EXPONENT, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the Fiscal Quarters Ended September 29, 2006 and September 30, 2005

Note 1: Basis of Presentation

Exponent, Inc. (referred to as the Company or Exponent) is an engineering and scientific consulting firm that provides solutions to complex problems. The Company operates on a 52-53 week fiscal year ending on the Friday closest to the last day of December.

The accompanying condensed consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America. All significant intercompany transactions and balances have been eliminated in consolidation. In the opinion of management, all adjustments which are necessary for the fair presentation of the condensed consolidated financial statements have been included and all such adjustments are of a normal and recurring nature. The operating results for the quarter and nine months ended September 29, 2006 are not necessarily representative of the results of future quarterly or annual periods.

Stock Split. On May 24, 2006, the Company's stockholders approved an amendment to the Company's certificate of incorporation to (i) increase the number of authorized shares of common stock to 100,000,000, (ii) increase the number of authorized shares of preferred stock to 5,000,000, and (iii) effect a two-for-one stock split. As a result of the stock split, each shareholder of record at the close of business on May 24, 2006, received one additional share of common stock for each share held. For periods prior to the stock split, all share and per share data in the Company's condensed consolidated financial statements and related notes have been retroactively adjusted to reflect the stock split.

The Company committed to stockholders in a letter dated May 23, 2006 to limit its use of the increased authorized capital stock to 40 million common shares, and 2 million preferred shares, unless the approval of the Company's stockholders is obtained subsequently, such as through a further amendment to the Company's authorized capital stock.

Stock-Based Compensation. During the first quarter of fiscal 2006, the Company adopted Statement of Financial Accounting Standards No. 123 (revised 2004), Share-Based Payments (SFAS 123(R)), which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors including employee stock options and restricted stock unit grants based on estimated fair values. SFAS 123(R) supersedes the Company's previous accounting under Accounting Principles Board Option No. 25, Accounting for Stock Issued to Employees and amends Statement of Financial Accounting Standards No. 95, Statement of Cash Flows. In March 2005, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 107 (SAB 107) relating to SFAS 123(R). The Company has applied the provisions of SAB 107 in its adoption of SFAS 123(R).

Stock-based compensation is measured at the grant date based on the fair value of the award and is recognized as expense on a straight-line basis over the requisite service period. The Company elected the modified-prospective method, under which prior periods are not revised for comparative purposes. Under this transition method of adoption, stock-based compensation expense for the first nine months of fiscal 2006 includes compensation expense for all stock-based compensation awards granted prior to, but not yet vested as of December 30, 2005, based on the grant-date fair value estimated in accordance with the original provision of SFAS 123. Stock-based compensation expense for all stock-based compensation awards granted or modified after December 30, 2005 is based on the grant-date fair value estimated in accordance with the provisions of SFAS 123(R).

SFAS 123(R) requires that the benefits of tax deductions in excess of recognized compensation cost be reported as a financing cash flow, rather than as an operating cash flow. As a result, the adoption of SFAS 123(R) reduces net operating cash flows and increases net financing cash flows in the periods after the effective date. Total cash flow will remain unchanged from what would have been reported. SFAS 123(R) also requires that the

Table of Contents

Company estimate the number of awards that are expected to vest and to revise the estimate as actual forfeitures differ from that estimate. Previously, the Company accounted for forfeitures under the provisions of SFAS 123, wherein the Company recognized forfeitures as they occurred. The Company estimated the forfeiture rate for the nine months ended September 29, 2006, based on its historical experience.

As a result of adopting SFAS 123(R), the Company's income before income taxes and net income for the quarter ended September 29, 2006, were \$207,000 and \$147,000 lower, respectively, than if the Company had continued to account for stock-based compensation under APB 25. Income taxes for the quarter ended September 29, 2006 were \$60,000 lower due to the adoption of SFAS 123(R). The impact on both basic and diluted earnings per share for the quarter ended September 29, 2006 was a decrease of \$0.01 per share. For the nine month period ended September 29, 2006, the Company's income before income taxes and net income were \$1,031,000 and \$722,000 lower, respectively, than if the Company continued to account for stock-based compensation under APB 25. Income taxes for the nine months ended September 29, 2006 were \$309,000 lower due to the adoption of SFAS 123(R). The impact on basic and diluted earnings per share for the nine months ended September 29, 2006 was a decrease of \$0.04 per share. See Note 4 for further information regarding the Company's stock-based compensation assumptions and expenses, including pro-forma disclosures for prior periods as if the Company had recorded stock-based compensation expense.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

Reclassifications. Certain prior period balances have been reclassified to conform to the current period presentation. In connection with the adoption of SFAS 123(R) the prior period balances for deferred stock-based compensation and stock-based compensation expense were reclassified.

Note 2: Revenue Recognition

The Company derives its revenues primarily from professional fees earned on consulting engagements and fees earned for the use of its equipment and facilities, as well as reimbursements for outside direct expenses associated with the services that are billed to its clients.

Exponent reports revenues net of subcontractor fees. The Company has determined that it is not the primary obligor with respect to its subcontractors because:

its clients are directly involved in the subcontractor selection process;

the subcontractor is responsible for fulfilling the scope of work; and

the Company passes through the costs of subcontractor agreements with only a minimal fixed percentage mark-up to compensate it for processing the transactions.

Reimbursements, including those related to travel and other out-of-pocket expenses, and other similar third-party costs such as the cost of materials, are included in revenues, and an equivalent amount of reimbursable expenses are included in operating expenses. Any mark-up on reimbursable expenses is included in revenues.

Substantially all of the Company's engagements are performed under time and material or fixed-price billing arrangements. On time and material and fixed-price projects, revenue is generally recognized as the services are performed. For substantially all of the Company's fixed-price engagements, it recognizes revenue based on the relationship of incurred labor hours at standard rates and expenses to its estimate of the total labor hours at standard rates and expenses it expects to incur over the term of the contract. The Company believes this methodology achieves a reliable measure of the revenue from the consulting services it provides to its customers under fixed-price contracts given the nature of the consulting services the Company provides and the following additional considerations:

Edgar Filing: EXPONENT INC - Form 10-Q

the Company considers labor hours at standard rates and expenses to be incurred when pricing its contracts;

- 8 -

Table of Contents

the Company generally does not incur set-up costs on its contracts;

the Company does not believe that there are reliable milestones to measure progress toward completion;

if either party terminates the contract early, the customer is required to pay the Company for time at standard rates plus materials incurred to date;

the Company does not recognize revenue for award fees or bonuses until specific contractual criteria are met;

the Company does not include revenue for unpriced change orders until the customer agrees with the changes;

historically the Company has not had significant accounts receivable write-offs or cost overruns; and

its contracts are typically progress billed on a monthly basis.

Gross revenues and reimbursements for the quarters and nine months ended September 29, 2006 and September 30, 2005 are as follows:

(In thousands)	Quarters Ended		Nine Months Ended	
	September 29,	September 30,	September 29,	September 30,
	2006	2005	2006	2005
Gross revenues	\$ 44,489	\$ 40,836	\$ 130,651	\$ 127,612
Less: Subcontractor fees	1,156	3,644	3,637	11,374
Revenues	43,333	37,192	127,014	116,238
Reimbursements:				
Out-of-pocket travel reimbursements	1,064	1,033	3,265	2,882
Other outside direct expenses	2,220	1,506	5,028	5,100
	3,284	2,539	8,293	7,982
Revenues before reimbursements	\$ 40,049	\$ 34,653	\$ 118,721	\$ 108,256

Significant management judgments and estimates must be made and used in connection with the revenue recognized in any accounting period. These judgments and estimates include an assessment of collectibility and, for fixed-price engagements, an estimate as to the total effort required to complete the project. If the Company made different judgments or utilized different estimates, the amount and timing of its revenue for any period could be materially different.

All consulting contracts are subject to review by management, which requires a positive assessment of the collectibility of contract amounts. If, during the course of the contract, the Company determines that collection of revenue is not reasonably assured, it does not recognize the revenue until its collection becomes reasonably assured, which is generally upon receipt of cash. The Company assesses collectibility based on a number of factors, including past transaction history with the client and project manager, as well as the creditworthiness of the client. Losses on fixed-price contracts are recognized during the period in which the loss first becomes evident. Contract losses are determined to be the amount by which the estimated total costs of the contract exceeds the total fixed price of the contract.

Note 3: Net Income Per Share

Edgar Filing: EXPONENT INC - Form 10-Q

Basic per share amounts are computed using the weighted-average number of common shares outstanding during the period. Diluted per share amounts are calculated using the weighted-average number of common shares outstanding during the period and, when dilutive, the weighted-average number of potential common shares from the issuance of common stock to satisfy outstanding restricted stock units and the exercise of outstanding options to purchase common stock using the treasury stock method.

- 9 -

Table of Contents

The following schedule reconciles the shares used to calculate basic and diluted net income per share:

(In thousands)	Quarters Ended		Nine Months Ended	
	September 29,	September 30,	September 29,	September 30,
	2006	2005	2006	2005
Shares used in basic per share computation	15,570	16,291	16,141	16,166
Effect of dilutive common stock options outstanding	1,075	1,278	1,123	1,268
Effect of dilutive restricted stock units outstanding	192	81	164	60
Shares used in diluted per share computation	16,837	17,650	17,428	17,494

There were no options excluded from the diluted per share calculation for the fiscal quarters ended September 29, 2006 and September 30, 2005. Common stock options to purchase 64,011 and 5,000 shares were excluded from the diluted per share calculation for the nine months ended September 29, 2006 and September 30, 2005, respectively, due to their antidilutive effect. Weighted-average exercise prices for the antidilutive shares were \$15.65 and \$13.76 for the nine months ended September 29, 2006 and September 30, 2005, respectively.

Note 4: Stock-Based Compensation**Restricted Stock Units**

The Company grants restricted stock units to employees and outside directors under the 1999 Restricted Stock Plan. These restricted stock unit grants are designed to attract and retain employees, and to better align employee interests with those of the Company's stockholders. For a select group of employees, up to 30% of their annual bonus is settled with fully vested restricted stock unit awards. Under these fully vested restricted stock unit awards, the holder of each award has the right to receive one share of the Company's common stock for each fully vested restricted stock unit four years from the date of grant. Each individual who received a fully vested restricted stock unit award is also granted a matching number of unvested restricted stock unit awards. These unvested restricted stock unit awards cliff vest four years from the date of grant, at which time the holder of each award will have the right to receive one share of the Company's common stock for each restricted stock unit award provided the holder of each award has met certain employment conditions.

The value of these restricted stock unit awards is determined based on the market price of the Company's common stock on the date of grant. The value of fully vested restricted stock unit awards issued is recorded as a reduction to accrued bonuses. The portion of bonus expense that the Company expects to settle with fully vested restricted stock unit awards is recorded as stock-based compensation during the period the bonus is earned. The Company recorded stock-based compensation expense associated with accrued bonus awards of \$422,000 and \$347,000 during the quarters ended September 29, 2006 and September 30, 2005, respectively. For the nine months ended September 29, 2006 and September 30, 2005, the Company recorded stock-based compensation expense associated with accrued bonus awards of \$1,247,000 and \$1,213,000, respectively. The value of the unvested restricted stock unit awards issued is recognized over the requisite service period on a straight-line basis. The Company recorded stock-based compensation expense associated with the unvested restricted stock unit awards of \$208,000 and \$164,000 during the quarters ended September 29, 2006 and September 30, 2005, respectively. The Company recorded stock-based compensation expense associated with the unvested restricted stock unit awards of \$1,003,000 and \$427,000 during the nine months ended September 29, 2006 and September 30, 2005, respectively.

Stock Options

The Company currently grants stock options under the 1999 Stock Option Plan and the 1998 Stock Option Plan. Options are granted for terms of ten years and generally vest ratably over a four-year period from the grant date. The Company grants options at exercise prices equal to the fair value of the Company's common stock on the date of grant. During the quarter and nine months ended September 29, 2006 the Company recorded stock-based

Table of Contents

compensation expense of \$203,000 and \$661,000, respectively, associated with stock options granted prior to, but not yet vested as of December 30, 2005. During the quarter and nine months ended September 29, 2006, the Company recorded stock-based compensation expense of \$32,000 and \$80,000 respectively, associated with stock options granted during the nine months ended September 29, 2006. There was no stock-based compensation expense associated with stock options during the quarter and nine months ended September 30, 2005.

Stock Compensation

Beginning with the first quarter of fiscal 2006, the Company adopted SFAS 123(R). See Note 1 for a description of the adoption of SFAS 123(R). The Company uses the Black-Scholes option-pricing model to determine the fair value of options granted. The determination of the fair value of stock-based payment awards on the date of grant using an option-pricing model is affected by the Company's stock price as well as assumptions regarding a number of complex and subjective variables. These variables include expected stock price volatility over the term of the award, actual and projected employee stock option exercise behaviors, the risk-free interest rate and expected dividends.

The Company used historical exercise and post-vesting forfeiture and expiration data to estimate the expected term of options granted. The historical volatility of the Company's common stock over a period of time equal to the expected term of the options granted was used to estimate expected volatility. The risk-free interest rate used in the option-pricing model was based on U.S. Treasury zero-coupon issues with remaining terms similar to the expected term on the options. The Company does not anticipate paying any cash dividends in the foreseeable future and therefore used an expected dividend yield of zero in the option-pricing model. The Company is required to estimate forfeitures at the time of grant and revise those estimates in subsequent periods if actual forfeitures differ from those estimates. Historical data was used to estimate pre-vesting option forfeitures and stock-based compensation expense was recorded only for those awards that are expected to vest. All share based payment awards are recognized on a straight-line basis over the requisite service periods of the awards.

The assumptions used to value option grants for the nine months ended September 29, 2006 and September 30, 2005 are as follows:

	Stock Option Plan	
	September 29, 2006	September 30, 2005
Expected life (in years)	6.6	4.8
Risk-free interest rate	4.6%	4.1%
Volatility	39%	42%
Dividend yield	0%	0%

There were no options granted during the quarters ended September 29, 2006 and September 30, 2005. The weighted-average fair value of options granted during the nine months ended September 29, 2006 and September 30, 2005 were \$7.47 and \$5.45, respectively.

Table of Contents

The amount of stock-based compensation expense recognized in our consolidated statements of income for the quarters and nine months ended September 29, 2006 and September 30, 2005 is as follows:

(In thousands)	Quarters Ended		Nine Months Ended	
	September 29, 2006	September 30, 2005	September 29, 2006	September 30, 2005
Compensation and related expenses:				
Restricted stock units	\$ 599	\$ 490	\$ 2,185	\$ 1,592
Stock option grants	235		741	
Sub-total	834	490	2,926	1,592
General and administrative expenses:				
Restricted stock units	31	21	65	48
Sub-total	31	21	65	48
Total stock-based compensation expense	\$ 865	\$ 511	\$ 2,991	\$ 1,640

The following table sets forth the pro-forma amounts of net income and net income per share, for the quarter and nine months ended September 30, 2005, that would have resulted if the Company had accounted for its stock option plans under the fair value recognition provisions of SFAS 123(R):

(In thousands, except per share data)	Quarter Ended	Nine Months
	September 30, 2005	Ended September 30, 2005
Reported net income:	\$ 3,515	\$ 11,476
Add back: Intrinsic value stock-based compensation expense, net of tax	340	1,020
Deduct: Fair value stock-based compensation expense, net of tax	(734)	(2,223)
Adjusted net income:	\$ 3,121	\$ 10,273
Net income per share:		
As reported:		
Basic	\$ 0.22	\$ 0.71
Diluted	\$ 0.20	\$ 0.66
Adjusted:		
Basic	\$ 0.19	\$ 0.64
Diluted	\$ 0.18	\$ 0.59
Shares used in per share calculations:		
As reported:		
Basic	16,291	16,166
Diluted	17,650	17,494
Adjusted:		
Basic	16,291	16,166
Diluted	17,518	17,338

Edgar Filing: EXPONENT INC - Form 10-Q

As of September 29, 2006, there was \$1.9 million of unrecognized compensation cost, expected to be recognized over a weighted average period of 2.6 years, related to unvested restricted stock unit awards and \$1.4 million of unrecognized compensation cost, expected to be recognized over a weighted average period of 3.1 years, related to unvested stock options. Total unrecognized compensation cost will be adjusted for future changes in estimated forfeitures.

- 12 -

Table of Contents

Activity under the restricted stock plan is as follows:

	Awards available for grant	Number of awards outstanding	Weighted- average fair value
Balance of unvested restricted stock units as of December 30, 2005	1,467,730	224,838	\$ 11.93
Additional awards authorized	320,000		
Awards granted	(195,068)	195,068	15.50
Awards vested		(100,144)	15.31
Awards cancelled	7,642	(7,642)	12.26
Balance of unvested restricted stock units as of September 29, 2006	1,600,304	312,120	\$ 13.07

Activity under the stock option plans is as follows:

	Options available for grant	Number of options outstanding	Weighted- average exercise price	Weighted- average remaining contractual term	Aggregate intrinsic value (in thousands)
Outstanding as of December 30, 2005	1,462,818	2,613,612	\$ 5.65		
Additional shares reserved	480,000				
Options granted	(75,000)	75,000	15.65		
Options exercised		(275,288)	5.43		
Options cancelled	4,000	(5,500)	5.24		
Outstanding as of September 29, 2006	1,871,818	2,407,824	\$ 5.99	4.39	\$ 25,726
Vested and expected to vest at September 29, 2006		2,373,060	\$ 5.90	4.34	\$ 25,554
Exercisable at September 29, 2006		2,050,824	\$ 5.08	3.80	\$ 23,770

The total intrinsic value of options exercised during the quarter and nine month period ended September 29, 2006 was \$251,000 and \$2,867,000, respectively. The aggregate intrinsic value in the table above represents the total pre-tax intrinsic value (the difference between the Company's closing stock price on the last trading day of the quarter ended September 29, 2006, and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders had all option holders exercised their options on September 29, 2006. This amount changes based on the fair-value of the Company's stock.

Table of Contents

A summary of the Company's unvested stock options is as follows:

	Unvested options outstanding	Weighted- average fair value
Balance of unvested stock options as of December 30, 2005	609,038	\$ 4.58
Options granted	75,000	7.47
Options vested	(325,538)	4.39
Options forfeited	(1,500)	3.83
Balance of unvested stock options as of September 29, 2006	357,000	\$ 5.36

Note 5: Repurchase of Common Stock

On April 4, 2006, the Company's Board of Directors authorized \$35 million for stock repurchases. The Company repurchased 1,573,492 shares of its common stock for \$25.2 million during the nine months ended September 29, 2006. The Company repurchased 362,030 shares of its common stock for \$4.3 million during the nine months ended September 30, 2005. As of September 29, 2006, the Company had remaining authorization under its stock repurchase plan of \$10.3 million to repurchase shares of common stock.

Note 6: Deferred Compensation Plan

The Company maintains a nonqualified deferred compensation plan for the benefit of a select group of highly compensated employees. Under this plan participants may elect to defer up to 100% of their compensation. Net employee deferrals were \$196,000 and \$405,000 during the quarter and nine months ended September 29, 2006, respectively. Employee deferrals were \$436,000 and \$2,064,000 during the quarter and nine months ended September 30, 2005, respectively.

In connection with the hiring of an executive officer in June 2006, the Company made a discretionary contribution of \$1,000,000 to the non-qualified deferred compensation plan. One-eighth of this contribution will vest on each three-month anniversary of this executive officer's date of hire, provided that this individual remains a full-time employee. The value of this contribution is recognized over the requisite service period on a straight-line basis. Compensation expense for this contribution was \$133,000 and \$169,000 during the quarter and nine months ended September 29, 2006, respectively.

Company assets that are earmarked to pay benefits under the plan are held in a rabbi trust and are subject to the claims of the Company's creditors. As of September 29, 2006 and September 30, 2005, the invested amounts under the plan totaled \$5.1 million and \$3.6 million, respectively, and were recorded as a long-term asset on the Company's condensed consolidated balance sheet. These assets are classified as trading securities and are recorded at fair market value with changes recorded as adjustments to other income and expense. As of September 29, 2006 and September 30, 2005, vested amounts due under the plan totaled \$4.3 million and \$3.6 million, respectively, and were recorded as a long-term other liability on the Company's condensed consolidated balance sheet. Changes in the liability are recorded as adjustments to compensation expense. During the quarters ended September 29, 2006 and September 30, 2005, the Company recognized compensation expense of \$127,000 and \$142,000, respectively, as a result of an increase in the market value of the trust assets, with a corresponding amount being recorded as other income. During the nine months ended September 29, 2006 and September 30, 2005, the Company recognized compensation expense of \$230,000 and \$183,000, respectively, as a result of an increase in the market value of the trust assets, with a corresponding amount being recorded as other income.

Table of Contents**Note 7: Supplemental Cash Flow Information**

The following is supplemental disclosure of cash flow information:

(In thousands)	Nine Months Ended	
	September 29, 2006	September 30, 2005
Cash paid during period:		
Interest	\$ 4	\$ 6
Income taxes	\$ 6,756	\$ 6,882
Non-cash investing and financing activities:		
Capital lease for equipment	\$ 134	\$ 11
Unrealized gain on short-term investments	\$ 55	\$ 12
Vested stock unit awards issued to settle accrued bonuses	\$ 1,450	\$ 1,341
Stock repurchases payable to broker	\$ 570	\$

Note 8: Accounts Receivable, Net

At September 29, 2006 and December 30, 2005, accounts receivable, net was comprised of the following:

(In thousands)	September 29, 2006	December 30, 2005
Billed accounts receivable	\$ 34,510	\$ 32,482
Unbilled accounts receivable	18,527	14,951
Allowance for doubtful accounts	(1,656)	(1,222)
Total accounts receivable, net	\$ 51,381	\$ 46,211

Note 9: Inventory

At September 29, 2006 and September 30, 2005, the Company had \$675,000 and \$2.0 million, respectively, of work-in-process inventory included in prepaid expenses and other current assets in the accompanying condensed consolidated balance sheet.

Note 10: Segment Reporting

The Company has two operating segments based on two primary areas of service. One operating segment is a broad service group providing technical consulting in different practices primarily in the areas of impending litigation and technology development. The Company's other operating segment provides services in the area of environmental, epidemiology and health risk analysis. This operating segment provides a wide range of consulting services relating to environmental hazards and risks and the impact on both human health and the environment.

Table of Contents

Segment information for the quarters and nine months ended September 29, 2006 and September 30, 2005 follows:

Revenues

(In thousands)	Quarters Ended		Nine Months Ended

Total segment depreciation and amortization	664	771	1,944	1,985
Corporate depreciation and amortization	256	105	756	560
Total depreciation and amortization	\$ 920	\$ 876	\$ 2,700	\$ 2,545

The Company derived 12% of revenues from agencies of the federal government for the quarter ended September 29, 2006. No single customer comprised more than 10% of the Company's revenues for the quarter ended September 30, 2005 and the nine months ended September 29, 2006 and September 30, 2005.

Note 11: Related Party Transactions

The Company has a software licensing contract with an organization owned by the husband of one of Exponent's Practice Directors. The Company recorded software licensing expenses related to this contract for the quarter and nine months ended September 29, 2006 of \$25,000 and \$75,000, respectively. The Company recorded software licensing expenses related to this contract for the quarter and nine months ended September 30, 2005 of \$33,750 and \$101,250, respectively.

Note 12: Goodwill

Below is a breakdown of goodwill reported by segment as of September 29, 2006:

(In thousands)	Environmental and health	Other scientific and engineering	Total
Goodwill	\$ 8,099	\$ 508	\$ 8,607

There were no changes in the carrying amount of goodwill for the quarter and nine months ended September 29, 2006.

Note 13: Mortgage Note

The Company has a revolving reducing mortgage note (the Mortgage Note) secured by its Silicon Valley headquarters building. The Mortgage Note had an initial borrowing amount up to \$30.0 million and is subject to automatic annual reductions in the amount available to be borrowed of between \$1.3 million to \$2.1 million approximately per year until January 31, 2008. As of September 29, 2006, the Company had \$0 outstanding and available borrowings of \$19.4 million. The Mortgage Note is subject to two interest rate options of either prime less 1.5% or the fixed LIBOR plus 1.25% with a term of one month, two months, three months, nine months, or twelve months.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the unaudited condensed consolidated financial statements and notes thereto included herein and with our audited consolidated financial statements and notes thereto for the fiscal year ended December 30, 2005, which are contained in our fiscal 2005 Annual Report on Form 10-K.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains certain forward-looking statements (as such term is defined in the Private Securities Litigation Reform Act of 1995, and the rules promulgated pursuant to the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended thereto) that are based on the beliefs of the Company's management, as well as assumptions made by and information currently available to the Company's management. Such forward-looking statements are subject to the safe harbor created by the Private Securities Litigation Reform Act of 1995. When used in this document and in the documents incorporated herein by reference, the words anticipate, believe, estimate, expect and similar expressions, as they relate to the Company or its management, identify such forward-looking statements. Such statements reflect the current views of the Company or its management with respect to future events and are subject to certain risks, uncertainties and assumptions. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, the Company's actual results, performance, or achievements could differ materially from those expressed in, or implied by, any such forward-looking statements. Factors that could cause or contribute to such material differences include the possibility that the demand for our services may decline as a result of changes in general and industry specific economic conditions, the timing of engagements for our services, the effects of competitive services and pricing, the absence of backlog related to our business, our ability to attract and retain key employees, the effect of tort reform and government regulation on our business and liabilities resulting from claims made against us. Additional risks and uncertainties are discussed in our Annual Report on Form 10-K under the heading Risk Factors and elsewhere in the report. The inclusion of such forward-looking information should not be regarded as a representation by the Company or any other person that the future events, plans, or expectations contemplated by the Company will be achieved. The Company does not intend to release publicly any updates or revisions to any such forward-looking statements.

Business Overview

Exponent, Inc. is an engineering and scientific consulting firm that provides solutions to complex problems. Our multidisciplinary team of scientists, physicians, engineers and business consultants brings together more than 70 different technical disciplines to solve complicated issues facing industry and business today. Our services include analysis of product development, product recall, regulatory compliance, discovery of potential problems related to products, people or property and impending litigation, as well as the development of highly technical new products.

CRITICAL ACCOUNTING ESTIMATES

In preparing our condensed consolidated financial statements, we make assumptions, judgments and estimates that can have a significant impact on our revenue, operating income and net income, as well as on the value of certain assets and liabilities on our consolidated balance sheet. We base our assumptions, judgments and estimates on historical experience and various other factors that we believe to be reasonable under the circumstances. Actual results could differ materially from these estimates under different assumptions or conditions. On a regular basis we evaluate our assumptions, judgments and estimates and make changes accordingly. We believe that the assumptions, judgments and estimates involved in revenue recognition, estimating the allowance for doubtful accounts, accounting for income taxes, valuing goodwill and accounting for stock-based compensation have the greatest potential impact on our consolidated financial statements, so we consider these to be our critical accounting policies. Historically, our assumptions, judgments and estimates relative to our critical accounting policies have not differed materially from actual results. Policies covering revenue recognition, estimating the allowance for doubtful accounts, accounting for income taxes and valuing goodwill are described in our 2005 Annual Report on Form 10-K under Critical Accounting Estimates and Note 1 (Summary of Significant Accounting Policies) of the Notes to Consolidated Financial Statements. Due to the adoption of SFAS 123(R), our accounting policy covering stock-based compensation is described below.

Table of Contents

Stock-based compensation. We adopted the provisions of, and accounted for stock-based compensation in accordance with, SFAS 123(R) during the nine months ended September 29, 2006. We elected the modified-prospective method, under which prior periods are not revised for comparative purposes. Under the fair value recognition provisions of this statement, stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense on a straight-line basis over the requisite service period.

We currently use the Black-Scholes option-pricing model to determine the fair value of stock options. The determination of the fair value of stock options on the date of grant using an option-pricing model is affected by our stock price as well as assumptions regarding a number of complex and subjective variables. These variables include the expected term of the options, our expected stock price volatility over the term of the options, risk-free interest rate and expected dividends.

We use historical exercise and post-vesting forfeiture and expiration data to estimate the expected term of options granted. The historical volatility of our common stock over a period of time equal to the expected term of the options granted is used to estimate expected volatility. We base the risk-free interest rate that we use in the option-pricing model on U.S. Treasury zero-coupon issues with remaining terms similar to the expected term on the options. We do not anticipate paying any cash dividends in the foreseeable future and therefore use an expected dividend yield of zero in the option-pricing model. We are required to estimate forfeitures at the time of grant and revise those estimates in subsequent periods if actual forfeitures differ from those estimates. We use historical data to estimate pre-vesting option forfeitures and record stock-based compensation expense only for those awards that are expected to vest. All share based payment awards are amortized on a straight-line basis over the requisite service periods of the awards.

If factors change and we employ different assumptions for estimating stock-based compensation expense in future periods or if we decide to use a different valuation model, the future periods may differ significantly from what we have recorded in the current period and could materially affect our operating income, net income and net income per share.

RESULTS OF CONSOLIDATED OPERATIONS

Overview of the Quarter Ended September 29, 2006

During the third quarter of 2006 we had a 16.5% increase in revenues and a 15.6% increase in revenues before reimbursements as compared to the same period last year. This growth was driven primarily by our technology development, construction consulting, civil engineering, biomechanics, and mechanics and materials practices.

Our consolidated revenue growth was driven by an increase in billable hours and higher billing rates. Billable hours for the third quarter of 2006 increased 11.0% to 192,000 as compared to 173,000 during the same period last year. The increase in billable hours was due to an increase in activity for defense-related projects in our technology development practice and the integration of our recently hired technical consultants. Technical full-time equivalents increased 9.1% to 576 during the third quarter of 2006 as compared to 528 during the same period last year. This increase in technical full-time equivalents was due to our continuing recruiting and retention efforts. Utilization increased to 64% for the third quarter of fiscal 2006 as compared to 63% during the same period last year.

Through the management of our operating expenses we were able to leverage this revenue growth to improve operating income by 21.2% and net income by 6.5%. The slower growth in net income was due to an increase in our effective tax rate. As a result of adopting SFAS 123(R) our operating and net income for the third quarter of fiscal 2006 were \$207,000 and \$147,000 lower, respectively, than if we had continued to account for stock-based compensation under APB 25.

Table of Contents**Fiscal Quarter Ended September 29, 2006 compared to Fiscal Quarter Ended September 30, 2005****Revenues**

(In thousands)	Quarters Ended		Percent Change
	September 29,	September 30,	
	2006	2005	
Engineering and other scientific	\$ 34,009	\$ 28,473	19.4%
Percentage of total revenues	78.5%	76.6%	
Environmental and health	9,324	8,719	6.9%
Percentage of total revenues	21.5%	23.4%	
Total revenues	\$ 43,333	\$ 37,192	16.5%

The increase in revenues for our engineering and other scientific segment was driven by an increase in billable hours and higher billing rates. The increase in billable hours was due to an increase in activity for defense-related projects in our technology development practice and the integration of our recently hired technical consultants. During the third quarter of fiscal 2006 billable hours for this segment increased by 13.8% to 148,000 as compared to 130,000 during the same period last year. Technical full-time equivalents increased 10.9% to 427 from 385 for the same period last year due to our recruiting efforts. Utilization increased to 67% for the third quarter of fiscal 2006 as compared to 65% during the same period last year.

The increase in revenues for our environmental and health segment was the result of higher billing rates and an increase in billable hours, primarily in our health sciences practice. During the third quarter of fiscal 2006 billable hours for this segment increased by 2.3% to 44,000 as compared to 43,000 during the same period last year. Technical full-time equivalents increased 4.2% to 149 from 143 during same period last year due to our continued recruiting efforts. Utilization decreased to 56% for the third quarter of fiscal 2006 as compared to 58% during the same period last year. The decrease in utilization was due to a decrease in demand for services in our food & chemical and ecosciences practices.

Compensation and Related Expenses

(In thousands)	Quarters Ended		Percent Change
	September 29,	September 30,	
	2006	2005	
Compensation and related expenses	\$ 26,881	\$ 22,921	17.3%
Percentage of total revenues	62.0%	61.6%	

The increase in compensation and related expenses was due to increases in payroll expense, bonus expense, fringe benefits and stock-based compensation. Payroll expense increased by \$2.4 million due to a corresponding increase in technical full-time equivalent employees and the impact of our annual salary increase. Bonus expense increased \$599,000 due to a corresponding increase in profitability. Fringe benefits increased by \$416,000 due to the increase in technical full-time equivalent employees and annual pricing increases. Stock-based compensation expense related to matching restricted stock units and stock options increased by \$268,000 due primarily to the adoption of SFAS 123(R) during the first quarter of fiscal 2006. We expect compensation and related expenses to increase due to the anticipated hiring of additional staff and the impact of future annual salary increases.

Other Operating Expenses

(In thousands)	Quarters Ended		Percent Change
	September 29,	September 30,	

Edgar Filing: EXPONENT INC - Form 10-Q

	2006	2005	
Other operating expenses	\$ 4,870	\$ 4,668	4.3%
Percentage of total revenues	11.2%	12.6%	

- 20 -

Table of Contents

Other operating expenses primarily include facilities related costs, technical materials, computer-related expenses and depreciation and amortization of property, equipment and leasehold improvements. The increase in other operating expenses was primarily due to an increase of \$185,000 in occupancy expense. This increase in occupancy expense was due to expansion in certain offices to support our increase in technical full-time equivalent employees and an increase in utilities.

Reimbursable Expenses

(In thousands)	Quarters Ended		Percent Change
	September 29,	September 30,	
	2006	2005	
Reimbursable expenses	\$ 3,284	\$ 2,539	29.3%
Percentage of total revenues	7.6%	6.8%	

The increase in reimbursable expenses was primarily due to an increase in project related costs in our technology development practice. The amount of reimbursable expenses will vary from quarter to quarter depending on the nature of our projects.

General and Administrative Expenses

(In thousands)	Quarters Ended		Percent Change
	September 29,	September 30,	
	2006	2005	
General and administrative expenses	\$ 2,695	\$ 2,441	10.4%
Percentage of total revenues	6.2%	6.6%	

The increase in general and administrative expenses was primarily due to an increase in travel and meals of \$160,000 and an increase in other professional services of \$75,000. The increase in travel and meals was primarily due to our increase in technical full-time equivalent employees and an increase in business development activities. The increase in other professional services was due to an increase in audit fees.

Other Income, Net

(In thousands)	Quarters Ended		Percent Change
	September 29,	September 30,	
	2006	2005	
Other income, net	\$ 808	\$ 660	22.4%
Percentage of total revenues	1.9%	1.8%	

Other income, net, consists primarily of interest income earned on available cash, cash equivalents and short-term investments, changes in the value of assets associated with our deferred compensation plan and rental income from leasing excess space in our Silicon Valley facility. The increase in other income, net, was primarily due to an increase in interest income of \$120,000 and an increase in other income of \$27,000 associated with the change in fair value of deferred compensation plan assets. The increase in interest income was due to higher average balances of cash, cash equivalents and short-term investments and an increase in short-term interest rates.

Income Taxes

(In thousands)	Quarters Ended		Percent
	September 29,	September 30,	

Edgar Filing: EXPONENT INC - Form 10-Q

	2006	2005	Change
Income taxes	\$ 2,668	\$ 1,768	50.9%
Percentage of total revenues	6.2%	4.8%	
Effective tax rate	41.6%	33.5%	

- 21 -

Table of Contents

The increase in our effective tax rate was due to \$150,000 in additional income tax expense during the third quarter of fiscal 2006 related to a change in estimated federal and state income taxes for 2005. During the third quarter of fiscal 2005 we recorded a credit of \$272,000 to income tax expense related to a change in estimated federal and state income taxes for 2004.

Nine Months Ended September 29, 2006 compared to Nine Months Ended September 30, 2005**Revenues**

(In thousands)	Nine Months Ended		Percent Change
	September 29,	September 30,	
	2006	2005	
Engineering and other scientific	\$ 98,809	\$ 88,386	11.8%
Percentage of total revenues	77.8%	76.0%	
Environmental and health	28,205	27,852	1.3%
Percentage of total revenues	22.2%	24.0%	
Total revenues	\$ 127,014	\$ 116,238	9.3%

The increase in revenues for our engineering and other scientific segment was the result of an increase in billable hours and higher billing rates. During the first nine months of fiscal 2006 billable hours for this segment increased by 10.8% to 443,000 as compared to 400,000 during the same period last year. The increase in billable hours was due to the integration of our recently hired technical consultants. Technical full-time equivalents increased 10.7% to 415 from 375 for the same period last year due to our recruiting efforts. Utilization was 68% for both periods.

The increase in revenues for our environmental and health segment was the result of higher billing rates partially offset by a decrease in billable hours. During the first nine months of fiscal 2006, billable hours for our environmental and health segment decreased 0.7% to 134,000 from 135,000 during the same period last year. The decrease in billable hours was due to a decrease in demand for services in our ecosciences practice. Technical full-time equivalents increased 7.2% to 148 from 138 during same period last year due to our recruiting efforts. Utilization decreased to 58% for the first nine months of fiscal 2006 as compared to 63% during the same period last year.

Compensation and Related Expenses

(In thousands)	Nine Months Ended		Percent Change
	September 29,	September 30,	
	2006	2005	
Compensation and related expenses	\$ 79,671	\$ 70,444	13.1%
Percentage of total revenues	62.7%	60.6%	

The increase in compensation and related expenses was due to increases in payroll expense, fringe benefits, and stock-based compensation. Payroll expense increased by \$6.0 million due to an increase in technical full-time equivalent employees and the impact of our annual salary increase. Fringe benefits increased by \$1.0 million due to the increase in technical full-time equivalent employees. Stock-based compensation expense related to matching restricted stock units and stock options increased by \$1.3 million due primarily to the adoption of SFAS 123(R) during the first quarter of fiscal 2006. We expect compensation and related expenses to increase due to the anticipated hiring of additional staff and the impact of future annual salary increases.

Table of Contents**Other Operating Expenses**

(In thousands)	Nine Months Ended		Percent Change
	September 29,	September 30,	
	2006	2005	
Other operating expenses	\$ 14,602	\$ 13,932	4.8%
Percentage of total revenues	11.5%	12.0%	

Other operating expenses primarily include facilities related costs, technical materials, computer-related expenses and depreciation and amortization of property, equipment and leasehold improvements. The increase in other operating expenses was due to an increase in occupancy expense, depreciation and amortization, and computer expense. Occupancy expenses increased \$323,000 due to expansion in certain offices to support our increase in technical full-time equivalent employees and an increase in utilities. Depreciation and amortization increased \$171,000 and computer expenses increased \$150,000 due to the costs associated with our increase in technical full-time equivalent employees.

Reimbursable Expenses

(In thousands)	Nine Months Ended		Percent Change
	September 29,	September 30,	
	2006	2005	
Reimbursable expenses	\$ 8,293	\$ 7,982	3.9%
Percentage of total revenues	6.5%	6.9%	

The increase in reimbursable expenses was primarily due to an increase in project-related costs in our construction consulting and vehicle practices and a decrease in purchases of project-related materials in our technology development practice. The amount of reimbursable expenses will vary from quarter to quarter depending on the nature of our projects.

General and Administrative Expenses

(In thousands)	Nine Months Ended		Percent Change
	September 29,	September 30,	
	2006	2005	
General and administrative expenses	\$ 8,127	\$ 6,931	17.3%
Percentage of total revenues	6.4%	6.0%	

The increase in general and administrative expenses was primarily due to an increase in travel and meals of \$485,000, an increase in outside consulting services of \$298,000, an increase in personnel expenses of \$156,000 and an increase in marketing and promotion of \$124,000. The increase in travel and meals was primarily due to our increase in technical full-time equivalent employees and an increase in business development activities. The increase in outside consulting services was primarily due to \$216,000 in sub-contractor fees related to a potential project with the United States government that was not fully executed by the end of fiscal 2004. This project was executed during the first quarter of fiscal 2005 and the sub-contractor fees previously expensed were recovered. The recovery of these expenses during the nine months of fiscal 2005 contributed to the period-to-period increase in outside consulting services. The increase in personnel expenses was due to an increase in recruiting costs and finders fees. The increase in marketing and promotion was due to the increase in our business development activities.

Table of Contents**Other Income, Net**

(In thousands)	Nine Months Ended		Percent Change
	September 29,	September 30,	
	2006	2005	
Other income, net	\$ 2,340	\$ 1,514	54.6%
Percentage of total revenues	1.8%	1.3%	

Other income, net, consists primarily of interest income earned on available cash, cash equivalents and short-term investments, changes in the value of assets associated with our deferred compensation plan and rental income from leasing excess space in our Silicon Valley facility. The increase in other income, net, was primarily due to an increase in interest income of \$644,000, an increase in other income of \$100,000 associated the change in fair value of deferred compensation plan assets and an increase in rental income of \$72,000. The increase in interest income was due to higher average balances of cash, cash equivalents and short-term investments and an increase in short-term interest rates. Rental income increased due to the addition of new tenants in our Silicon Valley facility.

Income Taxes

(In thousands)	Nine Months Ended		Percent Change
	September 29,	September 30,	
	2006	2005	
Income taxes	\$ 7,446	\$ 6,987	6.6%
Percentage of total revenues	5.9%	6.0%	
Effective tax rate	39.9%	37.8%	

The increase in our effective tax rate was due to \$150,000 in additional income tax expense during the first nine months of fiscal 2006 related to a change in estimated federal and state income taxes for 2005. During the first nine months of fiscal 2005 we recorded a credit of \$272,000 to income tax expense related to a change in estimated federal and state income taxes for 2004.

RECENT ACCOUNTING PRONOUNCEMENTS

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 157 (SFAS 157), Fair Value Measurements, which defines fair value, establishes guidelines for measuring fair value and expands disclosures regarding fair value measurements. SFAS 157 does not require any new fair value measurements but rather eliminates inconsistencies in guidance found in various prior accounting pronouncements. SFAS 157 is effective for fiscal years beginning after November 15, 2007. Earlier adoption is permitted, provided the company has not yet issued financial statements, including for interim periods, for that fiscal year. We are currently evaluating the impact of SFAS 157, but do not expect the adoption of SFAS 157 to have a material impact on our consolidated financial position, results of operations or cash flows.

In September 2006, the Securities and Exchange Commission issued Staff Accounting Bulletin (SAB) No. 108, Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements (SAB 108). SAB 108 was issued in order to eliminate the diversity of practice in how public companies quantify misstatements of financial statements, including misstatements that were not material to prior years financial statements. We will initially apply the provisions of SAB 108 in connection with the preparation of our annual financial statements for the year ending December 29, 2006. We have evaluated the potential impact SAB 108 may have on our financial position and results of operations and do not believe the impact of the application of this guidance will be material.

In July 2006, the Financial Accounting Standards Board issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes An Interpretation of FASB Statement No. 109 (FIN 48), which clarifies the accounting for uncertainty in tax positions. This interpretation requires that companies recognize in

Table of Contents

their financial statements the impact of a tax position, if that position is more likely than not of being sustained on audit, based on the technical merits of the position. The provisions of FIN 48 are effective for fiscal years beginning after December 15, 2006, with the cumulative effect of the change in accounting principle recorded as an adjustment to opening retained earnings. We are currently evaluating the impact of adopting FIN 48 on our financial statements.

LIQUIDITY AND CAPITAL RESOURCES

As of September 29, 2006, our cash, cash equivalents and short-term investments were \$54.0 million compared to \$68.9 million at December 30, 2005. We financed our business for the current period principally through operating cash.

(In thousands)	Nine Months Ended	
	September 29, 2006	September 30, 2005
Net cash provided by operating activities	\$ 9,630	\$ 9,338
Net cash provided by (used in) investing activities	5,649	(4,264)
Net cash used in financing activities	(21,956)	(1,341)

The increase in net cash provided by operating activities during the nine months ended September 29, 2006 was primarily due to an increase in stock-based compensation and a smaller increase in prepaid expenses and other current assets as compared to the same period last year partially offset by an increase in contributions to our deferred compensation plan, a decrease in the tax benefit for stock option plans, and a decrease in net income. Stock-based compensation was \$3.0 million during the first nine months of 2006 as compared to \$1.6 million during the same period last year. The increase in stock based compensation was primarily due to the adoption of SFAS 123(R) during 2006. Prepaid expenses and other current assets increased by \$883,000 during the first nine months of 2006 as compared to an increase of \$2.1 million during the same period last year. The smaller increase in prepaid expenses and other current assets was due to less inventory on hand at September 29, 2006 as compared to September 30, 2005. During the first nine months of 2006 we contributed \$1.0 million to our deferred compensation plan. There were no employer contributions to our deferred compensation plan during the first nine months of 2005. During the first nine months of 2005 the tax benefit for stock option plans of \$967,000 was classified as cash from operating activities. This benefit was classified as cash from financing activities during the first nine months of 2006 due to the adoption of SFAS 123(R).

The increase in net cash provided by investing activities was primarily due to the sale and purchase of short-term investments. During the first nine months of 2006 net sales of short-term investments were \$8.1 million as compared to net purchases of short-term investments of \$1.9 million during the same period in 2005. The net sales of short-term investments during the first nine months of 2006 were to fund our share repurchases.

The increase in net cash used in financing activities was primarily due to an increase in repurchases of our common stock under our stock repurchase programs during the first nine months of 2006 as compared to 2005.

We expect to continue our investing activities, including purchases of short-term investments and capital expenditures. Furthermore, cash reserves may be used to repurchase common stock under our stock repurchase program or strategically acquire professional services firms that are complementary to our business.

Table of Contents

The following schedule summarizes our principal contractual commitments as of September 29, 2006 (in thousands):

Fiscal year	Operating lease commitments	Capital leases	Purchase obligations	Total
2006	\$ 1,381	\$ 24	\$ 590	\$ 1,995
2007	4,808	98		4,906
2008	3,705	57		3,762
2009	3,417	27		3,444
2010	2,375			2,375
Thereafter	3,509			3,509
	\$ 19,195	\$ 206	\$ 590	\$ 19,991

We maintain a nonqualified deferred compensation plan for the benefit of a select group of highly compensated employees. Vested amounts due under the plan of \$4.3 million were recorded as a long-term liability on our condensed consolidated balance sheet at September 29, 2006. Company assets that are earmarked to pay benefits under the plan are held in a rabbi trust and are subject to the claims of our creditors. As of September 29, 2006 invested amounts under the plan of \$5.1 million were recorded as a long-term asset on our condensed consolidated balance sheet.

We have a revolving reducing mortgage note with a total available borrowing amount of \$19.4 million and an outstanding balance of \$0 as of September 29, 2006. We believe that our existing revolving note, together with funds generated from operations, will provide adequate cash to fund our anticipated operating cash needs through at least the next twelve-month period.

In addition, we believe that the funds available under the revolving reducing mortgage note, together with funds generated from operations, will provide adequate cash to fund our anticipated long-term cash needs beyond the next twelve-month period; however, we intend to grow our business by pursuing potential acquisitions, which could increase the need for additional sources of funds over the long term.

As permitted under Delaware law, we have agreements whereby we indemnify our officers and directors for certain events or occurrences while the officer or director is, or was, serving at our request in such capacity. The indemnification period covers all pertinent events and occurrences during the officer's or director's lifetime. The maximum potential amount of future payments we could be required to make under these indemnification agreements is unlimited; however, we have director and officer insurance coverage that reduces our exposure and enables us to recover a portion of any future amounts paid.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

Exponent is exposed to interest rate risk associated with our balances of cash, cash equivalents and short-term investments. We manage our interest rate risk by maintaining an investment portfolio primarily consisting of debt instruments with high credit quality and relatively short average effective maturities in accordance with the Company's investment policy. The maximum effective maturity of any issue in our portfolio of cash equivalents and short-term investments is 3 years and the maximum average effective maturity of the portfolio cannot exceed 12 months. Our exposure to market rate risk for changes in interest rates relates primarily to our short-term investments. We do not use derivative financial instruments in our short-term investment portfolio. Notwithstanding our efforts to manage interest rate risk, there can be no assurances that we will be adequately protected against the risks associated with interest rate fluctuations.

We are exposed to some foreign currency exchange rate risk associated with our foreign operations. Given the limited nature of these operations, we believe that any exposure would be minimal. Currently, we do not employ a foreign currency hedging program to mitigate our foreign currency exchange risk as we believe the risks to date have not been significant.

Table of Contents

Exponent has a revolving reducing mortgage note (the Mortgage Note) secured by our Silicon Valley headquarters building. The Mortgage Note had an initial borrowing amount up to \$30.0 million and is subject to automatic annual reductions in the amount available to be borrowed of between \$1.3 million to \$2.1 million approximately per year until January 31, 2008. As of September 29, 2006 we had \$0 outstanding and available borrowings of \$19.4 million. The Mortgage Note is subject to two interest rate options of either prime less 1.5% or the fixed LIBOR plus 1.25% with a term of one month, two months, three months, nine months, or twelve months.

Any borrowings under the Mortgage Note would expose us to some interest rate risk. Our general policy for selecting among interest rate options and related terms will be to minimize interest expense. However, given the risk of interest rate fluctuations, we cannot be certain that the lowest rate option will always be obtained, thereby consistently minimizing our interest expense. No sensitivity analysis was performed on our exposure to interest rate fluctuations; however, given the historical low volatility of both the prime and LIBOR interest rates, we believe that any exposure would be minimal.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

An evaluation was performed under the supervision and with the participation of the Company's management, including the President and Chief Executive Officer, and the Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this quarterly report. Based on that evaluation, the Company's management, including the President and Chief Executive Officer, and the Chief Financial Officer, concluded that the Company's disclosure controls and procedures were effective.

We intend to review and evaluate the design and effectiveness of our disclosure controls and procedures on an ongoing basis, to improve our controls and procedures over time, and to correct any deficiencies that we may discover in the future. Our goal is to ensure that our senior management has timely access to all material financial and non-financial information concerning our business. While we believe the present design of our disclosure controls and procedures is effective to achieve our goal, future events affecting our business may cause us to significantly modify our disclosure controls and procedures.

(b) Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the quarterly period ended September 29, 2006, that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1A. Risk Factors

FACTORS AFFECTING OPERATING RESULTS AND MARKET PRICE OF STOCK

Exponent operates in a rapidly changing environment that involves a number of uncertainties, some of which are beyond our control. These uncertainties include, but are not limited to, those mentioned elsewhere in this report and those set forth below. There are no material changes to the risk factors set forth below relative to those included in our Annual Report on Form 10-K for the fiscal year ended December 30, 2005.

Absence of Backlog

Revenues are primarily derived from services provided in response to client requests or events that occur without notice, and engagements, generally billed as services are performed, are terminable or subject to

Table of Contents

postponement or delay at any time by clients. As a result, backlog at any particular time is small in relation to our quarterly or annual revenues and is not a reliable indicator of revenues for any future periods. Revenues and operating margins for any particular quarter are generally affected by staffing mix, resource requirements and timing and size of engagements.

Attraction and Retention of Key Employees

Exponent's business involves the delivery of professional services and is labor intensive. Our success depends in large part upon our ability to attract, retain and motivate highly qualified technical and managerial personnel. Qualified personnel are in great demand and are likely to remain a limited resource for the foreseeable future. We cannot provide any assurance that we can continue to attract sufficient numbers of highly qualified technical and managerial personnel and to retain existing employees. The loss of a significant number of our employees could have a material adverse impact on our business, including our ability to secure and complete engagements.

Competition

The markets for our services are highly competitive. In addition, there are relatively low barriers to entry into our markets and we have faced, and expect to continue to face, additional competition from new entrants into our markets. Competitive pressure could reduce the market acceptance of our services and result in price reductions that could have a material adverse effect on our business, financial condition or results of operations.

Customer Concentration

We currently derive, and believe that we will continue to derive, a significant portion of our revenues from clients, organizations and insurers related to the transportation industry and the government sector. The loss of any large client, organization or insurer could have a material adverse effect on our business, financial condition or results of operations.

Economic Uncertainty

The markets that we serve are cyclical and subject to general economic conditions, particularly in light of the labor-intensive nature of our business and our relatively high compensation expenses. If the economy in which we operate, which is predominantly in the U.S., were to experience a prolonged slowdown, demand for our services could be reduced considerably.

Professional Reputation

The professional reputation of Exponent and its consultants is critical to our ability to successfully compete for new client engagements and attract or retain professionals. Any factors that damage our professional reputation could have a material adverse effect on our business.

Regulation

Public concern over health, safety and preservation of the environment has resulted in the enactment of a broad range of environmental and/or other laws and regulations by local, state and federal lawmakers and agencies. These laws and regulations affect nearly every industry, as well as the agencies of federal, state and local governments charged with their enforcement. To the extent changes in such laws, regulations and enforcement or other factors significantly reduce the exposures of manufacturers, owners, service providers and others to liability; the demand for our services may be significantly reduced.

Table of Contents**Tort Reform**

Several of our practices have a significant concentration in litigation support consulting services. To the extent tort reform reduces the exposure of manufacturers, owners, service providers and others to liability, the demand for our litigation support consulting services may be significantly reduced.

Variability of Quarterly Financial Results

Variations in our revenues and operating results occur from time to time, as a result of a number of factors, such as the significance of client engagements commenced and completed during a quarter; the timing of engagements; the number of working days in a quarter; employee hiring and utilization rates; and integration of companies acquired. Because a high percentage of our expenses, particularly personnel and facilities related, are relatively fixed in advance of any particular quarter, a variation in the timing of the initiation or the completion of our client assignments can cause significant variations in operating results from quarter to quarter.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides information on the Company's share repurchases for the quarter ended September 29, 2006:

(In thousands, except price per share)	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under the Program ⁽¹⁾
July 1 to July 28	416	\$ 16.16	416	\$ 16,597
July 29 to August 25	169	\$ 15.38	169	\$ 13,992
August 26 to September 29	231	\$ 16.01	231	\$ 10,259
Total	816	\$ 15.80	816	

⁽¹⁾ In April 2006, the Company's Board of Directors approved a plan to repurchase up to \$35 million of the Company's common stock. The plan has no expiration date.

Item 6. Exhibits

(a) Exhibits

- Exhibit 31.1 Certification of Chief Executive Officer pursuant to Rule 13a-14(a) under the Securities Exchange Act of 1934.
- Exhibit 31.2 Certification of Chief Financial Officer pursuant to Rule 13a-14(a) under the Securities Exchange Act of 1934.
- Exhibit 32.1 Certification of Chief Executive Officer pursuant to 18 U.S.C. Section 1350.
- Exhibit 32.2 Certification of Chief Financial Officer pursuant to 18 U.S.C. Section 1350.
