Since the OTCBB does not have rules regarding independence of audit committee members, the Board makes its determination as to the independence of our Audit Committee members based on the definition of independence as defined under the rules of the NYSE Amex. Under the applicable rules and regulations of the NYSE Amex, each member of a company's audit committee must be considered independent in accordance with Section 803A of the NYSE Amex LLC Company Guide and Rule 10A-3(b)(1) under the Exchange Act. Our Board reviews the NYSE Amex standards and Exchange Act definitions of independence for Audit Committee members on an annual basis and has determined that all members of the Company's Audit Committee are independent (as independence is currently defined in Section 803A of the NYSE Amex Listed Company Manual). Our Board has determined that all members of our Audit Committee also meet the requirements for financial literacy under the NYSE Amex listing standards.

Our Board has determined that Mr. Zaniboni, the chairman of our Audit Committee, is an audit committee financial expert, as defined under applicable SEC rules, and that Mr. Zaniboni meets the background and financial sophistication requirements under Section 803A of the NYSE Amex LLC Company Guide. In making this determination, the Board made a qualitative assessment of Mr. Zaniboni's level of knowledge and experience based on a number of factors, including his formal education and experience. Both our independent registered public accounting firm and internal financial personnel regularly meet privately with our Audit Committee and have unrestricted access to this committee.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

Our Audit Committee is composed of independent directors, as determined in accordance with Section 803A of the NYSE Amex LLC Company Guide and Rule 10A-3 of the Exchange Act. The Audit Committee operated pursuant to a written charter adopted by the Board, a copy of which may be viewed on our Internet website at www.sorrentotherapeutics.com under Corporate Governance.

As described more fully in its charter, the purpose of the Audit Committee is to assist our Board with its oversight responsibilities regarding the integrity of our financial statements, our compliance with legal and regulatory requirements, assessing the independent registered public accounting firm's qualifications and independence and the performance of the persons performing internal audit duties for us and the independent registered public accounting firm. Management is responsible for preparation, presentation and integrity of our financial statements as well as our financial reporting process, accounting policies, internal audit function, internal accounting controls and disclosure controls and procedures. The independent registered public accounting firm is responsible for performing an independent audit of our consolidated financial statements in accordance with generally accepted auditing standards and to issue a report thereon. The Audit Committee's responsibility is to monitor and oversee these processes. The following is the Audit Committee's report submitted to the Board for 2009.

The Audit Committee has:

reviewed and discussed our audited financial statements with management and Mayer Hoffman McCann P.C., the independent registered public accounting firm;

discussed with Mayer Hoffman McCann P.C. the matters required to be discussed by Statement on Auditing Standards No. 114, Communications with Audit Committees, as may be modified or supplemented; and

received from Mayer Hoffman McCann P.C. the written disclosures and the letter regarding their communications with the Audit Committee concerning independence as required by the Public Company Accounting Oversight Board and discussed the auditors' independence with them.

In addition, the Audit Committee has met separately with management and with Mayer Hoffman McCann P.C.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board that the audited financial statements be included in our Annual Report on Form 10-K for the year ended December 31, 2009 for filing with the Securities and Exchange Commission.

Item 11. Executive Compensation Compensation Committee

Our Compensation Committee is comprised of Mr. Halpryn, Dr. Lockshin and Mr. Zaniboni. Mr. Halpryn serves as the Chairperson of our Compensation Committee. The functions of this committee include, among others:

determining the compensation and other terms of employment of our executive officers and reviewing and approving corporate performance goals and objectives relevant to such compensation;

evaluating and recommending the type and amount of compensation to be paid or awarded to our Board members;

evaluating and recommending to our Board the equity incentive plans, compensation plans and similar programs advisable for us, as well as modification or termination of existing plans and programs;

administering our equity incentive plans;

establishing policies with respect to equity compensation arrangements;

reviewing and approving the terms of any employment agreements, severance arrangements, change in control protections and any other compensatory arrangements for our executive officers; and

reviewing and evaluating, at least annually, the performance of the Compensation Committee and its members, including compliance of the Compensation Committee with its charter.

Our Board has adopted a written charter of the Compensation Committee that is available to stockholders on our Internet website at www.sorrentotherapeutics.com under Corporate Governance. Typically, the Compensation Committee meets at least quarterly and with greater frequency if necessary. The agenda for each meeting is usually developed by the Chairperson of the Compensation Committee, in consultation with our Chief Executive Officer and other representatives of senior management and human resources as necessary. The Compensation Committee meets regularly in executive session. However, from time to time, various members of management and other employees as well as outside advisors or consultants may be invited by the Compensation Committee to make presentations, provide financial or other background information or advice or otherwise participate in Compensation Committee meetings. The Chief Executive Officer may not participate in or be

Edgar Filing: Sorrento Therapeutics, Inc. - Form 10-K/A

present during any deliberations or determinations of the Compensation Committee regarding his compensation. The charter of the Compensation Committee grants the Compensation Committee full access to all of our books, records, facilities and personnel, as well as authority to obtain, at our expense, advice and assistance from internal and external legal, accounting or other advisors and consultants and other external resources that the Compensation Committee considers necessary or appropriate in the performance of its duties. In particular, the Compensation Committee has the sole authority to retain compensation consultants to assist in its evaluation of executive and director compensation, including the authority to approve the consultant's reasonable fees and other retention terms.

The Compensation Committee meets outside the presence of all of our executive officers, including the named executive officers, in order to consider appropriate compensation for our Chief Executive Officer. For all other named executive officers, the Compensation Committee meets outside the presence of all executive officers except our Chief Executive Officer. The annual performance reviews of our executive officers are considered by the Compensation Committee when making decisions on setting base salary, targets for and payments under our bonus plan and grants of equity incentive awards. When making decisions on executive officers, the Compensation Committee considers the importance of the position to us, the past salary history of the executive officer and the contributions we expect the executive officer to make to the success of our business.

Table of Contents**Compensation Discussion and Analysis**

The primary goals of our Board with respect to executive compensation are to attract and retain talented and dedicated executives, to tie annual and long-term cash and stock incentives to achievement of specified performance objectives, and to create incentives resulting in increased stockholder value. To achieve these goals, our Compensation Committee recommends to our Board executive compensation packages, generally comprising a mix of salary, discretionary bonus and equity awards. Although we have not adopted any formal guidelines for allocating total compensation between equity compensation and cash compensation, we have implemented and maintain compensation plans that tie a substantial portion of our executives' overall compensation to achievement of corporate goals.

The shares subject to the stock option vest 100% on the one-year anniversary of the grant. Once vested, the option award remains exercisable until it expires ten years from the date of grant subject to earlier expiration following termination of service as a Director.

⁽²⁾ Represents the fair market value of a share of our common stock, as determined by the Board of Directors, on the option's grant date.

Benchmarking of Cash and Equity Compensation

We have not retained a compensation consultant to review our policies and procedures with respect to executive compensation. We may retain the services of third-party executive compensation specialists from time to time in connection with the establishment of cash and equity compensation and related policies and we intend to take into account input from other independent members of our Board and publicly available data relating to the compensation practices and policies of other companies within and outside our industry.

Elements of Compensation

We evaluate individual executive performance with a goal of setting compensation at levels the Board or any applicable committee thereof believes are comparable with executives in other companies of similar size and stage of development while taking into account our relative performance and our own strategic goals. The compensation received by our executive officers consists of the following elements:

Base Salary. Base salaries for our executives are established based on the scope of their responsibilities and individual experience, taking into account competitive market compensation paid by other companies for similar positions within our industry.

Discretionary Annual Bonus. In addition to base salaries, our Board or applicable committee thereof has the authority to award discretionary annual bonuses to our executive officers. The annual incentive bonuses are intended to compensate officers for achieving corporate goals and value-creating milestones.

Equity-Based Incentives. Salaries and bonuses are intended to compensate our executive officers for short-term performance. We also have adopted an equity incentive approach intended to reward longer-term performance and to help align the interests of our executive officers with those of our stockholders. We believe that long-term performance is achieved through an ownership culture that rewards performance by our executive officers through the use of equity incentives. Our equity incentive plan has been established to provide our employees, including our executive officers, with incentives to help align those employees' interests with the interests of our stockholders.

When making equity-award decisions, the Compensation Committee considers market data, the grant size, the forms of long-term equity compensation available to it under our existing plans and the status of previously granted awards. The amount of equity incentive compensation granted in 2009 reflects the executives' expected contributions to our future success. Existing ownership levels are not a factor in award determination, as the Compensation Committee does not want to discourage executives from holding significant amounts of our stock.

Table of Contents

Future equity awards that we make to our executive officers will be driven by our sustained performance over time, our executive officers' ability to impact our results that drive stockholder value, their level of responsibility within our Company, their potential to fill roles of increasing responsibility, and competitive equity award levels for similar positions in comparable companies. Equity forms a key part of the overall compensation for each executive officer and is evaluated each year as part of the annual performance review process and incentive payout calculation.

The amounts awarded to executive officers are based on the Compensation Committee's subjective determination of what is appropriate to incentivize the executives. Generally, the grants to executive officers vest over a four-year period with 25% vesting on each anniversary of the grant date. All options were granted at the fair market value on the date of grant, as determined by our Board. All equity awards to our employees, including executive officers and to directors, have been granted and reflected in our financial statements, based upon the applicable accounting guidance, with the exercise price equal to the fair market value on the grant date based on the valuation determined by our Board.

Severance and Change-in-Control Benefits. Each of Dr. Antonius Schuh's and Dr. Henry Ji's employment letter with the Company, each of which were entered into as of the September 21, 2009, or the Employment Letters, provides that in the event his employment with us is terminated prior to the end of the term specified in the Employment Letter for any reason other than for cause, then concurrent with such termination, he will be entitled to receive (i) all compensation accrued, but unpaid, up to the date of termination, and (ii) severance in an amount equal to one year's then base salary. In addition, the vesting of all stock options or other equity awards then held by him will accelerate in full and be exercisable for a period of 90 days after any such termination. For each of the Employment Letters, cause is defined to mean (i) any dishonesty that is intended to materially injure the business of the Company, (ii) conviction of any felony, or (iii) any wanton or willful dereliction of duties that are not cured after being provided with 30 days written notice.

Other Compensation. We intend to provide benefits and perquisites for our executive officers at levels comparable to those provided to other executive officers in our industry. Our Board or any applicable committee thereof, in its discretion, may revise, amend or add to the benefits and perquisites of any executive officer as it deems it advisable and in the best interest of the Company and our stockholders.

Employment Agreements

Pursuant to the Employment Letters, Drs. Schuh and Ji are employed as our Chief Executive Officer and Chief Scientific Officer, respectively. Each Employment Letter is for a term of three years from September 21, 2009. Under their respective Employment Letters, Dr. Schuh will receive an annual salary of \$250,000, Dr. Ji will receive an annual salary of \$240,000, and each will be eligible to participate in any cash-bonus program and equity award plan of the Company in such amounts as our Board or any applicable committee thereof shall determine in its sole discretion.

Offer Letters with Other Executive Officers

Charles P. Rodi, Ph.D. On October 15, 2009, Dr. Rodi signed an offer letter before commencing employment with us. Pursuant to the offer letter, Dr. Rodi will serve as our Vice President, Research and Development and will receive an annual base salary of \$120,000, health benefits and is entitled to participate in our stock incentive plan. Additionally, the offer letter states that Dr. Rodi's employment is at-will and may be terminated at any time and for any reason by either Dr. Rodi or us.

Martina Molsbergen. On August 24, 2009, we entered into a consulting agreement with Martina Molsbergen, an independent contractor. Under this agreement, Ms. Molsbergen: (i) currently receives a monthly retainer of \$2,000, (ii) is eligible for a success fee of 5% of certain proceeds received from any license agreements resulting from her efforts, and (iii) is eligible for the granting of future stock awards for up to 50,000 shares based on the Company receiving proceeds of more than \$2,000,000 from license agreements resulting from her efforts. Under the agreement, either we or Ms. Molsbergen may terminate the agreement at any time upon at least 30 days prior written notice.

Richard Vincent. In January 2010, we entered into a consulting agreement with Richard Vincent, an independent contractor. Under this agreement, Mr. Vincent: (i) currently receives a daily retainer of \$1,000, and (ii) is eligible for an annual bonus at the sole discretion of the board of directors or a committee thereof. Under the agreement, either we or Mr. Vincent may terminate the agreement at any time.

Other than as set forth below, we are not aware of any other beneficial owner of more than five percent of our common stock as of April 1, 2010. Except as indicated by the footnotes below, we believe, based on the information furnished to us, that the persons and entities named in the table below have sole voting and investment power with respect to all shares of common stock that they beneficially own, subject to applicable community property laws.

Edgar Filing: Sorrento Therapeutics, Inc. - Form 10-K/A

Applicable percentage ownership is based on 225,084,127 shares of common stock outstanding as of April 1, 2010, adjusted as required by rules promulgated by the SEC. These rules generally attribute beneficial ownership of securities to persons who possess sole or shared voting power or investment power with respect to those securities. In addition, the rules include shares of common stock issuable pursuant to the exercise of stock options that are either immediately exercisable or exercisable on or before May 31, 2010, which is 60 days after April 1, 2010. These shares are deemed to be outstanding and beneficially owned by the person holding those options for the purpose of computing the percentage ownership of that person, but they are not treated as outstanding for the purpose of computing the percentage ownership of any other person.

Item 13. Certain Relationships and Related Transactions, and Director Independence
Certain Relationships and Related Transactions

The following is a description of transactions or series of transactions since January 1, 2008, or any currently proposed transaction, to which we have been a party, in which the amount involved in the transaction or series of transactions exceeds the lesser of \$120,000 or one percent of the average of the Company's total assets as of December 31, 2009 for the last two completed fiscal years, and in which any of our directors, executive officers or persons who we know held more than five percent of any class of our capital stock, including their immediate family members, had or will have a direct or indirect material interest, other than compensation arrangements that are described under "Employment Agreements" above.

2008 Transactions

On June 2, 2008, (i) KI Equity Partners V, LLC, a Delaware limited liability company, or KI Equity, and Mr. Kevin R. Keating, or Keating, entered into a Stock Purchase Agreement, as amended, or the KI/Keating Purchase Agreement, with Mr. Glenn L. Halpryn, as agent for certain investors in the Company, or the 2008 Investors, pursuant to which KI Equity and Keating agreed to sell to the 2008 Investors, and the 2008 Investors agreed to purchase from KI Equity and Keating, an aggregate of 6,910,000 shares (on a post-reverse split basis) of our common stock, or the KI/Keating Shares, for an aggregate purchase price of \$926,273.46, or approximately \$0.134 per share, and (ii) the 2008 Investors entered into a Stock Purchase Agreement, as amended, or the Garisch Purchase Agreement, with Garisch Financial, Inc., an Illinois corporation, or Garisch, pursuant to which Garisch agreed to sell to the 2008 Investors, and the 2008 Investors agreed to purchase from Garisch, 550,000 shares (on a post-reverse split basis) of our common stock, or the Garisch Shares, for an aggregate purchase price of \$73,726.54, or approximately \$0.134 per share.

The transactions contemplated by the KI/Keating Purchase Agreement and Garisch Purchase Agreement were completed on July 7, 2008, or the 2008 Closings, and immediately following such closings the KI/Keating Shares and Garisch Shares represented approximately 87% and 6.9% of the issued and outstanding shares of our common stock, respectively. To the Company's knowledge, the source of the purchase price for the KI/Keating Shares was from the personal funds and the working capital of the 2008 Investors.

Pursuant to the terms of the KI/Keating Purchase Agreement, and effective upon the closing thereof, Keating resigned from his positions as our Chief Executive Officer, Chief Financial Officer, President, Secretary and Treasurer, and Keating, Jeff Andrews and Margie Blackwell, or the Existing Directors, resigned from their positions as members of our board of directors. Indemnification Agreements with Directors and Executive Officers

We have entered into indemnity agreements with certain directors, officers and other key employees of ours under which we agreed to indemnify those individuals under the circumstances and to the extent provided for in the agreements, for expenses, damages, judgments, fines, settlements and any other amounts they may be required to pay in actions, suits or proceedings which they are or may be made a party or threatened to be made a party by reason of their position as a director, officer or other agent of ours, and otherwise to the fullest extent permitted under Delaware law and our bylaws. We also have an insurance policy covering our directors and executive officers with respect to certain liabilities, including liabilities arising under the Securities Act of 1933, as amended, or otherwise. We believe that these provisions and insurance coverage are necessary to attract and retain qualified directors, officers and other key employees.

Review, Approval or Ratification of Transactions with Related Persons

The Board conducts an appropriate review of and oversees all related party transactions on a continuing basis and reviews potential conflict of interest situations where appropriate. The Board has not adopted formal standards to apply when it reviews, approves or ratifies any related party transaction. However, the Board has followed the following standards: (i) all related party transactions must be fair and reasonable to the Company and on terms comparable to those reasonably expected to be agreed to with independent third parties for the same goods and/or services at the time they are authorized by the Board and (ii) all related party transactions should be authorized, approved or ratified by the affirmative vote of a majority of the directors who have no interest, either directly or indirectly, in any such related party transaction.

Director Independence

The Board has the responsibility for establishing corporate policies and for the overall performance of the Company, although it is not involved in day-to-day operations. Our common stock is quoted on the OTCBB. Since the OTCBB does not have rules regarding director independence, the Board makes its determination as to director independence based on the definition of

independence as defined under the rules of the NYSE Amex. Our Board consults with our counsel to ensure that the Board's determinations are consistent with all relevant securities and other laws and regulations regarding the definition of independent, including those set forth in applicable NYSE Amex rules, as in effect from time to time. Consistent with these considerations, after review of all relevant transactions or relationships between each director, or any of his family members, and Sorrento, our senior management and our independent auditors, our Board has determined that all of our directors, other than Drs. Schuh and Ji, are independent, as defined in Section 803A of the NYSE Amex LLC Company Guide.

Audit Committee's Pre-Approval Policies and Procedures

The Audit Committee has adopted a policy for the pre-approval of audit and non-audit services rendered by our independent auditors, Mayer Hoffman. The policy generally pre-approves specified services in the defined categories of audit services, audit-related services and tax services up to specified amounts. Pre-approval may also be given as part of the Audit Committee's approval of the scope of the engagement of the independent auditors or on an individual explicit case-by-case basis before the independent auditors are engaged to provide each service. The pre-approval of services may be delegated to one or more of the Audit Committee's members, but the decision must be reported to the full Audit Committee at its next scheduled meeting. By the adoption of this policy, the Audit Committee has delegated the authority to pre-approve services to the Chairperson of the Audit Committee, subject to certain limitations.

The Audit Committee has determined that the rendering of the services other than audit services by Mayer Hoffman is compatible with maintaining the principal accountant's independence.
