Forward-looking statements

Certain sections in this document contain 'forward-looking statements' as that term is defined in the United States Private Securities Litigation Reform Act of 1995, such as statements that include the words 'expect', 'estimate', 'project', 'anticipate', 'believes', 'should', 'intend', 'plan', 'could', 'probability', 'risk', 'Value-at-Risk (VaR)', 'target', 'goal', 'objective', 'will', 'endeavour', 'outlook', 'optimistic', 'prospects' and similar expressions or variations on such expressions.

In particular, this document includes forward-looking statements relating, but not limited to: the Group's restructuring plans, divestments, capitalisation, portfolios, net interest margin, capital ratios, liquidity, risk weighted assets (RWAs), return on equity (ROE), profitability, cost:income ratios, leverage and loan:deposit ratios, funding and risk profile; certain ring-fencing proposals; sustainability targets; the Group's future financial performance; the level and extent of future impairments and write-downs, including sovereign debt impairments; the protection provided by the Asset Protection Scheme (APS); and the Group's potential exposures to various types of market risks, such as interest rate risk, foreign exchange rate risk and commodity and equity price risk. These statements are based on current plans, estimates and projections, and are subject to inherent risks, uncertainties and other factors which could cause actual results to differ materially from the future results expressed or implied by such forward-looking statements. For example, certain market risk disclosures are dependent on choices about key model characteristics and assumptions and are subject to various limitations. By their nature, certain of the market risk disclosures are only estimates and, as a result, actual future gains and losses could differ materially from those that have been estimated.

Other factors that could cause actual results to differ materially from those estimated by the forward-looking statements contained in this document include, but are not limited to: the global economic and financial market conditions and other geopolitical risks, and their impact on the financial industry in general and on the Group in particular; the ability to access sufficient sources of liquidity and funding; the recommendations made by the Independent Commission on Banking (ICB) and their potential implications; the ability to implement strategic plans on a timely basis, or at all, including the disposal of certain Non-Core assets and assets and businesses required as part of the State Aid restructuring plan; organisational restructuring, including any adverse consequences of a failure to transfer, or delay in transferring, certain business assets and liabilities from RBS N.V. to RBS; the full nationalisation of the Group or other resolution procedures under the Banking Act 2009; deteriorations in borrower and counterparty credit quality; costs or exposures borne by the Group arising out of the origination or sale of mortgages or mortgage-backed securities in the United States; the extent of future write-downs and impairment charges caused by depressed asset valuations; the value and effectiveness of any credit protection purchased by the Group; unanticipated turbulence in interest rates, yield curves, foreign currency exchange rates, credit spreads, bond prices, commodity prices, equity prices and basis, volatility and correlation risks; changes in the credit ratings of the Group; ineffective management of capital or changes to capital adequacy or liquidity requirements; litigation and regulatory investigations; changes to the valuation of financial instruments recorded at fair value; competition and consolidation in the banking sector; the ability of the Group to attract or retain senior management or other key employees; regulatory or legal changes (including those requiring any restructuring of the Group's operations) in the United Kingdom, the United States and other countries in which the Group operates or a change in United Kingdom

Government policy; changes to regulatory requirements relating to capital and liquidity; changes to the monetary and interest rate policies of central banks and other governmental and regulatory bodies; changes in UK and foreign laws, regulations, accounting standards and taxes, including changes in regulatory capital regulations and liquidity requirements; impairments of goodwill; pension fund shortfalls; general operational risks; HM Treasury exercising influence over the operations of the Group; insurance claims; reputational risk; the ability to access the contingent capital arrangements with HM Treasury; the participation of the Group in the APS and the effect of the APS on the Group's financial and capital position; the conversion of the B Shares in accordance with their terms; limitations on, or additional requirements imposed on, the Group's activities as a result of HM Treasury's investment in the Group; and the success of the Group in managing the risks involved in the foregoing.

The forward-looking statements contained in this document speak only as of the date of this announcement, and the Group does not undertake to update any forward-looking statement to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

The information, statements and opinions contained in this document do not constitute a public offer under any applicable legislation or an offer to sell or solicitation of any offer to buy any securities or financial instruments or any advice or recommendation with respect to such securities or other financial instruments.

Presentation of information

The financial information on pages 5 to 67, prepared using the Group's accounting policies, shows the underlying performance of the Group on a managed basis which excludes certain one-off and other items. This information is provided to give a better understanding of the results of the Group's operations. Group operating profit on this basis excludes:

- movements in the fair value of own debt;
- Asset Protection Scheme;
- Payment Protection Insurance costs;
- sovereign debt impairment;
- amortisation of purchased intangible assets;
- integration and restructuring costs;
- gain on redemption of own debt;
- strategic disposals;
- bonus tax;
- bank levy;
- interest rate hedge adjustments on impaired available-for-sale Greek government bonds;
- write-down of goodwill and other intangible assets; and

RFS Holdings minority interest (RFS MI).

Statutory results

The condensed consolidated income statement, condensed consolidated statement of comprehensive income, condensed consolidated balance sheet, condensed consolidated statement of changes in equity, condensed consolidated cash flow statement and related notes presented on pages 68 to 127 inclusive are on a statutory basis. Reconciliations between the managed basis and statutory basis are included in Appendix 1.

Net interest margin

The basis of calculating the net interest margin (NIM) was refined in Q1 2011 and reflects the actual number of days in each quarter. Group and divisional NIMs for 2010 have been re-computed on the new basis.

Disposal groups

In accordance with IFRS 5 'Non-current assets held for sale and discontinued operations', the Group has transferred the assets and liabilities relating to the planned disposal of its RBS England and Wales, and NatWest Scotland branch-based business, along with certain SME and corporate activities across the UK ('UK branch-based businesses'), to assets and liabilities of disposal groups.

Notes:

- (1) Excluding movements in the fair value of own debt, Asset Protection Scheme, gain on redemption of own debt, strategic disposals and RFS Holdings minority interest.
- (2) Excluding Payment Protection Insurance costs, amortisation of purchased intangible assets, integration and restructuring costs, bonus tax, bank levy, write-down of

goodwill and other intangible assets and RFS Holdings minority interest.

- (3) Operating profit/(loss) before tax, movements in the fair value of own debt, Asset Protection Scheme, Payment Protection Insurance costs, sovereign debt impairment and related interest rate hedge adjustments, amortisation of purchased intangible assets, integration and restructuring costs, gain on redemption of own debt, strategic disposals, bonus tax, bank levy, write-down of goodwill and other intangible assets and RFS Holdings minority interest.
- (4) Excluding sovereign debt impairment and related interest rate hedge adjustments on impaired available-for-sale Greek government bonds.
- (5) Cost:income ratio is based on total income and operating expenses as defined in (1) and (2) above and after netting insurance claims against income.
- (6) (Loss)/profit from continuing operations attributable to ordinary and B shareholders divided by the weighted average number of ordinary and B shares in issue. Refer to page 89.
- (7) Funded balance sheet represents total assets less derivatives.
- (8) Net of provisions and including disposal groups.
- (9) Gross loans and advances to customers include in disposal groups and exclude reverse repurchase agreements.
- (10) Tier 1 leverage ratio is total tangible assets (after netting derivatives) divided by Tier 1 capital.
- (11) Tangible equity leverage ratio is total tangible equity divided by total tangible assets (after netting derivatives).
- (12) Tangible equity per ordinary and B share is total tangible equity divided by the number of ordinary and B shares in issue.

Notes:

- (1) For further analysis and details of adjustments refer to pages 74 and 75.
- (2) Retail & Commercial (R&C) comprises the UK Retail, UK Corporate, Wealth, Global Transaction Services, Ulster Bank and US Retail & Commercial divisions.

Key points

2011 compared with 2010

- Group net interest income was 8% lower largely driven by the run-off of balances and exit of higher margin, higher risk segments in Non-Core.
- Group NIM was 9 basis points lower, reflecting the cost of carrying a higher liquidity portfolio and by the impact of non-performing assets in the Non-Core division.
- R&C NIM was up 7 basis points, with strengthening asset margins in the first half of the year offsetting the impact of a competitive deposit market.

Q4 2011 compared with Q3 2011

- Group net interest income remained stable in Q4 2011, as reduced interest expense from repayment of high cost government-guaranteed debt offset modest margin pressure in R&C.

R&C NIM was 2 basis points lower, largely driven by competitive pricing on UK deposits and a continued decline in long-term swap rate returns on current accounts.

- Overall Group interest-earning assets were broadly stable. R&C interest-earning assets were flat, while elsewhere in the Group higher central bank cash balances offset asset run-off in GBM and Non-Core.

Q4 2011 compared with Q4 2010

- R&C NIM was down 4 basis points, with continued tightening of liability margins and a decline in long-term swap rate returns on current accounts more than offsetting asset repricing actions.
- Average interest-earning assets were up slightly at £665 billion, with growth in UK mortgage balances and in liquidity holdings offsetting Non-Core run-off.

	Year ended		Quarter ended		
	31 December 2011 £m	31 December 2010 £m	31 December 2011 £m	30 September 2011 £m	31 December 2010 £m
Non-interest income					
Net fees and commissions	4,924	5,983	1,017	1,148	1,604
Income from trading activities	3,381	6,138	140	547	979
Other operating income	2,527	1,213	405	549	26
Non-interest income (excluding insurance net premium income)	10,832	13,334	1,562	2,244	2,609
Insurance net premium income	4,256	5,128	981	1,036	1,272
Total non-interest income	15,088	18,462	2,543	3,280	3,881

Key points

2011 compared with 2010

- Non-interest income decreased by £3,374 million in 2011 principally driven by lower trading income in GBM and Non-Core and a fall in insurance net premium income.
- Volatile market conditions led to a reduction in GBM trading income, driven by the deterioration in global credit markets as sovereign difficulties in the eurozone grew.

- Non-Core trading losses increased by £690 million, reflecting costs incurred as part of the division's focus on reducing capital trading assets, with activity including the restructuring of monoline exposures, which mitigated both significant immediate and future regulatory uplifts in risk-weighted assets.
- Insurance net premium income fell by 17% largely driven by RBS Insurance's exit from certain business segments, along with reduced volumes reflecting the de-risking of the motor book. Insurance net premium income in Non-Core also decreased as legacy policies ran-off.
- 2010 results included £482 million of income recorded for GMS prior to its disposal in November 2010.

Q4 2011 compared with Q3 2011

- GBM trading income included a £368 million change in own credit on derivative liabilities, partially offset by an improved credit hedging (CEM) position of £235 million. Excluding these items, GBM trading income was £542 million versus £551 million in Q3 2011.
- Insurance premium income fell, largely reflecting the continued de-risking of the motor portfolio.

Q4 2011 compared with Q4 2010

- More challenging market conditions reduced trading and fee income in GBM.

Insurance net claims	2,968	4,783	529	734	1,182
Staff costs as a % of total income	29%	27%	32%	31%	28%

Key points

2011 compared with 2010

- Group expenses were 7% lower in 2011, driven by cost savings achieved as a result of the cost reduction programme and Non-Core run-off, largely reflecting the disposal of RBS Sempra and specific country exits.
- Staff expenses fell 9%, driven by lower GBM variable compensation as a result of its decrease in revenues, and in Non-Core, given the impact of a 32% reduction in headcount and continued business disposals and country exits.
- General insurance claims were £1,730 million lower, mainly due to the non-repeat of bodily injury reserve strengthening in 2010, de-risking of the motor book, more benign weather in 2011 and claims in Non-Core decreasing as legacy policies ran-off.
- The Group's cost reduction programme delivered cost savings with an underlying run rate of over £3 billion by the end of 2011.

Q4 2011 compared with Q3 2011

- Group expenses fell by 5%, significantly driven by a reduction in GBM variable compensation accrued in the first half of 2011. Core R&C expenses declined by 3% in part reflecting lower deposit insurance levies in Wealth and US R&C and continued benefits from the cost reduction programme.
- Non-Core expenses fell 3% largely driven by ongoing rundown of the division.

Q4 2011 compared with Q4 2010

- Group expenses were £437 million, or 11% lower than in the prior year, with Non-Core expenses down 35% reflecting the impact of business disposals and country exits and significantly lower current year variable compensation in GBM.
- General insurance claims fell by 54% as net claims in RBS Insurance fell by £309 million, reflecting an improved risk mix, more benign weather in Q4 2011 and the exit of certain business segments. Legacy business run-off in Non-Core also reduced claims.

Non-Core	4.8%	4.9%	3.7%	2.8%	4.4%

Note:

- (1) Customer loan impairment charge as a percentage of gross customer loans and advances excluding reverse repurchase agreements and including disposal groups.

Key points

2011 compared with 2010

- Group loan impairment losses decreased by 21% compared with 2010, driven largely by a £1,569 million reduction in Non-Core loan impairments, despite continuing challenges in Ulster Bank and corporate real estate portfolios.

- R&C loan impairment losses fell by £199 million, driven by improving credit metrics in UK Retail and US Retail & Commercial partially offset by increases in Ulster Bank, largely reflecting a deterioration in credit metrics on the mortgage portfolio, and a single name provision in GTS.
- Total Core and Non-Core Ulster Bank loan impairment losses decreased by 3%, as the £223 million increase in Core Ulster Bank losses was more than offset by a decrease in losses recognised in Non-Core.
- The Group customer loan impairment charge as a percentage of loans and advances fell to 1.5% compared with 1.7% for 2010. For Core, the comparable percentages are 0.8% and 0.9%.

Analysis of results (continued)

Key points (continued)

Q4 2011 compared with Q3 2011

- Group loan impairment losses increased by 14% in Q4 2011, largely reflecting a small number of corporate provisions in GBM and a small increase in Non-Core impairments related to the UK Corporate portfolio.
- Total Core and Non-Core Ulster Bank loan impairments fell by £38 million compared with Q3 2011, £570 million versus £608 million, driven by a 14% decrease in Non-Core Ulster Bank impairments. Core Ulster Bank impairments were broadly flat as lower losses on the corporate portfolio were offset by an increase in mortgage losses.

Q4 2011 compared with Q4 2010

- Group loan impairment losses fell 23% largely driven by a reduction in Non-Core impairment losses reflecting a reduction in Ulster Bank provisions in the quarter.
- Total Ulster Bank loan impairment losses (Core and Non-Core) were £570 million in Q4 2011, compared with £1,159 million in Q4 2010, driven by the decrease in Non-Core impairments.
- Loan impairment losses in R&C fell by £51 million, driven by improvements in UK Retail, US Retail & Commercial and Ulster Bank, partially offset by a single name provision in GTS and higher specific provisions in UK Corporate.
- Provision coverage of risk elements in lending was 49% at the end of Q4 2011, compared with 47% a year earlier.

Note:

- (1) The Group holds Greek government bonds with a notional amount of £1.45 billion. In the second quarter of 2011, the Group recorded an impairment loss of £733 million in respect of these bonds as a result of Greece's continuing fiscal difficulties. This charge (c.50% of notional) wrote the bonds down to their market price as at 30 June 2011. In the third quarter of 2011, an additional impairment loss of £142 million was recorded to write the bonds down to their market price as at 30 September 2011 (c.37% of notional). In the fourth quarter of 2011, an additional impairment loss of £224 million was recorded to write the bonds down to their market price as at 31 December 2011 (c.21% of notional).

Analysis of results (continued)

Key points

2011 compared with 2010

- One-off and other items amounted to a net charge of £2,658 million, including significant legacy costs for the Group: £850 million relating to PPI costs, £1,099 million in sovereign debt impairments, integration and restructuring costs of £1,064 million and a charge of £906 million for the APS. There was also a significant charge of £300 million for the bank levy.
- A full year gain on FVOD of £1,846 million as a result of Group credit spreads widening partially offset the 2011 charges. This compares with a smaller gain of £174 million in 2010.
- An impairment of £1,099 million was taken on the Group's AFS bond portfolio in 2011 as a result of the decline in the value of Greek sovereign bonds. As of 31 December 2011, the bonds were marked at 21% of par value.
- The APS fair value charge was £906 million in 2011. The cumulative charge for the APS was £2,456 million as at 31 December 2011.
- Integration and restructuring costs remained broadly flat at £1,064 million, reflecting significant GBM restructuring in 2011.

Q4 2011 compared with Q3 2011

- Q4 2011 integration and restructuring costs increased to £478 million, largely reflecting the GBM headcount reduction announced in 2011, as well as property exit costs.
- An additional impairment of £224 million was taken in Q4 2011 as a result of the continuing decline in the value of Greek sovereign bonds.

- The Group's credit spreads narrowed in the fourth quarter resulting in a FVOD charge of £370 million. This compares with a widening of spreads in Q3 2011 and a significant gain of £2,357 million.
- Q4 2011 included a charge of £300 million relating to the bank levy. For more details of this charge refer to page 19.

Q4 2011 compared with Q4 2010

- In Q4 2011 the Group recorded a loss of £370 million on FVOD, as Group credit spreads tightened. Wider credit spreads in Q4 2010 resulted in a gain of £582 million.
- The Q4 2011 APS fair value charge was £209 million compared with a charge of £725 million in Q4 2010, reflecting improved credit spreads in the quarter, as well as a further reduction in assets covered to £131.8 billion at 31 December 2011.
- Integration and restructuring costs increased from £299 million in Q4 2010 to £478 million in Q4 2011 largely reflecting significant restructuring within GBM along with continued business and country exits.
- A gain of £502 million on strategic disposals for Q4 2010 largely reflected the £837 million gain on the sale of Global Merchant Services, partially offset by losses on Non-Core project finance assets.

Analysis of results (continued)

Bank levy

The Finance Act 2011 introduced an annual bank levy in the UK. The levy is collected through the existing quarterly Corporation Tax collection mechanism starting with payment dates on or after 19 July 2011.

The levy is based on the total chargeable equity and liabilities as reported in the balance sheet at the end of a chargeable period. The first chargeable period for the Group was the year ended 31 December 2011. In determining the chargeable equity and liabilities the following amounts are excluded: adjusted Tier 1 capital; certain "protected deposits" (for example those protected under the Financial Services Compensation Scheme); liabilities that arise from certain insurance business within banking groups; liabilities in respect of currency notes in circulation; Financial Services Compensation Scheme liabilities; liabilities representing segregated client money; and deferred tax liabilities, current tax liabilities, liabilities in respect of the levy, revaluation of property liabilities, liabilities representing the revaluation of business premises and defined benefit retirement liabilities. It is also permitted in specified circumstances to reduce certain liabilities: by netting them against certain assets; offsetting assets on the relevant balance sheets that would qualify as high quality liquid assets (in accordance with the FSA definition); and repo liabilities secured against sovereign and supranational debt.

The levy will be set at a rate of 0.088 per cent from 2012. Three different rates applied during 2011, these average to 0.075 per cent. Certain liabilities are subject to only a half rate, namely any deposits not otherwise excluded, (except for those from financial institutions and financial traders) and liabilities with a maturity greater than one year at the

balance sheet date. The levy is not charged on the first £20 billion of chargeable liabilities. The cost of the levy to the Group for 2011 is £300 million. As the Group continues to target a reduction in wholesale funding, the cost should decline over time absent further rate increases.

Analysis of results (continued)

	31 December 2011	30 September 2011	31 December 2010
Capital resources and ratios			
Core Tier 1 capital	£46bn	£48bn	£50bn
Tier 1 capital	£57bn	£58bn	£60bn
Total capital	£61bn	£62bn	£65bn
Risk-weighted assets			
- gross	£508bn	£512bn	£571bn
- benefit of the Asset Protection Scheme	(£69bn)	(£89bn)	(£106bn)
Risk-weighted assets	£439bn	£423bn	£465bn
Core Tier 1 ratio (1)	10.6%	11.3%	10.7%
Tier 1 ratio	13.0%	13.8%	12.9%
Total capital ratio	13.8%	14.7%	14.0%

Note:

- (1) The benefit of APS in Core Tier 1 ratio is 0.9% at 31 December 2011 (30 September 2011 - 1.3%; 31 December 2010 - 1.2%).

Key points

2011 compared with 2010

- The Group's Core Tier 1 ratio remained strong at 10.6%. Core Tier 1 ratio fell 10 basis points compared with 2010, reflecting the PPI charge, the impairment taken on the Group's AFS bond portfolio in relation to Greek sovereign bonds, the bank levy and the implementation of CRD III.
- Gross risk-weighted assets fell £63 billion, or 11% in 2011. Net of the APS scheme the decline was £26 billion. The fall in risk-weighted assets was largely driven by Non-Core run-off and business exits, combined with specific actions taken in Non-Core to reduce capital intensive assets. These were partially offset by CRD III related uplifts which added £21 billion.

Q4 2011 compared with Q3 2011

- The Core Tier 1 ratio declined 70 basis points versus Q3 2011, reflecting a £21 billion uplift in risk-weighted assets from the implementation of CRD III, along with the quarter's attributable loss.

- Gross risk-weighted assets were broadly flat on the previous quarter, with the CRD III related uplift offset by Non-Core risk-weighted assets reduction from run-off and restructuring activity.
- The Q4 2011 capital relief from APS declined to 0.9%, versus 1.3% in Q3 2011, due to the significant decline in covered assets in Non-Core of £20 billion.

Analysis of results (continued)

	31 December 2011	30 September 2011	31 December 2010
Balance sheet			
Funded balance sheet (1)	£977bn	£1,035bn	£1,026bn
Total assets	£1,507bn	£1,608bn	£1,454bn
Loans and advances to customers (2)	£474bn	£487bn	£508bn
Customer deposits (3)	£437bn	£435bn	£431bn
Loan:deposit ratio - Core (4)	94%	95%	96%
Loan:deposit ratio - Group (4)	108%	112%	118%

Notes:

- (1) Funded balance sheet represents total assets less derivatives.
- (2) Excluding reverse repurchase agreements and stock borrowing, and including disposal groups.
- (3) Excluding repurchase agreements and stock lending, and including disposal groups.
- (4) Net of provisions and including disposal groups. Excluding disposal groups, the loan:deposit ratios of Core and Group at 31 December 2011 were 94% and 110% respectively.

Key points

- Funded assets declined £58 billion in the quarter to close the year at £977 billion. GBM's funded assets fell £35 billion in 2011, to £362 billion, with further reductions to circa £300 billion of funded assets targeted as RBS restructures its wholesale businesses. Non-Core funded assets fell by £11 billion in the quarter, £44 billion in the year, closing 2011 with funded assets of £94 billion, ahead of its revised target of £96 billion.
- Loans and advances to customers, including disposal groups of £19 billion, were down 3% from Q3 2011, and down 7% from Q4 2010, largely reflecting run-off in Non-Core. Loans and advances in R&C were broadly flat in the year.

- Customer deposits, including disposal groups of £23 billion, increased by £6 billion from Q4 2010. R&C deposits increased by £10 billion, 3%, from 2010, partially offset by a decrease in Non-Core as business disposals and country exits continued. Customer deposits also increased by £3 billion compared with Q3 2011, as UK Retail attracted £3 billion of new deposits and UK Corporate attracted £2 billion of new deposits, partially offset by reductions in GBM and Ulster Bank.
- The Group loan:deposit ratio improved to 108% at 31 December 2011, a 900 basis point improvement from 31 December 2010. The Core loan:deposit ratio also improved to 94% compared with 96% a year earlier.

Further discussion of the Group's liquidity and funding position is included on pages 136 to 145.
