Perfect World Announces Update on Recent Acquisitions

Beijing China (December 17, 2008) - Perfect World Co., Ltd. (NASDAQ: PWRD) (Perfect World or the Company), a leading online game developer and operator in China, announced in October 2008 that it entered into an agreement with Global InterServ (B.V.I.) Inc. (InterServ) regarding the acquisition of an online game named Meteor Online, an exclusive license of the sales and publishing rights to an online game developed based on the famous book XiaoAoJiangHu authored by Louis Cha, and a license to use InterServ's cross-platform game development engine. In addition, the Company announced earlier this month that it entered into another agreement with InterServ to acquire its subsidiaries in China with established game development capabilities. The Company is pleased to report that it plans to leverage these strategic initiatives by utilizing InterServ's game development engine and resources as soon as possible. Upon further analysis of the first acquisition relating to the game engine and the two games, the Company anticipates that a substantial portion of the US\$15,000,000 purchase price for this acquisition is attributable to in-process research and development, based upon certain recognized valuation principles. In accordance with the U.S. GAAP, the Company may need to recognize a one-time non-recurring expense for the value of such in-process research and development as of the date of acquisition during the fourth quarter of 2008. The Company will continue to assess the accounting impact of the acquisition and will provide an update to investors if there is any further significant development.
