VOTE REQUIRED FOR APPROVAL

The stock transfer books of the Company will not be closed, but only stockholders of record at the close of business on March 31, 2009, will be entitled to notice of, and to vote at, the meeting. At that date, there were 69,775,521 shares of Class A Common Stock outstanding and 4,010,929 shares of Class B Common Stock outstanding. The presence, in person or by proxy, of the holders of a majority of the shares of Common Stock issued and outstanding as of the record date is required to establish a quorum at the Annual Meeting.

If a quorum is established, each holder of Class A Common Stock and each holder of Class B Common Stock shall be entitled to one vote on the matters presented at the meeting for each share standing in his name except that the holders of Class A Common Stock are empowered as a class to elect one-third of the Directors and the holders of Class B Common Stock are empowered as a class to elect two-thirds of the Directors. Stockholders will not be allowed to vote for a greater number of nominees than those named in this proxy statement. Brokers will not be permitted to vote shares for or against the approval of the amendment to the Stock Bonus Plan without instructions from the individual stockholders. As such, broker non-votes will have the effect of a vote against the amendment to the Stock Bonus Plan.

COMPENSATION DISCUSSION AND ANALYSIS

Introduction

This Compensation Discussion and Analysis provides information regarding the compensation paid to our Chief Executive Officer, Chief Financial Officers and certain other executive officers who were the most highly compensated in fiscal year 2008. These individuals, referred to as named executive officers or NEOs, are identified below:

William Dillard, II, Chief Executive Officer

Alex Dillard, President

Mike Dillard, Executive Vice President

Drue Matheny, Executive Vice President

James I. Freeman, Senior Vice President and Chief Financial Officer

This section should be read in conjunction with the detailed tables and narrative descriptions under the section titled Executive Compensation in this Proxy Statement.

Overview of Compensation Philosophy

The Compensation Committee of our Board of Directors has responsibility for establishing, implementing and monitoring adherence to our compensation philosophy. The Compensation Committee strives to ensure that the total compensation paid to executive officers is fair, reasonable and competitive.

The Compensation Committee evaluates both performance and compensation to ensure that we maintain the ability to attract and retain qualified management personnel and that compensation provided to those employees remains competitive relative to the compensation paid by our competitors. The Compensation Committee strives to achieve this objective by providing compensation packages that include a base salary, performance-based incentive bonuses and equity-based compensation.

The Compensation Committee annually reviews compensation packages and amounts paid by our primary competitors and other family-founded and family-managed companies in structuring elements to be included in our compensation packages and determining compensation amounts. This review, along with the independent judgment exercised by members of the Compensation Committee, guides the Compensation Committee's decisions regarding the allocation of compensation amounts between long-term and currently paid compensation, and the allocation between cash and non-cash amounts. The Compensation Committee attempts to devise these allocations along percentages generally comparable to our competitors while adhering to the underlying principles and objectives of our compensation policies.

In administering our compensation package, the Compensation Committee attempts to foster a pay-for-performance culture providing executives with the opportunity to increase their level of overall compensation based on the company's achievement of profitability. The specific aspects of corporate performance that are generally considered when determining our compensation policies include stock performance during the fiscal year, sales growth (both overall sales and same store sales), growth in margins and pre-tax income. For example, the award of annual cash performance bonuses (pursuant to a plan approved by stockholders in 1994 is based on a formula tied to the Company's realization of pre-tax income and increases in pre-tax income over the past fiscal year. In addition, the Company uses stock option grants to tie the amount of compensation directly to the market performance of our Common Stock. Sales and gross margin increases (or decreases) are also considered when making the determination whether to increase base salaries but their significance may be tempered by competitive pressures and economic conditions over which the company may have little or no control which could cause year to year fluctuations in sales and margins.

We believe that our compensation packages, and each individual element included, are competitive in our industry. Our programs are designed to allow our executives the opportunity to both increase their annual cash compensation through performance based bonuses and to capitalize on any increases in our stock price resulting from the company's success.

Our Compensation Committee's Charter is available on our website at www.dillards.com.

Role of Executive Officers in Compensation Decisions

Our chief executive officer, president and chief financial officer provide input to the Compensation Committee regarding Company performance. However, the Compensation Committee exercises complete discretion in making all compensation decisions regarding cash compensation and equity awards for all of our executive officers.

Objectives, Purposes and Rewards of Our Compensation Program

Our compensation program is designed to maintain our competitive position in our industry by providing benefits equivalent to those offered by our leading competitors. The program's objectives are to:

Provide compensation opportunities that are equivalent to those offered by comparable companies, thereby allowing the Company to compete for and retain talented executives who are critical to our long-term success;

Motivate executive officers by rewarding them for attainment of profitability of the Company; and

Align the interests of executives with the long-term interests of stockholders by awarding equity-based compensation in the form of stock option grants and participation in retirement, stock option and stock bonus plans encouraging stock ownership by our executives. We have designed our compensation programs to attract, retain and motivate talented individuals and encourage these individuals to engage in behaviors necessary to enable us to succeed in creating stockholder value in a highly competitive marketplace. We choose to pay each separate element of our compensation package with the intent of rewarding certain behaviors believed to be beneficial to the Company and to accomplishing specific purposes, as described below.

Base Salary is designed to:

Reward competencies of our executives relative to skills, position and contributions to the success of our Company; and

Provide a level of annual cash compensation competitive with the marketplace that recognizes contributions to the overall success of the Company and provides the potential to enjoy annual increases reflecting those contributions.

Annual Cash Performance Bonuses are designed to:

Motivate employees to assist in the attainment of profitability; and

Foster a pay for performance culture that aligns our overall compensation programs with our business strategy and rewards employees for their contributions towards our goal of increasing profitability.

Equity-Based Compensation awards are designed to:

Link compensation rewards to the creation of stockholder wealth; and

Encourage our management to work together for the common good by associating a material portion of compensation to the value of our common stock.

Pension Plan benefits are designed to:

Provide competitive incentives to our executive officers to focus on long-term success of the Company; and

Provide a secure retirement after a long and productive career with the Company.

The use of these programs enables us to reinforce our pay for performance philosophy as well as strengthen our ability to attract and retain highly qualified executives. We believe that this combination of programs provides an appropriate mix of fixed and variable pay, balances short-term operational performance with long-term stockholder value, and encourages executive recruitment and retention.

Role of Comparable Company Analysis in our Compensation Decisions

In order to develop a competitive compensation package for our executive officers, the Compensation Committee compares our compensation package with those of a comparison group of companies. The comparison group is composed of department stores, specialty stores and other public companies that were family-founded and continue to be family-managed. A complete listing of the companies in the comparison group appear below:

Abercrombie & Fitch Co.	The Men's Wearhouse, Inc.	The Talbots, Inc.
Aeropostale, Inc.	Nordstrom, Inc.	The Bon Ton Stores, Inc.
Charming Shoppes, Inc.	Restoration Hardware, Inc.	The Gap, Inc.
Chico's FAS, Inc.	Retail Ventures, Inc.	The TJX Companies, Inc.
The Children's Place Retail Stores, Inc.	SAKS Incorporated	Tiffany & Co.
J.C. Penney Company, Inc	Shoe Carnival, Inc.	Wet Seal, Inc.
Macy's, Inc.	Starbucks Corporation	Williams-Sonoma, Inc.
The McGraw-Hill Companies, Inc.	Stein Mart, Inc.	

The Compensation Committee believes that the companies in the comparison group are comparable to the Company in operations, management style and culture. Not all of the companies in our comparison group are included in the Standard & Poor's Supercomposite Department Stores Index. Although the Compensation Committee has made these comparisons, it also has considered that as the Company has grown in size, the number of senior executives has not grown proportionately, so that the number of senior executives retained by the Company is generally lower than the number of senior executives at other companies of similar size. Given recent consolidations and reorganizations in our industry it is not possible to be certain that our competitors continue to manage as they have historically. Nevertheless, the Company believes that our executive management is placed closer in the chain of command to the associates for whom they are responsible than in other companies in the comparison group. The Company has limited the number of senior executive officers to as many as is believed appropriate to effectively manage without unnecessary layers of intermediate managers. Because we believe this approach increases the demands upon the executive's time and requires a greater depth of knowledge of operations than that of his/her peers in the comparison group, it is our belief that their compensation should reflect this increased responsibility.

Specific Elements of Our Compensation Program

Base Salary

Our executive officers receive a base salary established by the Compensation Committee on an annual basis. Base salaries are set at the discretion of the Compensation Committee and are not specifically related to any Company performance criteria, as are both the annual cash performance bonus and equity-based portions of the compensation program, which are discussed below. In establishing base salary levels, the Compensation Committee considers the aggregate compensation and benefits of the executive officers and bases any increase in salary on targets established by a regression analysis of salaries paid versus total revenues for our comparison group. The regression analysis relates each component of compensation expense to total revenue for each company in the comparison group and provides an expected level of aggregate compensation expense based on the Company's total revenue. For fiscal 2008, the salaries set by the Compensation Committee were below the expected level of salaries produced by this analysis.

Adjustments to the base salary level may be made based on various factors, including comparisons to the comparative data and evaluation of the executive's level of responsibility and experience as well as Company-wide performance. The Compensation Committee also considers the executive's success in achieving business results, promoting our core values and demonstrating leadership. Previous compensation levels and awards are not taken into account in setting base salary; rather the Compensation Committee considers appropriate ranges of compensation given the level of position, and performance of the individual and the Company for the period under consideration. Finally, the Compensation Committee ensures that the recommended level of base salary is less than the expected level of base salary produced by the regression analysis described above. This is done to ensure that the executive understands (a) that his/her responsibility to the stockholders to increase long term value by increasing the value of the Company's stock is of greater importance than a guaranteed annual salary and (b) that a bonus tied to performance and profitability is at least equally as important as salary.

Annual Cash Performance Bonus

Our compensation program includes performance bonuses payable under our Senior Management Cash Bonus Plan (the "Cash Bonus Plan") to reward executive officers based on our performance and the individual executive's contribution to that performance. Annual performance bonuses reflect a policy of requiring a certain level of financial and operational performance before any cash bonuses are earned by the named executive officers. Specifically, performance bonuses may be paid only if the company realizes positive net income before federal and state income taxes for the fiscal year, which we refer to as pre-tax income. The Compensation Committee, within 90 days after the start of a fiscal year and in its sole discretion, designates those individuals in senior management eligible to receive a cash performance bonus. The Compensation Committee recognizes that the Cash Bonus Plan defines the potential bonus recipients as the persons occupying the following positions: (i) Chief Executive Officer, (ii) President, (iii) Executive Vice-Presidents, and (iv) Senior Vice Presidents. In making its determination it considers the recommendation of senior management. For example, in the past, senior management has recommended that no bonuses be given to senior management as a group because of disappointing operating results and because other employees were not awarded bonuses. In addition, the Company's performance based on pre-tax income and the individual's contribution to that performance are considered. In making its determination, the Compensation Committee may consider factors which are more individualized to specific circumstances which were unforeseen at the time the original allocations were made. The Compensation Committee also retains the discretion to reduce or eliminate any bonuses that might otherwise be due under the terms of the plan. Because of the uncertainty of market or overall economic conditions the Compensation Committee reserves the right to award smaller or no bonuses in order to conserve cash for operations or for other business opportunities that could either preserve or enhance stockholder value. Bonuses are paid at the conclusion of the fiscal year from a bonus pool, which is equal to the sum of (a) 1 1/2 % of the Company's pre-tax income for the fiscal year, plus (b) 3/2% of the increase in pre-tax income over the prior fiscal year. When the Compensation Committee designates the individuals eligible to participate in the Cash Bonus Plan, it also designates the maximum percentage of the bonus pool each individual will be entitled to

receive. The process by which this is accomplished is at the beginning of the year a percentage of the bonus pool is assigned to each participant, taking into consideration the individual's level of responsibility for both operating results and management of the organization. This could vary from year to year. The year end amount of the individual's bonus is mathematically determined by applying this percentage to the bonus pool. In April 2008, the bonus pool for fiscal 2008 was allocated as follows: William Dillard II 29%; Alex Dillard 29%; James I. Freeman 14%; Michael Dillard 14%; and Drue Matheny 14%. The Compensation Committee retains the discretion to reduce or eliminate any bonuses that might otherwise be due under the terms of the plan. The Compensation Committee cannot, however, increase the amounts payable under the Cash Bonus Plan. In fiscal 2008, our pre-tax loss was \$381,585,000 and there was no increase in pre-tax income over fiscal year 2007. This resulted in no available bonus pool for fiscal 2008.

Equity-Based Compensation

We believe that equity ownership in our Company is important to tie the ultimate level of an executive officer's compensation to the performance of our stock and stockholder gains while creating an incentive for sustained growth. To meet these objectives, each member of our senior management team receives equity-based compensation in the forms described below. In determining the appropriate amounts of equity-based compensation to be granted during any fiscal year, the Compensation Committee considers (1) the compensation practices of our comparison group, and (2) its own judgment as to the appropriate level of equity-based compensation for a company of our size and financial performance. In exercising its judgment as to the appropriate level of equity-based compensation for a company of our size and financial performance, the Compensation Committee recognizes that the equity based compensation provided by the Retirement Plan, Stock Purchase Plan and the Stock Bonus Plan are set by a predetermined formula in each plan. The Compensation Committee believes these formulas are appropriate and should not be altered. Under the terms of the Stock Bonus Plan, the Compensation Committee technically has the discretion to alter such formulas; however, since inception of the plan the Compensation Committee has never exercised this discretion.

Stock Option Grants. Stock options may be awarded to our executive officers under our 2000 Incentive and Non-Qualified Stock Option Plan. These grants are used to provide long-term incentive compensation to our executive officers and tie the amount of compensation directly to the market performance of our stock. The exercise price for the options granted is 100% of the fair market value of the shares underlying such options on the date of grant and have value to the executive officers only if our stock price subsequently increases. No options were granted during fiscal 2008 because the stock options which had been granted in prior years, when considered in conjunction with compensation surveys it periodically conducted for other similar companies, were deemed sufficient for both retaining and rewarding the affected personnel.

Retirement Plan. We offer a qualified defined contribution retirement plan (the Retirement Plan) that permits executives to make elective contributions to the Retirement Plan of up to the lesser of \$15,500 (\$20,500 if the executive is at least 50 years old) or 75% of eligible pay. Company matching contributions are calculated on the eligible executive's first 6% of elective deferrals with the first 1% being matched 100% and the next 5% being matched 50%. All contributions are used to purchase Class A Common Stock at market prices.

Stock Purchase Plan. The Dillard's, Inc. Stock Purchase Plan (the Stock Purchase Plan) allows executives to make contributions only to the extent that they were prevented from contributing to the Retirement Plan because of the nondiscrimination rules and dollar limitations of the Internal Revenue Code. All contributions to the Stock Purchase Plan are applied to the purchase of Class A Common Stock at market prices.

Stock Bonus Plan. The Dillard's, Inc. Stock Bonus Plan (the Stock Bonus Plan) provides a stock grant award equal to 6% of each executive's annual total cash compensation in excess of \$15,000 (less applicable withholding) divided by the current fair market value per share on the date that the stock bonus is granted. The Company's longstanding non-qualified Stock Bonus Plan was first ratified by the stockholders in 1991 and most recently ratified by the stockholders in 2005. It is exclusively for highly compensated employees who were

ineligible to participate in the Qualified Stock Bonus Plan and does not give the Compensation Committee any discretion to make any stock grants different from those required by the formula created in the Stock Bonus Plan. This formula was set in a manner to provide the participant with the same economic benefit available to the participants in the Qualified Stock Bonus Plan.

Pension Plan

We also maintain a non-qualified defined benefit pension plan (the Pension Plan) for our executive officers. The Pension Plan provides an annual award at retirement based upon the level of each officer's salary and bonus during the officer's tenure, as well as the total years of service provided to the Company. Specifically, the award is calculated by multiplying each officer's years of service by 1.5% and multiplying the result by the average of the highest three years of each officer's pension earnings. Pension earnings are defined as total salary plus total bonus minus the maximum wage base for FICA withholding in that year.

During 2007, the Pension Plan was amended to comply with the requirements of Section 409A of the Internal Revenue Code and regulations issued by the United States Department of the Treasury (the Treasury Regulations). In addition, in order to provide for more stable retirement planning for the officers, the Pension Plan was amended to provide that the present value of the annual pension benefit determined as of the date of a change in control would be paid in a lump sum within 60 days of the change in control. For purposes of the Pension Plan, a change in control is deemed to occur upon the happening of any of the following: (1) any person or entity acquires more than 50 percent of the Class B common stock whether by direct sale, merger, consolidation, share exchange or other form of corporate reorganization, (2) a majority of the members of the Board of Directors is replaced during any 12-month period by Directors whose appointment or election is not endorsed by a majority of the members of the Board of Directors before the date of the appointment or election, or (3) any person or entity acquires more than 80 percent the Company's assets. However, it will not be a change in control under the Pension Plan in any of the above instances if the acquirer in such transaction is either an entity controlled by the Company or controlled by the descendants of William Dillard or any spouse of any such descendants. All employees with a benefit accrued under the Pension Plan up to the date of the change in control are eligible and no further benefits are paid from the Pension Plan. For persons not yet eligible for early retirement, there is a 2 1/2% reduction in the amount of annual pension benefit for each year or partial year between the person's 65 birthday and the person's attained age on the date of the change in control. The lump sum payment is further reduced if necessary to prevent them from becoming parachute payments under Section 280G of the Internal Revenue Code. Additional information about such lump sum payments, including how the present value would be determined and the estimated lump sum pension benefits that each named executive office would have received if a change in control were to have occurred on the last business day of the 2008 fiscal year is provided below under Potential Payments upon Termination or Change in Control.

Other Benefits

Health Insurance. We provide an enhanced health insurance plan to our executive officers. This plan provides for their physical well being and insures that they are able to devote their energies to the management of the Company.

Company Aircraft. Executive officers are allowed access to company owned aircraft for both business flights as well as personal use. This benefit increases the level of safety and security for the executive officers as well as allowing them to make better use of their time by being able to travel more efficiently. The Company reports imputed income for income tax purposes for the value of any personal use based upon the Standard Industry Fare Level (SIFL) in accordance with the Internal Revenue Code and Treasury Regulations. For purposes of the Summary Compensation Table below, the Company reports additional compensation for the executive officers based on the incremental cost for flights constituting personal use.

Relationship Among the Various Elements of Our Compensation Program

We have designed our compensation package in attempting to achieve our primary objectives of (a) attracting and retaining qualified personnel by providing compensation levels equivalent to those offered by comparable companies, (b) motivating our senior officers by rewarding them for attainment of profitability of the company, and (c) aligning the interests of executives with the long-term interests of stockholders by awarding equity-based compensation to executives as part of the compensation provided to them. Our Compensation Committee has determined that the various elements provided in our compensation program compliment one another in achieving these objectives. Specifically, the amount of compensation provided through our Retirement Plan, Stock Bonus Plan and Stock Purchase Plan is tied directly to the aggregate amount of cash compensation paid in the forms of salary and cash bonuses.

Because one of our primary objectives is to provide competitive total compensation packages on a current basis, the Compensation Committee, in establishing current year compensation amounts, does not consider amounts realized or realizable from prior equity-based compensation grants.

Compensation Benchmarking

An important component of setting and structuring compensation for our executive officers is determining the compensation packages offered by our leading competitors. While we do not specifically benchmark our compensation to these or other companies, our Compensation Committee annually performs a compensation regression analysis to companies in our comparable group, as described above, and periodically does surveys the compensation practices of those companies to assess our competitiveness. In doing so, we take into account factors such as the relative financial performance of those companies, as well as certain other factors the Compensation Committee believes differentiate us from those companies such as, for example, the periodic surveys of executive compensation paid by other peer group companies. Additional factors are the Company's homogenous, unified business plan of operating virtually identical department stores primarily in the southeastern and southwestern parts of the country that allows for more streamlined, cohesive operations and its flatter management structure.

Tax Deductibility of Executive Compensation

Within our performance-based compensation program, we aim to compensate our executive officers in a manner that is tax effective, but we do not let tax considerations drive compensation decisions. Section 162(m) of the Internal Revenue Code generally disallows an income tax deduction to publicly-held corporations for compensation in excess of \$1,000,000 paid for any fiscal year to the corporation's chief executive officer or to any of its other three most highly compensated officers other than its chief executive officer or chief financial officer. However, the statute exempts qualifying performance-based compensation from the deduction limit if certain requirements are met. The policy of the Compensation Committee in the past has been to attempt to structure the compensation of our executive officers to avoid the loss of the deductibility of any compensation, even though Section 162(m) does not preclude the payment of compensation in excess of \$1,000,000. In fiscal 2008, no executive officer was paid amounts for which Section 162(m) of the Internal Revenue Code would disallow an income tax deduction for the company.

In certain situations, the Compensation Committee may approve compensation that will not meet these requirements in order to assure competitive total compensation for our executive officers.

Other Compensation Considerations

Severance and Change in Control Arrangements. We have not entered into agreements or arrangements to provide severance or change-in-control payments to any of our executives, other than the recent changes to the Pension Plan described above. Our past practice has not included the payment of severance or change-in-control payments to any executives.

Compensation Recovery Policy. The Compensation Committee does not have a specific policy on seeking reimbursement of compensation awards. However it will evaluate on a case by case basis whether to seek the reimbursement of certain compensation awards paid to an executive officer if such executive engages in material misconduct that caused, or partially caused, a restatement of financial results. If it should ever occur, when making this determination the Compensation Committee would possibly consider the intent of the officer in engaging in the misconduct, the totality of the circumstances surrounding the misconduct including the expense which the company might have to incur seeking reimbursement as compared to the amount of reimbursement, whether there were additional officers involved and, if so, the role played by the individual in the misconduct.

Stock Option Practices

Stock options provide for financial gain derived from the potential appreciation in stock price from the date that the option is granted until the date that the option is exercised. As described above, stock options may be awarded to our executive officers under our 2000 Incentive and Non-Qualified Stock Option Plan. The exercise price for the options granted is 100% of the fair market value of the shares underlying such options on the date of grant and have value to the executive officers only if our stock price increases. The determination of whether to grant these awards to specific individuals, and the amount and timing of any such grants, is made in the sole discretion of the Compensation Committee. In making this determination, the Compensation Committee considers several factors, including but not limited to, the value of aligning the interests of managers with the interests of the Company and its stockholders, the possible dilutive effect on existing stockholders of stock option grants, the individual manager's contribution to profit and the price of the stock at the time of the grant. We do not backdate options or grant options retroactively. In addition, we do not plan to coordinate grants of options so that they are made before announcement of favorable information or after announcement of unfavorable information. Compensation Committee meetings are held at least once annually. The timing of the grants is determined by the Compensation Committee. There are times when the Compensation Committee may grant stock options after quarter end and quarterly reports are filed with the SEC.

Our executive officers, and primarily our chief executive officer, participate to a limited extent in the granting of stock options by recommending the granting of options to non-executive employees. The decision of whether to grant options, however, is left solely to the Compensation Committee.

COMPENSATION COMMITTEE REPORT

We have reviewed and discussed with management the Compensation Discussion and Analysis to be included in the Dillard's, Inc. 2009 Annual Meeting of Stockholders Schedule 14A Proxy Statement, filed pursuant to Section 14(a) of the Securities Exchange Act of 1934 (the Proxy Statement). In order to provide for more stable retirement planning for the officers, because the inherent uncertainties surrounding a change-in-control might lead some officers to retire prematurely or leave the Company and as a result of published surveys of like provisions contained in similar plans

Edgar Filing: DILLARDS INC - Form DEF 14A

maintained by other companies, the Pension Plan was amended in 2007 to provide for a lump sum payment to be paid to participants within 60 days of a change-in-control of the Company.

All employees with a benefit accrued under the plan up to the date of the change in control are eligible and no further benefits would be paid from the plan. The table below details the benefits that would be paid to the named executive officers, assuming a change-in-control occurred on January 31, 2009, the last day of fiscal 2008. The lump sum payment is equal to the present value of the annual pension benefit determined as of the date of the change in control. As discussed in the Compensation Discussion and Analysis, the amount of the lump sum payment is reduced in particular situations. For purposes of determining the lump sum payment, present value is determined by using the interest rate determined under Section 417(e) of the Internal Revenue Code for the month of December preceding the calendar year in which the change in control occurs and by using for post-retirement mortality the 1994 Group Annuity Reserving Mortality Table projected to 2002 based on a fixed blend of 50% of the uploaded male mortality rates and 50% of the uploaded female mortality rates.

NEO	Lump Sum Payment
William Dillard, II	\$ 19,458,273
Alex Dillard	17,145,658
Mike Dillard	9,500,289
Drue Matheny	10,675,558

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's directors and executive officers, and persons who own more than 10% of the Company's Class A Common Stock, to file with the Securities and Exchange Commission and the New York Stock Exchange initial reports of ownership and reports of changes in ownership of stock of the Company.

To the Company's knowledge, based solely on a review of copies of reports provided by such individuals to the Company and written representations of such individuals that no other reports were required, during the fiscal year ended January 31, 2009, all Section 16(a) filing requirements applicable to its officers, directors and greater than 10% beneficial owners were complied with.

AUDIT COMMITTEE REPORT

The Audit Committee operates under a written charter adopted by the Board of Directors. Each of the members of the Audit Committee qualifies as an independent director under the applicable rules of the Securities and Exchange Commission and the New York Stock Exchange listing standards relating to audit committees. The Board of Directors has determined that Peter R. Johnson is an audit committee financial expert and is independent of management as defined by rules of the Securities and Exchange Commission. The designation as an audit committee financial expert does not impose any duties, obligations or liabilities that are greater than the duties, obligations and liabilities imposed by being a member of the audit committee or board of directors. The Audit Committee held eleven meetings during the fiscal year ended January 31, 2009.

The Audit Committee has reviewed and discussed the audited financial statements for the year ended January 31, 2009 with management and Deloitte & Touche LLP, the independent registered public accounting firm for the Company. Management represented to the Audit Committee that the Company's consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America.

The discussions with Deloitte & Touche LLP included the matters required by Statement on Auditing Standards No. 61 (Communications with Audit Committees), as amended and as adopted by the Public Company Accounting Oversight Board in Rule 3200T and Rule 2-07 of Regulation S-X of the Securities Act of 1933, as amended. Also Deloitte & Touche LLP provided to the Audit Committee the written disclosures and the letter regarding its independence required by the applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the audit committee concerning independence. The Audit Committee also considered whether the provision of non-audit services by Deloitte & Touche LLP is compatible with maintaining the auditor's independence.

Based upon the reviews and discussions noted above, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K to be filed with the Securities and Exchange Commission for the year ended January 31, 2009.

INDEPENDENT ACCOUNTANT FEES

The Audit Committee has not selected an independent auditor for the fiscal year ended January 31, 2009 and as such does not propose that any independent auditor be ratified for the fiscal year ended January 31, 2009 at the Annual Meeting.

The Audit Committee is currently reviewing the Company's options regarding independent auditors and whether it is in the Company's best interest to retain its current independent auditor, Deloitte & Touche LLP, as independent auditors for the Company for the fiscal year ended January 31, 2009.

A representative from Deloitte & Touche LLP will be present at the Annual Meeting and will have the opportunity to make a statement and will be available to respond to appropriate questions.

The following table summarizes the fees billed by Deloitte & Touche LLP for the past two years for audit and other related fees:

	2008	2007
Audit Fees	\$ 1,859,548	\$ 2,025,000
Audit Related Fees	406,917 (1)	41,200 (2)
Tax Fees		
All Other Fees		
	\$ 2,266,465	\$ 2,066,200

(1) Includes audits of Company sponsored employee benefit plans, special review of controls and procedures ordered by the audit committee, procedures performed in conjunction with the acquisition of a business and the review of a registration statement.

(2) Includes audits of Company sponsored employee benefit plans.

None of the services described above were approved pursuant to the de minimis exception provided in Rule 2-01(c)(7)(i)(C) of Regulation S-X promulgated by the SEC.

The policy of the Audit Committee requires it to pre-approve all audit and non-audit services to be performed by the independent accountant. During 2008, the Audit Committee approved all of the services described above under the captions Audit Fees, Audit Related Fees, Tax Fees and All Other Fees in accordance with this policy.

PROPOSAL 2. AMENDMENT TO DILLARD S, INC. STOCK BONUS PLAN

In March, 2009, the Board approved and adopted an amendment to the Company's Stock Bonus Plan, upon approval and recommendation of the Compensation Committee, to provide for the registration and issuance of an additional one million (1,000,000) shares of the Company's Class A Common Stock available thereunder (subject to adjustment as provided in the Stock Bonus Plan for changes in the Company's capital structure). The stockholders are being asked to approve the amendment of the Stock Bonus Plan.

The Company has maintained a stockholder-approved stock bonus plan since 1991. The Board approved and adopted the Stock Bonus Plan in December 2004, which was then approved by the stockholders at the 2005 Annual Meeting. If the amendment is approved, a total of one million six hundred thousand (1,600,000) shares of the Company's Class A Common Stock will be available for grant under the Stock Bonus Plan.

General

The purpose of the Stock Bonus Plan is to enable certain employees of the Company to acquire a proprietary interest in the Company through the ownership of a class of its common stock. The Company's management believes that the Stock Bonus Plan assists the Company in obtaining and retaining the services of such employees, and that their increased stock ownership provides such employees with a more direct stake in the future welfare of the Company, promotes the quality of their efforts in servicing the Company, and encourages them to remain in the service of the Company or its subsidiaries.

Terms of the Stock Bonus Plan

The following is a summary of certain provisions of the Stock Bonus Plan. The summary does not purport to be complete and is qualified in its entirety by reference to the provisions of the Stock Bonus Plan. A copy of the Stock Bonus Plan is attached to this Proxy Statement as Appendix A.

The Company is seeking stockholder approval of the Stock Bonus Plan to ensure compliance with New York Stock Exchange listing standards.

The Stock Bonus Plan is administered by the Compensation Committee, or any successor committee to the Compensation Committee or such other committee as may be designated from time to time by the Board to administer the Stock Bonus Plan. The Compensation Committee has the authority, in its discretion but subject to the provisions of the Stock Bonus Plan, to determine the amounts of payments to be made under the Stock Bonus Plan and the participants to whom and the time or times at which payments will be made. The Compensation Committee will make such rules and regulations and establish such procedures as it may deem appropriate for the administration of the Stock Bonus Plan. The Compensation Committee may designate employees of the Company to assist the Compensation Committee in the administration of the Stock Bonus Plan and may grant authority to such persons to execute agreements or other documents or to take other actions on behalf of the Compensation Committee. In the event of a disagreement as to the interpretation of the Stock Bonus Plan or as to any right or obligation related to the Stock Bonus Plan, the decision of the Compensation Committee will be final and binding. No member of the Compensation Committee will be liable for any action or determination made in good faith with respect to the Stock Bonus Plan or any benefit granted under it.

For each calendar year (a Plan Year) the Company will grant to each eligible employee who has been selected by the Compensation Committee for participation in the Stock Bonus Plan that number of shares of Class A Common Stock equal to 6% of such employee's total compensation (base salary and bonus) in excess of \$15,000 (less applicable withholding) divided by the current fair market value of the Company's shares on the date the bonus is granted.

Employees of the Company eligible to participate in the Stock Bonus Plan for any Plan Year are those employees who:

are eligible participants in the Dillard's, Inc. Investment & Employee Stock Ownership Plan for Full Time Employees during such year;

qualify as Highly Compensated Employee as defined in Section 414(q) of the Internal Revenue Code of 1986 during such year; and

are employed by the Company on the last Friday of the Company's fiscal year in which the Plan Year ends.

However, any Company employee who is participating in a plan providing deferred or incentive compensation or benefits which the Compensation Committee, in its discretion, determines to be a substitute for the Stock Bonus Plan will not be eligible to participate in the Stock Bonus Plan.

A Company employee eligible to participate in the Stock Bonus Plan will lose his eligibility immediately upon the occurrence of any of the following:

The termination for any reason from the active employment from the Company.

Death of the employee.

The filing with or levying upon the Company of any judgment, attachment, garnishment, or other court order affecting either the employee's earnings or the payment of his compensation provided under the Stock Bonus Plan.

The employee commits an act which, in the opinion of the Compensation Committee, constitutes fraud, deceit, embezzlement or the commission of any criminal act.

The employee enters into a business or employment which the Compensation Committee determines to be (i) detrimentally competitive with the business of the Company, or (ii) substantially injurious to the Company's financial interest.

As of January 31, 2009, approximately 230 employees were eligible to participate in the Stock Bonus Plan.

Shares granted under the Stock Bonus Plan may be newly issued shares, shares held in treasury by the Company, or shares purchased in the open market or other transactions. The Company will pay any brokerage commissions for share purchases made under the Stock Bonus Plan. The Company will also pay any fees charged by any broker selected to administer the Stock Bonus Plan. All other broker commissions and charges in connection with sales, dividend reinvestments, or in connection with purchases not made with the payments provided by the Stock Bonus Plan will be payable by the employee who orders the transactions for his or her account.

The Company expects to continue the Stock Bonus Plan indefinitely. However, the Company has the right at any time to terminate the Stock Bonus Plan in whole or in part by suspending or discontinuing contributions thereunder, or to terminate the Stock Bonus Plan, and the duration of the Stock Bonus Plan is also limited by the number of shares available for issuance thereunder.

Tax Consequences

Payments including payments in the form of shares of the Company's Class A Common Stock, made to an eligible employee as described above are taxable to the employee when made by the Company and will be reported to him as wages. The Company will be entitled to a deduction (provided applicable withholding or reporting requirements are met) for Federal income tax purposes at the same time and in the same amount as the employee is required to recognize income. Upon a subsequent sale or taxable exchange of the shares acquired as

a result of stock bonuses, an employee will realize long or short-term capital gain or loss equal to the difference between the amount realized on the sale and the amount of income recognized on the payment of the stock bonus (his tax basis). The foregoing is only a brief summary of the applicable Federal income tax laws and should not be relied upon as being a complete statement. The Federal tax laws are complex, and they are subject to legislative changes and new or revised judicial or administrative interpretations. In addition to the Federal income tax consequences described herein, the grant of awards under the Stock Bonus Plan may also have state and local tax consequences.

Vote Required

The Stock Bonus Plan, as amended, will not become effective and no stock awards will be made unless the stockholders approve the amendment of the Stock Bonus Plan at the Annual Meeting. The affirmative vote of shares holding a majority of the votes represented at the meeting is required to approve the amendment of the Stock Bonus Plan.

Benefits of the Amended Stock Bonus Plan

Because amounts payable under the Stock Bonus Plan are at the discretion of the Compensation Committee, it is not possible to determine the benefits or the amounts to be received under the Stock Bonus Plan by the Company's directors, officers or employees. For grants made during fiscal year 2008 to the Company's named executive officers under the Stock Bonus Plan, please see the "Grants of Plan-Based Awards" table in this Proxy Statement.

The following table sets forth information concerning securities authorized for issuance under equity compensation plans as of January 31, 2009. Only the Company's Class A Common Stock is authorized for issuance under these plans.

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation Plans (excluding securities reflected in column (a)) (c)

THIS PLAN IS HEREBY ADOPTED AND EXECUTED as of the date first above written.
