PROXY STATEMENT

This proxy statement is being furnished to shareholders of Itron, Inc. in connection with the solicitation by the Board of Directors of proxies for use at the 2008 Annual Meeting of Shareholders. The meeting will be held at the principal executive offices of Itron, Inc. (Itron, or the Company), in the Atrium, at 2111 N. Molter Road, Liberty Lake, Washington, at 8:00 a.m., local time, on Tuesday, May 6, 2008, for the purposes listed in the accompanying Notice of Annual Meeting of Shareholders. We expect to mail this proxy statement and accompanying proxy to our shareholders on or about March 20, 2008.

Matters to Be Considered at the Annual Meeting

At the annual meeting, we will consider and vote on the following matters:

- (1) the election of three directors for terms of three years (until 2011);
- (2) the ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the 2008 fiscal year; and
- (3) such other business that may properly come before the annual meeting.

Record Date and Outstanding Shares

Holders of record of our common stock at the close of business on February 29, 2008, are entitled to notice of, and to vote at, the annual meeting. On the record date, there were 30,723,364 shares of our common stock outstanding. Each of our directors and executive officers intends to vote or direct the vote of all shares of common stock over which he or she has voting control in favor of (i) the election of the nominees for director and (ii) the ratification of Ernst & Young LLP as the Company's independent registered public accounting firm.

Revocability of Proxies

Shares represented at the annual meeting by properly signed proxies in the accompanying form will be voted at the annual meeting in accordance with the instructions given in the proxy. A shareholder may revoke a proxy given by the shareholder for use at the annual meeting at any time before the vote. Mere attendance at the annual meeting will not revoke a proxy. A proxy may be revoked by:

- n submitting a later-dated proxy for the same shares at any time before the proxy is voted;
- n delivering written notice of revocation to the Corporate Secretary of Itron at any time before the vote; or
- n attending the annual meeting and voting in person.

If the annual meeting is postponed or adjourned for any reason, at any subsequent reconvening of the annual meeting, all proxies will be voted in the same manner as the proxies would have been voted at the original convening of the annual meeting (except for any proxies that have at that time effectively been revoked or withdrawn), even if the proxies had been effectively voted on the same or any other matter at a previous meeting.

Quorum and Voting

Edgar Filing: ITRON INC /WA/ - Form DEF 14A

Each shareholder is entitled to one vote per share of common stock held on each matter to be voted on. The presence at the annual meeting, in person or by proxy, of holders of a majority of the outstanding common stock on the record date will constitute a quorum. Abstentions and broker non-votes (shares held by a broker or nominee who does not have the authority, express or discretionary, to vote on a particular matter) on any of the proposals to be voted on will be counted for purposes of determining the presence of a quorum.

Table of Contents

Proposal One: each nominee for director is elected by the vote of the majority of the votes cast with respect to that director's election. Holders of common stock are not entitled to cumulative votes in the election of directors. Abstentions from voting on this matter will not be counted. There will be no broker non-votes on the election of directors because brokers who hold shares for the accounts of their clients have discretionary authority to vote such shares in this matter.

Proposal Two: the appointment of the Company's independent registered public accounting firm for 2008 will be ratified if the number of votes cast in favor of the proposal exceeds the number of votes cast against the proposal. Abstentions from voting on the proposal will not affect the outcome of the proposal because abstentions do not represent votes cast by shareholders either for or against the proposal. There will be no broker non-votes on the ratification of the Company's independent registered public accounting firm for 2008 because brokers who hold shares for the accounts of their clients have discretionary authority to vote such shares in this matter.

Proxy Solicitation Costs

We have retained Georgeson, Inc., 199 Water Street, 26th Floor, New York, NY 10038, to aid in the solicitation of proxies. We will bear the cost of such solicitation of proxies, which we estimate will be approximately \$6,500 plus expenses. Proxies may be solicited by personal interview, mail, telephone or facsimile. In addition, we may reimburse brokerage firms and other persons representing beneficial owners of our common stock for their reasonable expenses in forwarding solicitation materials to the beneficial owners. Our directors, officers and employees may also solicit proxies personally or by telephone, without additional compensation.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR

THE ELECTION OF THE THREE NOMINEES FOR DIRECTOR.

Table of Contents**COMPENSATION OF DIRECTORS**

We use a combination of cash and stock-based incentive compensation to attract and retain qualified candidates to serve on our Board of Directors. In setting director compensation, we consider the significant amount of time that directors spend in fulfilling their duties as well as the skill level required of members of the Board.

During the 2007 fiscal year, directors who were not officers of the Company received an annual retainer of \$70,000, with \$40,000 paid in cash and \$30,000 paid in shares of our common stock. Members of the Audit/Finance Committee received an additional annual retainer of \$8,000, paid in cash, and each of our committee chairs received an additional annual retainer of \$10,000, paid half in cash and half in shares of our common stock.

New non-employee directors receive an initial option grant to purchase 5,000 shares of our common stock as of the date of the director's initial election or appointment to the Board, with vesting over a three-year period. Shares of our common stock and options granted to non-employee directors that are issued as compensation are issued under our Amended and Restated 2000 Stock Incentive Plan.

We have adopted a stock ownership guideline for directors that does not allow directors to sell their initial stock grants while active members of the Board and also expects the directors to purchase (or hold) shares equal to three times the annual cash retainer fee (currently \$40,000) over a period of three years from the initial appointment or election as a director.

The following table sets forth the annual compensation of our non-employee directors for 2007. Employee directors do not receive any separate compensation for their services as a director.

ITEM 2 RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors, upon the recommendation of its Audit/Finance Committee, has selected Ernst & Young LLP to serve as the Company's independent registered public accounting firm for 2008, subject to ratification by our shareholders. Although not required to do so, the Board is submitting the selection of this firm for ratification by the Company's shareholders for their views on the Company's independent registered public accounting firm and as a matter of good corporate practice. Ernst & Young LLP has advised the Company that it has no direct, nor any material indirect, financial interest in the Company or any of its subsidiaries. Representatives of Ernst & Young LLP will be present at the annual meeting to answer questions and will have the opportunity to make a statement if they desire to do so.

In the event that our shareholders fail to ratify the selection, it will be considered as a direction to the Board of Directors and the Audit/Finance Committee to consider the selection of a different firm. Even if the selection is ratified, the Audit/Finance Committee in its discretion may select a different independent registered public accounting firm, subject to ratification by the Board, at any time during the year if it determines that such a change would be in the best interest of the Company and our shareholders.

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE FOR THE RATIFICATION

CORPORATE GOVERNANCE

Corporate Governance Guiding Principles

The Company has adopted Corporate Governance Principles, which are available on the Company's website, *www.itron.com*, by selecting the sections Investor Information, Investors and then Corporate Governance.

Board Matters

Our business, property and affairs are managed under the direction of our Board of Directors. Members of our Board are kept informed of our business through discussions with our Chairman and Chief Executive Officer (CEO) and other officers, by reviewing materials provided to them, by visiting our offices and by participating in meetings of the Board and its Committees. All members of the Board are independent under the rules promulgated by the Securities and Exchange Commission (SEC) and the listing standards of the NASDAQ Global Select Market (NASDAQ), except for our Chairman and CEO.

In accordance with our Corporate Governance Principles, directors are expected to attend the Company's annual meeting of shareholders. Nine directors attended the 2007 annual meeting of shareholders. During 2007, the Board of Directors met eight times. Each of the directors attended at least 75% of the meetings of the Board and of each committee of which he or she was a member.

Lead Independent Director

The Board has appointed Jon Eliassen as lead director. Candidates for lead director are chosen from the independent directors of the Board and elected by the independent directors. The lead director is the designated committee chair of the Corporate Governance Committee and chairs the sessions of the independent directors, which are typically held following each board meeting. In addition to corporate governance duties, the lead director is responsible for taking the lead role in annually reviewing the performance of the CEO, the search process for a new CEO should that become necessary and the annual performance review of the Board and individual board members. Additional responsibilities include acting as advisor to the CEO, as a mediator in disputes between the Board and the CEO, and as a mentor to new Board members.

Committees of the Board of Directors

The Board has established various committees to assist the Board in fulfilling its responsibilities. In 2007, these committees were the following:

- n Audit/Finance Committee;
- n Compensation Committee;
- n Corporate Governance Committee; and
- n Health, Safety, Environmental and Litigation Committee.

At its December meeting, the Health, Safety, Environmental and Litigation Committee recommended to the Board that the Committee be disbanded. The Board concluded that the issues reviewed by the Committee were being addressed adequately by management or the full Board and therefore agreed to disband the Committee effective December 4, 2007.

The current charters of each of the three remaining committees are available on our website, *www.itron.com*, by selecting Investor Information, Investors and then Corporate Governance and copies of each are attached to this proxy statement as **Appendices A-C**.

Audit/Finance Committee

The Audit/Finance Committee monitors our accounting practices, internal accounting controls and financial results, and has sole authority to retain, compensate and terminate our independent auditors. The Audit/Finance Committee members are Kirby Dyess, Jon Eliassen, Tom Glanville and Graham Wilson, who serves as chair. The Board has determined that all members of the Audit/Finance Committee are independent under SEC rules and NASDAQ listing standards. The Board has determined that Messrs. Eliassen, Glanville and Wilson are each an audit committee financial expert as defined in Item 407(d)(5) of Regulation S-K promulgated by the SEC under the Securities Exchange Act of 1934, as amended, (the Exchange Act). The Audit/Finance Committee held twelve meetings during 2007.

Compensation Committee

The Compensation Committee is responsible for making recommendations to the Board for our CEO's total annual and long-term incentive compensation and setting compensation levels for our other executive officers, as well as overseeing the administration of various incentive compensation and benefit plans and performing any other functions regarding compensation that the Board may delegate. The members of the Compensation Committee are Ted DeMerritt (until his term expires at the annual meeting), Charles Gaylord, Sharon Nelson, Gary Pruitt and Mike Bracy, who serves as chair. The Board has determined that all members of the Compensation Committee are independent under SEC rules and NASDAQ listing standards. The Committee operates under a written charter adopted by the Board, which is available on our website at www.itron.com, by selecting Investor Information, Investors and then Corporate Governance. The Compensation Committee held seven meetings during 2007.

Under its charter, the Committee may invite other individuals, including external advisors, whether officers/employees of the Company or not, to attend Committee meetings and provide information, analysis and advice as it deems appropriate to assist in the fulfillment of its responsibilities. Such external advisors do not have a vote. During 2007, the Committee retained the services of Frederic W. Cook & Co., Inc. to advise the Committee, as needed, on general issues regarding executive compensation.

The Committee periodically requests executives to be present at Committee meetings where executive compensation, Company, and individual performances are discussed and evaluated (but not the executive sessions of these meetings). Executives are free to provide insight, suggestions or recommendations regarding executive compensation if present during meetings or at other times; however, only the Committee members are allowed to vote on decisions regarding executive compensation. The CEO annually reviews the performance of our executive officers (other than the CEO) with the Committee. The Committee takes these recommendations into account, as well as the other considerations discussed in *EXECUTIVE COMPENSATION Compensation Discussion and Analysis*, in determining executive compensation.

Corporate Governance Committee

The Corporate Governance Committee is responsible for reviewing corporate governance issues, soliciting recommendations for candidates for the Board of Directors, making recommendations to the Board regarding such candidates and reviewing and making recommendations to the Board with respect to candidates for directors proposed by shareholders. See *Director Nominations and Qualifications* below regarding our policies with regard to director candidates recommended by shareholders. The members of the Corporate Governance Committee are Kirby Dyess, Sharon Nelson, Graham Wilson and Jon Eliassen, who serves as chair. The Board has determined that all members of the Corporate Governance Committee are independent under SEC rules and NASDAQ listing standards. The Corporate Governance Committee held four meetings during 2007.

Health, Safety, Environmental and Litigation Committee

The Health, Safety, Environmental and Litigation Committee was established to monitor certain health, safety, environmental and litigation matters that are important to the Company. As previously stated, this Committee

and the Board voted to disband this Committee effective December 4, 2007 because the matters it reviews were being addressed adequately by management or the full Board. The Health, Safety, Environmental and Litigation Committee held three meetings during 2007.

Director Nominations and Qualifications

In accordance with the Company's Amended and Restated Bylaws, to nominate a director for election to the Board of Directors at an annual meeting of shareholders, a shareholder must deliver written notice of such nomination to the Secretary of the Company at the Company's executive offices no fewer than 60 days nor more than 90 days prior to the date of the annual meeting (or if less than 60 days' notice or prior public disclosure of the date of such annual meeting is given or made to the shareholders, not later than the tenth day following the day on which notice of the date of the annual meeting was mailed or public disclosure was made). The notice of a shareholder's intention to nominate a director must include:

- n the name and address of the shareholder;
- n a representation that the shareholder is entitled to vote at the meeting at which directors will be elected;
- n a statement of the number of shares of the Company that are beneficially owned by the shareholder;
- n a representation that the shareholder intends to appear in person or by proxy at the meeting to nominate the person or persons specified in the notice;

and the following information with respect to the person nominated by the shareholder:

- n name and address;
- n other information regarding such nominee as would be required in a proxy statement filed pursuant to applicable SEC rules;
- n a description of any arrangements or understandings between the shareholder and the nominee and any other persons (including their names), pursuant to which the nomination is made; and
- n the consent of such nominee to serve as a director, if elected.

The Chairman of the Board, other directors or senior management of the Company may also recommend director nominees for consideration by the Corporate Governance Committee. The Corporate Governance Committee evaluates director nominees, including nominees that are submitted to the Company by a shareholder, taking into consideration certain criteria including the nominee's understanding of the Company's financial objectives, strategies, risks and growth opportunities in view of the nature of the Company, its stage of development, its future strategic vision and its current business needs. In the event of a shareholder recommendation, the Corporate Governance Committee screens and evaluates the person recommended in the same manner as other candidates. In addition, the Committee determines if the proposed director nominee will have sufficient time available to carry out his or her Board duties and responsibilities effectively. The Corporate Governance Committee may then recommend the director candidate to the Board for its consideration, if deemed appropriate.

Code of Conduct and Ethics

The Company has adopted a code of conduct and ethics that applies to its directors, officers and employees, including the chief executive officer and chief financial officer, and it is available on the Company's website, www.itron.com, by selecting "Investor Information", "Investors", and then "Corporate Governance". EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

The Compensation Committee (Committee) of our Board of Directors (Board) provides overall guidance for our executive compensation plans, policies and programs, and determines the components of compensation for our executive officers. Our goal is to attract, motivate, retain and reward key executives by designing our executive compensation programs to be comparable to the compensation of a peer group of companies we have identified. We also strive to align our executive compensation with the long-term interests of our shareholders.

Michael Bracy, Ted DeMerritt, Charles Gaylord, Jr., Sharon Nelson and Gary Pruitt are members of the Committee. Mr. Bracy, the Committee Chairman, has served on the Board since 1992. Each member of the Committee qualifies as an independent director under SEC rules and NASDAQ listing standards, as well as the independence requirements established by the Board. In addition, each member is a non-employee director within the meaning of Rule 16b-3 under the Securities Exchange Act and an outside director within the meaning of Section 162(m) of the Internal Revenue Code.

The Committee approves the compensation of our named executive officers (executive(s) or NEOs), except our Chairman and Chief Executive Officer (CEO). The Committee recommends and submits the compensation of the CEO to the entire Board for its approval, and the CEO does not participate in that Board decision. The Committee has authority under its charter to retain, approve fees for and terminate advisors, consultants and agents as it deems necessary to assist in the fulfillment of its responsibilities. The Committee also has the authority under its charter to form and delegate its authority to subcommittees and may delegate authority to one or more designated members of the Board or to Company officers. In designing the executive compensation programs, the Company and the Committee each engaged the services of compensation consultants. During 2007, the Company retained the services of Pearl Meyer & Partners, who assisted with the review of the long-term incentive and equity compensation programs, as well as updated the competitive analysis of executive compensation. In addition, the Committee retained the services of Frederic W. Cook & Co., Inc. to advise the Committee, as needed, on general issues regarding executive compensation.

The Committee periodically requests executives to be present at Committee meetings where executive compensation, Company, and individual performances are discussed and evaluated. Executives are free to provide insight, suggestions or recommendations regarding executive compensation if present during meetings or at other times; however, only the Committee members are allowed to vote on decisions regarding executive compensation. The Committee also receives recommendations from the CEO regarding the compensation of our other executive officers.

Compensation Philosophy & Structure

Our compensation philosophy is to provide compensation to our executives that is commensurate with the performance of the Company, competitive with the market in order to attract, retain and motivate our executive team, and provides long-term incentives through long-term stock appreciation. Additionally, we believe we are a leader in our industry in large part due to our executive leadership, so we strive to compensate our executives at a competitive level that will ensure our continued executive leadership and strong competitive position within our industry.

In line with our compensation philosophy, we utilize three main components of compensation:

- n *Base Salary* fixed pay that takes into account an individual's role and level of responsibilities, prior experience and breadth of knowledge and levels of pay among executives in similar positions within the marketplace;

Table of Contents

- n *Annual Incentives* variable pay that is designed to reward attainment of annual business and financial goals, with target award opportunities generally expressed as a percentage of base salary; and
- n *Long-Term Incentives* stock and performance-based awards consisting of stock options and restricted stock units that are designed to reward executives for attaining financial goals, but also to encourage executive retention during the vesting period which we believe helps preserve shareholder value.

We believe these three elements of compensation provide a well-proportioned mix of security-oriented compensation, retention value, equity interest and at-risk compensation, which supports our short-term and long-term financial performance objectives. It is our belief that as much as 60% or more of an executive's total compensation should be incentive based.

It is also our belief that long-term incentives, and particularly equity compensation, provide a very important motivational and retentive aspect to the compensation package and directly align our executives' financial interests with the interests of our shareholders.

In determining the appropriate compensation levels, all forms of compensation and benefits are considered and are used to evaluate an executive's total compensation. To ensure compensation levels are appropriate, the Committee compares these levels with a competitive market, which is determined using a defined peer group of companies. Our peer group, for compensation comparative purposes, is comprised of 17 companies throughout the United States that are technology companies with a similar balance of both hardware and software components, as well as other companies who may compete for our executives. Our peer group is structured to be similar to us in terms of revenue size, with revenues ranging from \$300 million to \$1.7 billion and a median of \$740 million. In addition, the Committee considers our financial and stock performance in comparison with the companies in the peer group. The peer group used in determining 2007 compensation included the following companies: Avista Corporation; Analogic Corporation; Brooks Automation, Inc.; EMS Technologies, Inc.; ESCO Technologies Inc.; FileNet Corporation; Garmin Ltd.; Gerber Scientific, Inc.; IDACORP, Inc.; Intergraph Corporation; Intermec, Inc.; Mentor Graphics Corporation; Palm, Inc.; Roper Industries, Inc.; Symbol Technologies, Inc.; Teledyne Technologies Incorporated and Trimble Navigation Limited. Finally, the peer group information is supplemented with compensation survey data, which provides position-based compensation levels across broad industry segments. In 2007 the Committee reviewed, for benchmarking purposes, compensation surveys provided by our consultant, Pearl Meyer & Partners, which surveys were conducted by the consulting firms of Watson Wyatt and Mercer and covered more than 2,500 companies. The Committee generally targets base salaries at the 50th percentile of market competitive levels and annual and long-term incentives between the 50th and 75th percentile of market competitive levels, assuming financial performance goals are achieved at target. We believe our executives are in alignment with these percentiles based on our current compensation programs.

The Committee has discretion to change all forms of incentive payouts (annual and long-term) based on the performance of the individual or the Company. This includes both decreasing payouts for significant shortfalls and approving special awards to individual executives for significant achievements, including superior financial performance, strategic accomplishments or consummation of mergers, acquisitions or dispositions. As discussed below, the Committee approved the CEO's and the Senior Vice President and Chief Financial Officer's (CFO) decision to forgo their annual incentive payout for 2007. The Committee did not change the long-term payouts nor did it make any special awards to any of the executives.

Base Salary

The base salaries for executives are determined by comparing pay levels for similar positions, responsibility and prior experience. Salary levels and proposed increases for executives are reviewed annually by the Committee. Adjustments are based on several factors including new roles or responsibilities within the Company, the executive's significant impact on strategic goals, competitive compensation and Company performance.

Table of Contents

Although salaries are generally targeted at our median peer group level, the Committee may also take into account historical compensation, the potential impact the executive has on our performance, strategic goals and special recruiting situations.

In 2007, the Committee took the following actions related to base salaries:

- n Upon completion of the acquisition of Actaris, Inc., the Company realigned its operating segments into two segments, Itron North America and Actaris (together, sometimes referred to as Itron worldwide). A Senior Vice President and Chief Operating Officer (COO) was assigned to each segment. As a result of these organizational changes and due to the increased scope of responsibility for each of the newly appointed COOs, the Committee approved an increase in their 2007 annual base salaries from \$300,000 to \$410,000 for Mr. Unsworth (COO-Actaris) and from \$300,000 to \$400,000 for Mr. Mezey (COO-Itron North America), both of which increases were effective June 1, 2007. We believe this was an appropriate increase given their additional responsibilities, but also necessary to achieve the 50th percentile target.

- n The Committee and the Board (for the CEO) reviewed the 2007 base salaries for our other executives, the CEO, the CFO, and the Vice President Competitive Resources (VP Competitive Resources), and set their 2007 base salaries at \$650,000, \$300,000, and \$205,000, respectively. Though the competitive market data analysis reflected that these positions' base salaries were lower than 50th percentile target, it was determined that these executives' base salaries would be re-evaluated in 2008.

Annual Incentives

The annual incentive component of compensation payable to our executives is based on a percentage of the executive's base salary actually earned for the fiscal year. The percentage varies among individuals. This annual incentive program provides the executives the opportunity to receive a cash incentive award that is contingent on our financial performance for the year. The length of each performance period is one calendar year. In the first quarter of each year, the Committee works with management to establish the annual performance targets for that calendar year or performance period for each of our executives, except our CEO. The CEO's targets are established and recommended by the Committee for approval by the entire Board.

Table of Contents

In February 2007, the Committee and the Board (for the CEO) approved the individual annual performance target levels by position. Depending on the executive's position, the measures were based on the annual achievement of Adjusted EBITA (as defined below) worldwide (the entire Company), Adjusted EBITA for Actaris or Adjusted EBITA for Itron North America. Each target is generally separated into these three levels: threshold, target and maximum, and attainment is based on a sliding scale. If the threshold level of performance for a particular year, or performance period, is not achieved, management is not entitled to any awards. The following represents the performance levels established for the 2007 performance period, along with the award opportunity for each executive (expressed as a percentage of the executive's base salary):

	Performance Target	Award Opportunity (% of Salary)
<u>Metric: Adjusted EBITA Worldwide</u>		
Chairman & CEO		
Threshold	\$ 148.7 million	50.0%
Target	\$ 195.9 million	100.0%
Maximum	\$ 225.3 million	200.0%
Senior Vice President & CFO		
Threshold	\$ 148.7 million	37.5%
Target	\$ 195.9 million	75.0%
Maximum	\$ 225.3 million	150.0%
<u>Metric: Adjusted EBITA Actaris</u>		
Senior Vice President & COO Actaris		
Threshold	51.3 million	37.5%
Target	72.2 million	75.0%
Maximum	83.0 million	150.0%
<u>Metric: Adjusted EBITA Itron North America</u>		
Senior Vice President & COO Itron North America		
Threshold	\$ 85.8 million	37.5%
Target	\$ 117.3 million	75.0%
Maximum	\$ 134.9 million	150.0%
Vice President, Competitive Resources		
Threshold	\$ 85.8 million	25.0%
Target	\$ 117.3 million	50.0%
Maximum	\$ 134.9 million	100.0%

The Committee established the performance levels using Adjusted EBITA. Adjusted EBITA is calculated by taking net income (loss) as defined in accordance with generally accepted accounting principles (GAAP), and adding back net interest expense, taxes and amortization. The Committee then adjusts this metric for certain expenses and gains and losses that may not be indicative of our core business results. We exclude the expense associated with amortization of intangible assets and in-process research and development resulting from acquisitions and restructuring charges because we do not believe these expenses are indicative of our core business. Although such events have occurred in the past and may recur in future periods, we believe they are driven by events (such as acquisitions and restructurings) that occur sporadically and are not directly related to our ongoing core operations.

Performance targets for 2007 were set to require performance significantly beyond that of the prior year. Achievement at the maximum level represents a superior performance outcome, which we believe is fully deserving of a maximum incentive payout.

The Committee and the Board (for the CEO) reviewed our 2007 performance with respect to Adjusted EBITA, and determined that Actaris results exceeded target, worldwide results exceeded threshold and Itron North America's results were less than threshold. Although both our CEO and CFO achieved approximately 75%

Table of Contents

attainment of their worldwide performance target, both opted to forgo their awards due to the less than acceptable performance results of Itron North America. The remaining executives, with the exception of Mr. Unsworth, were not eligible to receive any awards under the annual incentive plan. Mr. Unsworth, COO-Actaris, received an annual incentive award of \$372,075.

Long-Term Incentives

We believe that equity compensation can be an effective means of creating a long-term link between the compensation provided to executives and the gains realized by shareholders. As a result, executives are eligible to receive stock options and performance-based restricted stock units under the Company's Amended and Restated 2000 Stock Incentive Plan and the Long-Term Performance Plan. The use of these two equity-based plans supports a performance based compensation philosophy, fosters executive stock ownership and focuses the executive team on increasing value for our shareholders.

Stock Option Grants

Under the Amended and Restated 2000 Stock Incentive Plan, as amended and approved by our shareholders in 2007, the Committee has the authority to grant a variety of long-term incentive and equity awards. Such awards may include, but are not limited to, incentive stock options, nonqualified stock options, stock awards, restricted stock awards and restricted stock units. This section discusses the process in which stock options are granted to our senior executives. Restricted stock unit awards are discussed in further detail under the caption below *Long-Term Performance Plan*.

The number of stock options granted to an executive is determined by the executive's position and responsibility, the total amount of awards previously granted and the number deemed appropriate for retention purposes. Prior stock compensation appreciation gains are not generally considered in setting future compensation levels, as the goal is to reward future performance. However, the number of options that were previously granted are reviewed when establishing current option grants. All outstanding stock options to executives incorporate the following features:

- n The term of the grant does not exceed 10 years;
- n The exercise price equals the fair market value of our common stock on the date of grant; and
- n The Committee has the authority to determine the vesting period, which historically has been three years (33 1/3% each year). In lieu of a vesting period set specifically by the Committee, the plan provides for a four year vesting period (25% each year).

Historically, annual stock option grants to executives are made in May. On May 14, 2007, the Committee and the Board (for the CEO) granted the following stock options to our executives with an exercise price of \$67.43 per share, representing the closing price of our stock on that day:

- n CEO 40,000
- n CFO 20,000
- n COO Actaris 20,000
- n COO Itron North America 20,000
- n VP Competitive Resources 15,000

The options vest in equal amounts over the next three years. From time to time the Committee may also grant stock options in connection with an acquisition, employee promotion or to newly hired employees. We do not make grants to new executives or to our existing executives in connection with the release of material non-public information. We do not time the release of material nonpublic information for the purpose of affecting the value of our executive officers' compensation.

Table of Contents

We believe options are a powerful form of compensation for executives because it aligns management's incentives with the best interests of our shareholders. As a result, we expect to continue granting stock options to our senior executives, as well as restricted stock units associated with the Long-Term Performance Plan as described below.

Long-Term Performance Plan

The Long-Term Performance Plan (LTPP) provides performance awards that are contingent on the attainment of certain performance goals. The length of each performance period is one year, unless otherwise determined by the Committee. At the beginning of the performance period, goals are recommended by management and approved by the Committee. The performance goals are determined based on the expected financial performance of the Company. In determining the appropriate goals, we consider proposed acquisitions, financing or other major projects that could potentially have a material impact on our financial performance.

For each year, the performance levels established and approved by the Committee and the Board (for the CEO) are generally separated into the following three levels; threshold, target and maximum. If the threshold level for a particular year is not achieved, executives will not be entitled to an award unless the Committee makes a special determination. To date, the Committee has not granted an LTPP award when performance has not met the threshold level. Except with respect to the closing of the Actaris acquisition, the payout amount is also calculated on a sliding scale as a percentage of the target level similar to the annual incentive program. At the end of the performance year, the Committee and the Board (for the CEO) review the actual results of the Company compared with the predetermined goals and approve the units to be awarded, which is based on a percentage of the executive's base salary at the beginning of the performance period and converted into restricted stock units. The restricted stock unit award is determined by dividing the dollar amount of the award by the fair market value of our common stock on the first business day of the performance year. The restricted stock unit award cliff vests three years following the date of grant and each unit is the equivalent of one share of common stock.

Table of Contents

In February 2007, the Committee and the Board (for the CEO) approved award opportunities for the CEO, CFO, VP-Competitive Resources, COO-Actaris and COO-Itron North America that were equally weighted among the following three performance measurements: worldwide (the entire Company) free cash flow, worldwide non-GAAP pre-tax net income and the successful closing of the Actaris acquisition by June 1, 2007. Worldwide free cash flow is defined as GAAP cash flow from operations, less the acquisition of property, plant and equipment. Non-GAAP pre-tax net income is defined as GAAP pre-tax net income, excluding expenses for amortization of intangibles, in-process research and development, restructuring and amortization of debt placement fees, which we believe are not indicative of our core business. Additionally, for the COO-Actaris and COO-Itron North America, the worldwide non-GAAP net income measurement was replaced with each respective operating segment's revenue. The following represents the performance levels established for 2007, along with the award opportunity for each executive (expressed as a percentage of the executive's base salary):

	Metrics:			Award	No. of
	Worldwide Free	Non-GAAP	Closing of	Opportunity	Units
	Cash Flow	Pre-tax	Actaris Acq.	(% of Salary)	
		Net Income			
Chairman & CEO					
Threshold	\$ 96.2 million	\$ 123.7 million	33.3%	33.3%	4,216
Target	\$ 117.6 million	\$ 151.1 million	33.3%	100.0%	12,660
Maximum	\$ 122.9 million	\$ 158.0 million	33.3%	109.9%	13,913
Senior Vice President & CFO					
Threshold	\$ 96.2 million	\$ 123.7 million	33.3%	25.0%	1,459
Target	\$ 117.6 million	\$ 151.1 million	33.3%	75.0%	4,380
Maximum	\$ 122.9 million	\$ 158.0 million	33.3%	82.4%	4,812
Vice President, Competitive Resources					
Threshold	\$ 96.2 million	\$ 123.7 million	33.3%	16.7%	666
Target	\$ 117.6 million	\$ 151.1 million	33.3%	50.0%	2,000
Maximum	\$ 122.9 million	\$ 158.0 million	33.3%	55.0%	2,200
	Metrics:			Award	No. of
	Worldwide Free	Segment	Closing of	Opportunity	Units
	Cash Flow	Revenue	Actaris Acq.	(% of Salary)	
Senior Vice President & COO Actaris					
Threshold	\$ 96.2 million	439.1 million	33.3%	25.0%	1,459
Target	\$ 117.6 million	536.6 million	33.3%	75.0%	4,380
Maximum	\$ 122.9 million	561.1 million	33.3%	82.4%	4,812
Senior Vice President & COO Itron North America					
Threshold	\$ 96.2 million	\$ 622.7 million	33.3%	25.0%	1,459
Target	\$ 117.6 million	\$ 737.9 million	33.3%	75.0%	4,380
Maximum	\$ 122.9 million	\$ 761.0 million	33.3%	82.4%	4,812

As with our annual incentives, we believe the LTPP targets require performance significantly beyond that of the prior year. Achievement at the maximum level represents a superior performance outcome, which we believe is fully deserving of a maximum award payout.

Table of Contents

In February 2008, the Committee and the Board (for the CEO) reviewed our performance for 2007 and determined the awards earned by our executives were as follows (expressed as a percentage of the executive's base salary at the beginning of the performance period):

	Metrics:			
	Worldwide Free Cash Flow	Non-GAAP Pre-tax Net Income	Closing of Actaris Acq.	Award %
Chairman & CEO				
Results	\$ 92.6 million	\$ 116.7 million	Yes	
Award	0%	0%	33.3%	33.3%
Senior Vice President & CFO				
Results	\$ 92.6 million	\$ 116.7 million	Yes	
Award	0%	0%	33.3%	33.3%
Vice President, Competitive Resources				
Results	\$ 92.6 million	\$ 116.7 million	Yes	
Award	0%	0%	33.3%	33.3%
Senior Vice President & COO Actaris				
Results	\$ 92.6 million	599.1 million	Yes	
Award	0%	38.3%	33.3%	71.6%
Senior Vice President & COO Itron North America				
Results	\$ 92.6 million	\$ 630.3 million	Yes	
Award	0%	17.7%	33.3%	51.0%

As indicated in the table above, worldwide free cash flow and worldwide non-GAAP pre-tax net income results fell short of threshold, revenue for Actaris exceeded the maximum, revenue for Itron North America exceeded threshold (but fell below target), and the Actaris acquisition was successfully closed by June 1, 2007. Therefore, under the LTPP, the executives were eligible to receive a portion of their target award opportunity. Accordingly, the following amounts were paid in restricted stock units (RSUs), with three-year cliff vesting. Each unit is the equivalent of one share of our common stock:

- n CEO 4,216 RSUs
- n CFO 1,459 RSUs
- n COO Actaris 3,136 RSUs
- n COO Itron North America 2,235 RSUs
- n VP Competitive Resources 666 RSUs

These awards are reflected in the *Summary Compensation Table* and the *2007 Grants of Plan-Based Awards Table* in this proxy statement.

Perquisites and Other Benefits

The following details other compensation and perquisites offered to our executives. We believe these perquisites and other benefits support our overall goal to attract, motivate, retain and reward our key executives. You may refer to the *EXECUTIVE COMPENSATION TABLES Summary Compensation Table* elsewhere in this proxy statement for specific amounts paid by us for perquisites for our NEOs in 2007.

Executive Deferred Compensation Plan

Our executives are eligible to participate in the Company's Executive Deferred Compensation Plan. In 2007, the plan allowed executives to defer up to 50% of their base salary and 50% of their annual incentive into a nonqualified account. Executives were also permitted to elect to defer an additional portion of their base salary equal to the amount of any contributions returned to them during the year from the Company's 401(k) plan so that such plan could satisfy the nondiscrimination requirements applicable to it. For 2007, the Company made a matching contribution to the account of each participating executive at the rate of 50% of the first 6% of base salary and annual incentive deferred by the executive during the year. The executives' account balances were adjusted for hypothetical investment earnings or losses according to the returns of the specified measurement funds selected by the executives. The measurement funds correspond to the mutual funds available for investment under the 401(k) plan (but do not include a Company stock fund).

Flexible Benefit Plan

In lieu of providing extensive perquisites, our executives are provided with a total annual allowance up to a maximum of 3% of the executive's base salary and subject to individual limits, to be used through the Company's Flexible Benefit Plan, for any of the following products or services:

- n Financial planning
- n Tax preparation

Other Benefits

We do not maintain any defined benefit or supplemental retirement programs for our executives. Executives are eligible to participate in our 401(k) plan, which is generally available to all U.S. employees. The 401(k) plan provides our employees, including executives, with a 50% company match on the first 6% of compensation deferred, subject to qualified plan limits.

Our executives may also participate in other benefit plans on the same terms as other employees. These plans include medical and dental insurance, life insurance, disability insurance and accidental death and dismemberment insurance.

Employment Agreements

We do not have employment agreements with our executives. We are aware that such agreements are in place at many of our peer group companies. We also recognize that implementation of such agreements may positively affect our ability to attract and retain key executives in the future and therefore we have discussed implementing such agreements. However, to date no action has been taken by the Committee.

Change in Control Agreements

We have entered into change in control agreements with each of our executives to encourage their full attention and dedication to the Company and to provide them with reasonable compensation and benefits in the event of a change in control. Under these agreements, we and each of our executives have agreed that, in the event the executive is terminated during one or two years after a change in control, depending on the executive, the executive will be entitled to certain payments and benefits, as described under *Potential Payments Upon Change in Control Change in Control Agreements* in this proxy statement.

Compensation Policies

Stock Ownership Guidelines & Policies

In 2006 we adopted stock ownership guidelines to encourage our key executives to own our stock at least equal in value to two to four times each executive's base salary. Common stock, restricted stock awards, restricted stock units and stock held in the Executive Deferred Compensation Plan, 401(k) plan and Employee Stock Purchase Plan all count towards satisfaction of the guidelines; however, unexercised stock options do not. We annually review the level of stock ownership of each executive. The following provides the current guidelines for our executives:

- n Chairman and CEO four times base salary

- n Senior Vice President & CFO three times base salary

- n Senior Vice President & COO Actaris three times base salary

- n Senior Vice President & COO Itron North America three times base salary

- n Vice President Competitive Resources two times base salary

Based on our stock value at December 31, 2007 of \$95.97 per share, all of the executives have either met this guideline or, in accordance with the terms of the policy, are making satisfactory progress towards meeting the guideline.

We also prohibit executives from holding Company securities in a margin account or pledging Company securities as collateral for a loan.

Financial Restatement

We do not have any plans, policies or agreements that specifically require recoupment of awards if performance measures are not achieved. However, under Section 304 of Sarbanes-Oxley, if we are required to restate our financials due to material noncompliance with any financial reporting requirement as a result of misconduct, the CEO and CFO must reimburse the Company for (1) any bonus or other incentive-based or equity-based compensation received during the 12 months following the first public issuance of the non-complying document and (2) any profits realized from the sale of securities of the Company during those 12 months.

Impact of Tax and Accounting

We regularly consider the various tax and accounting implications of compensation vehicles utilized. When determining the amount of long-term incentives and equity grants to executives and employees, the compensation costs associated with the grants as required by Statement of Financial Accounting Standards No. 123(R) are reviewed.

We generally seek to maximize the tax deductibility for all elements of compensation. For example, Section 162(m) of the Internal Revenue Code generally prohibits any publicly held corporation from taking a federal income tax deduction for compensation paid in excess of \$1 million in any taxable year to the CEO and the next three highest compensated officers (other than the CFO). Under the current tax laws, exceptions are made for qualified performance-based compensation. Our stock options and LTTP awards are structured to meet the definition of performance-based compensation under Section 162(m). We intend to maximize the effective tax consequences of our executive compensation plans; however, while retaining our compensation philosophy, the Committee retains the right to grant awards that would not qualify for the performance-based compensation exception if the Committee determined further compensation was appropriate.

Compensation Planning for Fiscal Year 2008

This section describes certain compensation decisions and actions effective subsequent to the end of fiscal year 2007.

Competitive Analysis Revised Peer Group

As previously described, the Committee compares the compensation levels of our executives with those in a defined peer group of companies. With the acquisition of Actaris, the Company has grown substantially in terms of revenue, global scope and business lines. As a result, we modified our peer group for 2008 compensation comparative purposes by including the following additional companies to those we used for 2007 that are listed previously under *Compensation Discussion and Analysis Compensation Philosophy and Structure* : Ametek, Inc.; Badger Meter, Inc.; Cooper Industries Ltd.; Diebold Inc.; ESCO Technologies Corp.; Esterline Technologies Corp.; Molex, Inc.; Mueller Water Products, Inc.; National Instruments Corp.; PerkinElmer, Inc.; Roper Industries, Inc.; Quanta Services, Inc.; Tektronix, Inc. and Valmont Industries, Inc.

Base Salaries

In December 2007, the Committee determined that the increase in the size and scope of the Company's operations resulting from the Actaris acquisition warranted considerable increases in the base salaries of our CEO and CFO from \$650,000 to \$825,000 and from \$300,000 to \$400,000, respectively. The salary for our Vice President-Competitive Resources was also increased as a consequence of his increased scope of responsibility for human resources worldwide, from \$205,000 to \$250,000. These increases were effective for the fiscal year beginning January 1, 2008.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis with Itron's management. Based on the review and discussions, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in the Company's 2008 Proxy Statement.

- (1) These columns reflect the dollar amounts recognized for financial statement reporting purposes for the fiscal year ended December 31, 2007, and December 31, 2006, respectively in accordance with Statement of Financial Accounting Standards No. 123 (R), for awards granted under our Long-Term Performance Plan and Amended and Restated 2000 Stock Incentive Plan and thus include amounts from awards granted in and prior to 2007 and 2006, respectively. See Note 10 of the consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2007 and Note 15 of the consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2006, respectively, regarding assumptions underlying the valuation of these equity awards.
- (2) This column reflects the cash awards earned by the named executives for fiscal year 2007 and 2006 performance, respectively, under our annual incentive program.
- (3) In fiscal year 2006, funds in Itron's Executive Deferred Compensation Plan were credited with an interest rate of 8%. Amounts reported for 2006 represent above market earnings on Itron's Executive Deferred Compensation Plan, calculated as the difference between monthly compounded earnings credited on plan balances (8% annually) and earnings credited at a rate equal to 120% of the Applicable Federal Rate, or 5.89%. Beginning in fiscal year 2007, funds in the Executive Deferred Compensation Plan were not credited with a specified interest rate, but instead were adjusted for hypothetical investment earnings or losses according to the returns of the specified measurement funds selected by the executives. The measurement funds correspond to the mutual funds available for investment under the 401(k) plan (but do not include a Company stock fund). As a result, no amount is shown in this column for 2007.

The non-equity incentive awards included in this table and also set forth in the *Summary Compensation Table* under the column Non-Equity Incentive Plan Compensation, represent the annual incentive component of our executives' compensation. These potential payout awards are paid in cash as a percentage of the executives' salary, based upon achievement of certain pre-determined performance criteria. See *Annual Incentives* under the *Compensation Discussion and Analysis* section.

The equity incentive plan awards represent awards under the Company's Long-Term Performance Plan (LTPP) for the 2007 performance cycle. These awards were paid out in 2008 in the form of restricted stock units (RSUs) that are subject to three-year cliff vesting. The number of RSUs granted is determined in accordance with the pre-determined performance criteria. Each unit represents one share of our common stock. See *Long-Term Incentives* under the *Compensation and Discussion Analysis* section.

Table of Contents

The stock options were granted under the Company's Amended and Restated 2000 Stock Incentive Plan. The options vest in three equal annual installments and expire in ten years. The number of options granted is determined by the executive's position and responsibilities. The restricted stock was granted under the LTPP for the 2006 performance cycle. The restricted stock is subject to three year cliff vesting. The number of shares of restricted stock granted is determined in accordance with the pre-determined performance criteria. See *Long-Term Incentives* under the *Compensation and Discussion Analysis* section.

Consistent with our compensation philosophy, over 60% of our executives' compensation is considered to be incentive based. See *Compensation Philosophy and Structure* under the *Compensation Discussion and Analysis* section.

Our COO-Actaris, Malcolm Unsworth, is eligible to participate in our International Assignment Program (Program) as a result of the Actaris acquisition and his promotion to his current position. This Program provides for his current assignment to Actaris, which requires that he reside and work in Belgium for a period of two years, with an option of a one-year extension to be determined on or before December 31, 2008. The material terms of the Program provide for relocation assistance, cost of living adjustments, housing and utilities assistance, moving expense reimbursement, transportation allowance for vehicle leasing, and reimbursement for an international driver's license, income tax services, and tax equalization costs equal to any additional Belgium or U.S. income and social taxes incurred as a result of Mr. Unsworth's assignment. See *Potential Payments upon Termination - Termination Provisions under International Assignment Program for Malcolm Unsworth* for a description of the termination provisions of the Program.

Executive Deferred Compensation Plan

Our NEOs are eligible to participate in the Company's Executive Deferred Compensation Plan. Under this plan, participants may defer up to 50% of their base salary and 50% of their annual incentive to a non-qualified account. Participants may also defer an additional portion of their base salary equal to the amount of any contributions returned to them during the year from the Company's 401(k) plan so that the 401(k) plan can satisfy the nondiscrimination requirements applicable to it. Each year, the Company makes matching contributions to the account of each participating executive at the rate of 50% of the first 6% of base salary and annual incentive deferred by the executive during that year.

Each participant's account is adjusted for hypothetical investment earnings or losses based on the performance of the measurement funds in which the account is deemed to be invested. Participants allocate their accounts among the measurement funds available under the plan and can change their allocation at any time. These measurement funds are the same as the mutual funds offered for investment purposes under the Company's 401(k) plan (but do not include a Company stock fund). Measurement funds are used solely to determine the amount of the hypothetical investment earnings or losses to be allocated to the participant's account. The Company is not obligated to invest any assets in these

funds.

Table of Contents

Accounts are distributed (or commence to be distributed) to participants upon termination of employment with the Company and its affiliates. Distribution will generally be made (or commence to be made) within 90 days after termination. However, distribution will be delayed until six months after termination to the extent necessary to comply with the requirements of Internal Revenue Code Section 409A. In-service distributions are not generally permitted. However, participants may elect to withdraw amounts from their accounts prior to termination to satisfy emergency needs in the event of an unforeseeable emergency (as determined by the plan administrator).

A participant's account will be distributed in a lump sum, unless the participant elects to have it distributed in substantially equal annual installments over a period of not more than 10 years. This election must be made at the time the participant is first eligible for the plan, and may only be changed under limited circumstances, provided that participants may change their distribution elections at any time prior to the end of 2008.

Potential Payments upon Termination

Termination for Cause

Under these circumstances, the executive is entitled to receive any accrued and unpaid base salary through the date of termination. All options granted automatically expire when terminated for cause and any unvested awards under the Long-Term Performance Plan will be forfeited in the event of termination for cause.

Termination due to Death, Disability or Retirement

Under these circumstances, the executive or his or her estate is entitled to any accrued and unpaid base salary through the date of termination and any vested stock options would remain exercisable for one year following the termination under the terms of the stock incentive plan. For awards under the Long-Term Performance Plan (a) if termination occurs for any reason during a performance period, the award will be forfeited and (b) if termination occurs for any reason during the three-year cliff vesting period of a restricted stock award (granted in 2006 for 2005 performance and in 2007 for 2006 performance), the award will be forfeited.

Voluntary Termination

Under these circumstances, the executive is entitled to any accrued and unpaid base salary through the date of termination and any vested options would remain exercisable for 90 days following termination. For awards under the Long-Term Performance Plan (a) if termination occurs for any reason during a performance period, the award will be forfeited and (b) if termination occurs for any reason during the three-year cliff vesting period of a restricted stock award (granted in 2006 for 2005 performance and in 2007 for 2006 performance), the award will be forfeited.

Termination without Cause

Under these circumstances, the executive is entitled to any accrued and unpaid base salary through the date of termination and any vested options would remain exercisable for 90 days following termination. For awards under the Long-Term Performance Plan, (a) if termination occurs for any reason during a performance period, the awards are forfeited, (b) if termination occurs for any reason during the three-year cliff vesting period of a restricted stock award (granted in 2006 for 2005 performance and in 2007 for 2006 performance), the award will be forfeited.

Termination Provisions under International Assignment Program for Malcolm Unsworth

Pursuant to the provisions of the International Assignment Program with Malcolm Unsworth, Mr. Unsworth will receive severance payments equal to two weeks of base salary for each year of service with the Company if (a) he is terminated due to a re-evaluation of our business needs or (b) at the time of his repatriation, we determine that the same position or an equivalent position is not available. However, if he declines an offered

Table of Contents

position, Mr. Unsworth would not receive any severance pay. Similarly, if we terminate Mr. Unsworth for cause during his international assignment, or if he voluntarily resigns from his position while on international assignment, the Company will provide relocation of his household and personal goods to a U.S. location, but no severance will be provided. See *EXECUTIVE COMPENSATION TABLES Termination Payment Tables for NEOs Malcolm Unsworth* .

Potential Payments upon Change in Control

Change in Control Agreements

We have entered into change in control agreements with each of our executives to provide that during the one or two year period following a change in control, depending on the executive, the executive will be compensated with:

- n an annual salary at least equal to the annual salary established by the Compensation Committee or the Board of Directors for the fiscal year in which the change in control occurs or, if no annual salary has been established prior to the change in control, then the annual salary shall be at least equal to the annual salary for the prior fiscal year;
 - n an annual bonus at least equal to the maximum annual bonus established for the executive for the fiscal year in which the change in control occurs or, if no annual bonus has been established prior to the change in control, then the annual bonus shall be at least equal to a specified percentage of the annual base salary;
 - n payments at least equal to the Long-Term Performance Plan payout to that executive for the fiscal year in which the change in control occurs. Distribution shall be made in shares of the successor company should our stock cease to be publicly traded on or after the change in control;
 - n fringe benefits of the type provided by the successor company to similarly situated executives, such as paid vacation, participation in incentive, savings and retirement and welfare plans, except that if such fringe benefits are of less value than the fringe benefits that the executive was eligible for immediately prior to the change in control, then the executive will be entitled to the fringe benefits provided immediately prior to the change in control or, at the election of the successor company, to cash payments equal to the difference in value; and
 - n reimbursement of all reasonable employment expenses incurred in accordance with applicable policies, practices and procedures.
- If we terminate an executive, other than for cause, or if an executive terminates employment for good reason during the employment period or prior to a change in control if the executive can reasonably demonstrate that such termination was at the request of a third party who has taken steps reasonably calculated to effect the change in control or demonstrates that such termination otherwise arose in connection with or in anticipation of a change in control, then the executive will receive:

- n any unpaid salary due to the executive as of the date of termination;
- n pro-rated annual bonus, based on the maximum bonus established for the fiscal year in which the change in control occurs;
- n any previously deferred compensation and accrued vacation pay;

Edgar Filing: ITRON INC /WA/ - Form DEF 14A

- n payment or reimbursement of insurance premiums for COBRA continuation coverage for the executive and his or her family for eighteen months after the date of termination (except to the extent the COBRA continuation coverage ceases to be available);

- n lump-sum severance pay equal to, depending on the executive, up to three times the sum of the executive's annual base salary, bonus and Long-Term Performance Plan award payments for the fiscal year in which the change in control occurs; and

Table of Contents

- n payment or reimbursement of any life insurance premiums for any individual life insurance policy resulting from the conversion of coverage from our group-term life insurance plan for twenty-four months after the date of termination.

If the executive is terminated for cause or if the executive terminates his or her employment other than for good reason, the executive will only be entitled to receive any unpaid salary due to the executive as of the date of termination and any amounts previously deferred by the executive. If the executive terminates because of death or disability, the executive will only be entitled to receive any unpaid salary and pro-rated bonus due to the executive as of the date of termination, any amounts previously deferred by the executive and any accrued vacation pay.

In the event that payments under the change in control agreement result in the imposition of excise taxes to the executive, we will pay the executive an additional amount equal to the excise tax and other related taxes, provided, however, that if reducing the amount of severance payable to the executive by up to five percent would not subject the executive to the excise tax, the amount of severance may be reduced by such amount, not to exceed five percent, as would not subject the executive to the excise tax.

A change in control for purposes of this agreement generally consists of any of the following (excluding certain related party transactions):

- n an acquisition of 20 percent or more of our voting securities;
- n the current Board of Directors (and their approved successors) ceasing to constitute a majority of the Board;
- n consummation of any merger or consolidation with or into another corporation;
- n consummation of any sale, lease, exchange or other transfer of all or substantially all of our outstanding securities or substantially all of our assets.

A termination by us for cause generally includes:

- n the executive's willful injury of us or breach of fiduciary duty to us involving personal profit;
- n conviction of a crime against us or felony;
- n habitual or repeated misuse by the executive of alcohol or controlled substances that materially impairs the executive's ability to perform his or her duties; or

- n any willful act involving moral turpitude which materially and adversely affects our business, goodwill or reputation.

A termination for good reason by the named executive officer generally includes any of the following actions by us without the executive's written consent following the change in control:

- n a material reduction in the executive's authority, duties, responsibilities or status;
- n failure to compensate the executives based on the provisions set forth in the change in control agreement as stipulated above;

Edgar Filing: ITRON INC /WA/ - Form DEF 14A

- n changing the executive's office location so that he or she must commute more than 50 miles from the office where the executive was performing services as of the change in control date; or

- n failing to obtain a satisfactory agreement from any successor company to assume and agree to perform the obligations under the change in control agreement.

Amended and Restated 2000 Stock Incentive Plan Change in Control Provisions

Our 2000 Stock Incentive Plan contains certain provisions relating to corporate transactions. In the event of a corporate transaction that is not a related party transaction, the vesting of options and stock awards will accelerate and become 100% vested and exercisable. In the event of a corporate transaction that is a related party transaction, the vesting of options and stock awards will not accelerate, unless the successor company refuses to assume or substitute the awards. Under the terms of the 2000 Stock Incentive Plan, the following events are defined as corporate transactions:

- n consummation of any merger or consolidation with or into another corporation;

- n consummation of any sale, lease, exchange or other transfer of all or substantially all of our outstanding securities or substantially all of our assets; or

- n acquisition of a majority or more of our outstanding voting securities.

Long-Term Performance Plan Change in Control Provisions

All outstanding performance awards will be accelerated at the maximum level and immediately paid in fully vested shares of our common stock prior to a change in control. Furthermore, any outstanding unvested restricted stock or restricted stock units issued in connection with a prior performance period will accelerate in full immediately prior to a change in control. The definition of change in control for purposes of restricted stock awards granted under this plan for the 2005 and 2006 performance periods will be consistent with the definition in the standard change in control agreements that we have in effect at the time of a transaction. The definition of change in control for purposes of restricted stock units granted under this plan for the 2007 performance period includes (a) a corporate transaction (other than a related party transaction) as defined in the 2000 Stock Incentive Plan or (b) a change in control as defined in the standard change in control agreements that we have in effect at the time of a transaction, but in any event, the transaction must constitute a change in control event within the meaning of Section 409A of the Internal Revenue Code of 1986, as amended.

The tables below reflect the estimated amount of incremental compensation payable to each of our named executive officers in the event of termination of employment or change in control. The tables do not include benefits generally available to all employees on a non-discriminatory basis or payments and benefits that the NEOs would have already earned during their employment with us whether or not a termination or change in control event had occurred. The amounts shown assume that such termination or change in control was effective as of December 31, 2007. The actual amounts to be paid out can only be determined at the time of such executive's termination or upon a change in control, as applicable.

- (1) The above table does not include amounts deferred into our Executive Deferred Compensation Plan, stock option awards that are fully vested, earned salary, and accrued vacation as those items are earned and due to the employee regardless of such termination or change in control events. It also does not include amounts payable under life insurance coverage, our accidental death & dismemberment coverage or our business travel accident coverage, which are programs available to all employees. Under the change in control agreement with this executive the post-change in control employment period is two years and the severance payment is equal to three times the sum of the executive's base salary, annual incentive and Long-Term Performance Plan award. Each form of payment is mutually exclusive based on the individual circumstances or events and therefore represent a single payment and should not be added together.
- (2) Represents the difference between the maximum amount payable under the annual incentive program and the amount actually paid. Because Mr. Nosbaum chose to forgo his annual incentive award, the amount actually paid was zero.
- (3) Represents in-the-money value of accelerated stock options and outstanding restricted stock awards based on the closing price of our common stock on December 31, 2007 (\$95.97).
- (4) Represents three times the sum of base salary, maximum bonus and maximum 2007 Long-Term Performance Plan award.

- (6) In the event that payments under the change in control agreement result in imposition of excise taxes to the executive, we will pay the executive an additional amount (gross-up) equal to the excise tax and other related taxes on the excise tax gross-up (federal and state income taxes), unless reducing the amount of severance by up to five percent would not subject the executive to the excise tax, in which case the amount of severance may be reduced by such amount. The executive pays basic federal and state income taxes incurred on payments that are not a result of the imposition of the excise tax.

CHANGE IN CERTIFYING ACCOUNTANT

As a result of Itron's acquisition of Actaris Metering Systems (Actaris) on April 18, 2007, the Audit/Finance Committee undertook a review of both Deloitte & Touche LLP (Deloitte) and Ernst & Young LLP (E&Y) to determine which firm would best serve as Itron's independent accountants after completion of the Actaris acquisition. E&Y has served as Actaris' independent accountants since Actaris' formation in 2001. At a meeting on May 21, 2007, the Audit/Finance Committee of the Board selected E&Y to replace Deloitte as the Company's independent registered public accounting firm, subject to E&Y's acceptance of the position. Deloitte was informed of this decision on May 21, 2007 and E&Y notified the Company of its acceptance of the position as Itron's registered public accounting firm on May 24, 2007.

The audit reports of Deloitte on the consolidated financial statements of the Company as of and for the years ended December 31, 2006 and 2005 did not contain an adverse opinion or disclaimer of opinion, and were not qualified or modified as to uncertainty, audit scope or accounting principles, except that the audit report included an explanatory paragraph regarding Itron's adoption of Statement of Financial Accounting Standards No. 123(R) in 2006.

During the years ended December 31, 2006 and 2005, and in the subsequent interim period through May 21, 2007, there were: (i) no disagreements between Itron and Deloitte on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure, which disagreement, if not resolved to the satisfaction of Deloitte, would have caused Deloitte to make reference to the subject matter of the disagreement in their reports on the financial statements for such years; and (ii) no reportable events as that term is defined in Item 304(a)(1)(v) of Regulation S-K.

During the years ended December 31, 2006 and 2005 and in the subsequent interim period through May 21, 2007, Itron did not consult with E&Y regarding either: (i) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on Itron's financial statements, and neither was a written report nor oral advice provided to Itron that E&Y concluded was an important factor considered by Itron in reaching a decision as to the accounting, auditing or financial reporting issue; or (ii) any matter that was the subject of a disagreement, as that term is defined in paragraph 304(a)(1)(iv) of Regulation S-K and the related instructions to Item 304 of Regulation S-K, or a reportable event as that term is defined in paragraph 304(a)(1)(v) of Regulation S-K.

As required by SEC rules, we have provided Deloitte with a copy of the above disclosures and Deloitte has furnished a letter addressed to the SEC stating that Deloitte agrees with the disclosure statements concerning Deloitte's audit reports and financial services provided to the Company. This information was filed with the SEC on a Current Report on Form 8-K on May 24, 2007.

Each director shall meet the independence requirements established by the Board, the Nasdaq Stock Market, Inc., applicable federal and state securities laws and any other rules or regulations applicable to the Company from time to time.

As the Committee deems appropriate, it may retain independent counsel, accounting and other professionals to assist the Committee without seeking Board approval with respect to the selection, fees or terms of engagement of any such advisors. Such external advisors shall not have a vote.

Service on Other Public Company Audit Committees

No member of the Committee shall serve on more than two audit committees of publicly traded companies, other than the Company, at the same time such member serves on this Committee, unless the Board determines that such simultaneous service would not impair the ability of such member to serve effectively on this Committee. If a Committee member serves on the audit committees of both a public company and a wholly owned subsidiary of such company, such service shall be counted as service on one audit committee, rather than two.

Appointment and Removal of Members

The members of the Committee shall be appointed by the Board annually. The Board may remove any member of the Committee at any time, with or without cause. The Board will designate a Committee Chair. In the absence of a member designated by the Board to serve as Committee Chair, the members of the Committee may appoint from among their number a person to preside at Committee meetings. Vacancies on the Committee may be filled through appointment by the Board at any time.
