Risk factor

From time to time we are engaged in contractual disputes with our customers.

From time to time we are engaged in contractual disputes with our customers regarding routine delivery and performance issues as well as adjustments for design changes and related extra work. These disputes are generally resolved in the ordinary course of business without having a material adverse impact on us. We recently made a claim against one of our customers for approximately \$3 million of additional costs in connection with a contract. Our customer has responded with a general assertion, provided without support or specificity, of delay damages and costs in the amount of \$26.1 million. We believe that we have no liability with respect to this dispute.
