If the accompanying proxy is properly executed and returned or a stockholder votes his or her proxy by Internet or telephone, the shares represented by the proxy will be voted at the meeting in accordance with the directions noted thereon or, if no direction is indicated, that stockholder s shares will be voted in favor of the proposals described in this proxy statement. In addition, the proxy confers authority on the persons named in the proxy to vote, in their discretion, on any other matters properly presented at the Annual Meeting. The Board of Directors is not currently aware of any other such matters. Any stockholder who has given a proxy, whether by mail, Internet or telephone, has the power to revoke it at any time before it is voted by giving written notice to, or by executing a subsequent proxy and sending it to Thomas E. Long, Secretary, Matrix Service Company, 5100 East Skelly Drive, Suite 700, Tulsa, Oklahoma, 74135 or by a later dated proxy by Internet or by telephone. The proxy also may be revoked if the stockholder is present at the meeting and elects to vote in person.

The expenses of this proxy solicitation, including the cost of preparing and mailing this proxy statement and accompanying proxy, will be borne by the Company. Such expenses will also include the charges and expenses of banks, brokerage firms and other custodians, nominees or fiduciaries for forwarding solicitation material regarding the Annual Meeting to beneficial owners of the Company s common stock. Abstentions, which may be specified on all proposals, except the election of directors, will have the effect of a negative vote. A broker non-vote will have no effect on the outcome of the election of directors, or the other proposals.

If you hold your shares in street name through a broker or nominee, your broker or nominee may not be permitted to exercise voting discretion with respect to some of the matters to be voted upon. If you hold your shares in street name and do not give your broker or nominee specific instructions, your shares may not be voted on those matters and will not be counted in determining the number of shares necessary for approval. Shares represented by such broker non-votes will, however, be counted in determining whether there is a quorum.

Director Nomination Process

Edgar Filing: MATRIX SERVICE CO - Form DEF 14A

The Nominating and Corporate Governance Committee will consider director candidates submitted to it by other directors, employees and stockholders. In evaluating such nominations, the Nominating and Corporate Governance Committee seeks to achieve a balance of knowledge, experience and capability on the Board of Directors and to address the director qualifications discussed below.

Table of Contents

The Nominating and Corporate Governance Committee regularly assesses the appropriate size of the Board of Directors and whether any vacancies on the Board are expected due to retirement or otherwise. In the event that vacancies are anticipated or otherwise arise, the Committee considers various potential candidates for director. Candidates may come to the attention of the Committee through current directors, senior management, professional search firms, stockholders or other persons.

Once a prospective nominee has been identified, the Committee makes an initial determination as to whether to conduct a full evaluation of the candidate. The initial determination involves an evaluation of the candidate against the qualifications set forth in the Corporate Governance Guidelines, which require broad experience, wisdom, integrity, the ability to make independent analytical inquiries, an understanding of the Company's business environment and a willingness to devote adequate time to Board duties, including service on no more than four other public company boards. The Committee also assesses the candidate's qualifications as an independent director under the NASDAQ's current director independence standards and the Company's director independence guidelines. If the Committee determines that additional consideration is warranted, it may request a professional search firm to gather additional information about the candidate. The Committee designates, after consultation with the CEO, which candidates are to be interviewed. After completing its evaluation, the Committee makes a recommendation to the full Board of Directors as to the persons who should be nominated by the Board and the Board determines the nominees after considering the recommendation of the Committee.

Holders of common stock wishing to recommend a person for consideration as a nominee for election to the Board can do so in accordance with the Company's Bylaws by giving timely written notice to Thomas E. Long, Secretary of Matrix Service Company, at 5100 East Skelly Drive, Suite 700, Tulsa, Oklahoma 74135. The written notice should give each such nominee's name, address, appropriate biographical information, a description of all arrangements or understandings between the stockholder and each such nominee and any other person or persons (naming such person or persons), relating to such nominee's service on the Board of Directors, if elected, as well as any other information that would be required in a proxy statement. Any such recommendation should be accompanied by a written statement from the person recommended, giving his or her consent to be named as a nominee and, if nominated and elected, to serve as a director. The written notice must be delivered to the Secretary of the Company not later than eighty days prior to the date of any annual or special meeting; provided, however, that in the event that the date of such annual or special meeting is not publicly announced by the Company more than ninety days prior to the meeting, notice by the stockholder must be delivered to the Secretary of the Company not later than the close of business on the tenth day following the day on which public announcement of the date of such meeting is communicated to the stockholders. The written notice to the Secretary of the Company must also set forth the name and address of the stockholder who intends to make the nomination and a representation that the stockholder is a holder of record of stock of the Company entitled to vote at such meeting and intends to appear in person or by proxy at the meeting to nominate the person or persons specified in the notice.

Communications with the Board of Directors

The Board of Directors provides a process by which stockholders and other interested parties may communicate with the Board or any of the directors. Stockholders and other interested parties may send written communications to the Board of Directors or any of the directors at the following address: Board of Directors of Matrix Service Company c/o Matrix Service Company, 5100 East Skelly Drive, Suite 700, Tulsa, Oklahoma 74135. Stockholders and other interested parties may also use the Company's online submission form at the FAQ section of the Investors section of the Company's website at <http://www.matrixservice.com> to contact the Board or any of the directors. All communications will be compiled by the Company's Corporate Secretary and submitted to the Board or the individual director on a periodic basis.

Equity Ownership Guidelines for Directors

Each non-employee director is strongly encouraged to have a significant investment in the Company evidenced by the ownership, from time to time, either directly or indirectly, of an approximate value of \$100,000 of Matrix Service Common Stock. For purposes of these guidelines, indirect ownership includes the pre-tax in the money market value of stock options and phantom stock in the director's deferred compensation plan. Non-employee directors have five years from the date of their initial election to the Board to meet this requirement. As of August 1, 2009, all non-employee directors were in compliance with the Equity Ownership Guidelines.

Since Mr. Bradley is the Chief Executive Officer of the Company, he must comply with the Equity Ownership Guidelines for Executive Officers, which are discussed in the Security Ownership of Certain Beneficial Owners and Management section of this proxy statement under the caption Equity Ownership Guidelines for Executive Officers.

DIRECTOR COMPENSATION

General

Management directors receive no additional compensation for service on the Board of Directors or any committee thereof. Directors of the Company are reimbursed for out-of-pocket expenses incurred in attending the Board of Directors and committee meetings.

The elements of our non-employee director compensation consist of cash compensation and equity compensation. Our objective with director compensation is to position ourselves to attract and retain individuals with relevant business and leadership background and experience by providing a competitive package of cash and equity compensation.

Total compensation for the Company's non-employee directors is determined in a manner similar to that for executives. The Compensation Committee (the "Committee") engages a third party compensation consultant to periodically review director compensation and make recommendations. The Board's philosophy is to keep director compensation competitive, simple and aligned with the interests of our shareholders. The Committee reviews benchmark data from outside consultants and makes recommendations to the full Board for approval.

Director compensation is reviewed on a bi-annual basis. This review was last completed in July 2008. Compensation was adjusted in July 2008, as outlined below. Director compensation will be formally benchmarked and evaluated again in July/August 2010.

In July 2008, the Committee engaged a third party compensation consultant, Hewitt Associates LLC, to conduct a current market study of director compensation. Hewitt obtained benchmark data using published compensation surveys and proxy analysis of selected benchmark companies similar in size, location and industry. For fiscal 2009, the proxy analysis consisted of a review of the director pay at the same peer companies that were used to perform a proxy analysis of the pay of our executive officers.

Based on the consultant's findings and recommendations, the Committee determined that total compensation for directors should be approximately \$125,000 with approximately 50% in cash and 50% in equity. The objective is to provide a long-term component to total compensation that aligns the interests of directors with those of our stockholders through stock ownership. Therefore, the Committee recommended that the equity component of director compensation should be performance-based restricted stock units, which ties a director's compensation directly to our performance.

At the July 2008 Board meeting, adjustments were made to the annual retainer, Committee Chair and Chairman fees for fiscal 2009. The annual retainer was established as \$60,000 plus \$5,000 for each of the Committee Chairmen. The additional fee for the Chairman of the Board is 25% of the annual retainer, or \$15,000. Cash compensation may be taken in the form of cash payments or may be deferred with interest.

Equity compensation awarded for fiscal 2009 was granted at a value of \$65,000 and was all performance-based. The performance measure utilized was Matrix Service's consolidated fully-diluted earnings per share (EPS) for a three-year period beginning in fiscal 2009. Restrictions will lapse at the end of the three-year period, based on the Company's performance and have Threshold, Target and Maximum levels of achievement. In the event the minimum performance goal is not achieved, the restricted stock units are forfeited.

The basis for the October 2008 Restricted Stock Unit awards to non-employee directors is detailed below:

Annual equity value of \$65,000 (represents approximately 50% of total compensation)

Actual number of shares were determined by dividing annual value by the twenty-day moving average of the stock price calculated five days prior to the grant date

100% of the equity component of Board compensation is performance-based. Performance is defined for Threshold, Target and Maximum level awards based on our cumulative EPS for a three-year period beginning in fiscal 2009. Phantom shares, which will be settled only in cash, will be used for awards earned above the Target level. Shares awarded for performance between the established

levels will be calculated on a pro-rata basis.

Performance for the three-year period is measured at the end of the period.

If the threshold performance objective is not met, the restricted stock units are forfeited.

The Board of Directors also has a Deferred Fee Plan which allows directors to defer all or a portion of their cash compensation with interest. The effective interest rate is researched and recommended by the CFO for approval by the Committee at the regularly-scheduled meeting each October. For 2009, the interest rate is 6.5%.

Non-employee directors are also eligible to participate in our medical, dental and vision benefits.

I. Edgar Hendrix	48,750
Paul K. Lackey	65,000
Tom E. Maxwell	65,000
David J. Tippeconnic	60,000

- (3) The amounts shown represent expense recognized in the Consolidated Financial Statements contained in our Annual Report on Form 10-K for the 2009 fiscal year in accordance with Statement of Financial Accounting Standards No. 123(R), Share Based Payment (SFAS 123R), for restricted stock awards granted to non-employee directors, excluding any assumptions for future forfeitures. There were no actual forfeitures of stock awards in fiscal 2009. Edgar Filing: MATRIX SERVICE CO - Form DEF 14A

There were no stock option awards granted to non-employee directors in fiscal 2009 and there were no unvested stock option awards as of the beginning of fiscal 2009. As a result, there was no compensation expense recognized for stock option awards in fiscal 2009. As of May 31, 2009, Mr. Hendrix had 5,000 stock options outstanding, Mr. Lackey had 15,000 stock options outstanding, Mr. Maxwell had 15,000 stock options outstanding, and Mr. Tippeconnic had 5,000 stock options outstanding.

- (5) A non-employee director may defer all or part of director fees earned into the Deferred Fee Plan for Members of the Board of Directors of Matrix Service Company (Deferred Fee Plan). Under the Deferred Fee Plan, directors are allowed to defer fees and earn interest. The amounts shown represent interest earned under the plan in excess of a market rate. For fiscal 2009, the market rate for the deferrals was approximately 4.6% based on the applicable federal rates as compared to the actual rates earned of 8.0% from June 1, 2008 to December 31, 2008 and 6.5% from January 1, 2009 to May 31, 2009. We based the rate earned on our incremental borrowing rate as of the beginning of each calendar year.

Previously, directors were also allowed to defer fees in the form of Phantom Shares of our stock. The fees were converted into phantom shares based on the price of our stock on the deferral election date. In fiscal 2009, Mr. Lackey's and Mr. Maxwell's phantom shares declined in value by \$137,071 and \$88,571, respectively, and Mr. Lackey redeemed 4,286 phantom shares valued at \$103,335.

- (6) Consists of the portion of premiums we pay related to directors' participation in our health and welfare plans.

Performance is defined for Threshold, Target and Maximum level awards based on Matrix Service's cumulative EPS for a three-year period beginning in fiscal 2009. Phantom shares, which will be settled only in cash, will be used for awards earned above the Target level. Therefore, if our cumulative fully-diluted EPS exceeds the Target level, Directors will begin to earn phantom shares and will earn 2,050 phantom shares in addition to 4,100 restricted stock units if our cumulative fully-diluted EPS reaches the Maximum level. Shares awarded for performance between the established levels will be calculated on a pro-rata basis.

COMPENSATION DISCUSSION AND ANALYSIS

Compensation Philosophy and Objectives

We are focused on building and maintaining a sustainable business model that consistently delivers superior returns to our stockholders. To be successful, we must attract, retain and motivate key talent to provide the needed leadership capabilities to execute our business strategy. Our compensation philosophy and approach is designed to support these overarching objectives.

Our basic compensation philosophy is to provide the opportunity for outstanding compensation when superior performance is demonstrated. This pay-for-performance philosophy is reflected in each aspect of the compensation package for executive officers and management team members. All components of compensation for executive officers and key management are reviewed periodically to ensure consistency with our compensation philosophy and competitive market practices. We use the following basic principles in the design and administration of our executive compensation program:

Competitiveness Our compensation programs are designed to ensure we can attract, motivate and retain the talent needed to lead and grow the business. Targets for base salary, short-term and long-term compensation are generally based on median (50th percentile) market levels.

Support Business Objectives, Strategy and Values Ultimately our compensation program is designed to drive the achievement of annual business objectives, support the creation of long-term value for our stockholders, and promote and encourage behavior consistent with our core values and guiding principles.

Pay for Performance While we establish target pay levels at median or 50th percentile market levels with target level performance, our plans provide the opportunity for significantly greater rewards for outstanding performance. At the same time, performance that does not meet expectations is not rewarded.

Individual Performance In addition to objective company-wide, business unit and operating unit financial measures, our programs emphasize individual performance and the achievement of personal objectives.

Integrated Approach We look at compensation in total and strive to achieve an appropriate balance of immediate, short-term and long-term compensation components, with the ultimate goal of aligning executive compensation with long-term stockholder value. Our executive compensation program is administered by the Compensation Committee of the Board of Directors (the **Committee**). The role of the Committee is to provide oversight and direction to ensure the establishment of executive compensation programs that are competitive in nature, enable us to attract top talent, and align the interests of our executive officers with that of our stockholders.

The Committee is supported by our Vice President, Human Resources, and other executive officers as needed or requested, in the design, review and administration of our executive compensation programs. The Committee engages a third party compensation consulting firm to evaluate Board and executive officer compensation, benchmark our practices compared to other companies and provide associated recommendations. In July 2008, Hewitt Associates LLC was engaged by the Committee to evaluate our compensation practices and assist with the establishment of compensation for fiscal 2009. In July 2009, Hewitt Associates LLC also provided information and comments to the Committee with respect to fiscal 2010 compensation. Hewitt Associates was engaged exclusively by the Committee and will not provide other services to senior management.

Table of Contents

For fiscal 2010, due to the uncertainty in the market and the economy and, after consultation with their Hewitt consultant, the Committee decided that no adjustments would be made to the base pay of the CEO and other executive officers at the start of the fiscal year although the Committee indicated it may consider merit increases at a later date if conditions improve. In a typical year, we would review competitive market data prepared by the third-party consultant, including an analysis of survey data based on companies in similar industries for each position. Where possible, the data for each position is regressed to predict an appropriate level of compensation based on our revenues. Where regression analysis is not available, the analysis is performed using companies in similar industries with revenues on average close to our revenue. In addition to survey data, we review the consultant's analysis of proxy disclosed compensation data for named executive officers of peer companies. For pay decisions for fiscal 2009, we reviewed the proxy information for the following companies:

Astec Industries Inc.	Layne Christensen Co.
Columbus McKinnon Corp.	Mastec Inc.
Dresser-Rand Group Inc.	Quanta Services Inc.
Dycom Industries Inc.	Sterling Construction Co. Inc.
Furmanite Corp.	Team Inc.
Gardner Denver Inc.	Tetra Tech Inc.
Granite Construction Inc.	Titan International Inc.
Insituform Technologies	VSE Corp.
Integrated Electrical Services	Willbros Group Inc.

This year, the Committee reviewed executive compensation in terms of the mix of targeted compensation and the types of programs offered. This review was broader than in a typical year when we would also be considering levels of compensation. The Committee sought to ensure that the compensation package offered to our executives is competitive in form and structure. Most of the companies included in the review are not in our proxy peer group since they are larger than us. However, for this review, they were included because we compete with them for talent in the marketplace. The companies from which we obtained information from their proxy data for the purposes of this fiscal 2010 evaluation were as follows:

Aecom Technology Corp.	Jacobs Engineering Group
Chicago Bridge & Iron	KBR Inc.
Emcor Group Inc.	McDermott International
Fluor Corp.	Quanta Services Inc. *
FMC Technologies	Willbros Group Inc. *
Foster Wheeler Ltd.	URS Corp
Granite Construction Inc. *	

Edgar Filing: MATRIX SERVICE CO - Form DEF 14A

* Also included in our fiscal 2009 proxy peer group.

In addition, trends and prevalent information for executive benefits and perquisites from survey sources were also considered. The Committee concluded that it believes our mix of pay components is appropriate for our business strategy and compensation philosophy and our approach to executive benefits and perquisites is sound.

When adjustments are to be made, the CEO considers the third party consultant's findings and provides recommendations to the Committee regarding compensation for review, discussion and approval for all executive officers with the exception of himself. The Committee establishes CEO compensation. The Committee reviews performance of the CEO, establishes appropriate compensation for the CEO and approves compensation for the other executive officers, in executive session without management present.

In implementing our compensation philosophy, the Committee also compares our CEO's total compensation to the total compensation of the other Named Executive Officers over time. However, the Committee has not established a targeted level of difference between the total compensation of the CEO and the median total compensation level for the next lower tier of management. The Committee also considers internal pay equity among the other Named Executive Officers, and in relation to the next lower tier of management, in order to maintain compensation levels that are consistent with the individual contributions and responsibilities of those executive officers.

The Committee typically reviews base salary for executive officer compensation at its regularly-scheduled July/August meeting. At this meeting, the Committee also reviews and approves incentive payments for the previous fiscal year and establishes incentive targets for the coming fiscal year under the short-term incentive plan. Long-term incentive awards are

Table of Contents

approved by the Committee at a meeting immediately following the annual stockholders meeting each October. The Committee may also approve base pay, short-term incentive and long-term incentive (equity) grants for executive officers during the year for promotions or new hires.

Key Elements of Executive Officer Compensation

The primary elements of our executive compensation program include:

Base Pay;

Annual/Short-Term Incentive Compensation;

Long-Term Incentive Compensation (Equity);

Perquisites and Other Benefits; and

Change of Control Agreements.

Base Pay

Base pay is the foundation of our executive compensation package. Base pay is based on the executive officer's responsibilities, role in the organization, level and type of work experience, and individual job performance. Our practice in establishing executive base pay, and that for other managers and employees, is to determine the market median or 50th percentile among comparable companies. This data is obtained through our third party compensation consultant. We expect to engage a compensation consultant to review and benchmark competitive market pay data on no less than a bi-annual basis.

We utilize a market-based job evaluation system to establish and ensure equitable, competitive pay levels throughout the organization. Salary grades and pay ranges are established by evaluating positions based on the external market data and internal equity. Each executive officer, like other employees, is assigned to a salary grade. Broad ranges of salary are associated with each grade. The position within the salary grade/pay range for each individual is determined based on the respective level of experience, skill and demonstrated performance.

Base pay and salary grade also play a factor in determining other short- and long-term incentive compensation awards. Short-term incentive awards are reflected as a percentage of base salary and long-term incentives are based on an executive officer's salary grade.

Mr. Michael J. Bradley became President and Chief Executive Officer of the Company effective November 6, 2006. His initial annual base salary was \$475,000. Effective August 1, 2007, based on the Committee's assessment of Mr. Bradley's initial performance, Mr. Bradley's salary was increased to \$525,000. In July 2008 based on data provided by Hewitt Associates showing that Mr. Bradley's base salary was significantly below the median and in recognition of Mr. Bradley's outstanding performance in fiscal 2008, the Committee approved an increase in Mr. Bradley's base pay to \$670,000 effective June 1, 2008. Based on uncertainty in the market and the economy and notwithstanding the Committee's extremely positive assessment of Mr. Bradley's performance in fiscal 2009, the Committee made no adjustment to Mr. Bradley's base pay in June 2009, which remains at \$670,000.

Fiscal 2009 base pay compensation for our other Named Executive Officers (Mr. Thomas E. Long, Mr. Joseph F. Montalbano, Mr. Matthew J. Petrizzo and Mr. James P. Ryan) is administered in line with our established compensation philosophy discussed above.

Mr. Long joined the company as Chief Financial Officer on April 30, 2008 at an annual base pay of \$300,000, which was not adjusted during the year.

Edgar Filing: MATRIX SERVICE CO - Form DEF 14A

Mr. Montalbano joined the company as Chief Operating Officer on May 12, 2008 at an annual base pay of \$350,000, which was not adjusted during the year.

Mr. Petrizzo joined the company as Vice President of Matrix Service Industrial Contractors, Inc. (MSICI), a wholly-owned subsidiary of the Company, on November 12, 2007 at an annual base pay of \$210,000. Based on his outstanding performance, Mr. Petrizzo was promoted to President of MSICI on June 1, 2008 and received an annual base pay adjustment to \$265,000. Mr. Petrizzo's new base pay of \$265,000 included a salary adjustment in connection with our elimination of the automobile allowance for executive officers.

Table of Contents

Mr. Ryan received a base pay adjustment on June 1, 2008 based on his performance and the elimination of the automobile allowance as previously noted. His annual base pay increased from \$273,780 to \$303,300.

Based on market uncertainty and economic conditions, in June 2009 Mr. Bradley recommended no base pay adjustments for fiscal 2010 for the Named Executive Officers, which the Committee accepted, although the Committee indicated it may consider merit increases at a later date if conditions improve.

Annual/Short-Term Incentive Compensation

Our annual/short-term incentive compensation plan is designed to offer the opportunity for substantial incentive awards for delivering outstanding performance. Rewards under our short-term incentive compensation plans are based on overall company, business unit, operating unit, and individual performance, as compared to pre-established objectives that are tied to enhancement of stockholder value. Our short-term incentive compensation objectives are designed to:

Support and drive performance toward achieving our strategic objectives,

Emphasize overall company, business unit, operating unit and individual performance in the structuring of reward opportunities,

Motivate and reward superior performance, and

Provide incentive compensation opportunities that are competitive in the industry.

For fiscal 2009, our annual/short-term incentive targets were established as follows:

Short-term incentive compensation was based on four primary factors:

Financial Performance,

Safety Performance,

Strategy/Growth execution, and

Business/Personal Objectives, including project execution, business development, risk management and cost optimization.

For fiscal 2009 financial performance, a consolidated annual income goal was recommended by the CEO and approved by the Committee at the July 2008 meeting.

Edgar Filing: MATRIX SERVICE CO - Form DEF 14A

Financial performance measures for the CEO, COO and CFO were based on fully-diluted earnings per share (EPS).

Corresponding financial targets for pre-tax income were established for each operating company and organizational unit based on business plans, which were designed to drive growth and/or improve profitability.

Once all targets were established for the Company, Threshold, Maximum and Stretch levels of performance were defined. Threshold was defined as 90% of Target, Maximum was defined as 110% of Target and Stretch was defined as 120% of Target. No incentives are paid for performance below the Threshold level.

Financial incentives for Mr. Bradley, Mr. Long and Mr. Montalbano and other corporate executive management were tied to our consolidated performance. Incentives for Mr. Ryan, Mr. Petrizzo and other executive officers, managers and operating division personnel were tied to both their respective operating company or organizational unit and our consolidated results.

Safety Performance Targets were established based on Total Recordable Incident Rate (TRIR). The TRIR levels for fiscal 2009 were 1.25 for Threshold payout, 1.0 for Target payout and 0.75 for Maximum payout. Incentives for Mr. Ryan, Mr. Petrizzo and other executive officers, managers and operating division personnel were tied to both their respective operating company or organizational unit and our consolidated results. Other subjective criteria including behavioral-based safety training implementation, safety audits, and safety accountability were also evaluated.

Growth/strategy execution was measured against how well we positioned ourselves for growth and diversification coming into fiscal year 2010 and how well we grew our backlog.

Other performance criteria in the form of personal objectives were established for each executive officer in line with the Company's fiscal 2009 plan.

Table of Contents

Actual performance in relation to established measures was presented to the Committee at the July 2009 meeting and was approved. Incentives for fiscal 2009 performance were paid on August 14, 2009.

Discretionary awards outside of the plan may be recommended by the CEO and approved by the Committee in the event there are special circumstances or achievements that need to be recognized.

Performance measures established shortly after the beginning of the fiscal year do not include the impact of an acquisition, positive or negative, completed within the fiscal year. However, it is anticipated that the Committee would evaluate any acquisitions which may be completed during the fiscal year on a case-by-case basis to determine their impact on the plan and adjust performance measures appropriately.

In fiscal 2009, the short-term incentive compensation payable to Mr. Bradley was based on the attainment of the following objectives:

Safety:

Achieve TRIR of 1.0 Target; 1.25 Threshold; 0.75 Maximum

Progress toward building consistency and strengthening safety culture

Financial:

Achieve fully-diluted EPS of \$1.50 Target; \$1.35 Threshold; \$1.65 Maximum; and \$1.80 Stretch

Strategy:

Position Company for 15% organic earnings growth for fiscal 2010.

Assess overhead costs and allocation and identify opportunities to reduce.

Personal Objectives:

Customer Focus Revitalize and refocus the Business Development and Sales operations to enhance a customer facing organization.

Progress toward expanding the Company's geographic reach and diversification in power, downstream petroleum, natural gas, industrial and alternative energy, leveraged around our core capabilities.

Add engineering and fabrication capabilities to expand project lifecycle and engineer, procure and construct (EPC) services centered around our core businesses.

Position the Company to accelerate long-term growth through addition of key talent and strategic acquisitions.

The Committee evaluated actual results in each category against the expected levels of performance:

Safety: In fiscal 2009, we achieved a TRIR of 0.68 and implemented behavioral-based safety programs.

Financial: Our fully diluted EPS was \$1.16. Although \$1.16 EPS represents a record level of earnings, it was below the Threshold level of performance and no amounts were paid out in respect of this objective.

Strategy: Due to market conditions, which included significant delays and cancellations in capital spending by a number of our clients, organic growth was challenging. However, we did make significant progress toward the advancement of our long-term strategy in fiscal 2009. We were successful with organic growth and diversification efforts through expansion in the Gulf Coast and Western Canada regions. Also, we continued to strengthen our financial position and liquidity, funding two strategic acquisitions from operating cash flows while increasing our cash position to \$35 million and remaining virtually debt free. We continued to actively manage the overall cost structure including construction overhead and

Edgar Filing: MATRIX SERVICE CO - Form DEF 14A

SG&A costs with a focus on balancing the cost structure in light of current market conditions with the need to maintain adequate capacity to address potential opportunities.

Personal Objectives: We successfully added key business development talent with broad industry experience, improved its database of project opportunities and added proposal evaluation tools and processes. Significant progress was made toward the advancement of the long-term growth and diversification strategy, as noted above. We successfully completed and integrated two acquisitions - certain engineering, technology and construction resources from CB&I, which expands our engineering capabilities and S.M. Electric, which expands our ability to provide services to the power industry, especially in the Northeast region.

After thorough discussion of our overall fiscal 2009 performance and Mr. Bradley's personal performance, it was determined that he should receive an incentive payment at the Threshold level for his demonstrated leadership through continuing to enhance the talent and capability of the Company, two successful acquisitions, an outstanding safety record and culture, and the advancement of our long-term strategy. A Threshold incentive payment for Mr. Bradley is 50% of base salary. Therefore, the fiscal 2009 bonus approved for Mr. Bradley by the Committee was \$335,000 or 50% of his fiscal 2009 base salary of \$670,000.

For Mr. Montalbano, his fiscal 2009 incentive was guaranteed to be no less than Target, which was a condition of his employment. Mr. Montalbano joined us as Chief Operating Officer on May 19, 2008 at an annual base salary of \$350,000. The Target incentive opportunity for this position is 50% of base pay. Based on our previous commitment to Mr. Montalbano, the Committee approved a Target incentive payment for him of \$175,000.

For Mr. Long, fiscal 2009 incentives were based on the same four categories as Mr. Bradley. Personal objectives were specifically defined for Mr. Long's position in line with fiscal 2009 objectives. The Committee approved an incentive payment to Mr. Long of \$75,000, which represents the Threshold level incentive, or 25% of salary, based on his successful leadership and integration of two acquisitions and cost reduction efforts, especially with respect to both external and internal audit expenses. Mr. Long joined us as Vice President, Finance and Chief Financial Officer on April 30, 2008 at an annual base salary of \$300,000.

For Mr. Petrizzo and Mr. Ryan, fiscal 2009 incentives were based on the same four categories as Mr. Bradley. However, additional financial measures for the performance of their respective operating companies were also established. Personal objectives were specifically defined for Mr. Petrizzo and Mr. Ryan in line with fiscal 2009 objectives. The Committee approved an incentive payment for Mr. Petrizzo of \$113,103 based on the excellent financial performance and strategic positioning of his operating company. This represents a 42.7% incentive for Mr. Petrizzo, which is slightly below the Target level for his position of 50% of base pay. The Committee approved an incentive payment for Mr. Ryan of \$75,825 based on the excellent safety record and culture of his operating company and in recognition of the achievement of strong operating margins in a challenging environment. This represents the Threshold level of incentive for Mr. Ryan which is 25% of base pay.

In addition to the annual incentive awards stated above, the Committee approved a special award of a total of 32,000 Restricted Stock Units (RSU) for Mr. Bradley and the other Named Executive Officers. The special RSU awards were intended as a retention tool and to supplement the fiscal 2009 cash incentives and further reward the executive management team for our record earnings, excellent safety performance and advancement of the long-term strategic plan.

The RSU awards were granted on August 14, 2009 and were time-based awards. Restrictions will lapse on the third anniversary of the award. Specific RSU award levels are detailed below:

	Number of RSU s Granted
Mr. Bradley	10,000
Mr. Montalbano	6,000
Mr. Long	6,000
Mr. Petrizzo	5,000
Mr. Ryan	5,000

The base calculation of incentives is tied to defined measures for financial performance and safety performance while the calculation for growth/strategy and business/personal objectives is more subjective in nature. Incentives for executive officers below the CEO are recommended by the CEO and approved by the Committee. Incentive compensation payments to the CEO are determined solely by the Committee in executive session, without management present.

The Annual/Short-Term Incentive Compensation Plan is reviewed and evaluated periodically to ensure that it meets its objectives and may be modified, discontinued or replaced based on our changing objectives and requirements.

For fiscal year 2010, our annual/short-term incentive compensation plan will be based on financial performance, safety performance and the execution of specific fiscal 2010 business objectives. CEO, COO, CFO and corporate executive officers are tied to our consolidated performance. Incentives for other executive officers, managers and other operating division personnel are tied to the performance of their respective operating company or organizational unit and our consolidated

Table of Contents

results. The percentage of each employee's annual/short-term incentive assigned to each performance element is dependent on the employee's position and responsibilities. Information on the annual/short-term incentive targets for fiscal 2010 established for each element is provided below:

Financial Financial measures for Mr. Bradley, Mr. Long and Mr. Montalbano and other corporate executive officers are tied to consolidated fully-diluted EPS with Threshold, Target and Maximum measures. Also, for Mr. Ryan and Mr. Petrizzo, and other Company officers and employees, the portion of their incentive tied to consolidated results is based on consolidated fully-diluted EPS. For any incentives attributable to operating company and organizational unit performance, financial performance will be measured by Pre-Tax Income. Targets for Pre-Tax Income were established for each operating company and organizational unit based on business plans, which were designed to drive growth and/or improved profitability.

Safety Performance Safety performance is measured by Total Recordable Incident Rate (TRIR). Improvement in overall safety culture and implementation of behavioral-based safety programs will also be considered.

Fiscal 2010 Business Objectives This element will be measured by how well we execute in fiscal 2010 and position the Company for fiscal 2011, including financial strength, strategic acquisitions, standardized business processes, diversification and succession planning.

Beginning July 1, 2009 with the fiscal 2010 short-term incentive plan, we added a return metric to the plan which will more directly link our financial performance with the level of incentive payouts under the plan. After thorough discussion of various return metrics, the Committee approved a Return on Sales metric under the short-term incentive plan.

At the beginning of each fiscal year, a hurdle rate will be established based on a minimum level of Pre-Incentive Operating Income that must be earned before any incentives will be paid. Once the hurdle rate is earned, an incentive pool will be funded with 25% of each dollar earned above the hurdle rate. In the event we achieve performance at the target level, but the incentive pool is not funded to pay incentives at the target level, individual incentive opportunities will be reduced by a factor to remain within the established pool. In the event we achieve performance at the target level and the incentive pool is funded at a level greater than target, incentives will be paid at the target level of performance. The size of the incentive pool is capped by the maximum percentage of salary permitted under the plan for each participant.

Long-Term Incentive Compensation (Equity)

The purpose for providing long-term incentive compensation to executive officers is to tie executive rewards directly to the enhancement of long-term stockholder value. Offering the opportunity for executive officers (and other managers) to earn an ownership position in the Company enables us to remain competitive and attract, retain and motivate top executive and management talent. We believe equity ownership helps to create and maintain a long-term perspective among executive officers and provides a direct link to our long-term growth and profitability.

On October 23, 2006, we amended and restated the 2004 Stock Incentive Plan to permit the grant of restricted stock, restricted stock units, stock appreciation rights, and performance shares, in addition to stock options which were previously authorized. Beginning in October 2006, we changed the form of equity grants offered to executive officers and key management personnel from stock options to restricted stock units or RSUs. Equity grants in October 2006, October 2007 and October 2008 were awarded in the form of RSUs.

The Committee believes that the use of RSUs is the most appropriate form of equity to achieve our stated objectives, as it is a full value award that strongly and directly links management and stockholder interests. As a full value award, RSUs are less dilutive to stockholders, since we are able to issue fewer shares in order to attain the desired level of equity compensation for our executive officers and managers. RSU awards are granted on an annual basis and generally contain both a performance-based and a time-based element. Performance criteria link the equity reward to our strategic objectives and stockholder value. Time-based shares promote executive officer/management retention. Specific, individual grants vary by level/role in the organization. The amount of each award corresponds to the respective salary grade for each executive officer and manager.

The objective is to provide a long-term component to overall compensation that aligns the interests of executives with those of stockholders through stock ownership. For our long-term incentive compensation plan, the performance measure we use is a three-year measurement of fully-diluted EPS, which is designed to promote teamwork and align management toward a common, strategic goal. Three-year EPS targets for the October 2008 grants for Threshold, Target and Maximum level awards are based on fiscal 2009 to 2011 earnings. Phantom shares, which will be settled only in cash, will be used for awards earned above the Target award. Shares awarded for performance between the established levels will be calculated on a pro-rata basis.

Table of Contents

The basis for the October 2008 Restricted Stock awards to executive officers is detailed below:

For the Mr. Bradley, Mr. Long, Mr. Ryan and Mr. Petrizzo, 100% of the award is performance-based. The Committee believes that long-term equity compensation should be primarily performance-based for our most senior executives. Mr. Montalbano was not included in the October 2008 grant per the terms of his initial employment offer.

For all other executive officers and managers, each award is 50% performance-based and 50% time-based. For the time-based awards restrictions lapse 20% per year over five years and vesting of the performance-based awards is based on the achievement of the targets described above.

Performance for the three-year period will be measured after our fiscal 2011 earnings are reported.

If minimum performance objectives are not met, the performance based shares are forfeited.

For performance achieved above the Target level, phantom shares will be used. If we achieve fully-diluted EPS that are between the Target goal and the Maximum performance goal, then the number of phantom share rights will be determined on a pro-rata basis. In the event we achieve the Maximum performance goal, then all of the phantom share rights will vest. Within 10 days after the vesting date, we will pay in cash for each vested phantom share right an amount equal to the closing price per share of our common stock as reported by the New York Stock Exchange on the vesting date.

Grants made during fiscal 2009 are shown in the Grants of Plan-Based Awards table. Long-term equity awards are granted on an annual basis each October at the Board meeting following our annual stockholders meeting.

Equity compensation is reviewed and evaluated periodically to ensure that it meets our objectives and may be modified, discontinued or replaced based on our changing objectives.

Perquisites and Other Benefits

Our executive officers do not receive a significant value in perquisites or supplemental benefits. In general, our executive officers are eligible to participate in the same retirement and health and welfare plans as all eligible employees. However, to remain competitive in our benefit offerings, we offer the following benefits to executive officers:

Retirement Benefits We sponsor a 401(k) Savings Plan which allows executive officers, and other employees, to contribute up to 25% of their salary (up to the annual IRS maximum). Executive officers participate and receive benefits under the plan in the same manner as all other eligible participants. We do not sponsor or maintain any other pension, deferred compensation plans or other supplemental retirement plans for executive officers.

Life Insurance In addition to the group term life policy offered to all eligible employees, we provide additional life insurance to our executive officers, at no cost to the officer.

CEO We provide a \$500,000 term life insurance policy for the CEO.

Executive Officers and Managers We provide an additional corporate term life insurance policy for all executive officers and selected managers at the levels outlined below:

CEO, COO and CFO \$600,000

Edgar Filing: MATRIX SERVICE CO - Form DEF 14A

Other Executive Officers \$400,000

Selected Managers \$200,000

In addition to the company-provided life insurance policies described above, all executive officers, along with other eligible employees and managers, have the option to purchase supplemental life insurance for themselves, their spouses and dependents.

Country Club Membership In fiscal 2008, we reimbursed the CEO and CFO for the initiation fee and monthly dues associated with a country club membership. While the country club may be used for business purposes, this benefit is a competitive practice and was offered and considered a perquisite of these positions. This practice, nonetheless, was discontinued for fiscal 2009.

Table of Contents

Auto Allowance It has been our policy to provide company vehicles or vehicle allowances to corporate officers, management personnel, and other personnel with a defined business need. The assignment of a company-provided vehicle or vehicle allowance was determined by (1) the level of the position, (2) the nature of the position and (3) business necessity. A vehicle allowance was provided to executive officers as a requisite. The amount of the vehicle allowance varied by position. The vehicle allowance was paid as part of regular payroll and is taxable income. The vehicle allowance requisite for all executive officers was eliminated for fiscal 2009.

The elimination of the automobile allowance and reimbursement of country club membership initiation fees and monthly dues was considered in determining the fiscal 2009 salary for each of the Named Executive Officers.

Clawback Policy

To the extent permitted by law, if the Board of Directors, with the recommendation of the Committee, determines that any bonus, equity award, equity equivalent award or other incentive compensation has been awarded or received by a Named Executive Officer, and that such compensation was based on the achievement of any financial results that were subsequently the subject of any material restatement of our financial statements filed with the SEC, the executive officer engaged in grossly negligent or intentional misconduct that caused or substantially caused the material restatement and the amount of the compensation would have been less had the financial statements been correct, we will seek to recover from the executive officer such compensation (in whole or in part) as we deem appropriate under the circumstances. The Board of Directors has sole discretion in determining whether an officer's conduct has or has not met any particular standard of conduct under law or Company policy.

Change of Control/Severance Agreements - Named Executive Officers

We have entered into Change of Control/Severance Agreements with each of the Named Executive Officers. These agreements are designed to promote stability, continuity and focus for key members of leadership during periods of uncertainty that may be created by change of control situations. Additionally, the use of such agreements is a competitive practice that enhances the Company's ability to attract and retain leadership talent.

Under these five agreements, payment of benefits may occur under two circumstances:

If we experience a change of control and the executive suffers an adverse event or is terminated without cause, either on the date of the change of control or within 24 months following change of control date; or

The executive is terminated from employment at any time for reasons other than cause.

In the event payment of benefits is triggered under these agreements, all benefits paid under these agreements are conditioned upon the executive executing a waiver and release of claims and confidentiality agreement in a form satisfactory to us. Failure to execute such an agreement prior to the payment date is considered an absolute forfeiture of the severance benefit. In the event a Named Executive Officer suffers an adverse event within 24 months of a change of control:

Mr. Bradley, Mr. Montalbano or Mr. Long will receive an amount equal to two year's annual salary plus his annual bonus compensation based on the average bonus compensation for the lesser of the three previous years or the number of full fiscal years the executive has been employed in the position. In addition, all forms of equity benefits will vest and restrictions on those benefits will lapse immediately.

Mr. Ryan and Mr. Petrizzo will receive an amount equal to one year's annual salary plus the average annual bonus compensation paid to the executive in the previous three calendar years.

In the event a Named Executive Officer is terminated from employment for reasons other than cause, the Named Executive Officer will receive an amount equal to one year's annual salary plus an additional amount with respect to the executive's annual bonus which varies for each

Edgar Filing: MATRIX SERVICE CO - Form DEF 14A

executive. In addition, restrictions on certain of the initial RSU awards to Mr. Bradley and Mr. Montalbano will lapse immediately.

Benefits will be paid in the calendar year the event occurs and, generally, within 30 days of the date of the event. In no case will the payment of the severance benefits be paid later than March 15 following the calendar year in which the event occurred.

Change of Control Agreements – Other Executive Officers and Managers

We have also entered into Change of Control Agreements with other executive officers and key members of management. These agreements are designed to promote stability, continuity and focus for key managers during periods of uncertainty that may be created by potential change of control situations. We seek to offer some security and protection when asking officers and managers to remain engaged through uncertain times. The Change of Control Agreements are provided to the other Company executive officers not named above and select management personnel.

Under these agreements, payment of benefits occurs in the event of a change of control and the executive officer/manager has suffered an adverse event or been terminated from employment for reason other than cause, either on the date of the change of control or within six months of the change of control date. There is no general severance clause in these agreements.

In the event payment of benefits is triggered under these agreements, the executive officer/manager will be paid an amount equal to one year's annual base salary. In addition, all equity awards immediately vest and all restrictions on such benefits lapse. All benefits paid under these agreements are conditional upon the executive executing a waiver and release of claims and confidentiality agreement in a form satisfactory to us. Failure to execute such an agreement prior to the payment date will be considered an absolute forfeiture of the severance benefit. In the event an executive is terminated for Cause, all benefits and payments under the agreement are forfeited.

Benefits will be paid in the calendar year the event occurs and, generally, within thirty days of the date of the event. In no case shall the payment of the severance benefits be paid later than March 15 following the calendar year in which the event occurred.

Shares awarded for performance between the established levels will be calculated on a pro-rata basis.

Potential Payments Upon Termination or Change of Control

We have entered into Change of Control/Severance Agreements with each of the Named Executive Officers. These agreements are designed to promote stability, continuity and focus for key members of leadership during periods of uncertainty that may be created by change of control situations. Additionally, the use of such agreements is a competitive practice that enhances our ability to attract and retain leadership talent.

Under these five agreements, payment of benefits may occur under two circumstances:

If we experience a Change of Control and the executive suffers an Adverse Event or is terminated without Cause, either on the date of the Change of Control or within 24 months following Change of Control date; or

Table of Contents

The executive is terminated from employment at any time for reasons other than Cause.

Change of Control means (i) a change in ownership of the Company of greater than 50% of the outstanding voting stock of the Company within a six month period; (ii) a change in the effective control of the Company as determined by a change of greater than 35% of the outstanding voting stock of the Company by a person or persons acting as a group within a twelve month period; or (iii) a change in the ownership of a substantial portion of the assets of the Company as these terms are defined under Internal Revenue Code § 409A(a)(2)(A)(v) and Treasury Regulations § 1.409A-3(g)(5) or other then existing and applicable Treasury Regulations promulgated under Code § 409A that define the terms change of control for deferred compensation arrangements.

Cause means, with reference to a severance event, that the executive has been severed from employment with the Company because of the executive's theft of Company property, embezzlement or dishonesty that results in harm to the Company; continued gross or willful neglect of his or her job responsibilities after receiving written warnings regarding such neglect from the Company; conviction of a felony or pleading *nolo contendere* to a felony charged under state or federal law; or willful violation of Company policy. A determination by the Company's Board of Directors that an event constituting Cause under this Agreement has occurred is binding upon the Company and the executive.

Adverse Event means that the executive has experienced an event that has a material adverse impact on the executive's job position, responsibilities, duties, authorities, compensation or opportunities within the Company. An Adverse Event shall be considered material when: (i) the executive experiences any reduction in base salary; (ii) the executive experiences a reduction in salary range or opportunity for increases in salary; (iii) the executive experiences a reduction in incentive compensation range or opportunity; (iv) there is a material reduction in the executive's executive benefits or perquisites; (v) the executive is reassigned to a position or role with a lower salary range, salary opportunity, incentive range or incentive opportunity; or (vi) the executive experiences a material reduction in responsibilities.

In the event payment of benefits is triggered under these agreements, the executive officer will be paid in the manner outlined below. All benefits paid under these agreements are conditioned upon the executive executing a waiver and release of claims and confidentiality agreement in a form satisfactory to us. Failure to execute such an agreement prior to the payment date is considered an absolute forfeiture of the severance benefit. In the event an executive officer is terminated for Cause, all benefits and payments under the agreement are forfeited.

In the event an executive suffers an Adverse Event within 24 months of a Change of Control, benefits are paid as follows:

Mr. Bradley, Mr. Long and Mr. Montalbano Paid an amount equal to two year's annual salary plus the average annual bonus compensation paid to the executive in the lesser of the previous three years or the number of full fiscal years the executive has been employed in the position. All forms of equity benefits vest and restrictions on such benefits lapse immediately.

Mr. Ryan and Mr. Petrizzo Paid an amount equal to one year's annual salary plus the average annual bonus compensation paid to the executive in the previous three calendar years.

In the event an executive is terminated from employment for reasons other than Cause, benefits are paid as follows:

Mr. Bradley Paid an amount equal to one year's annual salary plus bonus compensation in an amount equal to 60% of base salary. Restrictions on any of Mr. Bradley's outstanding awards from his initial \$1.25 million restricted stock grant will lapse immediately.

Mr. Long Paid an amount equal to one year's annual salary plus bonus compensation in an amount equal to 50% of base salary.

Mr. Montalbano Paid an amount equal to one year's annual salary plus, if the termination occurs within Mr. Montalbano's first 24 months of employment, bonus compensation in an amount equal to 50% of base salary. If the termination occurs after Mr. Montalbano's first 24 months of employment, he will receive the average bonus payment for the lesser of the three previous years or the number of full fiscal years he has been employed in the position. In addition, restrictions on any of Mr. Montalbano's outstanding awards from his initial restricted stock grant will lapse according to the following schedule:

Edgar Filing: MATRIX SERVICE CO - Form DEF 14A

If termination for reasons other than Cause occurs within Mr. Montalbano's first 12 months of employment with us, all restrictions will lapse on \$350,000 of his initial restricted stock grant; and

Table of Contents

If termination for reasons other than Cause occurs after Mr. Montalbano completes 12 months of employment, but before he completes 24 months of employment, all restrictions will lapse on the remaining \$175,000 of his initial restricted stock grant. Mr. Ryan and Mr. Petrizzo Paid an amount equal to one year's annual salary plus the average annual bonus compensation paid to the executive in the previous three calendar years.

We have also entered into Change of Control Agreements with other executive officers and key members of management. These agreements are designed to promote stability, continuity and focus for key managers during periods of uncertainty that may be created by potential change of control situations. We seek to offer some security and protection when asking officers and managers to remain engaged through uncertain times. The Change of Control Agreements are provided to our other executive officers not named above and select management personnel.

Under these agreements, payment of benefits occurs in the event of a Change of Control and the executive officer/manager has suffered an Adverse Event or been terminated from employment for reason other than Cause, either on the date of the Change of Control or within six months of the Change of Control date. There is no general severance clause in these agreements.

In the event payment of benefits is triggered under these agreements, the executive officer/manager will be paid an amount equal to one year's annual base salary. In addition, all equity awards immediately vest and all restrictions on such benefits lapse. All benefits paid under these agreements are conditional upon the executive executing a waiver and release of claims and confidentiality agreement in a form satisfactory to us. Failure to execute such an agreement prior to the payment date will be considered an absolute forfeiture of the severance benefit. In the event an executive is terminated for Cause, all benefits and payments under the agreement are forfeited.

Benefits will be paid in the calendar year the event occurs and, generally, within thirty days of the date of the event. In no case shall the payment of the severance benefits be paid later than March 15 following the calendar year in which the event occurred.

The following table shows potential payments to our Named Executive Officers under existing contracts, agreements, plans or arrangements, whether written or unwritten for various scenarios involving a termination of each of such Named Executive Officers, assuming a May 31, 2009 termination date and, where applicable, using the closing price of our common stock of \$11.32 on May 31, 2009. These amounts are estimates only. The actual amounts to be paid out can only be determined at the time of such executive officer's separation from us.

Except for certain terminations which entitle a Named Executive Officer to severance payments under the agreements described above, and except for the acceleration of vesting of equity awards upon retirement, death or disability to which a Named Executive Officer may be entitled under his respective stock option or restricted stock unit award agreements, there are no agreements, arrangements or plans that entitle the Named Executive Officers to severance, perquisites or other enhanced benefits upon their termination of employment. Any agreement to provide such other payments or benefits to a terminating executive would be at the discretion of the Compensation Committee.

Equity Ownership Guidelines

The Board of Directors believes that our executive officers should demonstrate their commitment to and belief in the Company's long-term profitability. Accordingly, each executive officer is expected to maintain a significant investment in the Company through the ownership of Company stock. Stock ownership more closely aligns our executive officers' interests and actions with the interests of the Company's stockholders.

On August 2, 2007, the following Equity Ownership Guidelines were adopted.

Participants All Company executive officers

Amount of Ownership Defined as a multiple of the individual's base salary as noted below. These multiples represent the minimum amount an officer should seek to acquire and maintain.

President/CEO 2 x base salary

CFO/COO/Vice Presidents 1 x base salary

Timing: Officers have five years from the date they become subject to these Guidelines to acquire the ownership levels defined herein. Thereafter, they are expected to retain this level of ownership during their tenure as an officer with the Company.

Eligible Forms of Equity:

(1) Direct ownership of Company stock (shares owned outright, regardless of how acquired e.g. restrictions lapse on restricted shares, options exercised held, etc.); and

(2) Vested/exercisable options. An executive officer will be deemed to have satisfied the ownership guideline if either (1) the aggregate price paid by the officer for shares held equals or exceeds the applicable multiple of base salary or (2) at any time the fair market value of the stock owned equals such amount.

An executive officer will be deemed to have satisfied the ownership guideline if the fair market value of the stock owned at any point in time equals the multiplier defined above. In no case will unvested options or RSUs with remaining restrictions count toward equity ownership.

The Equity Ownership Guidelines were adopted August 2, 2007 and each executive officer has five years from the date they become subject to the guidelines to comply with these guidelines. Nonetheless, as of August 1, 2009, Ms. Austin, Mr. Cavanah, Mr. Durkin, Mr. Fosbenner, Mr. Rinehart, Mr. Ryan and Mr. Sullivan have satisfied the ownership guidelines. As of that date, Mr. Bradley, Mr. Robert Long, Mr. Thomas Long, Mr. Montalbano, Mr. Petrizzo, and Mr. Smith had not yet satisfied the ownership guidelines.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires the Company's directors and executive officers, and persons who own more than 10% of the Company's common stock, to report their initial ownership of the common stock and any subsequent changes in ownership of the common stock with the SEC and NASDAQ and to furnish the Company with a copy of each such report.

To the Company's knowledge, based solely on the Company's review of the copies of such reports received by the Company and on written representations by certain reporting persons that no other reports were required during and with respect to fiscal 2009, all Section 16(a) filing requirements applicable to its executive officers and directors, and 10% stockholders were complied with on a timely basis, except for one late filing each for Mr. Durkin, Mr. Montalbano, Mr. Ryan and Mr. Sullivan, and two late filings for Mr. Robert Long. The Company administers the

Edgar Filing: MATRIX SERVICE CO - Form DEF 14A

filings required by Section 16(a) of the Securities Exchange Act of 1934 on behalf of the Company's directors and executive officers. The late filings in fiscal 2009 were the result of administrative and communication errors. As a result of the late filing in fiscal 2009, the Company has implemented new procedures to prevent such errors from occurring in the future.

Approval of Amendment Three to the Matrix Service Company 2004 Stock Incentive Plan

The Matrix Service Company 2004 Stock Option Plan was initially adopted by the Board on January 20, 2004, and approved by our stockholders on March 23, 2004 (the Option Plan). The Option Plan was amended, restated and renamed the Matrix Service Company 2004 Stock Incentive Plan (the Incentive Plan) as a result of approval by the Board on July 31, 2006 and approval by our stockholders on October 23, 2006. The Incentive Plan permits the grant of restricted stock, restricted stock units, stock appreciation rights, stock options and performance shares. These awards may be granted under the Incentive Plan until the tenth anniversary of the date of stockholder approval, or October 23, 2016.

Stockholder action at the Annual Meeting will be requested with respect to the approval of Amendment 3 (the Amendment) to the Incentive Plan. The purposes of the Amendment are to (i) increase the total number of shares of Common Stock available for issuance under the Incentive Plan from 1,200,000 shares to 2,300,000 shares, (ii) add new language to the Incentive Plan specifically prohibiting the Compensation Committee, without prior stockholder approval, from effecting any repricing of any award under the Incentive Plan and (iii) add award limits for awards other than options and stock appreciation rights. As of May 31, 2009, there were 219,013 remaining shares of Common Stock reserved for future grants of awards under the Incentive Plan. If the Amendment is approved by the stockholders of the Company, the total number of shares of Common Stock reserved for future grants of awards under the Incentive Plan would be 1,319,013 and represent approximately 4.7 % of the Company s total outstanding shares of Common Stock on May 31, 2009. With the continued growth of the Company, the additional shares requested are essential to ensure the availability of necessary stock to utilize as a critical part of the Company s executive and management compensation plans. While the Board of Directors is aware of the potential dilutive effect of compensatory stock awards, it also recognizes the significant motivations and performance benefits that are achieved from making such awards.

A copy of the Amendment is attached hereto as Exhibit A. A copy of the Incentive Plan will be furnished by the Company to any stockholder upon written request to: Thomas E. Long, Corporate Secretary, Matrix Service Company, 5100 E. Skelly Drive, Suite 700, Tulsa, Oklahoma 74135. The Amendment, which was approved by the Board of Directors on July 30, 2009, will not take effect unless approved by the affirmative vote of the holders of a majority of the shares of Common Stock present in person or represented by proxy at the Annual Meeting and entitled to vote.

The purpose of the Incentive Plan is to strengthen the ability of the Company to attract and retain well-qualified executive, managerial, and professional personnel, and to encourage stock ownership by such personnel in order to increase their proprietary interest in the Company s success. The Company relies heavily upon restricted stock unit awards under the Incentive Plan to compensate its executive, managerial, and professional personnel, and to retain and motivate such personnel, and desires to continue that practice because it believes that such awards encourage and reward effective management that results in long-term corporate financial success, as measured by stock price appreciation.

Summary of the Incentive Plan

Administration

The Compensation Committee of the Board of Directors administers the Incentive Plan. The Committee selects the eligible employees, directors and other participants to whom awards are granted, determines the terms, conditions, form and amount of the awards, establishes, where deemed applicable, performance goals with respect to awards and determines and certifies the achievement thereof. The Compensation Committee has full power to administer the Incentive Plan and to adopt or establish, and to modify and waive, rules, regulations, agreements, guidelines and procedures which it deems necessary or advisable for the administration of the Incentive Plan. However, the Incentive Plan does not permit the Compensation Committee, without prior stockholder approval, to effect any repricing of any award under the Incentive Plan.

Eligibility and Limits on Awards

An employee, officer, director or consultant of the Company, or any of its subsidiaries or affiliates, is eligible to receive an award under the Incentive Plan. Awards will be made at the discretion of the Compensation Committee. As of May 31, 2009, there were 89 participants who hold awards under the Incentive Plan.

The Incentive Plan places limits on the maximum amount of awards that may be granted to any participant in any fiscal year. Under the Incentive Plan, no participant may receive awards of stock that cover in the aggregate more than 1,000,000 shares of common stock in any fiscal

year.

Table of Contents*Shares Authorized*

As of May 31, 2009, there were only 219,013 shares left under the Incentive Plan available for future grants. The Company is seeking authority to issue an additional 1,100,000 shares of common stock under the Incentive Plan over and above those shares previously authorized under the Incentive Plan. Accordingly, the total number of shares of common stock that may be issued pursuant to new awards under the Incentive Plan if Amendment 3 is approved is 1,319,013. The total number of shares authorized under the Incentive Plan is subject to adjustment in the event of a recapitalization, stock split, reorganization or similar transaction.

To the extent that shares of common stock subject to an award under the Incentive Plan are not issued by reason of (i) the expiration, termination or forfeiture of such award, (ii) the withholding of shares to satisfy tax withholding requirements of an award, or (iii) the tendering of previously-owned shares to pay all or a portion of the exercise price of a stock option or satisfy the tax withholding requirements of an award, then such unissued shares shall again be available for issuance under the Incentive Plan. The shares of common stock covered by an award are counted as used under the Incentive Plan only to the extent they are actually issued and delivered to a participant.

The source of common stock issued with respect to awards may be either authorized but unissued shares or previously issued shares held as treasury stock. The closing price per share of the Company's common stock on the Global Market System of the NASDAQ Stock Market LLC (NASDAQ) on September 2, 2009, was \$10.55.

Awards

The following types of awards may be granted under the Amended Incentive Plan:

Stock Options. Stock options may be (1) options to purchase common stock intended to qualify as incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended (the Code), or (2) options that do not so qualify, or non-qualified stock options. The exercise price per share of each stock option will be determined by the Compensation Committee but may not be less than 100% of the fair market value of a share of common stock on the date of grant. Each stock option may be exercised in whole, at any time, or in part, from time to time, after the option becomes exercisable. Upon exercise, an option holder must pay the exercise price of the option in full, including applicable taxes. Payment of the exercise price may be in any legal manner permitted by the Compensation Committee and set forth in the award agreement, which may include the use of shares of common stock already owned by the option holder or through a broker-assisted cashless exercise procedure. The Incentive Plan limits the term of any stock option to 10 years.

Stock Appreciation Rights. A stock appreciation right entitles the holder, upon exercise, to payment of an amount equal to the excess of the fair market value of a share of the Company's common stock on the date of exercise over the grant price. The grant price may not be less than the fair market value of a share of the Company's common stock on the date of grant. Payment may be made in shares of common stock, cash or a combination of shares and cash as specified in the applicable award agreement.

Phantom Share Rights. A phantom share right entitles the holder to receive an amount of cash equal to the fair market value of a specified number of shares of common stock upon satisfying certain vesting conditions established by the Compensation Committee. Phantom share rights may be forfeited if, for example, the recipient's employment terminates before the award vests and/or if certain performance goals are not met. Recipients of phantom share rights will have no rights of a holder of common stock.

Restricted Stock. Restricted stock is an award of shares of common stock that is made subject to specified restrictions on transfer and subject to a substantial risk of forfeiture until certain conditions are met as determined by the Compensation Committee. Conditions may be based on continuing employment and/or achieving performance goals. Unless otherwise specified by the Compensation Committee, shares of restricted stock may be voted by the recipient.

Restricted Stock Units. Restricted stock units represent the right to receive shares of common stock upon satisfying the vesting conditions established by the Compensation Committee. Restricted stock units may be forfeited if, for example, the recipient's employment terminates before the award vests and/or if certain performance goals are not met. Recipients of restricted stock unit awards will have no rights of a holder of common stock unless and until shares of common stock have actually been issued upon vesting of such units.

Table of Contents

Performance Shares. Performance shares are awards entitling the recipient to receive a number of shares of common stock upon the achievement of performance goals and such other conditions as established by the Compensation Committee. The minimum vesting period (i.e., performance cycle) for a performance share award is one year. A recipient of a performance share will have no right as a stockholder until shares of common stock are delivered to the recipient in settlement of such performance share.

Performance Goals

To allow certain awards granted under the Incentive Plan to the Company's Chief Executive Officer and its four most highly compensated executive officers to qualify as performance-based compensation under Section 162(m) of the Code, the Incentive Plan provides that the Compensation Committee may establish performance goals with respect to an award based upon one or more of the following performance criteria: (1) total shareholder return, (2) return on invested capital, equity or assets, (3) operating profit, (4) earnings per share, (5) sales or revenues, (6) operating expenses, (7) common stock price appreciation, (8) cash flow, (9) increase in economic value of a subsidiary, division, business unit, or asset or group of assets, (10) earnings of the Company (i) before interest, taxes, depreciation and amortization or (ii) after interest, taxes, depreciation and amortization, (11) reductions in expenses, expressed in specific amounts and/or as a percentage reduction, or (12) backlog.

At the end of each performance cycle, the Compensation Committee will determine and certify the extent to which the performance goal established for the performance cycle has been achieved and determine the number of shares to be delivered, if any, as a result thereof.

Award Agreements

The terms and provisions of each award under the Incentive Plan are evidenced by an award agreement. The award agreement will generally set forth the number of shares of common stock subject to the award, the exercise or purchase price (if applicable), vesting requirements, term and other restrictions applicable to an award and, in the case of performance-based awards, the applicable performance goals.

Change in Control

In the event of a change in control of the Company (as defined in the Incentive Plan), all stock options and stock appreciation rights granted under the Incentive Plan shall vest and become exercisable immediately, awards of restricted stock and restricted stock units shall vest immediately, and all performance goals established for outstanding performance shares shall be deemed immediately satisfied at the respective target levels. In addition, the Compensation Committee may adjust outstanding options by substituting stock or other securities of any successor or another party to the change in control transaction or cash out the outstanding stock options, in any such case, generally based on the consideration received by the Company's stockholders in the transaction.

Amendment and Termination of Incentive Plan

The Board of Directors may at any time amend, alter, suspend or terminate the Incentive Plan, provided that no such action may impair any outstanding award without the consent of the participant affected thereby. In addition, unless approved by the Company's stockholders, no amendment or modification may increase the number of shares of common stock that may be issued under the Incentive Plan (except pursuant to an adjustment related to a corporate change affecting the common stock), reduce the minimum purchase price at which shares may be offered under stock options or stock appreciation rights, change the class of persons eligible to participate in the Incentive Plan, or extend the termination date for making awards under the Incentive Plan. Also, no amendment or modification which is required to be approved by the Company's stockholders under the rules of NASDAQ, the requirements of Rule 16b-3 under the Securities Exchange Act of 1934, or any other applicable law, regulation or rule may become effective unless and until the Company's stockholders approve it. No award may be granted under the Incentive Plan after October 23, 2016.

Tax Consequences

The Company believes that under present U.S. tax laws the following are the U.S. federal income tax consequences generally arising with respect to awards granted under the Incentive Plan. The grant of an option, a phantom share right or a stock appreciation right (SAR) will create no tax consequences for the participant or the Company. The participant will have no

Table of Contents

taxable income upon exercising an incentive stock option (ISO) (except that the alternative minimum tax may apply) and the Company will receive no deduction at that time. Upon exercising an option other than an ISO (NSO), a participant will recognize ordinary income equal to the difference between the exercise price and the fair market value of the stock acquired on the date of exercise. Upon the payment of the value of a phantom share right when the vesting conditions are satisfied, the participant will recognize ordinary income equal to the amount of cash received. Upon exercising an SAR, a participant will recognize ordinary income equal to the amount of cash or the fair market value of the stock received on the date of exercise. In the case of the exercise of an NSO or SAR, the Company generally will be entitled to a deduction for the amount recognized as ordinary income by the participant, unless such deduction is limited by Section 162(m) of the Internal Revenue Code. The treatment to a participant of a disposition of shares acquired upon the exercise of an SAR or option depends on how long the shares have been held and on whether such shares are acquired by exercising an ISO or an NSO. Generally, there will be no tax consequences to the Company in connection with a disposition of shares acquired upon the exercise of an SAR or option, except that the Company may be entitled to a deduction (and the employee will recognize ordinary income) if shares acquired under an ISO are disposed of before the applicable ISO holding periods have been satisfied.

With respect to awards granted under the Incentive Plan involving shares of stock or stock rights that are restricted as to transferability and subject to a substantial risk of forfeiture, generally a participant will recognize ordinary income equal to the fair market value of the shares received at the earlier of the time at which the shares or stock rights become transferable or not subject to a substantial risk of forfeiture. However, in the case of a restricted stock award, but not in the case of an award of restricted stock units, a participant may elect to be taxed at the time of the award notwithstanding the restrictions (to minimize the tax payable in respect of the appreciation in the value of the stock from the time it is awarded until the restrictions lapse). The Company generally will be entitled to a deduction for the same amount unless such deduction is limited by Section 162(m) of the Internal Revenue Code.

The foregoing provides only a very general description of the application of U.S. federal income tax laws to awards under the Option Plan. The summary does not address the effects of foreign, state and local tax laws.

Awards Granted

As of May 31, 2009, restricted stock units for a total of 745,550 shares are outstanding under the Incentive Plan. Since inception of the Incentive Plan through May 31, 2009, restricted stock unit awards for the following number of shares have been granted under the Incentive Plan to the Named Executive Officers of the Company and specified groups: Michael J. Bradley (President and Chief Executive Officer), 269,030 shares; Joseph F. Montalbano (Vice President and Chief Operating Officer), 33,175 shares; Thomas E. Long (Vice President Finance, Chief Financial Officer and Secretary), 63,801 shares; James P. Ryan (President, Matrix Service Inc.), 32,900 shares; and Matthew J. Petrizzo (President, Matrix Service Industrial Contractors, Inc.), 33,700 shares; all current executive officers as a group, 553,489 shares; all employees, excluding current executive officers, as a group, 278,578 shares; and all current directors who are not employees, as a group, 48,500 shares. Future awards under the Incentive Plan are not yet determinable. The closing price for the common stock on the NASDAQ Global Market on May 31, 2009, was \$11.32 per share.

Required Vote of Stockholders

The affirmative vote of a majority of the votes cast on this proposal is required to approve Amendment 3. Abstentions will be included in determining the number of votes cast on the proposal, thus having the effect of a vote against the proposal. Broker non-votes are not counted in determining the number of votes cast on the proposal.

The Board of Directors recommends that stockholders vote For the approval of Amendment Three to the Incentive Plan.

AMENDMENT 3

TO

MATRIX SERVICE COMPANY

2004 STOCK INCENTIVE PLAN

1. *Introduction.* The Matrix Service Company 2004 Stock Option Plan was initially adopted by the Board of Directors of Matrix Service Company (the "Company") on January 20, 2004, and approved by the Company's stockholders on March 23, 2004 (the "Option Plan"). On October 23, 2006, the Company's stockholders approved, based on the recommendation of the Compensation Committee and approval of the Company's Board of Directors, the amendment and restatement of the Option Plan (the "Amended and Restated Plan"). The Amended and Restated Plan was renamed the Matrix Service Company 2004 Stock Incentive Plan (the "Incentive Plan") and permits the grant of restricted stock, restricted stock units, stock appreciation rights and performance shares, in addition to options. Awards may be granted under the Incentive Plan until October 23, 2016, the tenth anniversary of the date of stockholder approval. The Incentive Plan was amended by Amendment 1 to Matrix Service Company 2004 Stock Incentive Plan on October 23, 2006, in order to clarify certain authority of the Compensation Committee. The Incentive Plan was subsequently amended By Amendment 2 to Matrix Service Company 2004 Stock Incentive Plan, effective as of October 27, 2007, in order to add provisions for the award of phantom share rights and to be compliant with Section 409A of the Code. References to "Incentive Plan" in this Amendment 3 shall mean the Incentive Plan, as so amended. Capitalized terms used herein without definition shall have the meanings provided in the Incentive Plan, as previously amended.

Under the terms of the Incentive Plan, a total of 1,200,000 shares of common stock of the Company are available for issuance pursuant to awards granted under the Incentive Plan (subject to adjustment in the event of certain corporate transactions such as a stock split, etc.).

2. *Purpose.* The purposes of this Amendment are to (i) increase the total number of shares of common stock of the Company available for issuance pursuant to awards granted under the Incentive Plan from 1,200,000 shares to 2,300,000 shares, which will enable the Company to continue to grant awards under the Incentive Plan to attract and retain key employees of the Company and its subsidiaries, (ii) add new language to the Incentive Plan specifically prohibiting the Compensation Committee, without prior stockholder approval, from effecting any repricing of any Award under the Incentive Plan and (iii) add award limits for Awards other than Options and SARs.

3. *Amendments.* The Plan shall be amended as follows:

(a) The definition of "Award Limit" in Section 2(d) is hereby *amended and restated* to read as follows:

Award Limit shall mean Option and SAR Awards, subject to which the aggregate number of shares of Stock equals 1,000,000, and Restricted Stock, Restricted Stock Unit, Performance Share or Phantom Share Right Awards, subject to which the aggregate number of shares of Stock equals 600,000 (in each case, as adjusted in accordance with Section 12).

(b) Sections 4(a) and 4(b) of the Incentive Plan are hereby *amended and restated* to read as follows:

(a) The shares of stock subject to Awards granted under the Plan shall be shares of Stock. Such shares of Stock subject to the Plan may be either authorized and unissued shares or previously issued shares acquired by the Company or any Subsidiary. The total number of shares of Stock reserved and available for distribution pursuant to Awards granted under the Plan is 2,300,000 shares. The total number of shares of Stock that may be issued pursuant to ISOs under this Plan shall be 2,300,000 shares.

(b) Notwithstanding any of the foregoing limitations set forth in this Section 4, the number of shares of Stock specified in this Section 4 shall be adjusted as provided in Section 12. The total number of shares of Stock that may be issued pursuant to ISOs under this Plan shall be subject to adjustment under Section 12 only to the extent that such adjustment is consistent with adjustments permitted of a plan authorizing incentive stock options under Section 422 of the Code.

(c) Section 6(g) of the Incentive Plan is hereby *amended and restated* to read as follows:

Edgar Filing: MATRIX SERVICE CO - Form DEF 14A

(g) Subject to the terms and conditions and within the limitations of the Plan, the Committee may modify, extend or renew outstanding Options or SARs granted under the Plan (to the extent not theretofore exercised); provided, however, except as provided in Section 12, the terms of outstanding Awards may not be amended to reduce the exercise price of outstanding Options or SARs; and provided further, outstanding Options or SARs may not be cancelled in exchange for cash, other Awards, or Options or SARs with an exercise price that is less than the exercise price of the original Options or SARs without prior stockholder approval.

(d) A new Section 7(g) is hereby *added* to the Incentive Plan to read as follows:
