Q.E.P. CO., INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

Note 1. Interim Reporting

The accompanying financial statements for the interim periods are unaudited and include the accounts of Q.E.P. Co., Inc. and its subsidiaries (the Company). All significant intercompany transactions and balances have been eliminated. The interim financial statements have been prepared in conformity with Rule 10-01 of Regulation S-X of the Securities and Exchange Commission (SEC) and therefore do not include information or footnotes necessary for a complete presentation of financial position, results of operations and cash flows in conformity with accounting principles generally accepted in the United States of America. However, all adjustments (consisting only of normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of the financial position and operating results for the periods presented have been included. These financial statements should be read in conjunction with the financial statements and notes thereto, together with Management's Discussion and Analysis of Financial Condition and Results of Operations, contained in the Annual Report on Form 10-K for the year ended February 29, 2004, of the Company as filed with the SEC. The February 29, 2004 balance sheet was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. The results of operations for the six months ended August 31, 2004 are not necessarily indicative of the results for the full fiscal year ending February 28, 2005.

Note 2. Stock Options

The Company grants stock options for a fixed number of shares to employees and directors with an exercise price equal to at least 85% of the fair market value of the shares at the date of grant. The Company has adopted the disclosure-only provision of Statement of Financial Accounting Standards (SFAS) No. 123, Accounting for Stock-Based Compensation, as amended by SFAS No. 148, Accounting for Stock-Based Compensation, Transition and Disclosure, which permits the Company to account for stock option grants in accordance with Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees. Under APB No. 25, compensation expense is recorded when the exercise price of the Company's employee stock option is less than the market price of the underlying stock at the date of grant.

The Company continues to account for options issued under the intrinsic value method of APB No. 25. Had compensation cost been determined based on the fair value at the grant date for stock option awards consistent with the provisions of SFAS No. 123, the Company's net income and diluted earnings per share for the six months ended August 31, 2004 and 2003 would have been as follows:

	Six Months Ended August 31,	
	2004	2003
	(In Thousands, Except Per Share Data)	
Net income		
As reported	\$ 2,378	\$ 1,391
Pro forma	\$ 2,145	\$ 1,296

Edgar Filing: QEP CO INC - Form 10-Q

Net income per share				
As reported	\$	0.65	\$	0.40
Pro forma	\$	0.59	\$	0.37

Table of ContentsNote 3. Inventories

The major classes of inventories are as follows:

	<u>August 31, 2004</u>	<u>February 29, 2004</u>
Raw materials and work-in-process	\$ 4,554,588	\$ 3,291,674
Finished goods	28,059,438	25,563,306
	<u>\$ 32,614,026</u>	<u>\$ 28,854,980</u>

Note 4. Earnings per Share

Basic earnings per share is computed by dividing net income, after deducting preferred stock dividends accumulated during the period, by the weighted average number of shares of common stock outstanding during each period. Diluted earnings per share is computed by dividing net income, after deducting preferred stock dividends accumulated during the period, by the weighted average number of shares of common and dilutive common stock equivalent shares outstanding during the period. Diluted common stock equivalent shares consist of stock options and warrant common stock equivalent shares which are not used when the effect is antidilutive. For the six months ended August 31, 2004, 325,000 common stock equivalent shares with an exercise price of \$3.63 per share were not used due to their antidilutive effect.

For the six and three months ended August 31, 2004, the weighted average number of basic shares of common stock outstanding amounted to 3,437,508 and 3,448,467, respectively. For the six and three months ended August 31, 2003, the weighted average number of basic shares of common stock outstanding amounted to 3,387,623 and 3,392,923, respectively. For the six months ended August 31, 2004 and August 31, 2003, the weighted average number of diluted shares of common stock outstanding amounted to 3,647,563 and 3,481,784, respectively. For the three months ended August 31, 2004 and August 31, 2003, the weighted average number of diluted shares of common stock outstanding amounted to 3,649,474 and 3,504,414, respectively.

Note 5. Comprehensive Income

The Company records comprehensive income in accordance with SFAS No. 130, Reporting Comprehensive Income. SFAS No. 130 requires foreign currency translation adjustments to be included in other comprehensive income.

For the six months ended August 31, 2004 and 2003, the Company's comprehensive income totaled \$2,198,068 and \$1,828,986, respectively. For the three months ended August 31, 2004 and 2003, the Company's comprehensive income totaled \$1,126,769 and \$961,660, respectively.

Note 6. Debt

Edgar Filing: QEP CO INC - Form 10-Q

In April 2004, the Company's Australian subsidiary entered into a loan agreement with its existing lender. The facility increased the maximum limit of borrowings to approximately AUD \$4,427,000 (approximately US \$3,337,000). The additional availability was utilized to fund an acquisition and provide additional working capital. The additional term note of this facility of approximately AUD \$1,050,000 (US \$813,000) will mature in 2007 and requires quarterly payments of AUD \$87,500 (US \$67,800). Interest on the facility is 2% above the lending institutions bill rate or cost of funding.

Table of ContentsNote 7. Recent Accounting Pronouncements

On March 31, 2004, the FASB issued a proposed statement, *Share-Based Payment*, that addresses the accounting for share-based payment transactions (for example, stock options and awards of restricted stock) in which an employer receives employee-services in exchange for equity securities of the company or liabilities that are based on the fair value of the company's equity securities. This proposal, if finalized as proposed, would eliminate the use of APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and generally would require such transactions be accounted for using a fair-value-based method and recording compensation expense rather than optional pro forma disclosure of what expense amounts might be. The proposal, if approved, would substantially amend FASB Statement No. 123, *Accounting for Stock-Based Compensation*. Because of the timing of the proposal and the uncertainty of whether it will be adopted substantially as proposed, management has not completed its review of the proposal or assessed its potential impact on the Company.

A variety of proposed or otherwise potential accounting standards are currently under study by standard-setting organizations and various regulatory agencies. Because of the tentative and preliminary nature of these proposed standards, management has not determined whether implementation of such proposed standards would be material to the Company's consolidated financial statements.

Note 8. Goodwill and Other Intangible Assets

In accordance with its policy, the Company applied the provisions of SFAS No. 142 and performed a transitional fair value based impairment test in August 2004 relating to the carrying value of the Company's goodwill. Based on the impairment test, the Company determined that no impairment to goodwill is required to be recognized in accordance with the provisions of SFAS No. 142. The Company will perform an impairment evaluation on an annual basis during the second quarter of each fiscal year to be effective as of the beginning of each fiscal year.

The components of the Company's Other intangible assets, net subject to amortization are as follows:

	Average Life	August 31, 2004		February 29, 2004	
		Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Trademarks	20 years	\$ 2,425,930	\$ (593,974)	\$ 2,430,862	\$ (536,897)
Other Intangibles	5 years	561,470	(242,083)	595,832	(242,086)
		<u>\$ 2,987,400</u>	<u>\$ (836,057)</u>	<u>\$ 3,026,694</u>	<u>\$ (778,983)</u>

Amortization expense for intangible assets for the six months ended August 31, 2004 and 2003 was \$ 67,668 and \$ 82,285 respectively. Additionally, accumulated amortization and amortization expense at August 31, 2004 was impacted by approximately \$10,500 due to changes in the foreign exchange rates since February 29, 2004.

Edgar Filing: QEP CO INC - Form 10-Q

The following table provides information regarding estimated amortization expense for each of the following fiscal years ending February 28 or 29:

2005	\$ 156,034
2006	\$ 147,937
2007	\$ 147,897
2008	\$ 145,897
2009	\$ 144,531

Table of Contents

Note 9. Contingent Liabilities

Environmental Matters - The Company owns or operates, or has owned or operated, properties that are, or have been, used for industrial purposes. Use of these properties may subject the Company to potential liabilities relating to the investigation and cleanup of contaminants, claims alleging personal injury, or property damage as a result of exposures to, or release of, hazardous substances. The major environmental laws to which the Company may be subject, include, among others, the Federal Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). CERCLA can impose joint and several liability for cleanup and investigation costs, without regard to fault or legality of the original conduct, on current and predecessor owners and operators of a site, as well as those who generate, or arrange for disposal of, hazardous substances.

The Company is subject to federal, state and local laws, regulations and ordinances governing activities or operations that may have adverse environmental effects, such as discharges to air and water, handling and disposal practices for solid, special and hazardous wastes, and imposing liability for the cost of cleaning up, and certain damages resulting from sites of past spills, disposal or other releases of hazardous substances (together, Environmental Laws). Sanctions which may be imposed for violation of Environmental Laws include the payment or reimbursement of investigative and clean up costs, administrative penalties and, in certain cases, prosecution under environmental criminal statutes. The Company's manufacturing facilities are subject to environmental regulation by, among other agencies, the Environmental Protection Agency, the Occupational Safety and Health Administration, and various state authorities in the states where such facilities are located. The activities of the Company, including its manufacturing operations at its leased facilities, are subject to the requirements of Environmental Laws. The Company believes that the cost of compliance with Environmental Laws to date has not been material to the Company. The Company is not currently aware of any situations requiring remedial or other action, which would involve a material expense to the Company, or expose the Company to material liability under Environmental Laws. As the operations of the Company involve the storage, handling, discharge and disposal of substances which are subject to regulation under Environmental Laws, there can be no assurance that the Company will not incur any material liability under Environmental Laws in the future or will not be required to expend funds in order to effect compliance with applicable Environmental Laws.

The Company completed testing at its facility in Bramalea, Ontario, Canada for leakage of hazardous materials and, as a result, in fiscal 1999 the Company prepared a plan to remediate the contamination over a period of years and this plan was subsequently approved by the Canadian Ministry of Environment. The Company recorded a reserve for potential environmental liability on the closing date of the Roberts Consolidated Industries, Inc. acquisition in 1997 of approximately \$325,000 and this amount was subsequently increased by \$275,000 to \$600,000 based on an estimate for the cost of remediation. Through August 31, 2004, the Company has spent approximately \$560,000 and anticipates spending additional amounts on ongoing monitoring of wells and other environmental activity at the approximate rate of between \$5,000 and \$25,000 per year for the next few years.

The Company has previously disclosed that one of its inactive subsidiaries, Roberts Holding International, Inc. was named as a third party defendant in a case that was pending before the United States District Court for the Western District of Michigan. The case was *Strebor Inc. v. International Paper Co.*, Case No. 1:02 CV0948, Western District of Michigan. In September 2004, the Company settled this matter for \$200,000 payable over five years. The Company has previously provided a reserve for this settlement; therefore, there is no material impact on the financial position of the Company at August 31, 2004.

Table of ContentsNote 10. Non-Cash Investing and Financing Activities

In April 2004, the Company made a strategic acquisition of an Australian distributor. In connection with this acquisition, liabilities were assumed as follows:

Cash paid	\$ 1,683,433
Liabilities assumed	170,125
	<hr/>
Purchase price	1,853,558
Fair value of assets acquired	1,353,136
	<hr/>
Excess of purchase price over fair value of net assets acquired	\$ 500,422
	<hr/>

In August 2004, the Company made an acquisition of a flooring underlayment company in the United States of America. In connection with this acquisition, liabilities were assumed as follows:

Cash paid	\$ 368,000
Notes issued to seller	800,000
Liabilities assumed	164,197
	<hr/>
Purchase price	1,332,197
Fair value of asset acquired	913,663
	<hr/>
Excess of purchase price over fair value of net assets acquired	\$ 418,534
	<hr/>

Note 11. Subsequent Event

On September 23, 2004, the Company entered into an agreement to purchase all of the outstanding shares of P.R.C.I. SA (PRCI), a company formed under the laws of France. PRCI is a manufacturer and distributor of flooring and specialty tools to wholesale and retail markets. The purchase price of PRCI, 40% of which will be paid in cash at closing and the remaining balance payable over a period of four years, is subject to adjustment. Closing under the agreement is subject to various conditions, but is expected to be consummated on or before October 31, 2004.

Note 12. Reclassification

Certain amounts in the fiscal 2004 presentation have been reclassified to conform to the fiscal 2005 presentation.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Executive Overview

The Company is a worldwide leader in the manufacturing, marketing and distribution of a broad line of specialty tools and flooring related products for the home improvement market. The Company markets over 3,000 specialty tools and related products used primarily for surface preparation and installation of ceramic tile, carpet, vinyl and wood flooring. The Company's products are sold to home improvement retailers, specialty distributors to the hardware, construction, flooring and home improvement trades, chain or independent hardware, tile and carpet retailers for use by the do-it-yourself consumer as well as the construction or remodeling professional, and original equipment manufacturers. The Company has embarked on a growth strategy that encompasses acquisitions, the reduction of risk associated with certain large customer concentrations and the enhancement of cross selling of its product among the Company's channels of distribution. The Company believes that this strategy will improve overall performance and profitability of operations. As to working capital, the Company maintains inventory levels based on anticipated demand from its customers taking into consideration the lead time necessary to receive product from the Company's suppliers. The Company pays such suppliers on open account based on negotiated terms with the supplier. The Company grants credit to its customers based on their credit worthiness and selling arrangements. The Company generally maintains its inventory at a level to insure prompt delivery to its customers and to provide safety stock levels necessitated by the longer lead times of its foreign suppliers.

A summary of significant accounting policies followed by the Company is set forth in Note B to the Company's consolidated financial statements contained in the Company's Annual Report on Form 10-K for the year ended February 29, 2004, which is incorporated herein by reference.

Results of Operations

Six months ended August 31, 2004 compared to six months ended August 31, 2003

Net sales for the six months ended August 31, 2004 (the fiscal 2005 period) were approximately \$85,695,000 compared to approximately \$69,200,000 for the six months ended August 31, 2003 (the fiscal 2004 period), an increase of \$16,495,000 or 23.8%. Selling prices in the fiscal 2005 period increased by approximately 1% when compared to the fiscal 2004 period. The recent acquisitions of manufacturing and distribution businesses in the United Kingdom and Australia (the newly acquired entities) accounted for approximately \$7,236,000 of the increase. The Company's North American subsidiaries accounted for approximately \$6,782,000 of the increase led primarily by increases in the Company's home center customer base through new store expansion and the introduction of new product into existing stores. The Company's foreign subsidiaries accounted for approximately \$2,477,000 of the fiscal 2005 increase of which approximately \$1,501,000 was the result of favorable exchange rate variances.

Gross profit for the fiscal 2005 period was approximately \$28,930,000 compared to \$23,921,000 for the fiscal 2004 period, an increase of \$5,009,000 or 20.9%. As a percentage of net sales, gross profit decreased to 33.8% in the fiscal 2005 period from 34.6% in the fiscal 2004 period. This decrease is primarily due to an approximate 2.5% increase in certain raw material and finished goods costs and additional incentives given to the Company's North American home center customer base to further the Company's future sales growth. The actual increase was primarily the result of increased sales volume together with an increase of approximately \$2,537,000 from the newly acquired entities and approximately \$506,000 resulting from favorable foreign exchange rates.

Table of Contents

Shipping expenses for the fiscal 2005 period were approximately \$8,697,000 compared to \$6,303,000 for the fiscal 2004 period, an increase of \$2,394,000 or 38.0%. As a percentage of net sales, these expenses increased to 10.0% in the fiscal 2005 period from 9.1% in the fiscal 2004 period. This increase is primarily the result of an increase in freight rates charged by common carriers due to increases in fuel costs and decreases in the Company's average order size. The actual increase is primarily the result of increased sales volume from the Company's North American and foreign subsidiaries and amounted to approximately \$1,100,000 and approximately \$654,000, respectively. The newly acquired entities accounted for approximately \$549,000 of the fiscal 2005 increase and approximately \$91,000 of the fiscal 2005 increase was the result of foreign exchange rates.

General and administrative expenses for the fiscal 2005 period were approximately \$7,455,000 compared with approximately \$6,055,000 for the fiscal 2004 period, an increase of \$1,400,000 or 23.1%. As a percentage of net sales, these expenses decreased slightly to 8.7% in the fiscal 2005 period from 8.8% for the fiscal 2004 period, primarily as a result of certain fixed costs being absorbed by a higher sales volume. The actual increase was primarily the result of the newly acquired entities of approximately \$661,000, a change in the foreign exchange rate of approximately \$160,000 and an increase of approximately \$431,000 at the Company's North American subsidiaries resulting primarily from an increase in personnel costs and related expenses. The balance of the increase of approximately \$148,000 relates to an increase in expenses at the Company's foreign subsidiaries, principally Australia, again relating principally to personnel and related costs.

Selling and marketing costs for the fiscal 2005 period were approximately \$8,201,000 compared to \$7,260,000 for the fiscal 2004 period, an increase of \$941,000 or 13.0%. As a percentage of net sales, these expenses decreased to 9.6% in the fiscal 2005 period from 10.5% for the fiscal 2004 period, primarily as a result of certain fixed costs being absorbed by the higher sales volume. The actual increase relates primarily to an increase in commissions and marketing allowances paid to the Company's sales personnel and home center customers, respectively, as a result of the increased sales volume. Further, the newly acquired entities accounted for approximately \$381,000 of the increase while approximately \$200,000 of the increase was the result of the change in foreign exchange rates.

Other expenses for the six months ended August 31, 2004 and 2003 include a charge of approximately \$95,000 and \$410,000, respectively resulting from a change in the future value of the Put Warrants. A more detailed discussion of the Put Warrants can be found in the section entitled "Liquidity and Capital Resources". Additionally, the fiscal 2004 period includes approximately \$617,000 of expense resulting from the early repayment of certain subordinated indebtedness, offset by approximately \$158,000 net gain from the sale of assets at the Company's foreign subsidiaries.

Interest income for the fiscal 2005 period was approximately \$2,000 compared to less than \$1,000 in the fiscal 2004 period. Interest expense for the fiscal 2005 period was approximately \$632,000 compared to approximately \$1,056,000 in the fiscal 2004 period. In the fiscal 2004 period, interest expense includes the \$270,000 penalty associated with the prepayment of the Company's subordinated credit facility. The resulting approximate decrease of \$154,000 in actual expense for fiscal 2005 relates principally to the reduction in the Company's long term obligations and a reduction in the borrowing rate applied to the Company's outstanding indebtedness offset by an increase in short term borrowings to fund working capital.

Provision for income taxes was approximately \$1,440,000 in the fiscal 2005 period compared to approximately \$950,000 in the fiscal 2004 period, an increase of \$490,000 or 51.6%. The effective tax rate was approximately 37.7% for the fiscal 2005 period and 40.6% for the fiscal 2004 period. The estimated effective tax rate is based upon the most recent effective tax rates available and is adjusted by the amount of non-deductible items in the respective periods.

Table of Contents

Net income for the fiscal 2005 period was approximately \$2,378,000 compared to approximately \$1,957,000 in the fiscal 2004 period, excluding the approximate \$566,000 of after tax expense relating to the early repayment of certain subordinated indebtedness previously described herein. The non-GAAP increase in fiscal 2005, therefore, amounted to approximately \$421,000 or 21.5%. Exclusive of the above qualification, net income for the fiscal 2005 period increased to \$2,378,000 from \$1,391,000 in the fiscal 2004 period, an increase of \$987,000 or 71.0%. Net income as a percentage of net sales increased to 2.8% in the fiscal 2005 period from 2.0% in the fiscal 2004 period for the reasons outlined above. The Company's management believes that the financial results the Company would have achieved without the one-time charges related to the prepayment of its subordinated debt is meaningful to investors because it provides a consistent comparison with prior period results.

Three months ended August 31, 2004 compared to three months ended August 31, 2003.

Net sales for the three months ended August 31, 2004 (the fiscal 2005 period) were approximately \$42,591,000 compared to approximately \$34,489,000 for the three months ended August 31, 2003 (the fiscal 2004 period), an increase of \$8,102,000 or 23.5%. Sales at the Company's North American subsidiaries increased approximately \$3,291,000 in the fiscal 2005 period primarily as a result of increases in sales volume to the Company's home center and distributorship customer base of approximately \$2,285,000 and \$909,000, respectively. Sales at the Company's comparable foreign subsidiaries increased by approximately \$1,000,000, of which approximately \$529,000 was the result of a favorable change in exchange rates. Also, an approximate increase of \$3,800,000 was derived from the newly acquired entities. Selling prices in the fiscal 2005 period were slightly higher than in the fiscal 2004 period.

Gross profit for the fiscal 2005 period was approximately \$14,318,000 compared to approximately \$11,971,000 in the fiscal 2004 period, an increase of \$2,347,000 or 19.6%. As a percentage of net sales, gross profit decreased to 33.6% in the fiscal 2005 period compared to 34.7% in the fiscal 2004 period principally due to an increase in the cost of certain raw materials and finished product by certain of the Company's foreign suppliers of approximately 1.5% as well as the cost of a roll-out of a new product line at one of the Company's retail customers. The actual increase in gross profit resulted principally from the increase in sales volume. Further, the newly acquired entities accounted for approximately \$1,347,000 of the increase and the change in exchange rates accounted for approximately \$182,000 of the fiscal 2005 increase in gross profit.

Shipping expenses for the fiscal 2005 period were approximately \$4,288,000 compared to approximately \$3,021,000 for the fiscal 2004 period, an increase of \$1,267,000 or 41.9%. As a percentage of net sales, these expenses increased to 10.1% in the fiscal 2005 period from 8.8% in the fiscal 2004 period primarily due to an increase in freight rates charged by common carriers. Approximately \$828,000 of the actual increase is the result of the overall increase in the Company's sales volume. Additionally, the newly acquired entities accounted for approximately \$410,000 of the fiscal 2005 increase and the change in exchange rates contributed approximately \$29,000 to the fiscal 2005 actual increase.

General and administrative expenses for the fiscal 2005 period were approximately \$3,717,000 compared to approximately \$3,098,000 for the fiscal 2004 period, an increase of \$619,000 or 20.0%. As a percentage of net sales, general and administrative expenses decreased to 8.7% in the fiscal 2005 period from 9.0% in the fiscal 2004 period, resulting principally from certain fixed costs being absorbed by the higher sales volume. The actual increase in the fiscal 2005 expense was primarily the result of an increase in personnel and related costs of approximately \$191,000, the expenses of the newly acquired entities approximating \$359,000 and a change in the exchange rates of approximately \$69,000.

Selling and marketing costs for the fiscal 2005 period were approximately \$4,017,000 compared to approximately \$3,633,000 for the fiscal 2004 period, an increase of \$384,000 or 10.6%. As a percentage of net sales, these expenses decreased to 9.4% in the fiscal 2005 period from 10.5% in the fiscal 2004 period. This

Table of Contents

decrease was primarily due to certain fixed costs being absorbed by the higher sales volume. The actual increase was due to higher commissions and marketing allowances paid, principally at the Company's North American subsidiaries, to sales personnel and home center customers, respectively, due to the increase in sales volume. The newly acquired entities accounted for approximately \$229,000 of the fiscal 2005 increase and the change in exchange rates accounted for an additional approximate \$75,000 of the increase in actual costs for the fiscal 2005 period.

Other expenses for the fiscal 2005 and 2004 periods predominantly include a charge of \$25,000 and \$278,000, respectively resulting from a change in the future value of the Put Warrants.

Interest income for the fiscal 2005 and 2004 periods was insignificant. Interest expense for the fiscal 2005 period was approximately \$322,000 compared to approximately \$331,000 in the fiscal 2004 period. Interest expense decreased as a result of a reduction in the amount of the Company's outstanding long-term indebtedness and a reduction in the borrowing rate applied to such indebtedness resulting principally from the early repayment of certain subordinated indebtedness offset by an increase in short term borrowings to fund working capital requirements.

Provision for income taxes was approximately \$722,000 in the fiscal 2005 period compared to approximately \$644,000 for the fiscal 2004 period, an increase of \$78,000 or 12.1%. The estimated tax rate was approximately 37.3% for the fiscal 2005 period and 39.7% for the fiscal 2004 period. The estimated effective tax rate is based upon the most recent effective tax rates available and is adjusted by the amount of non-deductible items in the respective periods.

As a result of the above, net income for the fiscal 2005 period was approximately \$1,216,000 compared to approximately \$979,000 for the fiscal 2004 period, an increase of \$237,000 or 24.2%. Net income as a percentage of net sales increased to 2.9% in the fiscal 2005 period compared to 2.8% in the fiscal 2004 period as a result of the reasons outlined above.

Non-GAAP Financial Measures

Included in this Form 10-Q are certain non-GAAP financial measures related to the Company's results. With respect to each non-GAAP financial measure, the Company has disclosed the most directly comparable financial measure calculated and presented in accordance with GAAP and a reconciliation of each non-GAAP measure to the most directly comparable GAAP measure. The non-GAAP financial measures were presented in this Form 10-Q because the Company's management believes that the non-GAAP financial results are meaningful to investors because they provide a consistent comparison with prior period results. A reconciliation of the Company's diluted earnings per share is as follows:

	Six Months Ended	
	August 31,	
	2004	2003
	_____	_____
Earnings per common share - diluted:		
GAAP earnings per common share	\$ 0.65	\$ 0.40
Charge related to early repayment of \$4.5 million of subordinated debt		0.18
Interest prepayment penalty of subordinated debt		0.08
Provision for income taxes related to repayment of subordinated debt		(0.10)
	_____	_____

\$ 0.65 \$ 0.56

Table of Contents

Liquidity and Capital Resources

Working capital as of August 31, 2004 increased from approximately \$13,753,000 at February 29, 2004 to \$15,002,000, an increase of \$1,249,000, primarily as a result of an increase in the Company's operating profits and an increase of approximately \$893,000 resulting from the acquisition of an Australian distributorship business in April 2004. Any cash in excess of anticipated requirements is invested in commercial paper or overnight repurchase agreements with a financial institution. The Company states the value of such investments at market price and classifies them as cash equivalents on its balance sheet.

Net cash used in operating activities during the six month period ended August 31, 2004 was approximately \$208,000 compared to cash provided of approximately \$7,594,000 for the comparable period in fiscal 2004. The decrease of approximately \$7,451,000 in cash provided by operations is substantially the result of the increase of approximately \$226,000 in the Company's net income from operations as adjusted for non-cash charges, an increase in accounts payable when compared to the prior year of approximately \$2,195,000 offset substantially by the approximate increase in accounts receivable and inventory of \$5,464,000 when compared to a decrease in the prior year of approximately \$4,501,000. Net cash used in investing activities was \$2,515,000 in the fiscal 2005 period compared to \$652,000 for the comparable period in fiscal 2004. The increase in cash used in investing activities of approximately \$1,863,000 is principally the result of approximately \$2,051,000 being used in the current year for acquisitions. Capital expenditures decreased by approximately \$434,000 relating principally to the expansion of the Company's Canadian facility in the prior year.

Net cash provided by financing activities was \$3,139,000 in fiscal 2005 compared to cash used of \$5,935,000 in the comparable fiscal 2004 period. The change is principally the result of a substantial increase in the Company's outstanding lines of credit to finance the growth of accounts receivable and inventory of approximately \$3,966,000 and cash provided by the exercise of stock options amounting to approximately \$255,000 offset by payments of long-term debt and acquisition notes payable of approximately \$1,766,000.

In November 2002, the Company entered into an amended and restated loan agreement with its existing lender. Under the terms of the agreement the Company obtained a \$4,000,000 dollar term loan, which was used to refinance its existing two term loans with this lender and provide additional working capital. Under the terms of the loan, which will mature in 2007, the Company will pay \$400,000 per quarter during the first year of the loan and \$200,000 per quarter thereafter. The agreement, which now includes another financial institution as a participant, also increased the Company's borrowing capacity under a revolving loan facility to \$23,000,000 under the same formula for eligible accounts receivable and inventory that previously existed for the Company. In August 2004, the revolving loan facility was temporarily increased to \$25,000,000 through November 15, 2004. The revolving loan facility expires in July 2005. The term loan and the revolver have an interest rate that ranges from LIBOR plus 1.50% to LIBOR plus 2.25% and are collateralized by substantially all of the Company's assets. The agreement also prohibits the Company from incurring certain additional indebtedness, limits certain investments, advances or loans, restricts substantial asset sales and capital expenditures and prohibits the payment of dividends, except for dividends due on the Company's Series A and C preferred stock. At August 31, 2004, the rate was LIBOR (1.63% at August 31, 2004) plus 1.50% and the Company had approximately \$1,958,000 available for future borrowings under its revolving loan facility net of approximately \$342,000 in outstanding letters of credit. During the six month period ended August 31, 2004, the Company borrowed approximately \$9,650,000 and repaid approximately \$5,050,000 under this revolving credit facility. This resulted in an average outstanding indebtedness during the period of approximately \$18,200,000.

In July 2003, the Company refinanced its mortgage loan in Canada and financed its expansion of the Canadian facility. The mortgage refinancing is for approximately \$1,867,000, and is amortized based on a 15-year period. The mortgage refinancing bears an interest rate of LIBOR plus 2.00% and will mature in October 2007. The mortgage loan required principal payments of approximately \$10,500 per month.

Table of Contents

In May 2003, the Company prepaid its subordinated loan facility with HillStreet Fund LP (HillStreet). Under the terms of the prepayment the Company paid a prepayment penalty of 6% amounting to \$270,000 together with the \$4,500,000 principal balance of the facility. The prepayment penalty was included in interest expense in the Condensed Consolidated Statement of Income for the fiscal 2004 period. Funding for this prepayment came from a second term facility provided by the Company's two financial lenders. This term facility requires monthly payments of \$125,000 during the first five months and \$141,667 monthly thereafter. This loan bears interest at LIBOR plus 3.25%. The Company's Chairman and Chief Executive Officer has personally guaranteed up to a maximum of \$3,000,000 of this loan. The guarantor's potential liability under the guaranty decreases by an amount equal to each payment made by the Company. Mr. Gould's potential liability under the guarantee as of August 31, 2004 is approximately \$958,000. In connection with the guaranty, the Company's audit committee and Board of Directors approved, and the stockholders ratified, an agreement whereby the Company granted its Chairman 50,000 shares of restricted common stock. Based on an independent appraisal obtained by the Company, the value of the 50,000 shares was determined to be \$275,000 or \$5.50 per share. The Company further agreed to indemnify him to the extent of all payments made by the Chairman to the lenders pursuant to the guaranty.

In connection with the subordinated loan agreement between the Company and HillStreet, entered into on April 5, 2001 and which was paid in full on May 12, 2003, the Company issued 325,000 10-year warrants (the Put Warrants) at an exercise price of \$3.63 per share. The Put Warrants continue to remain outstanding and can be put to the Company on and after April 5, 2006, based on criteria set forth in the warrant agreement. In addition, the Company may call these warrants on and after April 5, 2007, based on the same criteria. The Company recorded the initial liability for the Put Warrants based on an independent appraisal. The Company updates the value of the liability for the Put Warrants on a quarterly basis. The liability value of the Put Warrants is calculated based on the greatest of (1) the fair market value of the Company if a capital transaction or public offering occurs; or (2) a formula value based on a multiple of the last twelve month trailing EBITDA calculation; or (3) an appraised value as if the Company was sold as a going concern. Changes to the fair value of the Put Warrants are recognized in the earnings of the Company in accordance with SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities. For the six month period ended August 31, 2004, the Company recorded an expense of approximately \$95,000 related to the increase in the liability for the Put Warrants.

The Company's Australian subsidiary has a foreign payment facility which allows it to borrow against a certain percentage of inventory and accounts receivable. At August 31, 2004, the maximum permitted borrowing was approximately \$850,000, of which approximately \$100,000 remains available.

In connection with an acquisition in July 2002, the Company's Australian subsidiary entered into a loan facility with an Australian financial institution to provide financing of up to AUD\$ 2,500,000 (approximately US \$1,300,000). This facility includes a term facility and a short-term foreign and domestic facility that will be used to provide the capital necessary for acquisitions and general working capital purposes. The term facility expires in June 2005 and requires quarterly payments of AUD \$25,000 (approximately US \$19,000) and a final balloon payment. In July 2002, approximately AUD \$1,298,000 (approximately US \$715,000) of this facility was used to provide financing for the acquisition of an Australian distributor and, in addition, the Company issued a note to the related seller in the approximate amount of AUD \$1,445,000 (approximately US \$795,500). This note requires monthly payments in the amount of approximately \$21,000 through December 2006 with interest at 6.5%. In April 2004, the Company modified its existing facility in Australia to provide for borrowing up to a maximum of AUD \$4,427,000 (approximately US \$3,337,000). The additional financing was utilized to finance an acquisition of an Australian distributor and provide additional working capital. The facility consists of two term facilities, one of which expires in June of 2005 and the other in April 2007. Quarterly payments of AUD \$112,000 (US \$84,000) are required with balloon payments at the conclusion of each loan. The facility bears an interest rate of 2% above the Australian bank bill rate or cost of finance rate which was 5.45% at August 31, 2004.

Table of Contents

In connection with certain acquisitions during fiscal years 1999 through 2000, the Company issued three unsecured notes to the respective sellers. The first note, having an original principal balance of \$900,000 was originally payable in equal installments over a three year period with interest at the Company's prevailing borrowing rate. In October 2002, the Company paid \$50,000 and, in May 2003, amended the agreement to provide for full payment on October 10, 2004 of the remaining \$250,000. The agreement was further amended on February 2, 2004 to extend the final \$250,000 due as of August 31, 2004 to October 10, 2006. Interest on the extended payment is payable quarterly at 7%. The second note, in the principal amount of \$825,000, was payable in installments: \$312,500 plus interest of \$12,500 was paid in December, 2000, \$312,500 plus interest of \$12,500 was partially paid in December, 2001 and the balance was paid over a ten month period beginning January, 2002; the final installment of \$200,000 plus interest of \$25,000 was paid in December, 2003. The third note, in the original principal amount of \$1,600,000, is payable quarterly at \$80,000 plus interest at 8% from October 1, 2000 through October 1, 2005 and the amount outstanding as of August 31, 2004 was \$320,000.

In connection with the purchase of the assets of Vitrex Ltd., a manufacturer and distributor of accessory flooring and safety products in the United Kingdom, the Company's United Kingdom subsidiary entered into two financing arrangements with a financial institution in the United Kingdom. The first financing arrangement allows for borrowing of up to approximately £900,000 (approximately U.S. \$1,600,000) based on the advancement of up to 80% of the value of accounts receivable. In addition, the subsidiary may borrow up to £400,000 (approximately U.S. \$728,000) against the value of the inventory. Both of these facilities are collateralized by substantially all of the assets of the subsidiary as well as a guaranty by the Company.

In connection with the August 2004 purchase of the assets of Tuplex Corporation, a flooring underlayment manufacturer in the United States of America, the Company issued a note to the seller in the amount of \$800,000. The note requires an annual payment of \$200,000 over four years. Interest on the note accrues at 4% per year.

The Company believes its existing cash balances, internally generated funds from operations and its available bank lines of credit will provide the liquidity necessary to satisfy the Company's working capital needs, including the growth in inventory and accounts receivable balances, and will be adequate to finance anticipated capital expenditures and debt obligations for the next twelve months. The Company further believes that based on past experience and the Company's financial condition that it will be able to refinance its revolving credit facility when it matures in July 2005. In the event that the Company would not be able to refinance its revolving credit facility, the Company would be required to substantially reduce its inventory levels and substantially delay payments to its suppliers. These actions could have a material adverse effect on the Company's financial condition. Further, there can be no assurance that the assumptions upon which the Company bases its future working capital and capital expenditure requirements and the assumptions upon which it bases its belief that funds will be available to satisfy such requirements will prove to be correct. If these assumptions are not correct, the Company may be required to raise additional capital through loans or the issuance of debt securities or equity securities, either of which would require the consent of the Company's current lenders.

To the extent the Company raises additional capital by issuing equity securities or obtaining borrowings convertible into equity, ownership dilution to existing stockholders will result, and future investors may be granted rights superior to those of existing stockholders. Moreover, additional capital may be unavailable to the Company on acceptable terms, or may not be available at all.

Accounting Policies and Estimates

The SEC recently issued disclosure guidance for critical accounting policies. The SEC defines "critical accounting policies" as those that require complex judgments, resulting from the need to make estimates about the effect of matters that are inherently uncertain and may change in subsequent periods.

Table of Contents

Management's discussion and analysis of its financial condition and results of operations are based upon the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The notes to the financial statements include a summary of significant accounting policies used in the preparation of the consolidated financial statements. See Note B to the Company's Annual Report filed on Form 10K with the SEC on May 27, 2004, which is incorporated herein by reference.

The Company believes that the following critical accounting policies affects its more significant judgments and estimates used in the preparation of its consolidated financial statements:

Revenue Recognition

The Company recognizes sales when the merchandise is shipped and title has passed to the customer, the selling price is fixed and determinable and collectibility of the sales price is reasonably assured. The Company provides for estimated costs of future anticipated product returns, based on historical experience, when the related revenues are recognized. The Company records estimated reductions to revenue for customer programs including volume-based incentives.

Inventory Obsolescence

The Company maintains reserves for estimated obsolescence or unmarketable inventory equal to the difference between the cost of inventory and the estimated market value based upon assessments about current and future demand and market conditions. If actual market conditions were to be less favorable than those projected by management, additional inventory reserves could be required.

Accounts Receivable

The Company's accounts receivable are principally due from home centers or flooring accessory distributors. Credit is extended based on an evaluation of a customer's financial condition and collateral is not required. Accounts receivable are due at various times based on each customer's credit worthiness and selling arrangement. The outstanding balances are stated net of an allowance for doubtful accounts. The Company determines its allowance by considering a number of factors, including the length of time trade accounts receivable are past due, the customer's previous loss history, the customer's ability to pay its obligations and the condition of the general economy and the industry as a whole. The Company writes off accounts receivable when they become uncollectible, and payments subsequently received on such receivables are credited to the allowance for doubtful accounts.

Income Taxes

The Company is required to estimate income tax in each jurisdiction in which it operates. This process involves estimating actual current tax exposure together with accessing temporary differences resulting from the different treatment of items for book and tax purposes. These differences result in deferred tax assets and liabilities which are included in the Company's Condensed Consolidated Balance Sheet. Deferred income taxes are recorded to reflect the tax consequences on future years of differences between the tax basis of assets and liabilities and their

Edgar Filing: QEP CO INC - Form 10-Q

financial reporting amounts each year-end. The Company must then consider the likelihood that the deferred tax asset will be recoverable from future taxable income and to the extent that the Company believes that recoverability is not likely, the Company establishes a valuation allowance.

Table of Contents

Impact of Inflation and Changing Prices

The Company has experienced inflation related to the purchase of raw materials and finished goods. The Company does not believe that the change in price of these raw materials and finished goods has had a material effect on net sales or results of operations. Although the Company cannot accurately determine the extent of inflation on changing prices or net sales, the Company does not believe inflation has had a material effect on net sales or results of operations.

Forward-Looking Statements

This report contains certain forward-looking statements that are made pursuant to the safe harbor provisions of the Securities Litigation Reform Act of 1995. Forward-looking statements present the Company's expectations or forecasts of future events. These statements can be identified by the fact that they do not relate strictly to historical or current facts. They are frequently accompanied by words such as believe, intend, expect, anticipate, plan or estimate and other words of similar meaning. In particular, such statements include statements relating to the adequacy of the Company's liquidity sources to meet the Company's working capital needs and anticipated expenditures; the Company's ability to increase the amount of sales of its products, and the ability of the Company to continue its strong performance and that of its products and to increase stockholder returns. Additionally, the report is subject to risks and uncertainties which could cause actual results to differ materially from those discussed in the forward-looking statements and from historical results of operations. Among the risks and uncertainties which could cause such a difference are the assumptions upon which the Company bases its assessments of its future working capital and capital expenditure requirements and those relating to the Company's ability to satisfy its working capital needs and to finance its anticipated capital expenditures which could prove to be different than expected, the Company's dependence upon a limited number of customers for a substantial portion of its sales, and the continued success of initiatives with the Home Depot and Lowe's, the success of the Company's marketing and sales efforts, improvements in productivity and cost reductions, including inventory reductions, the absence of increased pricing pressures from customers, suppliers and competitors and the ability to defend market share in the face of price competition, the Company's ability to increase selling prices to customers to offset all or a portion of supplier price increases, the Company's ability to maintain and improve its brands, the Company's reliance upon two major foreign suppliers, the Company's reliance upon suppliers and sales agents for the purchase of finished products which are then resold by it, the level of demand for the Company's products among existing and potential new customers, the Company's dependence upon the efforts of Lewis Gould, the Company's Chief Executive Officer and certain other key personnel, the Company's ability to successfully integrate new management personnel into the Company, the Company's ability to accurately predict the number and type of employees required to conduct its foreign operations and the compensation required to be paid to such personnel, its ability to manage its growth, the risk of economic and market factors affecting the Company or its customers, the Company's belief that there will be no future adverse effect on the fair value of the Company's assets in accordance with the provisions of SFAS No. 142, the Company's ability to successfully refinance its revolving loan facility upon maturing in July 2005 and other risks and uncertainties described elsewhere herein. Subsequent written and oral forward-looking statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by the cautionary statements set forth above and elsewhere in this report and in other reports filed by the Company with the SEC. The Company disclaims any obligation to update any forward looking statements to reflect events or circumstances after the date of this report.

Table of Contents

Risk Factors Affecting the Company's Performance

In addition to other information contained in the Company's Annual Report on Form 10-K filed with the SEC on May 27, 2004, the Company is subject to the following risk factors. While we believe our expectations are reasonable, they are not guarantees of future performance. Our results could differ substantially from our expectations if any of the events described in these risks occur.

The Company may be unable to pass on to its customers increases in the costs of raw materials.

The prices of many of the Company's raw materials for the manufacture of adhesives and tile spacers vary with market conditions. In addition, the price of many of the Company's finished goods are impacted by changes in currency, freight costs and raw materials at the point of production. The Company's ability to pass these increases on to its customers varies depending on the product line and the rate and magnitude of any increase. There may be periods of time during which increases in these costs cannot be recovered.

The Company's largest customers seek to purchase product directly from foreign suppliers.

Certain of the Company's larger customers have in the past contacted one or more of the Company's foreign suppliers to discuss purchasing home improvement products directly from these suppliers. Although the Company believes that its diversified product line, brand recognition and customer service will continue to offer benefits not otherwise available to the Company's customers from foreign manufacturers, the Company could experience competition from one or more foreign manufacturers which now serve as suppliers to the Company.

Failure to identify suitable acquisition candidates, to complete acquisitions and to integrate successfully the acquired operations.

As part of its business strategy, the Company intends to pursue acquisitions that enhance its current product line and distribution channels both in the United States of America and around the world. Although the Company regularly evaluates acquisition opportunities, it may not be able to successfully identify suitable acquisition candidates; obtain sufficient financing on acceptable terms to fund acquisitions, or profitably manage the acquired businesses. In addition, the Company may not be able to successfully integrate the acquired operations and the acquired operations may not achieve the expected results.

The Company has been, and in the future may be subject to claims and liabilities under environmental, health and safety laws and regulations, which could have a significant effect on our operations.

The Company is subject to federal, state and local laws, regulations and ordinances governing activities or operations that may have adverse environmental effects, such as discharges to air and water, handling and disposal practices for solid, special and hazardous wastes. The activities of the Company, including its manufacturing operations at its leased facilities, are subject to the requirements of Environmental Laws. The Company has received various notices from state and federal agencies that it may be responsible for certain environmental remediation activities and is, or has been, a defendant in environmental litigation. Although the Company is not currently aware of any situation requiring remedial or other action that would involve a material expense to the Company or expose the Company to material liability under Environmental Laws, the

Edgar Filing: QEP CO INC - Form 10-Q

Company cannot assure you that it will not incur any material liability under Environmental Laws in the future or that it will not be required to expend funds in order to effect compliance with applicable Environmental Laws, either of which could have a material adverse effect on the Company.

Table of Contents

The Company faces intense competition in its industry, which could decrease demand for its products and could have a material adverse effect on its profitability.

The Company's industry is highly competitive. The Company faces competition from a large number of manufacturers and independent distributors. Many of its competitors are larger and have greater resources and access to capital than the Company. In order to maintain the Company's competitive position, the Company will need to continue to develop new products and expand its customer base both domestically and internationally. Competitive pressures may also result in decreased demand for the Company's products. Any of these factors could have a material adverse effect on the Company.

Table of Contents

ITEM 3. QUALITATIVE AND QUANTITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's exposure to market risk results primarily from fluctuations in interest rates. In addition the Company has international subsidiaries which expose the financial condition and results of operations to fluctuation in the rates of various foreign currencies. For the six months ended August 31, 2004, the foreign currency fluctuation was not material to the financial condition or results of operations of the Company.

In order to limit the effect of changes in interest the Company purchased, in February 2003 for \$125,000, a three year 4% LIBOR CAP on \$10 million of the Company's floating rate debt.

The Company averaged approximately \$25,671,000 and \$26,048,000 of variable rate debt during the six and three months ended August 31, 2004, respectively. If interest rates would have increased by 10%, the effect on the Company would have been an increase in interest expense of approximately \$64,000 for the six months ended August 31, 2004 and \$65,000 for the three months ended August 31, 2004.

The Company issued 325,000 warrants associated with certain of its previously existing subordinated debt. These warrants contain put and call provisions as defined in the agreement. If the fair value of the warrant changes by \$0.10, the effect on the Company would be an adjustment to earnings of \$32,500.

ITEM 4. CONTROLS AND PROCEDURES

(a) *Evaluation of Disclosure Controls and Procedures.* As of the end of the period covered by this report, the Company evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)), under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer. Based upon such evaluation, management has concluded that the Company's disclosure controls and procedures are effective to ensure that the information the Company is required to disclose in reports that it files or submits under the Securities Exchange Act of 1934 is communicated to management, including, the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure, and is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

(b) *Changes in Internal Controls Over Financial Reporting.* There were no significant changes in the Company's internal controls over financial reporting or in other factors that could significantly affect such internal controls subsequent to the date of our most recent evaluation.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

The Company disclosed in its Form 10-Q filed on July 14, 2003 for the quarterly period ended May 31, 2004, that one of its inactive subsidiaries, Roberts Holdings International, Inc. (Roberts Holding), was named as a third party defendant in a case that was pending before the United States District Court for the Western District of Michigan. The case was *Strebtor Inc. v. International Paper Co.*, Case No. 1:02 CV0948, Western District of Michigan, Southern Division. In September 2004, the Company settled this matter for \$200,000 payable over five years.

Item 4. Submission of Matters to Vote of Security Holders

The Annual Meeting of Shareholders of the Company was held on July 17, 2004. The following matters were voted upon at the Annual Meeting:

(i) The election of the following five members to the Company's Board of Directors:

Leonard Gould	votes for:	3,257,554	votes withheld:	82,987
Lewis Gould	votes for:	3,254,904	votes withheld:	85,637
Christian Nast	votes for:	3,263,904	votes withheld:	76,637
Emil Vogel	votes for:	3,263,904	votes withheld:	76,637
Geary Cotton	votes for:	3,259,779	votes withheld:	80,762

There were no broker non-votes cast with respect to this proposal.

(ii) Proposal to ratify and approve an amendment to the Q.E.P. Co., Inc. Omnibus Stock Plan of 1966 (the Plan) (i) to increase from 500,000 to 1,000,000, the number of shares of the Company's Common Stock that may be issued thereunder; (ii) to extend the termination date of the Plan from June 20, 2006 until June 20, 2014; and (iii) to make certain other changes.

For:	1,981,590
Against:	499,343
Abstain:	5,100
Not voted:	854,508

There were no broker non-votes cast with respect to this proposal.

(iii) The ratification of the appointment of Grant Thornton LLP as the Company's independent certified public accountants for the fiscal year ending February 28, 2005.

Edgar Filing: QEP CO INC - Form 10-Q

For:	3,329,516
Against:	9,975
Abstain:	1,050

There were no broker non-votes cast with respect to this proposal.

Table of ContentsItem 5. Other Information

On August 20, 2004, the Company's Board of Directors adopted Amended and Restated Bylaws to provide for more efficient and effective operation of the Company and the Board of Directors. Certain changes in the Amended and Restated Bylaws affect the procedures by which security holders may recommend nominees to the Board of Directors. Pursuant to the Bylaws, security holders may recommend nominees to the Company's Board of Directors by submitting a written notice to the Company in strict compliance with Section 11 of the Bylaws. Although no changes were made to the substantive requirements of Section 11, the Bylaws as originally drafted provided for a period of time during which security holders could amend a written notice submitted to the Company that was not in compliance with Section 11. The Amended and Restated Bylaws do not provide for such a cure period.

Item 6. Exhibits

Exhibit Number	Description
3.1	Certificate of Incorporation of the Company ⁽¹⁾
3.2	By-Laws of the Company, as amended on August 20, 2004 ⁽²⁾
