**Item 2.02 Results of Operations and Financial Condition**

On April 23, 2007, Cardinal Health, Inc. (the Company) issued a press release announcing it had reserved \$600 million in connection with the Cardinal Health federal securities actions described in Item 8.01 below. A copy of the press release is included as Exhibit 99.01 to this report.

**Item 8.01 Other Items**

As previously reported, since July 2, 2004, 10 purported class action complaints have been filed by purported purchasers of the Company's securities against the Company and certain of its current and former officers and directors, asserting claims under the federal securities laws (collectively referred to as the Cardinal Health federal securities actions). To date, all of these actions have been filed in the United States District Court for the Southern District of Ohio. The Cardinal Health federal securities actions are more fully described under the heading Shareholder/ERISA Litigation against Cardinal Health in Note 8 of Notes to Condensed Consolidated Financial Statements included in the Company's Quarterly Report on Form 10-Q for the period ended December 31, 2006 (the December 31, 2006 Form 10-Q).

Settlement discussions have been recently occurring with counsel for the plaintiffs regarding a possible resolution of the Cardinal Health federal securities actions. As a result of these discussions, the Company has determined that it is necessary to record a reserve of \$600 million for the period ended March 31, 2007 in respect of the Cardinal Health federal securities actions. The reserve represents the Company's current estimate to reach a mediated settlement of the Cardinal Health federal securities action. The defendants in the Cardinal Health federal securities actions continue to deny any violations of law, and to the extent that any settlement is reached, such a settlement would be solely to eliminate the uncertainties, burden and expense of further protracted litigation. In addition, such a settlement would require notice to the class of plaintiffs in the Cardinal Health federal securities actions and would be subject to court approval. Unless and until the Cardinal Health federal securities actions are resolved through settlement or otherwise, there can be no assurance that the amount reserved by the Company for this matter will be sufficient and that a larger amount will not be required or that the Company's efforts to resolve Cardinal Health federal securities actions will be successful, and the Company cannot predict the timing or outcome of these matters or the terms of any such resolution.

The reserve recorded does not relate to any other legal proceedings to which the Company is a party discussed in Note 8 of Notes to Condensed Consolidated Financial Statements included in the December 31, 2006 Form 10-Q, including, but not limited to, the Cardinal Health ERISA actions discussed under the heading Shareholder/ERISA Litigation against Cardinal Health (which is the same heading under which the Cardinal Health federal securities actions are discussed) and the matters discussed under the headings Derivative Actions and SEC Investigation and U.S. Attorney Inquiry.
