(Veracel), which runs the mill located in Eunápolis, BA (which has total installed production capacity of 900 thousand tons per year).

Aracruz owns 50% of the capital stock of Veracel, with the other half held by the Swedish-Finnish group Stora Enso.

The Company's operations are integrated with those of its subsidiaries, jointly-controlled and affiliated company, which operate in: (i) the distribution of products on the international market (Aracruz Trading S.A., Aracruz Celulose (USA), Inc., Aracruz Trading International Commercial and Servicing Limited Liability Company (Aracruz Trading International Ltd., previously known as Aracruz Trading Hungary Ltd.) and Riocell Limited), (ii) port services (Portocel - Terminal Especializado de Barra do Riacho S.A.), (iii) forestation and reforestation of eucalyptus trees, under a loan for use agreement (Mucuri Agroflorestral S.A.), (iv) the manufacture of solid wood products (Aracruz Produtos de Madeira S.A.), (v) consulting services and international trading activities (Ara Pulp - Comércio de Importação e Exportação, Unipessoal Ltda.) and (vi) pulp production (Veracel).

Based on the increase in the performance of port services to third parties and to the associated company Veracel, the need arose to carry out work to expand, revamp and enhance the Barra do Riacho Private Terminal. The Company's subsidiary Portocel contracted financing in the total amount equivalent to R\$ 50 million, which in Brazilian currency corresponds to R\$ 104 million [Note 13(c)], to be invested in Phase 1 of the expansion project, which is expected to be concluded in May of 2008, with start-up of operations slated for June of that same year.

05.01 COMMENTS ON THE COMPANY'S PERFORMANCE FOR THE QUARTER

As described in Note 1, the jointly-controlled company Veracel started up its production during 2005 and its sales have the required synergy with the Parent Company's international distribution network. Economic viability studies indicate full realization of the tax credits by the year 2012.

The remaining balance of R\$ 24,599 refers to deferred tax credits resulting from accumulated tax losses for income tax purposes and negative results for CSLL purposes at Aracruz, linked to the assessment notice regarding offset of BEFIEX tax losses [Note 18(f)].

- (ii) The income tax and social contribution deferred on temporary differences are stated at net value. The principal temporary effect refers to the effect of credit exchange variation calculated for the current year (system for calculating tax and social contribution on a cash basis - exchange effects).
- (iii) Since the promulgation of Complementary Law n^o. 87 on September 13, 1996, the Company's Espírito Santo mill has been accumulating ICMS (State Value Added Tax - VAT) credits, resulting from its predominantly export activity. The Company has the legal right, not contested by the tax authorities, to claim those credits from the State. However, due to the fact that the negotiations underway with the State in this regard have not permitted a reasonable estimate of the period for resolution of this matter, the Company has been recording a provision for losses of 100% of such ICMS credit balances recorded in the accounting books in relation to the unit in the State of Espírito Santo.

The amount of R\$ 59,785 at Aracruz not covered by the provision for loss, chiefly refers to ICMS credits in the amount of R\$ 51,227, the provision for which was reversed in the second quarter of 2007 due to the signing of a contract for assignment and transfer, which took place recently. The contract in question was ratified by the tax authorities. The remaining amount of R\$ 8,558 refers to credits at the Guaíba Unit (RS), which the Company has been offsetting in the normal course of operations.

9 Advances to Suppliers Forestry Producer Program

The Forestry Producer Program is a partnership with rural producers, initiated in 1990 in the State of Espírito Santo and expanded to other states, such as Bahia, Minas Gerais, Rio Grande do Sul and, more recently, Rio de Janeiro. The Program encourages the planting of commercial forests of eucalyptus trees, in respect of which the Company provides technology, technical support, materials and financial resources, depending on the type of contract, in order to ensure supply of wood for pulp production. As of June 30, 2007, advances of funds amounted to R\$ 222,631 (Consolidated R\$ 243,294), compared with R\$ 217,804 (Consolidated R\$ 237,668) as of March 31, 2007, which will be recovered against the delivery of the wood by the producers.

In the latter case, the amortization is appropriated to the cost of forest-growing and is recognized in income in the year in which the trees are felled. In relation to the goodwill on the lands, in the amount of R\$ 9,741, will remain pending amortization until such time as the respective assets are realized.

Of the goodwill of R\$ 839,305 arising on the acquisition of Riocell S.A. in 2003, R\$ 276,422 was allocated principally to fixed assets, while the unallocated portion of R\$ 562,883 (future profitability of the business) was transferred to deferred charges (Note 12).

(b) Consolidated

The consolidated balance of stakes in affiliated and subsidiary companies, in the amount of R\$ 19,373 (R\$ 19,777 as of March 31, 2007), represents Aracruz's share in its affiliated company Aracruz Produtos de Madeira S.A. The portion of the goodwill relating to the market value of the assets is allocated to property, plant and equipment in the consolidated financial statements (proportional consolidation of Veracel).

(a) Loans from BNDES (Stockholder)

In December, 2006, Aracruz signed a financing agreement with its stockholder, the Brazilian Development Bank (Banco Nacional de Desenvolvimento Econômico and Social - BNDES), in the total amount of R\$ 595,869, to be amortized in the period from 2014 to 2016, of which R\$ 200,677 has already been released, subject to interest varying between 7.78% and 8.90% per annum.

Except for the agreement signed in December of 2006, the financings granted by BNDES are guaranteed by mortgages, in varying degrees, of the industrial unit in the State of Espírito Santo and by Company lands and forests, as well as by a statutory lien on financed machinery and equipment.

As regards Veracel, as of June 30, 2007 BNDES financings amount to R\$ 634,487 (R\$ 673,349 as of March 31, 2007), not including interest, which varies from 7.0% to 9.5%, to be amortized in the period from July, 2007 to February of 2014. These amounts refer to the 50% share held by Aracruz in Veracel.

Also linked to this operation was the contracting of a DI x US\$ swap transaction, with the same maturity terms and transformation of the interest rate into exchange variation + 5.985% p.a.

14 Financial Instruments (CVM Instruction n^o. 235/95)

(a) Risk management

Aracruz and its Subsidiaries operate internationally and are exposed to market risks from changes in foreign exchange rates and interest rates. The exposure of the Company to liabilities denominated in U.S. Dollars does not represent risk from an economic and financial point of view, given that exchange variances arising from the future settlement in local currency of foreign currency denominated liabilities are offset by exchange variances in the opposite direction arising from operating income, as almost all sales are exported.

Further in terms of protection of export operations, derivative financial instruments are also used by Company s Management to mitigate the exchange risks, the position of which as of June 30, 2007 is represented by 11,000 future dollar contracts through the Brazilian Futures Market (BM&F), compared with 8,000 future dollar contracts as of March 31, 2007, with an outstanding amount of R\$ 4.1 million to be received (as of December 31, 2006 the position was represented by 5,780 BM&F future dollar contracts. During the second quarter of 2007 the derivative financial instruments had a positive yield of R\$ 71.1 million (R\$ 6 million in the second quarter of 2006).

With relation to interest rate exposure, certain derivative financial instruments are used to manage interest rate risk, the position of which as of June 30, 2007, is represented by 19,735 future DI contracts through the BM&F (compared with 10,400 future DI contracts as of March 31, 2007) and an outstanding amount of R\$ 0.3 million to be paid. During the second quarter of 2007, these derivative financial instruments yielded positive results of R\$ 9.4 million.

During the second quarter interest rate/dollar (TJLP x US\$) swap operations were carried out with notional amount of R\$ 346,480 as of June 30, 2007, with maturity set for April 16, 2010. Through the end of the second quarter, such operations posted marked to market results of R\$ 6.2 million.

05.01 COMMENTS ON THE COMPANY S PERFORMANCE FOR THE QUARTER

Stockholders are assured by the Company s Bylaws of a minimum annual dividend equivalent to 25% of the Parent Company s net income, adjusted by any increases or decreases in the reserves, as defined in applicable corporate legislation.

As permitted by Law No. 9249 of December 26, 1995, Management elected, during the first and second quarters of 2007, as well as during the year 2006, to pay interest on capital invested to its stockholders. This interest is calculated on the reported stockholders equity and is limited to the daily variation in the Long-Term Interest Rate - TJLP, amounting to R\$ 77,000 (R\$ 67,000 in the first quarter of 2007).

Edgar Filing: ARACRUZ CELLULOSE S A - Form 6-K

Based on Aracruz's operating cash generating capacity and in addition to the interest on capital invested already declared, the Annual General Meeting (AGM) of Stockholders, also held on April 24, 2007, decided to distribute dividends for the year 2006 in the amount of R\$ 167,000, which represents R\$ 168.82 per batch of one thousand Class A and B preferred shares and R\$ 153.47 per batch of one thousand common shares.

(c) Treasury stock

At a meeting held June 3, 2005, the Aracruz Board of Directors, in the manner provided by item XIV, Article 16, of the Company's Bylaws, as well as Articles 1 and 8 of CVM Instruction No. 10 of February 14, 1980, authorized the Executive Officers Committee to trade shares issued by the Company itself up to the limit of 15 million Class A and Class B preferred shares. The Company's aim is subsequent disposal and/or cancellation of these shares, without decreasing the capital stock.

As of June 30, 2007, the Company held 483 thousand common shares and 1,483 thousand Class B preferred shares as treasury stock, the market value of which as of that date was R\$ 16.47 and R\$ 12.88, respectively, per batch of one thousand shares.

16 Employee post-retirement benefit plan - ARUS

The Aracruz Employee Pension Fund ARUS (Fundação Aracruz de Seguridade Social) is a private pension fund which operates in the form of a multi-sponsor fund on a non-profit basis. In September 1998, the previously existing pension plan was substituted by a defined contribution system for retirement (Arus Retirement Plan).

The Company sponsors ARUS and its total contribution during the second quarter of 2007 was approximately R\$ 1,535 (2006 - R\$ 1,400).

Should the sponsor withdraw from the Retirement Plan, the sponsor's commitment to the Arus Retirement Plan, made under Resolution No. CPC 06/88 (issued by the Brazilian Supplementary Retirement Benefits Council), is totally covered by the assets of the Defined Contribution Plan.

05.01 COMMENTS ON THE COMPANY'S PERFORMANCE FOR THE QUARTER

In view of the nature of its activities, the Company has adopted the policy of contracting insurance coverage to meet its requirements, taking into account the classic differences in risks (manufacturing plant, forests and port). Based on systematic risk analyses, together with modern insurance techniques, the Company purchases insurance coverage in accordance with the maximum possible loss concept, which corresponds to the maximum amount subject to destruction in a single event.

As of June 30, 2007, the Company's assets were insured against losses for a total amount of approximately US\$ 700,000, corresponding to the maximum limit of indemnity per event.

18 Provision for Contingencies and Legal Obligations Being Disputed in Court

The juridical situation of Aracruz Celulose S.A. and its Subsidiaries, jointly controlled and affiliated companies includes labor, civil and tax suits. Based on the representation of external legal counsel, Management believes that the appropriate legal procedures and steps taken in each situation are sufficient to preserve the stockholders' equity of the Company and all its Subsidiaries, jointly controlled and affiliated companies, without additional provisions for loss on contingencies besides the amount recorded as of June 30, 2007. The breakdown of the balance of the provision for contingencies and legal obligations being disputed in court is presented as follows, on a Consolidated basis:

(a) Labor claims

The most significant labor claims are in respect of alleged salary losses due to inflation indices and economic plans imposed by past governments, fines of 40% of the accrued severance pay scheme (Guarantee Fund for Length of Service - FGTS) and claims for additional compensation for alleged hazardous/unhealthy working conditions.

As of June 30, 2007, the Company maintained provisions in the total amount of approximately R\$ 28,900 (Consolidated - R\$ 32,500), in order to cover any unfavorable decisions in the labor area, as well as deposits in court in the amount of R\$ 11,900 (Consolidated - R\$ 18,300).

(b) Brazilian Social Security Institute - INSS

In March 1997, the Company received assessment notices from the Brazilian Social Security Institute - INSS relating principally to accommodation allowances. The inspectors took the view that the subsidized rentals constituted savings for employees and, hence, indirect salary benefits (remuneration in kind). As a consequence, the INSS inspectors argued, this process results in underpayment of the corresponding social security contributions. The Company filed a suit for declaratory judgment to challenge such assessments, with a view to cancellation of the notices, which amount to approximately R\$ 16,000. The Superior Court of Justice (STJ) has already decided one of the suits, with results that favor the arguments defended by the Company.

05.01 COMMENTS ON THE COMPANY'S PERFORMANCE FOR THE QUARTER

As of June 30, 2007, the Company's deposits in court in relation to this case amounted to approximately R\$ 22,500. Based on the advice of its legal counsel, as drawn up in a formal legal opinion, indicating that the likelihood of loss in this case is remote, no provision has been established for any unfavorable decisions.

(c) PIS/COFINS

The Company disagrees with the legitimacy of the claim for these taxes and filed for a court injunction against the changes in the bases for calculation of PIS and COFINS, as well as the increase in the COFINS rate, imposed by Law No. 9718/98. A preliminary injunction was issued in favor of the Company in November of 2001. Due to unfavorable court decisions for other taxpayers in similar lawsuits, on August 29, 2003 the Company decided to withdraw part of claims filed, and chose to adhere to the PAES program - special payment in installments, in the amount of \$ 56,241 - created by Law No. 10684/2003, the current balance of which is approximately R\$ 55,200, and maintained only the claims regarding exchange differences.

Notwithstanding the petition for waiver, in view of the decision rendered by the Federal Supreme Court (STF), which ruled that the change in the basis for calculation of the PIS and COFINS is unconstitutional, the Parent Company filed for a Restraining Order to ensure its right not to pay over the PAES installments relating to such modification, and the petition was granted. The amount at stake, relating to exchange variation for the period from February 1999 to September 2003, is approximately R\$ 163,200 as of June 30, 2007 (R\$ 160,400 as of March 31, 2007), already adjusted to current price levels based on the SELIC interest rate, which is appropriately reflected in the provision for contingencies and legal obligations being disputed in court.

The amount relating to the PAES installments that were not paid as a result of the cited court order, for the months from July, 2006 through June of 2007 is roughly R\$ 7,200, already updated according to the Long-Term Interest Rate (TJLP) rate.

(d) Social Contribution on Net Income Non-incident on export revenues

In September of 2003 the Company obtained a restraining order that give it the right not to pay Social Contribution on Net Income (CSLL) generated by export sales, as well as the right to recognize the amounts of tax credits previously offset in this regard, adjusted by the SELIC rate, in the amount of R\$ 212,000 as of June 30, 2007 (R\$ 197,400 as of March 31, 2007), for which it maintains a provision. The Company is awaiting a decision on the appeal filed by the Federal Government.

(e) IRPJ Deductibility of Social Contribution on Net Income (CSLL)

On June 29, 2005, the Company was assessed relating to deductibility of CSLL from taxable income for IRPJ purposes for fiscal years 2000 and 2001, the existing provision for which as of June 29, 2005, was supplemented by the amount of R\$ 3.6 million, bringing the total to R\$ 38 million.

05.01 COMMENTS ON THE COMPANY S PERFORMANCE FOR THE QUARTER

In July 2005, in view of the existing case law, the Company decided to pay over the assessed amount, although it recalculated the basis for calculation thereof, arriving at the amount of R\$ 24.4 million. The Company filed an administrative challenge to the balance of the amount assessed, such that the requirement to pay the tax credit has been suspended and, in addition, it has maintained the lawsuit questioning the cited deductibility.

(f) IRPJ/CSLL Full offset of accumulated tax losses and negative results

On June 29, 2005, the Parent Company was assessed regarding full offset of accumulated tax losses (NOL s) for IRPJ purposes and negative results for CSLL purposes for fiscal years 2000 and 2001, as well as relating to the full offset, in fiscal year 2000, of the tax loss generated during the period it enjoyed the export tax benefit known as the BEFIE X [Note 18(e)]. Aracruz challenged the assessment notice at the administrative level, but it was upheld. The Company appealed this administrative decision and is awaiting judgment.

In July 2006, a court decision was rendered denying the Company the right to fully offset the IRPJ accumulated tax losses and negative CSLL results, a decision that has already been appealed. Even so, in order to avoid a fine, the Parent Company has made payment of the amount of R\$ 49.3 million.

The amount of the provision set up, relating to the period in which the Parent Company enjoyed the BEFIE X benefit as of June 30, 2007, is approximately R\$ 65,800 (R\$ 65,300 as of March 31, 2007).

(g) ICMS

On October 20, 2006, the Company received assessment notices from the Espírito Santo State Treasury Secretary in the amount of R\$ 75.8 million, dealing basically with failure to comply with accessory obligations and unduly taking credits for the State Value-Added Tax on Circulation of Goods and Services (ICMS) on assets for use in operations, supplies and fixed assets. The Company elected to make payment of part of the amount assessed and challenged the amount of R\$ 75.5 million. Based on the opinion of its external legal counsel, which ranked the probability of loss in court as being somewhere between remote and possible, no provision has been set up to cover any unfavorable decisions in this case.

(h) Other tax cases

Based on the opinion of its legal counsel, the Company further maintains a provision for other tax contingencies where the likelihood of loss is ranked as probable in the total amount of R\$ 28,500 (R\$ 38,400 Consolidated relating to tax and civil cases involving the Subsidiaries and jointly controlled company). For these other contingencies, the Company has on deposit in court the amount of approximately R\$ 22,600 (Consolidated R\$ 22,800).

05.01 COMMENTS ON THE COMPANY S PERFORMANCE FOR THE QUARTER

19 Tax Incentives - ADENE

Since Aracruz is located within the geographic area of ADENE (Agency for the Development of the Northeast) and inasmuch as Decree No. 4213 of April 16, 2002 recognized pulp and paper sector as a priority in the development of the region, the Company claimed and was granted the right by the Federal Revenue Service (SRF) in December of 2002 to benefit from reductions in corporate income tax and non-refundable surcharges on adjusted operating profits for plants A and B (period from 2003 to 2013) and plant C (period from 2003 to 2012). This right was granted after ADENE approved the respective reports.

On January 9, 2004, the Company received Official Letter No. 1406/03 from the Extrajudicial Administrator of the former Northeast Development Agency (SUDENE), informing that pursuant to re-examination by the Juridical Consultancy of the Ministry for Integration as regards the coverage of the cited incentive granted, it considered that it was inappropriate for Aracruz to enjoy the benefit previously granted and accrued, which caused revocation thereof.

During fiscal years 2004 and 2005, notifications with the objective of annulling the related tax benefits were issued by ADENE and repeatedly challenged and/or contested by the Company, although so far no definitive court decision has been issued in relation to the merits of the case.

Nevertheless, in December 2005 an Assessment Notice was drawn up against the Company by the SRF, in which the latter government agency required payment back to public coffers of the amounts of the tax incentives used so far, plus interest, albeit without imposition of any fines, for a total amount of R\$ 211 million. The Company filed a challenge against this assessment and is presently awaiting a decision.

Company Management, in conjunction with its legal counsel, believes that the decision to cancel the ADENE tax benefits in December 2005 is incorrect, both with respect to the benefits used and in relation to the remaining period. As regards the benefits used through 2004 (R\$ 142,858 as of December 31, 2004, recorded under Capital Reserve), Management believes, based on the opinion of its legal counsel, that the requirement to pay the tax has no substantive basis, given that the Company used the benefits strictly within legal parameters and in conformity with acts carried out by the SRF and Reports issued by the ADENE. With respect to the rest of the benefit periods, which extend through 2012 (mill C) and 2013 (mills A and B), respectively, Management and its legal counsel believe it is illegal to revoke benefits that were granted on condition of compliance with pre-established conditions (implementation, expansion or modernization of an industrial undertaking), and that such acquired rights to enjoy same are ensured until the end of the periods set forth in the Law and in the administrative acts granting the benefits.

Notwithstanding its firm conviction as to the solid grounds for its rights, in light of the series of events that occurred in the years 2004 and 2005, indicating intent on the part of ADENE and SRF to cancel the tax benefits, the Company decided to adopt a conservative approach and interrupt the recording of the tax benefits as from 2005, until such time as a definitive court decision is reached.

The probability of loss, both in relation to the tax benefits already taken through 2004 as well as regarding those that have not yet been used as from 2005, is ranked as possible by Management and its legal counsel.

21 Commitments

(a) Supply of chemical products

Linked to the sale of the electro-chemical plant to Canexus Química Brasil Ltda. (Canexus) in 1999, the Company and Canexus signed a long-term contract for the supply of chemical products by Canexus, which was revised in 2002 to include additional volumes. Under the clause of this contract guaranteeing the purchase of minimum volumes, the Company is committed to buying a conservatively projected volume of chemical products. Volumes purchased by the Company in addition to the agreed-upon minimum for a given year may be compensated with lower volumes acquired in subsequent years. For purchases in volumes below those agreed upon, the Company has to pay the utility margin provided by the contract. The Company has these volume commitments until 2008, under the amendment to the contract signed in 2002.

(b) Wood supply

The Company signed a contract with Suzano Papel e Celulose S.A. with a view to a loan of 1,700 thousand m³ of eucalyptus wood, which were received through September of 2005. The remaining balance as of June 31, 2007 is 1,500 m³ of eucalyptus wood and, based on its present forest formation costs, the Company has booked the amount of R\$ 15,898 under liabilities. The contract calls for return of an equivalent volume on similar operating conditions between 2007 and 2008.

05.01 COMMENTS ON THE COMPANY S PERFORMANCE FOR THE QUARTER

(c) Indian Communities Terms of Settlement

In the first half of 1998, the Company and the Associations of Indian Communities entered into Terms of Settlement (TAC s) whereby both parties recognized the legitimacy of Administrative Rulings Nos. 193, 194 and 195, all dated March 6, 1998, issued by the Federal Ministry of Justice, which determined the enlargement of the Indian reservation by 2,571 hectares of land belonging to the Company. Aracruz committed itself to a financial aid program to be implemented through social, agricultural, educational, shelter and health projects, up to an amount of approximately R\$ 13,500 (historical amount), monetarily restated each month by one of the official inflation indices (General Market Price Index IGP-M or Consumer Price Index IPC) or such other index as may replace them in the future, whichever is greater. The amount of this financial assistance was to be disbursed over a 20-year period, conditioned to the accomplishment of certain clauses and terms.

Despite the TAC s in force, during the year 2005 members of the Associations of Indian Communities invaded some forestry areas and the Company s industrial premises. Although Aracruz had obtained provisional measures for reinstatement of its ownership of the invaded areas, at end of the year the Indians still occupied approximately 11,000 hectares of land to which the Company is legally entitled. Since the invasion represented breach of the TAC s by the Indian communities, the Company -- after having notified the communities themselves, the National Indian Foundation - FUNAI and the Federal Public Prosecutor -- suspended all commitments to the Indian communities under the TAC s as of May 2005.

As of June 30, 2007, in relation to the time the TAC s were being complied with, the Company had donated the amount of R\$ 9,597 to the Associations of Indian Communities.

On February 17, 2006, FUNAI published Decisions Nos. 11 and 12 in the Official Federal Gazette (D.O.U.), approving the conclusion of a working group set up by FUNAI Administrative Ruling No. 1299/05, which recommended expansion of the current Indian reserves by about 11,000 hectares, comprised almost entirely of lands owned by Aracruz. The working group identified such lands as being traditionally occupied by the Indian communities. As it is confident of the legitimacy of its rights, the Company filed a challenge to such Decisions on June 19, 2006. At the beginning of 2007, the Federal Ministry of Justice, which has the authority to resolve the issue, returned the administrative proceedings to FUNAI, determining that more in-depth studies should be conducted with a view to preparing an appropriate proposal that satisfies the interests of both parties to the dispute .

(d) Guarantees

As of June 30, 2007, collateral signatures and other such guarantees granted to the Company s other subsidiaries and the jointly controlled company, relating to third party loans and legal challenges filed by these companies, are represented as follows:
