TO BE HELD ON APRIL 21, 2009

March 5, 2009

TO THE STOCKHOLDERS OF ASIAINFO HOLDINGS, INC.:

You are cordially invited to attend the annual meeting of stockholders of AsiaInfo Holdings, Inc., a Delaware corporation, to be held on Tuesday, April 21, 2009 at 3:00 p.m., local time, at 4th Floor, Zhongdian Information Tower, 6 Zhongguancun South Street, Haidian District, Beijing, People's Republic of China. At this year's annual meeting, we are asking stockholders to:

1. Elect two directors to serve for three-year terms to expire at the 2012 Annual Meeting of stockholders and until their successors are duly elected and qualified;
2. Ratify the selection of Deloitte Touche Tohmatsu as the independent registered public accounting firm of AsiaInfo for the fiscal year ending December 31, 2009; and
3. Transact such other business as may properly come before the meeting or any adjournment thereof.

The foregoing items of business are more fully described in the proxy statement. This year we are using new U.S. Securities and Exchange Commission rules that allow companies to furnish proxy materials to their stockholders primarily over the Internet. We believe that providing our proxy materials over the Internet increases the ability of our stockholders to connect with the information they need, while reducing the cost and environmental impact of our Annual Meeting. On or about March 5, 2009, we mailed our stockholders a notice containing instructions on how to access our 2009 Proxy Statement and 2008 Annual Report to Stockholders. The notice also included instructions on how to receive a paper copy of the annual meeting materials, including the notice of annual meeting, proxy statement, and proxy card. If you receive your annual meeting materials by mail, the notice of annual meeting, proxy statement, and proxy card will be enclosed. If you receive your annual meeting materials via e-mail, the e-mail contains links to the annual report and the proxy statement on the Internet, which are both available at <http://bnymellon.mobular.net/bnymellon/asia>.

Stockholders of record at the close of business on February 23, 2009 are entitled to notice of and to vote at the annual meeting and any adjournment thereof. A list of these stockholders will be available for inspection during ordinary business hours at our principal executive offices, at 4th Floor, Zhongdian Information Tower, 6 Zhongguancun South Street, Haidian District, Beijing, PRC, from April 11, 2009 until the date of our annual meeting. The list will also be available for inspection at the annual meeting.

IMPORTANT: All stockholders are cordially invited to attend the annual meeting in person. However, to assure your representation at the annual meeting, you are urged to vote your shares by telephone, the Internet, or if you receive your annual meeting materials by mail, by signing and returning the enclosed proxy card as promptly as possible in the enclosed self-addressed envelope. Any stockholder attending the annual meeting may vote in person even if he or she returned a proxy. However, if a stockholder's shares are held of

PROXY STATEMENT

2009 ANNUAL MEETING OF STOCKHOLDERS

This proxy statement and accompanying proxy was first mailed to stockholders (or made available electronically over the Internet) on or about March 5, 2009, in connection with the solicitation of proxies by the Board of Directors of AsiaInfo Holdings, Inc., a Delaware corporation, for use at the Annual Meeting of Stockholders to be held on Tuesday, April 21, 2009, at 3:00 p.m., local time, at AsiaInfo's principal executive offices located at 4th Floor, Zhongdian Information Tower, 6 Zhongguancun South Street, Haidian District, Beijing, PRC, or at any adjournment or postponement thereof, for the purposes set forth herein and in the accompanying Notice of Annual Meeting of Stockholders. AsiaInfo's telephone number at its principal executive offices is +8610 8216 6688.

INFORMATION CONCERNING SOLICITATION AND VOTING

Record Date and Share Ownership

Stockholders of record at the close of business on February 23, 2009, which date is referred to herein as the record date, are entitled to notice of and to vote at the Annual Meeting. As of the record date, 43,486,816 shares of AsiaInfo's common stock were issued and outstanding and held of record by approximately 109 registered stockholders.

Voting, Solicitation and Revocability of Proxy

Registered stockholders can vote by mail, telephone or the Internet. Please note that voting via the Internet is a valid proxy voting method under the laws of the State of Delaware (our state of incorporation). Telephone voting can be accessed by calling the toll-free number (in the United States only) 1-866-580-9477. Internet voting can be accessed by logging on to the following Internet address: <http://www.eproxy.com/asia>. Telephone and Internet voting information is provided on the proxy card. A control number located on the proxy card is designed to verify each stockholder's identity and allow stockholders to vote their shares and confirm that their voting instructions have been properly recorded. If your shares are held in the name of a bank or broker, follow the voting instructions on the form you receive from your bank or broker. The availability of telephone or Internet voting will depend on your bank or broker's voting process.

If you do not choose to vote by telephone or the Internet, you may still return your proxy card, properly signed, and the shares represented will be voted in accordance with your directions. You can specify your choices by marking the appropriate boxes on the proxy card. If your proxy card is signed and returned without specifying choices, the shares will be voted in favor of proposals 1 and 2. If you vote by telephone or the Internet, it is not necessary to return your proxy card.

You may revoke your proxy at any time before it is voted at the Annual Meeting by casting a different vote by telephone or the Internet, by executing a later-voted proxy by mail, by voting by ballot at the Annual Meeting, or by providing written notice of the revocation to Susie Shan, Legal Counsel of AsiaInfo, at our principal executive offices.

Table of Contents

Your vote is important. Accordingly, regardless of whether you plan to attend the Annual Meeting, you are urged to vote by telephone, by the Internet, or by signing and returning the accompanying proxy card. If you do attend, you may vote by ballot at the Annual Meeting, thereby canceling any proxy previously given. However, attendance at the Annual Meeting will not revoke a proxy unless you actually vote in person at the meeting.

In the event that any matter not described in this Proxy Statement properly comes before the Annual Meeting, the proxy holders named in the accompanying proxy will vote the shares represented by the proxy in accordance with their best judgment. As of the date of this Proxy Statement, AsiaInfo is not aware of any other matter that might be presented at the Annual Meeting.

Each share of common stock outstanding on the record date is entitled to one vote. The required quorum for the transaction of business at the Annual Meeting is a majority of the votes eligible to be cast by holders of shares of common stock issued and outstanding on the record date, present in person or represented by proxy. Stockholders may withhold authority to vote for one or more of the nominees for director and may abstain on one or more of the other matters that may come before the Annual Meeting. The inspector of election appointed for the Annual Meeting will determine the existence of a quorum and will tabulate the votes cast at the Annual Meeting. Broker non-votes (shares held by a broker or nominee that does not have the authority, either express or discretionary, to vote on a particular matter) will not be counted in determining the number of votes cast with respect to a proposal. For purposes of determining the presence of a quorum, abstentions and broker non-votes will be counted by AsiaInfo as present at the Annual Meeting. Abstentions will also be counted by AsiaInfo in determining the total number of votes cast with respect to a proposal (other than the election of directors). If, however, a quorum shall not be present or represented, the stockholders present in person or represented by proxy shall have the power to adjourn the Annual Meeting from time to time, without notice other than announcement at the Annual Meeting until a quorum shall be present or represented. If a broker indicates on a proxy that such broker does not have discretionary authority to vote on a particular matter, under applicable Delaware law those shares will be counted as present for purposes of determining the presence of a quorum, but will not be counted as votes cast on the matter and will have no effect on the outcome of the vote on such matter.

The cost of soliciting proxies will be borne by AsiaInfo. Proxies may be solicited by certain of AsiaInfo's directors, officers and employees, without additional compensation, in person or by telephone, email or facsimile. In addition, AsiaInfo has retained Morrow & Co., Inc. to assist in such solicitation. The fee to be paid to such firm is not expected to exceed \$5,500 plus reasonable out-of-pocket costs and expenses. In addition, AsiaInfo may reimburse brokerage firms and other persons representing beneficial owners of shares for their expenses in forwarding solicitation materials to such beneficial owners.

All directors will hold office until the annual meeting of stockholders at which their terms expire and the election and qualification of their successors. Unless otherwise instructed, the proxy holders will vote the proxies received by them for the nominees named below, all of whom are presently AsiaInfo directors. If any nominee is unable or declines to serve as a director at the time of the Annual Meeting, although we know of no reason to anticipate that this will occur, the proxies will be voted for any nominee designated by the present Board to fill the vacancy. If stockholders properly nominate persons other than AsiaInfo's nominees for election as directors, the proxy holders will vote all proxies received by them to assure the election of as many of AsiaInfo's nominees as possible, with the proxy holder making any required selection of specific nominees to be voted for. There are no family relationships among any of our directors or executive officers.

Vote Required

Directors are elected by a plurality of the votes present in person or represented by proxy and entitled to vote, assuming a quorum is present. Abstentions and broker non-votes have no effect on the vote. Stockholders do not have cumulative voting rights in the election of Directors.

Recommendation of the Board

The Board of Directors recommends that AsiaInfo stockholders vote **FOR** the election of the two Class I nominees listed above.

CORPORATE GOVERNANCE

Director Independence

Our Board of Directors consists of eight directors. In accordance with the current listing standards of The NASDAQ Stock Market, our Board of Directors, on an annual basis, affirmatively determines the independence of each director or nominee for election as a director. Our Board has determined that, with the exception of James Ding and Steve Zhang, all of its members are independent directors, using the definition of that term in the listing standards of The NASDAQ Stock Market. The Board has also determined that Anders Cheung, who served as a director until October 28, 2008, was not independent at the time he served as a director and Yichen Zhang, who served as a director until December 25, 2008, was independent at the time he served as a director. In making these determinations, the Board has concluded that none of those members has a relationship which, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director.

Executive Session

The independent members of our Board of Directors meet in executive session (without the participation of executive officers or other non-independent directors) at least two times each year, after a regularly scheduled Board meeting, and at any other time requested by any independent director. The Chairman of the Board, provided he or she is an independent director, is responsible for calling and presiding over executive sessions. To the extent that the Chairman of the Board is not an independent director, those responsibilities are carried out by the Chairman of the Nominating and Corporate Governance Committee.

Committees and Meeting Attendance

Our Board of Directors held four regular meetings during the fiscal year ended December 31, 2008, and acted nine times by unanimous written consent.

Our Board of Directors has an Audit Committee, a Compensation Committee and a Nominating and Corporate Governance Committee. The three committees of the Board of Directors held meetings as follows:

the Audit Committee held five meetings (including one special meeting) and acted two times by unanimous written consent;

the Compensation Committee held one meeting and acted two times by unanimous written consent; and

the Nominating and Corporate Governance Committee acted one time by unanimous written consent.

In 2008, each director, with the exception of Mr. Qingtong Zhou, who replaced Mr. Anders Cheung as a Class III director in October 2008, attended 75% or more of the meetings of the Board and of the committees of the Board on which such director served during the period for which he was a director or committee member.

Table of Contents

Our Bylaws provide that the Chairman of the Board shall preside at all meetings of the stockholders. Otherwise, we have no requirements for our directors to attend our Annual Meeting. Steve Zhang attended the 2008 annual meeting of stockholders.

Committee Composition

The following table provides the current membership of the Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee. Each member of these committees is an independent director, using the definition of that term in the listing standards of The NASDAQ Stock Market.

Nominating and Corporate		
Audit Committee	Compensation Committee	Governance Committee
Yungang Lu	Davin A. Mackenzie	Tao Long
Tao Long	Tom Manning	Yungang Lu
Davin A. Mackenzie	Edward Tian	Tom Manning

Audit Committee. The Audit Committee currently consists of Messrs. Lu (Chair), Long and Mackenzie. The Audit Committee falls within the definition of audit committee under Section 3(a)(58)(A) of the Securities Exchange Act of 1934, or the Exchange Act. In addition to meeting The NASDAQ Stock Market's tests for director independence, directors on our Audit Committee must meet two basic criteria set forth in the rules promulgated by the Securities and Exchange Commission, or SEC. First, Audit Committee members are barred from accepting, directly or indirectly, any consulting, advisory or other compensatory fee from AsiaInfo or an affiliate of AsiaInfo, other than in the member's capacity as a member of the Board of Directors and any Board committee. Second, a member of our Audit Committee may not be an affiliated person of AsiaInfo or any subsidiary of AsiaInfo apart from his or her capacity as a member of the Board and any Board committee. The Board of Directors has determined that each member of the Audit Committee meets these independence requirements, in addition to the independence criteria established by The NASDAQ Stock Market. In addition, the Board has determined that each member of the Audit Committee is an Audit Committee Financial Expert as defined by the SEC in Item 407(d) of Regulation S-K. The Audit Committee's primary duties and responsibilities include:

appointing and retaining our independent registered public accounting firm, approving all audit, review, and other services to be provided by our independent registered public accounting firm and determining the compensation to be paid for such services;

overseeing the integrity of our financial reporting process and systems of internal controls regarding accounting and finance;

overseeing the qualification, independence, and performance of our independent registered public accounting firm;

reviewing and, if appropriate, approving any related party transactions; and

monitoring compliance with legal and regulatory requirements.

Our Board of Directors has adopted a written charter for the Audit Committee, a copy of which is available on the Investor Relations section of our website at www.asiainfo.com. For more information on our Audit Committee, please see the discussion below under the heading Audit Committee Report.

Compensation Committee. The Compensation Committee currently consists of Messrs. Mackenzie (Chair), Tian and Manning. The Compensation Committee administers AsiaInfo's stock option plans and stock incentive plan and makes recommendations concerning salaries and incentive compensation for AsiaInfo's employees (including officers). The Board has adopted a written charter for the Compensation Committee, a copy of which is attached as Appendix No. 1 to this Proxy Statement. For more information about our Compensation Committee, please see the discussion below under the heading Compensation Committee Report.

Table of Contents

Nominating and Corporate Governance Committee. Messrs. Yichen Zhang (Chair), Lu and Manning served as members of the Nominating and Corporate Governance Committee, or Governance Committee, during 2008, until December 25, 2008. On December 25, 2008, Mr. Zhang resigned as a member of our Board of Directors. At our regular Board meeting on February 9, 2009, the Board appointed Mr. Tao Long to replace Mr. Zhang as Chair of the Governance Committee. The Governance Committee currently consists of Messrs. Long (Chair), Lu and Manning. The Governance Committee makes recommendations to the Board regarding the nomination of candidates to stand for election or re-election as members of the Board, evaluates the Board's performance, provides oversight of corporate governance and ethical standards and establishes and administers Board committee member compensation policy. The Board has adopted a written charter for the Governance Committee, a copy of which is attached as Appendix No. 2 to this Proxy Statement.

Compensation Committee Interlocks and Insider Participation

Messrs. Mackenzie, Tian and Manning served as members of the Compensation Committee during 2008. Neither of Messrs. Mackenzie or Manning has been an officer or employee of AsiaInfo. Dr. Tian co-founded AsiaInfo in 1993 and served as AsiaInfo's President through May 1999. During 2008, no member of the Compensation Committee had any relationship with us requiring disclosure under Item 404 of Regulation S-K. No member of the Compensation Committee served as a member of a board of directors or compensation committee of any entity that has one or more executive officers serving as a member of our Board of Directors or Compensation Committee during 2008.

Steve Zhang, our President, Chief Executive Officer and a member of the Board, participates in the discussions and decisions regarding salaries and incentive compensation for all of our executive officers, except that Mr. Zhang is excluded from discussions regarding his own salary and incentive compensation.

Director Nomination

We have adopted Corporate Governance Guidelines that address the composition of the Board, criteria for Board membership and other Board governance matters. The Corporate Governance Guidelines set out our director nomination process. A copy of our Corporate Governance Guidelines is available on the Investor Relations section of our website at www.asiainfo.com.

The Governance Committee annually evaluates the Board and its committees, and the needs of the Board for various skills, experience, expected contributions and other characteristics, in determining the director candidates to be nominated at the annual meeting. The Governance Committee will evaluate candidates for directors proposed by directors, stockholders or management in light of the Committee's views of the current needs of the Board for certain skills, experience or other characteristics, the candidate's background, skills, experience, other characteristics and expected contributions and the qualification standards established from time to time by the Governance Committee. If the Governance Committee believes that the Board requires additional candidates for nomination, the Governance Committee may engage, as appropriate, a third-party search firm to assist in identifying qualified candidates. The Governance Committee will also consider candidates for Board membership proposed by stockholders. Any such proposals should be made in writing to AsiaInfo Holdings, Inc., 4th Floor, Zhongdian Information Tower, 6 Zhongguancun South Street, Haidian District, Beijing 100086, PRC, Attention: Legal Department. All nominees will submit a completed form of directors' and officers' questionnaire as part of the nominating process. The process may also include interviews and additional background and reference checks for non-incumbent nominees, at the discretion of the Governance Committee. In making the determinations regarding nominations of directors, the Governance Committee may take into account the benefits of diverse viewpoints as well as the benefits of a constructive working relationship among directors.

PROPOSAL NO. 2:

RATIFICATION OF APPOINTMENT OF

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

General

Our Board of Directors has selected the firm of Deloitte Touche Tohmatsu as AsiaInfo's independent registered public accounting firm to audit the consolidated financial statements and internal control over financial reporting of AsiaInfo for the fiscal year ending December 31, 2009, and recommends that stockholders vote for ratification of this appointment. Deloitte Touche Tohmatsu has audited AsiaInfo's financial statements since our inception in 1993.

Stockholder ratification of the selection of Deloitte Touche Tohmatsu as AsiaInfo's independent registered public accounting firm is not required by AsiaInfo's Bylaws or otherwise. However, the Board is submitting the selection of Deloitte Touche Tohmatsu to the stockholders for ratification as a matter of good corporate practice. If the stockholders fail to ratify the selection, the Audit Committee and the Board will reconsider whether or not to retain that firm. Even if the selection is ratified, the Board in its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such change would be in the best interests of AsiaInfo and its stockholders. Representatives of Deloitte Touche Tohmatsu are expected to be present at the Annual Meeting, will have the opportunity to make a statement if they desire to do so, and will be available to respond to appropriate questions.

The following discussion describes the fees billed by Deloitte Touch Tohmatsu for services rendered on behalf of AsiaInfo during 2007 and 2008. For additional information on the types of fees discussed below, and the Audit Committee's pre-approval procedures, please see the discussion below under the heading "Audit Committee Report."

Audit Fees

The aggregate fees billed by Deloitte Touche Tohmatsu for the fiscal years ended December 31, 2008 and December 31, 2007 were approximately \$1,358,000 and \$1,089,000, respectively. Services provided include professional services rendered for the audit of AsiaInfo's consolidated financial statements included in our Annual Report on Form 10-K, audit of our internal control over financial reporting, reviews of the condensed consolidated financial information included in our Quarterly Reports on Form 10-Q and professional services rendered in connection with our filing of registration statements.

Audit-Related Fees

Deloitte Touche Tohmatsu billed no audit-related services fees for the fiscal years ended December 31, 2008 and December 31, 2007.

Tax Fees

The aggregate fees billed by Deloitte Touche Tohmatsu for professional services for tax compliance, tax advice and tax planning for the fiscal years ended December 31, 2008 and December 31, 2007 were approximately \$130,591 and \$107,859, respectively.

All Other Fees

Deloitte Touche Tohmatsu did not bill any fees for any other services for either of the last two fiscal years.

Vote Required and Recommendation of the Board

Approval of this proposal requires the affirmative vote of a majority of the votes cast affirmatively or negatively on the proposal at the Annual Meeting, as well as the presence of a quorum representing a majority of all outstanding shares of our common stock, either in person or by proxy. Abstentions and broker non-votes will each be counted as present for purposes of determining the presence of a quorum but will not have any effect on the outcome of the proposal.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This section discusses the principles underlying our executive compensation policies and decisions and the most important factors relevant to an analysis of those policies and decisions. It provides qualitative information regarding the manner and context in which compensation is awarded to and earned by our executive officers and places in perspective the detailed information presented in the tables below under the heading Compensation Paid to Named Executive Officers. The tables that you find in this Proxy Statement contain specific information about the compensation earned or paid in 2006, 2007 and 2008 to the following individuals, including our Chief Executive Officer, our former Chief Financial Officer who resigned on January 19, 2009, and our three other most highly-compensated executive officers, whom we also refer to as our named executive officers :

Steve Zhang, President and Chief Executive Officer

Eileen Chu, Former Vice President and Chief Financial Officer

Yinhu Zhang, Vice President and General Manager of Human Resources and Administration

Jian Qi, President and Chief Executive Officer - Lenovo-AsiaInfo Division

Feng Liu, Vice President and General Manager of Research and Development - AsiaInfo Technologies Division

Overview of Compensation Program

The Compensation Committee of our Board has responsibility for establishing, implementing and continually monitoring adherence with our compensation philosophy and objectives. The Compensation Committee is responsible for ensuring that the total compensation paid to our executive officers is fair, reasonable and competitive. Our compensation decisions with respect to executive officer salaries, annual incentives and long-term incentive opportunities are influenced by (a) the officer's level of responsibility and function; (b) the overall financial performance of AsiaInfo and, in some cases, the officer's business unit; and (c) our assessment of the competitive marketplace, including other peer companies.

Compensation Philosophy and Objectives

All of our compensation programs, including our executive compensation programs, are designed to attract and retain key employees in the highly competitive information technology software and services marketplace in China. Our executive compensation programs are also designed to motivate our executives to achieve and reward them for superior performance in attaining corporate and individual objectives that create stockholder value. Different programs, including both cash and stock-based compensation, are geared toward short and long-term performance, respectively, with the goal of aligning employee interests with stockholder interests and increasing stockholder value over the long term. Executive compensation programs impact all employees by setting general levels of compensation and creating an environment of goals, reward and expectations. Finally, we endeavor to ensure that our compensation programs are viewed as fundamentally fair to our stockholders.

Compensation Programs and Process

Elements of compensation for our named executive officers include base salary, non-equity incentive compensation, long-term equity incentive rewards, health, disability and life insurance and certain other perquisites. We use salary as the base amount necessary to match our competitors for executive talent. We utilize cash incentive payments to reward performance achievements over the course of a one-year horizon and we use equity incentive awards to reward long-term performance, with excellent corporate performance and extended tenure producing potentially significant value for our named executive officers. We believe that this combination of programs provides an appropriate mix of fixed and variable pay, balances short-term operational performance with long-term stockholder value, and encourages executive recruitment and

retention.

Table of Contents

The Compensation Committee is responsible for establishing, implementing and monitoring the compensation of our named executive officers. The Compensation Committee meets outside the presence of all executive officers, including the named executive officers, to consider appropriate compensation for our Chief Executive Officer, or CEO. The Compensation Committee conducts its analysis with input from our Human Resources department, or HR, which receives comparative salary data generated from participation in annual benchmarking compensation surveys, or the Salary Surveys, administered by Mercer Human Resource Consulting LLC, or Mercer, and Taihe Business Management Consulting Co. Ltd., or Taihe, each of which are independent consulting firms.

When making compensation decisions, the Compensation Committee analyzes the dollar amount of each component of the executive officer's compensation, including current cash compensation (base salary and non-equity plan incentive compensation), long-term equity incentive program compensation, and any other compensation.

Steve Zhang, our CEO, is responsible for conducting an annual review of each other named executive officer's performance and recommending the appropriate base salary and other forms of compensation for such officer to the Compensation Committee. Mr. Zhang receives base salary recommendations from our HR department based on the Salary Surveys described above. In addition, Mr. Zhang recommends annual performance milestones, for each other named executive officer for the purpose of determining annual non-equity incentive compensation. Finally, Mr. Zhang recommends to the Compensation Committee the number of equity awards to be granted to each other named executive officer as long-term equity compensation.

Mr. Zhang's base salary is set by our Compensation Committee, which analyzes the Salary Surveys to ensure that his pay is competitive. Our Compensation Committee also determines Mr. Zhang's equity and non-equity incentive compensation based on corporate performance milestones which are set by the Compensation Committee. Finally, the Compensation Committee grants long-term equity awards to Mr. Zhang and considers Mr. Zhang's recommendations for long term equity awards to other named executive officers.

Except as set forth below, our Compensation Committee has not adopted any formal or informal policies or guidelines for allocating compensation between long-term and currently paid out compensation, or between cash and non-cash compensation. However, our philosophy is to pay our executive officers competitive levels of compensation that best reflect their individual responsibilities and contributions to AsiaInfo. In general, we typically make a greater percentage of an employee's compensation performance-based as he or she becomes more senior. We attempt to keep cash compensation to the minimum competitive level while providing the opportunity to be well rewarded through equity if AsiaInfo performs well over time.

We choose to pay each element of compensation in order to attract and retain necessary talent, reward annual performance (on an individual, business unit and enterprise-wide basis) and provide incentives for achieving long-term strategic goals as well as short-term objectives. The amount of each element of compensation is determined by our Compensation Committee in consultation with our CEO with respect to the other named executive officers, and, with respect to the CEO, by our Compensation Committee. Compensation decisions for all named executive officers take into account the following factors:

Performance against corporate and individual objectives for the previous year;

Value of skills and capabilities to support our long-term performance;

Performance of general management responsibilities; and

Contribution as a member of our executive management team.

Base Salary

Base salary levels for our named executive officers are intended to compensate executives competitively within the information technology marketplace in China. Base salary rewards core competence in an executive

Table of Contents

role relative to an officer's skills, experience and contributions to our business. Base salaries are determined on an individual basis by evaluating each executive officer's scope of responsibility, past performance, and data on prevailing compensation levels in an appropriate market comparison group. Each year our Human Resources department participates in two salary surveys, which collect compensation data, including base salary statistics, from peer companies in the IT, software and telecommunications industries. The survey conducted by Taihe covers Chinese companies in the IT industry (including, for example, Lenovo, Digital China, Sohu, Sina, Tom Online, UT Starcom, Datang Mobile, ZTE Corporation and TCL), while the participants in the Mercer survey are primarily Chinese subsidiaries of foreign-owned businesses (and include, for example, BEA, Cisco Systems, EMC Beijing, HP Beijing, IBM Beijing, Motorola Beijing, NCR Beijing and Microsoft Beijing). We generally receive results from the Salary Surveys during the second quarter of each year and begin to analyze base salary adjustments at that time. Assuming that a named executive officer has achieved satisfactory individual performance, our general approach is to compensate named executive officers at or near (a) the 50th percentile of salaries of executives with similar roles at comparable companies that participate in the Mercer Salary Survey, and (b) the 80th or 90th percentile of salaries of executives with similar roles at comparable companies that participate in the Taihe Salary Survey. We use a lower percentile benchmark when analyzing the Mercer Salary Survey, in general, because the base salaries paid to executives at foreign-owned companies are substantially higher than those paid to their counterparts at Chinese-owned companies. We believe that these percentile benchmarks for base salaries, in combination with the other elements of compensation discussed below, provide the minimum cash compensation level that would allow us to attract and retain talented officers. We believe that, given the industry in which we operate and the corporate culture that we have created, base compensation at this level is sufficient to retain our existing named executive officers and to hire new executive officers when and as required.

After considering job performance and marketplace competitiveness, the base salaries of our named executive officers for 2008 were changed from those in effect at the end of fiscal year 2007. The salary levels fixed in 2008 for our named executive officers are reflected in the Summary Compensation Table below. We believe that the base salary paid to our named executive officers during 2008 achieves our objectives, compares favorably to our peer group and is within our target of providing a base salary at the market median (with respect to international competitors) and at the higher range of the market with respect to our Chinese competitors.

Non-Equity Incentive Compensation

In 2008 we adopted various non-equity incentive compensation programs, also referred to as ICPs, which are designed to reward our named executive officers with an opportunity to earn annual cash bonuses based on both AsiaInfo's achievement of certain pre-established performance goals as well as the performance of the individual named executive officer's functional business unit or department, as the case may be. We anticipate that we will continue to establish similar ICPs on an annual basis for succeeding years. The goals for our company-wide and individual measures are established so that target attainment is not assured under any ICP. The attainment of payment for performance at target or above requires significant effort on the part of our executives. Details on how payments were calculated under these plans in 2008 for our named executive officers are set forth below. While we do not target annual bonus opportunities at any particular percentage of total compensation, we target bonuses for our named executive officers at 25%-43% of base salary.

For 2008, the Compensation Committee determined, with input from our HR department, to base our CEO's incentive compensation on our achievement of Board-established targets for net revenue and operating profits. These financial goals were set by our Board in January 2008. The Compensation Committee believes that net revenues are an appropriate measure of our overall growth while operating profit is a valid indicator of cost-effectiveness. Both of these elements are weighted equally in determining Mr. Zhang's incentive compensation for 2008. We first determine our percentage achievement for each financial target and then multiply the aggregate achievement percentage by Mr. Zhang's target incentive compensation, which, for 2008, is equal to 42.8% of his base salary. No incentive compensation is payable to Mr. Zhang if the aggregate achievement percentage for these two performance goals falls below 75%.

Table of Contents

Our named executive officers, other than our CEO, received non-equity incentive compensation awards pursuant to the following ICPs, each of which was established in January of 2008:

The 2008 Employee Incentive Program of AsiaInfo's Functional Departments, or the 2008 EIP, governs non-equity incentive compensation for our former Chief Financial Officer (Eileen Chu) and our Vice President and General Manager of HR & Administration (Yinhu Zhang). Awards under the 2008 EIP are payable based on the following equally-weighted factors: (i) AsiaInfo's achievement of targets for net income and operating profits, which goals were set by our Board in January 2008, and (ii) the applicable functional department's satisfaction of certain performance measures which were established by our CEO in early 2008. These non-financial objectives may change from year to year as our business and departmental priorities evolve. Our CEO determined all incentive compensation payable under the 2008 EIP to Ms. Chu and Mr. Yinhu Zhang. In order to determine incentive compensation payable under the 2008 EIP, the target realization bonus for all employees of an individual functional department, which equals 25% of such employees' aggregate base salaries, is multiplied by that department's aggregate achievement percentage of all of its goals. No incentive compensation is payable to any member of a functional department if the department's overall achievement percentage is below 75%. Achievement percentages are calculated based on the overall achievement of our net income and operating profit targets, as well as the achievement of comparable targets within the employee's department. The bonus pool allocable to a department is then further allocated among individual employees by the head of each department, and our CEO determines the amount allocable to each individual department head.

The 2008 AsiaInfo Performance Incentive Plan (Non-Sales), or the 2008 PIP, establishes the incentive pay components for one of our named executive officers, Feng Liu. Under the 2008 PIP, various business unit and functional heads are awarded incentive cash compensation based upon (i) a 20% weighting accorded to AsiaInfo's achievement of certain net income and marginal profit targets, which goals were set by our Board in January 2008, and (ii) an 80% weighting accorded to the achievement of certain performance goals, which are, in the case of the research and development department, or the R&D Department, largely measured by contribution to various business units. The contribution of the R&D Department to the customer-focused business units within our AsiaInfo Technologies division is, in turn measured by considering the achievement of performance goals by those units in combination with the percentage of R&D cost allocable to those business units. Because our R&D Department plays such a critical role in supporting these units, we believe that it is appropriate, in large part, to align incentive compensation for the R&D Department by looking at a combination of the success of each business unit that it contributes to and the amount of resources it devotes to that business unit. A bonus pool for the R&D Department is established by multiplying the overall achievement percentage of the department by a target incentive pool equal to 25% of all R&D employees' base salaries, in the aggregate. No bonuses are payable if the R&D department's achievement percentage is less than 75%. The resulting bonus pool allocable to the R&D Department is distributed to individual employees by the head of R&D, Mr. Liu. Our CEO determines the incentive compensation payable to Mr. Liu.

The 2008 Lenovo Security Appraisal and Incentive Program, or the 2008 LIP, governs the incentive awards payable to certain executives, including Jian Qi, the President and Chief Executive Officer of our Lenovo-AsiaInfo division. Under the 2008 LIP, Mr. Qi received incentive payments based on three performance tests for the division, including net revenue, contribution profit of our Lenovo-AsiaInfo division, and days' sales outstanding, with each target set by our Board in January 2008. While most of our other named executive officers have duties and responsibilities relating to all of AsiaInfo's operations, Mr. Qi's efforts are focused on our Lenovo-AsiaInfo division, and therefore we believe it is appropriate to base his bonus opportunities on performance goals relating to the results of that division. Mr. Qi's target incentive compensation is approximately 43% of his base salary, and his bonus is derived by multiplying that target incentive figure by the overall achievement percentage for the Lenovo-AsiaInfo division for the three performance targets described above. Mr. Qi's target incentive compensation reflects our policy of making incentive compensation a higher proportion of the total compensation package with respect to employees who head business divisions, as compared to employees who head functional departments.

Table of Contents

All of our employees, including the named executive officers, are eligible to participate in the 2008 Profit Sharing Program, or the 2008 PSP. The 2008 PSP is designed to allow non-sales employees to share in the profits generated by the business units within the telecommunications division, as well as our training center, AsiaInfo Academy. To the extent that each of these units achieves its annual net income target, the excess difference between the actual marginal profit and the target profit of that business unit is divided between AsiaInfo Technologies and the business unit on a 70/30 basis. Upon approval of the Compensation Committee, ten percent of each business unit's profit allocation is awarded to our CEO. The remainder of each business unit's profit allocation is divided between that business unit (75%) for further distribution among its employees and our entire company (25%) for company-wide distribution by our CEO.

Long-Term Equity Incentive Program

We believe that long-term performance is achieved through an ownership culture that encourages such performance by our executive officers through the use of stock and stock-based awards. Our equity compensation plans have been established and implemented to provide certain of our employees, including our named executive officers, with incentives to help align those employees' interests with those of our stockholders. The Compensation Committee believes that this use of equity awards offers the best approach to achieving our compensation goals. We have not adopted stock ownership guidelines and our equity compensation plans have historically provided the principal method for our executive officers to acquire equity interests in AsiaInfo.

Before 2005, we generally provided long-term equity incentives to our named executive officers, and to other employees, through the grant of stock options under our stock option plans. Stock options were generally granted at an exercise price equal to 100% of the fair market value of our common stock on the date of grant, with a ten-year term and generally subject to a four-year vesting period. Stock options were generally granted to our named executive officers upon their acceptance of employment with AsiaInfo. In addition, the Compensation Committee generally granted stock options to our named executive officers at the beginning of each fiscal year, based on long term strategic and performance objectives and each executive officer's anticipated contributions to AsiaInfo's future performance. When determining the number of stock options to be awarded to an executive officer, the Compensation Committee considered the executive officer's current contribution to AsiaInfo's performance; the executive officer's anticipated contribution in meeting AsiaInfo's long-term strategic performance goals, and comparisons to formal and informal surveys of executive stock option grants made by similarly-situated information technology companies in China. Effective on October 24, 2005, the Compensation Committee approved the acceleration of vesting of approximately 2.2 million unvested stock options previously awarded to employees under AsiaInfo's 2000 Stock Option Plan and 2002 Stock Option Plan. The primary purpose of the accelerated vesting was to enable us to avoid recognizing future compensation expense associated with the adoption of FASB Statement No. 123R, Share-Based Payment, or SFAS 123R, in 2006.

In 2005, pursuant to the AsiaInfo Holdings, Inc. 2005 Stock Incentive Plan, or the 2005 Incentive Plan, we began to implement a policy of granting restricted stock units, instead of stock options, to our directors, officers and employees.

On November 20, 2006, the Compensation Committee approved grants of performance-based restricted stock units, or PSUs, to key employees, managers and executive officers under the Incentive Plan. PSUs vest based on, and are allocated among, five different performance goals, and are, in some cases, also subject to certain holding periods. For a description of the vesting criteria of the PSUs, please see the discussion below under the heading Terms of Outstanding Performance Stock Units.

The purpose of PSUs is to create a direct and transparent link between compensation and management achievement of specific business performance targets. PSUs also serve to align the interests of our executives with those of our stockholders. Finally, the vesting of PSUs based on continued employment is designed to facilitate retention.

Table of Contents

At AsiaInfo's Annual Meeting of stockholders on April 22, 2008, the AsiaInfo Holdings, Inc. 2008 Stock Incentive Plan, or the 2008 Incentive Plan, was approved and ratified. The purpose of the 2008 Incentive Plan, which is administered by the Compensation Committee, is to enhance long-term stockholder value by offering opportunities to employees, directors, officers, consultants, agents, advisors and independent contractors of AsiaInfo and subsidiaries to participate in our growth and success, and to encourage them to remain in the service of AsiaInfo its our subsidiaries and to acquire and maintain stock ownership in AsiaInfo. Pursuant to the 2008 Incentive Plan, the Compensation Committee, as the plan administrator, has discretion over whether and to whom to grant awards.

The value and the terms of the PSUs granted to our named executive officers is reflected in the Summary Compensation Table and Terms of Outstanding Performance Stock Units below. Parts of the PSUs granted to named executive officers during 2006 have vested following the achievement of some business performance targets during 2008.

Pension Plan

Our employees in China are entitled to retirement benefits calculated with reference to their base salaries upon retirement and their length of service in accordance with a government managed benefits plan. The Chinese government is responsible for administering the benefits for these retired employees. We are required to make contributions to the state retirement plan at a rate of 10% to 22% of the monthly base salaries of our current employees.

For the benefit of our small number of employees who are citizens or lawful permanent residents of the United States, AsiaInfo has adopted a Simplified Employee Pension Plan, or the Pension Plan. The Pension Plan covers employees who have worked at AsiaInfo for at least six months. We make monthly contributions under the Pension Plan in an amount equal to 5% of each covered employee's monthly salary. The contributions are tax deductible by AsiaInfo and are not taxable to the employees. Withdrawals are taxable as ordinary income, and withdrawals before age 59 1/2 may be subject to tax penalties.

In 2008, we contributed approximately \$16,047 to the accounts of all employees covered by the Pension Plan. With respect to the named executive officers, we contributed approximately \$8,298 on behalf of Steve Zhang.

Other Compensation

AsiaInfo's named executive officers are also eligible to participate in benefits programs generally available to other employees, such as medical, dental, vision, group life, disability, and accidental death and dismemberment insurance. Other benefits provided to certain executive officers during 2008 include housing allowances, educational allowances for children, and home-visit allowances.

As part of our compensation program, AsiaInfo has entered into agreements with, Steve Zhang, Eileen Chu, Wei Li and Jian Qi pursuant to which they may be entitled to receive severance benefits upon the occurrence of certain enumerated events following a change in control. The events that trigger payment are generally those related to termination of employment without cause or detrimental changes to the executive's terms and conditions of employment. See Potential Payment Upon Termination or Change in Control below for a more detailed description. AsiaInfo believes that this structure will help (i) assure the executive's full attention and dedication to AsiaInfo, free from distractions caused by personal uncertainties and risks related to a pending or threatened change in control; (ii) assure the executives' objectivity in fulfilling the interests of stockholders; (iii) assure the executives of fair treatment in case of involuntary termination following a change in control; and (iv) maintain our ability to attract and retain key talent during uncertain times.

Table of Contents**Tax and Accounting Implications***Policy Regarding Section 162(m) of the Internal Revenue Code*

Section 162(m) of the Internal Revenue Code, or the IRC, generally disallows a tax deduction to public companies for compensation in excess of \$1 million paid to a company's chief executive officer, chief financial officer or any of the three most highly compensated executive officers. Certain performance-based compensation, however, is exempt from the deduction limit. The Compensation Committee has considered the potential impact of Section 162(m) of the IRC on the compensation paid to AsiaInfo's executive officers. It is the Compensation Committee's intention that, so long as it is consistent with its overall compensation objectives and philosophy, executive compensation will be deductible for federal income tax purposes. Awards issued under AsiaInfo's stock incentive plans (including stock options, restricted stock units and performance stock units) have been structured so that any taxable compensation derived pursuant to the exercise of options granted under such plans should not be subject to these deductibility limitations.

Accounting for Stock-Based Compensation

Beginning on January 1, 2006, AsiaInfo began accounting for stock-based payments in accordance with the requirements of FAS 123(R), which requires us to estimate and record an expense over the service period of the award.

Potential Payments upon Termination of Employment and Change in Control

Each of Mr. Steve Zhang, Ms. Eileen Chu, Ms. Wei Li and Mr. Jian Qi has entered into a Change-of-Control Severance Agreement with us. If we terminate any of them without cause or for good reason within one-year immediately following a Change of Control, they will be entitled to:

payment of all accrued and unpaid base salary through the date of such termination;

payment of any otherwise unpaid annual bonus payable with respect to the fiscal year ending prior to the date of such termination;

severance payments equal to the sum of (i) such executive's base salary for the year in which the date of termination occurred (or, if higher, as in effect at the time of the Change of Control) and (ii) such Executive's target annual bonus for the year which the date of termination occurs (or, if higher, as in effect at the time of the Change of Control);

immediate vesting of 50% of any outstanding unvested stock options held by such executive as of the date of such termination;

the right to exercise all vested stock options for a period of 18 months after the date of termination; and

the right to receive medical benefits for one year and housing allowance for six months following termination.

In the event of a change of control which does not result in termination of employment and in which the executive's stock options are neither assumed nor replaced, each of Mr. Steve Zhang, Ms. Eileen Chu, Ms. Wei Li and Mr. Jian Qi is entitled to immediate vesting of 50% of any outstanding unvested stock options. Ms. Eileen Chu's employment was voluntarily terminated by her as of January 19, 2009.

For purposes of the Change-of-Control and Severance Agreements described above, termination for cause will be deemed to have occurred upon the happening of the following:

willful and continued to failure by the executive substantially to perform his/her duties; or

willful engagement by the executive in conduct which is demonstrably and materially injurious to us.

For purposes of the Change-of-Control and Severance Agreements described above, termination for good reason will be deemed to have occurred upon the happening of the following:

assignment to the executive of any duties inconsistent in any materially adverse or diminutive respect with his/her position, authority, duties or responsibilities from those in effect immediately prior to the Change of Control ;

a reduction in the executive's base salary as in effect immediately before the Change of Control, except for a reduction that applies in equal proportion to all of our employees; or

Edgar Filing: ASIAINFO HOLDINGS INC - Form DEF 14A

a material reduction in the executive's aggregate compensation opportunity, including the executive's base salary, bonus opportunity, if any, and long-term or other incentive compensation opportunity, if any.

Each of Mr. Steve Zhang, Ms. Eileen Chu, Mr. Jian Qi, Mr. Feng Liu and Mr. Yinhu Zhang has entered into a Confidentiality and Non-Competition Agreement with us. Under the terms of these agreements, upon termination of employment of each of these individuals for any reason, we may elect to enforce a one-year non-competition provision by agreeing to pay 50% of such individual's then-current annual salary, payable in installments over the one-year period.

The following table set forth the estimated payments and benefits that would be due to each of Mr. Steve Zhang, Ms. Chu, and Mr. Qi upon the termination of his or her employment without cause or for good reason

within the one-year period immediately following a Change of Control (as that term is defined above with respect to the discussion of each named executive officer's Change-Of-Control Severance Agreement). The amounts provided in the table below assume that each termination was effective as of December 31, 2008 (the last day of our fiscal year). These are merely illustrative of the impact of hypothetical events, based on the terms of arrangements then in effect. The amounts to be payable upon an actual termination of employment without cause or for good reasons within the one-year period immediately following a Change of Control can only be determined at the time of such event, based on the facts and circumstances then prevailing. Our agreements with these executives do not contain tax gross-up provisions. Eileen Chu voluntarily terminated her employment with us, effective as of January 19, 2009, and is no longer entitled to receive any of the payments or other benefits reflected on the following table.

Name	Salary Continuation ⁽¹⁾	Bonus Payment ⁽²⁾	Intrinsic Value of	Medical Benefits and Housing Allowance Continuation
			Time-Vested Options Subject to Acceleration ⁽³⁾⁽⁴⁾	
			(US\$)	
Steve Zhang	202,149	293,148	0	24,315
Eileen Chu	114,641	49,781	0	11,052
Jian Qi	89,606	57,568	0	10,576

- (1) This amount represents annual base salary for 2008. Such amount would be payable as soon as practicable upon termination but no later than 30 days following the date of termination.
- (2) This amount represents the target annual bonus he/she would have earned on December 31, 2008, and his/her target annual bonus for 2008. Such amount would be payable as soon as practicable upon termination but no later than 30 days following the date of termination.
- (3) This amount represents the value as of December 31, 2008 of the time-vested portion of his/her stock options that would become vested on an accelerated basis upon termination without cause or for good reason within a one-year period of a Change of Control or in the event of a Change of Control that does not result in termination of employment and in which the officer's stock options are neither assumed nor replaced. For purposes of this calculation, we have determined the value based on the difference between the option exercise price and the closing price of our common stock on December 31, 2008.
- (4) Because the amounts actually realized with respect to any option grant will depend on the price of our common stock on the date the award is exercised, the amount may or may not ultimately reflect the actual value that could be realized by him/her with respect to this award. AsiaInfo has a long-standing severance policy for departing members of AsiaInfo's senior management. In the event that AsiaInfo terminates an employee at the vice president level or above without cause, the employee will receive severance pay equal to one month's base salary for each year he or she has been employed by AsiaInfo, or six month's base salary, whichever is greater.

Periodically, the Compensation Committee analyzes and assesses all of the termination and change-in-control arrangements to determine whether they are necessary and appropriate under AsiaInfo's current circumstances and given the circumstances of each individual named executive officers.

Terms of Outstanding Performance Stock Units

The Compensation Committee approved PSU grants under our Incentive Plan to certain of our named executive officers in 2006. There were no grants of equity plan-based awards during 2008.

Each PSU granted is accompanied by a stock award agreement which specifies the number of shares granted and the milestones for vesting of the PSUs. A complete copy of our standard PSU award agreement is filed as an exhibit to our Current Report on Form 8-K dated November 28, 2006. For the complete terms of the PSU awards, please refer to that filing.

Table of Contents

PSUs do not vest unless the named executive officer is an employee on the vesting date. Different percentages of the PSUs granted to named executive officers vest based upon the attainment of five different performance goals and, in some cases, the passage of time. The five different performance goals, and the relative weighting applicable to each goal, are as follows:

30% of the PSU grant vests based on our level of Annual EBIT and Annual Net Revenue Growth during each of three-12-month period commencing on July 1, 2006, July 1, 2007 and July 1, 2008. Annual EBIT is defined as our earnings before interest and taxes, and Annual Net Revenue Growth is the percentage increase in our net revenue (meaning our revenue net of hardware costs), for each 12-month period against the immediately preceding 12-month period.

22.5% of the PSU grant vests if the average closing price per share of our common stock during any continuous thirty-day period occurring between July 1, 2006 and June 30, 2009 reaches certain thresholds.

22.5% of each PSU grant vests based on our New Business Revenue Percentage during the period commencing on July 1, 2006 and ending on June 30, 2009. New Business Revenue Percentage means, for such period, our net revenue attributable to (i) new business models in the PRC telecommunications market, and (ii) sales of products or services to customers outside of the telecommunications market or outside of the PRC, expressed as a percentage of our total net revenue attributable to our AsiaInfo Technologies division.

12.5% of each PSU grant vests based on the average closing price per share of our common stock during any continuous fifty-day period occurring between July 1, 2006 and June 30, 2010. If the average closing price equals or exceeds \$12.00 per share for such period, all of the PSUs allocated to this performance goal shall vest, but the earliest possible vesting date is March 31, 2009.

12.5% of each PSU grant vests based on Annual EBIT as measured for each of three 12-month periods commencing on July 1, 2006, July 1, 2007 and July 1, 2008. All of the PSUs allocated to this performance goal shall vest on the last date of the first such 12-month period (if any) when Annual EBIT equals or exceeds \$12,000,000.

As of the date of this proxy statement, some PSUs granted to our named executive officers during 2006 have vested and some remain unvested. Please see the discussion below accompanying the Outstanding Equity Awards at Fiscal Year-End Table and Options Exercised and Stock Vested.

Table of Contents**Outstanding Equity Awards at Fiscal Year-End**

The following table sets forth certain information with respect to the named executive officers regarding options, restricted stock and equity incentive plan awards for each named executive officer outstanding as of December 31, 2008.

As discussed above, beginning in 2005, we began issuing restricted stock units, instead of stock options, to our directors, officers and employees. These restricted stock units, which are set forth in the column Equity Incentive Plan Awards: Number of Unearned Shares, Units or Other Rights That Have Not Vested, are subject to time-based vesting requirements which are further detailed in footnote 2 to the table. In 2006, our Compensation Committee approved grants of PSUs which vest depending on the attainment of certain performance goals as well as, in certain cases, minimum time periods. These PSU grants are set forth in the column entitled Equity Incentive Plan Awards: Number of Unearned Shares, Units or Other Rights That Have Not Vested. The vesting criteria for these PSUs are summarized in footnote 2 below and discussed in detail under the heading Terms of Outstanding Performance Stock Units above.

See the discussion accompanying "Terms of Outstanding Performance Stock Units" for more information on the vesting of these PSUs.

- (3) The figures in this column assume the satisfaction of all performance objectives and are obtained by multiplying the number of restricted stock units or performance stock units, as applicable, by the closing market price of AsiaInfo's common stock as of December 31, 2008, which was \$11.84 per share.

On October 24, 2005, the Compensation Committee of the Board approved the acceleration of vesting of approximately 2.1 million unvested stock options previously awarded to employees, officers and members of the Board under AsiaInfo's 2000 Stock Option Plan and 2002 Stock Option Plan. Options held by members of the Compensation Committee were excluded from the acceleration. The effective date of the acceleration was October 25, 2005.

Table of Contents

As a condition of the acceleration, and to avoid any unintended personal benefits, AsiaInfo also imposed a holding period on shares underlying the accelerated options that requires all optionees to refrain from selling any shares acquired upon the exercise of the options until the date on which such shares would have vested under the options' original vesting terms.

Pension Benefits

None of our named executive officers participate in or have account balances in qualified or non-qualified defined benefit plans sponsored by us.

Non-qualified Deferred Compensation

None of our named executive officers participate in or have account balances in non-qualified defined contribution plans or other deferred compensation plans maintained by us.

Table of Contents**DIRECTOR COMPENSATION**

AsiaInfo uses a combination of cash and stock-based incentive compensation to attract and retain qualified candidates to serve on the Board. In setting director compensation, we consider the significant amount of time that directors expend in fulfilling their duties as well as the skill level of our Board members.

In 2008, each non-executive director was paid an annual retainer of \$15,000 and an additional fee of \$2,000 for each Board meeting attended in person or by teleconference. The chairman of the Audit Committee was paid an additional annual fee of \$5,000 and each member of the Audit Committee was paid a fee of \$1,000 for each Audit Committee meeting attended in person or by teleconference. In addition to these fees, we reimburse directors and committee members for reasonable and actual out-of-pocket travel expenses incurred when attending Board or committee meetings. Members of the Board who are also AsiaInfo employees did not receive any compensation for their services as directors.

Prior to 2005, AsiaInfo granted stock options to most of its non-executive directors, beginning with an initial grant of 20,000 options to each non-executive director, vesting over four years on an annual schedule of 25% per year. During the last two years of the vesting schedule, the options vested on a quarterly basis. In the past, we typically granted new options to our non-executive directors as their options vested, so that each non-executive director would always maintain 20,000 unvested options. On October 24, 2005, our Compensation Committee approved the acceleration of vesting of approximately 2.1 million unvested stock options previously awarded to employees, officers and members of the Board under our 2000 Stock Option Plan and 2002 Stock Option Plan. Options held by members of the Compensation Committee were excluded from the acceleration. The primary purpose of the accelerated vesting was to enable us to avoid recognizing future compensation expense associated with the accelerated stock options upon the planned adoption of FAS 123(R) in 2006.

Beginning in 2005, we began to implement a policy of granting restricted stock units, instead of stock options, to all of our non-executive directors pursuant to our 2005 Stock Incentive Plan. These awards began with an initial grant of 5,000 restricted stock units to each non-executive director, vesting over four years on an annual schedule of 25% per year. Effective July 2008, the Board increased the initial grant to our non-executive directors to 8,000 restricted unvested stock units.

Director Compensation Table

The following table summarizes the compensation paid to each of our non-executive directors for the fiscal year ended December 31, 2008:

AUDIT COMMITTEE REPORT

The Audit Committee reviews AsiaInfo's financial reporting process on behalf of AsiaInfo's Board of Directors and is responsible for the retention of AsiaInfo's independent registered public accounting firm. Management has the primary responsibility for the financial statements and the reporting process and for maintaining effective internal control over financial reporting. AsiaInfo's independent registered public accounting firm is responsible for expressing an opinion on (1) the conformity of our consolidated financial statements to accounting principles generally accepted in the United States of America, and (2) the effectiveness of our internal control over financial reporting. The Audit Committee currently consists of Messrs. Yungang Lu (Chair), Tao Long and Davin A. Mackenzie, all independent directors, as defined in the listing standards for The NASDAQ Stock Market and applicable SEC rules.

The Audit Committee has reviewed and discussed the audited financial statements for the fiscal year ended December 31, 2008 and the effectiveness of internal control over financial reporting as of December 31, 2008 with our management, has discussed with our independent registered public accounting firm the matters required to be discussed by PCAOB AU380 (Communication With Audit Committees), SEC Regulation S-X Rule 207 (Communication with Audit Committees) and other relevant PCAOB guidance (The Auditor's Communication with Those Charged with Governance), has received the written disclosures required by PCAOB Ethics and Independence Rule 3526 (Communication with Audit Committee Concerning Independence) and has discussed with our independent registered public accounting firm its independence. The Audit Committee has also considered whether the provision of non-audit services by our independent registered public accounting firm is compatible with maintaining its independence. The Board adopted a written charter of the Audit Committee in November 1999. The Board adopted amendments to the charter in March 2003, January 2004 and in February 2009.

Consistent with SEC policies regarding auditor independence, the Audit Committee has responsibility for appointing, setting compensation and overseeing the work of the independent registered public accounting firm. In recognition of this responsibility, the Audit Committee has established a policy to pre-approve all audit and permissible non-audit services provided by the independent registered public accounting firm.

Prior to the engagement of an independent registered public accounting firm for the next year's audit, management submits an aggregate of services expected to be rendered by the independent registered public

Table of Contents

accounting firm during that year to the Audit Committee for approval, along with the anticipated fees for those services. Management's report to the Audit Committee categorizes all anticipated fees into one of the following four classifications:

Audit services include fees for audit work performed on our (1) consolidated financial statements and (2) internal control over financial reporting, as well as work that generally only the independent registered public accounting firm can reasonably be expected to provide, including review of quarterly condensed consolidated financial information, comfort letters, statutory audits, and other attestation services.

Audit-related services include fees for assurance and related services that are traditionally performed by the independent registered public accounting firm, including due diligence related to mergers and acquisitions and special procedures required to meet certain regulatory requirements. We have not incurred such costs for the past two fiscal years.

Tax services include fees for all services permitted to be performed by the independent registered public accounting firm's tax personnel except those services specifically related to the audits of the financial statements and internal control over financial reporting or are prohibited under the rules of the SEC and the Public Company Accounting Oversight Board. Tax service fees include fees in the areas of corporate tax compliance, tax planning, and tax advice.

Other Fees include fees associated with services not captured in the other categories. We generally do not request such services from the independent registered public accounting firm.

Prior to engagement, the Audit Committee must pre-approve these services. The fees are budgeted and the Audit Committee requires the independent registered public accounting firm and management to report actual fees versus the budget periodically throughout the year. During the year, circumstances may arise when it may become necessary to engage the independent registered public accounting firm for additional services not contemplated in the original pre-approval. In those instances, the Audit Committee requires specific pre-approval before engaging the independent registered public accounting firm.

The Audit Committee may delegate pre-approval authority to one or more of its members. The member to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions to the Audit Committee at its next scheduled meeting.

In 2008, the Audit Committee pre-approved all services provided by our independent registered public accounting firm. Private meetings were held with our independent registered public accounting firm to ensure that there were no restrictions on the scope of their audit and to discuss any items the auditors did not wish to raise with management present.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board that the audited financial statements for the fiscal year ended December 31, 2008 be included in our Annual Report on Form 10-K.

Table of Contents**CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS**

We have established procedures for identifying related parties and related party transactions, and for ensuring that any changes in the status of related parties are brought to the attention of relevant departments within AsiaInfo in a timely manner. For transactions with related parties in the ordinary course of business, such as customer sales, supply purchases, subcontracting or consulting services, we apply the same review and approval process as we would in the context of other commercial agreements. All such transactions with related parties are summarized and provided to the legal department for disclosure purposes. For transactions with related parties outside the ordinary course of business, such as significant capital expenditure, capital raising activities and mergers and acquisitions, the transactions must be approved by the Chief Executive Officer or Chief Financial Officer, and in most cases the Audit Committee of the Board of Directors.

Transactions with Lenovo Group Limited and Certain of Our Other Affiliates

As previously reported in our Form 8-K filed on October 25, 2004, we closed our acquisition of the non-telecommunications related information technology services business of Lenovo Group Limited, or Lenovo, on October 19, 2004. As part of the consideration for the assets we acquired from Lenovo, our subsidiary, Bonson Information Technology Limited, or Bonson, entered into a forward contract with a subsidiary of Lenovo under which Bonson was obligated to deliver shares of our common stock having a market value of approximately \$27.1 million on the settlement date. The settlement date was required to occur, at our discretion, at any time during the twelve-month period following the closing. The forward contract limited Bonson's obligation to deliver no more than 4,498,130 shares of our common stock, and provided that if the market value of 4,498,130 shares was less than \$27.1 million on the settlement date, Bonson would have the option of paying cash or delivering additional shares of our common stock in order to cover the difference. On July 1, 2005, we settled the forward contract by delivering from treasury stock 4,498,130 shares of our common stock, with a fair value of approximately \$25,189,000 and a cost of \$23,255,000 and paying cash in the amount of \$2,024,000 to Lenovo. Lenovo owned approximately 3,965,666 of our outstanding common stock, as of December 31, 2008.

Agreements regarding ownership structure of the systems integration business involving state secrets

In connection with the closing of our acquisition of Lenovo's IT services business, we and Lenovo entered into a supplement to the acquisition agreement as of October 1, 2004, which sets forth certain supplemental understandings and agreements regarding the structure of the acquisition and other terms and conditions. Among other things, the supplement sets forth the structure of the acquisition of the part of Lenovo's IT services business that constitutes systems integration involving state secrets under relevant PRC law. Under the supplement, the parties agreed that Legend Holdings Limited, or Legend Holdings, the parent of Lenovo Group, would establish a subsidiary in China, Lenovo Security Technologies (Beijing) Inc., or Lenovo Security. At the time Lenovo Security was established, Legend Holdings owned 51% of the equity interest in Lenovo Security, and two PRC citizens, Mr. Bing Yu, a former member of our Board, and Ms. Zheng Wang, one of our employees, held the remaining equity interest. The purpose of Lenovo Security is to obtain the necessary licenses and qualifications for the systems integration businesses involving state secrets, after which Lenovo Security will be transferred to us (unless it has been transferred earlier, under certain circumstances). Through our wholly-owned subsidiary, Lenovo-AsiaInfo Technologies, Inc., or Lenovo-AsiaInfo, we have entered into a series of contractual arrangements with Lenovo Security and its shareholders under which we enjoy effective control of Lenovo Security and economic benefits substantially similar to equity ownership of Lenovo Security.

The supplement to the acquisition agreement also provides that during the transition period from the date of closing the acquisition to the earlier of (1) the date when Lenovo Security has received the Information System Integration Qualification from the relevant government agency in China (which is a prerequisite for the operation of the systems integration businesses involving state secrets) and (2) the date when Lenovo-AsiaInfo acquires all of Legend Holdings' equity interest in Lenovo Security pursuant to the terms of the equity transfer arrangement agreements described below, we will operate the system integration businesses involving state secrets through

Lenovo Computer System and Technology Services Co., Limited., or Lenovo Computer. Lenovo Computer is owned by two subsidiaries of Lenovo: Lenovo Manufacturing Limited, or Lenovo Manufacturing, and Lenovo Beijing Limited, or Lenovo Beijing. We have entered into similar contractual arrangements with Lenovo Computer, Lenovo Manufacturing and Lenovo Beijing to operate and control Lenovo Computer during this transitional period, and to receive economic benefits substantially similar to equity ownership in Lenovo Computer.

As previously reported in our Form 8-K filed on January 4, 2006, Mr. Bing Yu resigned as an officer and director of AsiaInfo and its subsidiaries as of January 3, 2006. Prior to his resignation, Mr. Yu was the registered holder of 25% of the equity interest in Lenovo Security. In connection with his resignation, Mr. Yu entered into a Frame Contract dated January 3, 2006 with Mr. James Ding, our Board Chairman and former Chief Executive Officer. The Frame Contract sets forth a legal structure whereby Mr. Yu transferred his equity interest in Lenovo Security to Mr. Ding pursuant to an Equity Interest Transfer Agreement. Mr. Yu had originally borrowed RMB 6,000,000 from Lenovo-AsiaInfo for the purpose of establishing Lenovo Security. This loan obligation was also transferred to Mr. Ding in accordance with the Frame Contract. Mr. Ding entered into a series of agreements with Lenovo-AsiaInfo on January 3, 2006, including the Loan Agreement, Power of Attorney, Exclusive Option Agreement and Share Pledge Agreements, all of which were required to effect the replacement of Mr. Yu as an equity owner of Lenovo Security. For detailed information regarding these agreements, please see descriptions of each agreement under the heading Agreements regarding Lenovo Security below.

The structure of our contractual arrangements with Lenovo Security and Lenovo Computer was developed in order to comply with the current prohibition under PRC laws and regulations on foreign persons or foreign-invested enterprises from engaging in systems integration businesses involving state secrets, and to comply with certain licensing requirements with respect to such businesses.

For a further description of those laws and regulations, please see the discussion in our annual report on Form 10-K for the fiscal year ended December 31, 2008, or the 2008 Form 10-K, in Item 1. Business, under the heading Governmental Regulation.

For a discussion of certain risks related to those regulations and our contractual arrangements with Lenovo, please see the discussion in our 2008 Form 10-K in Item 1A, Risk Factors.
