**Item 5. Other Events**

On July 21, 2003, HEI issued the following news release:

**HAWAIIAN ELECTRIC INDUSTRIES, INC. REPORTS SECOND QUARTER 2003 EARNINGS**

HONOLULU Hawaiian Electric Industries, Inc. (NYSE **HE**) today reported income from continuing operations for the three months ended June 30, 2003, of \$25.8 million, or 69 cents per share, compared with \$31.5 million, or 87 cents per share in the same quarter of 2002. For the six months ended June 30, 2003, income from continuing operations was \$50.1 million, or \$1.35 per share, compared with \$58.3 million, or \$1.62 per share in the same period last year.

Several factors worked against more positive second quarter results, including the effects of a weak Japanese economy and fear of terrorism and SARS on tourism, increased retirement benefits expense resulting from poor stock market performance in 2000 through 2002 and a tightening interest rate spread caused by the lowest interest rates in 45 years, said Robert F. Clarke, HEI chairman, president and chief executive officer.

Electric utility net income during the quarter was \$18.6 million versus \$23.9 million in the same quarter last year. Electric utility net income for the first six months of 2003 was \$36.2 million versus \$44.2 million in the same period of 2002.

As expected, increased retirement benefits expense lowered electric utility net income by \$3.9 million in the second quarter of 2003 versus the same quarter in 2002, said Clarke. On the bright side, kilowatthour sales in the second quarter were up 1.2% compared to the same quarter in 2002 due to slightly warmer weather and increased commercial usage on the Big Island and Maui.

Bank net income in the second quarter was \$13.5 million compared to \$14.8 million in the same quarter last year. Bank net income for the first six months of 2003 was \$27.0 million versus \$28.2 million in the same period in 2002.

The bank did an excellent job of managing margin compression through this difficult interest rate environment and was able to achieve second quarter earnings at the same level as the first quarter of 2003, said Clarke. Compared to the second quarter of last year, bank net income for the second quarter was down \$1.3 million primarily due to the less favorable interest rate environment quarter-over-quarter. The interest rate spread was 3.02% in the second quarter of 2003 versus 3.31% in the same quarter of 2002. High prepayments of mortgage-related securities due to record-level refinancings significantly lowered the yield on those assets. Partially offsetting this decrease in yields was lower interest expense resulting from restructuring certain liabilities. Other positive factors during the second quarter included a lower provision for loan losses due to low delinquencies, increased fee income from other financial services and gain on sales of securities. These positives were partially offset by an increase in general and administrative expenses to execute the bank's continued strategic transformation to a full-service community bank.

Net losses from continuing operations for the holding and other companies in the second quarter were \$6.3 million compared to \$7.2 million in the same quarter last year. Holding and other companies' net losses from continuing operations for the first six months of 2003 were \$13.1 million versus \$14.0 million in the same period of 2002. Lower losses in the second quarter of 2003 were due to lower interest expenses and investment losses.

Losses from the discontinued international power operations for the quarter and six months ended June 30, 2003, were \$3.9 million, or \$0.10 per share, due primarily to a \$3.2 million after-tax writedown of the Company's investment in CEPALCO, a Philippine electric distribution company located in the northern part of the island of Mindanao. The reduced valuation of CEPALCO resulted from the deteriorating political and economic environment that had significant adverse impacts on the electric power industry in the Philippines in the second quarter of 2003 and on the expected financial performance of CEPALCO. HEI discontinued its international operations in the third quarter of 2001. The investment was offered for sale at that time and continues to be available for sale, but remains unsold.

HEI is the largest Hawaii-based company (based on reported revenues), providing electric utility services to 95% of Hawaii's residents and a wide array of banking services to consumers and businesses through the state's third largest bank.

### **Forward-Looking Statements**

This release may contain forward-looking statements, which include statements that are predictive in nature, depend upon or refer to future events or conditions, and usually include words such as expects, anticipates, intends, plans, believes, predicts, estimates or similar expressions. In addition, any statements concerning future financial performance (including future revenues, expenses, earnings or losses or growth rates), ongoing business strategies or prospects and possible future actions, which may be provided by management, are also forward-looking statements. Forward-looking statements are based on current expectations and projections about future events and are subject to risks, uncertainties and assumptions about HEI and its subsidiaries, the performance of the industries in which they do business and economic and market factors, among other things. These forward-looking statements are not guarantees of future performance.

Forward-looking statements in this release should be read in conjunction with the Forward-Looking Statements and Risk Factors discussion (which is incorporated by reference herein) set forth on page v of HEI's Form 10-Q for the quarter ended March 31, 2003, and in HEI's future periodic reports that discuss important factors that could cause HEI's results to differ materially from those anticipated in such statements. Forward-looking statements speak only as of the date of this release.

This information should be read in conjunction with the consolidated financial statements and the notes thereto incorporated by reference in HEI's Annual Report on SEC Form 10-K for the year ended December 31, 2002 and the consolidated financial statements and the notes thereto in HEI's Quarterly Reports on SEC Form 10-Q for the quarters ended March 31, 2003 and June 30, 2003 (when filed).

Results of operations for interim periods are not necessarily indicative of results to be expected for future interim periods or the full year.

**Hawaiian Electric Industries, Inc. and subsidiaries****GOODWILL**

(Unaudited)

The Company adopted the provisions of Statement of Financial Accounting Standards (SFAS) No. 142, Goodwill and Other Intangible Assets on January 1, 2002. SFAS No. 142 requires that goodwill and intangible assets with indefinite useful lives no longer be amortized, but instead be tested for impairment at least annually.

The Company's \$83.1 million of goodwill is in the bank segment and was tested for impairment as of January 1 and September 30, 2002 and will be tested for impairment annually as of September 30. As of January 1 and September 30, 2002, there was no impairment of goodwill. The fair value of the bank was estimated using a valuation method based on a market approach, which takes into consideration market values of comparable publicly traded companies and recent transactions of companies in the industry.

Application of the provisions of SFAS No. 142 has affected the comparability of the twelve months ended results of operations because the goodwill in the bank segment is no longer being amortized over a 25 year period. Thus, the following transitional disclosures present net income and earnings per common share adjusted as shown below:

	Twelve months ended	
	June 30,
