Letter From the Chairman

R. Jay Gerken, CFA

Chairman and Chief Executive Officer

Dear Shareholder,

Despite rising interest rates, climbing oil prices, geopolitical concerns and uncertainties surrounding the U.S. Presidential election, the U.S. economy continued to expand during the period. Following a 3.3% gain in the second quarter of 2004, gross domestic product (GDP growth was a robust 4.0% in the third quarter and 3.8% in the fourth quarter. After the end of the Fund's reporting period, the advance first quarter 2005 GDP figure was revised up to 3.5% from 3.1%.

Given the overall strength of the economy, the Federal Reserve Board (Fed) moved to raise interest rates in an attempt to ward off inflation. As expected, the Fed increased its target for the federal funds rateⁱⁱⁱ by 0.25% to 1.25% on June 30, 2004 the first rate hike in four years. The Fed again raised rates in 0.25% increments at each of its next six meetings. The Fed again raised rates in early May, after the reporting period concluded, bringing the target for the federal funds rate to 3.00%.

For much of the reporting period, the fixed income market confounded many investors as short-term interest rates rose in concert with the Fed rate tightening, while longer-term rates, surprisingly, remained fairly steady. However, this began to change in late February 2005, as strong economic data and inflationary concerns caused longer-term rates to rise as well. This continued through March, before longer-term rates again declined on the back of mixed economic data. Looking at the period as a whole, the overall bond market, as measured by the Lehman Brothers Aggregate Bond Index,^{iv} returned 5.26%.

Despite a strong start to the reporting period, the high-yield market gave back some of its gains as the reporting period progressed. This reversal of fortune occurred as investors became concerned over the potential for several high profile bond downgrades, including General Motors and Ford Motor Company. Over the one-year period, the Citigroup High Yield Market Index^v returned 6.09%.

During the one-year period, emerging markets debt, as represented by the JPMorgan Emerging Markets Bond Index Global (EMBI Globalⁱⁱ) returned 14.60%. Continually improving country fundamentals and strong market technicals outweighed the downward pressure exerted throughout the period by Fed tightening. Continued strength in commodity prices, including metals, agriculture, and oil, provided positive support for many emerging market countries.

Please read on for a more detailed look at prevailing economic and market conditions during the Fund's fiscal year and to learn how those conditions have affected Fund performance.

Information About Your Fund

Edgar Filing: SALOMON BROTHERS HIGH INCOME FUND II INC - Form N-CSR

As you may be aware, several issues in the mutual fund industry have recently come under the scrutiny of federal and state regulators. The Fund's Adviser and some of its affiliates have received requests for information from various government regulators regarding market timing, late trading, fees, and other mutual fund issues in connection with various investigations. The regulators appear to be examining, among other things, the Fund's response to market timing and shareholder exchange activity, including compliance with prospectus disclosure related to these subjects. The Fund has been informed that the Adviser and its affiliates are responding to those information requests, but are not in a position to predict the outcome of these requests and investigations.

SALOMON BROTHERS HIGH INCOME FUND II INC.

Important information concerning the Fund and its Adviser with regard to recent regulatory developments is contained in the Additional Information note in the Notes to the Financial Statements included in this report.

As always, thank you for your confidence in our stewardship of your assets. We look forward to helping you continue to meet your financial goals.

Sincerely,

R. Jay Gerken, CFA

Manager Overview

Performance Review

During the 12 months ended April 30, 2005, the Salomon Brothers High Income Fund II returned 5.39%, based on its New York Stock Exchange (NYSE) market price and 12.13% based on its net asset value (NAV) per share. In comparison, its benchmark, the unmanaged Citigroup High-Yield Market Index, returned 6.09% and its Lipper High Current Yield (leveraged) Closed-end Funds Category Average¹ returned 8.59% over the same time frame. Please note that Lipper performance returns are based on each fund's NAV.

During the 12-month period, the Fund made distributions to shareholders totaling \$1.22 per share (which may include return of capital). On May 5, 2005, after the close of the Fund's annual reporting period, the Fund announced a dividend from ordinary income for the months of June, July and August of \$0.080 per common share, down from the \$0.095 monthly dividend paid in each of the previous eight months. In declaring the new rate, the Fund cited its positive returns over the past three years, which generated substantial gains but, in turn, reduced the investment income available for distributions. This decline in investment income is a function of lower interest rates combined with the large volume of debt redemptions in the high yield market. The substantial spread tightening in the high yield and emerging debt markets also reduced investment income. The performance table shows the Fund's 30-day SEC yield as well as its 12-month total return based on its NAV and market price as of April 30, 2005. **Past performance is no guarantee of future results. The Fund's yields will vary.**

FUND PERFORMANCE

AS OF APRIL 30, 2005

(unaudited)

Price Per Share	30-Day SEC Yield	12-Month Total Return
\$ 11.10 (NAV)	8.10%	12.13%
\$ 11.14 (Market Price)	8.07%	5.39%

All figures represent past performance and are not a guarantee of future results. The Fund's yields will vary.

Total returns are based on changes in NAV or market price, respectively. Total returns assume the reinvestment of all distributions. The SEC yield is a return figure often quoted by bond and other fixed-income mutual funds. This quotation is based on the most recent 30-day (or one-month) period covered by the Fund's filings with the SEC. The yield figure reflects the income dividends and interest earned during the period after deduction of the Fund's expenses for the period. These yields are as of April 30, 2005 and are subject to change.

High Yield Market Review

Edgar Filing: SALOMON BROTHERS HIGH INCOME FUND II INC - Form N-CSR

During the 12 months ended April 30, 2005, the high yield market, as represented by the Citigroup High Yield Market Index, returned 6.09%. High yield started the Fund's fiscal year down, with a sharp decline in May 2004, as an improving labor market and fears of rising inflation sparked a sell-off in U.S. Treasury

¹ Lipper, Inc. is a major independent mutual-fund tracking organization. Returns are based on the 12-month period ended April 30, 2005, calculated among the 28 funds in the Fund's Lipper category including the reinvestment of dividends and capital gains, if any.

bonds. Large mutual fund outflows, continued profit taking and greater focus on individual company fundamentals also contributed to negative returns.

However, the high-yield bond market rallied for the remainder of 2004 as investors gained confidence that inflation was contained and the Fed would continue to raise rates at a measured pace. This resulted in a strong rally in U.S. Treasuries and tighter spreads across fixed income asset classes. Reduced U.S. Treasury market volatility, combined with the continued low interest rate environment, set a positive tone for high yield, engendering generally positive mutual fund flows and contributing both to the record number of deals that came to market during the year and strong demand for higher yielding assets. Additionally, default rates reached 20-year lows as the improving economy and the low interest rate environment enabled companies to extend their debt maturities and improve their liquidity.

Rising oil prices, weak equity markets and more hawkish comments from the Fed regarding inflation led the market back down in the first four months of 2005. The steady stream of negative auto sector headlines late in the period, including General Motor's unexpected negative earnings warning in mid-March and Ford's reduced earnings guidance and second quarter production cuts announced in late April, reintroduced investor fears of both companies' potential downgrades to high yield status. This caused spreads to widen dramatically within the auto sector and across fixed income credit markets. Continued high commodity prices, higher inflation and fears of an economic slowdown heightened market volatility near the end of the period, leading some investors to re-price risk in the market.

Based on the 8.27% yield^{viii} of the Citigroup High Market Yield Index as of April 30, 2005, high-yield bonds continued to offer competitive yields relative to U.S. Treasury notes.^{ix} However, high-yield issues are subject to additional risks, such as the increased possibility of default because of their lower credit quality, and yields and prices will fluctuate.

Emerging Markets Debt Review

Emerging markets debt returned 14.60% during the 12 months ended April 30, 2005, as represented by the JPMorgan Emerging Markets Bond Index Global. Improving country fundamentals and strong market technicals offset the downward pressure exerted by increases in the fed funds rate and, during the last two months of the period, credit contagion from the auto sector.

Sovereign debt markets sold off at the start of the Fund's fiscal year in May 2004 as investors reacted to upward pressure in interest rates, an extremely strong March U.S. jobs report and rising inflationary concerns. In line with the increased uncertainty in the market, sovereign spreads widened out to 549 basis points over U.S. Treasuries during the month, a level not seen since May of 2003. However, sovereign markets recovered in June and rallied through the remainder of 2004 based on strong underlying country fundamentals, commodity price strength and relatively low U.S. Treasury market volatility.

Emerging debt markets continued to trend positive during the first two months of 2005 despite concerns over the path of U.S. interest rates, risks of higher inflation and new bond issuance weighing on the market. However, indications of potentially more aggressive tightening (50-basis-point^x increments) from the Federal Reserve and increasingly prominent inflation worries led the market down in March, broadly in line with the U.S. Treasury market. Emerging debt markets remained under pressure in early April as spillover from volatile credit markets, with the highly visible troubles in the auto sector, worsened technicals, but markets recovered later in the month as U.S. Treasury market volatility declined and country fundamentals remained broadly supportive.

SALOMON BROTHERS HIGH INCOME FUND II INC.

Emerging markets debt fundamentals remained strong throughout the period, with continued progress on political and economic reforms in many emerging market countries and the generally positive macro environment supporting broad credit quality improvements across emerging markets. Continued strength in commodity prices, including metals, agriculture, and oil, also provided positive support for many emerging market economies. Oil prices, in particular, remained high, favoring oil exporters, although fears remained that high-energy prices might dampen the global recovery.

Spreads tightened 84 basis points during the 12-month period ended April 30, 2005, closing at 384 basis points over U.S. Treasuries. Over the period, 12-month return volatility stood at 6.83%,^{xi} substantially below long-term, historical levels of approximately 16%.

Factors Influencing Fund Performance

Over the 12 months ending April 30, 2005, the Fund benefited from its overweighting of the Tower and Chemicals sectors and underweighting of the Airlines and Retail sectors. However, our overweight in the Cable & Media sector and underweight in the Telecommunications sector detracted from performance over the 12 months. On the whole, security selection contributed positively to Fund performance. Issuer selection was particularly strong in the Cable & Media, Tower, Telecommunications and Utilities sectors but weak in Pharmaceuticals, Containers, Food Processing, Beverage & Bottling and Consumer Products/Tobacco.

Within the Fund's emerging markets debt component, performance over the period was primarily driven by macroeconomic and market factors, as outlined in the market overview section above, rather than individual country events. That said, our overweight positions in Brazil and Ecuador and our underweights in Mexico, Turkey and Malaysia positively contributed to overall performance during the period. Our overweights to Argentina and Morocco detracted from fund performance relative to the unmanaged benchmark. The use of leverage positively contributed to the Fund's performance during the period.

RISKS: As interest rates rise, bond prices fall, reducing the value of the Fund. The Fund may use derivatives, such as options and futures, which can be illiquid, may disproportionately increase losses, and have a potentially large impact on fund performance. High yield bonds involve greater credit and liquidity risks than investment grade bonds. Foreign securities are subject to certain risks not associated with domestic investing, such as currency fluctuations and changes in political and economic conditions which could result in significant fluctuations. The risks are magnified in emerging markets. Please see the Fund's prospectus for more information on these and other risks.

Notes to Financial Statements

Note 1. Significant Accounting Policies

Salomon Brothers High Income Fund II Inc. (Fund) was incorporated in Maryland and is registered as a diversified, closed-end, management investment company under the Investment Company Act of 1940 (the 1940 Act), as amended. The Fund seeks to maximize current income by investing at least 80% of its net assets plus any borrowings for investment purposes in high yield debt securities (as defined in the Fund s prospectus). As a secondary objective, the Fund seeks capital appreciation to the extent consistent with its objective of seeking to maximize current income.

The following are significant accounting policies consistently followed by the Fund. These policies are in conformity with U.S. generally accepted accounting principles (GAAP). Estimates and assumptions are required to be made regarding assets, liabilities and changes in net assets resulting from operations when financial statements are prepared. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ.

(a) INVESTMENTS VALUATION. Debt securities are valued at the mean between the bid and asked price provided by an independent pricing service that are based on transactions in debt obligations, quotations from bond dealers, market transactions in comparable securities and various relationships between securities. Equity securities for which market quotations are available are valued at the last sale price or official closing price on the primary market or exchange on which they trade. Publicly traded foreign government debt securities are typically traded internationally in the over-the-counter market, and are valued at the mean between the bid and asked price as of the close of business of that market. However, when the spread between the bid and asked price exceeds five percent of the par value of the security, the security is valued at the bid price. When prices are not readily available, or are determined not to reflect fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the Fund calculates its net asset value, the Fund may value these investments at fair value as determined in accordance with the procedures approved by the Fund s Board of Directors. Short-term obligations with maturities of 60 days or less are valued at amortized cost, which approximates market value.

(b) REPURCHASE AGREEMENTS. When entering into repurchase agreements, it is the Fund s policy that its custodian or a third party custodian take possession of the underlying collateral securities, the market value of which at least equals the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market to ensure the adequacy of the collateral. If the seller defaults, and the market value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

SALOMON BROTHERS HIGH INCOME FUND II INC.

Notes to Financial Statements (continued)

(c) **REVERSE REPURCHASE AGREEMENTS.** The Fund may enter into reverse repurchase agreements in which the Fund sells portfolio securities and agrees to repurchase them from the buyer at a specified date and price. Whenever the Fund enters into a reverse repurchase agreement, the Fund's custodian delivers liquid assets to the counterparty in an amount at least equal to the repurchase price marked-to-market (including accrued interest). The Fund pays interest on amounts obtained pursuant to reverse repurchase agreements. Reverse repurchase agreements are considered to be borrowings which may create leverage risk by the Fund.

(d) **FORWARD FOREIGN CURRENCY CONTRACTS.** The Fund may enter into forward foreign currency contracts to hedge against foreign currency exchange rate risk on its non-U.S. dollar denominated securities or to facilitate settlement of foreign currency denominated portfolio transactions. A forward foreign currency contract is an agreement between two parties to buy and sell a currency at a set price on a future date. The contract is marked-to-market daily and the change in value is recorded by the Fund as an unrealized gain or loss. When a forward foreign currency contract is extinguished, through either delivery or offset by entering into another forward foreign currency contract, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value of the contract at the time it was extinguished.

Forward foreign currency contracts involve elements of market risk in excess of the amounts reflected in the Statements of Assets and Liabilities. The Fund bears the risk of an unfavorable change in the foreign exchange rate underlying the forward foreign currency contract. Risks may also arise upon entering into these contracts from the potential inability of the counterparties to meet the terms of their contracts.

(e) **CREDIT DEFAULT SWAPS.** The Fund enters into credit default swap contracts (swaps) for investment purposes, to manage its credit risk or to add leverage. As a seller in a credit default swap contract, the Fund is required to pay the notional or other agreed-upon value to the counterparty in the event of a default by a third party, such as a U.S. or foreign corporate issuer, on the referenced debt obligation. In return, the Fund receives from the counterparty a periodic stream of payments over the term of the contract provided that no event of default has occurred. If no default occurs, the Fund keeps the stream of payments and has no payment obligations. Such periodic payments are accrued daily and accounted for as realized gain.

The Fund may also purchase credit default swap contracts in order to hedge against the risk of default of debt securities held, in which case the Fund functions as the counterparty referenced in the preceding paragraph. As a purchaser of a credit default swap contract, the Fund receives the notional or other agreed upon value from the counterparty in the event of a default by a third party, such as a U.S. or foreign corporate issuer on the referenced debt obligation. In return, the Fund makes periodic payments to the counterparty over the term of the contract provided no event of default has occurred. Such periodic payments are accrued daily and accounted for as realized loss.

SALOMON BROTHERS HIGH INCOME FUND II INC.

Notes to Financial Statements (continued)

Swaps are marked-to-market daily based upon quotations from market makers and the change in value, if any, is recorded as unrealized appreciation or depreciation in the Fund's Statement of Operations. For a credit default swap sold by the Fund, payment of the agreed upon amount made by the Fund in the event of default of the referenced debt obligation is recorded as the cost of the referenced debt obligation purchased/received. For a credit default swap purchased by the Fund, the agreed upon amount received by the Fund in the event of default of the referenced debt obligation is recorded as proceeds from sale/delivery of the referenced debt obligation and the resulting gain or loss realized on the referenced debt obligation is recorded as such by the Fund.

Entering into Credit Default Swaps involves, to varying degrees, elements of credit, market and documentation risk in excess of the related amounts recognized on the Statement of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreements may default on its obligation to perform or disagree as to the meaning of the contractual terms in the agreements, and that there will be unfavorable changes in net interest rates.

(f) LENDING OF PORTFOLIO SECURITIES. The Fund has an agreement with its custodian whereby the custodian may lend securities owned by the Fund to brokers, dealers and other financial organizations. In exchange for lending securities under the terms of the agreement with its custodian, the Fund receives a lender's fee. Fees earned by the Fund on securities lending are recorded as securities lending income. Loans of securities by the Fund are collateralized by cash, U.S. government securities or high quality money market instruments that are maintained at all times in an amount at least equal to the current market value of the loaned securities, plus a margin which varies depending on the type of securities loaned. The custodian establishes and maintains the collateral in a segregated account. The Fund has the right under the lending agreement to recover the securities from the borrower on demand.

The Fund maintains the risk of any loss on the securities on loan as well as the potential loss on investments purchased with cash collateral received from securities lending.

(g) LOAN PARTICIPATIONS. The Fund may invest in loans arranged through private negotiation between one or more financial institutions. The Fund's investment in any such loan may be in the form of a participation in or an assignment of the loan. In connection with purchasing participations, the Fund generally will have no right to enforce compliance by the borrower with the terms of the loan agreement relating to the loan, nor any rights of set-off against the borrower and the Fund may not benefit directly from any collateral supporting the loan in which it has purchased the participation.

The Fund will assume the credit risk of both the borrower and the lender that is selling the participation. In the event of the insolvency of the lender selling the participation, the Fund may be treated as a general creditor of the lender and may not benefit from any set-off between the lender and the borrower.

SALOMON BROTHERS HIGH INCOME FUND II INC.

Notes to Financial Statements (continued)

(h) **CREDIT AND MARKET RISK WITH EMERGING DEBT.** The Fund invests in high yield and emerging market instruments that are subject to certain credit and market risks. The yields of high yield and emerging market debt obligations reflect, among other things, perceived credit risk. The Fund's investment in securities rated below investment grade typically involve risks not associated with higher rated securities including, among others, greater risk related to timely and ultimate payment of interest and principal, greater market price volatility and less liquid secondary market trading. The consequences of political, social, economic or diplomatic changes may have disruptive effects on the market prices of investments held by the Fund. The Fund's investment in non-dollar denominated securities may also result in foreign currency losses caused by devaluations and exchange rate fluctuations.

(i) **CASH FLOW INFORMATION.** The Fund invests in securities and distributes dividends from net investment income and net realized gains from investment transactions which are paid in cash and may be reinvested at the discretion of shareholders. These activities are reported in the Statement of Changes in Net Assets and additional information on cash receipts and cash payments is presented in the Statement of Cash Flows.

(j) **SECURITY TRANSACTIONS AND INVESTMENT TRANSACTIONS.** Security transactions are accounted for on a trade date basis. Interest income, adjusted for amortization of premium and accretion of discount, is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. The cost of investments sold is determined by use of the specific identification method. To the extent any issuer defaults on an expected interest payment, the Fund's policy is to generally halt any additional interest income accruals and consider the realizability of interest accrued up to the date of default.

(k) **FOREIGN CURRENCY TRANSLATION.** Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts based upon prevailing exchange rates on the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts based upon prevailing exchange rates on the respective dates of such transactions.

The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss on investments.

Net realized foreign exchange gains or losses arise from sales of foreign currencies, including gains and losses on forward foreign currency contracts, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the amounts of dividends, interest and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities, at the date of valuation, resulting from changes in exchange rates.

SALOMON BROTHERS HIGH INCOME FUND II INC.

Notes to Financial Statements (continued)

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of U.S. dollar denominated transactions as a result of, among other factors, the possibility of lower levels of governmental supervision and regulation of foreign securities markets and the possibility of political or economic instability.

(l) **DISTRIBUTIONS TO SHAREHOLDERS.** Distributions from net investment income for the Fund, if any, are declared and paid on a monthly basis. Distributions of net realized gains, if any, are declared at least annually. Distributions are recorded on the ex-dividend date and are determined in accordance with income tax regulations, which may differ from GAAP. To the extent that the Fund's current year distributions of net investment income exceeds current year taxable income, such excess distributions will be taxable as ordinary income to shareholders to the extent of any capital loss carryforwards utilized.

(m) **FEDERAL AND OTHER TAXES.** It is the Fund's policy to comply with the federal income and excise tax requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, the Fund intends to distribute substantially all of its taxable income and net realized gains on investments, if any, to shareholders each year. Therefore, no federal income tax provision is required in the Fund's financial statements.

(n) **RECLASSIFICATION.** GAAP requires that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset values per share. During the year ended April 30, 2005, the following reclassifications have been made:

Overdistributed	Accumulated	
Net Investment	Net Realized	Paid-In
Income	Loss	Capital
\$ 15,157,125(a)		
\$ 43,026(b)	\$ (43,026)	\$ (15,157,125)

(a) *Reclassifications are primarily due to a taxable overdistribution.*

(b) *Reclassifications are primarily due to foreign currency transactions treated as ordinary income for tax purposes and differences between book and tax treatment of swap periodic payments.*

Note 2. Management Fee and Other Transactions with Affiliates

Salomon Brothers Asset Management Inc (Investment Manager), an indirect wholly-owned subsidiary of Citigroup Inc. (Citigroup), acts as investment manager to the Fund. The Investment Manager is responsible on a day-to-day basis for the management of the Fund's portfolio in accordance with the Fund's investment objectives and policies and for making decisions to buy, sell or hold particular securities of the Fund. The management fee for these services is payable monthly at an annual rate of 1.00% of the Fund's average weekly net assets plus the proceeds of any outstanding borrowings used for leverage.

SALOMON BROTHERS HIGH INCOME FUND II INC.

Notes to Financial Statements (continued)

Smith Barney Fund Management LLC (Administrator), another indirect wholly-owned subsidiary of Citigroup, acts as the Fund's administrator for which the Fund pays a monthly fee at an annual rate of 0.10% of the value of the Fund's average weekly net assets plus the proceeds of any outstanding borrowings used for leverage. The administrator performs certain administrative services necessary for the operation of the Fund.

During periods in which the Fund is utilizing financial leverage, the fees which are payable to the Investment Manager and Administrator as a percentage of the Fund's assets will be higher than if the Fund did not utilize leverage because the fees are calculated as a percentage of the Fund's assets, including those investments purchased with leverage.

Certain officers and/or Directors of the Fund are also officers and/or Directors of the Investment Manager and do not receive compensation from the Fund.

Note 3. Portfolio Activity

During the year ended April 30, 2005, the aggregate cost of purchases and proceeds from sales of investments (excluding short-term investments) were as follows:

Purchases	\$ 702,224,330
Sales	\$ 640,058,453

At April 30, 2005, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were as follows:

Gross unrealized appreciation	\$ 70,643,534
Gross unrealized depreciation	(67,294,060)
Net unrealized appreciation	\$ 3,349,474

Transactions in reverse repurchase agreements for the Fund during the year ended April 30, 2005 were as follow:

Effective Date:	3/16/05
Reference Entity:	Federative Republic of Brazil,
	12.250% due 3/6/30
Notional Amount:	\$16,000,000 Fixed Rate 3.600%
Termination Date:	3/20/10
Unrealized Depreciation:	\$(318,962)

Note 4. Loan

At April 30, 2005, the Fund had outstanding a \$300,000,000 loan pursuant to a revolving credit and security agreement with Crown Capital Company LLC, and Citicorp North America Inc. (CNA), an affiliate of SBAM. In addition, CNA acts as administrative agent. The loans generally bear interest at a variable rate based on the weighted average interest rates of the commercial paper or LIBOR, plus any applicable margin. Securities held by the Fund are subject to a lien, granted to the lenders, to the extent of the borrowing outstanding and any additional expenses. For the year ended April 30, 2005, the Fund paid interest on this loan in the amount of \$7,000,302.

Note 5. Dividends Subsequent to April 30, 2005

On February 4, 2005, the Board of Directors of the Fund declared dividends in the amount of \$0.095 per share payable on May 27, 2005 to shareholders of record on May 17, 2005.

On May 4, 2005, the Fund's Board declared three dividends, each in the amount of \$0.080 per share, payable on June 24, 2005, July 29, 2005 and August 26, 2005 to shareholders of record on June 14, 2005, July 12, 2005 and August 16, 2005, respectively.

Note 6. Income Tax Information and Distributions to Shareholders

The tax character of distributions paid by the Fund during the fiscal years ended April 30, were as follows:

	<u>2005</u>	<u>2004</u>
Distributions paid from Ordinary Income	\$ 93,751,761	\$ 103,492,241

SALOMON BROTHERS HIGH INCOME FUND II INC.

Notes to Financial Statements (continued)

As of April 30, 2005, the components of accumulated earnings on a tax basis were as follows:

Capital loss carryforward(a)	\$ (182,644,492)
Other book/tax temporary differences(b)	(306,543)
Unrealized appreciation(c)	3,030,421
	<hr/>
Total accumulated earnings/(losses)	\$ (179,920,614)
	<hr/>

(a) *During the taxable year ended April 30, 2005, the Fund utilized \$41,331,920 of its capital loss carryover available from prior years. On April 30, 2005 the Fund had net capital loss carryforwards as follows:*

<u>Year of Expiration</u>	<u>Amount</u>
4/30/2008	(1,111,684)
4/30/2009	(10,635,451)
4/30/2010	(93,766,174)
4/30/2011	(77,131,183)
	<hr/>
	\$ (182,644,492)
	<hr/>

These amounts will be available to offset any future taxable capital gains.

- (b) *Other book/tax temporary differences are attributable primarily to book/tax differences in the accrual of income on securities in default, deferral of post-October currency losses for tax purposes and differences in the book/tax treatment of various items.*
- (c) *The difference between book-basis and tax-basis unrealized appreciation is attributable primarily to the tax deferral of losses on wash sales and the difference between the book and tax cost basis of investments in passive foreign investment companies.*

Note 7. Change in Independent Registered Public Accounting Firm

PricewaterhouseCoopers LLP has resigned as the independent registered public accounting firm for the Fund effective upon completion of the audit for the Fund's 2005 fiscal year. The Fund's Audit Committee has approved the engagement of KPMG LLP as the Fund's new independent registered public accounting firm for the fiscal year ending April 30, 2006. A majority of the Fund's Board of Directors, including a majority of the Independent Directors, approved the appointment of KPMG LLP, subject to the right, of the Fund, by a majority vote of the shareholders at any meeting called for that purpose, to terminate the appointment without penalty.

The reports of PricewaterhouseCoopers LLP on the Fund's financial statement for each of the last two fiscal years contained no adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles. There have been no disagreements with PricewaterhouseCoopers LLP during the Fund's two most recent fiscal years and any subsequent interim period on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure which, if not resolved to the satisfaction of PricewaterhouseCoopers LLP, would have caused them to make reference thereto in their reports on the financial statements for such years.

Note 8. Additional Information

On May 31, 2005, the U.S. Securities and Exchange Commission (SEC) issued an order in connection with the settlement of an administrative proceeding against Smith Barney Fund Management LLC (SBFM) and Citigroup Global Markets Inc. (CGMI) (each an affiliate of the manager) relating to the appointment of an affiliated transfer agent for the Smith Barney family of mutual funds (the Affected Funds).

The SEC order finds that SBFM and CGMI willfully violated Section 206(1) of the Investment Advisers Act of 1940 (Advisers Act). Specifically, the order finds that SBFM and CGMI knowingly or recklessly failed to disclose to the boards of the Affected Funds in 1999 when proposing a new transfer agent arrangement with an affiliated transfer agent that: First Data Investors Services Group (First Data), the Affected Funds' then existing transfer agent, had offered to continue as transfer agent and do the same work for substantially less money than before; and that Citigroup Asset Management (CAM), the Citigroup business unit that includes the CAM-Managed funds' investment manager and other investment advisory companies, had entered into a side letter with First Data under which CAM agreed to recommend the appointment of First Data as sub-transfer agent to the affiliated transfer agent in exchange, among other things, for a guarantee by First Data of specified amounts of asset management and investment banking fees to CAM and CGMI. The order also finds that SBFM and CGMI willfully violated Section 206(2) of the Advisers Act by virtue of the omissions discussed above and other misrepresentations and omissions in the materials provided to the Affected Funds' boards, including the failure to make clear that the affiliated transfer agent would earn a high profit for performing limited functions while First Data continued to perform almost all of the transfer agent functions, and the suggestion that the proposed arrangement was in the Affected Funds' best interests and that no viable alternatives existed. SBFM and CGMI do not admit or deny any wrongdoing or liability. The settlement does not establish wrongdoing or liability for purposes of any other proceeding.

The SEC censured SBFM and CGMI and ordered them to cease and desist from violations of Sections 206(1) and 206(2) of the Advisers Act. The order requires Citigroup to pay \$208.1 million, including \$109 million in disgorgement of profits, \$19.1 million in interest, and a civil money penalty of \$80 million. Approximately \$24.4 million has already been paid to the Affected Funds, primarily through fee waivers. The remaining \$183.7 million, including the penalty, has been paid to the U.S. Treasury and will be distributed pursuant to a plan to be prepared by Citigroup and submitted within 90 days of the entry of the order for approval by the SEC. The order also requires that transfer agency fees received from the Affected Funds since December 1, 2004 less certain expenses be placed in escrow and provides that a portion of such fees may be subsequently distributed in accordance with the terms of the order.

SALOMON BROTHERS HIGH INCOME FUND II INC.

Notes to Financial Statements (continued)

The order requires SBFM to recommend a new transfer agent contract to the Affected Fund boards within 180 days of the entry of the order; if a Citigroup affiliate submits a proposal to serve as transfer agent or sub-transfer agent, an independent monitor must be engaged at the expense of SBFM and CGMI to oversee a competitive bidding process. Under the order, Citigroup must comply with an amended version of a vendor policy that Citigroup instituted in August 2004. That policy, as amended, among other things, requires that when requested by the board of CAM-Managed fund. CAM will retain at its own expense an independent consulting expert to advise and assist the board on the selection of certain service providers affiliated with Citigroup.

At this time, there is no certainty as to how the proceeds of the settlement will be distributed, to whom such distributions will be made, the methodology by which such distribution will be allocated, and when such distribution will be made. Although there can be no assurance, Citigroup does not believe that this matter will have a material adverse effect on the funds.

The Fund did not implement the transfer agent arrangement described above and therefore will not receive any portion of the distributions.

Note 9. Subsequent Event

On June 24, 2005, Citigroup announced that it has signed a definitive agreement under which Citigroup will sell substantially all of its worldwide asset management business to Legg Mason, Inc. (*Legg Mason*).

As part of this transaction, SBAM (the *Manager*), currently an indirect wholly owned subsidiary of Citigroup, would become an indirect wholly owned subsidiary of Legg Mason. The Manager is the investment adviser to the Fund.

The transaction is subject to certain regulatory approvals, as well as other customary conditions to closing. Subject to such approvals and the satisfaction of the other conditions, Citigroup expects the transaction to be completed later this year.

Under the Investment Company Act of 1940, consummation of the transaction will result in the automatic termination of the investment management contract between the Fund and the Manager. Therefore, the Fund's Board of Directors will be asked to approve a new investment management contract between the Fund and the Manager. If approved by the Board, the new investment management contract will be presented to the shareholders of the Fund for their approval.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of

Salomon Brothers High Income Fund II Inc.

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations and of changes in net assets and of cash flows and the financial highlights present fairly, in all material respects, the financial position of Salomon Brothers High Income Fund II Inc. (Fund) at April 30, 2005, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as financial statements) are the responsibility of the Fund s management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at April 30, 2005 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

Dividend Reinvestment Plan (unaudited)

Pursuant to certain rules of the Securities and Exchange Commission the following additional disclosure is provided.

Each shareholder purchasing shares of common stock (Shares) of Salomon Brothers High Income Fund II Inc. (Fund) will be deemed to have elected to be a participant in the Dividend Reinvestment Plan (Plan), unless the shareholder specifically elects in writing (addressed to the Agent at the address below or to any nominee who holds Shares for the shareholder in its name) to receive all income dividends and distributions of capital gains in cash, paid by check, mailed directly to the record holder by or under the direction of PFPC Inc. as the Fund's dividend-paying agent (Agent). A shareholder whose Shares are held in the name of a broker or nominee who does not provide an automatic reinvestment service may be required to take such Shares out of street name and register such Shares in the shareholder's name in order to participate, otherwise dividends and distributions will be paid in cash to such shareholder by the broker or nominee. Each participant in the Plan is referred to herein as a Participant. The Agent will act as Agent for each Participant, and will open accounts for each Participant under the Plan in the same name as their Shares are registered.

Unless the Fund declares a dividend or distribution payable only in the form of cash, the Agent will apply all dividends and distributions in the manner set forth below.

If, on the determination date (as defined below), the market price per Share equals or exceeds the net asset value per Share on that date (such condition, a market premium), the Agent will receive the dividend or distribution in newly issued Shares of the Fund on behalf of Participants. If, on the determination date, the net asset value per Share exceeds the market price per Share (such condition, a market discount), the Agent will purchase Shares in the open market. The determination date will be the fourth New York Stock Exchange trading day (a New York Stock Exchange trading day being referred to herein as a Trading Day) preceding the payment date for the dividend or distribution. For purposes herein, market price will mean the average of the highest and lowest prices at which the Shares sell on the New York Stock Exchange on the particular date, or if there is no sale on that date, the average of the closing bid and asked quotations.

Purchases made by the Agent will be made as soon as practicable commencing on the Trading Day following the determination date and terminating no later than 30 days after the dividend or distribution payment date except where temporary curtailment or suspension of purchase is necessary to comply with applicable provisions of federal securities law; provided, however, that such purchases will, in any event, terminate on the Trading Day prior to the ex-dividend date next succeeding the dividend or distribution payment date.

If (i) the Agent has not invested the full dividend amount in open market purchases by the date specified at the bottom of the prior page as the date on which such purchases must terminate or (ii) a market discount shifts to a market premium during the purchase period, then the

SALOMON BROTHERS HIGH INCOME FUND II INC.

Dividend Reinvestment Plan (unaudited) (continued)

Agent will cease making open market purchases and will receive the uninvested portion of the dividend amount in newly issued Shares (x) in the case of (i) above, at the close of business on the date the Agent is required to terminate making open market purchases as specified at the bottom of the prior page or (y) in the case of (ii) above, at the close of business on the date such shift occurs; but in no event prior to the payment date for the dividend or distribution.

In the event that all or part of a dividend or distribution amount is to be paid in newly issued Shares, such Shares will be issued to Participants in accordance with the following formula: (i) if, on the valuation date, the net asset value per share is less than or equal to the market price per Share, then the newly issued Shares will be valued at net asset value per Share on the valuation date provided, however, that if the net asset value is less than 95% of the market price on the valuation date, then such Shares will be issued at 95% of the market price and (ii) if, on the valuation date, the net asset value per share is greater than the market price per Share, then the newly issued Shares will be issued at the market price on the valuation date. The valuation date will be the dividend or distribution payment date, except that with respect to Shares issued pursuant to the paragraph above, the valuation date will be the date such Shares are issued. If a date that would otherwise be a valuation date is not a Trading Day, the valuation date will be the next preceding Trading Day.

The open market purchases provided for above may be made on any securities exchange on which the Shares of the Fund are traded, in the over-the-counter market or in negotiated transactions, and may be on such terms as to price, delivery and otherwise as the Agent shall determine. Funds held by the Agent uninvested will not bear interest, and it is understood that, in any event, the Agent shall have no liability in connection with any inability to purchase Shares within the time periods herein provided, or with the timing of any purchases effected. The Agent shall have no responsibility as to the value of the Shares acquired for the Participant's account. The Agent may commingle amounts of all Participants to be used for open market purchases of Shares and the price per Share allocable to each Participant in connection with such purchases shall be the average price (including brokerage commissions) of all Shares purchased by the Agent.

The Agent will maintain all Participant accounts in the Plan and will furnish written confirmations of all transactions in each account, including information needed by Participants for personal and tax records. The Agent will hold Shares acquired pursuant to the Plan in noncertificated form in the Participant's name or that of its nominee, and each Participant's proxy will include those Shares purchased pursuant to the Plan. The Agent will forward to Participants any proxy solicitation material and will vote any Shares so held for Participants only in accordance with the proxy returned by Participants to the Fund. Upon written request, the Agent will deliver to Participants, without charge, a certificate or certificates for the full Shares.

The Agent will confirm to Participants each acquisition made for their respective accounts as soon as practicable but not later than 60 days after the date thereof. Although Participants may

from time to time have an undivided fractional interest (computed to three decimal places) in a Share of the Fund, no certificates for fractional shares will be issued. Dividends and distributions on fractional shares will be credited to each Participant's account. In the event of termination of a Participant's account under the Plan, the Agent will adjust for any such undivided fractional interest in cash at the market value of the Fund's Shares at the time of termination less the pro rata expense of any sale required to make such an adjustment.

Any share dividends or split shares distributed by the Fund on Shares held by the Agent for Participants will be credited to their respective accounts. In the event that the Fund makes available to Participants rights to purchase additional Shares or other securities, the Shares held for Participants under the Plan will be added to other Shares held by the Participants in calculating the number of rights to be issued to Participants.

The Agent's service fee for handling capital gains distributions or income dividends will be paid by the Fund. Participants will be charged a pro rata share of brokerage commissions on all open market purchases.

Participants may terminate their accounts under the Plan by notifying the Agent in writing or by calling 1-800-331-1710. Such termination will be effective immediately if notice is received by the Agent not less than ten days prior to any dividend or distribution record date; otherwise such termination will be effective on the first Trading Day after the payment due for such dividend or distribution with respect to any subsequent dividend or distribution. The Plan may be amended or terminated by the Fund as applied to any dividend or capital gains distribution paid subsequent to written notice of the change or termination sent to Participants at least 30 days prior to the record date for the dividend or capital gains distribution. The Plan may be amended or terminated by the Agent, with the Fund's prior written consent, on at least 30 days' written notice to Plan Participants. Notwithstanding the preceding two sentences, the Agent or the Fund may amend or supplement the Plan at any time or times when necessary or appropriate to comply with applicable law or rules or policies of the Securities and Exchange Commission or any other regulatory authority. Upon any termination, the Agent will cause a certificate or certificates for the full Shares held by each Participant under the Plan and cash adjustment for any fraction to be delivered to each Participant without charge. If the Participant elects by notice to the Agent in writing in advance of such termination to have the Agent sell part or all of a Participant's Shares and remit the proceeds to Participant, the Agent is authorized to deduct a \$2.50 fee plus brokerage commission for this transaction from the proceeds.

Any amendment or supplement shall be deemed to be accepted by each Participant unless, prior to the effective date thereof, the Agent receives written notice of the termination of the Participant's account under the Plan. Any such amendment may include an appointment by the Agent in its place and stead of a successor Agent under these terms and conditions, with full power and authority to perform all or any of the acts to be performed by the Agent under these terms and conditions. Upon any such appointment of an Agent for the purpose of receiving

dividends and distributions, the Fund will be authorized to pay to such successor Agent, for each Participant's account, all dividends and distributions payable on Shares of the Fund held in each Participant's name or under the Plan for retention or application by such successor Agent as provided in these terms and conditions.

In the case of Participants, such as banks, broker-dealers or other nominees, which hold Shares for others who are beneficial owners (Nominee Holders), the Agent will administer the Plan on the basis of the number of Shares certified from time to time by each Nominee Holder as representing the total amount registered in the Nominee Holder's name and held for the account of beneficial owners who are to participate in the Plan.

The Agent shall at all times act in good faith and use its best efforts within reasonable limits to insure the accuracy of all services performed under this Agreement and to comply with applicable law, but assumes no responsibility and shall not be liable for loss or damage due to errors unless such error is caused by its negligence, bad faith, or willful misconduct or that of its employees.

All correspondence concerning the Plan should be directed to the Agent at P.O. Box 43027, Providence, RI 02940-3027.

ITEM 2. CODE OF ETHICS.

The registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Board of Directors of the registrant has determined that William R. Hutchinson, the Chairman of the Board's Audit Committee, possesses the technical attributes identified in Instruction 2(b) of Item 3 to Form N-CSR to qualify as an audit committee financial expert, and has designated Mr. Hutchinson as the Audit Committee's financial expert. Mr. Hutchinson is an independent Director pursuant to paragraph (a) (2) of Item 3 to Form N-CSR.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

a) Audit Fees. The aggregate fees billed in the last two fiscal years ending April 30, 2004 and April 30, 2005 (the Reporting Periods) for professional services rendered by the Registrant's principal accountant (the Auditor) for the audit of the Registrant's annual financial statements, or services that are normally provided by the Auditor in connection with the statutory and regulatory filings or engagements for the Reporting Periods, were \$33,000 in 2004 and \$33,000 in 2005.

b) Audit-Related Fees. The aggregate fees billed in the Reporting Periods for assurance and related services by the Auditor that are reasonably related to the performance of the audit of the Registrant's financial statements and are not reported under paragraph (a) of this Item 4 were \$0.00 in 2004 and \$8,500 in 2005. These services consisted of the agreed upon procedures performed in connection with the revolving credit facility of Salomon Brothers High Income Fund II Inc.

In addition, there were no Audit-Related Fees billed in the Reporting Period for assurance and related services by the Auditor to the Registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by or under common control with the investment adviser that provides ongoing services to the Salomon Brothers High Income Fund II Inc., (service affiliates), that were reasonably related to the performance of the annual audit of the service affiliates. Accordingly, there were no such fees that required pre-approval by the Audit Committee for the Reporting Periods (prior to May 6, 2003 services provided by the Auditor were not required to be pre-approved).

(c) Tax Fees. The aggregate fees billed in the Reporting Periods for professional services rendered by the Auditor for tax compliance, tax advice and tax planning (Tax Services) were \$3,600 in 2004 and \$7,300 in 2005. These services consisted of (i) review of U.S. federal, state and local tax returns; (ii) U.S. federal, state and local tax planning, advice and assistance regarding statutory, regulatory or administrative developments, and (iii) tax advice regarding tax qualification matters and/or treatment of various financial instruments held or proposed to be acquired or held.

There were no fees billed for tax services by the Auditors to service affiliates during the Reporting Periods that required pre-approval by the Audit Committee.

(d) All Other Fees. There were no other fees billed in the Reporting Periods for products and services provided by the Auditor, other than the services reported in paragraphs (a) through (c) of this Item for the Salomon Brothers High Income Fund II Inc.

All Other Fees. The aggregate fees billed for all other non-audit services rendered by the Auditor to Salomon Brothers Asset Management (SBAM), and any entity controlling, controlled by or under common control with SBAM that provided ongoing services to Salomon Brothers High Income Fund II Inc., requiring pre-approval by the Audit Committee for the period May 6, 2003 through April 30, 2004 and for the year ended April 30, 2005, which include the issuance of reports on internal control under SAS

No. 70 related to various Citigroup Asset Management (CAM) entities a profitability review of the Adviser and phase 1 of an analysis of Citigroup's current and future real estate occupancy requirements in the tri-state area and security risk issues in the New York metro region were \$0.0 and \$1.3 million, respectively, all of which were pre-approved by the Audit Committee.

(e)(1) Audit Committee's pre-approval policies and procedures described in paragraph (c) (7) of Rule 2-01 of Regulation S-X.

The Charter for the Audit Committee (the Committee) of the Board of each registered investment company (the Fund) advised by Smith Barney Fund Management LLC or Salomon Brothers Asset Management Inc. or one of their affiliates (each, an Adviser) requires that the Committee shall approve (a) all audit and permissible non-audit services to be provided to the Fund and (b) all permissible non-audit services to be provided by the Fund's independent auditors to the Adviser and any Covered Service Providers if the engagement relates directly to the operations and financial reporting of the Fund. The Committee may implement policies and procedures by which such services are approved other than by the full Committee.

The Committee shall not approve non-audit services that the Committee believes may impair the independence of the auditors. As of the date of the approval of this Audit Committee Charter, permissible non-audit services include any professional services (including tax services), that are not prohibited services as described below, provided to the Fund by the independent auditors, other than those provided to the Fund in connection with an audit or a review of the financial statements of the Fund. Permissible non-audit services may not include: (i) bookkeeping or other services related to the accounting records or financial statements of the Fund; (ii) financial information systems design and implementation; (iii) appraisal or valuation services, fairness opinions or contribution-in-kind reports; (iv) actuarial services; (v) internal audit outsourcing services; (vi) management functions or human resources; (vii) broker or dealer, investment adviser or investment banking services; (viii) legal services and expert services unrelated to the audit; and (ix) any other service the Public Company Accounting Oversight Board determines, by regulation, is impermissible.

Pre-approval by the Committee of any permissible non-audit services is not required so long as: (i) the aggregate amount of all such permissible non-audit services provided to the Fund, the Adviser and any service providers controlling, controlled by or under common control with the Adviser that provide ongoing services to the Fund (Covered Service Providers) constitutes not more than 5% of the total amount of revenues paid to the independent auditors during the fiscal year in which the permissible non-audit services are provided to (a) the Fund, (b) the Adviser and (c) any entity controlling, controlled by or under common control with the Adviser that provides ongoing services to the Fund during the fiscal year in which the services are provided that would have to be approved by the Committee; (ii) the permissible non-audit services were not recognized by the Fund at the time of the engagement to be non-audit services; and (iii) such services are promptly brought to the attention of the Committee and approved by the Committee (or its delegate(s)) prior to the completion of the audit.

(2) For the Salomon Brothers High Income Fund II Inc., the percentage of fees that were approved by the audit committee, with respect to: Audit-Related Fees were 100% and 100% for the years ended 4/30/05 and 4/30/04; Tax Fees were 100% and 100% for the years ended 4/30/05 and 4/30/04; and Other Fees were 100% and 100% for the years ended 4/30/05 and 4/30/04.

(f) N/A

(g) Non-audit fees billed by the Auditor for services rendered to Salomon Brothers High Income Fund II Inc., and CAM and any entity controlling, controlled by, or under common control with CAM that provides ongoing services to Salomon Brothers High Income Fund II Inc., during the reporting period were \$6.4 million and \$2.7 million for the years ended April 30, 2004 and April 30, 2005, respectively.

(h) Yes. The Salomon Brothers High Income Fund II Inc.'s Audit Committee has considered whether the provision of non-audit services that were rendered to Service Affiliates which were not pre-approved (not requiring pre-approval) is compatible with maintaining the Auditor's independence. All services provided by the Auditor to the Salomon Brothers High Income Fund II Inc., or to Service Affiliates, which were required to be pre-approved, were pre-approved as required.

ITEM 6. SCHEDULE OF INVESTMENTS.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The Board of Directors of the Fund has delegated the authority to develop policies and procedures relating to proxy voting to the Manager. The Manager is part of Citigroup Asset Management (CAM), a group of investment adviser affiliates of Citigroup, Inc. (Citigroup). Along with the other investment advisers that comprise CAM, the Manager has adopted a set of proxy voting policies and procedures (the Policies) to ensure that the Manager votes proxies relating to equity securities in the best interest of clients.

In voting proxies, the Manager is guided by general fiduciary principles and seeks to act prudently and solely in the best interest of clients. The Manager attempts to consider all factors that could affect the value of the investment and will vote proxies in the manner that it believes will be consistent with efforts to maximize shareholder values. The Manager may utilize an external service provider to provide it with information and/or a recommendation with regard to proxy votes. However, such recommendations do not relieve the Manager of its responsibility for the proxy vote.

In the case of a proxy issue for which there is a stated position in the Policies, CAM generally votes in accordance with such stated position. In the case of a proxy issue for which there is a list of factors set forth in the Policies that CAM considers in voting on such issue, CAM votes on a case-by-case basis in accordance with the

general principles set forth above and considering such enumerated factors. In the case of a proxy issue for which there is no stated position or list of factors that CAM considers in voting on such issue, CAM votes on a case-by-case basis in accordance with the general principles set forth above. Issues for which there is a stated position set forth in the Policies or for which there is a list of factors set forth in the Policies that CAM considers in voting on such issues fall into a variety of categories, including election of directors, ratification of auditors, proxy and tender offer defenses, capital structure issues, executive and director compensation, mergers and corporate restructurings, and social and environmental issues. The stated position on an issue set forth in the Policies can always be superseded, subject to the duty to act solely in the best interest of the beneficial owners of accounts, by the investment management professionals responsible for the account whose shares are being voted. Issues applicable to a particular industry may cause CAM to abandon a policy that would have otherwise applied to issuers generally. As a result of the independent investment advisory services provided by distinct CAM business units, there may be occasions when different business units or different portfolio managers within the same business unit vote differently on the same issue.

In furtherance of the Manager's goal to vote proxies in the best interest of clients, the Manager follows procedures designed to identify and address material conflicts that may arise between the Manager's interests and those of its clients before voting proxies on behalf of such clients. To seek to identify conflicts of interest, CAM periodically notifies CAM employees (including employees of the Manager) in writing that they are under an obligation (i) to be aware of the potential for conflicts of interest with respect to voting proxies on behalf of client accounts both as a result of their personal relationships and due to special circumstances that may arise during the conduct of CAM's and the Manager's business, and (ii) to bring conflicts of interest of which they become aware to the attention of compliance personnel. The Manager also maintains and considers a list of significant relationships that could present a conflict of interest for the Manager in voting proxies. The Manager is also sensitive to the fact that a significant, publicized relationship between an issuer and a non-CAM affiliate might appear to the public to influence the manner in which the Manager decides to vote a proxy with respect to such issuer. Absent special circumstances or a significant, publicized non-CAM affiliate relationship that CAM or the Manager for prudential reasons treats as a potential conflict of interest because such relationship might appear to the public to influence the manner in which the Manager decides to vote a proxy, the Manager generally takes the position that non-CAM relationships between Citigroup and an issuer (e.g. investment banking or banking) do not present a conflict of interest for the Manager in voting proxies with respect to such issuer. Such position is based on the fact that the Manager is operated as an independent business unit from other Citigroup business units as well as on the existence of information barriers between the Manager and certain other Citigroup business units.

CAM maintains a Proxy Voting Committee, of which the Manager personnel are members, to review and address conflicts of interest brought to its attention by compliance personnel. A proxy issue that will be voted in accordance with a stated position on an issue or in accordance with the recommendation of an independent third party is not brought to the attention of the Proxy Voting Committee for a conflict of interest review because the Manager's position is that to the extent a conflict of interest issue exists, it is resolved by voting in accordance with a pre-determined policy or in accordance with the recommendation of an independent third party. With respect to a conflict of interest brought to its attention, the Proxy Voting Committee first determines whether such conflict of interest is material. A conflict of interest is considered material to the extent that it is determined that such conflict is likely to influence, or appear to influence, the Manager's decision-making in voting proxies. If it is determined by the Proxy Voting Committee that a conflict of interest is not material, the Manager may vote proxies notwithstanding the existence of the conflict.

If it is determined by the Proxy Voting Committee that a conflict of interest is material, the Proxy Voting Committee is responsible for determining an appropriate method to resolve such conflict of interest before the proxy affected by the conflict of interest is voted. Such determination is based on the particular facts and circumstances, including the importance of the proxy issue and the nature of the conflict of interest. Methods of resolving a material conflict of interest may include, but are not limited to, disclosing the conflict to clients and obtaining their consent before voting, or suggesting to clients that they engage another party to vote the proxy on their behalf.
