigation are materially more than anticipated, or if sufficient funds from insurance proceeds or other sources are not available at confirmation to reimburse coverage litigation costs as expected, Congoleum may be unable to obtain exit financing that, when combined with net cash provided from operating activities, would provide it with sufficient funds, which would likely result in Congoleum not being able to confirm its plan of reorganization or have such plan become effective.

The Company has its own direct asbestos liability as well. The Company's strategy remains to vigorously defend and strategically settle its asbestos

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

claims on a case-by-case basis. To date, the Company's insurers have funded substantially all of the Company's liabilities and expenses related to its asbestos liability under the Company's applicable insurance policies. The Company expects its insurance carriers will continue to defend and indemnify it for its asbestos liabilities for the foreseeable future. If, however, it were not able to receive such coverage from its insurers for the Company's asbestos liabilities and expenses, that would likely have a material adverse effect on the Company's financial position. In addition, certain of the excess liability insurance policies that the Company purchased were underwritten by companies that are now insolvent, which may limit the amount of funds available to pay for any future claims covered by these policies.

Some additional factors that could cause actual results to differ from Congoleum's and the Company's objectives for resolving asbestos liability include: (i) the future cost and timing of estimated asbestos liabilities and payments; (ii) the availability of insurance coverage and reimbursement from insurance companies that underwrote the applicable insurance policies for asbestos-related claims, including insurance coverage and reimbursement for asbestos claimants under Congoleum's proposed modified plan, which certain insurers have objected to in Bankruptcy Court and are litigating in New Jersey State Court, or any other plan of reorganization; (iii) costs relating to the execution and implementation of any plan of reorganization pursued by Congoleum or relating to any other plan of reorganization proposed by any other party in interest; (iv) timely reaching an agreement with other creditors, or classes of creditors, that exist or may emerge; (v) satisfaction of the conditions and obligations under the Company's and Congoleum's respective outstanding debt instruments, and amendment of those outstanding debt instruments, as necessary, to permit Congoleum and the Company to satisfy their obligations under any plan of reorganization; (vi) the response from time-to-time of the Company's and Congoleum's lenders, customers, suppliers and other constituencies to the Chapter 11 process and related developments arising from the strategy to settle

50

asbestos liability; (vii) Congoleum's ability to maintain debtor-in-possession financing sufficient to provide it with funding that may be needed during the pendency of its Chapter 11 case and to obtain exit financing sufficient to provide it with funding that may be needed for its operations after emerging from the bankruptcy process, in each case, on reasonable terms; (viii) timely obtaining sufficient creditor and court approval of a reorganization plan and the court overruling any objections to such plan that may be filed; (ix) developments in costs, associated with, and the outcome of insurance coverage litigation pending in New Jersey State Court involving Congoleum and certain insurers; (x) the extent to which Congoleum is able to obtain reimbursement for costs it incurs in connection with the insurance coverage litigation; (xi) compliance with the Bankruptcy Code, including section 524(g); and (xii) the possible progress of another party in interest's proposed plan of reorganization which may prove to be unfeasible. In addition, in view of American Biltrite's relationships with Congoleum, American Biltrite could be affected by Congoleum's negotiations regarding its pursuit of a plan of reorganization, and there can be no assurance as to what that impact, positive or negative, might be. In any event, the failure of Congoleum to obtain confirmation and consummation of a Chapter 11 plan of reorganization would have a material adverse effect on Congoleum's business, results of operations or financial condition and could have a material adverse effect on American Biltrite's business, results of operations or financial condition.

In addition, there has been federal legislation proposed that, if adopted, would establish a national trust to provide compensation to victims of asbestos-related injuries and channel all current and future asbestos-related

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

personal injury claims to that trust. Due to the uncertainties of this legislation, the Company does not know what effects any such legislation, if adopted, may have upon its or Congoleum's businesses, results of operations or financial conditions, or upon any plan of reorganization Congoleum may decide to pursue. To date, Congoleum has expended significant amounts to resolve its asbestos liability pursuant to a Chapter 11 plan of reorganization. To the extent any federal legislation is enacted which does not credit Congoleum for amounts paid by Congoleum pursuant to its plan of reorganization strategy or requires the Company or Congoleum to pay significant amounts to any national trust or otherwise, such legislation could have a material adverse effect on the Company or Congoleum's businesses, results of operations or financial conditions.

As a result of Congoleum's significant liability and funding exposure for asbestos claims, there can be no assurance that if Congoleum were to incur any unforecasted or unexpected liability or disruption to its business or operations it would be able to withstand that liability or disruption and continue as an operating company. Any significant increase of the Company's asbestos liability and funding exposure would likely have a material adverse effect on the Company's business, operations and financial condition and possibly its ability to continue as a going concern.

For further information regarding the Company's and Congoleum's asbestos liability, insurance coverage and strategies to resolve that asbestos liability, please see Notes A and J of the Notes to Unaudited Consolidating Financial Statements and "Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources," which are included in Part I, Item 1 and Part I, Item 2, respectively, in this report.

51

Any plan of reorganization for Congoleum will likely result in substantial dilution of Congoleum's equity holders, including the Company.

Under the terms of the Eighth Plan, on the effective date of that plan, reorganized Congoleum would issue 3.8 million shares of its Class A common stock, which based on the number of shares of Congoleum Class A and Class B common stock outstanding as of March 17, 2006, would represent 31.5% of Congoleum's outstanding common stock and 22.8% of the aggregate general voting power of Congoleum's outstanding common stock, and would reduce the Company's equity ownership in Congoleum to 37.7% and its general equity voting interest in Congoleum to 53.6%, in each case, after giving effect to the stock issuance. On a fully diluted basis, the Company's equity ownership would be reduced to 35.2% with a general equity voting interest of 51.0%, giving effect to such stock issuance as if it occurred on such date.

In addition, under the Eighth Plan, Congoleum would issue a new convertible security to the Plan Trust on the effective date of the plan. The liquidation preference or principal amount of that convertible security, as applicable, is expected to be approximately \$2.7 million and subject to possible future increase. Under the terms of the Eighth Plan, the convertible security would be convertible into 5.7 million shares of reorganized Congoleum Class A common stock (or the equivalent thereof on a fully diluted basis) upon a specified default of the obligation to pay dividends or interest, as applicable, on the convertible security and a failure to cure such default within any cure period, which, when combined with the 3.8 million newly issued shares of reorganized Congoleum Class A common stock to be contributed to the Plan Trust on the effective date of the plan, would result in the Plan Trust owning 51% of the voting common stock on a fully diluted basis. If this further additional issuance were to occur, based on the number of shares of Congoleum Class A and

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

Class B common stock outstanding as of March 17, 2006, the Company's equity ownership and voting equity interest in Congoleum would be reduced to 24.4%, resulting in a loss of voting control of Congoleum by ABI.

In addition, any proposed plans of reorganization proposed for Congoleum by other parties in interest may provide for even greater dilution of the Congoleum equity interests than that contemplated by the Eighth Plan. There can be no assurance as to how the equity interests in Congoleum, including ABI's Congoleum equity interests, will be treated under any plan of reorganization for Congoleum that may ultimately be confirmed by the Bankruptcy Court and consummated.

A substantial portion of the Company's debt must be amended or refinanced and the Company's ability to obtain additional financing may be limited.

The credit agreement governing the Company's credit facility with Bank of America ("BoFA") includes a covenant that takes effect for periods after June 30, 2006 that the Company does not anticipate it will meet, and the Company also does not anticipate it will meet certain covenants under the note agreement governing its outstanding \$20 million aggregate principal amount notes that take effect September 30, 2006. In addition, pursuant to the terms of those agreements, a default by the Company under one of those agreements triggers a cross-default under the other agreement. If such a default occurs, the lenders under those agreements could respectively require the Company to repay all amounts outstanding under the respective debt agreements. If a default occurs

52

and the Company is unable to obtain a waiver from the lenders under those agreements and the Company is required to repay all amounts outstanding under those agreements, the Company would need to obtain funding from another source. Otherwise, the Company would likely be unable to repay those outstanding amounts, in which case, the administrative agent over the collateral securing the amounts outstanding under those agreements might exercise the lenders' rights over that collateral. Any default by the Company under those agreements that results in the Company being required to immediately repay outstanding amounts under its debt agreements, and for which suitable replacement financing is not timely obtained, would have a material adverse effect on the Company's business, results of operations and financial condition.

The credit facility expires on September 30, 2006. Under the Note Agreement, the Company must enter into a definitive commitment to replace or refinance the \$20 million borrowing limit under the Credit Facility by June 30, 2006 and consummate the replacement or refinancing by September 30, 2006. Although the Company expects that it will be able to satisfy that requirement under the Note Agreement, and that it will obtain a modification or waiver of covenants as needed prior to any extension or replacement of its credit facility, as well as a modification of the covenants under the note agreement governing its outstanding \$20 million aggregate principal amount notes, there can be no assurances in this regard. If the Company is unable to timely satisfy these requirements or obtain waivers for or amendments of these requirements, such failure would result in a breach of the note agreement governing its outstanding \$20 million aggregate principal amount notes, which for the reasons discussed in the preceding paragraph, could have a material adverse effect on the Company's business, results of operations or financial condition. In addition, even if the Company were to obtain appropriate waivers or amendments of these obligations under the note agreement, the Company would be required to repay (without replenishment) all amounts outstanding under its credit facility if it were to fail to extend or replace that facility by the expiration date, which would have a material adverse effect on the Company's financial condition and liquidity.

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

Under the terms of the Company's debt agreements, the Company's ability to obtain additional debt financing is limited. Moreover, since the Company and most of its domestic subsidiaries have already granted security interests in most of their assets, the Company's ability to obtain any additional debt financing may be limited.

The Company and its majority-owned subsidiary Congoleum may incur substantial liability for environmental claims and compliance matters.

Due to the nature of the Company's and its majority-owned subsidiary Congoleum's businesses and certain of the substances which are or have been used, produced or discharged by them, the Company's and Congoleum's operations and facilities are subject to a broad range of federal, state, local and foreign legal and regulatory provisions relating to the environment, including those regulating the discharge of materials into the environment, the handling and disposal of solid and hazardous substances and wastes and the remediation of contamination associated with releases of hazardous substances at Company and Congoleum facilities and off-site disposal locations. The Company and Congoleum have historically expended substantial amounts for compliance with existing

53

environmental laws or regulations, including environmental remediation costs at both third-party sites and Company and Congoleum-owned sites. The Company and Congoleum will continue to be required to expend amounts in the future because of the nature of their prior activities at their current and previously owned facilities, in order to comply with existing environmental laws, and those amounts may be substantial. Although the Company and Congoleum believe that those amounts should not have a material adverse effect on their respective financial positions, there is no certainty that these amounts will not have a material adverse effect on their respective financial positions because, as a result of environmental requirements becoming increasingly strict, neither the Company nor Congoleum is able to determine the ultimate cost of compliance with environmental laws and enforcement policies.

Moreover, in addition to potentially having to pay substantial amounts for compliance, future environmental laws or regulations may require or cause the Company or Congoleum to modify or curtail their operations, which could have a material adverse effect on the Company's business, results of operations or financial condition.

The Company and its majority-owned subsidiary Congoleum, may incur substantial liability for other product and general liability claims.

In the ordinary course of their businesses, the Company and its majority-owned subsidiary Congoleum become involved in lawsuits, administrative proceedings, product liability claims and other matters. In some of these proceedings, plaintiffs may seek to recover large and sometimes unspecified amounts and the matters may remain unresolved for several years. These matters could have a material adverse effect on the Company's business, results of operations or financial condition if the Company or Congoleum, as applicable, is unable to successfully defend against or settle these matters, and its insurance coverage is insufficient to satisfy any judgments against it or settlements relating to these matters, or the Company or Congoleum, as applicable, is unable to collect insurance proceeds relating to these matters.

The Company and its majority-owned subsidiary Congoleum are dependent upon a continuous supply of raw materials from third party suppliers and would be harmed if there were a significant, prolonged disruption in supply or increase in its raw material costs.

The Company and its majority-owned subsidiary Congoleum generally design and engineer their own products. Most of the raw materials required by the Company for its manufacturing operations are available from multiple sources; however, the Company does purchase some of its raw materials from a single source or supplier. Any significant delay in or disruption of the supply of raw materials could substantially increase the Company's cost of materials, require product reformulation or require qualification of new suppliers, any one or more of which could materially adversely affect the Company's business, results of operations or financial condition. The Company's majority-owned subsidiary Congoleum, does not have readily available alternative sources of supply for specific designs of transfer print paper, which are produced utilizing print cylinders engraved to Congoleum's specifications. Although Congoleum does not anticipate any loss of this source of supply, replacement could take a

54

considerable period of time and interrupt production of certain products, which could have a material adverse affect on the Company's business, results of operations or financial condition. The Company and Congoleum have occasionally experienced significant price increases for some of its raw materials. In particular, industry supply conditions for specialty resins used in flooring have been very tight, despite significant price increases, due to several factors, including an explosion at a large resin plant in 2004 that destroyed the plant, the decision by another major supplier to exit the business, and the effect of hurricanes in 2005. Although the Company has been able to obtain sufficient supplies of specialty resin and other raw materials, there can be no assurances that it may not experience difficulty in the future, particularly if global supply conditions deteriorate, which could have a material adverse effect on profit margins. Raw material prices in 2005 increased significantly and may remain high in 2006 and until additional capacity becomes available.

The Company and its majority-owned subsidiary Congoleum operate in highly competitive markets and some of their competitors have greater resources, and in order to be successful, the Company and Congoleum must keep pace with and anticipate changing customer preferences.

The market for the Company's and its majority-owned subsidiary Congoleum's products and services is highly competitive. Some of their respective competitors have greater financial and other resources and access to capital. Furthermore, to the extent any of the Company's or Congoleum's competitors make a filing under Chapter 11 of the United States Bankruptcy Code and emerge from bankruptcy as continuing operating companies that have shed much of their pre-filing liabilities, those competitors could have a cost competitive advantage over Congoleum. In addition, in order to maintain their competitive positions, the Company and Congoleum may need to make substantial investments in their businesses, including, as applicable, product development, manufacturing facilities, distribution network and sales and marketing activities. Competitive pressures may also result in decreased demand for their products and in the loss of market share for their products. Moreover, due to the competitive nature of their industries, they may be commercially restricted from raising or even maintaining the sales prices of their products, which could result in the incurrence of significant operating losses if their expenses were to increase or otherwise represent an increased percentage of sales.

The markets in which the Company and Congoleum compete are characterized by frequent new product introductions and changing customer preferences. There can be no assurance that the Company's and Congoleum's existing products and services will be properly positioned in the market or that the Company and Congoleum will be able to introduce new or enhanced products or services into

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

their respective markets on a timely basis, or at all, or that those new or enhanced products or services will receive customer acceptance. The Company's and Congoleum's failure to introduce new or enhanced products or services on a timely basis, keep pace with industry or market changes or effectively manage the transitions to new products, technologies or services could have a material adverse effect on the Company's business, results of operations or financial condition.

55

The Company and its majority-owned subsidiary Congoleum are subject to general economic conditions and conditions specific to their respective industries.

The Company and its majority-owned subsidiary Congoleum are subject to the effects of general economic conditions. A sustained general economic slowdown could have serious negative consequences for the Company's business, results of operations and financial condition. Moreover, their businesses are affected by the economic factors that affect their respective industries.

The Company and its majority-owned subsidiary Congoleum could realize shipment delays, depletion of inventory and increased production costs resulting from unexpected disruptions of operations at any of the Company's or Congoleum's facilities.

The Company's and its majority-owned subsidiary Congoleum's businesses depend upon their ability to timely manufacture and deliver products that meet the needs of their customers and the end users of their products. If the Company or Congoleum were to realize an unexpected, significant and prolonged disruption of its operations at any of its facilities, including disruptions in its manufacturing operations, it could result in shipment delays of its products, depletion of its inventory as a result of reduced production and increased production costs as a result of taking actions in an attempt to cure the disruption or carry on its business while the disruption remains. Any resulting delay, depletion or increased production cost could result in increased costs, lower revenues and damaged customer and product end user relations, which could have a material adverse effect on the Company's business, results of operations or financial condition.

The Company and its majority-owned subsidiary Congoleum offer limited warranties on their products which could result in the Company or Congoleum incurring significant costs as a result of warranty claims.

The Company and its majority-owned subsidiary Congoleum offer a limited warranty on many of their products against manufacturing defects. In addition, as a part of its efforts to differentiate mid- and high-end products through color, design and other attributes, Congoleum offers enhanced warranties with respect to wear, moisture discoloration and other performance characteristics which generally increase with the price of such products. If the Company or Congoleum were to incur a significant number of warranty claims, the resulting warranty costs could be substantial.

The Company and its majority-owned subsidiary Congoleum rely on a small number of customers and distributors for a significant portion of their sales or to sell their products.

The Company's Tape division principally sells its products through distributors. Sales to five unaffiliated customers accounted for approximately 23% of the Company's Tape division's net sales for the year ended December 31, 2005 and 21% of its net sales for the year ended December 31, 2004. The loss of the largest unaffiliated customer and/or two or more of the other three unaffiliated

customers could have a material adverse effect on the Company's business, results of operations or financial condition.

56

The Company's majority-owned subsidiary Congoleum principally sells its products through distributors. Although Congoleum has more than one distributor in some of its distribution territories and actively manages its credit exposure to its distributors, the loss of a major distributor could have a materially adverse impact on the Company's business, results of operations, or financial condition. Congoleum derives a significant percentage of its sales from two of its distributors. These two distributors accounted for approximately 67% of Congoleum's net sales for the year ended December 31, 2005 and 70% of Congoleum's net sales for the year ended December 31, 2004.

The Company's majority-owned subsidiary K&M Associates L.P. ("K&M") sells its products through its own direct sales force and, indirectly, through a wholly owned subsidiary and through third-party sales representatives. Three of K&M's customers accounted for approximately 58% of its net sales for the year ended December 31, 2005 and 59% of its net sales for the year ended December 31, 2004. The loss of the largest of these customers would have a material adverse effect on K&M's business, results of operations and financial condition and would likely have a material adverse effect on the Company's business, results of operations or financial condition.

The Company and its majority-owned subsidiary Congoleum depend on key executives to run their businesses, and the loss of any of these executives would likely harm the Company's business.

The Company and its majority-owned subsidiary Congoleum depend on key executives to run their businesses. In particular, three of the persons that serve as key executives at the Company also serve as key executives at Congoleum. The Company's future success will depend largely upon the continued service of these key executives, all of whom have no employment contract with the Company or Congoleum, as applicable, and may terminate their employment at any time without notice. Although certain key executives of the Company and Congoleum are, directly or indirectly, large shareholders of the Company or Congoleum, and thus are less likely to terminate their employment, the loss of any key executive, or the failure by the key executive to perform in his current position, could have a material adverse effect on the Company's business, results of operations or financial condition.

### Item 3. Defaults Upon Senior Securities

The commencement of the Chapter 11 proceedings by Congoleum constituted an event of default under the indenture governing Congoleum's 8 5/8% Senior Notes Due 2008. In addition, due to the Chapter 11 proceedings, Congoleum was not permitted to make the interest payments due on the Senior Notes on the following dates: February 1, 2004, 2005 and 2006 and August 1, 2004 and 2005. The aggregate amount of the interest payments that was not paid on the Senior Notes with respect to those interest payment due dates is approximately \$21.6 million. As of March 31, 2006, the aggregate outstanding principal amount of the Senior Notes is approximately \$100 million. These amounts, plus \$2.2 million of aggregate accrued interest on the unpaid interest that was due on February 1, 2004, 2005 and 2006 and August 1, 2004 and 2005 with respect to the Senior Notes, are included in the line item "Liabilities Subject to Compromise" in the Company's consolidated balance sheet included in this report.
