**Item 2.02. Results of Operations and Financial Condition.**

On March 7, 2007, Willbros Group, Inc. (the Company), issued a press release announcing fourth quarter and full year 2006 results. The purpose of this amendment is to reclassify the cash flow data in the press release's financial table for the three months and year ended December 31, 2006. A \$16,532,000 nonrefundable deposit was received in December 2006 in conjunction with a non-binding letter of intent to purchase the Company's Nigeria assets and operations. The sale was consummated on February 7, 2007 at an agreed upon price of \$155,250,000, inclusive of the \$16,532,000 deposit. The cash flow financial data in the Company's March 7, 2007 press release classified the \$16,532,000 deposit as cash provided by operating activities of continuing operations. After further review and prior to the issuance of the 2006 Form 10-K, the Company determined a reclassification was appropriate and consistent with the completion of the sale on February 7, 2007. Exhibit 99 provides a corrected financial table in which the \$16,532,000 deposit is reclassified as cash provided by investing activities of continuing operations. This correction has the following financial effect on the cash flow data in the financial table:

Full year 2006 cash provided by (used in) operating activities of continuing operations decreases from \$11,201,000 to (\$5,429,000).

The fourth quarter of 2006 cash provided by (used in) operating activities of continuing operations decreases from \$23,820,000 to \$7,288,000.

The \$16,532,000 decrease to cash provided by (used in) operating activities of continuing operations is offset by a corresponding increase to cash provided by (used in) investing activities for continuing operations.

Additionally, the \$25,082,000 of proceeds from January 2006 sale of the Company's TXP-4 plant has been reclassified from cash provided by (used in) discontinued operations to cash provided by (used in) investing activities of continuing operations. Adding the TXP-4 plant adjustment to the Nigeria sale deposit adjustment results in a combined increase of \$41,614,000 to 2006 cash provided by (used in) investing activities of continuing operations.

A copy of the revised financial table is attached as Exhibit 99 to this Form 8-K/A.

This information is being furnished pursuant to Item 2.02 of Form 8-K and shall not be deemed to be filed for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or otherwise subject to the liabilities of that Section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.
