FOR IMMEDIATE RELEASE

**VIMPELCOM ANNOUNCES SECOND QUARTER
AND SIX MONTH 2006 FINANCIAL AND OPERATING RESULTS**

Moscow and New York (September 1, 2006) - Open Joint Stock Company Vimpel-Communications (VimpelCom or the Company) (NYSE: VIP), a leading provider of wireless telecommunications services in Russia and Kazakhstan, with recently acquired operators in Ukraine, Uzbekistan, Tajikistan and Georgia, today announced its financial and operating results for the quarter and six months ended June 30, 2006. During the second quarter of 2006 the Company reported continued growth in new subscribers and improved financial results.

Attachments A, B and C present, respectively, definitions for certain terms used in this press release, the condensed consolidated financial statements of VimpelCom and tables with relevant reconciliations of non-U.S. GAAP financial measures to their most directly comparable U.S. GAAP financial measures. Selected financial and operating results are also reported for each of the countries where VimpelCom operates.

Financial and Operating Highlights

Net operating revenues reached \$1,121.5 million, a year-on-year increase of 45.7%.

OIBDA reached \$561.6 million, a year-on-year increase of 42.0%.

OIBDA margin was 50.1%.

Net income totaled \$194.9 million, a year-on-year increase of 22.7%.

Operating cash flow was \$431.9 million, a year-on-year increase of 35.7%.

Approximately 51.9 million subscribers as of September 1, 2006 including 4.4 million subscribers in the CIS outside of Russia

Strong growth and improved subscriber market share in Kazakhstan.

Solid growth in Ukraine after launch of the Beeline brand in April 2006.

Commenting on today's announcement, Alexander Izosimov, Chief Executive Officer of VimpelCom, said,

It was a very strong quarter. On the back of continued growth, we achieved all-time records in revenue, OIBDA and net income. For the first time our quarterly revenue exceeded the \$1 billion mark. This success underlines our ability to deliver results against strategic priorities.

In Russia, we focused on revenue growth and on reversing the negative trends in ARPU. We were able to stabilize ARPU via conservative pricing and stimulated usage. ARPU of active subscribers showed year-on-year growth, driving our strong revenue performance.

In Kazakhstan, our priorities were increasing subscriber market share and usage. In the second quarter alone, we gained 3.6 percentage points in market share. As a result of market expansion and share gains, we recorded exceptionally high revenue growth as well as triple-digit year-on-year growth in OIBDA and net income.

VimpelCom Announces Second Quarter And Six Month 2006 Financial And Operating Results

Page 2 of 7

In Ukraine, we are off to a promising start following the launch of our Beeline brand in April of this year. As of June 30, 2006, after less than three months of operations, we had almost half a million active subscribers with active subscriber ARPU close to \$6. At the same time, we continued our work to improve network coverage and quality and this remains our key operational priority in Ukraine.

In Uzbekistan and Tajikistan, we are in the process of building-out our networks, integrating operations into the VimpelCom group and preparing for the launch of our brand later this month.

In addition, we are pleased to note that in July we acquired a GSM license holder in Georgia, and we plan to start full-scale commercial operations there in the beginning of 2007.

Key Consolidated Operating Indicators

	2Q2006	2Q2005	Change, Y-on-Y	1Q2006	Change, Q-on-Q
Subscribers, end of period (EOP)	50,822,100	35,102,000	44.8%	48,052,800	5.8%
% of prepaid	96.8%	96.5%		96.9%	
Churn, quarterly	7.8%	6.7%		8.4%	
ARPU (US\$)	7.5	7.8	-3.8%	6.6	13.6%
MOU, (min)	114.4	99.2	15.3%	107.8	6.1%
SAC, (US\$)	16.3	13.3	22.6%	12.6	29.4%

Key Consolidated Financial Indicators

	2Q2006	2Q2005	Change, Y-on-Y	1Q2006	Change, Q-on-Q
Net operating revenues (US\$,000)	1,121,546	769,770	45.7%	936,167	19.8%
including interconnect revenue	84,502	17,560	381.2%	59,720	41.5%
OIBDA (US\$, 000)	561,555	395,554	42.0%	482,607	16.4%
OIBDA margin	50.1%	51.4%		51.6%	
Gross margin (US\$, 000)	920,276	641,632	43.4%	768,298	19.8%
Gross margin percentage	82.1%	83.4%		82.1%	
SG&A (US\$, 000)	355,031	242,762	46.2%	282,925	25.5%
SG&A percentage	31.7%	31.5%		30.2%	
Net income (US\$, 000)	194,946	158,844	22.7%	150,223	29.8%
Net income per share (US\$)	3.83	3.11		2.94	
Net income per ADS (US\$)	0.96	0.78		0.74	

Strong growth in the second quarter of 2006 resulted in record figures reached in net revenue, OIBDA and net income. At the same time, the modest decline in OIBDA margin as compared with the previous quarter was driven by seasonal and competitive marketing investments as well

the growing contribution of the lower margin CIS operations.

VimpelCom Announces Second Quarter And Six Month 2006 Financial And Operating Results

Page 3 of 7

Investments made in the prior year to support our rapid growth led to approximately 72% year-on-year growth in depreciation and amortization expenses. This resulted in a slower year-on-year growth rate in net income as compared with net revenue and OIBDA.

In the second quarter of 2006, VimpelCom invested approximately \$402.3 million for the purchase of long-lived assets.

RUSSIA

	2Q2006	2Q2005	Change, Y-on-Y	1Q2006	Change, Q-on-Q

Subscriber market share, EOP	33.4%	34.6%		33.9%	

*) Excluding inter-company transactions.

In the Russian market, our continued focus on revenue growth produced a positive response. Substantial increase in usage and positive trends in ARPU resulted in the record revenue, OIBDA and net income figures in the second quarter of 2006.

In connection with the introduction of the CPP (Calling Party Pays) regime in Russia from July 1, 2006, we have been revising our charges for interconnection with other operators. The full effect of these changes will be seen in the third quarter results.

SAC went up due to the increase in advertising and marketing expenses and return of net dealer commissions from an exceptionally low level in the previous quarter to a normal figure. The same factors had a depressing effect on the margins as well.

Net income growth rate in Russia in the second quarter of 2006 was behind that of revenue and OIBDA primarily due to approximately 67% year-on-year growth in the depreciation and amortization expenses as a result of ongoing investing activities.

In Kazakhstan, our investments in network build-out, branding and distribution have paid off and resulted in overall great progress. We made substantial market share gains, and improved all financial indicators. Quarter-on-quarter MOU and ARPU growth was exceptionally high and resulted in record growth in net revenue, OIBDA and net income. Margins also improved due to the new interconnect rules which allow a direct link between mobile operators, bypassing an expensive fixed-line intermediary. The overall financial performance and particularly exceptional growth of net income were helped by an 8% appreciation of the local currency in the second quarter of 2006.

Despite teething problems in our new operations in Ukraine caused by some delays in the supply of network equipment and a tough competitive environment, we made progress in important areas. The new brand and the associated marketing campaign have led to rapid growth in net additions. The Company's diligent implementation of its growth policy resulted in a high percentage of active subscribers in the network (83.1%) and a relatively strong ARPU given the initial phase of our operations.

In Uzbekistan and Tajikistan, in the second quarter of 2006, VimpelCom continued organizational work in order to strengthen staff and prepare the ground for the launch of the Beeline brand in September 2006.

The Company's management will discuss its second quarter 2006 results during a conference call and slide presentation on September 1, 2006 at 6:30 pm Moscow time (10:30 am ET in New York). The call and slide presentation may be accessed via webcast at the following URL address <http://www.vimpelcom.com>. The conference call replay and the slide presentation webcast will be available through September 8, 2006 and September 29, 2006, respectively. The slide presentation will also be available for download on VimpelCom's website <http://www.vimpelcom.com>.

VimpelCom is a leading international provider of mobile telecommunications services in Russia and Kazakhstan, with recently acquired operators in Ukraine, Uzbekistan, Tajikistan and Georgia. The VimpelCom Group's license portfolio covers approximately 237 million people. Geographically it covers 78 regions in Russia (with 136.5 million people, representing 94% of Russia's population) as well as the entire territories of Kazakhstan, Ukraine, Uzbekistan, Tajikistan and Georgia. VimpelCom was the first Russian company to list its shares on the New York Stock Exchange (NYSE). VimpelCom's ADSs are listed on the NYSE under the symbol VIP.

Although the second quarter 2006 U.S. GAAP financial statements were approved by the requisite majority of our board, the three directors on our board who were nominated by our shareholder Telenor East Invest AS and who are officers of Telenor or its affiliates voted against approval.

This press release contains forward-looking statements, as the phrase is defined in Section 27A of the Securities Act and Section 21E of the Exchange Act. These statements relate to the Company's strategic and development plans, including network development plans, and developments in the telecommunications markets in which the Company operates. These and other forward-looking statements are based on management's best assessment of the Company's strategic and financial position and of future market conditions and trends. These discussions involve risks and uncertainties. The actual outcome may differ materially from these statements as a result of

unforeseen developments from competition, governmental regulation of the wireless telecommunications industries in Russia and the CIS, the implementation of CPP rules in Russia, general political uncertainties in Russia and the CIS and general economic developments in Russia and the CIS, the Company's ability to continue to grow its overall revenues and its subscriber base, continued volatility in the world economy and other factors. As a result of such risks and uncertainties, there can be no assurance that the effects of competition or current or future changes in the political, economic and social environment or current or future regulation of the Russian and CIS telecommunications industries will not have a material adverse effect on the VimpelCom Group. Certain factors that could cause actual results to differ materially from those discussed in any forward-looking statements include the risks described in the Company's Annual Report on Form 20-F for the year ended December 31, 2005 and other public filings made by the Company with the United States Securities and Exchange Commission, which risk factors are incorporated herein by reference. VimpelCom disclaims any obligation to update developments of these risk factors or to announce publicly any revision to any of the forward-looking statements contained in this release, or to make corrections to reflect future events or developments.

-Definitions and tables are attached

Attachment A: Definitions

Subscriber is an authorized user of cellular services, using one SIM card (GSM) with one or several selective numbers or one handset (DAMPS) with one selective number. The number of subscribers includes employees using cellular services and excludes guest roamers and users of test SIM cards (GSM) or handsets (DAMPS).

Churn rate is defined as the total number of registered subscribers disconnected from our network within a given period of time expressed as a percentage of the midpoint of subscribers in our network at the beginning and end of that period. Contract subscribers are disconnected if they have not paid their bills for 2 months and prepaid subscribers are disconnected 6 months after their services have been blocked. We typically block a prepaid subscriber's service in two cases: (1) their balance drops to \$0 or below, and (2) an account shows no chargeable activity within 6 months. The Company retains the right to change its disconnect policy to reflect changes in business or regulatory environment.

Active subscribers are those who in the past three months made a transaction which brought revenue to the Company.

Prepaid subscribers are those subscribers who pay for their services in advance.

OIBDA is a non-U.S. GAAP financial measure. OIBDA, previously referred to as EBITDA by the Company, is defined as operating income before depreciation and amortization. The Company believes that OIBDA provides useful information to investors because it is an indicator of the strength and performance of our business operations, including our ability to finance capital expenditures, acquisitions and other investments and our ability to incur and service debt. While depreciation and amortization are considered operating costs under U.S. GAAP, these expenses primarily represent the non-cash current period allocation of costs associated with long-lived assets acquired or constructed in prior periods. Our OIBDA calculations are commonly used as bases for some investors, analysts and credit rating agencies to evaluate and compare the periodic and future operating performance and value of companies within the wireless telecommunications industry. OIBDA should not be considered in isolation as an alternative to net income, operating income or any other measure of performance under U.S. GAAP. OIBDA does not include our need to replace our capital equipment over time. Reconciliation of OIBDA to operating income, the most directly comparable U.S. GAAP financial measure, is presented below in the tables section.

OIBDA margin is OIBDA expressed as a percentage of total operating revenues. Reconciliation of OIBDA margin to operating income as a percentage of total operating revenues, the most directly comparable U.S. GAAP financial measure, is presented below in the tables section.

Gross margin is defined as total operating revenues less service costs and cost of handsets and accessories sold.

Gross margin percentage is gross margin expressed as a percentage of total operating revenues.

Each ADS represents 0.25 of one share of common stock. This ratio was established effective November 22, 2004. Previously each ADS represented 0.75 of one share of common stock.

ARPU (Monthly Average Revenue per User), a non-U.S. GAAP financial measure, is calculated for each month in the relevant period by dividing the Company's service revenue during that month, including roaming revenue, but excluding revenue from connection fees, sales of handsets and accessories and other non-service revenue, by the average number of the Company's subscribers during the month. Reconciliation of ARPU to service revenues and connection fees, the most directly comparable U.S. GAAP financial measure, is presented below in the tables section. The Company believes that ARPU provides useful information to investors because it is an indicator of the performance of the Company's business operations and assists management in budgeting. The Company also believes that ARPU provides management with useful information concerning usage and acceptance of the Company's services. ARPU should not be viewed in isolation or an alternative to other figures reported under U.S. GAAP.

ARPU_{ACT} is ARPU calculated with regard to active subscribers.

MOU (Monthly Average Minutes of Use per User) is calculated for each month of the relevant period by dividing the total number of minutes of usage for incoming and outgoing calls during that month (excluding guest roamers) by the average number of subscribers during the month.

MOU_{ACT} is MOU calculated with regard to active subscribers.

SAC (Average Acquisition Cost Per User), a non-U.S. GAAP financial measure, is calculated as dealers' commissions, advertising expenses and handset subsidies for the relevant period divided by the number of new subscribers added during the relevant period. Reconciliation of SAC to selling, general and administrative expenses, the most directly comparable U.S. GAAP financial measure, is presented below in the tables section. The Company believes that SAC provides useful information to investors because it is an indicator of the performance of the Company's business operations and assists management in budgeting. The Company also believes that SAC assists management in quantifying the incremental costs to acquire a new subscriber. SAC should not be viewed in isolation or as an alternative to other figures reported under U.S. GAAP.

Market share of subscribers for each relevant area is calculated by dividing the estimated number of our subscribers in Russia, Kazakhstan, Ukraine, Tajikistan and Uzbekistan, respectively, by the total estimated number of subscribers in Russia, Kazakhstan, Ukraine and Tajikistan, respectively. Subscriber statistics for these countries are taken from reports published by consulting agencies specializing in the telecommunications industry in Russia and the CIS, reports of other mobile operators, or are estimated by the Company.
