### AWARE, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

A)Basis of Presentation. The accompanying unaudited consolidated balance sheet, statements of comprehensive income, and statements of cash flows reflect all adjustments (consisting only of normal recurring items) which are, in the opinion of management, necessary for a fair presentation of financial position at June 30, 2012, and of operations and cash flows for the interim periods ended June 30, 2012 and 2011.

The accompanying unaudited consolidated financial statements have been prepared in accordance with the instructions for Form 10-Q and therefore do not include all information and notes necessary for a complete presentation of our financial position, results of operations and cash flows, in conformity with generally accepted accounting principles. We filed audited financial statements which included all information and notes necessary for such presentation for the three years ended December 31, 2011 in conjunction with our 2011 Annual Report on Form 10-K. This Form 10-Q should be read in conjunction with that Form 10-K.

The results of operations for the interim period ended June 30, 2012 are not necessarily indicative of the results to be expected for the year.

B) Fair Value Measurements. The Financial Accounting Standards Board ("FASB") issued authoritative guidance for fair value measurements, which defines fair value, establishes a framework for measuring fair value, and expands disclosures for assets and liabilities measured at fair value in financial statements. The fair value guidance establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Our cash and cash equivalents, which primarily include money market funds, were \$101.1 million and \$46.6 million as of June 30, 2012 and December 31, 2011, respectively. We classified our cash and cash equivalents within Level 1 of the fair value hierarchy because they are valued using quoted market prices.

Our investments, which consist of high yield corporate debt securities, are also classified within Level 1 of the fair value hierarchy because they are valued using quoted market prices. We categorize our investments as available-for-sale securities, and carry them at fair value in our financial statements. We had \$0.7 million of available-for-sale investments as of December 31, 2011.

C) Inventories. Inventories are stated at the lower of cost or net realizable value with cost being determined by the first-in, first-out ("FIFO") method. Inventory reserves are established for estimated excess and obsolete inventory. Inventories consist primarily of the following (in thousands):

	Decemb			ecember
	Ju	ne 30,		31,
	7	2012		2011
Raw materials	\$	127	\$	339
Finished goods		138		208
Total	\$	265	\$	547

Computation of Earnings per Share. Basic earnings per share is computed by dividing net income or loss by the weighted average number of common shares outstanding. Diluted earnings per share is computed by dividing net income or loss by the weighted average number of common shares outstanding plus additional common shares that would have been outstanding if dilutive potential common shares had been issued. For the purposes of this calculation, stock options are considered common stock equivalents in periods in which they have a dilutive effect. Stock options that are anti-dilutive are excluded from the calculation.

Net income per share is calculated as follows (in thousands, except per share data):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Net income (loss)	\$54,926	(\$267	) \$56,044	\$323
Weighted-average common shares outstanding Additional dilutive common stock equivalents Diluted shares outstanding	21,757 342 22,099	20,700 - 20,700	21,241 342 21,583	20,461 360 20,821
Net income (loss) per share – basic Net income (loss) per share – diluted	\$2.52 \$2.49	(\$0.01 (\$0.01	) \$2.64 ) \$2.60	\$0.02 \$0.02

For the three month period ended June 30, 2011 potential common stock equivalents of 286,803 were not included in the per share calculation for diluted EPS, because we had a net loss and the effect of their inclusion would be anti-dilutive.

For the three month periods ended June 30, 2012 and 2011, options to purchase 826,004 and 2,927,451 shares of common stock, respectively, were outstanding, but were not included in the computation of diluted EPS because the options' exercise prices were greater than the average market price of the common stock and thus would be anti-dilutive. For the six month periods ended June 30, 2012 and 2011, options to purchase 1,034,754 and 2,322,772 shares of common stock, respectively, were outstanding, but were not included in the computation of diluted EPS because the options' exercise prices were greater than the average market price of the common stock and thus would be anti-dilutive.

E) Stock-Based Compensation. The following table presents stock-based employee compensation expenses included in our unaudited consolidated statements of comprehensive income (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011

Stock-based compensation expense	\$131	\$582	\$278	\$885

Stock Option and SAR Grants. We grant stock options and stock appreciation rights ("SARs") under our 2001 Nonqualified Stock Plan. We estimate the fair value of stock options and SARs using the Black-Scholes valuation model. This valuation model takes into account the exercise price of the award, as well as a variety of significant assumptions. The assumptions used to estimate the fair value of stock options and SARs include the expected term, the expected volatility of our stock over the expected term, the risk-free interest rate over the expected term, and our expected annual dividend yield. We believe that the valuation technique and the approach utilized to develop the underlying assumptions are appropriate in calculating the fair values of our stock options and SARs. Estimates of fair value are not intended to predict actual future events or the value ultimately realized by persons who receive equity

awards.

Unrestricted Stock Grants. We also grant unrestricted shares of stock to directors, officers and employees under our 2001 Nonqualified Stock Plan. Stock-based compensation expense for stock grants is determined based on the fair market value of our stock on the date of grant; provided the number of shares in the grant is fixed on the grant date.

Stock Option, SAR, and Unrestricted Stock Grant Activity. The following summarizes stock-based grant activity in 2012 and 2011.

Stock options and SARS – We granted stock options for 25,000 and 0 shares in the three months ended June 30, 2012 and 2011, respectively. We granted stock options for 50,000 and 0 shares in the six months ended June 30, 2012 and 2011, respectively. No SARs were granted in the three and six month periods ended June 30, 2012 and 2011.

Unrestricted Stock Grants - In July 2010, we granted 575,443 shares of stock to directors, officers and employees of which 111,163 shares were issued immediately and 464,280 shares were to be issued in four equal increments on December 31, 2010, June 30, 2011, December 31, 2011, and June 30, 2012; provided that grantees remain employed on each of those dates. We expensed \$94,000 and \$100,000 of stock-based compensation expense related to this grant in the three months ended June 30, 2012 and 2011, respectively. We expensed \$189,000 and \$246,000 of stock-based compensation expense related to this grant in the six months ended June 30, 2012 and 2011, respectively.

Shares issued in connection with the July 2010 stock grant were as follows in the six month periods ended June 30, 2012 and 2011:

Six months ended June 30, 2012 - We issued 76,906 shares on January 3, 2012 to officers and employees who were employed on December 31, 2011. Grantees were allowed to surrender a portion of their stock in return for the Company paying their related withholding taxes. As a result of this provision, grantees surrendered 12,153 shares of common stock and the Company paid approximately \$36,000 of withholding taxes on their behalf. After the share surrender, 64,753 net shares of common stock were issued.

On July 2, 2012, we issued the final installment of shares related to the July 2010 stock grant to officers and employees who were employed on June 30, 2012. We issued a total of 74,668 shares less 21,288 shares surrendered by employees for withholding taxes. After the share surrender, 53,380 net shares of common stock were issued.

Six months ended June 30, 2011 - We issued 115,682 shares on January 4, 2011 to officers and employees who were employed on December 31, 2010. Grantees surrendered 13,721 shares of common stock and the Company paid approximately \$39,000 of withholding taxes on their behalf. After the share surrender, 101,961 net shares of common stock were issued.

Our former President and CEO resigned in April 2011. As part of his separation arrangement he was granted 105,000 shares of common stock, which resulted in a stock-based compensation charge of \$362,000 in the three months ended June 30, 2011. His grant contained a provision that allowed him to surrender a portion of his stock in return for the Company paying his related withholding taxes. He exercised that provision, and we issued 71,662 shares of common stock to him and paid \$115,000 of withholding taxes on his behalf.
