HIGH COURT FORCES AVIATION REGULATOR TO CLARIFY DECISION ON DAA CAPEX

**APPEALS PANEL MUST NOW
REVIEW
ABUSIVE
€1.2BLN. CAPEX PLAN**

Ryanair,
Ireland
's largest airline

,
today (

May

welcomed the High Court's decision on its appeal of the Commission for
Aviation Regulation's (CAR's) Interim Determination

o
n

airport charges
at Dublin Airport

. The Court found that there was "clear ambiguity" in the CAR's determination and that Ryanair was justified in
bringing the claim.

The Court
ordered

the CAR to clarify its treatment of €1.2bln. worth of capex in its interim review and the CAR has now confirmed that
this figure has been included in the regulated asset base (RAB), which will lead to a doubling of passenger charges at
Dublin Airport.

The Court also found that the Minister for Transport was wrong in not allowing Ryanair to appeal the inclusion of
this
€1.2 bln.

Ryanair is therefore
again
calling o

n the Minister to establish an Appeals P
anel with a view to removing this
abusive spending
from the RAB

Ryanair will be highlighting to the Appeals Panel the fact that the DAA airport monopoly has consistently ignored the
reasonable requirements of users and is providing massively over specified and
costly

facilities

in order to

inflate passenger charges. The UK authorities have recognised that this form of RAB based regulation is seriously
flawed and Ryanair is

therefore

re
issuing its
call on the Minister to
sack the regulator and
introduce competition at Dublin Airport.

**Speaking today
following the High Court's decision
Ryanair
's Jim Callaghan
said:**

"

We welcome the High Court's finding that the CAR made a mess of the interim determination and was forced to clarify it. Although the Court did not overturn the decision, the Judge clarified that Ryanair is entitled to appeal the substance of the decision before an Appeals Panel established by the Minister for Transport

*We are therefore calling on the Minister to establish this panel in order to re
move
the wasteful spending that the CAR allowed into the RAB.*

*The CAR's bungled decision, which has now been "clarified" demonstrates the serious flaws in this form of regulation, where an abusive monopoly is allowed to recover from airport users for what is clearly massively wasteful spending. Even the CAR confirmed that DAA's planned Terminal 2 was at least 50% too large and yet he allowed them to recover on the vast majority of th
is
expenditure.*

*It is high time that the Minister for Transport abandons this failed regulatory system and allows for competition at Dublin Airport. Regulation
has been
an abject failure, it's time to allow competition to reduce prices and improve services at Dublin Airport."*

Ends.
