Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing:

U.S. GAAP International Financial Reporting Standards as Other issued by the International Accounting Standards Board

If "Other" has been checked in response to the previous question, indicate by check mark which financial statement item the registrant has elected to follow.

Item 17 Item 18

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

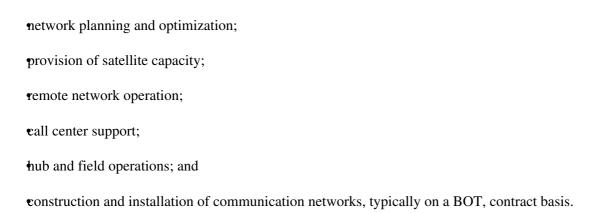

This report on Form 20-F is being incorporated by reference into our Registration Statements on Form S-8 (Registration Nos. 333-180552, 333-187021, 333-204867 and 333-210820).

ii

INTRODUCTION

We are a leading global provider of satellite-based broadband communications. We design and manufacture ground segment equipment and provide comprehensive solutions and end-to-end services, powered by our innovative technology. Our portfolio comprises a cloud- based satellite network platform, Very Small Aperture Terminals (VSATs), amplifiers, high-speed modems, high performance on-the-move antennas and high efficiency, high power Solid State Amplifiers (SSPAs) and Block Upconverters (BUCs). Our comprehensive solutions support multiple applications with a full portfolio of products to address key applications including broadband access, cellular backhaul, enterprise, in-flight connectivity, maritime, trains, defense and public safety, all while meeting the most stringent service level requirements. We also provide connectivity services, Internet access and telephony to enterprise, government and residential customers in Peru and Colombia over our own networks, which are built using our equipment and also over networks which we install mainly based on Build, Operate and Transfer, or BOT, contracts. Additionally, we build telecommunication infrastructure typically using fiber-optic and wireless technologies for broadband connectivity. We have a large installed base, having sold over 1.5 million satellite terminals spanning approximately 90 countries and currently have over 500 active networks.

In addition to developing and marketing ground-based satellite communications equipment, we provide managed network and services through terrestrial and satellite networks. We have proven experience in delivering complex projects and services worldwide. We offer complete turnkey integrated solutions including:

fully managed satellite communications services;

We have 20 sales and support offices worldwide, three Network Operation Centers,, or NOCs, and five R&D centers. Our products are sold to communication service providers and operators that use satellite communications to serve enterprise, government and residential users, to mobile network operators and to system integrators that use our technology. Our solutions and services are also sold to defense and homeland security organizations. In addition, we provide services directly to end-users in various market segments, including in certain countries in Latin America and also provide managed network services, such as in Australia, over a satellite network owned by a third party.

We operate in three business segments, comprised of our Commercial, Mobility and Services divisions:

• Commercial Division – provides advanced fixed satellite networks, satellite communication systems, small cell solutions and associated professional services and comprehensive turnkey solutions. Our customers are service providers, satellite operators, mobile network operators, or MNOs, telecommunication companies, or Telcos, and large enterprises worldwide. We focus on high throughput satellites, or HTS, opportunities worldwide and are driving meaningful partnerships with satellite operators to leverage our technology and breadth of services to deploy and operate the ground segment.

• Mobility Division – provides advanced, satellite communication on the move systems, including airborne, maritime and ground-mobile satellite systems and solutions. Our customers are service providers, system integrators, defense and homeland security organizations, as well as other commercial entities worldwide. The division provides solutions on land, sea and air, while placing major focus on the high-growth market of commercial In-Flight Connectivity, or IFC, with its unique leading technology. The division's portfolio comprises high-speed modems, high performance on-the-move antennas and high efficiency, high power Solid State Amplifiers (SSPAs) and Block Upconverters (BUCs).

iii

• Services Division – provides managed network and services for rural broadband access via our subsidiaries in Peru and Colombia. Our connectivity solutions have been implemented in large and national scale projects. Our terrestrial and satellite networks provide Internet and telephony services to thousands of rural communities and schools. Our turnkey solutions start with supplying network infrastructure, continue through ensuring high-quality, reliable connectivity and include full network support and maintenance, as well as support for applications that run on the installed network.

Our ordinary shares are traded on the NASDAQ Global Select Market under the symbol "GILT" and on the Tel Aviv Stock Exchange, or the TASE. As used in this annual report, the terms "we", "us", "Gilat" and "our" mean Gilat Satellite Networks Ltd. and its subsidiaries, unless otherwise indicated.

The marks "Gilat®", "SkyEdge®," "Wavestream®", "AeroStream™", "Raysat®¶, "SäSEtRapgeFM" and "Spatial AdvantEdge™" and other marks appearing in this annual report on Form 20-F marked with "® " or "™" are trademarks of our company and its subsidiaries. Other trademarks appearing in this Annual Report on Form 20-F are owned by their respective holders.

This Annual Report on Form 20-F contains various "forward looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and within the Private Securities Litigation Reform Act of 1995, as amended. Such forward-looking statements reflect our current view with respect to future events and, financial results of operations. Forward-looking statements usually include the verbs, "anticipates," "believes," "estimates," "expects," "intends," "plans," "projects," "understands" and other versuggesting uncertainty. We remind readers that forward-looking statements are merely predictions and therefore inherently subject to uncertainties and other factors and involve known and unknown risks that could cause the actual' results, performance, levels of activity, or our achievements, or industry results to be materially different from any future results, performance, levels of activity, or our achievements expressed or implied by such forward-looking statements. Readers are cautioned not to place undue reliance on these forward looking statements which speak only as of the date hereof. We undertake no obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. We have attempted to identify additional significant uncertainties and other factors affecting forward-looking statements in the Risk Factors section which appears in Item 3D: "Key Information—Risk Factors".

Our consolidated financial statements appearing in this annual report are prepared in U.S. dollars and in accordance with U.S. generally accepted accounting principles, or U.S. GAAP. All references in this annual report to "dollars" or "\$" are to U.S. dollars and all references in this annual report to "NIS" are to New Israeli Shekels. The representative exchange rate between the NIS and the dollar as published by the Bank of Israel on December 31, 2016 was NIS 3.845 per \$1.00.

Statements made in this Annual Report concerning the contents of any contract, agreement or other document are summaries of such contracts, agreements or documents and are not complete descriptions of all of their terms. If we filed any of these documents as an exhibit to this Annual Report or to any registration statement or annual report that we previously filed, you may read the document itself for a complete description of its terms.
