Item 1.02. Termination of a Material Definitive Agreement.

On May 3, 2010, Ligand Pharmaceuticals Incorporated (the Company or Ligand) received written notice from Trevena, Inc. (Trevena) that it was exercising its right to terminate the Research and License Agreement between the Company and Trevena dated February 5, 2009, as amended (the Research Agreement), effective immediately. Under the Research Agreement, Ligand agreed to screen biological target receptors selected by Trevena against Ligand s library of compounds to identify potential active compounds for the development of novel therapeutics. Pursuant to the Research Agreement, either party may terminate the research collaboration under the Research Agreement at any time, without cause, upon prior written notice to the other party, in which event all licenses granted to active compounds as of such time will remain in full force and effect. While both Trevena and Ligand believe that the interaction between the parties pursuant to the Research Agreement has been productive, Ligand believes that the Research Agreement was terminated in response to changes in Trevena s internal research priorities relating to the subject matter of the research collaboration.

The foregoing description of the Research Agreement and the amendment thereto does not purport to be complete and is qualified in its entirety by reference to the full text of the Research Agreement which was filed as Exhibit 10.319 to the Company s Quarterly Report on Form 10-Q for the quarter ending March 31, 2009 and the full text of the amendment to the Research Agreement which was filed as an exhibit to the Company s Current Report on Form 8-K dated May 3, 2010.
