Forward Looking Statements

CERTAIN STATEMENTS MADE IN THIS QUARTERLY REPORT ON FORM 10-Q ARE “FORWARD-LOOKING STATEMENTS” WITHIN THE MEANING OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995. FORWARD-LOOKING STATEMENTS CAN BE IDENTIFIED BY TERMINOLOGY SUCH AS “MAY”, “WILL”, “SHOULD”, “EXPECTS”, “INTENDS”, “ANTICIPATES”, “BELIEVES”, “ESTIMATES”, “PREDICTS”, OR “CONTINUE” OR THE NEGATIVE OF THESE TERMS OR OTHER COMPARABLE TERMINOLOGY AND INCLUDE, WITHOUT LIMITATION, STATEMENTS BELOW REGARDING EXPLORATION AND DRILLING PLANS, FUTURE GENERAL AND ADMINISTRATIVE EXPENSES, FUTURE GROWTH, FUTURE EXPLORATION, FUTURE GEOPHYSICAL AND GEOLOGICAL DATA, GENERATION OF ADDITIONAL PROPERTIES, RESERVES, NEW PROSPECTS AND DRILLING LOCATIONS, FUTURE CAPITAL EXPENDITURES, SUFFICIENCY OF WORKING CAPITAL, ABILITY TO RAISE ADDITIONAL CAPITAL, PROJECTED CASH FLOWS FROM OPERATIONS, OUTCOME OF ANY LEGAL PROCEEDINGS, DRILLING PLANS, THE NUMBER, TIMING OR RESULTS OF ANY WELLS, INTERPRETATION AND RESULTS OF SEISMIC SURVEYS OR SEISMIC DATA, FUTURE PRODUCTION OR RESERVES, LEASE OPTIONS OR RIGHTS, PARTICIPATION OF OPERATING PARTNERS, CONTINUED RECEIPT OF ROYALTIES, AND ANY OTHER STATEMENTS REGARDING FUTURE OPERATIONS, FINANCIAL RESULTS, OPPORTUNITIES, GROWTH, BUSINESS PLANS AND STRATEGY. BECAUSE FORWARD-LOOKING STATEMENTS INVOLVE RISKS AND UNCERTAINTIES, THERE ARE IMPORTANT FACTORS THAT COULD CAUSE ACTUAL RESULTS TO DIFFER MATERIALLY FROM THOSE EXPRESSED OR IMPLIED BY THESE FORWARD-LOOKING STATEMENTS. ALTHOUGH THE COMPANY BELIEVES THAT EXPECTATIONS REFLECTED IN THE FORWARD-LOOKING STATEMENTS ARE REASONABLE, IT CANNOT GUARANTEE FUTURE RESULTS, PERFORMANCE OR ACHIEVEMENTS. MOREOVER, NEITHER THE COMPANY NOR ANY OTHER PERSON ASSUMES RESPONSIBILITY FOR THE ACCURACY AND COMPLETENESS OF THESE FORWARD-LOOKING STATEMENTS. THE COMPANY IS UNDER NO DUTY TO UPDATE ANY FORWARD-LOOKING STATEMENTS AFTER THE DATE OF THIS REPORT TO CONFORM SUCH STATEMENTS TO ACTUAL RESULTS.

Isramco Inc.
Notes to Condensed Consolidated Financial Statements
(Unaudited)

Note 1 - Financial Statement Presentation

Isramco, Inc. and its subsidiaries and affiliated companies (together referred to as “We”, “Our”, “Isramco” or the “Company”) is predominately an independent oil and natural gas company engaged in the exploration, development and production of oil and natural gas properties located onshore in the United States and ownership of various royalty interests in oil and gas concessions located offshore Israel. The Company also operates a well service company that provides well maintenance and workover services, well completion and recompletion services.

The accompanying unaudited financial statements and notes of Isramco have been prepared pursuant to the rules and regulations of the United States Securities and Exchange Commission. Pursuant to such rules and regulations, certain disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted. The accompanying financial statements and notes should be read in conjunction with the accompanying financial statements and notes included in Isramco’s 2012 Annual Report on Form 10-K.

The accompanying unaudited interim financial statements furnished in this report reflect all adjustments that are, in the opinion of management, necessary to a fair statement of Isramco’s results of operations and cash flows for the three-month and nine-month periods ended September 30, 2013 and 2012 and Isramco’s financial position as of September 30, 2013.

Use of Estimates

The preparation of the Company’s condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States requires the Company’s management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities, if any, at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the respective reporting periods. The Company bases its estimates and judgments on historical experience and on various other assumptions and information that are believed to be reasonable under the circumstances. Estimates and assumptions about future events and their effects cannot be perceived with certainty and, accordingly, these estimates may change as new events occur, as more experience is acquired, as additional information is obtained and as the Company’s operating environment changes. Actual results may differ from the estimates and assumptions used in the preparation of the Company’s condensed consolidated financial statements.

Consolidated interim period results are not necessarily indicative of results of operations or cash flows for the full year and accordingly, certain information normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States has been condensed or omitted. The Company has evaluated events or transactions through the date of issuance of these condensed consolidated financial statements.

Risk Management Activities

The Company follows Accounting Standards Codification (ASC) 815, Derivatives and Hedging. From time to time, the Company may hedge a portion of its forecasted oil and natural gas production. Derivative contracts entered into by the Company have consisted of transactions in which the Company hedges the variability of cash flow related to a forecasted transaction. The Company has elected to not designate any of its positions for hedge accounting. Accordingly, the Company records the net change in the mark-to-market valuation of these positions, as well as

payments and receipts on settled contracts, in “Net loss (gain) on derivative contracts” in the consolidated statements of operations.

Consolidation

The condensed consolidated financial statements include the accounts of Isramco and its subsidiaries. Inter-company balances and transactions have been eliminated in consolidation.

Asset Retirement Obligation

ASC 410, Asset Retirement and Environmental Obligations (ASC 410) requires that the fair value of an asset retirement cost, and corresponding liability, should be recorded as part of the cost of the related long-lived asset and subsequently allocated to expense using a systematic and rational method. The Company records asset retirement obligations to reflect the Company’s legal obligations related to future plugging and abandonment of its oil and natural gas wells and gas gathering systems. The Company estimates the expected cash flow associated with the obligation and discounts the amounts using a credit-adjusted, risk-free interest rate. At least annually, the Company reassesses the obligation to determine whether a change in the estimated obligation is necessary. The Company evaluates whether there are indicators that suggest the estimated cash flows underlying the obligation have materially changed. Should those indicators suggest the estimated obligation may have materially changed on an interim basis (quarterly), the Company will accordingly update its assessment.

Table of Contents

Note 2 - Supplemental Cash Flow Information

Cash paid for interest and income taxes was as follows for the nine months ended September 30 (in thousands):

	Nine Months Ended September 30	
	2013	2012
Interest	\$ -	\$ 176
Income taxes	-	-

The consolidated statements of cash flows exclude the following non-cash transactions:

- Property and equipment of \$886,000 included in accounts payable.
- Accrued interest of \$1,840,000 included as part of the loan from related party that was amended on June 30, 2013.

The consolidated statements of cash flows for the period ended September 30, 2012 exclude the following non-cash transactions:

- Oil and gas properties of \$2,218,000 included in accounts payable.

Note 3 - Long-Term Debt and Interest Expense

Long-Term Debt as of September 30, 2013 and December 31, 2012 consisted of the following (in thousands):

	As of September 30, 2013	As of December 31, 2012
Libor + 6% Related party Debt	12,000	12,000
Libor + 5.5% Related party Debt	3,500	3,500
Libor + 5.5% Related party Debt	10,000	10,000
Libor + 6% Related party Debt	11,500	11,500
Libor + 6% Related party Debt	6,000	6,000
Libor + 6% Related party Debt (1)	43,701	41,861
Libor + 5.5% Related party Debt	6,456	6,456
Libor + 6% Related party Debt	1,500	-
	94,657	91,317
Less: Current Portion of Long-Term Debt	-	(17,411)
Total	94,657	73,906

- (1) An amendment of loan agreement between Company and related party extended the term of this loan and covered an amount equal to the unpaid principal balance and accrued interest as of the effective date thereof.

Table of Contents

Related Party Debt

On February 13, 2013, the Company entered into another Loan Agreement with Israel Oil Company LTD (“IOC”), pursuant to which it borrowed \$1,500,000. The loan bears interest of Libor+6% per annum and matures on February 13, 2018, when all accrued interest and principal is due and payable. The loan may be prepaid at any time without penalty or premium. The loan is unsecured. The purpose of the loan was to provide funds to back up a Letter of Credit.

As we disclosed in our 2012 Annual Report on Form 10K under Note 5. Long-Term Debt and Interest Expense, on March 1, 2013 Loan agreements and notes with aggregated principal amount of \$49,456,000 were amended. The terms of all these loans and notes between the Company and related parties were amended extending the maturity to December 31, 2018. In addition the payment schedule was changed on all of the loans and notes to require interest only payments on December 31, 2014, December 31, 2015, December 31, 2016, December 31, 2017 and final interest payment December 31, 2018 along with all outstanding principal paid in four equal installments with the first payment December 31, 2015 and a similar payment made December 31 in each of the following three years until the final payment on December 31, 2018. The other terms of these loan agreements and notes remained unchanged. In accordance with the amendment, as of March 31, 2013 the loans are classified as long-term on our consolidated balance sheets.

On June 30, 2013, the terms of an Amended and Restated Loan Agreement dated May 25, 2008, and note between the Company and Jerusalem Oil Exploration, Ltd. (“JOEL”) were amended to extend the maturity date to June 30, 2017. The payment schedule of the loan agreement and note was amended to require principal and accrued interest to be paid in three (3) installments in the amounts reflected in Promissory Note due on June 30th of each year commencing June 30, 2015. The other terms of the loan agreement and note remained unchanged. In accordance with the amendment, as of June 30, 2013, the loans are classified as long-term on our consolidated balance sheets.

The Company evaluated the application of ASC 470-50 “Debt Modification and Extinguishment” and ASC 470-60 “Troubled Debt Restructuring” and concluded that the revised terms constituted a debt modification, rather than a debt extinguishment or a troubled debt restructuring.

Interest expense

The following table summarizes the amounts included in interest expense for the nine months ended September 30, 2013 and 2012 (in thousands):

	Nine Months Ended September 30	
	2013	2012
Current debt, long-term debt and other - banks corporation	\$ -	\$ 245
Long-term debt – related parties	4,847	4,492
	\$ 4,847	\$ 4,737

Note 4 - Tamar Field Proceeds

In our annual Annual report on form 10K for the year ended December 31, 2012 in ITEM 1. BUSINESS, we disclosed our overriding royalty interest in Tamar Field offshore Israel.

Table of Contents

In 2009, two natural gas discoveries, known as "Tamar" and "Dalit", were made within the area covered by Michal and Matan Licenses, respectively. In December 2009, the Israeli Petroleum Commissioner granted Noble Energy, Inc. ("Noble") and its partners, Isramco Negev 2-LP, Delek Drilling, Avner Oil & Gas, and Dor Gas (the "Tamar Consortium"), two leases (the "Leases"). The Leases are scheduled to expire in December 2038 and cover the Tamar and Dalit gas fields (collectively the "Tamar Field"). The Tamar Field is approximately 95 kilometers off the coast of the Israel, in the Israel exclusive economic zone of the Eastern Mediterranean, with a water depth of approximately 1,700 meters.

We own an overriding royalty interest of 1.5375% in the Tamar Field, which will increase to 2.7375% after payout (collectively the "Tamar Royalty").

On March 31, 2013 the Tamar Field commenced its initial production of the natural gas.

During nine months ended September 30, 2013 the Tamar Field net sales applicable to Isramco amounted to 1,783,180 Mcf of natural gas and 2,328 Bbl of condensate with prices of \$5.52 per Mcf and \$99.04 per Bbl of condensate. Total revenues net of marketing and transportations expenses were \$10,078,000. Israeli Tax Authorities withheld \$2,519,000, of this revenue which is recognized as an asset on the Company's balance sheet.

Note 5 - Segment Information

Isramco's primary business segments are vertically integrated within the oil and gas industry. These segments are separately managed due to distinct operational differences, unique technology, distribution and marketing requirements. The Company's two reporting segments are oil and gas exploration and production and well service. The oil and gas exploration and production segment explores for and produces natural gas, crude oil, condensate, and NGLs. The well service segment is engaged in rig-based and workover services, well completion and recompletion services, plugging and abandonment of wells and other ancillary oilfield services.

Oil and Gas Exploration and Production Segment

Our Oil and Gas segment is engaged in the exploration, development and production of oil and natural gas properties located onshore in the United States and ownership of various royalty interests in oil and gas concessions located offshore Israel. We own varying working interests in oil and gas wells in Louisiana, Texas, New Mexico, Oklahoma, Wyoming, Utah and Colorado and currently serve as operator of approximately 589 wells located mainly in Texas and New Mexico.

Well Service Segment

Our rig-based services include the completion of newly drilled wells, workover and recompletion of existing oil and natural gas wells, well maintenance, and the plugging and abandonment of wells at the end of their useful lives.

The completion and recompletion services provided by our rigs prepare a newly drilled well, or a well that was recently extended through a workover, for production. The completion process may involve selectively perforating the well casing to access production zones, stimulating and testing these zones, and installing tubular and downhole equipment. We typically provide a well service rig and may also provide other equipment to assist in the completion process. The completion process usually takes a few days to several weeks, depending on the nature of the completion.

The workover services that we provide are designed to enhance the production of existing wells and generally are more complex and time consuming than normal maintenance services. Workover services can include deepening or

extending wellbores into new formations by drilling horizontal or lateral wellbores, sealing off depleted production zones and accessing previously bypassed production zones, converting former production wells into injection wells for enhanced recovery operations and conducting major subsurface repairs due to equipment failures. Workover services may last from a few days to several weeks, depending on the complexity of the workover.

The maintenance services that we provide with our rig fleet are generally required throughout the life cycle of an oil or natural gas well. Examples of these maintenance services include routine mechanical repairs to the pumps, tubing and other equipment, removing debris and formation material from wellbores, and pulling the rods and other downhole equipment from wellbores to identify and resolve production problems. Maintenance services generally take less than 48 hours to complete. Our rig fleet is also used in the process of permanently shutting-in oil or natural gas wells that are at the end of their productive lives. These plugging and abandonment services generally require auxiliary equipment in addition to a well servicing rig. The demand for plugging and abandonment services is not significantly impacted by the demand for oil and natural gas because well operators are required by state and federal regulations to plug wells that are no longer productive.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

THE FOLLOWING COMMENTARY SHOULD BE READ IN CONJUNCTION WITH THE CONSOLIDATED FINANCIAL STATEMENTS AND RELATED NOTES CONTAINED ELSEWHERE IN THIS REPORT ON FORM 10-Q. THE DISCUSSION CONTAINS FORWARD-LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. THESE STATEMENTS RELATE TO FUTURE EVENTS OR OUR FUTURE FINANCIAL PERFORMANCE. IN SOME CASES, YOU CAN IDENTIFY THESE FORWARD-LOOKING STATEMENTS BY TERMINOLOGY SUCH AS "MAY," "WILL," "SHOULD," "EXPECT," "PLAN," "ANTICIPATE," "BELIEVE," "ESTIMATE," "PREDICT," "POTENTIAL," "INTEND," OR "CONTINUE," AND SIMILAR EXPRESSIONS. THESE STATEMENTS ARE ONLY PREDICTIONS. OUR ACTUAL RESULTS MAY DIFFER MATERIALLY FROM THOSE ANTICIPATED IN THESE FORWARD-LOOKING STATEMENTS AS A RESULT OF A VARIETY OF FACTORS, INCLUDING, BUT NOT LIMITED TO, THOSE SET FORTH UNDER "RISK FACTORS" AND ELSEWHERE IN THIS REPORT ON FORM 10-Q. ISRAMCO INC. DISCLAIMS ANY OBLIGATION TO UPDATE SUCH FORWARD LOOKING STATEMENTS.

Overview

Isramco is predominately an independent oil and natural gas company engaged in the exploration, development and production of oil and natural gas properties located onshore in the United States and ownership of various royalty interests in oil and gas concessions located offshore Israel. The Company also operates a well service company that provides well maintenance, workover services, well completion and recompletion services. Our properties are primarily located in Texas, New Mexico and Oklahoma. We also act as the operator of a certain number of these properties. Historically, we have grown through acquisitions, with a focus on properties within our core operating areas that we believe have significant development and exploration opportunities and where we can apply our technical experience and economies of scale to increase production and proved reserves, while lowering lease operating costs.

In our annual 10K report for December 31, 2012 in ITEM 1. BUSINESS, we disclosed our overriding royalty interest in Tamar Field offshore Israel.

In 2009, two natural gas discoveries, known as "Tamar" and "Dalit", were made within the area covered by Michal and Matan Licenses, respectively. In December 2009, the Israeli Petroleum Commissioner granted Noble Energy, Inc. ("Noble") and its partners, Isramco Negev 2-LP, Delek Drilling, Avner Oil & Gas, and Dor Gas (the "Tamar Consortium"), two leases (the "Leases"). The Leases are scheduled to expire in December 2038 and cover the Tamar and Dalit gas fields (collectively the "Tamar Field"). The Tamar Field is approximately 95 kilometers off the coast of the Israel, in the Israel exclusive economic zone of the Eastern Mediterranean, with a water depth of approximately 1,700 meters.

We own an overriding royalty interest of 1.5375% in the Tamar Field, which will increase to 2.7375% after payout (collectively the "Tamar Royalty").

On March 31, 2013 the Tamar Field has begun its initial production of the natural gas.

During nine months ended September 30, 2013 the Tamar Field net sales applicable to Isramco amounted to 1,783,180 Mcf of natural gas and 2,328 Bbl of condensate with prices of \$5.52 per Mcf and \$99.04 per Bbl of condensate. Total revenues net of marketing and transportations expenses were \$10,078,000 for the same period. Israeli Tax Authorities withheld \$2,519,000, of this revenue which is recognized as an asset on the Company's balance sheet.

Our financial results depend upon many factors, but are largely driven by the volume of our oil and natural gas production and the price that we receive for that production. Our production volumes will decline as reserves are depleted unless we expend capital in successful development and exploration activities or acquire additional properties with existing production. The amount we realize for our production depends predominantly upon commodity prices, which are affected by changes in market demand and supply, as impacted by overall economic activity, weather, pipeline capacity constraints, inventory storage levels, basis differentials and other factors, and secondarily upon our commodity price hedging activities. Accordingly, finding and developing oil and natural gas reserves at economical costs is critical to our long-term success. Our future drilling plans are subject to change based upon various factors, some of which are beyond our control, including drilling results, oil and natural gas prices, the availability and cost of capital, drilling and production costs, availability of drilling services and equipment, gathering system and pipeline transportation constraints and regulatory approvals. To the extent these factors lead to reductions in our drilling plans and associated capital budgets in future periods, our financial position, cash flows and operating results could be adversely impacted.

Liquidity and Capital Resources

Our primary source of cash during the nine months ended September 30, 2013 was cash flow from operating activities and loans from related party lenders (“Related Party Loans”). We continuously monitor our liquidity and evaluate our development plans in light of a variety of factors, including, but not limited to, our cash flows, capital resources and drilling success.

Table of Contents

Our future capital resources and liquidity may depend, in part, on our success in developing the leasehold interests that we have acquired. Cash is required to fund capital expenditures necessary to offset inherent declines in production and proven reserves, which is typical in the capital-intensive oil and gas industry. Future success in growing reserves and production will be highly dependent on the capital resources available and our success in finding and acquiring additional reserves. Our oil well service subsidiary also requires capital resources to acquire and maintain equipment and continue growth. We expect to fund our future capital requirements through internally generated cash flows, borrowings under loans from related parties, and a future credit facility. Long-term cash flows are subject to a number of variables, including the level of production, prices, amount of work orders received, and our commodity price hedging activities, as well as various economic conditions that have historically affected the oil and natural gas industry.

The Company is also in negotiations for one or more credit facilities with several other commercial lenders, to obtain a new credit facility on terms most favorable to the Company. The Company hopes to obtain a new credit facility that would replace its existing financing from affiliated parties and also provide additional financing for Company operations and investments. The Company is uncertain as to whether it will be successful in obtaining new replacement financing or, if it is obtained, the timetable upon which such facility will be closed and other material terms and conditions. The Company believes that the current source of its affiliate financing will remain flexible and additional funding will be made available if needed until a new commercial credit facility can be obtained.

During the nine months ended September 30, 2013, our cash increased by \$1.9 million. Specifically, the net cash provided by operating activities of \$15.7 million, a loan from related party in the amount of \$1.5 million were partially offset by an investment of \$13.8 million in equipment for our well service subsidiary and oil and gas properties and restricted cash deposit of \$1.5 million.

Debt

	As of September 30, 2013	As of December 31, 2012
Long – term debt – related party	94,657	73,906
Current maturities of long-term debt, short-term debt and bank overdraft	901	18,184
Total debt	95,558	92,090
Stockholders' equity	25,477	18,815
Debt to capital ratio	79%	83%

As of September 30, 2013, our total debt was \$95,558,000, compared to total debt of \$92,090,000 at December 31, 2012.

On February 13, 2013, the Company entered into another Loan Agreement with IOC, pursuant to which it borrowed \$1,500,000. The loan bears interest of Libor+6% per annum and matures on February 13, 2018, when all accrued interest and principal is due and payable. The loan may be prepaid at any time without penalty or premium. The loan is unsecured. The purpose of the loan was to provide funds to back up a Letter of Credit.

On June 30, 2013, the terms of an Amended and Restated Loan Agreement dated May 25, 2008, and note between the Company and Jerusalem Oil Exploration, Ltd. (“JOEL”) were amended to extend the maturity date to June 30, 2017. The payment schedule of the loan agreement and note was changed to require principal and accrued interest to

be paid in three (3) annual payments due on June 30th of each year commencing June 30, 2015. The other terms of the loan agreement and note remained unchanged. In accordance with the amendment, as of June 30, 2013, the loans are classified as long-term on our consolidated balance sheets.

Table of Contents

Cash Flow

Our primary source of cash during the nine months ended September 30, 2013 was cash flow from operating activities and loans from a related party. In 2013 cash received from operations and proceeds from loan of related party was primarily used for investments in equipment for well service subsidiary, oil and gas properties and restricted cash deposit. In 2012 cash received from operations, sale of marketable securities, proceeds from loan of related party was used primarily to repay borrowings under a senior credit facility from a commercial lender and investing in equipment for well service subsidiary.

Operating cash flow fluctuations were substantially driven by changes in commodity prices and changes in our production volumes. Working capital was substantially influenced by these variables. Fluctuation in commodity prices and our overall cash flow may result in an increase or decrease in our future capital expenditures. Prices for oil and natural gas have historically been subject to seasonal fluctuations characterized by peak demand and higher prices in the winter heating season; however, the impact of other risks and uncertainties have influenced prices throughout recent years. See Results of Operations below for a review of the impact of prices and volumes on sales.

	Nine Months Ended September 30,	
	2013	2012
	(In thousands)	
Cash flows provided by operating activities	\$ 15,627	\$ 14,156
Cash flows used in investing activities	(15,344)	(6,891)
Cash flows provided by (used in) financing activities	1,628	(7,249)
Net increase in cash	\$ 1,911	\$ 16

Operating Activities, During the nine months ended September 30, 2013, compared to the same period in 2012, net cash flow provided by operating activities increased by \$1,471,000 to \$15,627,000. The increase was primarily attributable to proceeds from overriding royalty in Tamar Field off shore Israel and revenues from our well service segment. This increase was partially offset by changes in the working capital, cash received on settlement of derivative contracts in 2012, and decrease in crude oil, natural gas and natural gas liquids (“NGLs”) revenues.

The decrease in revenues from crude oil, natural gas and NGLs was caused by a decrease in production volumes of crude oil, natural gas and NGLs and a decrease in sale prices of NGLs which were slightly offset by increase in sale prices of crude oil and natural gas. The average crude oil prices for the nine months ended September 30, 2013 were \$96.43/Bbl, compared to \$94.38/Bbl, natural gas \$3.94/Mcf, compared to \$3.60/Mcf, and natural gas liquids \$30.31/Bbl, compared to \$36.93.03/ Bbl for the nine month ended September 30, 2012.

Investing Activities, Net cash flows used in investing activities for the nine months ended September 30, 2013 and 2012 were \$15,344,000 and \$6,891,000, respectively. During the first nine months of 2013, the Company invested \$13,844,000 in equipment for well service subsidiary and oil and gas properties and increased restricted cash balance by \$1,500,000.

Financing Activities, Net cash flows provided by (used in) financing activities were \$1,628,000 and (\$7,249,000) for the nine months ended September 30, 2013 and 2012, respectively. In 2013 the Company received a loan from related party in the amount of \$1,500,000 and increased its bank overdraft by \$128,000.

Table of Contents

Financial Results

Net Income, in the third quarter of 2013, was \$3,999,000 or \$1.41 per share. This compares to net loss of \$1,124,000 or \$0.43 per share for the same period in 2012.

This increase was primarily due to revenues from overriding royalty in Tamar Field off shore Israel, increase in revenues from well service activities, and net loss on derivative contracts in 2012 (with no corresponding loss in 2013). These increases were partially offset by decreased revenues from crude oil, natural gas and NGLs sales and higher income tax expenses.

Revenues, Volumes and Average Prices (United States)

Sales Revenues

In thousands except percentages	Three Months Ended September 30,		
	2013	2012	D vs. 2012
Gas sales	\$ 1,617	\$ 2,037	(21)%
Oil sales	6,597	6,922	(5)
Natural gas liquid sales	793	972	(18)
Total	\$ 9,007	\$ 9,931	(9)%

Our sales revenues from U.S. based oil and gas operations for the third quarter of 2013 decreased by 9% when compared to same period in 2012, due to lower prices received for natural gas and NGL's and lower volumes produced of crude oil, natural gas and NGLs. This decrease was partially offset by increase in crude oil prices.

Revenues, Volumes and Average Prices (Non-U.S.)

During three months ended September 30, 2013 the Tamar Field net sales applicable to Isramco amounted to 941,681 Mcf of natural gas and 1,282 Bbl of condensate with prices of \$5.43 per Mcf and \$102.35 per Bbl of condensate. Total revenues net of marketing and transportations expenses were \$5,437,000.

Volumes and Average Prices

Average Price per Bbl (1)	\$	29.00	\$	30.76	(6)
Total natural gas liquids sales revenues (thousands)	\$	793	\$	972	(18)%

- (1) Amounts exclude the impact of cash paid/received on settled contracts as we did not elect to apply hedge accounting.

The company's natural gas sales volumes decreased by 19%, crude oil sales volumes decreased by 17%, and natural gas liquids sales volumes decreased by 13% for the third quarter of 2013 compared to the same period of 2012.

Our average natural gas price received for the third quarter of 2013 decreased by 1%, or \$0.05 per Mcf, when compared to the same period of 2012. Our average crude oil price for the third quarter of 2012 increased by 15%, or \$13.18 per Bbl, when compared to the same period of 2012. Our average natural gas liquids price for the third quarter of 2013 decreased by 6%, or \$1.76 per Bbl, when compared to the same period of 2012.

Table of Contents

Analysis of Oil and Gas Operations Sales Revenues

The following table provides a summary of the effects of changes in volumes and prices on Isramco's sales revenues for the three months ended September 30, 2013 compared to the same period of 2012.

In thousands	Natural Gas	Oil	Natural gas liquids
2012 sales revenues	\$ 2,037	\$ 6,922	\$ 972
Changes associated with sales volumes	(397)	(1,166)	(131)
Changes in prices	(23)	841	(48)
2013 sales revenues	\$ 1,617	\$ 6,597	\$ 793

Operating Expenses

In thousands except percentages	Three Months Ended September 30,		
	2013	2012	D vs. 2012
Lease operating expense, transportation and taxes	\$ 5,150	\$ 5,015	3%
Production services	3,059	1,941	58
Depreciation, depletion and amortization of oil and gas properties	2,057	2,994	(31)
Depreciation, depletion and amortization of production equipment	402	198	103
Accretion expense	224	221	IM
Loss from plugging and abandonment of wells	3	(7)	IM
General and administrative	885	1,176	(25)
	\$ 11,780	\$ 11,538	2%

During three months ended September 30, 2013, our operating expenses increased by 2% when compared to the same period of 2012 due to the following factors:

- Lease operating expenses, transportation costs and taxes increased by 3%, or \$135,000, in 2013 when compared to 2012. This increase was a result of larger number of workovers performed on our operated properties than in the three months ended September 2012. On a per unit basis, lease operating expenses (excluding transportation and taxes) increased by \$4.33 per MBOE to \$24.56 per MBOE in 2013 from \$20.23 per MBOE in 2012. The increase in average lease operating cost per unit was a result of decrease in production.

- The expenses for production services pertain to our well service activities performed by well service subsidiary. Production services increased by \$1,118,000 in 2013 compared to 2012 due to expansion of the well service operations following purchase of additional workover rigs, auxiliary equipment and hiring additional personnel.

Depreciation, Depletion & Amortization (“DD&A”) of the cost of proved oil and gas properties is calculated using the unit-of-production method. Our DD&A rate and expense are the composite of numerous individual field calculations. There are several factors that can impact our composite DD&A rate and expense including, but not limited to, field production profiles, drilling or acquisition of new wells, disposition of existing wells, and reserve revisions (upward or downward) primarily related to well performance and commodity prices, and impairments. Changes in these factors may cause our composite DD&A rate and expense to fluctuate from period to period. DD&A decreased by 31%, or \$937,000 in 2013 when compared to 2012, primarily due to natural decline in production, temporary decrease in volumes produced and the impact of a 2012 impairment of \$1,225,000 on the depletable base used to calculate DD&A. On a per unit basis, depletion expense decreased by \$2.52 per MBOE to \$12.57 per MBOE in 2013 from \$15.09 per MBOE in 2012.

·Well service equipment depreciation – the amounts represent depreciation of well service rigs and auxiliary equipment for our well service subsidiary, the increase in depreciation expenses in the third quarter of 2013 of \$204,000 associated with increase in the number of workover rigs and auxiliary equipment.

·General and administrative expenses decreased by 25%, or \$291,000 in 2013 when compared to 2012 primarily due to legal professional services.

Table of Contents

Other expenses

	Three Months Ended September 30,		
In thousands except percentages	2013	2012	D vs. 2012
Interest expense, net	\$ 1,659	\$ 1,625	2%
Net loss on derivative contracts	-	1,341	(100)
Capital loss	89	-	IM
	\$ 1,748	\$ 2,966	(41)%

Interest expense. Isramco's interest expense increased by 2%, or \$34,000, for the three months ended September 30, 2013 compared to the same period of 2012. This increase was primarily due to higher average outstanding loans balance during the third quarter of 2013 compared to 2012.

Net loss on derivative contracts. We enter into derivative commodity instruments to economically hedge our exposure to price fluctuations on our anticipated oil and natural gas production. Consistent with the prior year, we have elected not to designate any positions as cash flow hedges for accounting purposes. Accordingly, we recorded the net change in the mark-to-market value of these derivative contracts in our consolidated statement of operations.

There were no open hedge positions as of September 30, 2013.

At September 30, 2012, the Company had a \$0 commodity derivative asset. For the three months ended September 30, 2012, the Company recorded a net derivative loss of \$1.34 million (\$3.37 million unrealized loss and a \$2.03 million gain from net cash received on settled contracts).

Adjusted EBITDAX.

To assess the operating results of Isramco, management analyzes income from operations before income taxes, interest expense, exploration expense, unrealized gain (loss) on derivative contracts and DD&A expense and impairments ("Adjusted EBITDAX"). Adjusted EBITDAX is not a GAAP measure. Isramco's definition of Adjusted EBITDAX excludes exploration expense because exploration expense is not an indicator of operating efficiency for a given reporting period, but rather is monitored by management as a part of the costs incurred in exploration and development activities. Similarly, Isramco excludes DD&A expense and impairments from Adjusted EBITDAX as a measure of segment operating performance because capital expenditures are evaluated at the time capital costs are incurred. The Company's definition of Adjusted EBITDAX also excludes interest expense to allow for assessment of segment operating results without regard to Isramco's financing methods or capital structure. Adjusted EBITDAX is a widely accepted financial indicator of a company's ability to incur and service debt, fund capital expenditures and make payments on its long term loans. Management believes that the presentation of Adjusted EBITDAX provides information useful in assessing the Company's financial condition and results of operations.

However, Adjusted EBITDAX, as defined by Isramco, may not be comparable to similarly titled measures used by other companies. Therefore, Isramco's consolidated Adjusted EBITDAX should be considered in conjunction with income (loss) from operations and other performance measures prepared in accordance with GAAP, such as operating income or cash flow from operating activities. Adjusted EBITDAX has important limitations as an analytical tool because it excludes certain items that affect income from continuing operations and net cash provided by operating activities. Adjusted EBITDAX should not be considered in isolation or as a substitute for an analysis of Isramco's results as reported under GAAP. Below is a reconciliation of consolidated Adjusted EBITDAX to income (loss) from operations before income taxes.

(1) See Adjusted EBITDAX for a description of Adjusted EBITDAX, which is not a Generally Accepted Accounting Principles (GAAP) measure, and a reconciliation of Adjusted EBITDAX to income from operations before income taxes, which is presented in accordance

with GAAP.

- (2) There are no costs associated with revenues from Non-US operations since the Company owns overriding royalty which is free of operating expenses.

Table of Contents

Financial Results

Net income, in the nine months ended September 30, 2013 our net income was \$6,422,000 or \$2.36 per share. This compares to net income of \$2,873,000, or \$1.06 per share, for the same period of 2012.

This increase was primarily due to revenues from overriding royalty in Tamar Field offshore Israel and revenues from well service activities. This increase was partially offset by Company net gain of \$3,650,000 on sale of our investment in shares of Jerusalem Oil Exploration Ltd, (“JOEL”) a related party and a net gain of \$219,000 on derivative contracts in 2012 (with no corresponding gains in 2013), lower crude oil, natural gas and NGLs sales revenues in 2013 as a result of a decrease in crude oil, natural gas and NGLs sales volumes, a decrease in NGLs prices, and higher lease operating expenses.

Revenues, Volumes and Average Prices (United States)

Sales Revenues

Nine Months Ended September 30,

In thousands except percentages	2013	2012	D vs. 2012
Gas sales	\$ 5,447	\$ 5,740	(5)%
Oil sales	18,521	21,211	(13)
Natural gas liquid sales	2,670	3,479	(23)
Total	\$ 26,638	\$ 30,430	(12)%

Our sales revenues from U.S. based oil and gas operations for the nine months ended September 30, 2013 decreased by 12% when compared to same period of 2012 due to lower prices received for NGLs and decreased production volumes for crude oil, natural gas and NGLs.

Revenues, Volumes and Average Prices (Non-U.S.)

During nine months ended September 30, 2013 the Tamar Field net sales applicable to Isramco amounted to 1,783,180 Mcf of natural gas and 2,328 Bbl of condensate with prices of \$5.52 per Mcf and \$99.04 per Bbl of condensate. Total revenues net of marketing and transportations expenses were \$10,078,000.

Volumes and Average Prices

Nine Months Ended September 30,

	2013	2012	D vs. 2012
Natural Gas			
Sales volumes Mmcf	1,383.03	1,594.88	(13)%
Average Price per Mcf (1) \$	3.94	3.60	9
Total gas sales revenues (thousands) \$	5,447	5,740	(5)%
Crude Oil

Average Price per Bbl (1) \$	96.43	94.38	2
Total oil sales revenues (thousands) \$	18,521	21,211	(13)%

Natural gas liquids				
Sales volumes MBbl	88.08		94.20	(6)%
Average Price per Bbl (1) \$	30.31	\$	36.93	(18)
Total natural gas liquids				
sales revenues (thousands) \$	2,670	\$	3,479	(23)%

- (1) Amounts exclude the impact of cash paid/received on settled contracts as we did not elect to apply hedge accounting

The company's natural gas sales volumes decreased by 13%, crude oil sales volumes by 15% and natural gas liquids sales volumes decreased by 6% for the nine months ended September 30, 2013, compared to the same period of 2012.

Our average natural gas price for the nine months ended September 30, 2013, increased by 9%, or \$0.34 per Mcf, when compared to the same period of 2012. Our average crude oil price for the nine months ended September 30, 2013, increased by 2%, or \$2.05 per Bbl, when compared to the same period of 2012. Our average natural gas liquids price for the nine months ended September 30, 2013 decreased by 18%, or \$6.62 per Bbl, when compared to the same period of 2012.

Table of Contents

Analysis of Oil and Gas Operations Sales Revenues

The following table provides a summary of the effects of changes in volumes and prices on Isramco's sales revenues for the nine months ended September 30, 2013, compared to the same period of 2012.

In thousands	Natural Gas	Oil	Natural gas liquids
2012 sales revenues	\$ 5,740	\$ 21,211	\$ 3,479
Changes associated with sales volumes	(762)	(3,083)	(226)
Changes in prices	469	393	(583)
2013 sales revenues	\$ 5,447	\$ 18,521	\$ 2,670

Operating Expenses

In thousands except percentages	Nine Months Ended September 30,		
	2013	2012	D vs. 2012
Lease operating expense, transportation and taxes	\$ 14,849	\$ 14,473	3%
Production Services	6,981	4,270	63
Depreciation, depletion and amortization of oil and gas properties	6,389	8,195	(22)
Depreciation, depletion and amortization of production equipment	1,004	471	113
Accretion expense	664	655	1
Loss from plug and abandonment	226	317	(29)
General and administrative	2,914	3,258	(11)
	\$ 33,027	\$ 31,639	4%

During nine months ended September 30, 2013, our operating expenses increased by 4% when compared to the same period of 2012 due to the following factors:

Lease operating expense, transportation cost and taxes increased by 3%, or \$376,000, in 2013 when compared to 2012. On a per unit basis, lease operating expenses (excluding transportation and taxes) increased by \$3.50 per MBOE to \$22.79 per MBOE in 2013 from \$19.29 per MBOE in 2012.

The expenses for production services pertain to our well service activities performed by well service subsidiary. Production services increased by \$2,711,000 or 63% in 2013 compared to 2012 due to expansion of the well service operations following purchase of additional workover rigs, auxiliary equipment and hire new personnel.

Depreciation, Depletion & Amortization ("DD&A") of the cost of proved oil and gas properties is calculated using the unit-of-production method. Our DD&A rate and expense are the composite of

numerous individual field calculations. There are several factors that can impact our composite DD&A rate and expense, including but not limited to field production profiles, drilling or acquisition of new wells, disposition of existing wells, and reserve revisions (upward or downward) primarily related to well performance and commodity prices, and impairments. Changes in these factors may cause our composite DD&A rate and expense to fluctuate from period to period. DD&A decreased by 22%, or \$1,806,000, in 2013 when compared to 2012, primarily due to temporary decrease in volumes produced and due to the impact of a 2012 impairment of \$1,225,000 on the depletable base used to calculate DD&A and decrease in production volumes compared to 2012. On a per unit basis, depletion expense decreased by \$1.50 per MBOE to \$12.51 per MBOE in 2013 from \$14.01 per MBOE in 2012

Well service equipment depreciation – the amounts represents depreciation of well service rigs and auxiliary equipment for our well service subsidiary, the increase in depreciation expenses in 2013 of \$533,000 associated with increase in the number of workover rigs and auxiliary equipment.

Loss from plugging and abandonment expenses decreased by 29%, or \$91,000 in 2013 when compared to 2012, primarily due to less plugging operations required by state and federal regulations applicable to our wells.

General and administrative expenses decreased by 11%, or \$344,000 in 2013 when compared to 2012 primarily due to lower payroll and professional services expenses.

Table of Contents

Other expenses (income)

In thousands except percentages	Nine Months Ended September 30,		
	2013	2012	D vs. 2012
Interest expense, net	\$ 4,847	\$ 4,737	2%
Realized gain on sale of marketable securities	-	(3,650)	(100)
Net gain on derivative contracts	-	(219)	(100)
Currency exchange rate differences	-	(16)	(100)
Capital loss	83	-	IM
	\$ 4,930	\$ 852	479%

Interest expense. Isramco's interest expense increased by 2%, or \$110,000, for the nine months ended September 30, 2013 compared to the same period of 2012. This increase was primarily due to higher average outstanding loans balance during the nine month ended September 30, 2013 compared to same period in 2012.

Sale of Marketable Securities. In February 2012, the Company sold all of its investment in shares of JOEL to Equital Ltd. The Company recorded a net gain of \$3,650,000. JOEL and Equital Ltd. are related parties of Isramco Inc.

Net gain on derivative contracts. We enter into derivative commodity instruments to economically hedge our exposure to price fluctuations on our anticipated oil and natural gas production. Consistent with the prior year, we have elected not to designate any positions as cash flow hedges for accounting purposes. Accordingly, we recorded the net change in the mark-to-market value of these derivative contracts in our consolidated statement of operations.

There were no open hedge positions as of September 30, 2013.

At September 30, 2012, the Company did not have a commodity derivative asset. For the nine months ended September 30, 2012, the Company recorded a net derivative gain of \$0.2 million (\$2.4 million unrealized loss and a \$2.6 million gain from net cash received on settled contracts).

Adjusted EBITDAX.

To assess the operating results of Isramco, management analyzes income from operations before income taxes, interest expense, exploration expense, unrealized gain (loss) on derivative contracts and DD&A expense and impairments ("Adjusted EBITDAX"). EBITDAX is not a GAAP measure. Isramco's definition of Adjusted EBITDAX excludes exploration expense because exploration expense is not an indicator of operating efficiency for a given reporting period, but rather is monitored by management as a part of the costs incurred in exploration and development activities. Similarly, Isramco excludes DD&A expense and impairments from Adjusted EBITDAX as a measure of segment operating performance because capital expenditures are evaluated at the time capital costs are incurred. The Company's definition of Adjusted EBITDAX also excludes interest expense to allow for assessment of segment operating results without regard to Isramco's financing methods or capital structure. Adjusted EBITDAX is a widely accepted financial indicator of a company's ability to incur and service debt and fund capital expenditures and make payments on its long term loans and Management believes that the presentation of Adjusted EBITDAX provides information useful in assessing the Company's financial condition and results of operations.

However, Adjusted EBITDAX, as defined by Isramco, may not be comparable to similarly titled measures used by other companies. Therefore, Isramco's consolidated Adjusted EBITDAX should be considered in conjunction with income (loss) from operations and other performance measures prepared in accordance with GAAP, such as operating income or cash flow from operating activities. Adjusted EBITDAX has important limitations as an analytical tool because it excludes certain items that affect income from continuing operations and net cash provided by operating activities. Adjusted EBITDAX should not be considered in isolation or as a substitute for an analysis of Isramco's results as reported under GAAP. Below is a reconciliation of consolidated Adjusted EBITDAX to income (loss) from operations before income taxes.

In thousands except percentages	Nine Months Ended September 30,	
	2013	2012
Income from operations before income taxes	\$ 10,118	\$ 4,556
Depreciation, depletion and amortization expense	7,393	8,666
Interest expense	4,847	4,737
Unrealized loss on derivative contract	-	2,382
Accretion Expenses	664	655
Consolidated Adjusted EBITDAX	\$ 23,022	\$ 20,996

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

Derivative Instruments and Hedging Activity

We are exposed to various risks, including energy commodity price risk. If oil and natural gas prices decline significantly our ability to finance our capital budget and operations could be adversely impacted. We expect energy prices to remain volatile and unpredictable, therefore we have adopted a risk management policy which provides for the use of derivative instruments to provide partial protection against declines in oil and natural gas prices by reducing the risk of price volatility and the affect it could have on our operations. The type of derivative instrument that we typically utilize is swaps. The total volumes which we hedge through the use of our derivative instruments vary from period to period.

We are exposed to market risk on our open derivative contracts of non-performance by our counterparties. However, we do not expect such non-performance because our contracts are with major financial institutions with investment grade credit ratings. Each of the counterparties to our derivative contracts is a lender in our Senior Credit Agreement. We did not post collateral under any of these contracts as they are secured under the Senior Credit Agreement.

We are also exposed to interest rate risk on our variable interest rate debt. If interest rates increase, our interest expense would increase and our available cash flow would decrease. We continue to monitor our risk exposure as we incur future indebtedness at variable interest rates and will look to continue our risk management policy as situations present themselves. Periodically, we look to utilize interest rate swaps to reduce the exposure to market rate fluctuations by converting variable interest rates to fixed interest rates.

We account for our derivative activities under the provisions of ASC 815, Derivatives and Hedging (ASC 815). ASC 815 establishes accounting and reporting that every derivative instrument be recorded on the balance sheet as either an asset or liability measured at fair value. See Item 1. Consolidated Financial Statements.

ITEM 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures.

In accordance with Exchange Act Rule 13a-15 and 15d-15, we carried out an evaluation, under the supervision and with the participation of management, including our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of September 30, 2013 to provide reasonable assurance that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Our disclosure controls and procedures include controls and procedures designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer, Chief Financial Officer and Chief Accounting Officer as appropriate, to allow timely decisions regarding required disclosure.

There were no changes in the Company's internal control over financial reporting that occurred during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents

PART II - Other Information

ITEM 1. Legal Proceedings

We previously disclosed information relating to two putative shareholder derivative petitions that were filed by individual shareholders of the Company in the District Court of Harris County, Texas. These petitions each named certain of our officers and directors as defendants. Each of these suits claims that the shareholders were damaged as a result of various breaches of fiduciary duty, self-dealing, and other wrongdoing in connection with the Restated Agreement between the Company and Goodrich Global, Ltd. (“Goodrich”) and other matters, primarily on the part of the Company’s Chairman and Chief Executive Officer, Haim Tsuff, and Jakob Maimon. Mr. Maimon is a former President and a director who resigned from all positions held with the Company on June 29, 2011.

On or about April 6, 2011, a third complaint was filed in the 295th District Court of Harris County, Texas by Yuval Ran, who claimed to be a shareholder, against certain of our officers and directors and several corporate parties controlled by Haim Tsuff. As with the prior suits, this complaint alleged various breaches of duty, self dealing and other wrongdoing in connection with the Restated Agreement between the Company and Goodrich, primarily on the part of the Company’s Chairman and Chief Executive Officer, Haim Tsuff, and Jakob Maimon. In addition, this suit alleged claims relating to other transactions between the Company and entities controlled by Haim Tsuff, including but not limited to the loan transactions between the Company and related parties, the lease and sale of a cruise ship, and the closure of the Company’s Israel branch office. The third complaint was transferred to the 55th Judicial District Court of Harris County, Texas by order signed April 20, 2011, and consolidated with the above-referenced first and second original shareholder suits by order signed May 21, 2011, into a single case, called “Lead Cause No. 2010-34535; In Re: Isramco, Inc. Shareholder Derivative Litigation; In the 55th Judicial District Court of Harris County, Texas (the “Derivative Litigation”).

We also disclosed information in our quarterly report for the three months ended September 30, 2011, relating to an additional putative shareholder derivative complaint that was filed by an individual shareholder, Yuval Lapiner, on July 7, 2011, in the Delaware Chancery Court in Wilmington, Delaware, naming certain of our officers and directors as defendants. The claims asserted in this case are essentially the same damage claims as asserted in the lawsuit filed in April 2011 and described above. The Company filed motions in the Chancery Court to Dismiss or Stay the lawsuit and, by order dated October 20, 2011, the case was dismissed. The plaintiff did not appeal. Yuval Lapiner then filed a motion to intervene in the Derivative Litigation and that motion was denied. Mr. Lapiner then filed a motion for attorney’s fees that was also denied. On December 12, 2011, the court approved the terms of the mediated settlement and entered final order and judgment in the case. The Company paid plaintiff attorney’s fees of \$1,000,000, replaced its bylaws, amended various committee charters, and adopted other corporate governance changes as set out in the stipulation of settlement. After the judgment was rendered, Mr. Lapiner filed a motion for new trial and on February 12, 2012, filed a Notice of Appeal to the Fourteenth Court of Appeals in Houston, Texas. A Motion to Dismiss the appeal was filed. Oral arguments were presented to the Court of Appeals on January 9, 2013. The Court of Appeals has not rendered an opinion on either the Motions to Dismiss or the appeal. We do not believe the appeal will be successful.

On or about September 21, 2011, the Company’s former Vice President and General Counsel, Dennis Holifield resigned. Mr. Holifield had been hired in March 2011. On or about October 12, 2011, Mr. Holifield submitted a “Summary Report” to the SEC (the “Summary Report”), in which made numerous factual allegations regarding Haim Tsuff, the Company’s Chief Executive Officer, Chairman, and President; Edy Francis, the Company’s Chief Financial Officer; Amir Sanker, the Company’s Asset Manager; and other Company personnel. In the Summary Report, Mr. Holifield characterized the alleged conduct as illegal or criminal. On November 3, 2011, the Company’s Board of Directors constituted a committee of independent directors consisting of Max Pridgeon and Asaf Yarkoni, referred to as the Special Investigative Committee of the Board of Directors (“SIC”) which was directed to investigate all of the

Holifield allegations and report back to the full board and make any recommendations, if any, for corrective action. On January 7, 2013, SIC made their final report to the Board of Directors of the conclusions and results of the fourteen-month investigation into the allegations made by Mr. Holifield. The SIC determined that Mr. Holifield's allegations were not supported by any available documentary evidence or by any statements made by former or current Isramco, Inc., directors, management, or employees interviewed by the SIC or its counsel. The SIC also determined that the Company had not engaged in wrongdoing of any sort including any unlawful or unethical business practices, any lapses in financial controls, or any governance issues that require redress or reform. On September 10, 2013, the Company filed suit against Mr. Holifield in Cause No. 201352927 of the 270th Judicial District Court of Harris County, Texas, alleging professional malpractice.

From time to time, we are involved in disputes and other legal actions arising in the ordinary course of business. In management's opinion, none of these other disputes and legal actions is expected to have a material impact on our consolidated financial position or results of operations.
