On March 23, 2007, OceanFirst Financial Corp. (the Company) announced that diluted earnings per share for the quarter ended December 31, 2006 amounted to a loss of \$.13. For the year ended December 31, 2006 diluted earnings per share was \$1.07. These results have been revised from the earnings results the Company reported in its January 18, 2007 press release in which the Company reported diluted earnings per share for the quarter and year ended December 31, 2006 of \$.40 and \$1.59.

Management is required to assess the Company's internal control over financial reporting as of December 31, 2006. Based on this assessment, management will disclose in Form 10-K that the Company's internal control over financial reporting was not effective as of December 31, 2006 due to the existence of the following material weakness identified by management: The Company's policies and procedures were not effective to provide for the proper evaluation and assessment of the adequacy for the reserve for repurchased loans at its mortgage banking subsidiary. Specifically, the Company lacked an effective process to ensure that the exercise of loan repurchase requests by purchasers of its loans were timely identified and incorporated properly in the analysis of its reserve for repurchased loans.
