Item 5. Other Events

On February 13, 2004, Huttig Building Products, Inc. announced that it and its bank lenders amended the company's revolving credit facility to provide for a springing lockbox arrangement. Under this arrangement, the company now maintains a lockbox from which it may apply cash receipts to any corporate purpose so long as its monthly average availability does not fall below \$20 million and it is not in default under its credit agreement. If either of those events occurs, the company's bank lenders may redirect funds from the lockbox to the payment of amounts outstanding under the facility. In accordance with Emerging Issues Task Force Issue No. 95-22, Balance Sheet Classification of Borrowings Outstanding under Revolving Credit Agreements that Include both a Subjective Acceleration Clause and a Lock-Box Arrangement, the company will restate its December 31, 2002 balance sheet to reclassify the borrowings under the credit agreement, which was entered into in August 2002, previously reported as long term liabilities, amounting to \$65.0 million, to current liabilities. With the amendment to the company's credit facility, outstanding borrowings under the credit facility, which totaled \$63.5 million at December 31, 2003, are properly classified as long term liabilities as of December 31, 2003. The restatement of the company's December 31, 2002 balance sheet will have no impact on its debt covenants under the credit agreement, its ability to draw on existing facilities or its previously reported net income. A copy of the press release issued on February 13, 2004 regarding the amendment to the company's revolving credit facility is filed as Exhibit 99.1 and is incorporated herein by reference.
