**Summary of the resolutions
submitted to the Shareholders Meeting**

Ø ORDINARY PART OF THE SHAREHOLDERS MEETING

First and second resolutions

The shareholders will be asked in these resolutions to approve the transactions and statutory and consolidated financial statements for the year ended 31 March 2004 as presented to them.

Ø Proposal for the appropriation of net income

Third resolution

Taking into account the loss for the fiscal year ended 31 March 2004 which amounts to (1,341,046,460.19) we propose the following appropriation in this resolution:

up to 55,210,044.48 on the account share premiums which as a result amount to zero;

up to 1,285,836,415.71 on the account retained earnings which as a result amount to (1,289,913,214.56).

As a result, no dividend will be paid to the shareholders for this fiscal year 2004.

During the three preceding fiscal years, the following dividends were distributed:

Number of Shares	Dividend	Tax credit	Global amount
---------------------	----------	---------------	------------------

		()	()	()
2002/2003	281,660,523			
2001/2002	215,387,459			
2000/2001	215,387,459	0.55	0.275	0.825

Ø Related party agreements

Fourth resolution

After review of the special report prepared by the statutory auditors, the shareholders will be requested in this resolution to approve the conclusions of such report on the absence of agreements to which article L. 225-38 of the French *Code de Commerce* applies during the past fiscal year.

Ø Board of Directors Appointment of Directors

Fifth, sixth, seventh and eighth resolutions

The composition of the Board of Directors has changed during the fiscal year. We remind you that the General Meeting of 2 July 2003 ratified the cooptation of Mr. Gérard Hauser as a Director for the remaining term of Mr. Bilger's mandate and that the General Meeting of 18 November 2003 approved the appointment of a new Director, Mr. James William Leng, for a four-year duration.

The mandates of Messrs Jean-Paul Béchat, Gérard Hauser and George Simpson will expire at the end of this Ordinary General Meeting, therefore the shareholders are requested in these fifth, sixth and seventh resolutions to approve the renewal of their mandates for a four-year duration until the end of the Shareholders' Meeting which shall approve the accounts for the fiscal year 2008.

We also remind you that Sir William Purves and Mr Klaus Esser resigned from their position as Director during past fiscal year, effective 28 July and 31 December 2003 respectively.

We propose to complete the number of members of the Board of Directors by appointing in the eighth resolution Mr. Pascal Colombani for a four-year duration until the end of the Ordinary Shareholders' Meeting which shall approve the accounts for the fiscal year 2008.

Ø Ratification of the transfer of the Registered Office

Ninth resolution

The Board of Directors held on 25 May 2004 decided to transfer the Registered Office of ALSTOM from 25 avenue Kléber, 75016 Paris to 3 avenue André Malraux, 92300 Levallois-Perret and that this decision should be effective on 31 December 2004 at the latest. Pursuant to applicable laws, the shareholders will be requested in this resolution to ratify this decision.

Ø Acquisition by the Company of its own shares

Tenth resolution

The authorisation, which the General Meeting of 2 July 2003 gave to the Company to acquire its shares, was not used during the course of the past fiscal year.

In order to provide flexibility to the Company, it is proposed

3 Summary of the resolutions submitted to the Shareholders Meeting

in this resolution to cancel this former authorisation that shall expire at the end of this General Meeting and to renew it for a period expiring on the date of the General Meeting that will approve the financial statements for the fiscal year beginning on 1 April 2004.

This authorisation will allow the Company to acquire its own shares not only for stabilisation purposes or to allow sale and purchase of shares depending on the market, but also to allocate such shares to employees and management of the Group (in particular through stock option plans), to retain the shares acquired and, if need be, to sell, transfer or exchange the shares acquired in the context of any financial transaction (including the exercise of rights attached to securities), as well as in the context of the general and financial management of its share capital and shareholders equity, in particular with regard to its financing requirements. The shares may also be cancelled pursuant to the fifteenth resolution of the General Meeting of 2 July 2003.

The purchase, sale, transfer or exchange of these shares may be effected on or off the market, at any time, including during any take-over bid, and by any means, including through block transfer or the use or exercise of any financial instruments, derivative products and, particularly, through optional transactions such as the purchase and sale of put and call options. These shares may also be transferred free of charge under the conditions specified by law, in particular articles L. 443-1 et seq. of the French *Code du Travail*.

The number of shares which may be purchased pursuant to the present authorisation cannot exceed 10% of the share capital as of 31 March 2004, i.e a theoretical maximum number of 105,665,757 shares.

We propose that the maximum purchase price of shares be fixed at 5 and that the minimum sale price be fixed at 1.

Ø Authorisation to modify the terms of the fixed term subordinated bonds (TSDD) issued on 23 December 2003 to the benefit of the French Republic

Eleventh resolution

We remind you, that the TSDD have a fixed term of 15 years. In order to make the French Republic's debt enforceable in advance to implement the financing package presented in this report on the resolutions proposed to the Extraordinary Shareholders Meeting, the eleventh resolution is asking you to approve the principle of changing the procedures for reimbursing the TSDDs to allow this debt to be incorporated in the capital to pay up the subscription to a capital increase which would be subscribed by the French State, and to give all powers to the Board of Directors, with authorisation to delegate, to make the necessary modifications to the procedures for the TSDD in agreement with the French Republic.

Ø EXTRAORDINARY PART OF THE SHAREHOLDERS MEETING

Ø Decisions following the loss for the fiscal year ending on 31 March 2004

Twelfth and thirteenth resolutions

Edgar Filing: ALSTOM - Form 6-K

As a result of the loss of 1,341,046,460.19 recorded in the statutory accounts for fiscal year ending 31 March 2004, the shareholders' equity amounts to less than half the share capital, and you are therefore asked in the twelfth resolution, pursuant to the provisions of the French Code of Commerce, not to approve the early liquidation of the Company.

Following the appropriation of the loss for the fiscal year set forth in the third resolution, which resulted in a significantly negative balance carried forward, you are now being asked in the thirteenth resolution to reduce the share capital from 1,320,821,965.00 to 369,830,150.20 to offset a portion of the latter amount, and to implement this share capital reduction by reducing the nominal value of each share from 1.25 to 0.35.

The amount of the capital reduction may be adjusted at the meeting to take into account, if necessary, the repayment of shares, on the one hand, of fixed term subordinated bonds (TSDD RA) which would occur automatically following the decision of the European Commission approving their

Table of Contents

3 Summary of the resolutions submitted to the Shareholders Meeting

repayment in shares and would result in a share capital increase of 300 million euros. The amount may also be adjusted to take into account the repayment in shares of the subordinated bonds repayable in shares (ORA). In the event all of the TSDD RAs and ORAs are reimbursed by shares, the amount of the capital would be 1,756,736,285 prior to capital reduction and 491,886,159.80 following capital reduction.

Ø New financial authorisations

Fourteenth, fifteenth and sixteenth resolutions

We remind you that the resolutions approved by the Extraordinary General Shareholders Meeting held on 18 November 2003, to implement the refinancing agreement signed with the banks and the French Republic on 20 September 2003, have been used, namely:

authorisation to increase the share capital reserved for certain financial institutions and to allocate free stock options to shareholders, giving them the right to purchase the Company shares subscribed by these financial institutions,

authorisation to issue subordinated bonds, reimbursable by shares, retaining the shareholders preferential right of subscription (ORA),

authorisation to issue fifteen-year fixed term subordinated bonds (TSDD) to be subscribed by the French Republic,

authorisation to issue twenty-year fixed term subordinated bonds reimbursable by shares (TSDD RA) to be subscribed by the French Republic, entitling the French Republic to have a stake in the Company, if a favorable decision is rendered by the European Commission.

The European Commission has opened a formal investigation to determine whether the financing package contains elements constituting state assistance incompatible with the Common Market, and its decision should be made at the end of June 2004. If the Commission concludes that it does not contain elements constituting state assistance incompatible with the Common Market, the Commission will authorise the reimbursement of the TSDD RAs held by the French Republic by shares.

After reimbursement of all TSDD RAs with shares, the French Republic would own approximately 18.5% of the share capital based on the amount of capital on 31 March 2004, and approximately 17% of the share capital if all the ORAs are converted into shares.

In this case, the French Republic would be represented on the Board of Directors of the Company pursuant to applicable laws and regulations.

The acceleration of the industrial restructuring measures and the upswing in orders have led to open discussions between the Company, the banks and the French Republic for the purpose of modifying the initial agreement on financing presented to the European Commission, which is currently being negotiated.

Edgar Filing: ALSTOM - Form 6-K

The European Commission should reach a decision on the amended initial financing package being discussed before the end of June 2004 and its approval is a prior condition necessary for the implementation of the amended refinancing plan which aims to set up a new program to issue guarantees required for the Group's business activities, strengthen its equity capital and reduce the Company's debt.

On the basis of the negotiations as of today, the refinancing plan as amended, would consist of:

setting up an extended program to issue guarantees for at most 8 billion euros, that would benefit from a guarantee for a total maximum amount of 2 billion euros including a collateral security issued by the Company for 700 million euros, and guarantees from a financial institution guaranteed by the French Republic, and from a group of banks; the Company's collateral would be financed by the capital increase described below,

a capital increase for a total amount, issue premium included, of 2.2 billion euros, consisting of:

a capital increase by a share issue for a maximum amount of 1.2 billion euros, including issue premium, retaining the shareholders' preferential subscription rights, in which the French Republic would participate by exercising, on an irreducible basis, all of its preferential subscription rights resulting from the reimbursement in shares of its TSDD RAs, up to a limit of 18.5% of 1 billion euros (percentage calculated based on the capital as of 31 March 2004),

Table of Contents

3 Summary of the resolutions submitted to the Shareholders Meeting

a capital increase for a maximum of 500 million euros, including issue premium, that would be reserved for the French Republic and the CFDI, payable by offsetting the Company's debts under the TSDD for the French Republic, and under the fixed term subordinated loan dated 30 September 2003 (PSDD) for the CFDI,

a capital increase for a total of 700 million euros, including issue premium, that would be reserved for creditors other than the CFDI in respect of the revolving syndicated credit dated 3 August 2001 (the Syndicated Credit), the loan dated 18 August 2000, and the PSDD, payable by offsetting all or part of the Company's debts under the terms of these agreements.

The French Republic's participation in these operations is subject to the approval of the European Commission and the French Republic's stake in the Company's share capital following the implementation of this plan would at no time exceed 31.5% of the Company's share capital and voting rights.

Notification of the decision by the European Commission on this plan which terms and conditions are currently being negotiated, is expected for the end of June 2004.

On this basis, and subject to the approval by the European Commission, we submit to your approval resolutions which would allow the implementation of the plan by authorising the Board of Directors to make use of the authorisations set forth in the fourteenth, fifteenth and sixteenth resolutions, as soon as possible after the Shareholders Meeting, subject to market conditions.

Implementation of this plan (with the exception of the capital increase with preferential subscription rights) is also subject to obtaining the necessary approval from the lenders for the financial commitments described above.

These three resolutions constitute an indissociable whole.

Fourteenth resolution

The fourteenth resolution therefore asks you to authorise the Board of Directors, for a period of one year from the General Shareholders Meeting, to issue shares in the Company, retaining the shareholders' preferential subscription rights, up to the limit of a maximum capital increase of 1.2 billion euros, including the issue premium.

The subscription price will be set when the decision is taken to go ahead with the issue and will include a discount on the market price, set according to market practices.

Edgar Filing: ALSTOM - Form 6-K

This authorisation is subject to the condition precedent that the Board adopts the twelfth (pursuing the business activity), thirteenth (reducing the capital by reducing the nominal value), fifteenth (capital increase reserved to lenders other than the French Republic and the CFDI, presented below) and the sixteenth (capital increase reserved to the French Republic and the CFDI, presented below) resolutions.

Fifteenth and sixteenth resolutions

The next two resolutions ask you to authorise operations allowing a portion of the Company's medium and long term debts resulting from the implementation of the financing agreement drawn up in September 2003 and the revolving syndicated credit of August 2001 to be converted into Company shares to strengthen shareholder equity and reduce the Company's debt.

The total capital increase including issue premium that may result from these two resolutions would be 1.2 billion euros, it being understood that the total amount of capital increases that would result from the fourteenth, fifteenth and sixteenth resolutions could not be in excess of 2.2 billion euros. Moreover, if the amount of the capital increase that would result from the fourteenth resolution would exceed 1 billion euros, issue premium included, the maximum amount of the capital increases, issue premium included, that may result from the use of the fifteenth and sixteenth resolutions would be reduced accordingly.

Therefore the fifteenth resolution asks you to authorise the Board of Directors for a period of one year from the date of the General Shareholders Meeting, to issue shares in the Company up to a maximum nominal amount of 700 million euros, including the issue premium, which could lead to the issue of a maximum number of 2 billion shares with a nominal value of 0.35 each, after reduction of the nominal value pursuant to the thirteenth resolution, and to waive the shareholders' preferential subscription rights for the benefit of the category of persons made up of lenders (apart from CFDI) (the Lenders) for (i) the subordinated

credit agreement for 1,563,399,105, entered into on 30 September 2003; (ii) the Multicurrency Revolving Credit Agreement dated 3 August 2001, and (iii) the 200 million euros credit facility dated 18 August 2000, whose receivable(s) pursuant to one or other of the agreements will be enforceable early.

The shares may only be paid up by being offset against the Company's debts pursuant to these credit agreements as long as they are certain, payable and due on the day planned for subscribing to the capital increase, which will be the subject of a statement of account certified as accurate by the Statutory Auditors.

The early maturity of the junior loans and converting them into Company shares are conditional upon obtaining the prior consent of the lenders who hold the senior loans under the conditions set forth in these agreements.

The total number of the shares actually issued pursuant to this resolution will result from the issue price to be set by the Board of Directors.

The issue price of the shares issued pursuant to this resolution would be between 125% to 135% (inclusive) of the issue price of the shares issued in the share capital increase pursuant to the fourteenth resolution and would be fixed after consideration of the theoretical ex-right price for the share calculated on the basis of the last quoted prices for the share prior to the day of the fixation of this price. In addition, this price shall be equal to the issue price of the shares issued pursuant to the sixteenth resolution.

This authorisation is subject to the condition precedent that the Board adopts the twelfth (pursuing the business activity), thirteenth (reducing the capital by reducing the nominal value), fourteenth (increasing capital with preferential subscription rights) and the sixteenth (capital increase reserved to the French Republic and the CFDI, presented below) resolutions.

The sixteenth resolution asks you to authorise the Board of Directors, for a period of one year from the date of the General Shareholders Meeting, to issue shares in the Company up to a total maximum amount of 500 million euros, including the issue premium, which could lead to the issue of a maximum number of 1,428,571,428 shares with a nominal value of 0.35 each, after reduction of the nominal value pursuant to the thirteenth resolution, and to eliminate the shareholders' preferential right, to the benefit of:

the French Republic in its capacity as holder of fixed term subordinated bonds for a maximum total amount of 200 million euros, including the issue premium, which could lead to the issue of a maximum number of 571,428,571 shares with a nominal value of 0.35 each, which it subscribed in December 2003 (the TSDD),

the CFDI, for a maximum total amount of 300 million euros, including the issue premium, which could lead to the issue of a maximum number of 857,142,857 shares with a nominal value of 0.35 each, for the subordinated loan signed with the Company for 1,563,399,105 (the PSDD) on 30 September 2003.

It is stipulated that the shares that would be subscribed by the CFDI pursuant to this authorisation would be transferable, upon their subscription, to the French Republic.

Edgar Filing: ALSTOM - Form 6-K

The total number of the shares actually issued pursuant to this resolution will be a result of the issue price set by the Board of Directors.

The issue price for the shares issued pursuant to this resolution would be between 125% to 135% (inclusive) of the issue price of the shares issued in the share capital increase pursuant to the fourteenth resolution and would be fixed after consideration of the theoretical ex-right price for the share calculated on the basis of the last quoted prices for the share prior to the day of the fixation of this price. In addition, this price shall be equal to the issue price of the shares issued pursuant to the fifteenth resolution.

These shares may only be paid up by being offset against the Company's debt to the French Republic under the TSDD, and to the CFDI under the PSDD, if these debts would be due on the day set for subscribing to the share capital increase, which would be the subject of a statement of account certified as accurate by the Statutory Auditors.

It should be noted that these TSDD have a fixed term of 15 years, and that the PSDD has a fixed term of 20 years.

3 Summary of the resolutions submitted to the Shareholders Meeting

To make the Company's debt to the French Republic due in advance, the eleventh resolution is asking you to approve the principle of changing the procedures for reimbursing the TSDDs to allow this debt to be incorporated in the capital, and to give all powers to the Board of Directors, with authorisation to delegate, to make the necessary modifications to the procedures for the TSDD in agreement with the French Republic.

The early maturity of the TSDDs and the PSDDs and their conversion into Company capital is conditional upon prior approval, by the European Commission, and also by the Company's creditors who are party to the agreements referred to in the fifteenth resolution above, pursuant to the conditions set forth in these agreements.

We remind you, moreover, that if the French Republic and the CFDI were shareholders of the Company, they could not take part in the vote of this resolution.

This authorisation is subject to the condition precedent that the Board adopts the twelfth (pursuing the business activity), thirteenth (reducing the capital by reducing the nominal value), fourteenth (increasing capital with preferential subscription right), and the fifteenth (increasing capital reserved to lenders other than the French Republic and the CFDI) resolutions.

You are being asked to give full powers to the Board of Directors, with the right to subdelegate under the conditions set by law, and up to the limits set out above, to implement these authorisations, and in particular, to set the issue price of the shares, which will be identical for the fifteenth and sixteenth resolutions, to establish the statement of account provided for in Article D 166 of decree No. 67-236 of 23 March 1967, to pay up the subscription to the capital increases by offsetting them against certain, payable and due debts, and to establish for the sixteenth resolution the list of beneficiaries that will subscribe to the capital increase and the amount to be subscribed by each of them.

When the Board of Directors decides to use these authorisations, in accordance with the provisions of Article 155-2 of the decree of 23 March 1967, the final conditions for the operations, as well as their effect on the shareholder's position and the stock price, will be the subject of additional reports by the Board of Directors and the Statutory Auditors.

Ø Renewing financial authorisations

Seventeenth and eighteenth resolutions

Pursuant to legal requirements, the proposals for the capital increase made to you in the preceding resolutions mean we are also asking you in the seventeenth resolution to renew the authorisation for capital increases reserved for group employees entrusted to the Board by the eighth resolution of the Ordinary and Extraordinary Shareholders Meeting held on 18 November 2003, even though this has not been used and is still in force.

Edgar Filing: ALSTOM - Form 6-K

Therefore the seventeenth resolution asks you to cancel the earlier resolution, and replace it by authorising your Board, for 26 months, to increase the capital by issuing shares or other securities giving access to the capital up to a nominal amount of 66 040,000 (excluding adjustments), reserved for the members of a savings plan for the employees of the Company and its subsidiaries, who may subscribe to it, in accordance with applicable regulations, directly or indirectly through a mutual fund. For the benefit of these members, we are asking you to waive the shareholders' preferential rights to subscribe to the shares and securities giving access to the capital, which may be issued based on this authorisation.

The subscription price of the shares issued, in accordance with current regulations, may not be lower than 20% of the average listed price in the twenty trading days preceding the day the decision is made setting the subscription opening date, nor higher than this average. The free allocation of shares or other securities giving access to the Company's capital may also be offered.

In the event your Board decides to use this authorisation in accordance with the provisions of Article 155-2 of the decree of 23 March 1967, the final conditions for the operations, as well as their effect on the shareholders' situation and the stock price, would be the subject of additional reports by the Board of Directors and the Statutory Auditors.

The eighteenth resolution is asking you to cancel the unused amount of the authorisation granted by the General Shareholders' Meeting of 24 July 2001, which will expire at the end of September 2004, and renew it by authorising your Board, for 38 months, to allocate to those members which it designates from amongst the employees and corporate officers of the Company and companies or

economic interest groupings associated with it, pursuant to the terms of Article L. 225-180 of the Commercial Code, options to subscribe or purchase shares in the Company up to a total number of options granted pursuant to this authorisation, which may not give the right to subscribe or purchase a number of shares exceeding 5% of the share capital at the date the options are allocated, taking into account the options already allocated pursuant to this authorisation which may be but have not yet been exercised.

The subscription or purchase price of the shares may not be less than the average of the opening prices listed during the twenty trading days preceding the day on which the options are granted. Furthermore, the purchase price of existing shares may not be less than the average price at which the shares were purchased by the Company.

Ø Amendments to the By-Laws

Nineteenth and twentieth resolutions

We ask you to approve the nineteenth resolution to bring the By-Laws into compliance with Financial Security Law No. 2003-706 of 1 August 2003. Pursuant to the new provisions in the law, changes have been made to the period of time, reduce to five days, granted to inform the Company if statutory thresholds have been exceeded, and there are new rules on exceeding the maximum number of Directors, on Directors information, the authority of the Chairman of the Board of Directors, the conditions for reappointing the statutory auditors, and their attendance at meetings of the Board of Directors.

The twentieth resolution is asking you to amend Article 15 of the By-Laws, to comply with the provisions of Art. 136 of the decree of 23 March 1967, as amended by Art. 38-II of the decree of 3 May 2002, on deadlines for shareholders to send in documents canceling their votes or changing the number of votes.

Finally, the twenty-first and last resolution asks you to grant full powers to allow legal decisions by the General Shareholders Meeting to be implemented and the necessary formalities completed.

- (a) We define Free Cash Flow to mean Net cash provided by (used in) operating activities less Capital expenditures, net of proceeds from disposals of property, plant and equipment (excluding proceeds from the sale of real estate as part of our strategic plan) and increase (decrease) in variation in existing receivables considered as source of funding of our operations. However, this measure is not a measurement of performance either under French or US GAAP.
- (b) We define Economic debt to mean Net debt (or Financial debt net of short term investments and cash and cash equivalents) plus cash proceeds from sale of trade receivables (securitisation of existing receivables). Economic debt does not represent our Financial debt as calculated under French GAAP, and should not be considered as an indicator of our currently outstanding indebtedness because trade receivables securitised are sold irrevocably and without recourse.
- (c) Adjusted for changes in business composition and exchange rates

Activity during fiscal year ended 31 March 2004***Rebound of orders in challenging market conditions***

Edgar Filing: ALSTOM - Form 6-K

Despite an unfavourable economic climate, markets remained buoyant in rail transport and sound in power generation service. The new equipment market in power, however, remained at historically low levels. New emissions regulations continue to drive needs for environmental control equipment in Europe and the US, and there is growing demand for new boiler and hydro equipment in Asia and Latin America. The cruise-ship market remained weak.

Overall, Group order intake was up 1% on a comparable basis against the prior year, with a first half down 23% on a comparable basis and the second half showing a strong rebound in the level of orders received (+34% on a comparable basis). The margins on these orders are consistent with our performance targets. Major orders included three GT26 gas turbines in Spain and associated services, a steam power plant in Saudi Arabia, service contracts in the US and Brazil and orders for trams and metros across Europe and for high-speed tilting trains in Italy.

Sales decreased by 10% on a comparable basis as a result of the low level of orders booked last year.

The order backlog amounted to over 25.4 billion at 31 March 2004, representing approximately 18 months of sales. This year the book to bill ratio stands at 1, compared to 0.9 last year.

Table of Contents

5 Summary of activity

Operating income affected by lower sales and non-recurring charges

Operating income was 300 million, or 1.8% of sales, due to a lower sales level leading to underactivity and exceptional charges on US projects amounting to 102 million for our Transport Sector and 108 million for our Power Environment Sector.

Stricter control of terms and conditions and margins in our order intake is fully in place and processes to monitor the execution of large projects are rigorously applied.

Net income; reduction of the nominal value of share

Net loss after goodwill amortisation was 1,836 million for fiscal year 2003/04, as a result of low operating income, high restructuring charges (655 million versus 268 million in prior year), high financial expenses (460 million compared with 270 million in fiscal year 2002/03) and tax charges of 251 million (compared with tax income of 263 million in the prior year).

As a result of a net loss in our statutory accounts, the reduction of the nominal value of the share from 1.25 to 0.35 will be proposed to our shareholders at the next Annual General Meeting.

Free cash flow: strongly negative due to cash outflows on GT24/GT26

In line with our previous guidance, free cash flow was (1,007) million, reflecting scheduled cash outflows of 766 million relating to the GT24/GT26 gas turbines and higher restructuring and financial expenses. This was partly offset by the improvement in our working capital following the rebound in orders received during the second half of the fiscal year and continued efforts to reduce receivables and inventories.

Excluding cash outflow on the GT24/GT26, free cash flow was positive in the second half.

Economic debt reduced by approximately 2 billion

Economic debt was 3,000 million at the end of March 2004 compared with 4,918 million at the end of March 2003. This primarily reflects the impact of the capital increase and proceeds from the disposal notably of our Transmission & Distribution activities and Industrial Turbines businesses during the year, partly offset by the negative free cash flow for the fiscal year.

Update on GT24/GT26 gas turbine issues

The resolution of our GT24/GT26 issues is progressing satisfactorily. Of the 80 machines, 74 are now in operation, one is in commissioning, one is under construction and one contract for four units which was previously suspended has now been cancelled.

The machines in service are demonstrating good levels of reliability and have accumulated around 900,000 operating hours. We have reached settlements on 64 units, with only twelve units subject to commercial dispute. Our previous cases of customer litigation in court have been settled.

At end-March 2004, we retained 738 million of provisions related to the GT24/GT26 issues, assuming 234 million of mitigation. At end-March 2003, we retained 1,655 million, assuming 454 million of mitigation. Both numbers have thus been reduced significantly.

Financing package

We are in advanced negotiation regarding a comprehensive financing package. The main items of this package are the following:

Secured bonding facility to cover our commercial needs for the next 18-24 months of a maximum outstanding amount of 8 billion euros, which would benefit from a 2 billion euros guarantee package with 700 million euros security provided by ALSTOM, guarantees given by a French Republic-guaranteed institution for 1.25 billion euros and the remainder by a group comprising our core banks.

Conversion into equity of 300 million euros subordinated bonds reimbursable with shares with a 20-year maturity (TSDDRA). They will be automatically reimbursed with shares upon approval by the European Commission, giving the French Republic an equity participation in ALSTOM of approximately 18.5% (on the basis of the share capital as of 31 March 2004).

New capital increase and debt-to-equity swap of an amount ranging between 1.5 billion euros - 2.2 billion euros:

A capital increase of between 1 - 1.2 billion euros which would involve the issue of shares with preferential subscription rights. The French Republic has indicated its readiness to subscribe to this capital

Table of Contents

5 Summary of activity.

increase by exercise of its preferential subscription rights after reimbursement with shares of the TSDDRA for approximately 185 million euros.

The conversion of up to 500 million euros of subordinated bonds and loans issued by the French Republic (TSDD , PSDD), provided that its equity participation in ALSTOM does not exceed 31.5%.

The conversion into equity, to be proposed to our lenders, of an aggregate maximum amount of existing debt of 700 million euros.

The maximum amount proposed for conversion by our lenders would be reduced accordingly should the rights issue exceed 1 billion euros.

Commitments including additional asset disposals: to respond to the European Commission's requirements, we have committed not to make any significant acquisitions in the transport sector within Europe over the next four years and to dispose of businesses representing approximately 1.5 billion euros in sales. Around 50% of this figure covers the following:

our freight locomotive business in Valencia, Spain;

our Transport Sector's activities in Australia and New Zealand; and

our industrial boilers business, which is part of our Power Environment Sector.

The remaining 50% covers other businesses which have not yet been identified and which will be disposed of within the next two years.

We have agreed that, as part of our international development in the Hydro business, we would enter into a 50-50 joint venture in the coming years. Finally, we intend to implement, within the next four years, industrial partnerships to ensure our future development; this is supported by both the French State and the European Commission.

This package will be subject to European Commission approval. A decision is expected before the end of June 2004, prior to our Annual General Shareholders Meeting.

Outlook

The prompt finalisation and implementation of this financing package are essential for ALSTOM's future.

Edgar Filing: ALSTOM - Form 6-K

ALSTOM's scope is clear, with core activities focused on the power generation and rail transport markets. We expect overall demand to remain generally low over the next months in the power new equipment market but are confident that market fundamentals will lead to an upturn in demand. The transport and power service markets should remain generally sound. The timing of the expected recovery in the cruise-ship market remains uncertain.

Fiscal year 2004/05 will be a transitional year. We forecast orders to be above the level recorded in fiscal year 2003/04 on a comparable basis. On the same basis, sales are expected to be at around the same level as fiscal year 2003/04. Operating margin for fiscal year 2004/05 should be between 3.5% and 4% in comparison with a proforma margin of 2.6% before exceptionals in 2003/04. Free cash flow, though difficult to predict with accuracy, is forecast at around (400) million.

We confirm our previously announced targets for fiscal year 2005/06: operating margin of 6% and positive free cash flow.

Related party agreements**Fourth resolution**

After review of the special report prepared by the statutory auditors, the shareholders will be requested in this resolution to approve the conclusions of such report on the absence of agreements to which article L. 225-38 of the French *Code de Commerce* applies during the past fiscal year.

Board of Directors Appointment of Directors**Fifth, sixth, seventh and eighth resolutions**

The composition of the Board of Directors has changed during the fiscal year. We remind you that the General Meeting of 2 July 2003 ratified the cooptation of Mr. Gérard Hauser as a Director for the remaining term of Mr. Bilger's mandate and that the General Meeting of 18 November 2003 approved the appointment of a new Director, Mr. James William Leng, for a four-year duration.

The mandates of Messrs Jean-Paul Béchat, Gérard Hauser and George Simpson will expire at the end of this Ordinary General Meeting, therefore the shareholders are requested in these fifth, sixth and seventh resolutions to approve the renewal of their mandates for a four-year duration until the end of the Shareholders' Meeting which shall approve the accounts for the fiscal year 2008.

Edgar Filing: ALSTOM - Form 6-K

We also remind you that Sir William Purves and Mr. Klaus Esser resigned from their position as Director during past fiscal year, effective 28 July and 31 December 2003 respectively.

We propose to complete the number of members of the Board of Directors by appointing in the eighth resolution Dr. Pascal Colombani for a four-year duration until the end of the Ordinary Shareholders Meeting which shall approve the accounts for the fiscal year 2008.

Ratification of the transfer of the registered office

Ninth resolution

The Board of Directors held on 25 May 2004 decided to transfer the registered office of ALSTOM from 25 avenue Kléber, 75016 Paris to 3 avenue André Malraux, 92300 Levallois-Perret and that this decision should be effective on 31 December 2004 at the latest. Pursuant to applicable laws, the shareholders will be requested in this resolution to ratify this decision.

Acquisition by the Company of its own shares

Tenth resolution

The authorisation, which the General Meeting of 2 July 2003 gave to the Company to acquire its shares, was not used during the course of the past fiscal year.

In order to provide flexibility to the Company, it is proposed in this resolution to cancel this former authorisation that shall expire at the end of this General Meeting and to renew it for a period expiring on the date of the General Meeting that will approve the financial statements for the fiscal year beginning on 1 April 2004.

This authorisation will allow the Company to acquire its own shares not only for stabilisation purposes or to allow sale and purchase of shares depending on the market, but also to allocate such shares to employees and management of the Group (in particular through stock option plans), to retain the shares acquired and, if need be, to sell, transfer or exchange the shares acquired in the context of any financial transaction (including the exercise of rights attached to securities), as well as in the context of the general and financial management of its share capital and shareholders equity, in particular with regard to its financing requirements. The shares may also be cancelled pursuant to the fifteenth resolution of the General Meeting of 2 July 2003.

The purchase, sale, transfer or exchange of these shares may be effected on or off the market, at any time, including during any take-over bid, and by any means, including through block transfer or the use or exercise of any financial instruments, derivative products and, particularly, through optional

transactions such as the purchase and sale of put and call options. These shares may also be transferred free of charge under the conditions specified by law, in particular articles L. 443-1 et seq. of the French *Code du Travail*.

The number of shares which may be purchased pursuant to the present authorisation cannot exceed 10% of the share capital as of 31 March 2004, i.e a theoretical maximum number of 105,665,757 shares.

We propose that the maximum purchase price of shares be fixed at 5 and that the minimum sale price be fixed at 1.

Authorisation to modify the terms of the fixed term subordinated bonds (TSDD) issued on 23 December 2003 to the benefit of the French Republic

Eleventh resolution

We remind you, that the TSDD have a fixed term of 15 years. In order to make the French Republic's debt enforceable in advance to implement the financing package presented in this report on the resolutions proposed to the Extraordinary Shareholders' Meeting, the eleventh resolution is asking you to approve the principle of changing the procedures for reimbursing the TSDD to allow this debt to be incorporated in the capital to pay up the subscription to a capital increase which would be subscribed by the French State, and to give all powers to the Board of Directors, with authorisation to delegate, to make the necessary modifications to the procedures for the TSDD in agreement with the French Republic.

Environmental and social information

Edgar Filing: ALSTOM - Form 6-K

Information given pursuant to article L 225-102-1 of the Code de Commerce:

ALSTOM, the parent company of the ALSTOM Group, has no employees and no industrial or commercial activity.

Fundamental Conventions of the International Labour Organisation. ALSTOM seeks to ensure compliance by its French and overseas subsidiaries of the fundamental Conventions of the International Labour Organisation, understood as:

equal opportunities and non-discrimination in the workplace (conventions 110 and 111),

freedom of association freedom to form unions or to adhere to unions and freedom to bargain collectively with employers (conventions 97 and 98),

child labour ban on employment of children under 15 years of age and under 18 years of age for high risk jobs (conventions 138 and 182),

forced labour ban on use of forced labour, slavery and use of imprisoned workers (conventions 29 and 105).

Our Code of Ethics is incorporated in the collection of the Group's policies and instructions (known as the e-Book) which is available through the Group's Intranet to all employees world-wide.

The Code of Ethics stipulates that all employees must comply with the laws, regulations and requirements relating to their job, location and environment and must avoid activities which would involve ALSTOM in any unlawful practice. Compliance with the policies and instructions contained in the e-Book is obligatory. An internal audit team routinely checks our Units throughout the world for compliance with the Corporate Instructions contained therein.

We believe therefore that in almost all countries in which the Group operates, the countries' labour law complies with fundamental ILO conventions, and that we respect these laws. In addition, the e-Book stipulates a policy of equal opportunity and non-discrimination in the workplace. We do not believe that any of our operations employ child or forced labour of any kind. However, some of the Group's operations may be run under jurisdictions which do not respect all ILO

conventions, such as freedom of association (conventions 97 and 98). So far, we have not introduced measures to ensure systematic monitoring of our suppliers' compliance with the fundamental ILO conventions listed above.

Impact of foreign subsidiaries operations on regional development and local populations. Our foreign subsidiaries take into account the impact of their operations on regional development and local populations principally through observance of the Group's environmental health and safety policy, which is monitored on a site by site basis. Impact on regional development in terms of employment is monitored and reported by our human resources network.

Foreign subsidiaries' environmental objectives. With respect to environmental objectives assigned to our foreign subsidiaries, all sites in principle monitor and measure performance on a wide range of such issues. Our Environment, Health and Safety (EHS) function has elaborated a road-map methodology which is used by external auditors to grade each site in terms of its performance. Our environmental management plan requires that each site measure its water, raw material and energy consumption and waste production. We assign target improvements in each of these areas as necessary.

We do not assign explicit objectives in respect of biological stability, natural environments or protected species of animals and wildlife, though some of our sites are involved in local initiatives to preserve local wildlife.

We do not assign objectives in respect of environmental certification. Our internal road-map methodology is based on a management system approach, linked to performance, each site complying with ALSTOM criteria being able to require and obtain certification if it is necessary for its activity.

This fiscal year we completed our technical assessment of the historic and actual environmental impact of ALSTOM's main manufacturing sites and introduced corresponding action plans which will be formally reviewed by each Sector to ensure strict follow up on progress.

In most of the jurisdictions in which we operate our industrial activities are subject to operating permits, licenses or/and authorisations and most must comply with these permits, licenses or authorisations and are subject to regular administrative inspections. Through our internal methodology, which is externally audited, we control each site's compliance in this respect, including operating units of our foreign subsidiaries.

We do not currently consolidate our expenditure on environmental impact prevention, but we believe that all our sites have adequate environmental management systems in place. Each site employs an environmental, health and safety manager responsible for allocating resources to the reduction of environmental risk and for reporting on and managing environmentally-damaging accidents, should such accidents arise. These environmental health and safety managers are trained on a regular basis, as are the Group's Unit Managing Directors.

Ø REPORT OF THE BOARD OF DIRECTORS ON THE EXTRAORDINARY PART OF THE GENERAL MEETING

Ø **Presentation of the resolutions proposed to the Extraordinary Shareholders Meeting**

Ø **Decisions following the loss for the fiscal year ended on 31 March 2004**

Twelfth and thirteenth resolutions

As a result of the loss of 1,341,046,460.19 recorded in the statutory accounts for fiscal year ending 31 March 2004, the shareholders' equity amounts to less than half the share capital, and you are therefore asked in the twelfth resolution, pursuant to the provisions of the French *Code of Commerce*, not to approve the early liquidation of the Company.

Following the appropriation of the loss for the fiscal year set forth in the third resolution, which resulted in a significantly negative balance carried forward, you are now being asked in the thirteenth resolution to reduce the share capital from 1,320,821,965.00 to 369,830,150.20 to offset a portion of the latter amount, and to implement this share capital reduction by reducing the nominal value of each share from 1.25 to 0.35.

The amount of the capital reduction may be adjusted at the meeting to take into account, if necessary, the repayment of shares, on the one hand, of fixed term subordinated bonds

Table of Contents

2 Report of the Board of Directors

(TSDD RA) which would occur automatically following the decision of the European Commission approving their repayment in shares and would result in a share capital increase of 300 million euros. The amount may also be adjusted to take into account the repayment in shares of the subordinated bonds repayable in shares (ORA). In the event all of the TSDD RAs and ORAs are reimbursed by shares, the amount of the capital would be 1,756,736,285 prior to capital reduction and

491,886,159.80 following capital reduction.

Ø New financial authorisations

Fourteenth, fifteenth and sixteenth resolutions

We remind you that the resolutions approved by the Extraordinary General Shareholders Meeting held on 18 November 2003, to implement the refinancing agreement signed with the banks and the French Republic on 20 September 2003, have been used, namely:

- n authorisation to increase the share capital reserved for certain financial institutions and to allocate free stock options to shareholders, giving them the right to purchase the Company shares subscribed by these financial institutions,
- n authorisation to issue subordinated bonds, reimbursable by shares, retaining the shareholders preferential right of subscription (ORA),
- n authorisation to issue fifteen-year fixed term subordinated bonds (TSDD) to be subscribed by the French Republic;
- n authorisation to issue twenty-year fixed term subordinated bonds reimbursable by shares (TSDD RA) to be subscribed by the French Republic, entitling the French Republic to have a stake in the Company, if a favorable decision is rendered by the European Commission.

The European Commission has opened a formal investigation to determine whether the financing package contains elements constituting state assistance incompatible with the Common Market, and its decision should be made at the end of June 2004. If the Commission concludes that it does not contain elements constituting state assistance incompatible with the Common Market, the Commission will authorise the reimbursement of the TSDD RAs held by the French Republic by shares.

After reimbursement of all TSDD RAs with shares, the French Republic would own approximately 18.5% of the share capital based on the amount of capital on 31 March 2004, and approximately 17% of the share capital if all the ORAs are converted into shares.

In this case, the French Republic would be represented on the Board of Directors of the Company pursuant to applicable laws and regulations.

The acceleration of the industrial restructuring measures and the upswing in orders have led to open discussions between the Company, the banks and the French Republic for the purpose of modifying the initial agreement on financing presented to the European Commission, which is currently being negotiated.

Edgar Filing: ALSTOM - Form 6-K

The European Commission should reach a decision on the amended initial financing package being discussed before the end of June 2004 and its approval is a prior condition necessary for the implementation of the amended refinancing plan which aims to set up a new program to issue guarantees required for the Group's business activities, strengthen its equity capital and reduce the Company's debt.

On the basis of the negotiations as of today, the refinancing plan as amended, would consist of:

n setting up an extended program to issue guarantees for at most 8 billion euros, that would benefit from a guarantee for a total maximum amount of 2 billion euros including a collateral security issued by the Company for 700 million euros, and guarantees from a financial institution guaranteed by the French Republic, and from a group of banks; the Company's collateral would be financed by the capital increase described below,

n a capital increase for a total amount, issue premium included, of 2.2 billion euros, consisting of:

a capital increase by a share issue for a maximum amount of 1.2 billion euros, including issue premium, retaining the shareholders preferential subscription rights, in which the French Republic would participate by exercising, on an irreducible basis, all of its preferential subscription rights resulting from the reimbursement in shares of its TSDD RAs, up to a limit of 18.5% of 1 billion euros (percentage calculated based on the capital as of 31 March 2004),

Table of Contents

2 Report of the Board of Directors

a capital increase for a maximum of 500 million euros, including issue premium, that would be reserved for the French Republic and the CFDI, payable by offsetting the Company's debts under the TSDD for the French Republic, and under the fixed term subordinated loan dated 30 September 2003 (PSDD) for the CFDI,

a capital increase for a total of 700 million euros, including issue premium, that would be reserved for creditors other than the CFDI in respect of the revolving syndicated credit dated 3 August 2001 (the Syndicated Credit), the loan dated 18 August 2000, and the PSDD, payable by offsetting all or part of the Company's debts under the terms of these agreements.

The French Republic's participation in these operations is subject to the approval of the European Commission and the French Republic's stake in the Company's share capital following the implementation of this plan would at no time exceed 31.5% of the Company's share capital and voting rights.

Notification of the decision by the European Commission on this plan which terms and conditions are currently being negotiated, is expected for the end of June 2004.

On this basis, and subject to the approval by the European Commission, we submit to your approval resolutions which would allow the implementation of the plan by authorising the Board of Directors to make use of the authorisations set forth in the fourteenth, fifteenth and sixteenth resolutions, as soon as possible after the Shareholders' Meeting, subject to market conditions.

Implementation of this plan (with the exception of the capital increase with preferential subscription rights) is also subject to obtaining the necessary approval from the lenders for the financial commitments described above.

These three resolutions constitute an indissociable whole.

Fourteenth resolution

The fourteenth resolution therefore asks you to authorise the Board of Directors, for a period of one year from the General Shareholders Meeting, to issue shares in the Company, retaining the shareholders' preferential subscription rights, up to the limit of a maximum capital increase of 1.2 billion euros, including the issue premium.

The subscription price will be set when the decision is taken to go ahead with the issue and will include a discount on the market price, set according to market practices.

Edgar Filing: ALSTOM - Form 6-K

This authorisation is subject to the condition precedent that the Board adopts the twelfth (pursuing the business activity), thirteenth (reducing the capital by reducing the nominal value), fifteenth (capital increase reserved to lenders other than the French Republic and the CFDI, presented below) and the sixteenth (capital increase reserved to the French Republic and the CFDI, presented below) resolutions.

Fifteenth and sixteenth resolutions

The next two resolutions ask you to authorise operations allowing a portion of the Company's medium and long term debts resulting from the implementation of the financing agreement drawn up in September 2003 and the revolving syndicated credit of August 2001 to be converted into Company shares to strengthen shareholder equity and reduce the Company's debt.

The total capital increase including issue premium that may result from these two resolutions would be 1.2 billion euros, it being understood that the total amount of capital increases that would result from the fourteenth, fifteenth and sixteenth resolutions could not be in excess of 2.2 billion euros issue premium included. Moreover, if the amount of the capital increase that would result from the fourteenth resolution would exceed 1 billion euros, issue premium included, the maximum amount of the capital increases, issue premium included, that may result from the use of the fifteenth and sixteenth resolutions would be reduced accordingly.

Therefore the fifteenth resolution asks you to authorise the Board of Directors for a period of one year from the date of the General Shareholders Meeting, to issue shares in the Company up to a maximum nominal amount of 700 million euros, including the issue premium, which could lead to the issue of a maximum number of 2 billion shares with a nominal value of 0.35 each, after reduction of the nominal value pursuant to the thirteenth resolution, and to waive the shareholders' preferential subscription rights for the benefit of the category of persons made up of lenders (apart from CFDI)

Table of Contents

2 Report of the Board of Directors

(the Lenders) for (i) the subordinated credit agreement for 1,563,399,105, entered into on 30 September 2003; (ii) the Multicurrency Revolving Credit Agreement dated 3 August 2001, and (iii) the 200 million euros credit facility dated 18 August 2000, whose receivable(s) pursuant to one or other of the agreements will be enforceable early.

The shares may only be paid up by being offset against the Company's debts pursuant to these credit agreements as long as they are certain, payable and due on the day planned for subscribing to the capital increase, which will be the subject of a statement of account certified as accurate by the Statutory Auditors.

The early maturity of the junior loans and converting them into Company shares are conditional upon obtaining the prior consent of the lenders who hold the senior loans under the conditions set forth in these agreements.

The total number of the shares actually issued pursuant to this resolution will result from the issue price to be set by the Board of Directors.

The issue price of the shares issued pursuant to this resolution would be between 125% to 135% (inclusive) of the issue price of the shares issued in the share capital increase pursuant to the fourteenth resolution and would be fixed after consideration of the theoretical ex-right price for the share calculated on the basis of the last quoted prices for the share prior to the day of the fixation of this price. In addition, this price shall be equal to the issue price of the shares issued pursuant to the sixteenth resolution.

This authorisation is subject to the condition precedent that the Board adopts the twelfth (pursuing the business activity), thirteenth (reducing the capital by reducing the nominal value), fourteenth (increasing capital with preferential subscription rights) and the sixteenth (capital increase reserved to the French Republic and the CFDI, presented below) resolutions.

The sixteenth resolution asks you to authorise the Board of Directors, for a period of one year from the date of the General Shareholders Meeting, to issue shares in the Company up to a total maximum amount of 500 million euros, including the issue premium, which could lead to the issue of a maximum number of 1,428,571,428 shares with a nominal value of 0.35 each, after reduction of the nominal value pursuant to the thirteenth resolution, and to eliminate the shareholders' preferential right, to the benefit of:

- n the French Republic in its capacity as holder of fixed term subordinated bonds for a maximum total amount of 200 million euros, including the issue premium, which could lead to the issue of a maximum number of 571,428,571 shares with a nominal value of 0.35 each, which it subscribed in December 2003 (the TSDD),
- n the CFDI, for a maximum total amount of 300 million euros, including the issue premium, which could lead to the issue of a maximum number of 857,142,857 shares with a nominal value of 0.35 each, for the subordinated loan signed with the Company for 1,563,399,105 (the PSDD) on 30 September 2003.

It is stipulated that the shares that would be subscribed by the CFDI pursuant to this authorisation would be transferable, upon their subscription, to the French Republic.

Edgar Filing: ALSTOM - Form 6-K

The total number of the shares actually issued pursuant to this resolution will be a result of the issue price set by the Board of Directors.

The issue price for the shares issued pursuant to this resolution would be between 125% to 135% (inclusive) of the issue price of the shares issued in the share capital increase pursuant to the fourteenth resolution and would be fixed after consideration of the theoretical ex-right price for the share calculated on the basis of the last quoted prices for the share prior to the day of the fixation of this price. In addition, this price shall be equal to the issue price of the shares issued pursuant to the fifteenth resolution.

These shares may only be paid up by being offset against the Company's debt to the French Republic under the TSDD, and to the CFDI under the PSDD, if these debts would be due on the day set for subscribing to the share capital increase, which would be the subject of a statement of account certified as accurate by the Statutory Auditors.

It should be noted that these TSDD have a fixed term of 15 years, and that the PSDD has a fixed term of 20 years.

2 Report of the Board of Directors

To make the Company's debt to the French Republic due in advance, the eleventh resolution is asking you to approve the principle of changing the procedures for reimbursing the TSDDs to allow this debt to be incorporated in the capital, and to give all powers to the Board of Directors, with authorisation to delegate, to make the necessary modifications to the procedures for the TSDD in agreement with the French Republic.

The early maturity of the TSDDs and the PSDDs and their conversion into Company capital is conditional upon prior approval, by the European Commission, and also by the Company's creditors who are party to the agreements referred to in the fifteenth resolution above, pursuant to the conditions set forth in these agreements.

We remind you, moreover, that if the French Republic and the CFDI were shareholders of the Company, they could not take part in the vote of this resolution.

This authorisation is subject to the condition precedent that the Board adopts the twelfth (pursuing the business activity), thirteenth (reducing the capital by reducing the nominal value), fourteenth (increasing capital with preferential subscription right), and the fifteenth (increasing capital reserved to lenders other than the French Republic and the CFDI) resolutions.

You are being asked to give full powers to the Board of Directors, with the right to subdelegate under the conditions set by law, and up to the limits set out above, to implement these authorisations, and in particular, to set the issue price of the shares, which will be identical for the fifteenth and sixteenth resolutions, to establish the statement of account provided for in Article D 166 of decree No. 67-236 of 23 March 1967, to pay up the subscription to the capital increases by offsetting them against certain, payable and due debts, and to establish for the fifteenth resolution the list of beneficiaries that will subscribe to the capital increase and the amount to be subscribed by each of them.

When the Board of Directors decides to use these authorisations, in accordance with the provisions of Article 155-2 of the decree of 23 March 1967, the final conditions for the operations, as well as their effect on the shareholder's position and the stock price, will be the subject of additional reports by the Board of Directors and the Statutory Auditors.

Ø Renewing financial authorisations

Seventeenth and eighteenth resolutions

Pursuant to legal requirements, the proposals for the capital increase made to you in the preceding resolutions mean we are also asking you in the seventeenth resolution to renew the authorisation for capital increases reserved for group employees entrusted to the Board by the eighth resolution of the Ordinary and Extraordinary Shareholders' Meeting held on 18 November 2003, even though this has not been used and is still in force.

Edgar Filing: ALSTOM - Form 6-K

Therefore the seventeenth resolution asks you to cancel the earlier resolution, and replace it by authorising your Board, for 26 months, to increase the capital by issuing shares or other securities giving access to the capital up to a nominal amount of 66,040,000 (excluding adjustments), reserved for the members of a savings plan for the employees of the Company and its subsidiaries, who may subscribe to it, in accordance with applicable regulations, directly or indirectly through a mutual fund. For the benefit of these members, we are asking you to waive the shareholders' preferential rights to subscribe to the shares and securities giving access to the capital, which may be issued based on this authorisation.

The subscription price of the shares issued, in accordance with current regulations, may not be lower than 20% of the average listed price in the twenty trading days preceding the day the decision is made setting the subscription opening date, nor higher than this average. The free allocation of shares or other securities giving access to the Company's capital may also be offered.

In the event your Board decides to use this authorisation in accordance with the provisions of Article 155-2 of the decree of 23 March 1967, the final conditions for the operations, as well as their effect on the shareholders' situation and the stock price, would be the subject of additional reports by the Board of Directors and the Statutory Auditors.

The eighteenth resolution is asking you to cancel the unused amount of the authorisation granted by the General Shareholders' Meeting of 24 July 2001, which will expire at the end of September 2004, and renew it by authorising your Board, for 38 months, to allocate to those members which it designates from amongst the employees and corporate officers of the Company and companies or economic interest

groupings associated with it, pursuant to the terms of Article L. 225-180 of the Commercial Code, options to subscribe or purchase shares in the Company up to a total number of options granted pursuant to this authorisation, which may not give the right to subscribe or purchase a number of shares exceeding 5% of the share capital at the date the options are allocated, taking into account the options already allocated pursuant to this authorisation which may be but have not yet been exercised.

The subscription or purchase price of the shares may not be less than the average of the opening prices listed during the twenty trading days preceding the day on which the options are granted. Furthermore, the purchase price of existing shares may not be less than the average price at which the shares were purchased by the Company.

Ø Amendments to the By-Laws

Nineteenth and twentieth resolutions

We ask you to approve the nineteenth resolution to bring the By-Laws into compliance with Financial Security Law No. 2003-706 of 1 August 2003. Pursuant to the new provisions in the law, changes have been made to the period of time, reduce to five days, granted to inform the Company if statutory thresholds have been exceeded, and there are new rules on exceeding the maximum number of Directors, on Directors information, the authority of the Chairman of the Board of Directors, the conditions for reappointing the statutory auditors, and their attendance at meetings of the Board of Directors.

The twentieth resolution is asking you to amend Article 15 of the By-Laws, to comply with the provisions of Art. 136 of the decree of 23 March 1967, as amended by Art. 38-II of the decree of 3 May 2002, on deadlines for shareholders to send in documents canceling their votes or changing the number of votes.

Finally, the twenty-first and last resolution asks you to grant full powers to allow legal decisions by the General Shareholders Meeting to be implemented and the necessary formalities completed.

NOTES TO THE FINANCIAL STATEMENTS

Ø Note 1 Basis of preparation

ALSTOM (the Company) is a *société anonyme* organised under the laws of France and prepares its financial statements using accounting principles generally accepted in France.

The Company, in preparing the financial statements has taken into account the matters set out hereafter:

n the Financing Package negotiated in September 2003 resulted in a new set of financial covenants which are set out in Note 9.

As at 31 March 2004, the Group would have failed to comply with those covenants related to consolidated net worth and EBITDA .

Accordingly, the Group obtained agreement from its lenders to suspend the covenants it had previously negotiated until 30 September 2004,

n the Group obtained bonding and guarantee facilities as a result of the Financing Package agreed in September 2003 of 3,500 million euros, of which 65% was guaranteed by the Republic of France. This facility was sufficient to meet approximately one year of orders and is now expected to be used during the summer 2004. The Group has entered into discussions with certain of its main banks to secure access to contract bonding and guarantee facilities,

n the approval of the European Commission for the Financing Package announced on 22 September 2003 remains outstanding.

Having considered the matters set out above, the Company has concluded the applicability of the fundamental accounting principles, including the going concern, cut-off between accounting periods and consistency of accounting principle is the appropriate basis of preparation for these financial statements on the assumption that it will be able to:

n secure contract bonding and guarantee facilities to meet its normal business activity,

n successfully negotiate new covenants with its lenders,

n obtain all necessary approvals from the European Commission,

n

generate operating income and cash flow sufficient to respect covenants or waivers being granted, thus ensuring continued availability of debt financing.

Ø Note 2 Summary of accounting policies

a) Summary of accounting policies

The accounts as of 31 March 2004 have been prepared in accordance with the provisions of the French Law dated 30 April 1983, pursuant to French decree dated 29 November 1983 and of the French General Accounting Rules 1999 as described by French CRC regulation 99-03 dated 21 September 1999.

b) Investments and advances

Investments are recorded at direct acquisition cost. Any additional costs are recorded as expenses to be amortised over a five-year period.

When the valuation of the investment and advances is lower than the book value, a provision is recorded to cover the difference. The year end valuation is made on the basis of current use value defined as the value of the investment to the Company employing a number of valuation methods, including return on assets, fair value and other methods, as appropriate.

c) Capital increase

Share capital is recorded at the nominal share price. If a difference exists with the effective cash received this difference is recorded in Capital surplus line (shares premium minus costs). In the case of no share premium exists, costs are recorded as intangible fixed assets which are amortised over a period of five years.

d) Borrowings

Borrowings are recorded at the nominal value. Borrowings costs are recorded as expenses to be amortised over the duration of the borrowings (five years maximum).

e) Exchange operations

There were no specific foreign exchange operations during fiscal year 2003-2004 other than in the ordinary course of business.

f) Financial instrument

Financial instruments (swaps) are used to cover interest rate risks on bonds and other long-term debt.

g) Tax consolidation

The Company is the leader of the French Tax group in France, and any tax savings are recorded in its books.

Ø Note 3 Main events

The share capital has been increased during the period (see Note 6 to the Balance Sheet) after it had been reduced according the Extraordinary Shareholders Meeting held on the 2 July 2003 motivated by losses during the fiscal year 2002/2003.

Advances to ALSTOM Holdings have been depreciated during this year by 1,400 million euros reflecting the modification of the Group valuation according to its consolidated shareholders equity.

NOTES TO THE BALANCE SHEET

Ø Note 1 Intangible fixed assets

Intangible fixed assets include costs related to the capital increase done at the nominal share price. These costs are amortised over a duration of five years. Amortisation is recorded at operating level.

Gross amount : 6.9 million euros

Net amount : 5.5 million euros

Ø Note 2 Financial assets

ALSTOM Holdings is the only subsidiary of ALSTOM. It owns all operating entities of the group. Gross financial assets that correspond to the shares of ALSTOM Holdings amount to 6,553.5 million euros and ALSTOM Holdings advances of 6,094.6 million euros, including 46.9

million euros as accrued interest.

7,573.7 million euros provision had been recorded last year affected to the investment (6,553.5 million euros) and ALSTOM Holdings' advance of 1,020.2 million euros (see last year accounts note 1 to the balance sheet).

1,400.0 million euros provision has been recorded affected to ALSTOM Holdings' advance.

The write-down of ALSTOM Holdings' shares and advances made to ALSTOM Holdings follows an impairment test, the necessity of which was triggered by the conjunction of a number of factors including the following :

- n significant continuous reduction of ALSTOM's share price during fiscal year 2002/03 and 2003/04,
- n losses during the previous year 2002/03 of 1.43 billion euros suffered by subsidiaries in connection with additional provisions, including the GT24/GT26 gas turbines issues,
- n losses during the year 2003/04 of 1.84 billion euros suffered by ALSTOM group due to high financial loss, low level of operating income, costs of restructuring operations and valuation allowances against deferred tax assets.

A valuation was performed combining internal and external valuation studies of the Group. The methodology aimed at measuring the enterprise value of the Group through consolidated discounted cash flows from which consolidated financial debt, pensions provisions, unrecognised actuarial net losses and consolidated financial debt of special purpose vehicles in which the Group has some interest have been deducted.

Discounted cash flows were derived from the ALSTOM Three Year Plan to obtain a ten-year projection to which an estimated residual value has been added.

Such evaluation of the ALSTOM Group approximates the value in use of ALSTOM Holdings' investments and its advances, the Company's only subsidiary, which owns all operating subsidiaries of the Group.

Only the part A was drawn at 31 March 2004,

n 721.5 million euros, as part of a 2006 Multicurrency Revolving Credit Agreement.

As part of the financing package, the Company issued 200 million euros of subordinated bonds with a 15-year maturity to the French State (TSDD or *Titres Subordonnés à Durée Déterminée*). These subordinated bonds are carrying an interest rate of Euribor plus 5%, of which 1.5% are capitalised annually and paid upon reimbursement.

The Company also issued 300 million euros of subordinated bonds with a 20-year maturity to the French State, which will be automatically reimbursable with shares upon the approval by the European Commission (TSDD RA or *Titres Subordonnés à Durée Déterminée Remboursables en Actions*). These subordinated bonds are carrying an interest rate of 2% until a decision of the European Commission is obtained. If the decision is negative the rate will be adjusted to Euribor plus 5% of which 1.5% will be capitalised annually and paid upon reimbursement. The issue price for bonds will be 1.25, and

each will be reimbursable with one share, subject to anti-dilution adjustments.

The subordinated debt facility and the 2006 Multicurrency Revolving Credit Agreement are subject to new financial covenants amending the ones applicable at 31 March 2003.

Under this agreement, upon the occurrence and continuation of events that qualify as events of default (or early repayment events), the lenders may cancel all commitments and declare all outstanding amounts to be immediately due and payable. On the basis of the Consolidated Financial Statements as of 31 March 2004, the Group would have failed to comply with the financial covenants Consolidated net worth and EBITDA described below. In late April 2004, the Group obtained an agreement from its lenders to suspend these covenants until 30 September 2004 and expects to negotiate new financial covenants before this date.

Auditors Report

We draw your attention to the new requirement under the French Financial Security Act of 1 August 2003 that auditors must explain their assessments in their reports on the financial statements of all French companies. Such explanations, that have no equivalent in other financial markets, are required for all reports, whether or not qualified

INDEPENDENT AUDITORS REPORT*

Year ended 31 March 2004

To the shareholders of ALSTOM,

In accordance with our appointment as independant auditors by your Annual General Meeting, we hereby report to you, for the year ended 31 March 2004 on:

the audit of the accompanying financial statements of ALSTOM, established in euros,

the justification of our assessments,

the specific procedures and disclosures required by law.

These financial statements have been approved by the Board of Directors. Our role is to express an opinion on these financial statements, based on our audit.

I. Opinion on the Financial Statements

We conducted our audit in accordance with professional standards applicable in France. Those standards require that we plan and perform our audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Edgar Filing: ALSTOM - Form 6-K

In our opinion, the financial statements give a true and fair view of the financial position and the assets and liabilities of the Company as at 31 March 2004, and the results of its operations for the year then ended in accordance with French accounting principles.

Without qualifying our opinion, we draw your attention to the fact that the statutory financial statements have been prepared assuming that ALSTOM will continue as a going concern. ALSTOM has incurred significant losses and a high level of indebtedness as a result of which its ability to meet its financial needs depends on the successful outcome of the negotiations currently on-going with its main banks and on the obtention of approvals of the European Commission as described in Note 1 - Basis of preparation of the statutory accounts. The capacity of ALSTOM to continue to have access to bonding facilities, which is necessary to obtain new orders, is also conditional on the favorable outcome of those negotiations as described in the Note 1. We also draw attention on the fact that, as described in the Notes 1 and 9.b, the ALSTOM banks have suspended until 30 September 2004 the covenants related to existing credit lines, pending the outcome of current negotiations. The statutory financial statements do not include any adjustments to assets and liabilities that may possibly result from a negative outcome to the uncertainty related to going concern arising through the matters described above.

II. Justification of our assessments

In accordance with the requirements of article L.225-235 of the French Company Law (Code de Commerce) relating to the justification of our assessments, introduced by the Financial Securities Act of 1 August 2003 and which came into effect for the first time this year, we bring to your attention the following:

As indicated in the Notes to the financial statements, the valuation of investments can lead to the recognition of a provision when the value in use, determined through a number of valuation methods, is lower than the book value, or when the conjunction of a number of factors triggers the necessity of an impairment test (Note 2b - Summary of accounting policies - Investments and advances).

We have taken note of the assumptions and the methodology used to perform the impairment test as described in Note 2 - Balance sheet - Financial Assets - and the reports prepared by a third party valuer and used by your Company to assess the enterprise value of the ALSTOM Group, as well as the value in use of investments and related accounts held by Alstom Holdings, since Alstom Holdings holds directly or indirectly all the subsidiaries within the Group. In addition, we have compared the data used by the valuer with ALSTOM's forecasts.

The assessments were made in the context of our audit of the financial statements, taken as a whole, and therefore contributed to the formation of the unqualified opinion expressed in the first part of this report.

III. Specific Procedures and Disclosures

We have also performed the other procedures required by law, in accordance with professional standards applicable in France.

We have no comment to make as to the fair presentation and consistency with the financial statements of the information given in the management report of the Board of Directors and in the documents addressed to the shareholders with respect to the financial position and the financial statements.

Edgar Filing: ALSTOM - Form 6-K

In accordance with the law, we verified that all the information relating to share investments, controlling interests and the identity of the shareholders has been included in the Director's report.

We inform you that, because of losses incurred, the shareholders' equity of your Company is, as at 31 March 2004, below half of the share capital. In conformity with the article L. 225- 248 of the French « Code de Commerce », an extraordinary shareholders' meeting must be held, at the latest four months after the approval of the financial statements, in order to vote on the dissolution of your Company. If such resolution is not voted, we inform you that your company will have to reconstitute its shareholders' equity at a level at least equal to half of the share capital before 31 March 2007.

We conducted our work in accordance with French professional standards. AUDITORS SPECIAL REPORT ON THE PROPOSED ISSUE OF SHARES WITH THE WAIVER OF A PREFERENTIAL SUBSCRIPTION RIGHT FOR THE BENEFIT OF THE CREDITORS (APART FROM THE CFDI)*

(Fifteenth Resolution)

To the Shareholders of ALSTOM,

In our capacity as independent auditors of your Company and in accordance with the provisions set forth in Article L. 225-135 of the French Company Law (*Code de Commerce*), we present our report related to the proposed issue of shares, in a one-time increase in the Company's share capital, issue premium included, for an amount corresponding to a maximum of 2 billion shares with a nominal value of 0,35 each, following the reduction of the nominal value as set forth in the thirteenth resolution, reserved to the creditors, apart from the CFDI, under (i) the subordinated loan agreement for 1 563 399 105 signed on 30 September 2003; (ii) the *Multicurrency Revolving Credit Agreement* of 3 August 2001, and (iii) the credit agreement for 200 million euros dated 18 August 2000, whose receivable(s) pursuant to one or other of the agreements will be enforceable early.

This resolution forms a part of the overall financing package of your Company described in the report of your Board of Directors. This authorisation, which is submitted for your approval, is subject to the adoption of the other operations submitted to your vote (as specified in the twelfth, thirteenth, fourteenth, and sixteenth resolutions of this Ordinary and Extraordinary Meeting).

The total capital increase (issue premium included) proposed pursuant to the fifteenth resolution, subject of this report, is limited to 700 million euros, the total amount of capital increases resulting from the adoption of the fourteenth, fifteenth and sixteenth resolutions being limited to 2.2 billion euros. Moreover, if the amount of the capital increase that would result from the fourteenth resolution would exceed 1 billion euros, issue premium included, the maximum amount of capital increases, issue premium included, that may result from the use of the fifteenth and sixteenth resolutions would be reduced accordingly to respect the 2.2 billion euros limit.

These shares may only be paid up by being offset against the Company's debts pursuant to these credit agreements as long as they are certain, payable and due on the day planned for subscribing to the capital increase, which will be subject of a statement of account certified as accurate by the independent auditors.

The early maturity of the junior loans and converting them into Company shares are conditional upon obtaining the prior consent of the lenders who hold the senior loans under the conditions set forth in these agreements.

The issue price of the shares issued pursuant to the present resolution will be between 125% to 135% of the issue price of the shares issued in the share capital increase pursuant to the fourteenth resolution and will be fixed after consideration of the theoretical ex-right price for the share calculated on the basis of the last quoted prices for the share prior to the day of the fixation of this price. In addition, this price shall be equal to the issue price of the shares issued pursuant to the sixteenth resolution.

Edgar Filing: ALSTOM - Form 6-K

The Board of Directors proposes, on the basis of its report to you, to delegate to it full powers, with the right to sub-delegate under the conditions set by law, and up to the limits set out above, to implement this authorisation, and in particular to set the issue price of the shares, which will be identical for the fifteenth and sixteenth resolutions, to establish the statement of account pursuant to the provision of article D 166 of the Decree n° 67-236 of 23 March 1967, and to pay up the subscription to the capital increases by offsetting them against certain, payable and due debts.

The total number of shares actually issued pursuant to this resolution will be determined based on the issue price fixed by the Board of Directors.

This authorisation cancels the authorisation granted to the Board of Directors by the shareholders' meeting of 18 November 2003.

We have performed our work according to the French professional auditing standard applicable to such engagements. These standards require that we perform the procedures necessary to verify the methods used for determining the issue price.

Subject to a subsequent examination of the conditions for the proposed increase in capital, we have nothing to report on the methods used for determining the share price provided in the Board of Directors' Report.

As the issue price has not yet been determined, we do not express an opinion on the final conditions for the increase in capital, and, consequently, on the proposed waiver of the preferential subscription rights, the principal of which is, however, inherent to the operation submitted for your approval.

Pursuant to the provisions of article 155-2 of the Decree of 23 March 1967, we will issue a further report when the Board of Directors proceeds with this share issue.

The total capital increase (issue premium included) proposed pursuant to the sixteenth resolution, subject of this report, is limited to 500 million euros, the total amount of capital increases resulting from the adoption of the fourteenth, fifteenth and sixteenth resolutions being limited to 2.2 billion euros. Edgar Filing: ALSTOM - Form 6-K

We remind you that these TSDD have a fixed term of 15 years, and that the PSDD has a fixed term of 5 years. To make the Company's debt to the French Republic due in advance, the eleventh resolution is asking you to approve the principle of changing the procedures for reimbursing the TSDDs to allow this debt to be incorporated in the capital up to the French Republic subscription to the capital increase, and to give all powers to the Board of Directors, with authorisation to delegate, to make the necessary modifications to the procedures for the TSDD in agreement with the French Republic.

The early maturity of the TSDDs and the PSDDs and their conversion into Company capital is conditional upon prior approval, by the European Commission, and also by the Company's creditors who are party to the agreements referred to in the fifteenth resolution, pursuant to the conditions set forth in these agreements.

The total number of shares actually issued pursuant to this resolution will be determined based on the issue price fixed by the Board of Directors.

In addition, this price shall be equal to the issue price of the shares issued pursuant to the fifteenth resolution.

We remind you, moreover, that if the French Republic and the CFDI were shareholders of the Company, they could not take part in the vote of this resolution.

The Board of Directors proposes on the basis of its report to you to delegate to it full powers, with the right to sub-delegate under the conditions set by law, and up to the limits set out above, to implement this resolution, and in particular to set the issue price of the shares, which will be identical for the fifteenth and sixteenth resolutions, to establish the statement of account pursuant to the provision of article D 166 of the Decree n° 67-236 of 23 March 1967, to pay up the subscription to the capital increases by offsetting them against certain, payable and due debts, and to establish for this resolution the list of beneficiaries that will subscribe to the capital increase and the amount to be subscribed by each of them.

We have performed our work according to the French professional auditing standard applicable to such engagements. These standards require that we perform the procedures necessary to verify the methods used for determining the issue price.

We have performed our work according to the French professional auditing standard applicable to such engagements. These standards require that we perform the procedures necessary for the purpose of examining the criteria selected for the calculation of the issue price.

Subject to our subsequent examination of the terms of the proposed issue, we have no comment to make as to the criteria selected for the calculation of the issue price as set out in the report of the Board of Directors.

As the issue price has not yet been set, we are not able to provide an opinion on the definitive conditions of the issue and, as a result, on the related proposal to waive your preferential subscription rights, which in theory, would appear reasonable in the context of such operation.

AUDITORS SPECIAL REPORT ON THE STOCK OPTION SUBSCRIPTION RESERVED FOR SELECTED EMPLOYEES AND CORPORATE OFFICERS*

(Eighteenth Resolution)

To the Shareholders of ALSTOM,

In our capacity as independent auditors of your Company and in compliance with the provisions set forth in Article L. 225-177 of the French *Code de Commerce* and Article 174-19 of the Decree of 23 March 1967, we present our report on the stock option subscription reserved for selected employees and corporate officers.

The report on the reasons for the stock option plan and on the proposed methods used for determining the subscription or purchase price is the responsibility of the Company's Board of Directors. Our responsibility is to express an opinion on the proposed methods for determining the subscription or purchase price.

We have performed our work according to the French professional standards applicable to such engagements. These standards require that we perform the necessary procedures to verify the methods proposed for determining the subscription or purchase price are included in the Board of Directors' report, are in accordance with legal requirements, are of information to the shareholders and do not appear manifestly inappropriate.

The total number of options granted pursuant to this authorisation may not give the right to subscribe or purchase a number of shares exceeding 5% of the share capital at the date the options are allocated, taking into account the options already allocated pursuant to this authorisation which may be but have not yet been exercised.

This authorisation cancels the authorisation granted to the Board of Directors by the shareholders' meeting of 24 July 2001.

We have nothing to report on the methods proposed.

Thirteenth resolution

(Reduction in the share capital due to losses, implemented by a reduction in the nominal value of the shares, and related amendments to the By-laws)

Voting according to the quorum and majority rules for Extraordinary General Meetings, after reviewing the Board of Directors' report and the special statutory auditors' report, pursuant to the French Commercial Code, particularly its article L.225-204, the shareholders:

1. note that the accounts for the fiscal year ended on 31 March 2004 approved pursuant to the first resolution hereabove, show losses of 1,341,046,460.19, which after being offset against total premiums recorded in the Company's balance sheet, by the General Meeting pursuant to the third resolution hereabove, result in a negative balance carried forward of 1,289,913,214.56;
2. decide to reduce the share capital by an overall nominal amount of [950,991,814.80⁽¹⁾], thereby reducing it from [1,320,821,965.00⁽¹⁾ to [369,830,150.20⁽¹⁾] to offset part of the losses recorded in the item balance carried forward in the Company balance sheet after appropriating the income for the fiscal year ended on 31 March 2004, amounting to [950,991,814.80⁽¹⁾], which then gives a negative balance carried forward of [338,921,399.76]

7 Text of the resolutions submitted to the Shareholders Meeting

3. decide to implement this reduction in the share capital by reducing the nominal value of each share from 1.25 to 0.35;
4. as a consequence of this reduction in the share capital, decide to amend Article 6 of the By-laws as follows:

Article 6 Share capital

The share capital is set at [three hundred and sixty nine million eight hundred and thirty thousand, one hundred fifty euros and twenty cents][(369,830,150.20)]⁽¹⁾

It is divided into [1,056,657,572]⁽¹⁾ shares, each with a nominal value of 0.35, of a single class and fully paid up.

The share capital may be increased in accordance with the Law from time to time.

5. give full powers to the Board of Directors to take any necessary measures following the share capital reduction.

(1) The figures into square brackets will be adjusted during the Shareholders Meeting to take into account, if necessary, on the one hand the repayment in shares of the fixed term subordinated bonds (TSDD RA) which will occur automatically following the decision of the European Commission approving their repayment in shares and will result in a share capital increase of a nominal amount of 300 million euros. The figures will also be adjusted to take into account the reimbursement in shares of the subordinated bonds repayable in shares (ORA). In the event all the TSDD RAs and ORAs are reimbursed in shares, the amount of the share capital would be 1,756,736,285 prior to capital reduction and 491,886,159.80 following capital reduction.

Fourteenth resolution

(Authorisation to the Board of Directors to increase the Company share capital by a maximum of 1.2 billion euros, issue premium included, by issuing new shares retaining the preferential subscription rights for existing shareholders, subject to this Meeting adopting the twelfth, thirteenth, fifteenth and sixteenth resolutions)

Edgar Filing: ALSTOM - Form 6-K

2. decide that the total capital increase, issue premium included, may not exceed 1.2 billion euros, plus, if applicable, the nominal value of the shares to be issued, to preserve the rights of holders of securities giving access to the Company's share capital in accordance with legal and regulatory requirements and contractual stipulations; the total number of shares actually issued pursuant to this authorisation will be determined based on the issue price fixed by the Board of Directors;
3. decide that the issue price of the shares that may be issued pursuant to the present authorisation as fixed by the Board of Directors, must be fully paid up at the time of subscription;
4. decide that the shareholders will receive an irreducible preferential subscription right, under the terms required by law, for the shares that may be issued pursuant to the present authorisation. Also, under the terms required by law, the Board of Directors will have the option of giving shareholders the right to subscribe on a reducible basis to a number of shares in excess of the number they may subscribe to on a non-reducible basis.

If the subscriptions made on a non-reducible basis and, if applicable, on a reducible basis, do not cover the whole issue, under the terms required by law and in the order that it shall determine, the board may use one or more of the following options:

freely allocate all or part of the unsubscribed shares to anyone it chooses,

3. decide that the issue price of the shares issued pursuant to the present resolution will be between 125% to 135% (inclusive) of the issue price of the shares issued in the share capital increase pursuant to the fourteenth resolution and will be fixed after consideration of the theoretical ex-right price for the share calculated on the basis of the last quoted prices for the share prior to the day of the fixation of this price. The documents enclosed with this Report on Form 6-K contain, and other written or oral reports and communications of ALSTOM may from time to time contain, forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such statements appear, without limitation, in the section of the enclosed Notice of Meeting entitled Outlook. Examples of such forward-looking statements include, but are not limited to, (i) projections or expectations of sales, income, operating margins, dividends, provisions, cash flow, debt or other financial items or ratios; (ii) statements of plans, objectives or goals of the Group or its management; (iii) statements of future product or economic performance; and (iv) statements of assumptions underlying such statements. Words such as believes, anticipates, expects, intends, aims, plans and will and similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying such statements. By their very nature, forward-looking statements involve risks and uncertainties that the forecasts, projections and other forward-looking statements will not be achieved. Such statements are based on ALSTOM's current plans and expectations and are subject to a number of important factors that could cause actual results to differ materially from the plans, objectives and expectations expressed in such forward-looking statements. These factors include the factors listed below as well as those described in ALSTOM's Annual Report on Form 20-F for ALSTOM's fiscal year ended March 31, 2004 at Item 3: Key Information Risk Factors: (i) the inherent difficulty of forecasting future market conditions, level of infrastructure spending, GDP growth generally, interest rates and exchange rates; (ii) the effects of, and changes in, laws, regulations, governmental policy, taxation or accounting standards or practices; (iii) the effects of currency exchange rate movements on the pricing and competitiveness of ALSTOM's products, and on the cost of raw materials; (iv) the effects of competition in the product markets and geographic areas in which ALSTOM operates; (v) ALSTOM's ability to increase market share, control costs and enhance cash generation while maintaining high quality products and services; (vi) the timely development of new products and services; (vii) the ability to obtain shareholder approval for and implement ALSTOM's new financing package; (viii) the ability to meet, as necessary, the financial and other covenants contained in ALSTOM's financing agreements; (ix) the ability to renegotiate ALSTOM's Bonding Facility in order to obtain bid, performance and other bonds in amounts that are sufficient to meet the needs of ALSTOM's businesses; (x) the timing of and ability to meet the cash generation and other initiatives of the action plan and the financing plans, including the ability to dispose of certain real estate and other assets on favourable terms or in a timely fashion; (xi) the results of investigations by the United States Securities and Exchange Commission (SEC) and the Autorité des Marchés Financiers; (xii) the outcome of the putative class action lawsuits filed against ALSTOM and certain of ALSTOM's current and former directors and officers; (xiii) the results of the European Commission's review of the French State's involvement in ALSTOM's financing plans and other aspects of ALSTOM's businesses; (xiv) the availability of external sources of financing on commercially reasonable terms; (xv) the inherent technical complexity of many of ALSTOM's products and technologies and ALSTOM's ability to resolve effectively, on time, and at reasonable cost technical problems, infrastructure constraints or regulatory issues that inevitably arise, including in particular the problems encountered with the GT24/GT26 gas turbines and the UK trains; (xvi) risks inherent in large contracts and/or significant fixed price contracts that comprise a substantial portion of ALSTOM's business; (xvii) the inherent difficulty in estimating future charter or sale prices of any cruise ship in any appraisal of ALSTOM's exposure in respect of Renaissance Cruises and ships that have been seized from Festival; (xviii) the inherent difficulty in estimating ALSTOM's vendor financing risks and other credit risks, which may notably be affected by customers' payment default; (xix) ALSTOM's ability to invest successfully in, and compete at the leading edge of, technology developments across all of ALSTOM's sectors; (xx) the availability of adequate cash flow from operations or other sources of liquidity to achieve management's objectives or goals, including ALSTOM's goal of reducing indebtedness; (xxi) whether certain of ALSTOM's markets, particularly the Power Sectors, recover from their currently depressed state; (xxii) the possible impact on customer confidence of ALSTOM's financial difficulties, and if so, ALSTOM's ability to re-establish this confidence; (xxiii) the effects of acquisitions and disposals generally; (xxiv) the unusual level of uncertainty at this time regarding the world economy in general; and (xxv) ALSTOM's success in adjusting to and managing the foregoing risks.

We caution you that this list of important factors is not exhaustive; when relying on forward-looking statements to make decisions with respect to ALSTOM, you should carefully consider the foregoing factors and other uncertainties and events, as well as other factors described in other documents ALSTOM files with or submits to, from time to time, the SEC, including reports submitted on Forms 20-F and 6-K. Such forward-looking statements speak only as of the date on which they are made, and ALSTOM undertakes no obligation to update or revise any of them, whether as a result of new information, future events or otherwise.
